MAYOR'S T. B. CLINIC

BENGAL CHAMBER UNIT OPENED

THE Third Unit in the series of Chest Clinics to be built in this city, was opened on Sunday, the 7th July, at 3, Strand Bank Road, near Mayo Hospital. The State Minister for Health, Dr. Anath Bandhu Roy, performed the inaugural ceremony while the Mayor, Dr. Triguna Sen, presided over the function. It was a largely attended function. The Ex-Mayor, Shri Naresh Nath Mookerjee, the President of the Bengal Chamber of Commerce, Mr. Michelmores, the Deputy Mayor, Shri Keshab Chandra Basu, and a large number of Aldermen and Councillors, Corporation Officials, important citizens and others also attended the ceremony.

The Clinic named as the Bengal Chamber Unit, was built and equipped under the auspices of the Mayor's T. B. and Domiciliary Treatment Fund, at a total cost of about Rs 1.00 lakhs. The larger portion of the cash came from Messrs. The Bengal Chamber of Commerce and Industry, amounting to Rs. 1.73 lakhs. The two-storeyed building with two separate blocks both for male and female was built at a cost of Rs. 1 lakh. It is one of the best Clinics, so far from the point of view of floor-space and equipment. A separate Ambulance Car for providing domiciliary treatment has also been attached with the Clinic. The six kottahs of land of the Clinic has been leased out by the Calcutta Port Commissioners on a nominal rent to the Corporation for 99 years.

The foundation stone of the Clinic was laid by the then Mayor, Shri Naresh Nath Mookerjee, in 1954. The Clinic witnessed a specimen of architecture planned by the Corporation's City Architect, Shri P. Guha.

Sir G. A. Sim, the former President of the Bengal Chamber of Commerce and Industry, who had passed on the Chamber's collections to the then Mayor in 1955 was also present at the opening ceremony.

The Corporation in one of its previous meetings agreed to maintain the Clinic on the suggestion of the Mayor, Dr. Sen. Situated on a thickly populated area the Clinic is expected to serve a larger section of the people in their needs of T. B. treatment. It may be noted here that among the other Chest Clinics run by the Corporation the Mansatala Clinic, Kidderpore area, is being attended by the highest number of patients daily. It started functioning in September, 1950. The two other clinics, built under the auspices of the Mayor's T. B. Clinic Fund, one at Belvedere, Alipore, and the other at Tangra, Hughes Road, started functioning from December, 1955.

The Corporation's activities in eradicating T. B. out of the city may be said to be successful. According to figures, there had been a decline in T. B. mortality in the city. In 1953-54, 2,640 persons died of the disease. In 1954-55, the figure was 2,492, dropping to 2,032 in 1955-56. In 1956-57, deaths from the same totalled 1,992, in the city.

CORPORATION'S EFFORTS IN FIGHTING THE DISEASE

The inaugural function was held under an erected pandal tastefully decorated with flowers and foliage. The invited guests took their seats on the dais.

At the Clinic, the Health Minister, Dr. Anath Roy, said that T.B. incidence in West Bengal was on the increase. During his visit to Darjeeling, he had found that 1 per cent. of the people there suffered from this disease. Incidence in other districts would also be high. Dr. Roy said that the West Bengal Government had provided a sum of Rs. seven lakhs for the maintenance of T.B. clinics in various parts of the State. They were also proposing to increase the number of beds at Kanchrapara T.B. Hospital by 300 beds. West Bengal was very much in advance of other States in regard to steps against T.B.

Dr. Roy continued that 16.9 per cent. of the total revenue income had been provided in the State for the prevention and treatment of patients suffering from all diseases and .8 per cent. for tubercular patients. He said that in order to provide more medical help Government had a scheme to open chest clinics in different districts.

The Minister also hoped that a day would soon come when T.B. would be stamped out of this State as Malaria and Kala-azar had been eradicated. The Minister appealed to rich people, specially the rich philanthropists, to donate generously for this purpose.

In conclusion Dr. Roy commended the Bengal Chamber of Commerce and Industry for their donation to the Mayor's T. B. Fund to provide medical relief to the suffering humanity.

Addressing the function the Mayor referred to the Corporation's activities in fighting tuberculosis in the city. He said that Corporation had provided Rs. 4.07 lakhs for the treatment of tuberculosis during the current year, while its expenditure on the item in 1946-47 was Rs. 1.36 lakhs only.

Dr. Sen also said that prior to 1950 Corporation had arrangements only for giving grants to outside institutions which carried on anti-tuberculosis activities in the form of prevention and treatment of the disease. Increasing year after year, grants to outside institutions the total amount of such grants in 1956-57, he said, increased to Rs. 2.25 lakhs for the maintenance of 110 Corporation Free T.B. beds in different hospitals and for activities of tuberculosis relief organizations.

The Mayor said that a sum of Rs. 1.42 lakhs was allotted for the running of the three chest clinics in 1956-57. In the current year, he said, a larger sum has been provided in the budget for running the four chest clinics in addition to aforesaid grants. An X-Ray plant would also be replaced at Mansatala Clinic.

The Mayor also said that during the first six months of 1957 the total number of patients treated in the existing three chest clinics was 44,441 and the total number of new patients was 5,929. The total number of cases diagnosed as pulmonary T.B. amongst the new cases, who were undergoing treatment was 2,287. He acquainted the audience that all examinations including skia-gram were done in these clinics free of cost. Even there are arrangements for free supply of anti-biotic and chemotherapeutic medicines, he added.

EX-MAYOR'S UNTIRING EFFORTS

Dr. Sen then referred to the untiring efforts of the Ex-Mayor, Shri Naresh Nath Mookerjee, towards giving relief to poor people suffering from tuberculosis and how eventually he had succeeded in getting donations from the public to the clinics. The Mayor also expressed his appreciation to the Bengal Chamber of Commerce and Industry for their "princely donation".

ISOLATION CAMP

The Corporation's project for establishment of an Isolation Camp somewhere in the outskirts of the city has reached some amount of progress and a sum of Rs. five lakhs has been provided for the purpose in the current year's budget, concluded the Mayor.

A GREATEST SCOURGE OF RACE

Mr. Michelmore, President of the Bengal Chamber of Commerce, said that when in 1954 the then Mayor of the city announced his intention of starting a Mayor's Fund for Clinics and for Home Treatment of Tuberculosis, the proposal had been warmly welcomed by members of the Chamber. The appeal for money in this connection launched by the Chamber had a ready response. The requisite funds were raised and handed over to the then Mayor by my predecessor in October, 1955, he said.

Mr. Michelmore also said that in addition to this Clinic, the money donated by them was also sufficient to provide a Mobile Ambulance to treat patients, where necessary, in their own homes. Although the Clinic had been built with money subscribed by the Chamber, it would be open to the public, thus affording facilities for the scientific treatment not only of the clerical and other employees of the contributing firms and companies, but also of the thousands of inhabitants living in the business quarters of the city.

Tuberculosis, Mr. Michelmore continued, was one of the greatest scourges of the human race. It was a disease that took a heavy toll of lives each year in West Bengal, particularly in this city. Yet it was a disease that could be controlled and conquered if there were proper facilities for its early detection and treatment. The lack of such facilities, he said, had in the past been keenly felt by the business community in this city where employers, both large and small, had experienced great difficulty in arranging adequate treatment of tubercular employees.

CALCUTTA NEEDS A DOZEN OF CLINICS

The Ex-Mayor, Shri Naresh Nath Mookerjee regretted that although the area in which the Clinic had been set up was inhabited by multi-millionaires, still he had to approach the Bengal Chamber of Commerce for a donation. Not one of the local inhabitants came forward with any offer of help. Calcutta needed at least a dozen such clinics. Two such clinics, already established, were always overcrowded with patients. The clinic at Tangra was attended by nearly 300 out-door patients daily.

(Continued on page 285)

VIEWS AND REVIEWS

MAYOR'S VISIT OF BURRABAZAR AREA

The Mayor, Dr. Triguna Sen, visited different localities of Burra Bazar area on Tuesday, the 2nd July, 1957. He was accompanied by Shri Iswar Das Jalan, Minister for Local Self-Government, Government of West Bengal, Councillors Krishna Chandra Bysack, Dr. Sudhansu Kumar Seth and Hari Narayan Sadan.

His visit was arranged by the Nagarik Swasthya Sangh. A Memorandum together with photographs of different localities of the area was presented for apprising him of the situation of the area. The Mayor himself went inside a khatal to study its real situation. The Mayor was also taken round the different pathways. He even looked into many of the private houses where deteriorating conditions were growing on. The Vice-President of the Sangha, Shri Mohanlalji Nopany and other workers were also present.

The Memorandum drew the attention of the Mayor in regard to the shortage of water, the khatal menace, unsatisfactory arrangement of drainage, shortage of public parks. The Mayor, however, assured that these items would receive his attention.

FOOD ADULTERATION

Calcutta Corporation will be placed in a better position as regards checking of a larger number of food adulteration cases in the city if the State Government accedes to the request made by the Corporation in suitably amending the present Prevention of Food Adulteration Act. The Corporation at its weekly meeting on the 5th July unanimously passed a resolution containing an amendment to the Food Adulteration Act, 1955. This Act was originally passed by the Government of India and authorized the State Governments to frame rules for suitably applying them in their respective States. The amendment so recommended, specifically authorized the Corporation authorities to proceed in this matter. Designated as a Public Analyst the Corporation's Chief Analyst would be empowered to analyse all foodstuffs selling in the city. The Public Analyst has further been authorized to appoint inspectors to collect samples of foodstuffs from vendors. The Corporation's powers would be strengthened in the matter of issuing licenses to the shops as well as discriminating powers to cancel those licenses in case of breach of any conducive rules for supplying healthy and wholesome food to the citizens.

The Draft Amendment was in the shape of delegation of powers to be conferred upon the Corporation authorities under the present Food Adulteration Act, 1955. The State Government is the intermediary authority to see that these rules are followed either by themselves or through agents mainly Local Bodies.

Since the enactment of the present Act the Corporation was found in a helpless position, in

tackling the adulteration cases. Rather the lacunae of the Act let loose the un-social elements and in an unbridled way the cases multiplied. The Corporation sought court's help on many occasions still the miscreants slipped through the net. Even in trying one such case the Calcutta High Court questioned on the powers and scope of the Municipal Magistrates who were generally entrusted in trying such cases.

Thus it was a source of headache to the Corporation authorities who looked into it. The Mayor Dr. Triguna Sen since his election, took a vow to eradicate the evil from the city. Many of the Aldermen and Councillors also requested the Mayor to devise some ways and means for an effective check of the adulterations in the city. The Aldermen and Councillors met in an informal conference some time back and decided to request the State Government for the amendment of the Act. It was further decided that the present powers of the Corporation in this regard was somewhat inadequate to tackle the problem. Hence the proposed Amendment of the Act.

In spite of all these handicaps Corporation's move to stamp out adulteration from the city had not been stopped. The Department concerned collected samples whenever a suspicion arose and ably tackled the situation. Police help had been available in the past so also in the present movement. We give below in this connection a story of a case tried by the Hon'ble High Court wherein the miscreant was punished due to able and tactful pursuance made by the Corporation officials.

Mr. Justice S. N. Guha-Roy of Calcutta High Court disposed of recently the appeal preferred by Shri Madan Mohan Dhammamaj, a firm, and its manager against an order of the 2nd Municipal Magistrate, who had sentenced the appellants to pay a fine of Rs. 1,000 each for adulteration of foodstuff.

His lordship held that the mustard oil, whose sample was collected by the Corporation was adulterated, as alleged, and that it was stored for sale for human consumption. His lordship, however, reduced the fines from Rs. 1,000 to Rs. 500 each.

It appeared that several tank-wagons containing mustard oil, lying at Pathuriaghata railway siding, were examined by the Corporation Food Inspector and the Public Analyst who found the oil to be adulterated with groundnut oil. The oil was seized. The appellants were convicted and sentenced. A ground of the appeal was that the oil was not sold nor was it stored for selling.

INSECURE BUILDINGS

With the advancement of monsoon hardly a day passes on without a report published in the Press about an incident of house collapse. A case of one of the worst house collapse in the city in

recent years had occurred on a Sunday morning, the 7th July involving injury to three persons, two seriously. The incident occurred in Maharshi Debendra Road in the Jorabagan area about 8-15 A.M. Nine rooms on the entire northern and western wings of a huge three-storeyed building, together with a tin-structure abutting on the western wing, covering an area of 600 sq. ft., collapsed completely, and a larger portion of what remained of the structure,—less than half the original size, hanged perilously. The house was inhabited by a number of poor people with their families. In spite of repeated warnings from the Corporation City Architect that a large part of the house was unsafe and needed immediate demolition—the owner, the Khemka Charitable Trust paid little attention to it. The notice was served with an order for demolition a year ago by the Department, and the parties were involved in litigation over the issue.

Some of the occupiers with their family migrated earlier for a safer place otherwise the incident would have entrapped a larger number.

The Corporation's City Architect opined that the disaster had been accelerated by operations of a linseed oil factory near the building. The factory was using a large amount of power, which he considered shook the foundation of the dilapidated structure. A case had been instituted against the factory, but the judgment went against the Corporation again sued the owner for continuance, the factory and its equipment were flattened to the ground. Besides, the building was in a serious state of disrepair for years. In each room lived a family of five to seven and cooking was done in the same room in which they lived. People of the locality called the house 'Bhuter Badi' (Haunted House).

An unsuccessful attempt to demolish a building occupied by refugees in Ramchandra Maitra Lane, north part of the city, was also made on Friday, the 5th July last by Corporation men. This was its third attempt to demolish the entire dilapidated building in the past eight years. Three years ago the Corporation wrote to the Local Self-Government of West Bengal, stating that "the building is in such a dangerous condition that it may fall down any moment". Some old people of the locality also stated that the building was about a century old.

It is stated that the first notice to demolish part of the building was served on its owner by the Corporation in September, 1949. As it was ignored the Corporation filed a suit against the owner in a Municipal Magistrate's court. The Magistrate fined him Rs. 20 in February, 1951. Next month the Corporation again sued the owner for continuance of the offence. But the prosecution failed on technical grounds. After that the Corporation had made two attempts to demolish the entire building. But on both occasions requests from the Refugee Rehabilitation Department had come to stay the operation for some days because it involved over 50 refugee families. As a result, the Corporation succeeded in demolishing only a portion of the building.

The Rehabilitation Department has so far removed about 20 families from the building. About 20 refugee families were still in occupation

of the building in a most insecure and unhygienic condition.

An almost similar incident happened on Saturday, the 6th July in the case of a house at 19, Pratapaditya Road, South Calcutta, which had been declared "insecure" by the Corporation. A demolition order was served but the Corporation was restrained in implementing the order because of a court's injunction.

There are delays no doubt in this matter. The case of another house at 25, Madan Pal Lane, which the Corporation's squad went to demolish on that day, is representative of the two types of delays caused by the slow movement of files in Corporation's departments and by Court's injunctions.

The house with eight rooms on 1,440 square feet is an unauthorized construction. No plan was submitted nor any sanction obtained for it. The Corporation took nearly four years to issue a demolition order in January, 1955, after detection.

The need for immediate demolition of insecure buildings in different parts of the city for the safety of the citizens was stressed at the meeting of the Corporation on Friday, the 5th July.

Referring to the recent house collapse at Maharshi Debendra Road in which three persons were injured and many others trapped Councillor Subrata Sen Sarma said that still there were many buildings in dilapidated condition.

The Deputy Mayor, Shri Keshab Chandra Basu, who presided over that day's meeting said that he would refer the matter to the Commissioner to see that the existing laws might be properly implemented. He also narrated about the position of the Corporation in this regard. There were too two-sided difficulties, one—the Act was not sufficient to tackle with the situation and the other whatever powers the Corporation had there were lacunae in implementing them.

The Deputy Mayor, as a city's expert Solicitor felt for an amendment of the Act. In this connection he said that a Special Committee had already been set up to go into this matter.

Councillor Sen Sarma also remarked that the Corporation had not the necessary powers to demolish such insecure buildings easily. He referred to some specific instances in which demolition orders were pending over two years. He emphasized that a thorough investigation should be made into the matter and measures be taken without further delay for the safety of the citizens.

The injunction, although it is described as temporary, means that the desired demolition is postponed by at least four years. A fresh demolition notice after this period may again be stayed by another prayer before a court. Over thousand demolition notices, which have been served on house owners, remain to be implemented and they are pending before different courts for disposal.

Summarising the position we find that in a number of cases demolition notices were rendered ineffective and their implementation postponed for more than four years because of courts' injunctions. The result of such stay of demolition was that many of the houses collapsed during the period, some times causing loss of life, to prevent which the Corporation had already ordered demolition.

The present procedure of file disposal availing in Corporation's departments adds its contribution to the delay. From the detection of an insecure building or an unauthorized construction by an Inspector to the issuing of demolition order it usually takes over two years. Thus in order to get rid of this deplorable condition an amendment of the Act is essential and sooner this is done it is better for the citizens.

SHRI PRATUL GANGULY IS DEAD

We deeply regret to announce the death of Shri Pratul Chandra Ganguly, a well-known revolutionary leader of Bengal. The death came as a result of heart attack on Friday, the 5th July last. He was 64.

As soon as the death news spread over the city a large number of late Shri Ganguly's friends and admirers rushed to his place of residence at Lansdowne Lane, South Calcutta. The funeral procession was taken out on the next morning being followed by a large number of mourners. Wreaths were also placed on the bier both by individuals as well as on behalf of different organizations.

The late Shri Ganguly was one of the old revolutionary leaders of Bengal and his sufferings and sacrifices for the cause of country was unique. His strength of mind and amiable behaviour attracted a large number of youngmen to dedicate their lives for the cause. He was a member of the old Bengal Legislative Council and the Bengal Legislative Assembly from 1939-46. He underwent imprisonment for ten years in connexion with the Barisal Conspiracy Case in 1918 and spent another fifteen years in jail on different occasions. He came to live permanently in this city after Partition.

—MAYOR'S T. B. CLINIC

(Continued from page 282)

Shri Mookerjee also hoped that such was the need of clinics in that area that the local citizens would be inspired to establish two or three more clinics in that vicinity to serve the suffering humanity.

Councillor Dr. Sukhabehari Mukherjee, Chairman of the Standing Health Committee, extended a vote of thanks to all present.

Earlier, the Deputy Chairman, Councillor Dr. Sudhangshu Sett, garlanded the Minister and others. The function started with the chanting of 'Bande-Mataram' provided by Shri Pabitra Mitra, Shri Pranab Mitra, and other members of the staff of the Health Department.

After the formal inaugural ceremony the Minister accompanied by the Mayor, went round the clinic and himself looked into the plants and equipments and the methods of procedure to be followed there.

Necessary staff for running the clinic has been appointed with Dr. N. Roy as the Medical Officer.

His death was widely mourned. The Corporation also mourned his death and eloquent tributes were paid to his memory by the Deputy Mayor, Shri Keshab Chandra Basu, who presided over the weekly meeting on the 12th July. The House was also adjourned for ten minutes as mark of respect to his memory.

CORPORATION CONDOLES DEATHS

Calcutta Corporation at its weekly meeting on Friday, the 12th July mourned the deaths of a number of important citizens and adjourned sitting for ten minutes as a mark of respect to their memory.

At the outset, the Deputy Mayor, Shri Keshab Chandra Basu, who referred to the deaths said that the country had suffered a great loss with the demise of Dr. Anugrah Narain Sinha, Finance and Agriculture Minister, Bihar. The late Dr. Sinha as one of the old guards of the Congress, had a chequered career who dedicated his life for the cause of country's upliftment. He had been a Minister since 1937 except for the war years when there was no Ministry. Besides he was 'a great leader and a great patriot', added the Deputy Mayor.

The death of H. H. the Aga Khan was mourned by the House. As a direct descendant of Fatima, the daughter of the Prophet Muhammad, the residents of his city shared the sorrow of his loss along with the rest of the world. As a great religious leader The Aga Khan had a place in the minds of his community and news of his death came as a shock to about 400 Ismailis living in the city. Mr. G. A. Dossani, the community's leader, said that in the death of Aga Khan the Ismailis had lost a guide who could give counsel in spiritual as well as temporal matters.

The House also shared the sorrow and grief of its members who had recently sustained losses due to the death of their near and dear ones. The death of Shri Nagendra Lal Saha, elder brother of Councillor J. L. Saha, M.L.C., was referred to in the House. The late Shri Saha died of heart failure. He was 61. He was also connected with many of the philanthropic and cultural institutions of the locality.

The House also mourned the death of a son-in-law of Councillor Chandra Sekhar Bhowmick.

We also extend our sincerest condolences to those Councillors at their bereavements.

BEJOY CHAND WARD IN JADAVPUR HOSPITAL

A cheque of Rs. 23,800 was presented to the K. S. Ray T.B. Hospital at Jadavpur on behalf of the Bijoy Chand Mahatab Memorial Committee on Wednesday, the 2nd July for a six-bed ward to be named after the late Maharajadhiraja Bahadur of Burdwan. The hospital, which was set up in 1923, now has 720 beds.

Sir B. P. Singh Roy presented the cheque to the hospital secretary, Dr. Amarnath Mukherjee, a former Deputy Mayor of Calcutta, on behalf of the committee. Dr. Mukherjee said that a sum of Rs. eight lakhs was necessary to provide suitable amenities to patients.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TENTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 5TH JULY, 1957

WORKING IN HOSPITAL

Several members took the cause of the sufferers of hospital patients in the city. They pointed out that the Corporation had some duties and obligations in this regard because of the fact that Corporation's help was being enlisted by all the city's hospitals in lieu of their services to the citizens. Rising on a matter of urgent public importance, Councillor Nandalal Banerjee also referred to cases when patients had not been properly looked after in one of the city's hospitals. Another member also condemned the indifference of doctors in the hospitals.

Before that Councillor Ranajit Coomar Mitter also pointed out a few irregularities in city's another hospital. He was joined by Councillor Mukur Sarbadhikary who eloquented a few more instances of such irregularities.

LARGER NUMBER OF TUBE-WELLS

In view of the urgency of sinking numerous tube-wells in different parts of the city, the House decided to divert Rs. 1.603 lakhs from the funds allotted to the respective Borough Committees. The provision of funds from the Borough Committees was earlier recommended both by the Standing Finance Committee as well as by the Water Supply Committee. The Mayor was also requested to obtain necessary approval from the State Government for this extra-ordinary procedure which had been necessitated by the urgency of the situation.

BUSTEE LIFE IN CITY

The House's anxiety in extending larger civic amenities to the Bustee areas was once more reviewed when Councillor Samar Rudra urged the House to provide essential amenities for a living being in those areas. He said that the question of supplying filtered water as well as arrangements for Drainage facilities and conveniences had become far reaching cries. Even provision of lights in those dens were found essential. He said that as a result of want of lighting arrangement those places had become haunting grounds of anti-social elements.

According to Councillor Rudra the plea of paucity of funds had stood in the way and even Borough funds were not available for the purpose.

The Mayor, however, assured the House that he would look into the matter.

BIPLABI ANUKUL MUKHERJEE STREET

The House re-named a street running from Wellington Street to Chittaranjan Avenue under Ward No. 42 as Biplabi Anukul Mukherjee Street. The original name was Princep Street. The re-naming was recommended by the Borough Committee No. 9, and it arose in the shape of a motion tabled by an Ex-Councillor, I. B. Beed.

The late Shri Anukul Mukherjee was one of the oldest revolutionaries of Bengal, who had a

hard fight in his life while associating himself in the freedom's struggle. He was imprisoned and transported on several occasions for his political activities. A resident of that locality, namely Malanga Lane, he was born of a middle-class family of Calcutta in the year of 1905. He was imprisoned and subsequently detained under the Defence of India Act during the First World War. He was arrested again after his release in connection with the Dalhousie Square Bomb case. Later on he joined Congress and organized labour movements in Bengal. At the time of his death he was made a home internee. It would be befitting to re-name and associate the street with such a valiant fighter and patriot.

Princep Street was named after the memory of late Mr. James Princep, who was the master of the Mint, Calcutta, from 1892 to 1898. It may be noted in this connection that a Ghat was erected by the citizens of Calcutta in his memory as Princep Ghat.

TRAFFIC RULES

Councillor Dharendra Nath Bose wanted that Corporation would suggest to the city's Traffic authorities regarding speed limits of the moving cars. He went further to suggest that the speed limit would be least possible miles, even at five, in order to avoid increasing number of street accidents. In that connection he referred to an accident occurred recently wherein one of his friends was involved.

Street accidents are on the increase and hardly a day passes on without a report of street accidents in the Press and the average number of accidents varies from four to five a day.

Personalia

SHRI CHAUDHURI AS EDUCATION MINISTER

Shri Rai Harendra Nath Chaudhuri has been appointed a member of the West Bengal Cabinet. He has been given in charge of Education, which portfolio has long been held by the Chief Minister. Shri Chaudhuri was Education Minister in Dr. Roy's 1948-52 Ministry.

Shri Chaudhuri was elected to the Council by members of the West Bengal Assembly to the seat which became vacant as a result of the resignation of Shri Bejoy Singh Nahar after his election to the Assembly.

Shri Chaudhuri was sworn in at Raj Bhawan on Monday the 8th July when the State Governor, Shrimati Padmaja Naidu, administered the oaths of office and secrecy. The Chief Minister and a number of other Ministers and Deputy Ministers were present.

**Ramrikdas****Harlalka****Hospital**

WELL-EQUIPPED NEW ANNEXE
TO BE STARTED SOON

TWENTY-FIVE YEARS' PROGRESS.

WITH an humble beginning the Ramrikdas Harlalka Hospital, Bhowanipur, was established on the 17th January, 1932. Since then the institution has witnessed much progress and to-day the hospital has attained a stage which deserves appreciation on all hands.

Situated at 104, Asutosh Mukherjee Road, South Calcutta, the hospital holds 95 in-door beds including 20 reserved for State Insurance Scheme patients and Dock Labour Board patients with an attached growing out-door section. The number of patients treated during the year 1956-57 was more than fifty-thousand. The section is divided into different branches. Almost all kinds of modern medical facilities are extended to the patients both in in-door and out-door sections. Even specialized medical advises are available to the patients. The hospital contains both paying and non-paying beds.

Its Annual General Meeting held on the 2nd July last was presided over by Shri B. R. Gupta, District Magistrate, 24 Parganas, who promised all kinds of help to the institution for its unique service to the citizens. Councillor Dr. P. K. Roy Chaudhury, a Director of the Hospital, also hoped that the four-storeyed annexe, bought at a cost of Rs. 1.75 lakhs, would sure to extend

larger medical facilities to the citizens. Shri Chittaranjan Roy, a Deputy Minister of the State Government, also spoke. The new Committee elected on that occasion consisted of Shri P. C. Sen, Minister of Food and Rehabilitation, as President with Rai Sarat Chandra Roy Chaudhury, Bahadur, as Vice-President. The other members in the Committee are Hospital Secretary: Dr. J. Banerjee (Civil Surgeon Retd.), Superintendent: Dr. K. Mukherjee, M.B., Treasurer: Shri J. N. Banerjee, (B.C.S. Rtd.), General Secretary: Shri B. Haralalka, and Out-door Administrator, Dr. Sushil Kumar Guha.

CORPORATION BLOCK SIRCARS' ASSOCIATION

The Annual General Meeting of the Corporation Block Sircars' Association, held some time ago, in the hall of the Calcutta Corporation Employees' Association, 1A, Hogg Street, under the presidentship of Shri Abinash Chandra Bhattacharjee, Vice-President of the Association, elected the following office bearers and members of the Executive Committee for the year 1957-58.

President: Councillor Usha Nath Sen, *Vice-Presidents:* Councillor Karam Hossain, Shri Abinash Chandra Bhattacharjee, Shri Nisith Chandra Mitter, Shri Sukhen Chatterjee, *General Secretary:* Shri Kalachand Chatterjee, *Asst. Secretary:* Shri Adyanath Ghosh, and Shri Probodh-gopal Chatterjee, *Dist. Organising Secretaries:* Shri Sankar Lal Mukherjee (Dist. I), Shri Santi Mukherjee (Dist. II), Janab Fahimuddin (Dist. III), Janab Samsul Huda (Dist. IV), *Accountant:* Shri Sachindra Kumar Chowdhury, *Treasurer:* Shri Madan Mohon Bose.

Members:

Shri Manick Ram (Dist. I), Shri Manindra Chandra Sarkar (Dist. I), Shri Surajbali Singh (Dist. II), Shri Amullya Ch. Bose, (Dist. II), Shri Makhanlal Mukherjee (Dist. III), Janab Md. Hafiz (Dist. III), Shri Amullyaratan Ganguly (Dist. III), Shri Kanailal Nandy (Dist. IV), Shri Ram Aggya Singh (Dist. IV), Shri Lakhi Ram (Dist. IV), Shri Indranarayan Singh (Manicktolla), Shri Jugal Kishan Roy (Cossipore).

X-RAY PLANT of the Jitendra Narayan Sishu Seva Bhawan was opened at Raja Dinendra Street on Sunday, the 7th July last by Dr. Anathbandhu Roy, Minister of State for Health, West Bengal. A donation of Rs. 25,000/- has been made to this institution for this purpose by the Rehabilitation Department of the Central Government. The Minister in his speech stressed on the need for such medical arrangements for the young children who were the future citizens of the country.

Shri Chapalakanta Bhattacharjee, M.P., and Dr. Sri-kumar Banerjee both spoke highly of the management of the institution which was run for the purpose of educating children through modern system at a very nominal charges.

Shrimati M. Roy, Founder-Secretary of the institution also spoke.

CITY NEWS PARADE

OBITUARY: The death of Rai Bahadur Nalini Kanta Sen, a well-known lawyer of Faridpur (now in East Pakistan) occurred on Monday, the 8th July. He was 87.

After taking his B.A. degree from Calcutta University, the late Shri Sen became first a teacher of the Ishan Institution at Faridpur. After some time, he took the B.L. degree and joined the Bar there. He soon made a name in the profession and was appointed Government Pleader and Public Prosecutor. He worked in this capacity for 25 years and then retired.

* * * *

Dr. Amulyaratan Chakravarti, an eminent physician died of cerebral haemorrhage at his own residence at 1, Furriapur Street, on Saturday, the 6th July last. He was 69.

Immediately after the First World War the idea of establishing a firm for manufacturing medicines came in his mind and he with some leading physicians of the city including the present Chief Minister of the State, Dr. B. C. Roy, the Bengal Immunity Co. Ltd. was started in 1919. Besides being the Chairman of the Board of Directors of the company and its technical adviser, Dr. Chakravarti was also the Chairman of the Scientific Advisory Board of the Bengal Immunity Research Institute and visiting physician to many hospitals including the R. G. Kar Hospital.

ASUTOSH MUSEUM of Calcutta University has recently acquired a remarkable plaque with an inscribed image of Lord Buddha from Tilda, village in Midnapore District. An inscription on the plaque in typical Gupta characters of the fifth century A.D. reads the usual Buddhist formula: "Ye Dharma Hetopravhava..."

A very rare specimen of ancient terracotta art of Bengal, the plaque has thrown new light on the great civilization (second to eighth century A. D.) of Tamralipta (modern Tamruk in Midnapore) ruins of which had been unearthed some time ago.

According to Prof. D. P. Ghosh, Curator of the Museum, the Buddha image in relief on the plaque testifies to the Chinese account about the existence of many Buddhist sanctuaries in the kingdom of Tamralipta.

ID-UZ-ZUHA, a Muslim festival, was celebrated in the city, on Tuesday, the 9th July. In the morning prayers were held at the Nakhoda and other mosques and in several parks where Maulvis delivered sermons and explained the significance of the day.

The traditional congregational prayer on the Maidan held under the auspices of the Khilafat Committees, was led by Maulana Hamiduddin, Head Maulvi of Calcutta Madrassah. The All India Muslim Ladies Conference (Bengal Provincial Branch) organized the "Nimas-E-Ba-Jamath" at the Muslim Institute Hall.

After prayers, greetings were exchanged and alms distributed to the poor. The rest of the day was spent visiting friends and relatives. Muslim eating houses, specially decorated, drew large number of customers.

ANNUAL VANAMAHOTSAV CEREMONY in West Bengal started with the planting of a South Indian sapling "Nagtalingam" by Shri C. P. N. Singh, Governor of East Punjab, on the lawns of the Belvedere House in

Alipore on Sunday, the 7th July. He was then followed by many others in planting saplings there.

Addressing the gathering at the ceremony, Shri Sinha briefly referred to the significance of Vanamahotsav. He said that educated men and women were getting farther and farther away from Mother Earth.

Shri H. C. Naskar, Minister for Forests and Fisheries, West Bengal, referred to the importance of conserving the forest wealth of the country.

Shri C. K. Roy, Secretary, Forest Department of the West Bengal, said that during the past five years of Vanamahotsav 15.3 million saplings had been planted in West Bengal and of them nearly 50 per cent had survived. It was considered to be a very good record.

There was another formal ceremony at Raj Bhawan on the next day when many of the Ministers planted trees including the State Chief Minister.

181ST ANNIVERSARY OF AMERICAN DECLARATION OF INDEPENDENCE was celebrated at a Reception in the United States Information Service Library, on Sunday the 7th July.

The guests included scientists, educators, newspapermen, business executives, legislators, administrators and others who have visited the U. S. As on past occasions, old friends got together to discuss their experiences and many new acquaintances were formed.

Highlight of the afternoon's programme was an exhibition of square dancing by a group of Americans and the singing of American patriotic songs. There was also a continuous film showing in the auditorium.

BENGAL TUBERCULOSIS ASSOCIATION'S annual meeting was held at Raj Bhavan, on Friday the 5th July last. Presiding over the meeting the State Governor Shrimati Padmaja Naidu said that many of the people attacked by the disease were young men and women. They should be protected from the disease, otherwise all that could be achieved through the Second Plan would be of little use.

The Governor also said that she was one of the fortunate people who had been cured of tuberculosis. So, from a sense of gratitude and in a crusading spirit she had joined the fight against the disease.

The State Health Minister, Dr. A. B. Roy, said that the Government had provided some money for the establishment of a central laboratory in the city and a laboratory in every district to help the anti-tuberculosis campaign and treatment of patients. The Association's main function should be to educate people on the subject by organising magic lantern shows, demonstrations and seminars.

Lt.-Gen. D. C. Chakravarty, Director of State Health Services, said that the Gandhi Smarak Nidhi Sangha would construct a 400-bed T. B. hospital at Kanchrapara at a cost of Rs. 3 million. The State Government had given 92 bighas of land for the hospital which would be fully air-conditioned and would provide surgical treatment of cases.

The Association Secretary's report for 1956 stated that during the year over 54,000 new cases were examined of which over 16,000 were cases of Pulmonary Tuberculosis. Investigation showed that the incidence was the highest among the 20 to 30 years age group.

PHENEOL LAMP BRAND

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-7-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law.
Supt., S. S. Hogg Market.

VIEWS AND REVIEWS

COUNCILLOR DHIREN DHAR

Councillor Dharendra Nath Dhar, M.L.A., representing Ward No. 45, met with an accident while crossing College Street on Wednesday afternoon, the 17th July. He was trapped in between a train car and a moving Taxi which knocked him down. He is on the road to recovery.

Immediately after the incident he was removed to the Medical College Hospital and was placed in the M.L.A. Ward. Councillor Dhar sustained injuries on his left ribs, head, hands and right eye. According to the Medical report he needs a long rest to recover.

The weekly meeting of the Corporation on Friday, the 19th July, prayed to the Almighty for his speedy recovery.

We express our sympathy to him and also pray to God for a quick progress.

CHANNELLING STORM-WATER

Calcutta Corporation at its weekly meeting on Friday, the 12th July, sanctioned the purchase of five portable pumps to drain out water-logged areas in the city during the monsoons. The Standing Finance Committee had recommended for cash purchase of them without going through the prescribed method of calling tenders and others as an emergency measure. Each pump would cost nearly five thousand rupees. They would be 4 in. by 4 in. Centrifugal Portable Pumps of Kirolsker manufacture (India) with Swedish make Diesel Engine with a capacity of 80,000 gallons per hour.

When the recommendation was put up before the House, Councillor Prasanta Kumar Sur felt that these five pumps would be able to render a little help to the citizens in view of the fact that a considerable portion remained water-logged for days together whenever a heavy down-

pour visits the city. From the experiences he narrated the peoples' misery during the last year particularly in the Tollygunge area where an entire locality was completely flooded. And the services of a single pump could not lessen the people's sufferings.

No doubt every year parts of the city are water-logged during the monsoon causing great discomfort to citizens. The worst situation was faced last year owing to heavy rain when several pumps had to be hastily hired from the Fire Brigade to cope with the situation.

Meanwhile, clearance of accumulated silt in the city's 90-mile-long main sewerage system has posed a serious problem. It is estimated that over 1.5 million cubic feet of silt are lying deposited in the sewerage. It has further been stated that a sufficient number of men are not available for silt clearance. The Corporation is thinking to restore the mechanical methods now used in Bombay, for the purpose.

The weekly meeting of the Corporation on Friday, the 19th July, re-iterated all the above difficulties. Many of the Councillors narrated the citizens' misery as a result of heavy downpour on Thursday morning when many of the low lying areas within the city and the added areas remained water-logged for hours together. The day's discussion was initiated by Councillor Dulal Chandra Mukherjee, who narrated the misery of the people residing in Cossipore-Tallah areas. Others also followed him in narrating their own stories.

The Deputy Mayor, Shri Keshab Chandra Basu, who presided on that day, invited suggestions in the shape of ways and means to prevent water-logging.

In that meeting the members were ably supported by Councillor Shyamal Dutta who maintained that the existing sewers, which were mostly

filled with silt, had not the capacity to carry the rain water and in many of the sewers of eight feet deep there had been over five feet high deposit of silt.

He said that of the three feet sewers in Chittaranjan Avenue, two feet and 10 inches had been filled with silt. He mentioned the position of sewers in a number of other streets which were equally deplorable.

Councillor Dutta also emphasized that immediate steps should be taken to cleanse the drains.

The situation as described by the Councillors gives a picture of the city during rains and worse is apprehended when the torrents of rains would continue hours together. The Deputy Mayor on that day assured the members that a larger number of Pumps would be purchased as well as steps would be taken to clear the sewers for passing rain water.

What surprises one is that this deplorable state of affairs has continued for years and whatever remedial measures were taken by the Corporation they could not help to ease the situation. At least in order to get out of the present difficulties the Corporation should leave those long-range programmes for spending lakhs of rupees on redesigning the entire roads system and should think of a simple temporary device by which they can keep rain water down on roads so that transport is not affected suggested one of the citizens. Even the use of portable pumps to drain the water away cannot help the people from such continuing untold sufferings, he said.

Happily Corporation's attention has been drawn to this fact and steps would be taken to mitigate the problem.

INFLUENZA VACCINATION

The Corporation at its weekly meeting on the 19th July, urged the Union Government to provide sufficient quantities of Influenza Vaccines in order to immunize the citizens as a precautionary measure against the second wave of 'Flu epidemic' expected to visit the city towards the beginning of the forthcoming winter. This was suggested by Councillor Dr. P. K. Roy Choudhury, a former Chairman of the Standing Health Committee.

Councillor Roy Choudhury said that in West Bengal, the number of attacks and deaths was 72,775 and 211 respectively till the 6th July, and according to the Union Health Minister, Shri Karmakar, a second wave of 'flu' was "apprehended". The Centre had alerted the State Governments to keep their hospitals well-equipped with medicines and with sufficient number of beds. The Minister had also acquainted the people that scientific data were not available to connect the nuclear explosions with the outbreak of the 'Flu' epidemic.

Within the Indian Union, Madras was the worst-hit State with 500,000 'Flu' cases recorded and the Andaman and Nicobar Islands the least affected, with only 18 cases. Bombay came second with 895,000. The death roll was the highest in West Bengal.

The Minister was also satisfied with the arrangements made in West Bengal as well as in Madras which were the most efficient.

The variations in the figures of death in the States might be due to different circumstances such as the late reporting of cases and malnutrition.

In many of the city's hospitals Influenza patients were accommodated in general wards. According to the Superintendent of one of the biggest hospitals in Calcutta, a 'flu patient spreads infection generally 24 hours before and 24 hours after the onset of fever. The danger of spreading infection is considerably diminished at the stage when a patient is considered fit for admission to a hospital.

Quarantine measures adopted by the Calcutta Dock and Airport authorities on the outbreak of the epidemic in some South-East Asian countries continue in force. Three doctors were appointed by the West Bengal Government temporarily for domiciliary treatment of influenza patients in the bustee areas during the epidemic. The staff is expected to continue in service until threat of a second wave of the disease is removed.

In the meantime Influenza incidence in the city has declined appreciably. The peak period was from the middle of May to the middle of June, when attendance of patients exceeded 200 daily in the outdoor wards of hospitals. For the last two weeks, the daily figures has seldom exceeded 100. Still when a second wave is apprehended the Union Government should provide the Corporation with adequate quantities of 'Flu's Vaccines, now manufactured in this country. If the other epidemic diseases are prevented by precautionary measures there should not be any reason for not checking the much feared second wave of 'Flu epidemic.

LAND IN BUSTEE AREAS

The Corporation had been experiencing difficulties while extending civic amenities to the Bustee people due to some technical difficulties in the existing Municipal Act. Recently, with a sincere desire to improve their lots at least in the shape of providing drinking water to them the Corporation authorities had been put to difficulties when they noticed that unless a quantum of land was allotted as public or Corporation land even the installation of a hydrant water tap was not proper. The Act did not allow the Corporation to acquire the land for that purpose without the proper sanction from the State Government.

With that end in view the Corporation at its weekly meeting held recently unanimously decided to approach the State Government to seek their help in this matter. In a resolution, which was moved by the Mayor and adopted by the House, a recommendation was made to the State Government to confer on the Corporation the powers by adopting a new and separate legislation or by appropriate amendment of the provision of the Calcutta Municipal Act, 1951, to acquire and occupy the necessary area or quantum of land in any bustee for providing essential services or civic amenities to the dwellers of the bustee, such as construction of community connected privies or community safety tanks, latrines or the sinking of tube-wells in the bustees by giving 7 days' notice to the owners of the land in question as well as on payment of reasonable compensation to the owners.

CORPORATION PROCEEDINGS CALCUTTA LOOKS AHEAD

**A GIST OF PROCEEDINGS OF THE ELEVENTH
ORDINARY MEETING OF THE CORPORATION HELD
ON FRIDAY, THE 12TH JULY, 1957.**

COUNCILLORS' TELEPHONES

The Corporation requested the Government of India, Posts and Telegraphs Department, to include the names of Councillors having telephone connections in the Telephone Directory in a constituency-basis arrangement so that the citizens might be placed in an easier position while approaching them over 'phone. The Standing Finance Committee requested the Government through the Corporation to incorporate such order under a big heading "Calcutta Corporation", the list being topped by the Mayor, and the Deputy Mayor.

SHRI N. RAY

The House on the recommendation of the Standing Finance Committee, extended the service of Shri N. Ray, Deputy Chief Accountant (Works and Stores), for one year. This was the second term of extension granted to Shri Ray after he had attained the age of superannuation under the Regulation for Age of Retirement as sanctioned by the State Government.

REMOVAL OF SILTS AT PULTA

The House, on the recommendation of the Standing Finance Committee, sanctioned retention of a reduced number in the staff for the work of removal of silt from Kutchia and Pucca Settling Tanks in the Pulta Pumping Station by water jet process.

COAL FOR PULTA PUMPING STATION

Based on the recommendation of the Standing Water Supply Committee, the House accepted a number of Tenders submitted by business firms for supply and delivery of coal for Pulta Pumping Station. The total quantity of coal as stated in Tenders was 27,000 tons.

A CORPORATION REPRESENTATIVE

The House nominated Shri A. K. Sen, the Chief Engineer, as a representative of the Corporation on the Water Supply and Sanitation, Sectional Committee under the Indian Standards Institution. Most of the institutions have also selected their principal Engineers in this respect.

The letter received in this connection from the Deputy Director (Building), Indian Standards Institution, stated :—

"The Standing Works Committee of the Building Division Council has decided to enlarge the present Sub-Committee on Water Supply,

NEW TALLAH BRIDGE

The Government of West Bengal has decided to construct a new 62-foot-wide bridge over the railway on the Barrackpore Trunk Road at Tallah. The construction of the bridge will be taken in hand sometime during the end of this year.

According to the Works and Buildings Minister, Shri K. N. Das Gupta, the estimated cost of the entire project including dismantling of the present bridge would be Rs. 48.60 lakhs of which the Railways would share Rs. 16.69 lakhs. The bridge would have provision for 10 feet-wide foot-paths on both sides. The actual expenditure on construction of the bridge alone had been calculated at Rs. 20.70 lakhs. The construction would be completed in two years' time.

A draft plan, prepared on the Belgatchia Bridge type, for the purpose, has already been sent to the Railway Ministry, New Delhi for its examination.

DEVELOPMENT OF CALCUTTA PORT

Measures to improve docking facilities in Calcutta Port were described by the Minister for Shipping, Shri Raj Bahadur, in the Lok Sabha recently. The long-term improvement work is necessary because of the fact that several ships have to unload cargoes into lighters.

The measures included the construction of additional berth and provision of additional mechanical appliances for which orders had already been placed; putting into operation newly erected mechanical coal loading and ore loading plants. The expected improvement in labour output will be made with the introduction of a piece-rate scheme being evolved by a tripartite committee.

NEW JUDGES IN HIGH COURT

Four additional judges are likely to be appointed to the Calcutta High Court for two years to help clear up arrears of work. High Court Judges have already agreed to extend their working hours by an hour every day. They have also agreed to sit for 210 days in a year as recommended by the Das Committee.

Plumbing, Drainage and Sanitation into a full Sectional Committee in order that adequate emphasis is given to the important work of laying down standards in regard to basic requirements of Water Supply and Drainage and Codes of Practice for water supply, plumbing, and sanitation in the country. In taking this decision, the Standing Working Committee of the Building Division Council has taken note of a large number of projects in the Public Health Engineering field included in the Second Five-Year Plan, at the instance of the Ministry of Health, Government of India.

Central Aid For Corporation

MAYOR'S MISSION TO DELHI SUCCESSFUL

MAYOR LEAVES FOR DELHI

Standing from left : Shri A. K. Sen, Chief Engineer, the Mayor, Dr. T. Sen and Councillor K. L. Dhandhanian.

PHOTO : AMIYA TARAFDER.

CORPORATION'S Two-crore Scheme for housing its sweepers and other low-paid staff will receive a substantial amount of grant from the Union Government, according to an assurance given by the India's Finance Minister, Shri T. T. Krishnamachari. The negotiation was made by the Mayor, Dr. Triguna Sen, on behalf of the Corporation. He had a two-day discussion on the 11th and the 12th July in Delhi with the Union Government Ministers.

They had generally approved the Corporation's scheme to improve the city's Water Supply and sanitation and had agreed to grant Rs. 2.25 crores for the purpose. The sum was earlier assured by the National Planning Commission under the Second Five Year Plan and a scheme was submitted even earlier through the West Bengal State Government. Out of this grant a sum of Rs. 1.45 crores will be exclusively spent for the improvement of Water Supply in the city. This will include installation of another two sets of Rapid Gravity Filters at Pulta Water Works, erection of an underground reservoir at Tallah Pumping Station with automatic valves, electrification of Pumping Sets and a few plants at Pulta, a Pressure Station at Tallah and such like. With the completion of the project the city's Water Supply will reach at a level of about 150 million gallons per day. As regards Sanitation Schemes the city's Drainage would be improved as it is in a deteriorated stage.

The Housing Scheme will receive a 50 per cent. grant and an advance of 25 per cent. repayable at annual instalments. The Corporation has to secure the balance amount in the way of raising loans either as an advance from the State Government or by obtaining the same in the open market.

During his five-day stay in Delhi, the Mayor had met the Union Commerce Minister, Shri Morarji Desai and Sardar Swaran Singh, Minister for Steel and Fuel, for harnessing import licenses of mild steel plates for Tallah-Pultra Main and other Plants and Machinery. The Mayor had also seen the Union Health Minister, Shri D. P. Karmaker, on the 12th July last, regarding approval of the city's Sanitation Schemes as well as for suitable amendment of the Prevention of the Food Adulteration Act. so that the Corporation might stamp out the evil out of the city. The Corporation had also put up their suggestions earlier.

Councillor K. L. Dhandhanian, Chairman of the Standing Finance Committee, assisted the Mayor in all these negotiations. The Corporation Chief Engineer Shri A. K. Sen also accompanied them. The party left for Delhi on the 9th July last and returned on the 16th morning.

The Union Government has also agreed to pay the Corporation the arrear service charges for buildings occupied by Central Government Officers in the city.

Thus the Corporation will have to implement schemes and projects totalled Rs. 8.25 crores within this year, including a few Loan Projects.

CALCUTTA'S CIVIC LIFE PASSING THROUGH A CRISIS

The problems now causing concern are: the immediate augmentation of filtered water supply, sanitation and slum clearance. Accompanied by Councillor Dhandhanian and Shri Sen, Dr. Sen met the Union Ministers twice. They had long talks with the two Ministers. Sardar Swaran Singh

was specially requested to facilitate the import of mild steel plates for the purpose of laying the city's water mains.

After their mission being successful to a considerable extent, they issued a statement to the Press in Delhi, appreciating the sympathy and consideration they had received from the Union Government in tackling the problems of this vast city of the East. They said:—

"We met the Union Ministers of Finance, Health, Housing, Iron and Steel and Commerce and Industries and their Secretaries.

"We are very happy to find that all the Ministers, without any exception, have sincerely realized that civic life in Calcutta is passing through a crisis. They have realized that the dice indeed is loaded against the Corporation, the men and women of this city, who have to face a situation which is largely the creation of forces beyond the control of Calcutta Corporation.

"The real anarchy was set in Calcutta by the World War II. Anti-social forces have been let loose since then, and squalor and misery have gone on increasing until these have become too big to be shaken off. The refugees from East Bengal came not in streams but in a ceaseless flood, while urbanization and employment opportunities try the city services by throwing into Calcutta lakhs of people during the better part of their waking hours.

"Over and above, Calcutta happens to be the refuge of all the jobless and helpless people of the rest of India, who too, have to be looked after if the ordinary citizen is to be saved from dirt and disease and epidemics. It is an uphill work and in fact a challenge to our existence. The Corporation of Calcutta has accepted this challenge manfully.

"The Union Ministers have now understood that Calcutta, whose water supply and drainage were built about 80 years ago for a population of only 10 lakhs of people has now four times this population, 6 lakhs of whom live in slums and its area has increased three times.

"There are no two opinions that if Calcutta is to be saved, which we must, its slums must be cleared and its water supply, its drainage and sanitary conditions must be improved without the least possible delay."

No doubt the above problems are causing concern to the City Fathers as well as the State Government and unless the 8.25 crore schemes are implemented the citizens have little scope to lead a peaceful civic life. This includes a number of Corporation's Development projects to be financed out of Loan Fund. The Chief Engineer, Shri A. K. Sen has been entrusted to undertake all these projects and a Loan Project Section has already been temporarily established in this connection. But what is lacking at this moment is an adequate number of technical personnel from which the Corporation suffers much.

A MODERN STADIUM IN THE CITY

(Continued from page 311)

rampart and a still larger number were deprived of both the opportunities.

As to the question of selecting the site for the purpose Prof. Bhattacharyya did not see any reason that the military authorities, who were in possession of the Maidan, objected to the building of any Stadium there. In case the military authorities persisted in their refusal, the Stadium, he said, could be located in the Band's Stand in the Eden Gardens which was the property of the West Bengal Government. Expert opinion also favoured the site.

Prof. Bhattacharyya, however, welcomed the Government's step in seizing the National Cricket Club ground. The so-called N.C.C., he alleged, had become a 'nest of vested interests.'

ASSEMBLY ALSO PASSED A RESOLUTION

On the same day the State Legislature discussed the issue and passed an amended resolution on the Stadium, incorporating a suggestion from a section of the opposition. This did not, however, satisfy all the Opposition members. Shri Bejoy Singh Nahar who put up the amendment, suggested the construction of a Stadium at Eden Gardens.

Moving the original resolution, Dr. Jnan Mazumdar, a Calcutta M.L.A., said that profit motive had permeated all spheres of society and today it had entered the sports world. He wondered why Calcutta should not have a Stadium when all other cities in India were equipped with it. He alleged that a company, the Indian Football Association, and some premier clubs were standing in the way of quick construction of a Stadium.

Shri Jyoti Basu also deplored the Government's attitude for sitting tight on such an important issue for two

years. He pleaded that after adoption of the resolution the Government should call a conference of all parties and have their views on the subject.

Every evening the debate, the State Chief Minister, Dr. B. C. Roy said that main question before them was the site of the Stadium. The Band Stand as suggested by him was not suitable because the Calcutta people had no free open place for outing in the city. They approached the military authorities for permission to build the Stadium in the Maidan but the latter were firm in their refusal on the ground that no pucca structure was to be built within a mile of the rampart of the Fort William.

STADIUM DEMAND COMMITTEE

Since then situation has changed and a progress in this regard is expected soon. The West Bengal Government will go ahead with its plan for a Composite Stadium in the city and complete the building as early as possible according to an assurance given by Dr. B. C. Roy, Chief Minister, to a deputation from the Stadium Demand Action Committee recently.

The deputation, led by Shri Habul Sircar, Vice-Captain of Mohun Bagan's I. F. A. Shield winning team of 1911, stressed the urgent need for a Football Stadium. Agreeing, Dr. Roy said that the present cricket ground at Eden Gardens was the only possible site for the construction of a Stadium where important cricket matches could be played in addition to football and other games. He expressed special concern over the cricket pitch which, he said, would be carefully maintained. The discussion was extended to other details connected with the Stadium and the general problems of Calcutta sports.

AZAD HIND AMBULANCE SERVICE

Tenth Anniversary Function Celebrated

With much eclat and enthusiasm the members of the Azad Hind Ambulance Service celebrated the Tenth Foundation Anniversary on Sunday, the 14th July at Netaji Bhawan, Elgin Road, South Calcutta. Besides, the presentation of its Annual Report for the year 1956-57, the function contained a long drawn programme including dance recitals under the direction of Shrimati Manjusree Chaki, with the accompaniment of songs. A playlet 'Tushar-kana' performed by pupils of Latin Quarter Nursery School also delighted the audience. A large number of guests attended the function.

The President, Shri Hemendra Prasad Ghosh, an octogenarian, did nothing but bless the organization to fulfil the ideals left by the two great leaders, the late Shri Sarat Chandra Bose and Netaji Subhas Chandra Bose. The veteran Journalist who was associated with many of the phases of country's struggle for freedom, said that with the name of 'Azad Hind' the service had identified itself with the very ideals of that I. N. A. movement, responsible for bringing the country's freedom. He also said that the future history of the country would contain the story of the service and hoped that the Service's ideals, imbibed from those great, would be written in golden letters in that chapter of the history.

A vote of thanks was extended by Dr. Sisir Kumar Bose, Secretary-General of the Service.

A nicely got up brochure published on the occasion and ably edited by Dr. Bose, gave the activities of the Service through illustrations which deserve appreciation. The story of the devoted service of the Azad Hind Ambulance Service to the people for a decade, is 'a retrospect as well as a record'. The brochure presented the following :—

"By adopting the name of 'Azad Hind' the Service identified itself at its very inception with the ideals and principles of Netaji and became an heir to an immortal heritage.

"The Azad Hind Ambulance Service was not meant to be a mere addition to the number of already existing relief organisations. It was to become a rallying-point of young men and women who had imbibed the spirit and meaning of Netaji's message of building India on new foundations and were prepared to go forward with their task as "missionaries in the service of the country." From the very beginning, the sponsors had conceived of the institution as a unified centre of service, training and research. And all these years the Service has tried its best to fulfil its triple role in various fields of social endeavour.

"Being housed in Netaji Bhawan, it has been the sacred obligation of the Azad Hind Ambulance Service to maintain and develop the premises as best as its resources would permit. The Service has also had the privilege of being the host to the countless men, women and children who visit the Bhawan all the year

round and particularly during Netaji's Birthday Celebrations. It has been possible for the Service to effect considerable improvements and renovations in the premises and much more is being planned for the future. To promote study of Netaji's life and work is a very important item in its youth training programme. With this object in view, the creation of a Netaji Research Bureau is under active consideration of its central committee.

"The Child Health Centre run by the Service at Netaji Bhawan is now recognised to be one of the best of its kind in this part of the country and was perhaps one of the first projects on such lines. A large number of children are provided with health services on modern lines on a regular and continuous basis under specialist supervision. It is proposed to enlarge the services offered steadily so as to cover all aspects of physical and mental health of the rising generation. A centre for the study of the physical and mental development of children of our country is also taking shape at Netaji Bhawan.

"The Service has had the opportunity of conducting a rural child health centre in Kustha village in 24-Parganas side by side with the city centre at Netaji Bhawan. Two scientific papers based on the work of the Service in the field of child health have been presented at All-India Conferences in 1954 and 1956.

"With the opening of the Mothers' Clinic at Netaji Bhawan in 1955, health services on specialist level have been made available to mothers as well. After a modest beginning, the services at the clinic are being steadily extended so as to cover a wide field in maternal health. Taken together, the Child Health Centre and Mothers' Clinic at Netaji Bhawan provide an ideal set-up for maternal and child care on scientific lines as well as opportunities for training and research.

"The Azad Hind Ambulance Service wishes to promote the development in Netaji Bhawan of a multi-purpose Community Centre, run on a co-operative basis and fulfilling the social needs of the community as a whole in all possible fields, viz., health, education, recreation, arts, music and like. By fostering such all-round social advancement of the people at large and bringing them into a co-operative self-reliant endeavour, the Service aspires to justify its existence as a modern social welfare institution.

A GIFT TO THE UNIVERSITY

The Rockefeller Foundation has provided for Rs. 76,000/- in its budget for the University of Calcutta.

According to the Secretary of the Foundation the money has been provided for carrying research in Economics and History.

A MODERN STADIUM IN THE CITY

[By Staff Reporter]

CALCUTTA has suffered and suffered much for want of a suitable Sports Stadium in the city whose number of sports loving population is no less than any other advanced city of the world equipped with such. Even during the pre-independent days the want was felt and an alien rule did not favour the idea with much sympathy. The reason was obvious.

The city's football fans which constitute the largest number of citizens, have also long been disappointed as the ultimate responsibility of erecting a Football Stadium rest on the Indian Football Association which conduct all the superior Football Matches and yield a substantial revenue.

After the independence the demand was rather intensified and football fans in the city sent a number of deputations to the authorities but it little helped to ease the situation. In the meantime there was a non-official attempt to establish a Cricket Stadium in the city and they were successful to a certain extent when a half-built structure of a Cricket Stadium appeared at the Eden Gardens. Another Stadium for in-door games was, however, witnessed in a similar half-finished condition.

It must be admitted that the Calcutta Corporation took the pioneering task of building a Football Stadium in the Park Circus Maidan earlier in response to a number of motions tabled

in the Corporation during 1952 and 1953 by a few sports-loving Aldermen and Councillors. A Special Committee for the purpose was then appointed being headed by Dr. Amarnath Mukherjee, a former Deputy Mayor of Calcutta as well as a great lover of sports. Councillors S. K. Gupta, I.C.S., Amarendra Nath Ghosh, an Ex-Councillor and the present Councillors Gobinda Chandra Dey, Tulsi Charan Paul, Sudhangshu Sekhar Mitra, Ranajit Coomar Mitra and others were its members. They sat on a few occasions and discussed on the feasibility of having a Stadium in the City. An adequate sum of money was also provided in the draft Five-Year Plan of the Corporation. But in the meantime the State Government passed the Sports Bill and construction of a Sports Stadium came under the purview of the Government.

But the agitation of the sports-loving people did not rest at that. A Stadium Demand Action Committee was formed by the true sports-loving citizens under the joint convenorship of Shri Bimal Chandra Ghosh, M.P. The Committee led several deputations to move the Government for separate constructions of Stadium for Football, Cricket and other in-door games. The State Government's policy in this regard has recently been known in the Legislature. In a detailed discussion there the Government stated the difficulties and handicaps.

LEGISLATURE DISCUSSES THE PROBLEM

The West Bengal Government will effort to erect a Composite Stadium over the existing structure, now lying unfinished at the Eden Gardens, after necessary consultation with technical experts. This was disclosed recently in the West Bengal Legislative Council by Shri Sidhartha Sankar Roy, a Minister of the West Bengal Government. Shri Roy also regretted the non-existence of any Stadium in the city and thought that it was high time that some concrete steps were taken in this regard.

Speaking of the Government policy Shri Roy stated that professionalism, especially in football, should be introduced in the State. He referred to the plight of football players in the State, on whom standards of game and collections depended.

The Council, however, unanimously adopted a resolution put up by a Member in an amended form urging the State Government to take immediate steps for the construction of a Composite Stadium and an In-door Stadium in order to make proper provisions for all types of games and athletic sports in the city.

Shri Roy also pleaded that the football players though instrumental for the collection of huge gate money did not derive any benefit out of that. There were many instances of such players suffering from monetary handicaps. Some were actually on the verge of starvation. They had to depend absolutely on the mercy of their clubs. Something should be done for them. He felt that by professionalism they would help people taking to sports as a career. That would also better their lot and raise the standard of the games.

The question of building a stadium, the Minister said, was always uppermost in the mind of the Government. He thought that the purpose could be served best by completing the unfinished Ranji Stadium in Eden Gardens and enlarging it to accommodate sufficient number

of spectators. He felt that the Stadium should be a composite one, provided the experts did not opine otherwise. Because for four or five cricket matches played every year it was not advisable to build a separate Stadium at a cost of Rs. 30 to 40 lakhs. From his experience as a sportsman he claimed that a single ground could be utilised for both the games. In fact almost all the playgrounds in Calcutta—barring one or two—were being so utilised.

The original motion, moved by Prof. Nirmal Chandra Bhattacharyya, a representative of the Calcutta Graduates, was to urge the Government to take early steps for the construction of a Football Stadium and an Outdoor Stadium for the promotion of games and sports in the city.

In support of his motion, Prof. Bhattacharyya said that about 15 lakhs of people, keenly interested in football, were deprived of the opportunity to see the games for want of suitable accommodation. And in order to enable the football players to practise the game throughout the year a Stadium should be built up immediately. International experts, Prof. Bhattacharyya added, had expressed the opinion that the standards of football games in this country were low.

Prof. Bhattacharyya also continued that the matter was before the Government and public since long. Football though introduced by the British regime, had now become a national game in India and in every nook and corner of the State it was played with enthusiasm. So enthusiastic it was among the people that a very negligible portion of them could witness the games from stands, while a large number had to depend on improvised places like tree-tops or Port

(Continued on previous page 309)

MOSCOW TO-DAY

Much has changed in Moscow since it became the capital of the world's first socialist state. By 1925 its industry had attained pre-war output, and in the following years new industries have been developed. Moscow to-day has more than 1,500 industrial enterprises in which over a million production and other workers are employed. Every year registers an increase in the productive capacity of factories manufacturing building materials, with the last five-year period showing an eightfold increase in output of prefabricated reinforced concrete for Moscow's construction jobs. This year the city's building organizations will get more than 2,00,000 cubic metres of reinforced concrete structural elements.

Many kinds of consumer goods are produced in the city, which accounts for 46 per cent. of total output of silk fabrics and 21 per cent. of woollen fabrics. The aggregate amount of cotton, silk and woollen fabrics produced by Moscow's textile mills last year was 815,000,000 metres, and its footwear factories turned out 58,000,000 pairs of leather and rubber footwear. Other factories produced 32,000,000 pieces of knitted underwear and outer garments, 67,000,000 pairs of socks and stockings.

Scores of new consumer items have gone into regular production in Moscow factories, among them refrigerators, (consuming less electricity), washing machines, electric meters, furniture and so on. Last year the city produced 90,000 domestic refrigerators, over 30,000 gramophones, 430,000 bicycles and many other commodities.

There are scores of enterprises in the city to supply its population with food products. On the average, Moscow's food industry put out daily some 1,656 tons of dairy products (in terms of milk), over 660 tons of meat products and sausages, more than 600 tons of confectionery products and so on.

TRAFFIC AND TRANSPORT

Moscow is the country's biggest railway junction. Eleven main lines enter the city, and its nine railway stations serve more than 250 million passengers a year. The junction's technical equipment grows from year to year, and in the next few years (by 1960) all tractive powers will be diesel oil or electricity. This will make it possible to speed goods traffic and improve the city's sanitation besides. There will be no steam locomotives in operation on railways anywhere near the city.

Moscow's municipal rapid transit system daily carries about 9,000,000 passengers. It has 150 tram, trolleybus and bus routes, and its underground lines are more than 60 kilometres long. The underground with its 45 stations in different parts of the city is the fastest and most convenient means of transportation, and its network keeps growing all the time. Another line has just opened: it connects the central part of the town with the Lenin Stadium, the city's biggest sports structure.

A BIGGEST CULTURAL CENTRE

Moscow is one of the world's biggest cultural centres. It has 27 theatres: dramatic, opera and musical, among them the world-famous Bolshoi Opera and Ballet Theatre, the Art and Maly theatres. Treasures of exceptional value are collected in its 47 museums which more than 7,000,000

persons visit annually; these include the Armoury in the Kremlin, the Tretyakov Art Gallery and the Russian Art Museum.

Since the establishment of Soviet Government Moscow's educational establishments have furnished the country over 700,000 specialists in every branch of knowledge. Its 90 higher educational institutions have a roster of more than 365,000 students including correspondence-course students, and among the 448 scientific institutions are 175 research institutes.

The city has over 1,000 public libraries with more than 100,000,000 volumes on their shelves, not to mention libraries found in practically every factory or other establishment.

Each year sees more Places of Culture and clubs built; they are put up by industrial enterprises and construction organisations. To-day Moscow has 226.

The Soviet Union has over 100,000,000 regular radio listeners and all can hear Moscow. Radio broadcasts in 80 languages, including those spoken in the country and foreign.

CITY RECONSTRUCTED

In 1931 the first plan for the city's re-construction was adopted, and in the course of re-building thousands of tall and well-lighted buildings have gone up, the area of asphalted streets has increased more than 60-fold, old narrow and crooked streets have been widened and straightened out; and lime trees have blossomed on highways which were still wastes but a short time ago. New bridges have been built across the Moskva River and its granite-clad embankments have become fine thoroughfares. The greenery area has reached 6,930 hectares (roughly 15,000 acres). Last year alone 241,000 trees and several million shrubs were planted along the city's streets and in parks. It is planned to complete improvement of the banks of the rivers passing through the city by 1960, including the building of another 24 bridges and underpasses. Besides laying out new public gardens whole recreation zones will be constructed in different districts.

OLD MEMENTOS

Restoration of valuable monuments of antiquity in Moscow is proceeding on a large scale, with over 65,000,000 roubles spent for the purpose in the last four years. Objects being restored include Kremlin Palaces, old churches in the city and outskirts, and other architectural monuments.

In the next few years a good many monuments to outstanding people are to be erected. A contest for the best design of a Lenin monument is now under way.

In the last two years 400,000 persons received flats in new houses in Moscow. This year 1,800,000 square metres of living space area are to be turned over for occupancy. The plan for the 1956-1960 five-year period provides for the construction of 11,000,000 square metres, which is as much living space area as pre-revolutionary Moscow had altogether.*

CITY—NEWS—PARADE

OBITUARY: Dr. Prafulla Chandra Mitter, a former Palit Professor of Chemistry, Calcutta University, died of Cerebral Thrombosis at the Sukhlal Karmali Hospital, on Friday, the 12th July last. He was a member of the Senate and the Syndicate of the University with which he was closely associated for about 40 years. The late Dr. Mitter succeeded Acharyya Prafulla Chandra Roy in the chair. Earlier to that he was Ghosh Professor of Chemistry. He had a brilliant academic career. Besides, he earned laurels of foreign Universities.

A DISLOCATION: A portion of Tollygunge area, from Netaji Subhas Road to Bansdhani, was in darkness on Tuesday, night, the 10th July, as a result of power failure. There was no supply from the afternoon and the people of the locality were greatly inconvenienced.

CALCUTTA EXPERIENCED ONE OF THE HEAVIEST SHOWERS on Thursday morning the 13th July, when there was a recorded rainfall of $1\frac{1}{2}$ inches in about an hour. There were heavy showers also on the previous day noon and intermittent rains continued during the night and early morning. In 15 hours the rainfall recorded was over three inches on the same morning. The sky was overcast almost throughout the day. There was another heavy shower late in the afternoon on Thursday. Rains on Wednesday also caused inundation in many of the areas.

The morning rain affected all areas in the city, some low-lying localities being under water for over four hours. In the Tollygunge, Jorasanko and Cornwallis Street areas, trams were off the streets from early morning till noon. Office workers were greatly inconvenienced because of transport shortage. Many cars were stranded in the water-logged streets.

A Dakota of the Indian Airlines Corporation on a schedule service from Agartala, could not land at Dum Dum due to bad weather in the evening. The plane, however, landed safely at the Barrackpore airfield about two hours later. A freighter, also from Agartala, made a safe landing there. Many aircrafts including a BOAC Quantas arrived at Dum Dum behind schedule.

Because of heavy rains Telegraph and Telephone communications were dislocated with the city's outskirts.

A TRAGIC INCIDENT: Three persons lost their lives due to asphyxia in a narrow well when they were trapped inside it on Monday, the 15th July. The incident occurred in a Bustee on the Narkeldanga North Road, eastern part of the city. They were lifted from the well by the West Bengal Fire Service men. Two of the men died on their way to hospital while the third one inside the well.

In what circumstances they fell into the well was ascertained only two hours after the rescue work. It appeared that Ramjan, a well-cleaner, was cleansing the walls of the well, 2½ feet in diameter and about 25 feet deep of which three feet at the bottom were covered by slime, 10 feet were under water, and 15 feet were dry. Hearing a call for help, an 80-year-old woman went near the well and saw that Ramjan had fallen into the water and was desperately struggling to climb up. A passerby Mannah heard the frantic cries for help and got inside the well to rescue Ramjan, but was himself trapped. The body of the third

man, Kachi, who evidently was the first to fall into the well, was stuck two-feet into the slime, possibly under the weight of two others who lay on him and a ceiling hook was needed to pull up his body. The bodies were sent for post mortem examination.

In the weekly meeting of the Corporation on Friday, the 19th July, Councillor Chandra Sekhar Bhowmick drew the attention of the House to the tragic incident. He said that they were suspected to have inhaled poison gas inside the well. He demanded that the Health Officer of the Corporation should investigate into real cause of their deaths. A vote was also raised that the deteriorating and unhealthy drainage system of that area might be responsible for forming the poisonous gas like Carbon Monoxide, inside the well to cause death.

Councillor Bhowmick also suggested that water of other parts of the area should be tested as a precautionary measure.

The Deputy Mayor, Shri Keshab Chandra Basu, assured the House that steps would be taken to see that such unfortunate incidents did not occur in future and dangerous wells were closed.

SOCIAL CRIMES: After a search of a camphor factory in Manohardas Street in the Burrabazar area, on Thursday night, the 11th-12th July last, a huge quantity of adulterated camphor and paraffin wax, and a number of empty tin boxes and used labels were seized. The proprietor, Shri Biswambarlal Kedia, and four others, who were alleged to have been found manufacturing camphor with paraffin wax, were arrested. The factory, was named after a well known camphor manufacturing firm in Bombay.

Shri Syamapada Chatterjee, an Inspector of Consumer Goods, West Bengal Government, was arrested in his office in Free School Street, on the next day on a charge of issuing also permits for iron and steel quotas to Messrs. S. P. Gupta and Brothers of Upper Circular Road.

WEST BENGAL LEGISLATIVE ASSEMBLY was adjourned 'sine die' on Monday, the 15th July, on the conclusion of its Budget Session and so called first session of the newly-elected State Assembly. Contrary to general expectations for a stormy House, there were less noisy demonstrations and less filibusters. Except on a few occasions the proceedings were tame and were more businesslike. Time was rationed more or less in many of the debates. Still the members who sought to open mouths were allowed to express their views. Even they carried the House in their own way in some exceptional cases.

The cordial atmosphere on the last day was somewhat marred when the Speaker ruled out of order the Opposition objection on the Public Service Commission's Report for 1954-55. The House discussed the Report on that day. Another non-official motion to combat unemployment in the State discussed on that day, remained inconclusive.

On the Saturday's sitting, the 13th July, the House discussed on the issue of country's food crisis. The debate was long postponed and lost much of the expected fire due. The prescription of balanced diet was introduced by the State Food Minister, Shri P. C. Sen, to solve the food problem much. At the same time he admitted that West Bengal was woefully deficient in production of poultry, milk, oils and fruit. However, the House declined to accept any statistical data in this regard rather wanted to evolve a practical scheme to get rid of

CORPORATION NOTICES—Contd.

To All Registered Petty Improvement Contractors*Tollygunge Engineering Department.*

Tenders for the following work are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 29th July, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the D. E. IV's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

1. Repairs to culvert at Picnic Garden Road (at the junction of Picnic Garden Road and Kustia Road), Tollygunge—Rs. 454.00 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of work valued above Rs. 1,000/-.

P. GUPTA,
Asstt. Engineer, Tollygunge.

TOLLYGUNGE ENG'G. OFFICE :
The 13th July, 1957.

Tollygunge Engineering Department.

Tenders for the following work are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 29th July, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the Outfall Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. on the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

1. Repairs to the cesspool to the service privy, repairs to the tap door, repairs to the surface drain at premises No. 51, R. K. Ghosal Road at Ward No. 76, (Tollygunge)—Rs. 77.00; dated 12th July, 1957 (15 days).

Please note that the words "Two months" as printed in italics in Clause 8 of the tender form, is to be read as 3 months and may be scored and noted accordingly and initialled in case of work valued above Rs. 1,000/-.

P. GUPTA,
Asstt. Engineer, Tollygunge.

To All Registered Petty Improvement Lighting Contractors

DISTRICT No. III.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 25th July, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer for all works exceeding the value of Rs. 2,500/- shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

Renovation of extg. street lights in front of Lady Brabourne College and adjacent streets, D-III, L-23—Rs. 358.00, dated 13th July, 1957 (60 days).

Restoration and replacement of electric poles for street-lighting in Gorachand Road Area, D-III, L-24—Rs. 4,827.50, dated 13th July, 1957 (90 days).

D. M. SAHA,
Lighting Superintendent.
CENTRAL MUNICIPAL OFFICE :
The 16th July, 1957.

Entally Market**NOTICE**

To whom it may concern. An application has been received from one Sudhir Kumar Maity for the privilege of permanent occupancy in respect of Butter Stall No. 11, Old Chandney, in place of Surendra, Saraju and Jatindranath Das. Objection to the proposal, if any, should be submitted to the undersigned within a fortnight from date of publication.

A. K. RAHA,
Superintendent.

ENTALLY MARKET :
The 17th July, 1957.

To whom it may concern. An application has been received from one Sudhir Kumar Dutt for the privilege of permanent occupancy in respect of stall No. -W. B. 27, in place of Krishnapada Dutt.

Objection to the proposal, if any, should be submitted to the undersigned within a fortnight from date of publication.

A. K. RAHA,
Superintendent.

ENTALLY MARKET :
The 17th July, 1957.

To whom it may concern. An application has been received from two Ikhlake Hussain and Istiaque Hussain for the privilege of permanent occupancy in respect of Butter stall No.—10, Old Chandney, in place of Surendra, Saraju and Jatindranath Das.

Objection to the proposal, if any, should be submitted to the undersigned within a fortnight from date of publication.

A. K. RAHA,
Superintendent.

ENTALLY MARKET :
The 17th July, 1957.

To whom it may concern claims have been put forward by Shri Madan Mohan Ghosh & Bros., sons of Shri Gnanendra-nath Ghosh, and grandsons of Dwarka Nath Ghosh, since deceased, to the stalls Nos. S.B. 1, 2 and 4, Entally Market, as a family settlement.

Objection to the said claim, if any, should be submitted to the undersigned within a fortnight from date of publication.

A. K. RAHA,
Superintendent.

ENTALLY MARKET :
The 17th July, 1957.

Sir Stuart Hogg Market**NOTICE**

To all whom it may concern, that an application has been received for the registration of the names of Sm. Sarabat Kumari Gupta represented by Sri Ved Prakash Gupta and Sri Dhanpat Singh Gupta as occupiers of stall No. 28 in Block "A" in the S. S. Hogg Market in place of the recorded occupier of the stall.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Asstt. Superintendent.

S. S. HOGG MARKET :
The 18th July, 1957.

SIR STUART HOGG MARKET

Under temporary occupation:

SHOPS TO LET

COLLEGE STREET MARKET

Applications with offers of Initial Rent for the privilege of occupying the undermentioned stalls on rent noted against each are invited and will be received in the College Street Market Office on all working days between the hours of 11 a.m. and 2-30 p.m.

Allotment of these stalls will be settled by the Appropriate Authorities and is subject to provision of the Calcutta Municipal Act, bye-laws, rules and regulations made thereunder, and to the conditions in force in respect of Municipal Markets, 25 per cent. of the Initial Rent as would be fixed and/or accepted by the Appropriate Authorities at the time of allotment, will have to be deposited immediately by the allottee and the balance within 2 or 7 days, as the case may be, from date of settlement.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0.1-6 for a Bicycle and 0.3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0.3-0, Motor Cycle 0.6-0 and after midnight Bicycle 0.12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law.

Deshapriya Jatindra Mohan

J. M. SEN GUPTA as Mayor had the longest connection with the Corporation of Calcutta. The merit of the connection was not in duration alone. With Shri Sen Gupta, the Corporation became pivotal, the very focal point of public life. It is said that on the passing away of Deshbandhu Chittaranjan Das, Shri Sen Gupta succeeded to the "triple crown." Deshbandhu's death was a "stunning" blow. And Mahatmaji had already withdrawn from political life. In the years between 1925 and 1928 it is true that there was "great expectation" in the facts and events of national life, but in that expectation there was no sense of crisis. The political thought and activity of the people elicited an aura of excitement but did not force them to relinquish to their ideas and actions any important part of their ambitions. There was not in the country that urgency, the compulsion and the quickening of a national movement. From the early days of national resurgence in the Swadeshi Movement we have always faced a brave new world. Whatever there was around us was wrong. The very magnitude of the revolt, its triumphs, real or apparent, made for buoyancy. The nation could always retain a glower of criticism, a note of dissent from the bleak atmosphere of conformism that would lead to or lend support to the status quo. It is this "dissidence of dissent", to use Matthew Arnold's phrase, which ultimately became the very soul and centre of the national rebellion in 1930—1945. In the mid-twenties however the nation's political life became largely institutional. Of the three crowns which devolved on Deshpriya J. M. Sen Gupta the mayoralty became easily the most glittering crown. In the councils we had defeats, as Hemingway puts it in another, a bigger context, defeats in which no body lost anything of value; we had victories without hope. The Congress itself ceased to be a movement and retained an organisational character. In Bengal, as in other parts of India, we revolved around institutions. It is J. M. Sen Gupta's undying credit that by virtue of his personality and his patriotism he filled this hiatus, every inch of it, with passion, with energy and drive. There was no dull page in his record. He taught us to cherish every grievance, to inflame every sore spot and sharpen every rough edge, lest they find their discontent diminishing. He kept his head high against the storm that was brewing somewhere at a distance, and when it did come it took the nation in a rush and a swirl, and engulfed him altogether. He kept the embers alive, and nobody

could really relax in view of the perils of fission and fussion. He died a martyr, and the nation shot up on the crest of martyrdoms. He helped us to endure and prevail.

J. M. Sen Gupta basked in the full glow of the ~~Swadeshi~~ Movement. His father was one of its most noted leaders. He caught up with Deshbandhu in the Home Rule Movement and was in the very flood tide of the national upheaval in the palmy days of the Non-co-operation Movement. The Assam-Bengal Railway strike set the pace for him; he came into the van of the strife. From that day onward, his step never faltered, and there was never a change of accent with him. His personal life and his public life became fully soldered, and co-extensive. Languor did not overtake him. He brought to his leadership a sweet reasonableness which is not usually associated with political strifes, and he brought to it a great fluency of speech. There never was a chill in his heart and mind. In a life of political strife, people have to live distracting days. No one has a chance to order his days as he wishes to order them. The life he leads is broken in upon and athwart in every conceivable way. It is devotion to ideals that holds one up. Deshapriya could live through his heart and affections, his tastes and all that ran in him, independent of circumstances and occupation and momentary tasks. To the Corporation he gave a devotion as to the New Freedom. The Corporation is, and ought to be, proud of this sacrifice. J. M. Sen Gupta became Deshapriya because of this devotion and this sacrifice. The quietism of the years 1925—1930 has become heroic in the mould of the gentle fire of J. M. Sen Gupta's devotion and passion. The country cherishes this noble memory and its moving scenes with undying pride. For the Corporation it is a holy day.

[S. B.]

—TWENTY-FOURTH DEATH ANNIVERSARY OBSERVED

(Continued from next page)

in West Bengal, had lowered with the loss of two great leaders Deshagourab Subhas Chandra and Deshapriya Jatindra Mohan. The magnitude of self-sacrifices, devotion and leadership which witnessed in them are rarely found in these days, he said. And these are the qualities which earned Jatindra Mohan an accredited leadership of India a country so vast, in 1930, within five years of his becoming a leader of Bengal after the death of Deshabandhu, Shri Basu also said.

Shri Barada Nandi, once a close associate of Jatindra Mohan, presented a few incidents from the life of Deshapriya wherein the greatness of the soul was witnessed. He gratefully recalled the great sacrifice made by Jatindra Mohan for the cause of the liberation of the country.

Shri Biswanath Mukherjee, Secretary, Pradesh Congress Committee also spoke.

The Death Anniversary was also observed by different other organizations wherein eloquent tributes were paid in memory of the country's beloved leader, Jatindra Mohan.

AT DESHAPRIYA PARK

Under the auspices of Chattagram Sammilani the Death Anniversary was observed in the morning at the Deshapriya Park. Dr. Benode Behari Datta offered floral tributes to the marble statue of Deshapriya on behalf of Chattagram Sammilani. Shri Hemanta Kumar Basu M.L.A., and others also followed him. A large number of Jatindra Mohan's relations and followers were present.

AT COLLEGE SQUARE

A public meeting was held at College Square at the same evening. Dr. Promode Ghosal presided. Shri Sachindra Narayan Guha inaugurated the proceedings. A number of speakers also paid tributes.

NETAJI'S STATUE IN THE CITY

The Calcutta Corporation at its weekly meeting on Friday, the 26th July, decided to erect a full-size statue of NETAJI SUBHAS CHANDRA BOSE at the five-point Shyambazar crossing better called the entrance of the city. The statue will be dressed in military uniform so that it may attract all and inspire them.

During discussion hours of public importance Councillor Kumar Dutta drew the attention of the Mayor, Dr. Triguna Sen, to this. He said that Calcutta citizens wanted to remember gratefully the great leader who lived and moved in this city.

When Councillor J. L. Saha, M.L.C. pointed out that according to the present Act the Corporation funds would not allow such expenditure the Mayor desired that a fund should be raised for the purpose by the citizens.

The House also hoped that the statue would be installed before the next Birth Anniversary of Subhas Chandra on the 23rd January, 1958.

IN SILENCE AND IN DEVOTION THEY PAID THEIR HOMAGE

In the picture the Ex-Mayor, Shri S. K. Basu, M.P., Shri H. K. Basu, M.L.A., Shri B. N. Mukherjee, Shri H. N. Chakravarty and others.

TWENTY-FOURTH DEATH ANNIVERSARY OBSERVED

"DEATH has snatched away from us long ago one among the stalwarts of Indian fighters for freedom but his spirit still remains among us to inspire us and to guide us in our needs and adversaries", thus observed the Ex-Mayor, Shri Santosh Kumar Basu, M.P., while presiding over the memorial service of the late SHRI JATINDRA MOHAN SENGUPTA in observance of his twenty-fourth death anniversary at Sahanagore Burning Ghat, South Calcutta, on the 22nd July. In spite of an inclement weather a large number of Deshapriya's followers and admirers were present on the occasion.

The Memorial, just beside the massive Mausoleum of Deshabandhu, built on the other day, was tastefully decorated. A beautiful portrait of 'Deshapriya' bedecked with flowers was also placed inside that structure. In silence and with devotion wreaths were placed on it by the Ex-Mayor, Shri Basu, and others as well as on behalf of different organizations. The memorial bust has yet to be placed there and an epithet to be composed and be inscribed there.

The memorial function was held under the auspices of the Corporation. The Corporation at its previous meeting sanctioned a sum not exceeding Rupees seven hundred for the purpose. The Corporation offices and schools remained closed in observance of the day.

Earlier, the service was held under an erected pandal wherein different speakers paid eloquent tributes to the memory of 'Deshapriya' Jatindra Mohan.

CLOSE ASSOCIATIONSHIP

In his speech the President recalled his close association with Jatindra Mohan under whose

guidance he had worked in the Corporation. As an ardent fighter of country's liberation movement Jatindra Mohan led the country towards a revolution but he sought to re-build the country through this national institution where he adorned the Mayoral Chair.

Describing many of the rare traits in the character of Jatindra Mohan, Shri Basu remarked that the name 'Deshapriya' was befittingly conferred upon him by his countrymen. His broadness of mind was so vast and the nobleness of his soul was so high that he was born to be a true leader of the people, a leader who could command the whole of India to follow him in their upliftment.

The Ex-Mayor referred to the 'Hindu-Muslim Unity' a problem which faced the then leaders. This had also agitated Jatindra Mohan's mind but he was able to find a solution of it through his love and kindness to all. And this quality he imbibed from his leader Deshabandhu Chittaranjan by whom he was baptized. The full manifestation of the solution was witnessed in the I. N. A. Movement on the borders of India later on sponsored by Netaji Subhas Chandra; another disciple of Deshabandhu, he added. He further vividly described the country's mourning when the leader was lost to the country for ever about two decades ago.

AN ACCREDITED LEADER

Shri Hemanta Kumar Basu, M.L.A., while paying his tributes to Jatindra Mohan regretted that the so-called leadership in India, particularly

(Continued on previous page)

NEWS AND REVIEWS

DELHI TALKS CLARIFIED

Through a detailed statement before the House, on Friday, the 26th July, the Mayor, Dr. Triguna Sen, gave an account of his mission to Delhi for obtaining large amounts of aid and help in implementing many of the Development Projects of the Corporation. The Mayor, who could not be present at the previous meeting, at the commencement of that day's proceedings, made a statement on his recent discussions with the Union Ministers. Dr. Sen also suggested at the end that henceforward the Corporation's activities should be clearly divided between those relating to maintenance of existing services and those concerning development schemes.

The Mayor, Dr. Sen, stated that representatives of the Union Health Ministry would shortly visit Calcutta to scrutinize the Corporation's scheme to improve the city's water supply and sanitation. The Corporation had been asked to prepare a phased programme to complete the scheme in two years and the Union Government would allot funds accordingly.

The Mayor further acquainted the House that experts of other Union Ministries were expected in the city soon to discuss the Corporation's scheme to house Harijan employees and payment of service charges to the Corporation in respect of Central Government properties in the city.

The Mayor also hoped that the members of the House should make up their differences of past activities and should proceed in a resolute mind to achieve the end. As the Corporation is pledged to serve the citizens so it should also enlist the sympathy to serve the public. The institution does not belong to any particular sector, either Councillors, or officers but it is an institution shared by all, he added.

In his speech the Mayor said:—

Regarding payment of service charges in respect of Central Government properties in Calcutta it was pointed out that the Government of India had not yet accepted the basic rate of 20 per cent. fixed by the State Government and desired that the Corporation should justify this rate by the facts and figures. It is now necessary for the Assessor, the Finance Officer and Chief Accountant of the Corporation to make out a case about the fairness and responsibility of the 20 per cent. rate in the light of the discussions and points raised in this connection by the Union Government. The Central Government representatives would be coming down to Calcutta shortly to discuss the matter with the Corporation authorities. The Union Finance Minister, Shri T. T. Krishnamachari, has assured us that pending final decision on the matter he would make available to the Corporation Rs. 50 lakhs in advance.

As regards the import license for machineries for essential services relating to water supply and sanitation of the city Shri Morarji Desai, Union Minister for Commerce and Industry has assured us that there would be no difficulty for the Corporation in getting import licenses for essential machineries for bettering its essential services even though there is very strict restriction due to foreign exchange difficulties.

With respect to the quota for mild steel plates for water mains of the Corporation, Shri Swaran Singh, Union Minister for Iron, Steel and Fuel also gave the same assurance that in view of the acute foreign exchange difficulties the Corporation should prepare a phased programme regarding its requirements of mild plates.

As regards the raising of 4½ per cent. 20 years' Debenture Loan the Union Finance Minister, Shri Krishnamachari pleaded his inability to help the Corporation in the matter and suggested that he might propose to the State Government to give 50 per cent. out of the National Savings Certificates to be sold through the efforts of the Calcutta Corporation. Shri Krishnamachari emphasized that the Corporation should seriously consider that suggestion because in future that would be the best source for loan on capital projects of the Local Authorities.

Referring to subvention to the Corporation of a total sum of Rs. 2.25 crores for improvement of water supply and sanitation of the city of Calcutta out of the allotments of the Second Five-Year Plan, it was revealed that the Union Finance Minister disclosed that no budget provision was made in the last year's budget nor in the current year's budget. Only a sum of Rs. 10 lakhs was allotted to the whole country out of about Rs. 5½ crores total allotment in the Central Budget for water supply and sanitation. The Union Finance Minister also suggested that even this sum of Rs. 5½ crores was practically of arrear liabilities and no new allotment was made.

That the representatives of the Union Health Ministry including the Water Works Construction Experts would come down to Calcutta for immediate disposal of the matter, he said that the Corporation was requested to prepare a phased programme for completion of the Rs. 2.25 crores scheme within the next two years, giving all necessary data and blue prints in such a manner that the Government of India would allot fund accordingly.

Referring to Rs. 2-crore scheme for housing the Harijan employees of the Corporation out of the allotments to be made by the Union Government both the Union Finance Minister

(Continued on page 935)

CORPORATION PROCEEDINGS

A GIST OF PROCEEDINGS OF THE CORPORATION
HELD ON FRIDAY, THE 19TH JULY, 1957.

NIRMAL HRIDAY

The House, on the recommendation of the Standing Health Committee, allowed the continuance of 'Nirmal Hriday' a Destitute's Home for a further period of one year with effect from 1st April, 1957. The Home is located at the Rest House at 251, Kalghat Road, formerly known as Dhudwalla Dharamshala.

The House further decided to make a lump sum grant of rupees one thousand per month to Mother M. Teresa of the Missionaries of Charity as an aid for the maintenance of the Home.

GRANTS TO CITY'S HOSPITALS

The House, on the recommendation of the Standing Health Committee, sanctioned payment of grants to the K. S. Roy T. B. Hospital, Jadavpur, for the maintenance of 65 free Corporation beds at the rate of Rs. 2,400/- per bed per year.

Based on the same recommendation, the House also sanctioned payment for ten free T. B. beds maintained in the Balananda Brahmachari Sebayatan for a certain period in the year.

The House also sanctioned grants in respect of maintenance of the ten Corporation free beds in the Chittaranjan Cancer Hospital for a similar part of the year.

ANTI-PLAGUE CAMPAIGN

The House desired that the Anti-Plague Campaign in the city, at present carried on by the Government of West Bengal, be continued for another year, 1957-58. The House on the recommendation of the Standing Health Committee also agreed to share one-third of the cost of expenditure. The expenditure so estimated for the same in achieving the scheme for the purpose was about rupees sixty-six thousand, almost a similar amount to previous year's.

ASHES AND CINDERS

Based on a recommendation of the Standing Town Planning and Improvement Committee, the Corporation allowed some private persons to remove ashes and cinders from Ballygunge Pumping Station and Tallah Pumping Station in lieu of payment of certain fees for the purpose. A provision was also made in it that the Corporation should utilise those wastes in as much quantity as it would require for its own purpose.

While sanctioning the recommendation, the House desired that ashes and cinders removed as wastes might be utilized by the Corporation for levelling up roads as well as filling up low lying lands particularly in the added areas. Several members representing those areas complained that with the advance of monsoons condition of roads and passages showed a gradual deterioration, while the low levelled lands became breeding grounds of mosquitoes due to accumulation of water there. They thought that if ashes and cinders could be

utilized for filling up or levelling up roads then a long felt grievance might be removed.

SPECIAL OFFICERS

The House, on the recommendation of the Standing Finance Committee, allowed continuance of services for a further period of six months to two Special Officers, Shri Sailendra Nath Chatterjee and Shri Kishorilal Chatterjee on the existing terms and conditions. These officers were temporarily appointed in connection with the disposal of a huge number of assessment cases lay pending for a long time.

In view of the magnitude of accumulation of such cases a spokesman of the Finance Committee announced in the House that the Committee was considering for the appointment of a Third Deputy Commissioner.

—VIEWS AND REVIEWS

(Continued from page 334)

and the Minister for Works, Housing and Supply were very sympathetic. They suggested that it might be necessary to make slight modifications in the Corporation scheme to bring it in line with the standard Union Government's blue print. Some experts of the Central Government would also be arriving in Calcutta to discuss with the Corporation authorities in this matter. The Central Government has assured funds for the purpose.

Pointing to the amendments to the Prevention of Food Adulteration Act a list of amendments proposed in the Act and a list of the powers to be delegated to the Corporation in this behalf were handed over to the appropriate authorities. Shri D. P. Karmarkar, Union Health Minister, informed that the Standing Committee for Prevention of Food Adulteration would meet very soon and this matter would be considered by them.

A BYE-ELECTION

Citizens living under Ward No. 48, Bowbazar area, will go to polls on the 11th August next in connection with a Bye-election to be held there. The bye-election has been caused by the death of Councillor Kisan Chand Boral.

There will be a straight fight between two candidates namely Dr. Mahim Bhattacharyya and Dr. Himangshu Das Gupta representing the Congress and the U. C. C. respectively. There are altogether 2497 voters including 257 ladies. Polling hours have been fixed between eight in the morning and five in the afternoon with one hour recess during noon. The polling booth for the males has been selected at Bowbazar High School, on Bowbazar Street and for the ladies at a Corporation Primary School located at Dr. Jagabandhu Lane.

The Ward No. 48 is bounded by Mirzapur Street on the north, Bowbazar Street on the south, Amherst Street on the east and College Street on the west.

Sitting from left: Shri P. Guha, Corporation's City Architect; Shri B. K. Sen, Commissioner (on the mike), Shri J. K. Desai, Chairman, Bombay Regional Council of Accountants, Shri R. P. Dalal, Member, Income Appellate Tribunal, Prof. R. P. Saha, a former Vice-Chairman of the Council and Prof. S. V. Ghatabin, a former Chairman of the Council.

Operational Audit In Public Administration

[By SHRI B. K. SEN, COMMISSIONER]

In a commercial firm where no matter how they put up their selling points to public, be it for the consumers' good or nations' advancement, the real objective is to make profit and give dividends. In a big organization where the chances of error, irregularities and waste are rather many, it is absolutely necessary for the sake of efficiency which along with other factors leads to that objective—as I stated—that is the earning of dividends. The Operational Audit and its allied machinery, Office Organization and Methods operate in a streamlined fashion. The organisation is always dynamic and as the motive force is also dynamic, there is no difficulty. The very self-interest itself is the driving force and as the control of the whole machinery, whatever may be of the nature—industrial or commercial being under one authority, usually these components do work not only smoothly but with extreme precision and vigilance. In fact, I will go so far as to say that in a big organisation with wide-spread activities, it is almost an impossibility for the management to form independent ideas and opinion for the purpose of policies, unless there is an efficient Operational Audit coupled with Organizational Methods in existence and I am sure, generally all are aware that in all big concerns in some form or another, this is in fact the case.

When we come to public administration, the position is not only different but very difficult. The motive force in this case is not the returns in terms of cash where often the management itself has got a direct interest, but it is something which cannot be translated into money, a dividend that not only has got direct or indirect effect on people coming under the authority of such public administration but also something that helps them to go forward in terms of human comfort and living with an acceleration for betterment in its own sphere. It is something which one cannot

immediately see but a continuous process where they go on seeing and feeling. Moreover, the authorities of policy making and the administration, though vigorous attempts are being made so that both can work in perfect harmony, are often miles apart. This, I would say, in itself is the biggest danger to run things efficiently. Here every step, every action, every movement is controlled within the frame-work of legislation i.e., acts, bye-laws, resolutions, motions and what not—quite apart from standing instructions of the administration—if not often known as Office Manual. I would not generalise anything as my experience is extremely limited; but I dare say this must be the common experience of many that in a dynamic world with all the dynamic forces the administration is often faced with a static wall, not because there is any lack of desire but the rot what is likely to set in with inertia and other vested interests which can get a footing and slowly spread in the administrative machinery, resulting almost in a constant warfare, to stem the venom that permeates and percolates throughout the organization between those who are trying to get the best out of it, and those who prefer to preserve the status quo. One of the worst form that has become so rampant in public administration is corruption.

CORRUPTION EATS INTO THE VERY VITALS OF MACHINERY

It has taken such a shape that it is even difficult to classify all the types of various 'modus operandi' corruption that is eating into the very vitals of the machinery. It is no wonder that the National Government and the State Governments have set up all over Anti-Corruption machinery. Furthermore, as you know, the Central Government has in addition to this started Directorate of Organisation and Method recently re-named as Anti-Corruption and Vigilance

Directorate. I know in my State, i.e. the State of West Bengal, we have a special branch known as Anti-Corruption Department of the Government of West Bengal, entirely a separate entity from the police. The Calcutta Municipal Act, 1951, which governs the Calcutta Corporation, a great city, has also provided for Anti-Corruption measures. All these only point out that right from the Central Government down to Local Authorities here is in the public Administration this constant apprehension of corruption in its widest form. From my personal experience I find that the machinery that is now in existence work more on polishing line than to go deep down and to tackle at the root of the existing system and procedure. This is in my opinion quite inadequate to tackle the problem and that is why the Central Government has combined the work of the Anti-Corruption with that of the O & M assuming that there is some sort of Government audit in existence which is sufficient. While it is true that constant review of the system and procedure is necessary by experts such as O & M to take advantage of all modern developments in the line, it is much more important to see that the existing system and procedure which is no doubt constantly changing is constantly watched and checked up as to its proper function. To do this it is not really possible for an outside agency like the Anti-Corruption to come along and look into the system of other administrative bodies and "tell them what to do" regarding their way of work. It is only possible if within the administrative machinery itself there is such a section call it what you may, whose duty should not be just policing but also to have constant watch and vigilance with sufficient knowledge and experience to not only look into the existing system and procedures but with constant suggestions for improving the same with the objective of reducing errors, waste and irregularities—that no doubt includes corruption. In simple language constant watch for the loopholes must be there and also of duplication, cumbersome methods etc. In big commercial organisations this business of vigilance is in fact dealt with separately. They have their organisation and methods man; they have operational auditors—quite apart from internal audit, financial audit; they have operations research etc., etc. If that is not possible, at least for every public administration operational audit should be in vogue and the person responsible for running this section should not only be an expert in audit itself but also should have very wide knowledge for organizational methods. I presume that you all know what is this O & M and how it functions. Therefore, I am not dealing with this subject. In any case that is not the subject for my discussion. I will talk on the Operational Audit as distinct from the Financial One.

'SELF-CRITICISM' AN ESSENTIAL FUNCTION OF AN ADMINISTRATION

It should operate side by side with other departmental management and is one of the principal means by which administration as a whole effects "self-criticism"—an essential function in every progressive administration. Its main function is to bring to bear on day to day problems and workings experience and knowledge of men

well-versed in various departmental practices so that it can bring an unbiased mind on them. It functions largely by measuring "effectiveness of the types of control that are existing". It should never be regarded as part of the internal check of the department that should exist independent of this. It concerns itself not merely with the recording of the operations, but also "with the noting of the efficiency of the operations". The total objective has two main phases: (1) to protect the interest of the organisation by acting as a deterrent against errors, irregularities, wastes and other losses and by discovering as early as possible important deficiencies which may occur despite the precautions taken by the departmental management; (2) To further the interest of the organisation by recommendations for improving operations in the various departments.

The first main phase is achieved by (i) ascertaining the degree of reliability and effectiveness of all operations and to report to Heads of Departments thereon, (ii) ascertaining the degree of reliability of the existing checks, procedure and system, (iii) ascertaining the extent to which everything is properly accounted for and safeguarded, (iv) ascertaining the extent of compliance by the executive departments with the policies, plans and procedure established by the organisation. The second main phase is achieved by (1) recommendation for revising and appraising the actual performance, (2) by carrying on special assignments for the organisation. The function must be a constructive aid to the management and not only a negative criticism.

The concentration is really on the 'quality' side and for this purpose a proper programme should be prepared to cover the whole business operations over a period. In a large organisation it may not be possible even to check up the operations more than once in a couple of years. Therefore, the approach will have to be made in such a manner that even such occasional checks will be sufficient and be helpful to the management. Reporting is one of the most difficult tasks in the whole procedure which must also always cover all the remarks of the individual heads before it comes to the management.

Often such auditing has been accused as policing. While it is no doubt appreciated that even in the best of societies policing cannot be eliminated, main purpose of this work is for an independent appraisal of the activities as I have already stated. While I do not want to mention anything about actual corruption as such in big organisations, but I can assure you this operational audit is much more effective than many an anti-corruption set-up in organisations where the function is more of policing than of watching the results. It serves both the purposes at the same time.

TO ACHIEVE A PERFECT OPERATIONAL AUDIT

To achieve a perfect operational audit three aspects have to be considered, namely (1) Programme; (2) Questionnaire; (3) Reporting.

1. PROGRAMME:

As I have already stated that it will not be possible to cover all operation of a business in a short time, the test check has got to be applied

but in preparing the programme these checks and period of checks and duration must be very carefully done so that all operations are checked up in all its phases. This can only be done over years of experience and by one who has got a thorough grasp of all the operations of the organisation. It is a very strange thing that many believe that accountants deal merely with finance but it is not appreciated that the accountants, who through their knowledge of costing, statistics etc., are best suited for probing the qualities and effectiveness of operations from the point of view of results even though they may not be experts on the particular subjects—such as engineering work. It is not surprising to see in a large international organisation accountants as the top management. What I am trying to get at is a thorough knowledge of accounts which is an useful asset for any one trying to be an expert in operation audit.

2. QUESTIONNAIRE :

As it is realised, the job has got to be allocated over the assistants and it is not expected that they should all be experts on each job and operation, it is, therefore, necessary that a set of questionnaire has got to be prepared for each operation to be checked. By merely answering them, while on a job will reveal the effectiveness of the operation when scrutinised by an expert. In this phase expert's advice is essential as otherwise the typical question may not be possible to be framed. This is, however, dynamic and there should be always scope for addition to such questionnaire. However, for following up the programme the assistants should have with them a set of questionnaire already prepared.

3. REPORTING :

The most important of all is to collate the information received by such checking. It may reveal lack in quality, loopholes in procedure for that matter even corruption. Instances are not rare that even after checking the operation, defalcation, misappropriation, deliberate cheating are often revealed.

One of the most important factors in reporting or for that matter in the operational audit itself is that the auditor must have full confidence in the Heads of Departments and he must always take up a job in consultation with the Heads of Departments and Sections and must have his full support. He is primarily there for his aid and through the Heads of the Departments to serve as an aid to the management as a whole. Unless he has very tangible reasons to bye-pass the heads of departments, i.e., to give a confidential report to the top management without revealing his findings to the head, he should always place the report to him first and get his remarks on it to be incorporated along with his report which ultimately will be placed before the management. By reporting in this manner the top management can at once get an idea from each item of reporting what the departmental management has to say and what has been done since.

TOP MANAGEMENT SELDOM CONTROLS THE MACHINERY

It will be appreciated that this reporting concentrates on giving the performances concisely

and clearly for the purpose of an understanding by the top management about the actual affairs, prevailing in sections, sectors or units where the top management cannot have any direct control or for that matter any direct knowledge. In fact, with the diversification and complexities in managing large enterprises, the top management seldom finds time and scope to effect control.

You will see from what I said how much more it is necessary, when the top management is really a body vested with power and control of public administration where it is never subjective but the approach is always objective. No matter how much one may be anxious to give 'Service' he is often faced with the problem of coming to conclusion and taking decision in conjunction with other associates whose interest may be quite divergent from what is his. All the more that is why it is necessary that such reports of the operational audit should not only be available but be placed before the management of public administration. In such a blatant form and regularly that it would be hard to ignore as it is a public property. In public administration that is essential as in ultimate analysis it is the public who is 'the management' through their representatives who are trustees.*

*Speech delivered some time ago at a meeting of Regional Council of Chartered Accountants, at Merchant Hall, Bombay.

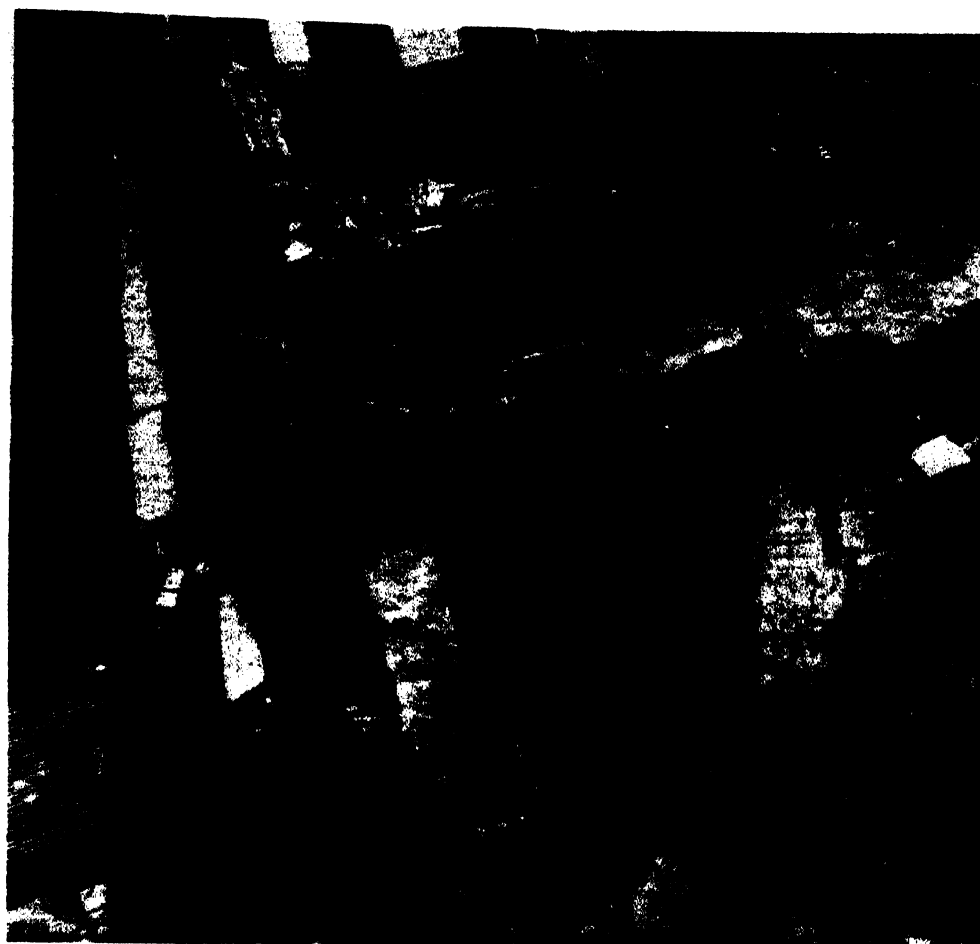

SWAMI VISHWANAND

DEATH ANNIVERSARY OBSERVED

At a largely attended meeting held at Shri Jnanayoganand Math, Cotton Street, Calcutta, the Sixth Annual Death Anniversary of Swami Vishwanand, a veteran labour leader and Social Reformer was observed sometime ago.

The Deputy Mayor Shri Keshab Chandra Basu, presided. Councillor Badridas Burman, Dr. Madho Ram Soft, Shri Radha Krishna Newatia, Pandit Ayodhya Prasad, Shri Madanlal Mishra, Shri Jivanlal Mishra and Councillor Hari Narain Sadani spoke highly of the good qualities and noble work of Swami Vishwanand. A demand was however made through a resolution to change the name of Cotton Street after Swamiji as Vishwanand Street. This was also passed by the Borough Committee No. 5. The Councillors present on the occasion were requested to pursue the re-naming of the street.

ANJAN GUPTA

House Collapses Are Common Now-a-days In The City

With the advance of monsoon the number of House Collapses is on the increase. The above is a view of a debris of a dilapidated house at Baharam Dey Street, Sovabazar, the northern portion of which collapsed as a result of rains on the early morning of Monday, the 22nd July. The verandah of the building measuring about 50 ft. by 36 ft. collapsed some time back. Still a few people lived there fearing ruins. They were evacuated earlier by the local people while the Fire Brigade rescued the cattle trapped under the debris on that day. Arrangements were also made later on for the complete demolition of the house.

It is stated that the house was ordered for demolition by the Corporation last year but it could not be done in view of some local disputes.

There was another incident of house collapse on Thursday morning, the 25th July; a portion of a three-storeyed building at Sankarnola Street, central part of the city, collapsed as a result of heavy rains. Happily no person was injured. The house was also ordered for demolition earlier by the Corporation authorities.

A large portion of the roof of a single-storeyed building in Amherst Street, collapsed on the day before. No one was injured. The house was in a serious state of disrepair with large cracks on the walls and the roof seemed to be caving in.

The tenants who occupied one of the rooms on the roof, said that they had asked the landlord to make repairs about six months ago but with no effect. They had also informed the Corporation of the dangerous condition of the house two months ago. According to the Corporation City Architect the building had been included in the list of those requiring demolition.

In the meantime, the Corporation has undertaken a survey of many of the insecure buildings in the city. Corporation's Building squad also took up demolition work in a few cases. Verandahs, measuring about 40 ft by 4 ft.,

on the first floor and on the roof of a two-storeyed building in Girish Mukherjee Road, South Calcutta, which had been declared insecure and dangerous by the City Architect in May, 1956, were demolished by the squad on Friday the 26th July.

The owner of the building had received an order from the Corporation over a year ago for demolition of the verandahs, but he obtained an injunction of the High Court to stay the order. A portion of one of the condemned verandahs collapsed during the period of the injunction during last September. The injunction was valid till June.

Not only in this city but the menace of insecure building has also spread over in many other cities and urban areas.

CALCUTTA EXPERIENCED A HEAVY SHOWER

Calcutta and neighbouring areas recorded the year's highest rainfall so far this year in one spell—over three inches in two hours, on Tuesday afternoon the 23rd July. There were heavy sporadic downpours in many of the areas like Dalhousie Square, Park Street, Russel Street and Camac Street, which are seldom under water. All these places were submerged. Water was waist deep in the city's low lying parts.

Office workers on their way home were stranded because all tram services were suspended till late in the evening and buses avoided the submerged streets. Tollygunge and southern parts of the city were the worst sufferers.

Some plane services were delayed by few hours. A plane which arrived over Dum Dum airport during the thickest rain circled for about 30 minutes before it could make a safe landing.

Even carts were pressed into service as passenger vehicles in

CITY NEWS PARADE

OBITUARY: Shri K. S. Ramchandra, an engineer of S. S. 'Jagarna', berthed at Kidderpore Dock area was drowned in the Hooghly on Sunday the 21st July. The body was traced later and sent for post-mortem examination.

The late Shri Ramchandra slipped into the river while was getting into the vessel with the help of a rope.

* * * *

Janab Gulam Hamidur Rahman, Commissioner of Wakfs, West Bengal, died at his residence, Park Circus, on Friday, the 19th July last. He was 55. The Junaza Nimaz (pre-burial prayer) was held at Park Circus maidan on the next morning after which the body was buried at Gobra burial ground.

BUS SERVICES IN BELLIAGHATA AREAS running on routes Nos 35 and 35A were dislocated for about three hours on Friday, the 19th July last, towards the morning when a large number of intending passengers demonstrated against irregular plying of buses between Sealdah station and Joramandir and Beliaghata.

According to them, the vehicles on these routes did not keep to the time schedule and complaints against irregular service went unheeded. These irregularities caused great inconvenience to passengers who decided not to allow the vehicles to ply and squatted on the road as a protest on that day.

The normal service was restored after an assurance was given on behalf of the Directorate that henceforth a strict check would be maintained on the routes to ensure regular service with the existing 30 vehicles.

At the weekly meeting held on that evening, Councillor Panchanan Sarkar demanded that the Corporation should urge the State Directorate of Transportation to increase the number of vehicles on that route as well as to extend the route to the farther east as far as the C. I. T. Buildings. He also narrated the plight of the citizens living in that quarter as regards transport difficulties.

DR. H. V. EVATT, leader of the Australian Labour Party, who had been in the city for a few days, reiterated on Sunday the 21st July that the cold war was the greatest problem before the U. N., and it was actually hindering the organization's progress.

Dr. Evatt's journey from Dum Dum on his way home, was delayed because of mechanical trouble. Dr. Evatt spent the night with the Australian Trade Commissioner in Calcutta, Mr. J. L. Chapman, and resumed his flight on Monday, the 22nd July. He also met the State Chief Minister, Dr. B. C. Roy on that day.

SOCIAL CRIMES: The Enforcement Branch police seized dhotis and saris, valued at about Rs. 10,000 from a shop in Cross Street, Burrabazar area and arrested three men as the shop had no textile license on Friday, the 19th July last.

During another raid the same day the police seized over 1,900 maunds of lime, suspected to have been adulterated, and made three arrests in the Beliaghata area.

In connexion with a shortage of over 3,100 gallons of petrol in the Calcutta Port Commissioner's Central Transport Depot near Alipore Aerodrome Road, detected in October 1955 during audit inspection, a Garage Superintendent was suspended in May. Another employee of the Port Commissioner, was suspended in June 1956. The depot is under the direct control of the Port Commissioner's Secretary. A departmental inquiry is still proceeding.

Convicting a pickpocket who robbed a tram passenger of Rs. 240, a Presidency Magistrate, observed that the city had become a paradise for pickpocketeers and swindlers. They were enemies of the society, and this offence had become so rampant that it was highly alarming and it had become difficult for citizen to travel in trams and buses safely with their purses. Considering the accused, to be a first offender, the Magistrate sentenced him to three months' rigorous imprisonment.

DEMONSTRATIONS: Candidates appearing in the law, Intermediate Law Examination of Calcutta University demonstrated in Darohanga Buildings on Saturday the 20th July last protesting against the difficulty of the questions. A group of them saw the Vice-Chancellor, Prof. N. K. Sidhanta later and placed their grievances before him. They also met the Principal of the Law College.

Workers of the Eastern Railway's loco shed at Narkeldanga, East Calcutta, squatted on the track for over an hour on the same day after a fitter had lost all the fingers on his right hand in an accident. No engine could leave the shed during the demonstration.

The fitter was working on an engine when another engine bumped into it. As a result of the demonstration, the departure of six trains, from Sealdah was delayed.

Criticising the attitude of the Government for India towards the question of appointment of a Second Pay Commission a mass rally of the employees of the Central Government was held at Wellington Square, on Thursday the 25th July. They expressed their determination to carry on the movement until their demands were met. Shri K. G. Basu presided over the crowded meeting.

Before the meeting commenced processions carrying posters and placards began converging at the meeting place from different areas shouting slogans. On the termination of the meeting also, processions were taken out which terminated at Shambazar crossing.

At a general meeting of the West Bengal Government employees held at the University Institute Hall, on Monday the 22nd July the State Government was asked to accept the 53-point charter of demands.

The meeting, which followed the two-day deliberations of the 235 representatives of the State Government employees and was held under the joint auspices of 22 different unions also demanded institution of a judicial enquiry into the salary and emolument structures of the State Government employees.

There was another demonstration on Friday, the 26th July by the employees at the Central Municipal Office building when the weekly meeting was in progress. It was arranged by the All Party's Convention. They carried flags and festoons and shouted slogans.

46 CANDIDATES SAT IN AN EXAMINATION of Bengali language and literature, conducted by the Nikhil Bharat Bangabhasa Prasur Samity on Sunday, the 21st July at the premises of the David Hare Training College, South Calcutta. The examination, open to those whose mother tongue is not Bengali, is divided into three stages, the passing of the final one entitles a Diploma. Among the candidates were an American lady Miss Frances Major, Mrs. T. Wangdi, wife of Mr. T. Wangdi, a Deputy Minister of West Bengal, and Shrimati J. Joshi B. A., wife of Shri Joshi, Income Tax Officer. A father and son sat in the same examination. The syllabus contains books mainly of Rabindranath, Bankim Chandra and Sarat Chandra Chattopadhyay. The examination is also conducted in many of the important towns outside West Bengal including Trivandrum and Enaculum, southern extremity of India.

The Tamils, Gujratis and Maharastris are keen to learn Bengali.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

Tollygunge Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for..." on 27th August, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. on the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. Works may at the discretion of the Commissioner be forfeited.

1. Carrying Jhama Metal from Tollygunge Stores to different Roads in Const. No. 76—Rs. 1,503.00, dated 19th July, 1957 (6 weeks).

2. Carrying Metal from Tollygunge Stores to different Roads in Const. No. 62, Tollygunge—Rs. 2,74.00, dated 19th July, 1957 (6 weeks).

3. Carrying stone metal from Tollygunge Stores to different Roads in Const. No. 76—Rs. 2,253.00, dated 19th July, 1957 (5 weeks).

4. Carrying metal from Tollygunge Store to different Roads in Const. No. 77—Rs. 2,560.00, dated 19th July, 1957 (6 weeks).

5. Carrying materials from Tollygunge Store to different Roads in Const. No. 78—Rs. 1,205.00, dated 19th July, 1957 (6 weeks).

Please note that words "Two months" as printed in italics in Clause 8 of the tender form, is to be read as 3 months and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

P. GUPTA,

Asstt. Engineer, Tollygunge.

TOLLYGUNGE ENG'G. OFFICE.
The 25th July, 1957.

To All Registered Petty Improvement Lighting Contractors

District No. III, Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for..." on 27th August, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. Petty tender forms of the Corporation are to be used in submission of tenders. The Corporation standard specification will apply on the work.

The successful tenderer for all works exceeding the value of Rs. 2,500/- shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

Electric connections to Lino Machine No. 2 of the Press at C. M. O., L. 31—Rs. 125.99 n.p., dated 25th July, 1957 (60 days).

Please note that the words "Two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

D. M. SAHA,

Lighting Superintendent.

CENTRAL MUNICIPAL OFFICE.

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

VIEWS AND REVIEWS

REMOVAL OF STATUES

Through a resolution, the Corporation at its weekly meeting on Friday, the 2nd August, demanded replacement of the statues and busts of the Imperialist British Rulers and their Agents lying on the main thoroughfares and on other important public places in the city by those of the martyrs and builders of Independent India. The resolution further desired that the removal of the statues be effected within the 15th of August, 1957.

The resolution passed in that meeting was moved jointly by Councillors Narendra Nath Sen, Satyananda Bhattacharyya and Kesto Chandra Kundu. Earlier, separate motions were tabled in the same spirit demanding removal of statue in order to wipe out the signs of imperialist conquests from the face of the city. The House in a previous meeting requested the members to table an agreed motion so that the House could adopt it smoothly.

The other parts of the motion, demanding re-naming Dalhousie Square as Netaji Subhas Park and to instal busts of three great martyrs, Dinesh Gupta, Benoy Bose and Badal Gupta, were referred to the Borough Committee of that area for early consideration.

The big size statue of General Outram on horseback with an open sword, situated at the crossing of the Park Street and Chowringhee has become an eye-sore. And the West Bengal Government has decided to replace it by a bronze statue of Mahatma Gandhi. The well-known sculptor, Shri Debi Prasad Roy Chowdhury, will make the Mahatma's statue which is expected to be installed in a few months.

The West Bengal Government is also considering the question of removal of other statues of foreigners from public places. There are 24 such statues in the city. The Government, which is in correspondence with the Centre over the matter, is looking for places for their preservation. Orders had already been issued for removal of General Outram's statue.

Similar demands have been made to erect statues of Rabindranath, Vivekananda and other great men who had made the country great by their noble heritage and birth. And all these being the sons of this City, Calcutta cannot forget them. In that meeting Councillor Kesto Kundu also urged the installation of a similar statue of Rabindranath somewhere in a prominent place in the city while welcoming the Government's decision.

SCHEME FOR EXCAVATION OF SILT

The Corporation has recently approved a scheme for excavation of silt from Nikashi Drains lying mainly within Districts III and IV, and in other added areas namely Cossipore, Manicktalla and Tollygunge. The scheme was discussed at a joint meeting of the Standing Finance Committee and the Standing Works Committee, some-time ago, with Councillor K. L. Dhandhanian, presiding.

The scheme as was originally prepared by the Corporation's Chief Engineer, Shri A. K. Sen, noticed that the accumulation of silt had reached to a figure of approximately two lakhs cubic feet. It included inviting of quotations from bonafide contractors for excavation of silt from running Nikashies in the above areas and the disposal of the same by lorries. Engagement of suitable number of mazdoors both on a permanent basis as well as on a temporary basis for keeping those drains free from silt accumulation, was also included. The Finance Officer has been requested to provide necessary funds for the purpose. The scheme authorised the District Engineers to dump the excavated silt on suitable places free of any charges.

The scheme paid particular attention on the silt clearance in Manicktalla and other added areas. But this did not satisfy Councillor Naren Sen representing Manicktala. In that connection he put up a modified scheme for that area. He also wanted effective silt clearance for all the Nikashi drains on either sides of the Ultadanga

Main Road, Manicktalla Main Road, Narkeldanga Main Road and Beliaghata Main Road. By another amendment he desired that silt clearance work should also be extended over the streets of that area during the monsoons, as these were kept under mud and slimes causing the citizens impossible to pass over them. All his suggestions were referred to the Standing Works Committee for further examination and implementation if possible.

Earlier, during discussion hours on urgent public importance, Councillor Dharendra Nath Bose, as a member of the Standing Works Committee, through a statement, acquainted the House with the present position of silt accumulation in the brick sewers. He assured the House that the clearance work had been undertaken and it was hoped that the anxiety of the citizens would be removed soon. He stated that even if the sewers were free from silt and Pumping Stations had ample pumping capacity there would have been flooding from high intensity of rainfall. On three occasions there was street flooding during this year and it was due to the fact that the intensity of rainfall was very high.

In the statement, Councillor Bose stated that from time to time proposals were sent up for employment of additional staff and transport to remove the arrear silt deposit and in compliance with that the authorities provided in the year 1954 a sum of Rs. 3 lakhs for the purpose. Tenders were called for two times for removal of silt but on each occasion little response came from the tenderers. In the meantime, there was a great discontent amongst the permanent sewer cleansing staff which took a serious turn due to a reason that during March, 1956 one sewer cleansing Mazdoor while working in a small size brick sewer in Upper Circular Road got unconscious and unfortunately died in spite of timely medical aid given to him. As a result the permanent sewer cleansing staff refused to work in small size brick sewers though they continuously worked for cleansing silt from the larger sewers. In order to cope with the situation an additional staff consisting of 100 temporary Mazdoors were engaged on and from 12th April 1957. The work is now on the progress. In three months time 1 lakh 3000 cubic feet silt has been removed by this additional staff. There is a proposal to appoint just after the monsoons a further batch of additional staff so that the work might be continued simultaneously in the 4 Districts.

Rs. 80 lakhs, to be obtained out of Rs. 225 lakhs allocated by the Union Government to the Corporation in their Second Five Year Plan, would also be utilised for augmentation of the Pumping Stations' Developments, he added.

Thus, it may be said that the position as reviewed earlier has been improved much. Another scheme of silt clearance, already recommended by a Joint Committee, has been placed before the Corporation for acceptance. The citizens' anxiety would further be relieved when another Pumping Station would start functioning at Birpara, as announced by the Executive Engineer, Drainage.

MODIFIED RATIONING IN THE CITY

The Corporation at its weekly meeting on Friday, the 26th July last passed a resolution urging the West Bengal Government to open sufficient

number of fair price shops in the city so that the citizens could procure their essential foodstuffs at reasonable prices. The resolution was placed before the House in the shape of a motion tabled by Councillor Sachin Sen about two months back demanding supply of foodstuffs at considerable lower rates.

The motion was adopted after a brief discussion participated in by fewer members. All of them felt the need of opening larger number of such shops. At the same time they demanded that there should not be any discrimination in issuing ration cards to the citizens. Even they wanted the system to be free from any political gambling or the like.

With the increase of prices, particularly of rice and wheat, the State Government did its best to introduce a system of control within the city. Rice could not be fully brought under a system due to various reasons. But wheat was almost put under control both in the shape of quantity as well as of prices. In view of the misery of poor citizens in obtaining those foodstuffs at fair prices the State Government had arranged supply of both the commodities through fair price shops.

These shops were located mainly in the Bustee areas and the State Food Minister, Shri P. C. Sen, himself looked into the workings of many of such shops. It was then envisaged to cover nearly eight lakhs of people who comprised the city's of prices.

But the prices still recorded a further increase. The reasons of such rise though not known exactly still the relation between demand and supply did play a lot in it. This had prompted the State Government to extend the facilities of fair price rice and wheat shops, to the whole city. This decision was taken towards the earlier part of this month when a deputation of Price Increase and Famine Resistance Committee met the State Chief Minister, Dr. B. C. Roy and the Food Minister, Shri Sen, at Writers' Buildings. The deputation consisted many of the Calcutta M.L.A.'s. Earlier to that a mass demonstration was staged in the city through meetings and parading of processions.

Distribution of ration cards, was felt necessary in this regard. It was also announced, on behalf of the Government that from these shops one seer each of rice and wheat per head would be sold every week at seven annas and six annas respectively. The open market would also function and people would be entitled to buy their quota from fair price shops and supplement them or buy their entire requirements from the open market.

The deputation's suggestions included the extension of fair price shop facilities to all people in the city, and increase in the per head quota from two seers to three seers a week as well as reduction of prices.

No doubt even within a month, the prices of all the commodities have shown a steady increase. The monsoon was found responsible for such increase during a similar period every year. But this year's increase has shown abnormal figures in comparison with others.

There are increase of prices as regards rice, wheat, pulses, vegetables, fish, meat, spices, oils, ghee and what not. In a word a middle-class

family of six members to-day has to spend another thirty rupees as regards foodstuffs. The restriction of import licenses have added another burden as regards medicines, ordinary stationery goods and like. Even books have not been spared. Increase also recorded in respect of clothings, textiles and house rents. The less we speak better for us because the increase in these spheres have recorded beyond and mathematical calculation.

Thus, gone are the days when the citizens lived happily in the midst of abundance and plenty in every sphere. To-day, an acute scarcity prevails everywhere due to some known or unknown reasons and the State has been found to be only source from where people could get relief. So the resolution of the Corporation for ensuring adequate quantity of foodstuffs to the citizens is a right move, particularly on an occasion when West Bengal is going to emerge as a Welfare State.

DR. A. K. MUKHERJI IS DEAD

With the death of Dr. Amiya Kumar Mukherji, Corporation has lost one of its faithful and devoted employees and to his colleagues and admirers a sincere friend has been lost for ever. He was attached as Pathologist to the Central Laboratory. He was also a Pathologist in the Mansatala Chest Clinic, Kidderpore, for several years. Dr. Mukherji died on the 5th

DR. MUKHERJI AT WORK IN THE CENTRAL LABORATORY

July last at the Sukhlal Karnani Hospital after a brief illness. A few days before his death, accompanied by an eminent physician in the city, the late Dr. Mukherji went to see one of his patients where he suddenly fell ill and was removed to hospital. He was 53.

The late Dr. Mukherji was a lovable personality to all who came in contact with him. His suave manners and amiable disposition drew a large number of people towards him. As an expert physician he also built up a wide practice in the Ballygunge area where he lived. He was kind to the poor patients and his humanitarian work extended even to the low-paid employees of the Corporation. Thus his death was widely mourned. A large number of his friends and admirers attended his funeral.

Son of late Dr. Asutosh Mukherji, L.M.S. D.P.H., a District Health Officer Corporation, the late Dr. Mukherji took his M.B. Degree from the then Charmaichael Medical College, Calcutta, in 1938 and started his profession independently. He established himself within a short time. At that time he was connected with the David Hare

Training College and Teachers' Training College, Calcutta Corporation, as a teacher of Hygiene. He was also an Examiner of the subject under the University of Calcutta and later on under the Board of Secondary Education, West Bengal. He joined Corporation in 1937 as a Pathologist. Besides, he took a keen interest in the cultural and educational activities of the locality he lived. He was a member of the Managing Committee of the Muralidhar Girls' H. E. School till his death.

The members of the staff of the Corporation Central Laboratory mourned his death on the 8th July last. His colleagues referred to many of the qualities of head and heart of late Dr. Mukherji. There was another memorial meeting in the Reception Hall of the Mansatala Chest Clinic, Kidderpore, wherein Dr. A. Mukherjee, Health Officer, presided. A condolence resolution was adopted and the meeting extended its sympathy to the members of the bereaved family. Silence was also observed in that meeting praying peace for the departed soul.

In that meeting which was attended by a number of his admirers, Dr. B. Sarbadhikary, Medical Officer of the Clinic, recalled his past association with the late Dr. Mukherji even from the days when they both had been students in the same medical institution. He said 'as a man the late Dr. Mukherji was a person with high heart, kind and sympathetic whenever he came in contact with anybody, from the highest to the humblest, workers, friends and others'. Dr. Sarbadhikary also referred to the meritorious services rendered by the late Dr. Mukherjee in building up the Chest Clinic as a Pathologist.

We also extend our sincerest condolences to the members of the bereaved family.

SHRIMATI ANNAPURNA GOSWAMI PASSES AWAY

We deeply regret to announce the death of Shrimati Annapurna Goswami, the well-known Bengali litterateur on Saturday, the 27th July last, at her residence at Chitpore Road. The late Shrimati Goswami had been suffering from cancer for sometime past. She was 41.

Within her short span of life, the late Shrimati Goswami's literary genius showed great developments and some of her compositions are of abiding merit. In 1952 the late Shrimati Goswami was awarded the Leela Prize by Calcutta University. In 1954, in the International Competition of short stories she was the winner of the best prize among Bengali competitors. Of her published books, particular mention should be made of Bhrasta, Sangopanay, Bandhan Hara, Rel Lainer Dha-re, Ek Fali Baranda, Toomi Shudhu Chhabi and others.

The late Shrimati Goswami was an important member of the All-India Banga Sahitya Sammelan, Mahila Sanhati and other organizations. The eldest daughter of Sri Nitish Chandra Lahiri, General Manager, Columbia Pictures, she was the wife of Dr. Abani Mohan Goswami of the Chitpore Railway Hospital.

Her death was widely mourned in the city, particularly in the literary field. Several meetings were arranged in the city to mourn her death.

We also extend our sincerest condolences to the members of the bereaved family.

THE CORPORATION AT WORK

A Gist Of Proceedings Of The Thirteenth Ordinary Meeting Of The Corporation Held On Friday, The 26th July, 1957.

ACCIDENTS IN THE CITY

The abnormal increase in the number of street accidents has agitated the minds of many of the City Fathers. Expressing an equal concern with others, Councillor Dr. K. P. Ghosh said that time had come when the Corporation should think of the matter seriously. He suggested that a Joint Committee should be constituted with representatives both from the Corporation as well as from the Police authorities to find out some ways and means in order to eradicate the evil out of the city. He felt that the Corporation had a duty in this regard.

The Mayor, Dr. Triguna Sen, however, assured the House that the Commissioner would look into the matter.

ADMISSION IN MEDICAL COLLEGES

Councillor Rouf Ansari drew the attention of the House to the difficulties experienced by intending meritorious candidates in getting themselves admitted for studies in different medical colleges in the city. He also pointed out to the alleged malpractices adopted by these college authorities in selecting candidates. Councillor Ansari wanted that such practices should be stopped immediately in the interest of the country.

TOLLYGUNGE'S PUBLIC HEALTH

Councillor Nripendra Nath Banerjee drew the attention of the House to the fact that when Cholera epidemic was gradually subsiding in the city the plight of Tollygunge had not been improved satisfactorily in this regard. He said that Cholera was still raging there and the Corporation should provide a sufficient number of Inoculation Officers in that area. According to him ten such officers should be allotted for the purpose. As insufficient quantity of filtered water is responsible for such menace, Councillor Banerjee urged to ensure such supply in the shape of sinking big tube-wells.

Councillor Sachin Sen also followed Councillor Banerjee in acquainting the House that the minimum number of tube-wells required to be sunk within a scheduled date had not been done.

The Mayor assured the House that the authorized Standing Committees would look into the matters.

AN EX-PLAYER'S PLIGHT

Councillor Mukur Sarbadhikary urged the House to request the State Government so that they might extend their help to the sportsmen in the city who had retired from the field. In that connection he narrated the miserable plight of a one-time famous football player, Shri Panna Paramanick. He said that the whole sporting world still adored his name as one who had raised the prestige of

India by his participation as a player in snatching away the I.F.A. Shield in the year 1911. Till lately he had been a pioneer in this field. But unfortunately poor pecuniary circumstances had forced him to lead a ruinous life. He felt that the citizens, nay the country as a whole, should help him to lead a happy life. It is stated that Shri Paramanick has been suffering from cancer.

DR. J. B. S. HALDANE WELCOMED

The Corporation at its weekly meeting on Friday, the 26th July, extended a hearty welcome to Dr. J. B. S. Haldane and his wife Dr. Helen S. Haldane on their reported emigration to this country. Dr. Haldanes will stay at the Indian Statistical Institute, Baranagore for the present.

Putting up the proposal Councillor Dr. K. P. Ghosh said that the citizens should feel proud for having such great men in this country. He also referred to the emigrations of other notables who felt for the country and adopted the country's citizenship. The name of late Dr. C. F. Andrews was also referred to in this connection.

"Every time I come here I find myself more comfortable than that of England," said Dr. Haldane on his arrival at Dum Dum Airport on Thursday, the 25th July. With vermillion on her forehead Dr. Helen Spurway, his wife accompanied him.

Asked to comment on his reported emigration to India Dr. Haldane said that though the decision was in no way final yet he thought likewise.

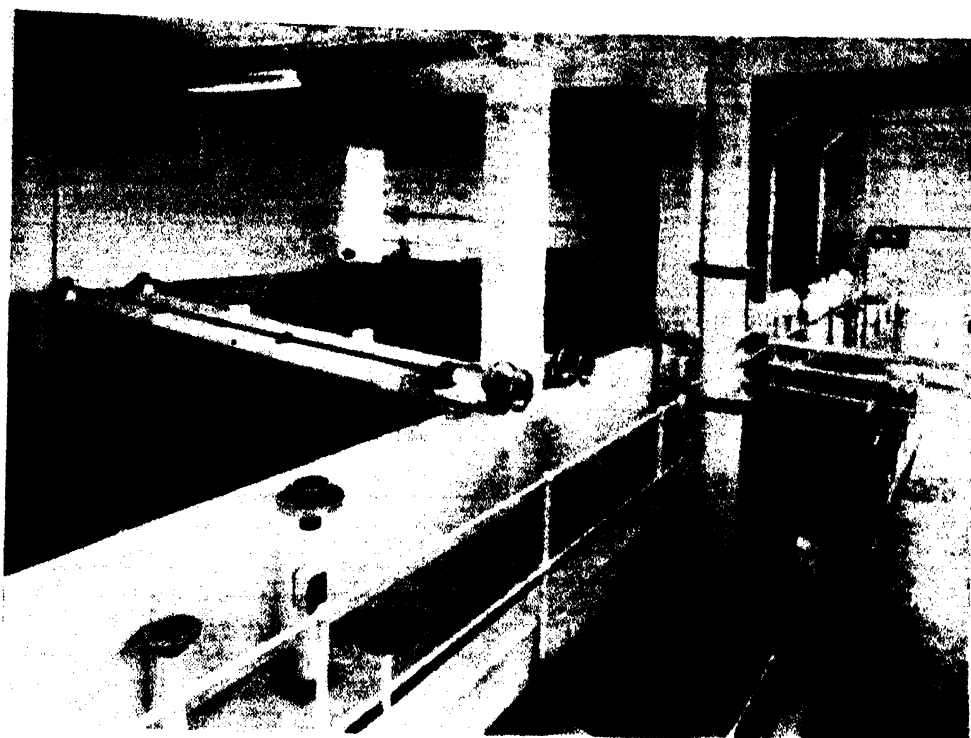

SINKING OF TUBE-WELLS

The House, on the recommendation of the Standing Water Supply Committee, prescribed certain procedures in the matter of sinking 300 tube-wells of 1½ in. size in different parts of the city as per resolution of the Corporation dated the 5th July. The Executive Engineer, Water Works, was authorized to select sites for sinking those tube-wells based on the recommendations of the different Borough Committees. These tube-wells would be sunk by contractors, on a labour contract basis, provided the materials would be furnished by the Corporation. The resolution also entrusted the complete execution of the work to the Executive Engineer.

NEW ALIGNMENTS

Based on a recommendation of the Standing Town Planning and Improvement Committee, the House prescribed two alignments namely a 40 ft. wide road running north to south connecting Chetla Central Road and Chetla Hat Road and another 30 ft. wide road between Rakhal Das Addy Road and Paramhansa Deb Road in Ward No. 72.

(Continued on page 362)

A NEW MODEL OF PURIFICATION & FILTRATION PLANT.

MODERN WATER TREATMENT

MODERN water treatment technique caters for every variety of municipal and industrial requirement, irrespective of the source of supply or the nature and amount of pollution that may be encountered.

Typical of the latest practice in Britain is the Prewley Water Works of the North Devon Water Board, which forms part of a large scheme to supply for the first time water to an extensive rural area. The source is river water which when the run-off is high is discoloured by peat but during dry periods the water is at times so clear that little more than filtration is required to arrest suspended matter. This necessitates purifying a water which sometimes is acid and coloured and other times relatively clear, containing only minute amounts of impurities, and the purification arrangements have been designed for these specific circumstances.

The plant has a purification capacity of 1,400,000 gallons per day and provision is made to treat the water with alumina and chalk and a small dose of lime during the pre-filtration process of flocculation and sedimentation and the addition of a further dose of lime after filtration. It is possible to supply chlorine either during these processes or after filtration and the water can also be de-chlorinated, wholly or in part after filtration.

Flocculation and sedimentation are effected in an Accelator plant, cylindrical in shape and constructed of reinforced concrete, 37 feet in diameter and containing 16 ft. of water. This plant permits more rapid completion of the physical and chemical changes involved in the purification of the water than the flocculation and sedimentation tanks generally used for water purification. It can therefore be built much smaller and in such a form as to avoid the difficulties of discharge of precipitates and cludge associated with the longer rectangular sedimentation tanks. It depends for its

effectiveness upon the most intimate admixture of the chemical reagents with the incoming raw water, and the circulation of precipitate formed during the purification process.

At Prewley three agents are employed—namely, sulphate of alumina, chalk and lime, which are measured by dry chemical feeders whose output is easily adjustable by the operator to cope with fluctuations in the quality of the water merely by turning a small wheel on each machine. Drive is by a fractional horse power electric motor on each machine which also automatically starts and stops according to the opening and closing of the automatic water inlet control valve.

The three feeders stand on a floor, level with the Accelator top, the chemical reagents being stored in another compartment above this storey, and suspended through the ceiling are steel hoppers into which the reagents are emptied from bags. A chlorograph is installed on the same floor as the chemical feeders for delivering chlorine either into the Accelator or after filtration.

The partially clarified water flows into a channel common to the four manually operated filters, comprising the filtration plant each of which contains graded sand supported by a number of graded beds of pebbles with a total thickness of about 45 in. The filter underdrains are non-metallic and non-corrodible, discharging filtered water into a channel constructed integral with the floor of each filter from where the water flows to controllers and then to a covered pure water channel which conducts it to a contact tank to ensure adequate time of chlorine contact prior to de-chlorination. The filters are cleaned by compressed air and water, the wash water being raised from the pure water channel by centrifugal pumps to a tank constructed above the roof of the filter house.

After filtration the water passes through an underground contact tank to ensure adequate contact time for the chlorination process before being discharged to the service reservoir. The latter is constructed of reinforced concrete in two compartments completely covered. When full it contains 1,500,000 gallons, the top water level being 1,060 feet above sea level and from the service reservoir the water goes into supply through a 15 in. main, subsequently branching into a 10 in. main and a 12 in. main.

A well equipped instrument panel forms part of the necessary equipment, including a Venturi meter for recording the rate of flow and quantity going into supply. A klaxon horn raises an alarm should the flow exceed a pre-determined rate thus indicating a burst main or other cause of excessive demand. The sludge both from the Accelerator and the filters is taken into tanks to settle, after which the separated water is drawn off and the solid sludge emptied and disposed of from time to time.

It is of interest to record that all the filtration plant and instruments mentioned were manufactured and erected by the Paterson Engineering Company (India) Ltd. of London and 21 Theatre Road, Calcutta, well-known specialists in the field of water purification and who have, over the last fifty years designed and constructed water treatment works in all parts of the world.

—THE CORPORATION AT WORK

(Continued from page 360)

GRANTS TO HOSPITAL

The Corporation, on the recommendation of the Standing Health Committee, sanctioned a lump sum grant of Rs. 14,000 only, for the year 1956-57 for the maintenance of eight Corporation Free Beds in the T. B. Annexe of the Astanga Ayurveda Vidyalay, Patipukur.

OVER-BRIDGE AT GARIAHAT ROAD

The House, on the recommendation of the Standing Town Planning and Improvement Committee, approached the Calcutta Improvement Trust for certain modifications in respect of the Improvement Scheme No. LXXII. Construction of an Over-Bridge with approaches at Gariahat Road Level crossing.

The resolution suggested that the width of the road on the bridge should be 60 ft. in consideration of the increasing improvement of Raja Subodh Mullick Road as thoroughfare, that the Corporation passage outside the eastern border of the blue verge should be widened to 30 ft. and be connected up with the proposed tunnel through the Railway land, that the 18 in. diameter pipe sewer in the portion of Gariahat Road to be affected by the proposed high level approach road be diverted on to the proposed western low level road and a portion of land area about 10 kottahs be earmarked for a Drainage Pumping Station at the north-western corner of No. 1, Gariahat Road (Jodhpur Park) which site had been marked out in the plan and the Trust be requested to see that no encroachment was made on this land.

DEATHS AND DISEASES IN THE CITY

Influenza is still continuing its havoc over the city and during the week ended the 27th July last, there were 720 cases of attacks from the disease against 548 in the week previous. There were also three deaths during the later week while one person died of the same in the preceding week. The disease did not appear in such a virulent form during last year.

Attacks and deaths from Cholera during the week were 32 and 18 respectively against 36 and 16 in the week previous. During the corresponding fortnight last year attacks and deaths were 20 and 10 respectively.

Small-pox tolled three lives only while attacks were five during the week against nine attacks and three deaths in the week previous. Attacks and deaths were in increased number during a corresponding fortnight last year, the numbers being 17 and 12 respectively.

Malaria was responsible for four deaths against two during last week. Typhoid took six lives against five.

There were 36 deaths from T.B. against 33 in the week previous. Altogether 57 persons lost their lives from the disease during last year's similar period.

Deaths from all causes totalled 691 against 619 while the total number of deaths during the corresponding weeks of last year were 586 and 577 respectively.

During last few weeks the City had almost no anxiety from epidemic diseases except a large number of incidence cases from Influenza. The number of deaths from the disease was insignificant during the first three weeks of July.

Attacks and deaths from Cholera during the three weeks of July namely, the 6th, the 13th and the 20th totalled 150 and 69 respectively. During the week preceding the first week attacks were 44 and deaths were 18 only. The total figure for the corresponding period during the previous year were 77 attacks and 34 deaths.

Small-pox was on decline during this period of three weeks, still the total attacks were 22 and deaths 14. During a previous week ending the 29th June attacks and deaths were 13 and 11 respectively. There were an almost similar number of attacks and deaths from the disease during a corresponding period last year.

Altogether 131 persons lost their lives due to an attack of Tuberculosis during the first three weeks endings of July namely, 6th, 13th and 20th. Thus the disease tolled the highest number of lives during this period. 118 persons also died of the same during a similar period in previous year.

Malaria was responsible for total loss of six lives only in the City during the period.

Deaths from all causes totalled 1843 during the first three weeks of July against a total number of 1813 during a corresponding period last year. During the week ending the 29th June, deaths numbered 616 altogether.

Calcutta Looks Ahead

AIR-CONDITIONED OPERATION THEATRES

All operation theatres in the city's Government hospitals will be made air-conditioned in order to help surgeons to perform difficult operations efficiently.

According to the State Minister for Public Health, Dr. Anath Bandhu Roy, the air-conditioned operation theatres are most essential since very difficult operations have to be made.

The State Government has also decided to air-condition the Kanchrapara T. B. Hospital.

PUBLIC HEALTH LABORATORY IN THE CITY

The Government of India will establish one principal Public Health Laboratory in this city and 14 regional laboratories in different districts of West Bengal during the Second Five-Year Plan period. The programme has been drawn up by the Government of West Bengal. Under the scheme, the Government of India would share the half cost of the expenditure with the State Government in respect of scholarships and fellowships to trainees at the principal laboratory on a recurring basis, subject to a maximum of Rs. 500 per annum.

NORTHERN SALT LAKE AREA TO BE DEVELOPED

Northern Salt Lake area would be developed soon in view of the fact that as a result of the work of the Calcutta Improvement Trust, land values in Calcutta had appreciated highly and property-owners whose land was acquired by the Trust often found it impossible to buy land within the city with the money they received as compensation.

An area of 3.74 square miles or 2,318 acres in the Salt Lakes would be available for a big housing scheme when its level would be raised with silt from the Hooghly. This land would be developed on the lines of the Kalyani township and even if 60 per cent of the area was available for actual housing, the price per cottah would be about Rs. 1,750 according to a statement made in the Legislative Assembly, some time ago, by the State Chief Minister, Mr. B. C. Roy.

A NEW MAP OF CALCUTTA

A new up-to-date Map of Calcutta and Howrah showing places of importance, the bus and train routes, hospitals, schools and colleges, is now being prepared by the Survey of India. The map will be released for circulation in October. It has a scale of three inches to one mile. The earlier map of the city was published in 1942. Since then Calcutta and Howrah have undergone considerable changes, necessitating a new map.

CALCUTTA'S NEW STRUCTURE

The Ramkrishna Mission Institute of Culture is building a thirteen-storied structure as Cultural Home in the Gariahat area. Architecturally the building will be a synthesis of the best of the East and the West and its basic conception has been to leave as much space as possible in the centre of the site as a garden for quiet and repose. The new home for the study of Indian culture and thought is now progressing apace over the seven-bigha plot of land in the proximity of the

Gol Park and adjacent to the Ballygunge Lakes. The Mission, sponsoring this project of sixty lakhs of rupees, hopes to shift to this new building a part of its present-day headquarters on Russa Road early next year.

It will have an auditorium providing sitting room for 1000 persons, besides a big Reception Hall, a hall for museum, an art gallery, and a meditation hall on the topmost floor. The second important part of the building will have a library, a reading room for day students, a general reading room and other class rooms. It is proposed to convert the library into a lending library having branches.

The foundation stone laying ceremony of this new Home of the Institute took place in 1955 by Swami Sankarananda, President of the Mission. The whole construction work is expected to complete by the end of 1959.

SERVICE COSTS HIM AN WOUND

Not so serious still an incised wound was sustained by Shri Ram Chandra Malaker, an employee attached to the Cart Registration Section of the License Department while engaged in checking hand carts passing without any license as required by the Corporation. The incident occurred on Saturday morning, the 20th July last, near the Entally Market, Lower Circular Road. Shri Malaker had a busy time on that morning. He was posted on the Sealdah area and went round the whole locality hunting over unlicensed carts. He was able to detect a few ones but the carters rough-handled him, and were able to snatch away the carts leaving him behind.

Being baffled to have the booty Shri Malaker slowly walked on the road. And before he could recover himself he was attacked by a few mischievous elements from behind with a sharpened knife. The stab wound caused him two and a half inches deep on his left arm (picture above).

This an honest and sincere employee was put in trouble because he made an attempt to implement the Corporation revenue while carrying on his duties. However, he has set an example which should be followed by others in carrying on their duties honestly as well as sincerely.

EMPLOYEES MADE PERMANENT

List of temporary employees made permanent by Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated the 1st October, 1956 and 14th December, 1956.

CITY NEWS PARADE

OBITUARY: The death of Shri M. M. Bhandari, Manager of the Cement Marketing Company of India, took place on Saturday, the 27th July last. The late Shri Bhandari studied in Emmanuel College, Cambridge. Returning from England in 1935, he joined the Associated Cement Company and later became Manager of the Cement Marketing Company.

A keen sportsman, the late Shri Bhandari, better known in sports circles as Manmohan, was a leading tennis player. He won the All-India Doubles Championship in 1932. He represented India in the Davis Cup and also played in Wimbledon in 1933.

JATIYA MAHILA SANHAT'S Fourth Annual Conference, holding its open session on Sunday, the 28th July, at Ashutosh Hall, South Calcutta, adopted a resolution stating that women had to suffer most because of the high prices of rice and other daily necessities. The conference, therefore, demanded that the State Government should arrange to supply essential commodities cheaply in all parts of the State.

Shrimati Labanyapraya Ghosh, M.L.A., inaugurated the meeting and Dr. Rama Chowdhury presided.

Shrimati Ghosh said that women social workers, seeking to spread education among women and to better their social conditions, should co-ordinate efforts made by those women workers who were interested in the improvement of women's status in society.

Shrimati Leela Roy asked women to study the social aspects of problems facing them at present. They could not be solved piecemeal. Problems of women's education, employment or rehabilitation could be successfully tackled only through collective efforts made in a planned manner, she said.

DUM DUM TELEPHONE EXCHANGE was converted to automatic working from Saturday, the 27th July last when Mr. Uma Sankar, General Manager, Calcutta Telephones, opened the "57" exchange. It has a capacity of 630 lines.

Introduced in 1953, the scheme was designed to meet the growing demand for new lines during the course of the next five years. But many exchanges had exhausted their capacities within two years indicating great scope for further expansion and development. Since May 1955, 17,200 lines have been converted to automatic working and 11,400 new lines given in the areas covered by the scheme.

The Calcutta Telephones have decided to bring Sibpur and Salkia in Howrah under the scheme during the financial year. It has also planned expansion of several exchanges in view of the growing demand for new lines.

DEMONSTRATIONS: Over 4,000 students of Vidyasagar College stayed away from their classes on Saturday, the 27th July last in protest against the authorities' refusal to allow the Students' Union to hold a meeting at the College premises. The students, who described it as a day's token strike, later held a meeting in the college.

The Bengal Provincial National Trade Union Congress at a meeting on the 26th July, urged for examining the entire wage structure of the working people on a scientific basis. It also emphasized the need for accepting the demand for higher wages where they were justifiable. Dr. Maitreyee Basu, M.L.A., presided.

Over 200 delegates met at a three-day All-India Convention of Life Insurance Field Workers, which ended at the Muslim Institute Hall, Calcutta, on the 29th July to form their National Federation. The convention adopted a charter of demands relating to security of service, pay scales and service conditions.

Speakers who addressed Monday's open session criticized the policies of the Life Insurance Corporation and emphasized the need for a united platform to press home the insurance workers' demands.

A convention of Trade Union workers held on Sunday, the 28th July demanded an immediate 25 per cent increase in total emoluments of workers and employees in West Bengal in view of high prices of essential commodities. Representatives of trade unions affiliated to the Bengal Provincial Trade Union Congress, Hind Mazdoor Sabha and the United Trade Union Congress attended. They adopted a demand letter and decided to send copies to the Prime Minister, State Governments and Associations of employees, soliciting a reply by August 31.

Shri Sibnath Banerjee presided. Janab Mohammad Ilias, M.P., and four M.L.A.'s—Shri Devon Sen, Shri Jatin Chakravarty, Dr. Ranen Sen and Shri Haridas Mitra—spoke in support of the demand and of the strike threatened by the Central Government employees.

PANDIT ISWAR CHANDRA VIDYASAGAR'S 66TH DEATH ANNIVERSARY was observed through different functions in the city on Monday, the 29th July.

In the morning the students of the Vidyasagar College went out in a procession to the College Square and placed in silence a wreath on the marble statue of Iswarachandra there.

Both the students and the teachers of the College held meetings at the College premises to pay respects to one to whom the country was greatly indebted in many respects. Later on, the various qualities of head and heart of Iswarachandra were recalled by the speakers at a meeting held on the occasion at Ram Mohan Roy Library Hall. Dr. Gaurinath Sastri, Principal, Sanskrit College, was in the chair.

Vidyasagar was a man who was far ahead of his time. It was he who had contributed most towards renaissance in Bengal during the nineteenth century. They owed much to Vidyasagar, a great thinker, social reformer, educationist, and, above all, a man with a large heart. Thus was how the speakers paid their tributes to Iswarachandra.

Those who spoke included Principal Achyut Datta, Prof. Purgasaran Chakravarty, Shri Saradindra Narayan Roy, Prof. Shyam Sundar Banerjee and others.

Another memorial function was also held by the staff and students of Metropolitan Institution (Main) in the morning when Shri D. M. Mukherjee, Headmaster of the Institution offered flowers on the statue of Vidyasagar in the school premises.

Shri Benoy Ghose, Vidyasagar Lecturer of the University for 1956, delivered his second lecture on 'Vidyasagar's contributions to Bengali Language and Literature' in the Darbhanga Hall, Darbhanga Building on the Wednesday—the 31st July.

Dr. Sashibhusan Dasgupta, Ramtani Lahiri Professor of Bengali Language and Literature, presided.

A. I. R. CALCUTTA presented selected excerpts from old broadcasts by Rabindranath Tagore, P. C. Ray, Abanindranath Tagore, Jaladhar Sen, Sarat Chandra Chatterjee, Meghnad Saha and others on Sunday, the 28th July. Entitled Punarabriti, this special AIR anniversary broadcast was heard in the night.

A programme of light and folk music, based on recordings of artists who have been participating in AIR programmes since the inception of broadcasting in India was relayed from Delhi at night.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. I Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 9th August, 1957 up to 2 p.m.

The abstract of the estimate can be seen at District Engineer I's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 p.c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

24. Kerbing and channelling of Ram Kumar Rakshit Lane, Ward No. 24—Rs. 929/-, dated 19th July, 1957 (1 month).

25. Kerbing and channelling of Doyehatta Street, Ward No. 24—Rs. 1,981, dated 18th July, 1957 (1 month).

26. Construction of lamphole opposite 5A and B, Jagannath Sur Lane for maintenance of sewer in Ward No. 11—Rs. 326/-, dated 18th July, 1957 (1 week).

27. Repairs to D. H. O. I's Office and counter of the District No. I at 79, Cornwallis Street, Ward No. 13—Rs. 4,410/-, dated 24th July, 1957 (1 month).

28. Improvement of Rajendra Sen Lane and Ram Chatterjee Lane in Ward No. 22—Rs. 1,748/-, dated 24th July, 1957 (3 weeks).

29. Conversion of A.R.P. Underground Reservoir at Narendra Deb Park into a Children's Swimming Pool—Rs. 4,661/-, dated 24th July, 1957 (1½ months).

30. Repairs to pipe sewer at Marcus Square and Mitra Lane (Portion) in Ward No. 22—Rs. 3,257/-, dated 30th June, 1957 (1½ months).

31. General repairs to Kasbi Mitter Burning Ghat—Rs. 4,215/-, dated 4th June, 1957 (1½ months).

32. Repairs to footpath of Jatindra Mohan Avenue between Durga Charan Mitra Street and Beadon Street, Ward No. 12—Rs. 3,373/-, dated 1st July, 1957 (1 month).

33. Repairs to footpath of Jatindra Mohan Avenue between Grey Street and Durga Charan Mitra Street in Ward No. 11—Rs. 4,259/-, dated 1st July, 1957 (1 month).

34. Repairs to footpath of Dalimola Lane, Raja Bagan Street, Raja Rajkissen Street and Khudiram Bose Road, Ward No. 13—Rs. 3,742/-, dated 1st July, 1957 (1 month).

35. Repairs to footpath of Cornwallis Street between Grey Street and Beadon Street Ward Nos. 11 and 12—Rs. 4,613/-, dated 28th June, 1957 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

S. MITRA,
District Engineer I.

DISTRICT I ENG'G. OFFICE:
The 26th July, 1957.

District No. III Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 8th August, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office (Estimating Section). The Corporation standard specification will apply on the works. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited. Agreement and security deposit are not necessary for works valued below Rs. 2,500/-.

22. Construction of a lamphole and improving the old style gullypit opposite premises No. 25, Marquis Lane, Ward No. 52—Rs. 432/-, dated 27th July, 1957 (21 days).

EDUCATION DEPARTMENT:
The 23rd July, 1957

VITAL STATISTICS

For the City of Calcutta for the week ending
20th July, 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 619 against 584 and 640 in the two preceding weeks and higher than the corresponding week of the last year by 22. The general death-rate of the week was 10.60 per mille.

TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 20th July, 1957, was 475 against 460 and 489 in the two preceding weeks. There were 13 deaths from cholera against 23 and 16 in the two preceding weeks. There were 3 deaths from small-pox during the week against 5 in the previous week. There was 1 death from influenza against 2 in the previous week. The mortality from fevers and bowel-complaints amounted to 22 and 56 respectively against 12 and 59 in the preceding week. The general death-rate of the week was 10.51 per mille per annum.

There were 64 imported deaths. Excluding these, the death-rate of the Town was 9.09.

There were 75 deaths from respiratory diseases against 66 in the previous week.

There were 32 deaths from tuberculosis against 44 in the previous week.

ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 144 against 124 and 151 in the two preceding weeks. Of these, 3 were from cholera, nil from small-pox, nil from influenza, 2 from fevers, 47 from bowel-complaints and 22 from respiratory diseases. The death-rate of the added areas was 10.94 per mille.

There was no imported death. Excluding this, the death-rate was 10.94.

There was 1 death from tuberculosis against 7 in the previous week.

CALCUTTA PAPER TRADERS' ASSOCIATION

The annual meeting of the Association came off on July 27. Shri C. C. Mukherji who presided, suggested re-orientation of the Government's policy with regard to import of newsprint so that people could buy a cheap paper.

He alleged that many newspapers imported newsprint much in excess of their requirements and sold the surplus in the black-market. The Government and the Audit Bureau of Circulation had failed to check their machinations, he added. To prevent this, Shri Mukherji said, established importers should be allowed to import at least 40 p.c. of the existing licensable quota of newsprint. He also suggested that sales tax should be levied at source to check undue competition and tax evasion. This would increase the Government's revenue by over Rs. lakhs annually.

Dr. Radhakumud Mukherjee, M.P., was the Chief Guest.

SHOPS TO LET

COLLEGE STREET MARKET

Applications with offers of Initial Rent for the privilege of occupying the undermentioned stalls on rent noted against each are invited and will be received in the College Street Market Office on all working days between the hours of 11 a.m. and 2-30 p.m.

PHENEOL LAMP BRAND

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law.

RASTRAGURU SURENDRANATH

SURENDRANATH, on a play with the name, has been admirably called by his countrymen "Surrender Not." The key to his character, and the successes of his life, are to be found in the fact that in whatever he thought and said and did he gave a definiteness and profile. There were no digressions in him, no parentheses. He brushed away all that was mysterious and problematic in life and society and presented every feature in hard metallic clearness. To this hard core of his thought he brought a power which was the power of character, and the power of massive intellect. It was "Greek". It was the love of Liberty. The love of Liberty was the salt of his blood and the marrow of his bones. In remembering that great patriarch of our national renaissance who for well-nigh half a century assailed the heavens with the thunders of his splendid oratory in indignation at the burning wrongs of his people, one remembers that flash of Homer's in the *Odyssey*: "When his great voice went forth out of his breast and his words fell like the winter snows—not then would any mortal contend with Ulysses." The high pitched voice trembling with excitement rang out like noble music on a well-played trumpet, and words fell from his lips "like the winter snows." The mighty current of the orator's passion transfigured him, and transfigured his people. With Surendranath Banerjea the ancient Indian people felt themselves more than life-size. There was no more that pathetic, placid contentment that would truck with listlessness and death. The people could not stay where they were. They moved. No more that dumb, inarticulate, helpless mass of men, crushed like a worm by the wayside. Ideas floated on winged words. Life went a-Maying with Hope. New ideas were springing up, new aspirations were being called forth, and Surendranath's progresses from town to town and from village to village marked the spirit of a new initiation. A new power came into being. It was the New India.

Surendranath Banerjea set before himself a more or less unified set of principles, attitudes and beliefs. His was a coherent and defined philosophy, that of the Enlightenment. It was the free institutions of the West, social and political institutions. He gave to his views a definite outline. For him, to quote Bentham, there was no "nonsense upon stilts." He fought for a constitutional Government with its accompanying civil and social liberties, the sovereignty of the people. He would insure to the citizen the right to his own economic and political life, liberty, and the pursuit of happiness. He would get his people to achieve the values of freedom and human dignity. The definition of this aim was his power, as also its limitation. He was no revolutionist, no ideologue, no dreamer. He did not wrestle with ultimate problems.

He was not a prophet; his test was pragmatic, and his solution tentative. His world was man's daily world of mind and matter. His religion was man. He would not brood over the dim recesses of human nature nor scoop out worlds of undreamt-of beauty from phantasms, or from the faded woof of romance. The substance of his mission and nature was clarity. He infused a new life into the nation and made the national pulse throb quicker. He created a new spirit and brought together the varied and multitudinous people of India upon a common platform of patriotism, into the spell of a common inspiration. His triumph, a tentative triumph, was the Reform Acts. His conquest was the Municipal Act of Calcutta. He rightfully claimed that "we have communicated the Promethean spark which has vitalised the dying embers of Indian national life in all its spheres. . . . We have fanned them forth into a living flame, full of warmth and brightness and radiance." He carried on the golden lamp to those who came after him. A whole he planned—a free, United India. Surendranath constitutes a national heritage. He lives with us with an immortality which is co-extensive with the life of the race, the inspirer of our achievements. He lived to see the area of our sensibility being slowly enlarged. He lived to see his work being continued, and even surpassed with a diving faith as ardent and illuminating as his. The tidal wave of Deshbandhu's passion swept the country from end to end, and wrought the very souls of men into the woof not only of political patriotism but of poetry. With his royal incapacity for envoy Surendranath passed on the torch from hand to hand, to Deshbandhu Chittaranjan Das, from the father of the Municipal Act to the Municipality's first Mayor.

(S.B.)

—THIRTY-SECOND DEATH ANNIVERSARY OBSERVED

(Continued from next page)

Along with the usual performances Kirtan was sung by the students as a mark of respect to his memory at the end.

At Federation Hall

A meeting in connection with the Death Anniversary of Surendranath was also held in the Federation Hall, Upper Circular Road, in the evening. Dr. Radha Binode Pal presided and unveiled a portrait-in-oil of the great departed leader. Dr. Pramatha Nath Banerjee inaugurated the function.

Shri Hemendra Prasad Ghose, Shri Sailo Kumar Mookerjee, the Ex-Mayor Satis Chandra Ghosh, Shri Makhan Lal Sen and Dr. Kalidas Nag addressed the meeting. Patriotic songs were sung.

At Indian Association Hall

The Sheriff of Calcutta, Shri S. C. Roy who presided over the Indian Association Hall meeting, referred to Surendranath's valuable contribution for the development of Indian industries.

His great sense of patriotism, power of oration and contribution to the cause of Indian independence were referred to by different speakers at that memorial meeting. The speakers included Shri Satinath Roy, its President, Councillor Chandra Sekhar Bhowmick, Shri Radhika Banerjee, Shri Sudhir Ghosh and others.

At Barrackpore

Presiding at a meeting held at Sir Surendra Nath Institute, Barrackpore, near the departed leader's ancestral home at Monirampur, Shri Atulya Ghosh M. P. and President, Pradesh Congress Committee, urged the youth of the country to be imbued with the spirit of Surendranath's patriotism and to come forward to create a new, strong and ideal India free from all ills.

The meeting which was held under the auspices of Surendra Nath Banerjee Institute pleaded to raise a permanent memorial of that leader on that site.

ALDERMAN G. BASU

Alderman and Rotarian G. Basu was called upon by Rotary International to accept office, as a Rotary Information Counsellor for Districts 315 and 325 which extend over a wide area from Peshwar in the west to Rangoon in the east, with effect from 1st July. He had been during the early part of this month in the Philippines where along with representatives of Japan, New Zealand, Australia, South Africa, Malay, the Philippines and Hongkong, he was briefed by President Buzz Tennent and Secretary George R. Means.

MAGICIAN P. C. SARKAR

The Corporation at one of its weekly meetings has decided to accord a Reception to the world-famous magician, Shri P. C. Sarkar, on his return to this city. Shri Sarkar has earned laurels in many of the countries abroad for his unique performances in the art of magic.

The House, on the suggestion of the Deputy Mayor, Shri Keshab Chandra Basu, who presided on that day, sanctioned a sum not exceeding rupees one thousand for the purpose.

Calcutta is proud of having Shri Sarkar as a citizen.

THIRTY-SECOND DEATH ANNIVERSARY OBSERVED

Standing at the foot of the great stalwart the Mayor, Dr. T. Sen, Shri S. N. Roy, President Indian Association and others offer their homage.

PHOTO : S. B.

AUGUST 6 is still remembered as the day on which thirty-two years ago passed away **Sir Surendra Nath Banerjee**, the Father of Indian Nationalism and a worthy son of Calcutta. Backed by a common resolve Surendranath preached his gospel of Nationalism which helped the dormant spirit of the nation awakened to life. His unfettered patriotism lifted him to the pinnacle of glory.

Calcutta citizens should ever remember him as a courageous and resolute fighter, who delivered this city from the shackles of official domination with the enactment of the Calcutta Municipal Bill of 1923. By this act he upheld the city to one among the great cities of the world. He conferred the citizens such civic independence as had never been thought of.

As a grateful remembrance to that stalwart hero the citizens observed the day through several functions spread over the city. It was only to recall that unforgettable orator whose speeches still ring in the ears of those who bear a link of those past days.

The Thirty-second Death Anniversary started with the placing of floral wreaths at the foot of the statue of Rashtraguru Surendranath in Curzon Park, in the morning by the Mayor Dr. Triguna Sen and other eminent persons including Shri S. C. Roy, Sheriff of Calcutta, Shri Satinath Roy, President, Indian Association. Wreaths were also placed at the foot of the statue on behalf of the Calcutta Corporation Employees' Association, the University of Calcutta, India To-morrow Club, and other organisations.

Speaking on the occasion the Mayor, who presided, said that when most of the people had failed to follow the teachings of the great leader there was every doubt whether they could even speak about the great son of India. He urged the people to follow the teachings and the example of the Father of Indian Nationalism who imparted the patriotic feelings in the heart of the people of India first.

Shri Satinath Roy also appealed to the people to follow the teachings of the great leader of Bengal who enlivened the dormant nation.

At Surendranath College

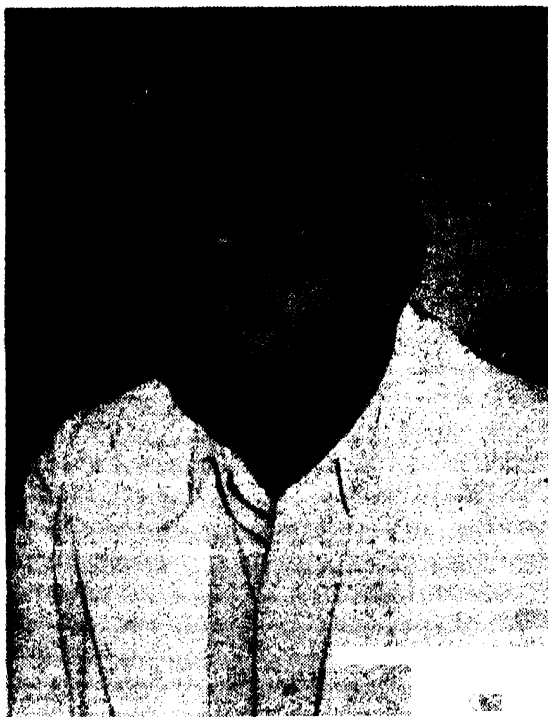

A most solemn and devout function was held in the premises of the Surendranath College, Mahatma Gandhi Road. The institution owes its existence to that great leader, Shri Sankardas Banerjee, Speaker, West Bengal Legislative Assembly, who presided over the function, garlanded the bust of Surendranath placed there. It was attended by a large number of teachers and students of the College. The function started with the singing of National Song.

Shri Banerjee recalled the great works of the eminent son of Bengal and requested the students to follow his teachings in their everyday life.

GREAT MEN LIVE THROUGH THEIR DEEDS

AT MARBLE HALL

LATE DR. H. C. MOOKERJEE

PHOTO : S. B.

Just one full year has passed since the death of friendly, unostentatious Dr. HARENDRA COOMAR MOOKERJEE. He was the Governor of West Bengal. His eventful career and varied activities endeared him to all his countrymen. But his name would ever be remembered as one who gave up all he had earned for the upliftment of his countrymen. His last efforts to build up a Tuberculosis After-care Fund was not fulfilled. Building up of this Fund and to start a After-care Colony in order to help thousands of poor sufferers from that painful disease would be the finest monument which his countrymen could pay to the memory of that benevolent soul.

The first Death Anniversary of Dr. Mookerjee came off on Wednesday, the 7th August, and it was observed in different places of the city amidst prayers and memorial meetings. On the occasion wreaths were placed on his grave at the Lower Circular Road Cemetery and a memorial service was conducted there. Venerable Rev. S. K. Das, Archdeacon conducted the prayer. Rev. S. K. Biswas read out extracts from the Bible. Prayer songs in English and in Bengali were sung on the occasion. At the expressed desire of Shrimati Bangabala Mookerjee, wife of the late Dr. Mookerjee, a song was specially sung.

A few classmates and close associates of the late Governor were present at the function. Many of them offered floral tributes on the graveyard. Numerous garlands were offered also on behalf of various public organizations as also by individuals.

Among those who placed wreaths on the grave of Dr. Mookerjee were the Sheriff of Calcutta, Shri S. C. Roy, Food Minister, Shri P. C. Sen on behalf of the State Government, Shri Atulya Ghose on behalf of the Pradesh Congress Committee, Dr. Parimal Roy on behalf of Bharat Scouts and Guides, Dr. D. Chakravarty on behalf of Calcutta University and others.

A memorial meeting was held in Marble Hall of 'Raj Bhavan' in the evening. Shrimati Padmaja Naidu, State Governor, presided. Shrimati Naidu said that it was rare in these days to find an example as set by Dr. Mookerjee of selfless service to the nation. His efforts to lessen the suffering of the poor were never to be forgotten. He was overwhelmed by the sufferings of the tubercular patients and that was why he started the T.B. After-care Colony Fund. She hoped that his countrymen would come forward to make the Colony a success.

The State Chief Minister, Dr. B. C. Roy, appealed to his countrymen to contribute their mite for the success of the T.B. After-care Colony Fund started by the late Dr. Mookerjee.

Dr. Roy also said that the late Dr. Mookerjee's memory could be perpetuated if the T. B. After-care Colony, as proposed by him, could be made a real success. Incidentally, Dr. Roy said that West Bengal had a total of two lakhs of tubercular patients and they had only three thousand T. B. beds. A patient required at least six months to come round. So in West Bengal not more than 6,000 patients could be treated in a year. They required one-lakh beds in West Bengal for T. B. patients. They wanted Rs. 25 lakhs for the proposed T. B. After-care Colony. So far Rs. 16 lakhs had been collected.

Appealing to the public for funds Dr. Roy said that each block in the colony would cost Rs. 20,000. The block were proposed to be two-storeyed ones and to start with it had been proposed to have 20 or 25 such blocks. This would cost Rs. 5 lakhs and for development and water supply they would have to spend a further sum of Rs. 3 lakhs. Arrangements would also be made to provide means of livelihood to those who would be cured of the disease, Dr. Roy said.

Maharaj Uday Chand Mahatab of Burdwan, Shri Hemendra Prasad Ghose and Shri S. C. Roy, Sheriff, also addressed the gathering.

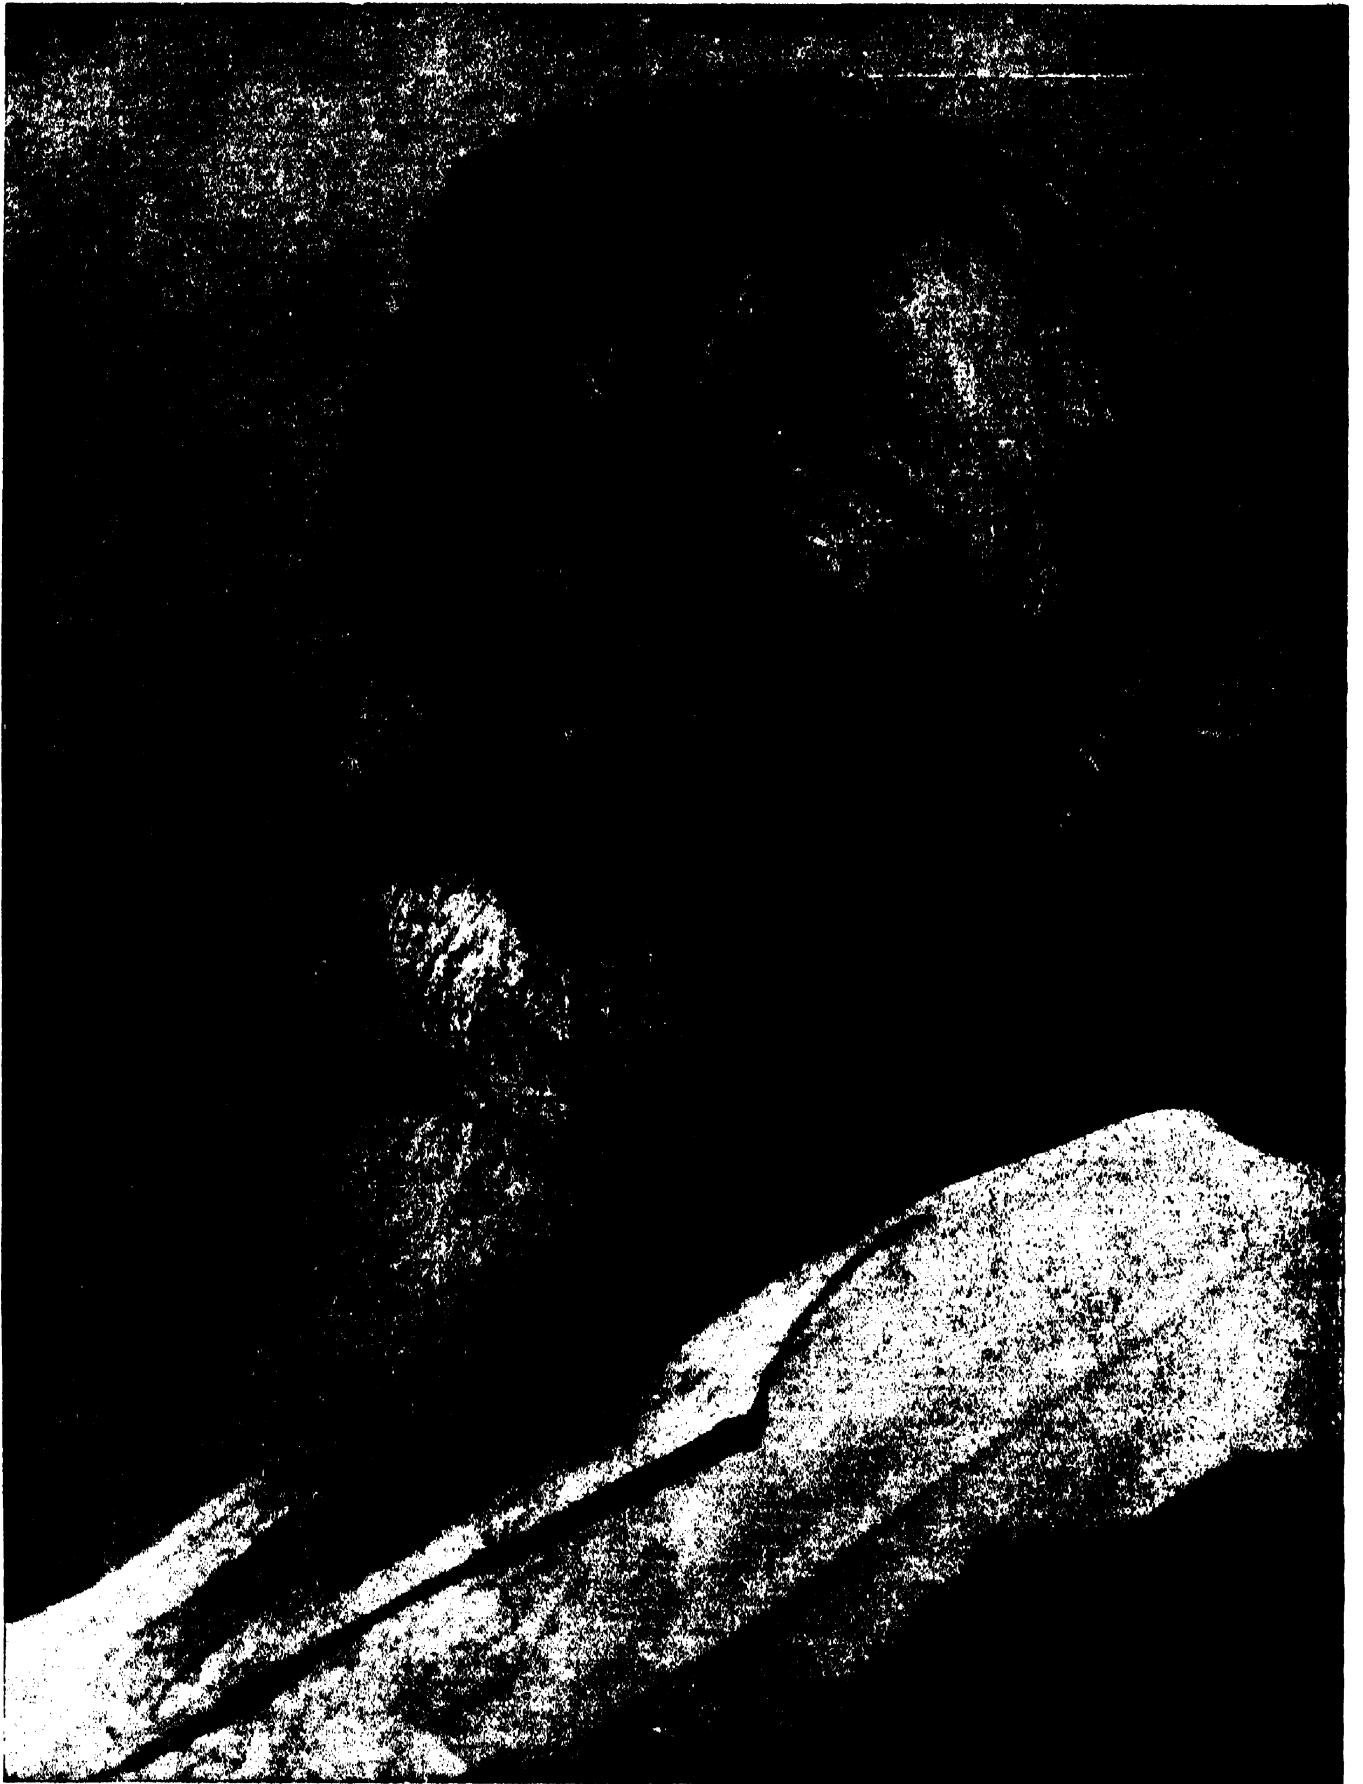

The appeal was issued earlier through the Press.

—RABINDRANATH AND THE ASIAN AWAKENING

(Continued from next page)

barely three years to get all these things ready and there is not a day to lose—as I told the public at the Independence Pavillion on the 22nd Sravana, the 16th Death Anniversary of the Immortal Poet. We are investing crores for our Second Five Years Plan. Should we not spend just one crore to perpetuate adequately the memory of Rabindranath—The Herald of Unity and of World Peace? Indian Freedom,—cultural and political—inaugurated the freedom movements of Asia and Africa. So, India should be the first to invite her sister nations and friendly neighbours to the International Exhibition on the birth Centenary of Rabindranath Tagore.

Bande Mataram!

RABINDRANATH
Auugst 7

Rabindranath And The Asian Awakening

Dr. Kalidas Nag, Chairman, Rabindra Satabdi Sangha.

In the famous Ranji Stadium of Calcutta thousands of men and women are coming to visit the Exhibition and to listen to lectures touching on the Centenary of Indian Independence (1857-1957). Privileged to deliver a discourse there, I reminded my audience that, within a decade of the so-called Indian Mutiny, some great men of India were born whose centenary we should celebrate worthily to lend special and original significance to the Freedom movement in India: Dr. Jagadis Ch. Bose and Bepin Chandra Pal (1858) Dr. Nilotkan Sarkar, Professor Profulla Ch. Roy and Rabindranath Tagore (1861) Swami Vivekananda (1863) Acharya Brojendranath Seal (1864) and Mahatma Gandhi (1869). Their significant lives and activities should be recorded and popularized through special exhibitions in the historic city of Calcutta, from year to year.

Within a stone-throw from the Eden Garden still stands the Town Hall which witnessed the manifestation of Indian Nationalism, of diverse phases, in different epochs. I reminded the public that a special Banquet was given by Raja Rammohun Roy (1772-1833) who celebrated the first successful Revolution of the Latin American Republics against the despotic Spanish monarchy (1821-23). Rammohan's junior contemporary and worthy colleague—Prince Dwarkanath Tagore (1794-1846) fought, for years, to prepare the grounds for the economic freedom of India, through national Banking, Industry and Shipping lines, and for those objects, Dwarkanath made two voyages to Europe (1842-46) dying (like Rammohun) in England. His noble son Debendranath Tagore (1817-1905) cleared all the debts of his philanthropic father by able management of the Tagore Estates, donated handsomely to the "National Paper" and the National Fund when the Congress was held in Calcutta (1886); and his son Rabindranath then a youth of 25 composed one of our early National Songs.

"আমরা মিলেছি আজ মায়ের ডাকে

ভাই ছেড়ে ভাই ক'দিন থাকে।

ভাই ছেড়ে ভাই ক'দিন থাকে।

কতদিনের সাধন ফলে মিলেছি আজ দলে দলে

আজ ঘরের ছেলে সবাই মিলে দেখা দরে আয়রে থাকে।।।"

In another Calcutta Congress (1896) Rabindranath remembering our debt to Rishi Bankim Chandra (1838-94) set tunes to our national anthem "Bande Mataram" and hypnotized the huge Congress gathering by singing the anthem alone and unaided! The Poet edited then the journal "Sadhana" (which he remembered while delivering his first American lecture in the Harvard University 1912) symbolizing the creative activities of Bengal for the freedom of whole of India. With the cruel Partition of Bengal we find Tagore the High priest of Nationalism (1900-1908) addressing mammoth meetings, defying the British administration, and composing incomparable songs, poems and above all his Epic novel 'Gora', which gripped the soul of the young and old,—specially the young martyrs who were mounting the gallows with the Gita and the songs of Tagore in their hearts.

When the British were forced to undo the Bengal Partition (1911) Tagore offered, on behalf of the united nation, their Hymn of Thanksgiving to the King of Kings.

জন জন জন-জীবনকে এক করে ভারত জয়যিত্তক which by the logic of History came to be the National Anthem of Free India. It heralded the birth of Freedom for all nations of the East who fulfilled the prophecy of the Poet Laureate of Asia Rabindranath whose Gitanjali brought the first Nobel Prize (1913) to the Continent of Asia. History again justified the emergence of an Indian poet prophet to be the hierophant and harbinger of Asian awakening. Though the first World War broke out in a delirium of Greed and Violence, Tagore and Gandhi (since 1915 returning home from Africa) pronounced our traditional mantram of Santi and Ahimsa, Peace and Non-violence. In the thick of Gandhiji's fight in South Africa, Tagore (whom he greeted as Gurudev in Santiniketan 1915) sent two of his western friends Andrews and Pearson to Africa where Gandhiji spent 21 years of his life unifying as it were the history of liberation of Asia with that of Africa. Their worthy disciple Shri Jawaharlal Nehru, President of the Santiniketan University, has earned the gratitude of the two vast Continents by avoiding the warmongering power blocks and holding steadily to the "middle path of peaceful co-existence. Meanwhile the Chinese Revolutions since 1911 and the Russian Revolution since 1917, have altered the course of History as it were within the last half of a century. Now the books of Tagore are being translated and distributed in Russia and China the lands of 800 millions! Russian savants are now translating also our Great Epics, the Ramayana and the Mahabharata, and at the same time compiling a History of the war of Indian Independence. So Chinese experts are personally visiting India, and writing on many of our problems. But both citizens of Soviet Russia and the People's Republic of China remember with gratitude that Tagore, in the advanced age—between 60 and 70—personally visited China (1924) and Russia (1930) and wrote memorable things on them. So we are sure that the teeming millions of China, Russia and other nations of the East and the West—will come forward to join hands with us Indians, when we get ready to celebrate worthily the Centenary of Gurudev Rabindranath (1861-1961). It should be celebrated with holding in his native city Calcutta and truly International Exhibition of Art and Culture irrespective of Colour, Creed or Ideologies; for Tagore rose above all of them. The West Bengal Government in co-operation with the Central Government led by Pandit Nehru should plan out such an International Exhibition with the Calcutta University, the Corporation of Calcutta and other agencies and Foreign Embassies. For, Tagore visited not only many countries of Asia, Africa and Europe (since 1878) but also Canada, U.S.A. and Latin America as I observed during my world tours (1920-1955). We should send cordial invitations to those countries who, we are sure will send their sincere homage and many "souvenirs" to Calcutta, on the birth Centenary of the World Poet. On that occasion, and for the proper broadcasting of his music and the staging of his play, the public should erect, once for all, the Tagore Auditorium in Calcutta for which I appealed so often through the Calcutta Municipal Gazette and other journals. We have

MEMORIAL TO TAGORE AT NIMTOLLA

It is sixteen years since RABINDRA NATH passed away. Within this short span his countrymen tried to measure the great seer not only as a great poet who earned a Nobel Laureate as the Author of GITANJALI, not as a master mind in play-wrights, music composition, novel writing and other cultural activities but also as a great humanist who felt for his countrymen, and passionately and consistently dedicated himself to the service of his people. He was human and humane. He was a patriot whose loyalty embraced all mankind.

Considering all these his countrymen thought long ago that there should be a fitting memorial for the Poet who sang for the humanity and whose voice still rings in the ears of those who can realize his vastness.

At first it was thought that the Poet's own creation, the VISWABHARATI, based on the ideal of one World, would undoubtedly be the greatest living memorial of the Poet apart from any other earthly monuments. But Calcutta has a greater claim on the Poet whom he took as 'the City of my Birth', and where he spent a greater part of his life. It was in this city where the light of his life disappeared and the Poet's mortal remains turned to ashes. Thus the need of another memorial in this city and Nimtolla Ghat was selected as the site.

Attempt was made not to erect a massive Mausoleum but a simple Altar signifying the site of that pyre. And as designed by Shri Nandalal Bose, the world famous artist, the present structure has been made for a burning flame to be kept lighted throughout all the hours of day and night inside it. The permission for construction on that very site was granted by the Corporation.

AN EVER-BURNING FLAME LIGHTED

The Death Anniversary was rightly celebrated when the Altar was specially consecrated on the very site where the Poet's last remains were consigned to flames. This was done under the auspices of Rabindra Bharati and Shri Tarasankar Bandyopadhyay, the well-known author, who presided on the occasion, lighted an ever-burning flame placed on the Altar.

In his speech Shri Bandopadhyay said that this memorial Altar was no part of their attempt to erect a mausoleum. This was just to mark out a place which bore some significance and in which every member of the Nation was interested.

At the outset, Shri Bimal Chandra Sinha, General Secretary, Rabindra Bharati, said that this memorial Altar had been made possible at the munificence of the West Bengal Pradesh Congress Committee.

Among those present at the function were Shri Sajani Kanta Das, Prof. Charu Chandra

Bhattacharjee, Shri Amal Home, Dr. Nihar Ranjan Roy, Shrimati Maitreyee Devi, Shri Pulin Behari Sen, Shri Nripendra Chandra Mitra, Kazi Abdul Qadud, Shri Saila Kumar Mookerjee, Shri Hemanta Kumar Basu, M.L.A., Dr. P. N. Banerjee, Dr. Bijan Behari Bhattacharjee, and Shri Sudhir Kumar Basu.

Wreaths were placed at the Altar on behalf of different organizations including Rabindra Bharati, Visva Bharati, Rabindra Mela, Tagore Society, West Bengal Pradesh Congress Committee and others as well as by individuals.

The Poet's room at 6, Dwarkanath Tagore Lane, Jorasanko, was kept open throughout the day. Many of those who visited the place offered bouquets and wreaths at the place.

The All-India Radio, Calcutta Station, broadcast a special programme on the occasion. There were other functions also.

In the picture are the Ex-Mayor Shri S. K. Basu, M.P., the Deputy Mayor, Shri K. C. Basu, Councillor B. N. Banerjee, Commissioner, Shri B. K. Sen, and others.

PHOTO : B. B.

Corporation Observes Vanamahotsava

VANAMAHOTSAVA, the tree planting ceremony, has returned to the city this year with the inauguration of the festival on the 7th July last at the Belvedere House, Alipore, under the auspices of the State Government. The East Punjab's Governor, Shri C. P. N. Singh, performed the Opening Ceremony by planting a South Indian sapling on the lawn there. On next day, many of the State Ministers planted saplings on the lawns of Raj Bhavan and the ceremony has since been continued.

As in previous years, Tree Planting Ceremony is being observed by the Corporation of Calcutta. Saplings of different varieties are being planted in the Parks, Pumping Stations and road side spaces in the city. Special attention has been given this year to plant trees in the parks and squares which still wear a naked look for want of flowering trees and plants and green belts.

At Braumfeld Square

The official function of the City Corporation in this connection came off rather late this year in lining with the belated Monsoon on Tuesday, the 6th August. It was held at the Braumfeld Square, Kidderpore area, under District IV. The park having an area of about eight bighas had a bare look as its flowering trees and shaded groves were destroyed during the War days with the occupation of its open space by temporary structures built by the Government, and the park remained a neglected spot. Since the Government left the place an intensive campaign was made to give a new shape to the park with re-planning of park paths, grass lands, and allotments of flowering beds as well as erection of small structures for sheltering the visitors during

rain. The re-planning work is now nearing completion.

Amidst a sweet music provided on the occasion, the Ex-Mayor, Shri Santosh Kumar Basu M.P., planted a sapling. He was followed by the Deputy Mayor, Shri Keshab Chandra Basu, who presided, Councillors Brojendra Nath Banerjee, Gahar Alam Shami, the Commissioner, Shri B. K. Sen and others. The function was attended by a large number of citizens including many of the Corporation Officials. The Deputy Commissioner, Shri L. N. Bal, the Deputy Chief Engineer, Shri M. Das were also present.

Significance of Tree-Planting

Earlier, Shri Basu, who as Chief Guest of the function, told on the significance of tree planting in this country. As a resident of that locality he also requested all present to preserve those planted trees so that the Square might take a pleasing look. Recalling his memory the Ex-Mayor said that the park lying in that area provided a few promenade to larger number of citizens once and he hoped when equipped this would provide similar facilities.

The Deputy Mayor outlined the policy of the Corporation in achieving a 'Beautiful Calcutta' to be cherished by all. He said that habitations had been made in many areas by replacing forests but that, according to him, went against the very Rule of Nature which wanted to establish a harmony between man and Nature. Calcutta citizens though they have to live in the midst of bricks and mortars should try to plant trees in all the open spaces

(Continued on page 391)

VIEWS AND REVIEWS

FILLING UP OF VACANCIES

The Corporation at its weekly meeting on the 2nd August last, passed a resolution expressing its grave concern over the ~~inordinate delay in filling up~~ many of the important vacancies in the Corporation. These are required to be filled up by the Municipal Service Commission in the shape of recommending suitable persons for the posts by the Commission. The consequent hurtful impact on the efficiency of the administration of the institution was also felt by the House. The Commission is a three-member Statutory Body constituted under the Calcutta Municipal Act, 1951. One of the members of the Commission is a representative of the Corporation, the other a nominee of the State Government and the third being a member of the State Public Service Commission. Although the Act empowers the Corporation to make the appointments still the Commission has been authorized to select suitable candidates for the vacancies either by inviting applications from outside candidates or by selecting a suitable one from among the members of the existing Corporation staff. Moreover, the appointments are obligatory on the recommendation of the Commission.

The vacancies were caused by retirement, resignation or a consequential vacancy due to promotion on a higher level. There were vacancies caused by deaths and in case of few others new posts were created permanently due to the exigencies of heavy work found to be difficult to cope with by the existing staff. The Standing Finance Committee, mainly responsible for the appointment of superior service cadres, also expressed a similar view on a previous occasion.

When the resolution in the shape of a recommendation of the Standing Accounts Committee, came up before the House a prolonged debate ensued being participated in by about a dozen members. As the delay had been caused at the other end the working of Municipal Service Commission became the main object of criticism.

Presenting the recommendation before the House, Councillor Mihirlal Ganguli, stressed the need of apprising the Municipal Service Commission of the fact that the work of the Corporation would remain severely handicapped unless the cases referred to were disposed of without further delay.

At the end the House endorsed unanimously two riders—one moved by Councillor Dr. A. P. Das Gupta and the other by Councillor Dr. P. K. Sen Gupta, with the original resolution.

The rider as moved by Councillor Dr. Das Gupta and accepted by the House was as follows: "The Local Self-Government under the Government of West Bengal should be apprised of the serious situation which has created deadlock in the administration of the Corporation."

The rider of Dr. Sen Gupta, adopted at the meeting requested the Commission to expedite the selection of candidates at the earliest opportunity.

It also stated that if there was any misunderstanding existing between the Corporation and the Commission, as reported in the Press, should be treated as closed.

During the debate on the resolution Councillor Chittaranjan Chatterjee contradicted that they had nothing to do with the selection of candidates as wrongly reported in the Press. The question of distribution of patronage by them did not arise. He emphasized that the whole responsibility of filling up the posts lay on the Commission and the delay had been caused due to the shortcomings of the Commission.

Councillor K. L. Dhandhanja, Chairman of the Standing Finance Committee, said that the Commission had been enjoying wide powers under the Act. In almost all cases its recommendations had been accepted by the Corporation. The Standing Committee had given due consideration to the recommendations made recently by the Commission.

Councillor Ganapati Sur wanted to fix the responsibility of delay on the Service Commission. Referring to a specific instance Councillor Sur cited that the Commission had appointed a few posts on irregular basis.

Councillor Prasanta Kumar Sur demanded that a suitable and more competent person should be included in the Commission.

So far nearly fifty posts lying vacant for which the Corporation had referred to a long time ago. Some of them are lying vacant since 1954.

The Standing Accounts Committee listed those vacancies along with the date they fall vacant (in brackets). The list is given below:—

Additional Assistant Secretary (23.4.54); Medical Officer, Narkeldanga Dispensary (8.7.55); Mosquito Control Officer (21.7.55); Manager, Sedimentation Tank, Bantola (27.9.55); Workshops Foreman (8.10.55); Sanitary Officer in District Health Officer II's Office (18.10.55); Supervisor, Collection Department (25.11.55); Assistant Analyst (3.12.55); Three Inspectors, Collection Dept. (10.1.56); Inspector, Collection Dept. (15.1.56); Law Assistant (1.3.56); Sub-Assessor (21.5.56); Inspector, Collection Dept. (31.5.56); Mechanical and Electrical Engineer, Construction Sec., Water Works Department (4.6.56); Asstt. Engr., Chief Engineer's Dept. (10.7.56); Asstt. Engineer (Civil), Dist. IV (11.7.56); Conservancy Supervisor (11.7.56); Asstt. Engineer, Drainage (24.7.56); Asstt. Analyst (2.8.56); Supdt., Mullickghat Pumping Station (3.8.56); Supdt., Vaccine Institute (9.8.56); Two Asstt. Supdts., Tangra (16.8.56); Asstt. Engineer, Drainage (16.8.56); Asstt., Accounts Dept. (20.8.56); Sanitary Officer, in District Health Officer III's Office (7.9.56); Sub-Assessor (7.9.56); Construction Engineer, Construction Section, Water Works (8.9.56); Asstt. Engineer (Civil), Pulta Pumping Station (29.9.56); Sub-Assessor (5.10.56); Deputy Chief Accountant, Budget & Reporting (8.10.56); Lady

Health Visitor (7.12.56); District Building Surveyor (20.12.56); Asstt. Controller of Stores (21.12.56); Asstt. Analyst (22.12.56); Insecure Building Surveyor (21.1.57); Two Sanitary Officers in District Health Officer's Office (28.1.57); Checking Inspector, Hogg Market (8.2.57); Asstt. Engineer (Civil), Construction Department, Water Works (14.2.57); Asstt. Engineer, District III's Office (1.3.57); Superintendent, Lansdowne Market (5.3.57); Law Asstt., (9.3.57); Asstt. Engineer, Pulta Pumping Station (8.3.57); P. A. to Commissioner (22.3.57); Supdts., Plans and Buildings (12.4.57); Supdt., Palmer's Bridge Pumping Station (25.4.57); Public Relations Officer (29.5.57).

Besides, the above there were still a number of vacancies for which the Commission had recommended candidates but the Corporation wanted to revise their decision as Corporation did not fully agree with them. Actually a long correspondence continued in cases of appointments of the Superintendent, Motor Vehicles, Collector to the Corporation and others—and these posts could not be filled up permanently up till now.

Moreover, the post of the Health Officer to the Corporation, has been lying vacant for a long time since 1952. The permanent appointment to the post is under the purview of the State Public Service Commission subject to the approval of the State Government.

The Corporation at that meeting also accepted the resignation of Dr. B. N. Mukherjee Ph.D. (London) Bar-at-Law, Chief Law Officer, and referred the vacancy to the Municipal Service Commission for permanently filling it up. We are yet to see how long will it take to this appointment of a suitable candidate in the post, as it took a long time on a previous occasion.

CORPORATION CONDOLES DEATH OF DEVDAS GANDHI

At the outset of the weekly meeting on Friday, the 9th August, the Corporation mourned the death of Shri Devdas Gandhi, Managing Director, Hindusthan Times, and the youngest son of Mahatma Gandhi. The death took place on the early morning of the 3rd August last in Bombay. The late Shri Gandhi was 57.

As a mark of respect to his memory the proceedings of the Fifteenth Ordinary Meeting was adjourned for ten minutes. The members also stood in silence for two minutes praying peace for the departed soul.

The death was referred to in the House by the Mayor, Dr. Triguna Sen, who said that with his passing away the country had lost an eminent figure in the newspaper world. Besides, a Managing Director of Hindusthan Times, he was closely associated with the Press Trust of India, the premier news distributing agency in India. Earlier, in his career he was attached to the 'Independent' of Allahabad. He had his training in this field under his father when 'Young India' was first published. The Mayor also said that the late Shri Gandhi took an active part in the Freedom's movement of the country and suffered imprisonment. His contribution for the upliftment of the nation is worth mentioning, added the Mayor.

Personalia

NEW U. K. DEPUTY HIGH COMMISSIONER.

Major-General W. H. A. Bishop has been appointed as Deputy High Commissioner for the U. K. in Calcutta in succession to Mr. A. F. Morley, whose appointment as the High Commissioner to Ceylon in succession to Sir Cecil Syers was announced earlier.

Educated at Plymouth College and the Royal Military College, Sandhurst, General Bishop was commissioned in the Dorset Regiment in 1915. His early service was with the 3rd Indian Division in Iraq and Palestine. From 1919 to 1925 he was posted in India.

After some years in the War Office, he became Chief Staff Officer to the East African Forces in 1941, later went to West Africa as Principal Administrative Staff Officer and then served in North Africa. He returned to the War Office as Director of Quartering with the rank of Major-General.

CORPORATION OBSERVES VANAMAHOTSAVA

(Continued from page 389)

available anywhere, so that the harmony might be established, he desired.

In welcoming all, Councillor Brojendra Nath Banerjee, who represented that area, gave a detailed account of the parks and squares of that part of the city and felt the need of a larger number of such.

The Commissioner, Shri B. K. Sen, made a stock-taking of the Corporation's achievements in making the parks and squares befitting a vast metropolis of the East. Shri Sen was critical in his speech when he said that the achievements in that direction during the last five years were most encouraging as well as displayed a progressive outlook. He felt that a larger amount of co-operation would sure to come forth and the city would abound in beautiful parks and squares soon. What needed is that provision of some recreational arrangements in many of the city's parks and squares and for which the Corporation should provide funds, he urged.

Councillor Gahar Alam Shami and others also spoke on the occasion.

At Children's Park, Tallah

There was another informal function of Tree Planting at the Children's Park near Tallah Pumping Station on Sunday, the 4th August. It was attended by a large number of citizens of the locality. Councillor Nandalal Banerjee presided over the function while Councillor Mihirlal Ganguly acted as Chief Guest. Amongst others Councillor Dulal Chandra Mukherjee, Shri Sailajananda Mukherjee, the notable author, Shri Sunitendra Mohan Tagore, Dr. P. K. Ganguli also graced the occasion. All the Councillors present and other guests planted trees inside the park and hoped that the park would soon add another beauty spot in that area. Many of the Corporation Officials were present on the occasion.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE FOURTEENTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 2ND AUGUST, 1957.

OBITUARY

At the outset, the House mourned for the unfortunate victims of Police firing on the unarmed sweepers of the Delhi Municipal Committee, while staging a demonstration in front of the Parliament House, New Delhi, recently. Earlier, the sweepers went on a strike demanding better emoluments for them. This was referred to in the House by Councillor Satyananda Bhattacharya.

The House also condoled the deaths of those who were victims of the Asansol tragedy when Councillor Ushanath Sen referred the incident in the House. Recently there was an explosion of an wagon containing some inflammable substances mainly fire-works near the Asansol Railway Station. A few died while others were injured.

The House also adjourned its sitting for ten minutes as a mark of respect to their memory.

INOCULATION DRIVE

Councillor Ratan Manick Chatterjee once again urged the need of allocating a larger number of Inoculation Officers in the Gobra area. He said that cholera was still raging in an epidemic form in the eastern part of the city. In that connection he also referred to conditions of acute scarcity of filtered water in that part of the city. According to Councillor Chatterjee about a dozen of people lost their lives from the disease within a short period when they were removed to the N. R. Sarkar Hospital from that area.

A DISPENSARY BUILDING

Pointing out the difficulties that had arisen due to the shortage of cement and other building materials, Councillor Shiv Kumar Khanna desired that the Corporation should try to secure quota for larger quantities of these materials. He said that the construction of a Dispensary Building had been waived due to the shortage of such materials although work orders were issued for the construction based on the allocation of funds for the purpose in the current year's Budget. But due to irony of fate this could not be done,—rather the citizens' misery had increased for want of a Charitable Dispensary in that area.

The Deputy Mayor, Shri Keshab Chandra Basu, however, assured the House that the authorities would look into it.

A CORPORATION REPRESENTATIVE

On the suggestion of Councillor Dr. Sukhabehari Mukherjee, Chairman, Standing Health Committee, the House appointed Dr. A. Mukherjee, the present Health Officer, to represent the Corporation in the forthcoming conference on Milk and Milk Products in New Delhi. The conference will also discuss on the feasibility of Prevention of Food Adulteration Act in respect of milk and milk products. The conference is scheduled to be held on the 12th August.

BIG TUBE-WELLS IN CITY

Councillor Amulya Charan Sarkar narrated the difficulties of the citizens in getting filtered water during the period when workings of tube-wells, scattered in different parts of the city, were suspended due to some minor defects. He wanted that the Department concerned should be more alert for their proper maintenances.

In that connection, he also referred to an unfortunate incident occurred recently in his area whereby even the supply of water by lorries had been suspended. A conflict between the citizens and the lorry drivers over the supply of water resulted in a partial strike of lorry drivers for few hours.

A SPECIAL COMMITTEE

The House agreed to appoint a Special Committee on the suggestion of the Standing Health Committee, to enquire into the workings of the city's hospitals in view of an increasing number of complaints lodged by the citizens against maltreatment of patients and such like. The House also invited complaints of such nature from the citizens for proper scrutiny by the said Committee.

The members of the Special Committee are :— Councillors Dr. S. B. Mukherjee, Chairman, Health Committee, Dr. S. K. Sett, Deputy Chairman, Dr. B. C. Basu, Dr. K. P. Ghosh, Dr. S. Sen Gupta, an Associate Member and a leading journalist of the city.

THEFT OF MANHOLES

Pointing out the difficulties of the citizens while passing over the city's roads and paths Councillor Samar Rudra said that there had been an increasing number of thefts of manholes on the city's sewers. As these thefts go unchecked Councillor Rudra desired that the Corporation should seek the help of the city's Police Commissioner in this regard which the House agreed to.

DEATHS AND DISEASES IN THE CITY

Attacks and deaths from cholera in the city during the week ended the 3rd August numbered 32 and 15 against 33 and 18, respectively, in the previous week. In the corresponding weeks last year, there were 11 and five attacks and five and four deaths.

There were six attacks and six deaths from small-pox during the week against five and three, respectively, the week before. In the corresponding fortnight last year, there were 16 attacks and 12 deaths.

Tuberculosis claimed 49 lives against 36 in the previous week and 36 and 27 in the corresponding weeks last year.

Deaths from all causes totalled 616 against 691 the week before and 584 and 586 in the corresponding weeks last year.

CITY-NEWS-PARADE

MOHARRAM, the greatest Muslim festival was observed by the Calcutta Muslims on the last day of the 10-day-old festival on Wednesday, the 7th August, when thousands of them formed a mile-long procession and went to Kerbala tank in Belliaghata. Small processions carrying "tazias" came out in different parts of the city earlier and collected near Sealdah station at the crossing of Bowbazar Street and Circular Road. They went to Kerbala along Belliaghata Road and Belliaghata Main Road.

Tram and bus services were suspended on many routes in Howrah and Calcutta for about two hours on that day as was announced by a Government Press Note. The day was also a public holiday.

AMERICAN STUDENTS of the University of California, Los Angeles, arrived in the city on Monday, the 5th August on a three week visit to have person-to-person discussions with students here. They visited colleges and coffee houses to meet Indian students.

All of them can sing "Jana Gana Mana" quite well and some have picked up a few words to start a conversation in Bengali. One of them, Christopher Breiseth, carries a book of Tagore's poems and recites them for the benefit of his friends.

They belong to a party of 14 students with two group leaders who have been travelling across India since July 4, under Project India. First-hand exchange of ideas is said to be the main object of this project under which a group of students from the university visits India every year.

ACHARYA P. C. RAY'S 97TH BIRTH ANNIVERSARY was observed in the city through different functions wherein respectful homage was offered in his memory on Friday, the 2nd August last. On the occasion the statue of Acharyadeb at College Square was garlanded at a meeting held under the auspices of University Alumni Congress and other institutions.

A public meeting was held at Bose Research Institute in memory of the late Acharya deb over which Dr. D. M. Bose, Director of the Institute, presided.

In paying his tributes Dr. Duksha Haran Chakravorty, Registrar, Calcutta University, said that Acharya gave away all he earned for the benefit of his countrymen. They would show due honour to his memory if they could devise some means for defraying the educational expenses of poor meritorious students.

Shri Ratanmoni Chatterjee, Dr. Kalidas Nag, Prof. Charu Chandra Bhattacharya and others also paid their tributes.

Kidderpore Surabitan paid respects to the memory of Acharyadeb at a function held at Monsatala Lane. Shri Rabindranath Bose, director of cultural organisation, conducted the proceedings including speeches and songs.

A PILOT SCHEME TO OFFER CREDIT FACILITIES to small-scale industries in Calcutta and Howrah was inaugurated on Saturday, the 3rd August last.

Under the scheme different agencies, such as Industrial Finance Corporation, and Co-operative Banks, will provide short, medium and long-term credit to these industries, and in this respect the agencies will act jointly.

Inaugurating the scheme at a conference of representatives of such agencies and of small-scale industries at the office of the State Bank, Shri Sachindra Chaudhuri, President of the local board of the Bank, said that the development of small-scale industries meant increased employment, income and supply of consumer goods.

The progress of these industries had so long been impeded as a result of their difficulties in securing raw materials, technical knowledge and above all finances. The Central and State Governments had been assisting them in several ways, but their problem of getting finances remained, the same as before.

'BUY SWADESHI DAY' was observed at a meeting held at the University Institute Hall on Wednesday the 7th August. Shri Bhupati Majumdar, West Bengal Minister for Industries and Commerce, presided.

Need for the expansion of 'Swadeshi' industries and buying of 'Swadeshi' goods was emphasised by different speakers at the meeting.

Shri Majumdar said that while the importance of "Buy Swadeshi" pledge could not be questioned, the country would have to depend on foreign countries at least for sometime to come because production of 'Swadeshi' goods was not yet sufficient to meet the growing demands of the people. He also urged the people to be ready to make more sacrifices to establish the country on a solid economic foundation.

Inaugurating the meeting, Shri S. C. Roy, Sheriff, expressed his satisfaction at the industrial endeavours the country was making. He hoped that more and more people would buy home-made goods and thus save foreign exchange.

Shri Satuprasanna Bhowmick, Secretary, Swadeshi Silpa Prasur Andolan Committee, regretted the unsympathetic attitude of the non-Bengalee industrialists towards the employment-seekers of the State.

Shri Hemendra Prasad Ghosh, the Chief Guest, and Shri Annada Prasad Chowdhury also spoke.

DEMONSTRATIONS: About 2,000 tramway workers demonstrated for over four hours outside the Calcutta Tramway Company's Office on Mission Row on Friday the 2nd August last. The Tramway Workers' Union organized this "mass deputation" to press their demands on the authorities.

As the demonstrators did not report for duty the tram services in all sections, excepting Rajabazar, were affected. Only about 50 per cent. of the trams were on the streets. Office employees were greatly inconvenienced by this partial suspension of the services.

Earlier, carrying posters and flags the workers marched to the Company's office shortly before noon. Their demands included two months' salary as bonus, 25 per cent increase in salary and others.

Demanding the right to place their grievances against the administration through their Union, about 100 members of the Railway Protection Force arrived on Tuesday, the 6th August, in procession from Howrah and demonstrated for over eight hours in front of the Railway Head Office in Fairlie Place, Calcutta.

The employees of the Corporation met at a convention at Wellington Square, on Friday, the 2nd August last, to arrange in placing their fresh grievances before the authorities. The convention was called by a Joint Committee of all the Employees' Unions and Associations.

About 2,000 employees of ore handling contractors of Calcutta Port, who went on strike returned to work on Friday, the 2nd August after two-day lasting strike.

A SOCIAL CRIME: Officers of the Customs Rumraging Division detected 70 seers of contraband opium on board a Chinese vessel, "S.S. Tyrasso", lying off the Kidderpore Docks on Sunday, the 4th August.

The narcotic, valued at Rs. 35,000 was hidden in the ship's bilge and recovered after a week-long search.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. IV Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Monday, the 19th August, 1957 up to 2 p.m.

CALCUITA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the licensee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

DR. HIMANGSU DAS ELECTED TO CORPORATION

In the Bye-election held on the 11th August, Dr. Himangsu Kumar Das has been voted to the Council Chamber from Ward No. 43. In a straight contest Dr. Das, a nominee of U.C.C. Party defeated his rival Dr. Mahim Mohan Bhattacharyya, a Congress nominee by 405 votes. Dr. Das polled 1,209 votes and Dr. Bhattacharyya 804. The total electorate was 2,778. The Bye-election was caused by the death of Shri Kissan Chand Baral on the 26th June last.

Counting of votes took place on the same day after voting which continued from morn till evening. After the announcement of results a procession was taken out by supporters of Dr. Das from the Central Municipal Office Buildings, S. N. Banerjee Road, where the votes were counted.

A young medical graduate, Dr. Das is a resident of that part of the city and he has built up an extensive practice there. Besides, his amiable disposition and suave manners have earned him popularity. His presence in the Council Chamber will add the strength of the U.C.C. Party making it 80.

We also extend our heartiest welcome to Dr. Das.

INCREASED BUS FARES

At the weekly meeting of the Corporation on the 2nd August last, Councillor Dr. K. P. Ghosh, apprehended the hardships to be undergone by the citizens due to the proposed increase of Bus fares in the city by the State Bus authorities. He said that the proposal should not be allowed to be implemented because of the citizens' misery had already

filled the cup and the proposal would add another burden. In that connection he also warned the Government through the House to take lesson from the proposal of the Calcutta Tramways Co. in raising Tram fares in the city, a few years back, and the consequences thereto. A motion has also been held by Councillor Dr. Ghosh to that effect.

Councillor Dr. Ghosh's apprehension cannot be dismissed at all. On the occasion of the celebration of the Ninth Anniversary of the State Transport, a few days back, the Director-General had pleaded with reasoned arguments for the increase of fares in State Buses plying in the city. In his argument he upheld the cause of large increasing prices of motor spare parts and fuel during last two years. He also said that the State Transport had yet to implement many of the demands of the employees as required under the existing employment rules. Moreover, with the present income derived mainly from passengers in the existing rate of fare structure, the Transport authorities had found it increasingly difficult to improve the standard of travel now maintained. His arguments were further advanced when he mentioned about the comfortable conditions of travel as well as giving to the State Government some return for the public fund invested in that enterprise. He also rightly observed on that occasion with the words that 'it had been agreed on all hands that the Bus fares in Calcutta were the lowest in India, and even lower than the third class railway fares'. Attributing the reasons the officer also said that the private operators from whom the present State Bus authorities inherited the Calcutta's transport system had so long been able to operate on such rate of fares mainly on the reason of overcrowding their buses and by sweated labour.

Whatever arguments put forward by the Director-General the passengers which constitute the common people had already suffered and suffered much due to abnormal rise in prices of their daily necessities and an increased bus fare would add another feather to the cap.

The common man to-day refuses to pay any extra amount for the purpose. Moreover, they alleged that the increase would cause a double taxation on the same incidence in an indirect way. The new taxation policy combined with the import restriction orders had caused rise in the prices of spare parts from three-fold to four-fold and whatever the shares of profit there had been it went to the pockets of big businessmen. The Treasury had also yielded some amount of revenue. Again if the Government desires to increase the fares it would be simply to rob the pockets of the common man particularly of the lower income group.

During the discussion on the State Budget the Minister-in-charge of Transportation gave a tacit assurance that there would not be any rise of bus fares in near future. Moreover, the Minister promised to improve the present deteriorated condition while the service was going to be continued as a public carrier in the city.

Bus fares in Calcutta, the Minister continued, was lowest in India. While in Bombay it was seven pice per mile, in New Delhi 12 pice per mile, in Madras 12 pice per mile, in Calcutta it was 5.5 pice per mile. The question of converting the fare table in naye paise would be decided by an Expert Commission which had been appointed by the Government, and its decisions would be accepted by all transport authorities.

Recent increase in prices of petrol and diesel oils due to Central imposts would wipe away the surplus which the State Transport is expected to earn in 1957, the Minister also added.

The debate on this head continued for two hours. The Opposition regretted that the replacement of private buses by State ones instead of improving the situation had resulted in miseries for travelling public. The picture of a "quick, clean and comfortable State Transport service" which the Governor tried to present in her address to the Assembly had remained merely a dream to passengers who seldom travelled in a State bus without cursing the authority.

Initiating the debate Dr. Ranen Sen said the State Transport had increased the fares taking advantage of the introduction of naye paise. It would have been right if the authority which intended not to make profit but only to provide employment, would have slashed down its profit by 4 or 5 lakhs and saved the people from this increased burden of fares.

He was followed by Shri Haridas Mitra who described the plight of passengers at peak hours. For ladies travelling in buses meant untold misery. Irregularities in service only created the situation more difficult. A bus could be found coming after half-an-hour or at times three or fours would be found unavoidable as the number of employees meant for checking the mechanical defects was too inadequate, Shri Mitra also added.

Another speaker, Shri Ganesh Ghosh accused the administration of State Transport for being

top-heavy and inefficient. There were waste and stores worth 4 lakhs found subse-

quently obsolete and.

Not going into details we can say that journey in a Calcutta State Transport cannot be said to be safe from the views expressed earlier. Still the nationalization programme received support from all.

The State Government, as promised, appointed a three-man Commission of Enquiry, a committee of economic experts, to investigate the fare structures of the bus and tram services in the city and the effect of the introduction of decimal coinage on the existing fare structures.

The Enquiry Commission had as its Chairman, Dr. H. L. De, P.R.S. (Cal.), D.Sc. (Econ. Lond.) formerly Head of the Department of Economics, Dacca University, President

DEPUTY MAYOR FETED

The Scottish Church College Old Boys' Association recently arranged a reception to Councillor Keshab Chandra Basu on his election as the Deputy Mayor of Calcutta. In the same function reception was also accorded to Mr. Justice Amal Kumar Sarkar, on his appointment as a Judge of the Supreme Court of India. Both of them are ex-students of the College and members of the Association. A large and distinguished gathering were present.

In their replies both the guests eulogized the system of education given by this College and observed that the teaching they had received in their college days always stood them in very good stead, and the ideals which were set before them by the then professors and which they always have tried to follow had been responsible for the success in their humble lives.

Principal S. P. Biswas in a neat speech opened the proceedings.

Shri Sachindra Nath Banerjee, Registrar, High Court, Original Side, spoke extolling the qualities of the head and heart of both the Chief Guests and hoped that both of them would not only maintain the traditions of their respective posts but would also add lustre.

Dr. Srikumar Banerjee also spoke on the occasion.

Indian Tariff Board, Director International Monetary Fund and Member, Air Transport Enquiry Committee; Prof. B. N. Das Gupta B. A., A.S.A.A. (Lond.) F.C.A. formerly Member, Indian Tariff Commission and now Head of the Faculty of Commerce, Lucknow University and Shri H. M. Jagtiani M.Sc. (Econ. Lond.), retired General Manager of Eastern Railway, as members.

The Commission had few sittings and recorded witnesses of some experts. But the Commission declined to increase the existing Bus fare rates. The report has yet to come. In the meantime the decisions of the State Bus authorities gave a shock to the people while everybody expected a fair, deal.

SHRI KALI BANERJEE IS DEAD

Hardly a year passed the 'Calcutta Municipal Gazette' lost its esteemed Editor, Shri Atosh Kumar Chatterjee, who was at the helm of the 'Gazette' for long and piloted it most ably and efficiently by his devoted services. His death anniversary came on on the 28th July last.

On Monday, the 5th August last, the 'Gazette' has lost another devoted worker, Shri Kali Coomar Banerjee, the First Representative, Advertisement Section, who had served the 'Gazette' since

SHRI KALI COOMAR BANERJEE

PHOTO: S. B.

its beginning and fed its advertisement pages by securing the same. Thus his services were most essential and indispensable for the survival of the 'Gazette.'

The late Shri Banerjee was suffering from various ailments for the past three months. A month back he was removed to the Chittaranjan Hospital, Gobra, where he died on Monday morning. He was about 52.

For the last few years life became so hard to him that he looked older in comparison with his age and thus he was jokingly called 'Dadoo' by all who happened to know him. His suave manners and amiable disposition endeared him to all with whom he came in contact. As a Representative entrusted with the task of securing advertisements he had to move and meet a cosmopolitan population particularly with the members of the business community, and everywhere he had left a mark to be remembered ere long. To the 'Gazette' his contributions were immense in maintaining its existence. His death has equally created a void which will be difficult to fill up soon. Besides, it will tell heavily in earning the Gazette's revenue.

With the inception of the 'Gazette' in the year 1924, the late Shri Banerjee was linked

with it through some outside agency in the Advertisement Section in 1925. He claimed that the intervention of Shri Subhas Chandra Bose, the then Chief Executive Officer, was necessary to establish that relation. In 1939, when some modifications were effected in the internal administration of

the 'Gazette' was taken over by the then Editor, Shri Amal Home himself, it was felt to retain the services of the late Shri Banerjee and he was taken in as the 'Gazette's' own man. Since then he had been serving the 'Gazette' faithfully. He loved the 'Gazette' dearly and did his best for its improvements. Little was his remuneration and less amount of money he was given as commission for securing a maximum quantity of advertisements in comparison with his services. He had hard labour during the days when 'Gazette's Anniversary Numbers' were published still he was satisfied and endeared the journal. This also earned him love and admiration by his colleagues and admirers.

The late Shri Banerjee was a widower and he lost his children even when they were in their teens. This caused him to lead a life of sorrow and anxiety and had little peace in mind. Still he tried to recover himself from all these troubles and craved peace for the rest of his life.

His death was mourned by all who knew him. The 'Gazette' Office was closed as soon as the death news was received as a mark of respect to his memory. Wreaths were also placed on the bier. The members of the staff of the 'Gazette', his friends and admirers met on Thursday last, the 8th August and condoled his death. A minute's silence was observed praying peace for the departed soul.

The Corporation Commissioner, Shri B. K. Sen, extended his condolences to the members of Shri Banerjee's family.

We, on behalf of the 'Gazette', also extend our sincerest condolences to the members of the bereaved family.

DEATHS AND DISEASES IN THE CITY

Attacks and deaths from cholera in the city during week ended Saturday, the 17th August, were 88 and 15 against 92 and 15 in the week before respectively. During the corresponding period last year there were 14 attacks and six deaths.

Small-pox attacks and deaths were four each against six each the week before, the figures for the corresponding fortnight last year being 18 attacks and nine deaths.

Forty persons died of tuberculosis against 49 the previous week. During the corresponding weeks last year there were 41 and 36 deaths.

Deaths from all causes totalled 765 against 676 the week before, the figures for the corresponding weeks last year being 663 and 564 respectively.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE FIFTEENTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 9TH AUGUST, 1957

NETAJI SUBHAS ROAD

The Corporation re-named a portion of Clive Street from the junction of Mahatma Gandhi Road to the junction of Mirbahar Ghat Street in Ward No. 26, as Netaji Subhas Road. The re-naming was earlier recommended by Borough Committee No. 7.

On the very day India became a free country, the 15th of August, 1947, the Corporation lost no time to re-name Clive Street as Netaji Subhas Road. The then Mayor, Shri Sudhir Chandra Roy Chowdhury, himself took the initiative in re-naming the street. Old Clive Street ran from Dalhousie Square to Mirbahar Ghat Street, but the re-naming was then effected up to the junction of Harrison Road. Hence the need for modification in the shape of re-naming the remaining portion which also abounds many spacious Houses, namely Raja Katra, Raja Damodar Market and others. Besides, the inhabitants of the locality were suffering from want of some appropriate road name while receiving letters and other postal deliveries.

Thus the re-naming of the remaining portion of Clive Street was widely cheered by the people of that locality as well as by the rest of the citizens.

PURNA DAS ROAD

The House re-named a portion of Monoharpukur Road, from Rash Behari Avenue up to Gol Park, Ballygunge area, as Purna Das Road, as recommended by Borough Committee No. 14.

The initiative of re-naming the road as Purna Das Road came from Shri Biswanath Mukherjee, an Ex-Alderman of the Corporation, and a member of the Purna Das Memorial Committee as one of the measures in perpetuating his memory in this city.

The re-naming will be welcomed by the citizens as the late Shri Purna Das needs no introduction to his countrymen. He was a great revolutionary leader of Bengal and was closely associated with Netaji Subhas Chandra Bose, while he was in India. His organising capacity as a revolutionary leader was immense while attracting a large number of his followers to adopt the revolutionary creed in their careers of life, the pioneering movement in Bengal as a contribution to freedom's struggle. His life was dedicated to the cause of country and he suffered imprisonment or detention for many years during his active life. He was one of the old stalwarts of freedom movement in Bengal starting his activities since the days of Secret Movements during World War I. Later on, the late Shri Das joined Non-cooperation Movement and other mass movements. But he always maintained his revolutionary mind and this earned him great respect and esteem from the leaders of the country. Unfortunately his death occurred under tragic circumstances. More

than a year ago he was stabbed from behind and this he could not survive.

The late Shri Das held from the district of Faridpore and after Partition he came to live in that part of the city and devoted himself to social and cultural work. Rehabilitation of the suffering humanity pre-occupied most of his times then.

NAMING OF A NEW PARK

The House, on the recommendation of the Borough Committee No. 9 named a new Park at 4/1A, Madan Dutta Lane under Ward No. 45 as UDHARAN PARK.

Sree Sreemat Udharan Dutta Thakur was a great Vaishnava Saint. All his religious feats have been amply illustrated in the Vaishnava literature. Born at Saptagram in the district of Hooghly of a Subarnabanik family. In 1461 A.D. the saint was a great contemporary and favourite disciple of Mahaprabhu Nityananda. He expired in the year 1541 A.D. As the area is inhabited mostly by people of Vaishnava sect, the naming will be welcomed by the local people.

DECLARATION OF MARKETS

The House, on the recommendation of the Standing Public Utilities and Markets Committee, declared several holdings scattered in the city as market places under Section 5(42)(b) of the Calcutta Municipal Act, 1951. Required licenses for the purpose were earlier issued by the Health Officer and the License Officer.

PAVEMENT STALLS

Replying to a question tabled by Councillor Samar Rudra, it was stated that the Corporation had earned a sum of about Rs. 658/- only, in the way of fees or charges from persons holding temporary stalls or showing various performances on portions of streets and roads between the crossings of Amherst Street and Lower Circular Road, to Sealdah Goomti during the last Ratha Jatra festivals. They were allowed to erect stalls or to vend their articles or to show their performances by the District Engineer II on payment of usual License fees as in previous years in the shape of Corporation revenue. Besides, a sum of Rs. 219/- only was realized as Trade License Fees at the rate of Rs. 8/- per Hawker from them on the Ratha Jatra Day from that area.

Police had also been informed before hand to take proper action in maintaining peace, channelling traffic and other arrangements.

STREET WATER-LOGGING

Earlier during discussions on urgent matters of public importance Councillor Mihir Lal Ganguly drew the attention of the Mayor, Dr. Triguna Sen, to the suggestion by one Mr. W. H. Ames in connection with the problem of water-logging of roads by rain water. Mr. Ames' letter, publishing

in the 'Letters to the Editor' column of a local newspaper, suggested that surface level drains might solve the city's drainage problem.

The Mayor, Dr. Sen, informed the House that the suggestion had already been under consideration of the Standing Town Planning and Improvement Committee.

AN ENCROACHMENT CASE

Councillor Amulya Charan Sarkar, criticized the Corporation markets administration by arguing that while small traders were immediately taken to task for encroachments, no action was taken against bigger ones guilty of the same offence. He mentioned a case where a shop in the Sir Stuart Hogg Market had encroached about 1,500 sq. ft. on an area of the Market within a stone's throw from the Central Municipal Office Buildings, S. N. Banerjee Road. Councillor Sarkar regretted that it seemed that no action was taken against the infringement.

Councillor S. K. Gupta, I.C.S., the Chairman of the Calcutta Improvement Trust, thought that if the structure in that case was an unauthorized one, the Commissioner could easily take action against the shopkeeper.

The Mayor, Dr. Triguna Sen, requested the Commissioner to look into the matter immediately.

It is stated that the proprietor of the shop has since been asked to demolish the structure.

AMBULANCE SERVICES

The present position of Ambulance Services in the city was strongly deplored by Councillor Dr. Kanailal Sarkar. In doing so he referred to two cases wherein the irregular attendance of the Service was pointed out. He said that in one instance it took more than three hours when the Van reached to the patient and in another the Ambulance Service was dislocated on the way even it carried the patient at a few hours late. He apprehended that if such irregular system was run in the city many a valuable lives might be lost when they needed Ambulance Services for urgent cases.

Tracing the root Councillor Dr. Sarkar had noticed that insufficient number of Ambulance Vans serving in the city was responsible for such irregular services.

The Mayor, however, assured the House that the matter would be looked into.

DHAKURIA AREA

Councillor Nripendra Nath Banerjee, requested the Corporation through the Mayor to undertake a scheme for channelling rain water from the south-eastern part of the city. He said that during rains every year in the past rain water had entered into the city's borders causing much hardship to the citizens living in Dhakuria and Kasba areas. In that connection he acquainted the House that he had been informed of the abandonment of the Panchanyogram Project by the State Government, meant for relieving the distress of the citizens. He also wanted that the House should take up the matter with the Government for its early execution.

FAKED CEMENT MILLS

Councillor Naren Sen, alleged that two firms in the Manicktola area had been mixing

Gangamati (silt from the Hooghly) with small quantities of cement and selling thousands of of this product as cement. These two have selected their sites of manufactures on both the sides of the Bellaghata Canal whereby silt collection work was convenient.

Councillor Sen said that he had learnt of this state of affairs only when the workers of these firms approached him to form unions in view of the growing pressure of work. He explained that silt was finely ground there before it was mixed with little quantities of cement, and the product was put in bags for sale.

Councillor Sen wanted to know what the department of the Corporation which granted licences to firms was doing in the matter. He thought that the Corporation which concerned about the safety of buildings in the city, could not overlook such things apprehending the frequent house collapses in the city.

The Mayor took notice of it and requested the Commissioner to look into it.

PROCEEDINGS OF THE CORPORATION MEETING DATED THE 2ND AUGUST, 1957

STOPPAGE OF FOOD CONCESSIONS

Councillor Biman Mitra apprehended that food concessions now extended to the low-paid employees of the Corporation, might be discontinued in view of the fact that the State Chief Minister, Dr. B. C. Roy, had alleged that many of the Corporation workers, who received rice at concession rates, had sold it in the black market. Councillor Mitra pointed out in this connection that some responsible officer of the Corporation might have convinced the Chief Minister with his personal views. But he wanted that proper justice would be meted out in the cases.

The Deputy Mayor, Shri Keshab Chandra Basu, who was in the Chair, directed the Commissioner to enquire into the allegation and submit a report to him. He also declined to accept that such a statement had ever been made by any responsible officer of the Corporation.

IMPROVEMENT OF PARK CIRCUS MARKET

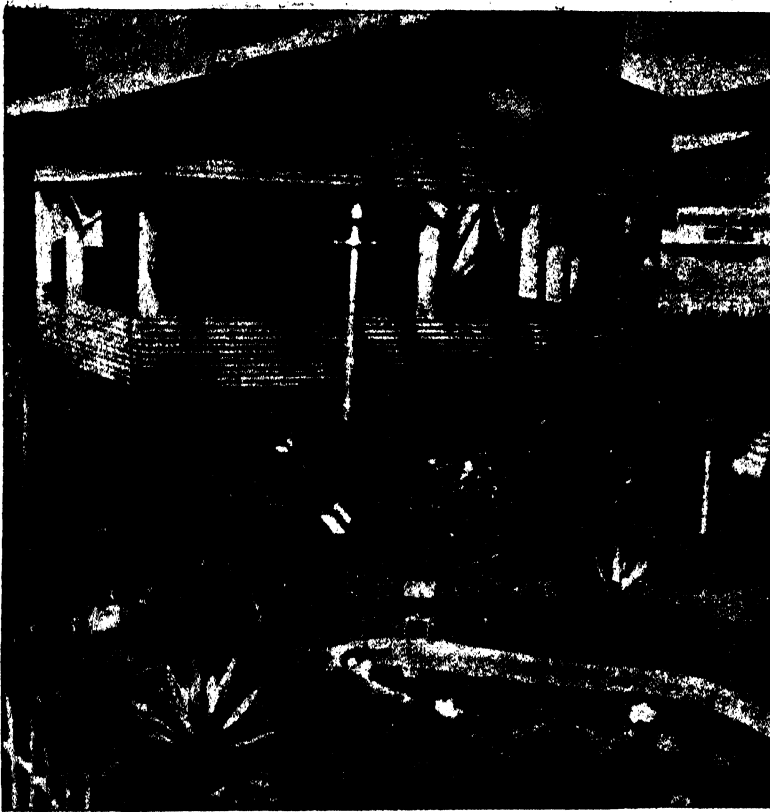

Based on a recommendation of the Standing Public Utilities and Markets Committee, the House accepted a tender amounting to about Rs. 54,500/- for improvement of Park Circus Market by constructing a Vegetable Chandney at the open space on the eastern side. It has further been decided that the amount will be met out of available balance of the loan raised under the current year's Loan Budget.

TRUCK CHASSIS FOR REPLACEMENTS

The House, on the recommendation of the Standing Works Committee, accepted quotations for supply and delivery of 17 Nos. Truck Chassis for replacement purposes. The transaction would be treated as cash purchase. The suppliers are Messrs. French Motor Car Co., Ltd., and Messrs. The India Automobiles. Many of the trucks would be of Studebaker model.

These trucks will replace Silt lorries, Filtered Water lorries and Night Soil lorries.

An Unique Exhibition On Freedom Movement

Achievements Of Nineteenth Century Bengal Displayed

Corporation Stall takes a new look with the laying out of specimens of Parks maintained in the city.

CALCUTTA citizens are enjoying another opportunity of witnessing an unique exhibition on the country's Freedom Movement during the Nineteenth Century. The struggle was great and greater were the achievements. And the contribution of Bengal in this respect was unique. Sepoy Mutiny, as one of the main events of the nineteenth century features, though not given proper place, still it was remembered through speeches. What was most interesting was display of the glorious days of Bengal adorned by great men. Many of their personal belongings including a few of daily use have been placed there. Bengal was then the encrowned State in India.

'পুৰাতন বাংলা' displayed through many of the charts and models was the most interesting feature. Besides, the 'Saheed Bedi' the fire symbolizing the burning patriotism of the Indians and the multi-coloured National Flags indicating the country's tricolours at different stages during India's struggle for freedom, are also worth-seeing.

Stalls have also been opened by the West Bengal Government's Directorate of Industries; and the Union Information and Broadcasting Department. Almost all the State Governments have opened stalls to exhibit the village and cottage industry products. Mysore, Bombay, Orissa and other States have also been represented there.

The Corporation stall placed there took a new look on this occasion. Laid out specimens of two parks placed on both the sides of the erected shed attracted a larger number of visitors. They consisted of State Ministers, Legislators, Journalists, Litterateurs and respectable guests who were invited to deliver speeches on the occasion. Shri Nityananda Kanungo, Union Minister for Industry, also paid a visit in one of the days.

The Exhibition was inaugurated by the Union Minister for Commerce, Shri Morarji Desai on the 3rd August last. The State Chief Minister, Dr. B. C. Roy, presided over the function. The function was attended by a large number of citizens including many of the members of the Consular offices.

CENTENARY CELEBRATIONS STARTED

The inaugural function was accompanied by the beginning of the twenty-two-day Centenary Celebrations along with the Tenth Anniversary of Independence.

Shri Desai said that internal feuds had been the root of the country's ruination in the past. It was, therefore, essential that they should now work in harmony to make the country strong and prosperous. The issue of unity for the whole of India was stressed by him.

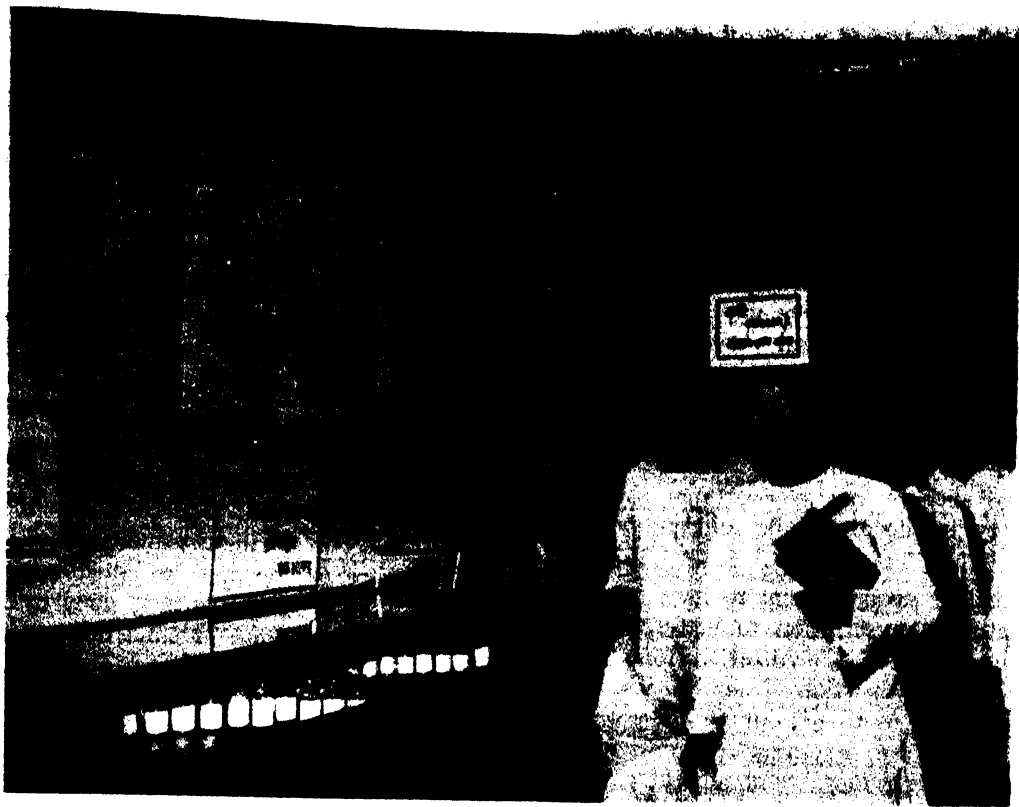

Dr. B. C. Roy referred to the importance of national unity in the task of preserving the

country's hard-won freedom and in national reconstruction.

Earlier, Shri Atulya Ghosh, M.P. and President, Pradesh Congress Committee, welcomed all. He also gave a brief description of the exhibits placed there.

'PURATAN BANGLA'

The largest number of people have so far been attracted to a section "Puratan Bangla" (old Bengal), a part of the exhibition, showing relics of 17th, 18th and 19th century Bengal and some of the

SHRI N. KANUNGO IN CORPORATION STALL.

(Shri B. N. Bhadra, P.R.O. office is also in the picture.)

PHOTO: A. K. TRAFDAR.

personal belongings of the giants of that period.

The exhibits are unique in many ways. It is an attempt to draw admirers of the 19th century renaissance in Bengal. On show in this section, among other things, are the sacred thread, hair and signed letters of Raja Ram Mohun Roy; clothes, walking sticks and other belongings of Bankim Chatterji; a mridanga (drum), 'kamandalu' and the stick of Vivekananda; the personal belongings of Ramkrishna, including the 'ram dao' with which the saint once attempted to kill himself; and letters of other eminent men who flourished in the last century in Bengal. The throne of Srjajdulah, the last independent Nawab of Bengal and a few other specimens of arts and crafts in those days are also there.

Another section depicts in three-dimensional clay models the economics, educational and revolutionary phases of Bengal from the time of Raja Ram Mohun Roy to 1905. The models have been prepared by a Krishnagar craftsman and have been put in glass with iron sheet lining.

Of over 100 stalls a large number contain handloom and cottage industry products of almost all the States of India. The display of wares, lighting and other arrangements leave little to be desired.

Although a variety of articles for domestic use desired.

A variety of articles for domestic use and showpieces of high quality are being sold at reasonable prices.

CORPORATION STALL

The Corporation stall depicted many of the charts and models. The interesting one was a model of Pulta Water Works. Besides, there were many portraits of great citizens who adorned the country. A few also were the Presidents of the Indian National Congress.

The charts were instructive as regards health and other civic amenities. The laid out parks showed specimens how the Corporation

attempts to achieve a 'Beautiful Calcutta' with green belts, tanks and flowering beds.

It has attracted a larger number of visitors on this occasion and observations were made by many of them. A few of them are given below:—

'Corporation stall is as usual neat and decent' remarked Shri P. C. Sen, Food Minister, West Bengal, while looking into the stall in one of the days.

'I am much pleased with the arrangement'—wrote Dr. S. K. Basu, Head of the Department of Commerce, Calcutta University.

'গত বারের বেলেঘাটা প্রদর্শনীতে দেখেছিলাম, ভালো লেগেছিল, তার থেকেও এবারে সুন্দর হয়েছে, ইহা আনন্দদায়ক ও শিক্ষামূলক।' said Shri Khagendranath Das Gupta, Minister, West Bengal.

'A very well arranged stall' also remarked Shri S. N. Roy, Chief Secretary of West Bengal Government.

'Some of the exhibits are worth seeing' said another who went through the stall, more than an hour.

—THE CORPORATION AT WORK

(Continued from page 413)

TRUCK CHASSIS FOR ADDITIONAL SERVICES

Based on the same recommendation, the House also sanctioned purchase of Nos. 45 additional Truck Chassis. These additional lorries would largely be utilized for the Mechanization Scheme of the Conservancy Services. A few would also be utilized for supplying filtered water to the scarcity areas and a few more for silt clearance purposes.

The Trucks will be of Studebaker and Dodge make and the suppliers would be Messrs. Indian Automobiles, Messrs. Auto Distributors, Ltd., and Messrs. The French Motor Car Co. Ltd.

HEALTH AND HYGIENE

THE BEST 'TONICS' ARE FREE

[By MR. CHARLES NEWTON]

If all of us bathed every day, drank at least six glasses of water daily, and breathed correctly, half the doctors of the world would have to change their profession. The best tonics for good health—water, fresh air, and sunshine—have always been provided free by a bounteous Nature. And yet what a large slice of the average man's earnings is eaten away by doctors' bills and patent medicines!

The so-called savages seem to have learnt the secret of Nature's prescription to better advantage than we who boast of a civilization that compels us to spend a goodly portion of our life in attempting to remain fit. With all our vaunted scientific progress, diseases are becoming more and more complex, and, sometimes, undiagnosable. Every year, the pharmacopoeia becomes increasingly cumbersome, without lessening the human burden of woe correspondingly.

It seems strange that whereas people are willing to go to unlimited lengths in clogging their systems with all kinds of drugs, patent medicines, and proprietary tonics, they do not realize that by practising a little cleanliness they can rid themselves of their ills.

There is nothing complex about keeping good health. We must drink as much water or other liquids (alcoholic ones in moderation) as we can. By doing so, we wash ourselves internally. We must bathe every day, as a result of which we clear the pores of the skin, and keep ourselves clean externally. And we should enjoy the fresh air, by breathing correctly, amid plenty of sunshine.

Young men are prepared to torture themselves by lifting heavy iron weights, and by using sinister looking devices, in their desire to build 'the body beautiful', without paying much heed to the elementary rules mentioned above. The human body is not meant to lift heavy weights—that is the function of a crane!

Another simple, but nonetheless important, requisite is sleep, as it repairs worn-out cells and replenishes lost energy. Late nights are the curse of this age.

But the agent by far the most ruinous to our structure is worry. 'Take no thought of the morrow' is a wise adage, if it is applied correctly. Because none of us knows whether to-morrow will ever come. Far better is it to take care of to-day, which is right here. Moreover, worry has never solved a single problem. On the contrary, it has converted every problem into an insoluble mess. Good cheer, and a lively sense of humour not only make us more bearable to our fellow human beings, but keep us in good repair. Physiology books stress the ill effects of worry and bad humour at mealtime. 'Laugh and grow fat' is a simple and rational piece of advice.

Another careless habit that costs us much in dental bills and general ill-health is failure to rinse the mouth after meals. It costs so little in time and labour, and nothing financially, and yet by our laziness we are made to pay dearly. We take considerable pains to keep ourselves clean externally, which is not so important as internal cleanliness.

In addition to these primary rules, if we took a little care of our diet, we should be wiser and happier people. More harm is done by over-eating than by underfeeding. I shall not waste time and space in recapitulating the rules about diet, which are taught at school. But it is pertinent to point out that the importance of meat in diet has been somewhat over-emphasized. Its disadvantages are many. If it is difficult to digest; its wholesomeness is in grave doubt in the circumstances prevailing in some of our large towns; its quality in many countries, where animals are neglected and unscientifically fed, is miserably poor; it is inclined to overheat the system, and it is unsuited to tropical climates, in particular; and it is known to prevent longevity. From the purely aesthetic standpoint, there is something repulsive about slicing cows, sheep, and goats, and eating them,—a point driven home very well by the late Mr. Bernard Shaw. In support of this, a tour of the local slaughterhouses is recommended before your next meat dish.

On the other hand vegetable dishes have overwhelming merits: they are easier to digest, and have laxative properties; they are rich in vitamins and in mineral content; their freshness or otherwise can be gauged easily; and they cool the system and are, therefore, ideal for a tropical climate. Moreover, vegetarian diet is known to promote longevity.

An important requirement for good health is exercise. Whatever form is favoured, regular exercise is absolutely essential. Even if we do not play any strenuous game, we can at least go for a brisk walk. Of all exercises, walking is probably the simplest and least expensive. Yet it is depressing to see how little we exercise ourselves even in this aspect, and are ready to climb into some form of conveyance for a distance of a few yards.

An ailment that has become increasingly common in these modern times is weak eyesight. This results in having to buy glasses and consequential facial disfigurement. Weak eyesight is because of lack of fats in the system, basically. Glasses do not improve eyesight. They merely help us to see. But vision can be improved by washing the eyes in water regularly, every morning, and before retiring at night. The best way of doing this is by immersing the face in a basin.

SPECIAL

Articles

The Use Of Treated Timber In Buildings

[By SHRI BENAY LAL GHOSH, B. E., COUNCILLOR, CALCUTTA CORPORATION.]

SINCE the cessation of the last World War and the indiscriminate utilization of the vast forest resources in India for the War efforts timber for construction purposes especially Teak, has become gradually a high priced commodity. It would take another three or four decades to build up Teak reserves so that Teak-supply and Teak growing cycle can be maintained in equilibrium. Therefore, we visualize a continual worsening situation in regard to the supply of Teak for building purposes.

With the present supply situation due to non-availability of proper Teak-wood other kinds of timbers have to be utilized. One of the recognised methods by which the full use of Teak is made, is the treated timber.

Pressure treatment of timber with standard water-borne wood preservatives ensures a tremendous increase in the service life of many cheap quality, so called junglewood non-durable timbers. This has been possible by the increased resistance to the attack of wood destroying organisms like white ants (termites), borers and marine organisms and various types of cellulose eating fungi. In India, treatment of timber is being carried out according to standards laid down by the Indian Standards Institution. Many firms in Calcutta also follow the same standard.

All telegraphic and electrical transmission poles of wood, are treated such. There are records which show that poles treated over 15 years ago still found sound and serviceable. Similarly, with railway sleepers pressure treatment has made economy possible. This has resulted in an immense benefit in timber saving process.

Pressure treatment of timber works out to a cost between Rs. 1.8/- and Rs. 2.4/- per cubic foot. Recently, the Forest Research Institute, Dehra Dun, have listed timbers which, if suitably treated with standard wood preservatives, can replace the use of Teak for most purposes. The cost of the cheapest quality of Teak is nearly twice that of such recommended junglewood timbers. Mango, for instance, is about Rs. 6/- to Rs. 7/- per cubic foot. With pressure treatment and kiln drying both according to rigid specifications and standards, the cost of Mango timber will not exceed Rs. 9.8/- to Rs. 10/- per cubic foot, as compared with the cost of non kiln dried, non-treated Teak, which is about Rs. 16/- to Rs. 18/- per cubic foot.

In Calcutta, treatment and kiln drying facilities are available. Treatment is carried out according to rigid standards and annual capacity of such treating centres is over 50,000 cubic feet of timber.

Treatment of timber is not a new development. It is often, only the pardonable ignorance of many which prevents large scale utilization of timber treatment methods or use of cheap junglewoods for this purpose of construction. Many of these woods

have qualities comparable to the best Teak, except perhaps in durability.

The next when timber is used in construction, works out the savings that might be possible by the use of treated timber. Wherever possible specify the use of treated timber as alternative to Teak. While specifying treated timber, it is most important to be clear as to what 'pressure treatment' it actually meant.

Pressure treatment should be carried out for construction timbers with water-borne preservatives. Oil base preservatives tend to make the timber appearing unclean and such treated timber will not take paint or varnish and will give off an offensive odour and spoil clothes that come in contact with it. Pressure treatment is usually carried out at hydraulic pressures of between 100 and 200 p.s.i. inside a pressure cylinder fitted with a leak-proof door. After about 90 minutes of the pressure cycle the timber is impregnated to a depth of 1 in. to 1½ in. with the preservative solution. The timbers are then dried allowing on sun for a week or more in order to evaporate the moisture. The timber is then ready for use.

Outlines of such treatment in a broader sense have been given above. Full details and information are easily available from official bulletins. Timber treatment firms providing such facilities are open to inspection and approval.

One should always utilise the facilities obtained through developments of science. Scientifically processed wood will no doubt give better service even more than the natural product and at a much cheaper price too.

—THE BEST 'TONICS' ARE FREE

(Continued from Page 416)

of water, preferably warm, and after taking a deep breath, keeping the eyes open as long as possible. By doing so, grt that forms a film over the eyes, as a result of dust and other impurities, is washed away. Rose water and lotus honey are other excellent remedies for poor eyesight.

In the last resort, it is our outlook on life that affects our health to a large extent. If we could learn to make the most of our limited opportunities with intelligence and good humour, not only would we enjoy good health, but we might be able to live much longer. It is worth reading Bernard Shaw's "Back to Methuselah" to appreciate this point better. But if all of us practised even a fraction of what is preached here, many doctors would have to spend some sleepless nights thinking other means of earning a livelihood!

CITY NEWS PARADE

OBITUARY: The death of **Shri Dwijendra Nath Mukherjee**, a former Chairman of the Cossipore Municipality, occurred at his residence, 126/2, Hazra Road, on Monday, the 12th August. He was 74. He was later elected as Councillor of the Corporation when Cossipore was amalgamated with Calcutta Corporation. He was also Chairman of the North Suburban Hospital.

The death of **Captain Satyasakha Maitra** occurred on the same day. He was 73. Captain Maitra, who was a bachelor, was the nephew of the late Principal, **Heramba Chandra Maitra**.

After taking his **F. R. C. S. (Edin.)**, Captain Maitra served in a hospital at **Bootle, Liverpool**, as **Resident Surgeon** during **World War I** and later in the **Indian Army** in **Mesopotamia**. On returning to India he was appointed **Surgeon and Professor of Surgery** to the **R. G. Kar** (then **Carmichael**) **Medical College and Hospital** and also visiting **Surgeon** to the **Mayo Hospital**. He was **Professor of Surgery** in the **National Medical College** before his death. He served for a time as **Principal** of the **Chittaranjan Medical College**.

The death occurred of **Pandit Sarat Chandra, Sankhya Vedantatirtha**, **Secretary of Shyamadas Vaidya Shastra Pith**, at his residence at **Pataldanga Street** on the 6th August last. He was 71.

'**RAKHI UTSAH**', a festival for tying cords on wrists as a token of friendship, was observed in the city on the 10th and the 11th August. Groups of members of the **National Federation of Indian Women, West Bengal branch**, visited offices of consular and trade representatives of foreign countries in Calcutta on the 10th August last and tied rakhis (silken cords) symbolizing friendship.

One group visited the offices of the **Deputy High Commissioner for the U.K.** and the **French Consulate-General** and another the **Russian Trade Agent's office** and the **Chinese Consulate-General** and tied rakhis round the wrists of senior officers.

The ceremonies were organized "to register the Federation's peaceful protest against the manufacture of nuclear weapons."

Besides, **Pravart Feries** and meetings were arranged in the city in observance of the days.

DEMONSTRATIONS: Although the movements of the **Post and Telegraph employees** subsided still the city witnessed a number of other demonstrations.

On a charge of obstructing the public thoroughfares in **Wellington Street**, in front of the **State Chief Minister's residence, Wellington Square**, 15 refugee demonstrators were arrested on last Friday afternoon the 9th August, last.

About 300 refugees went to **Wellington Square** from **Sealdah Station** and squatted on the footpath in front of **Dr. Roy's house**. The refugees, who included women and children, demanded better rehabilitation facilities.

Another batch of several hundred refugees living in **Sealdah Station** staged a demonstration in front of the **Chief Minister's house on Wellington Street** the next day. Their demands were also for better facilities for rehabilitation.

A section of **Port workers** demonstrated outside **Dock Manager's office** on Monday, the 12th August, when, at a special function, the **Chairman of the Port Commissioners, Shri R. K. Mitra**, was making cash awards to about 30 men for their out turn of work last month. About 800 demonstrators shouted and stood round the place where the function was being held.

SUSPENSIONS, DISLOCATION ETC. An interruption to the electricity supply in **Clive Street area** occurred at 9-45 a.m. on Friday, the 9th August, last. This failure resulted from the fracture of one of the **Calcutta Electric Supply Company's cables** by a contractor operating a tube-well drill. The supply was restored in about an hour.

The interruption on the previous day when there was a general failure of supply in the **Central and Southern areas** of the city for 35 minutes, was caused by a failure of the supply from the **D. V. C.** The cause, so far traced, was a breakdown at **Maithon** during the same hours.

Punctuality of eleven local and passenger trains was thrown to the wind on the 9th August when the **47 Up Upper India Express** lay motionless for over an hour near **Narkeldanga Loco Shed**, a quarter of a mile from **Sealdah Station**.

Home-bound daily passengers clamoured at the delay in the departure of the local passenger trains which varied from 56 minutes to 5 minutes.

The arrival of four trains to **Sealdah Station** including a passenger train from **Mokameh** was also behind schedule owing to this incident.

CALCUTTA ORPHANAGE'S 65th Annual Meeting was held on Sunday, the 11th August, last. **Lady Ranu Mukherjee** distributed prizes to the inmates.

The orphanage has at present 100 children, aged between three and 15. Most of them were found by the police and could not be restored to their parents. Others were admitted to the Orphanage on applications from their distant relations, too poor to maintain them.

The Orphanage runs two primary schools, one for boys and the other for girls. The inmates are also trained in weaving, case-weaving and tailoring. Twelve of the children attend secondary schools in the locality.

MARTYRS' DAY was observed in the city on Friday, through different functions in commemoration of the 'Quit India Resolution' of the 9th August, 1942. In that connection a meeting was held in the morning at the five-point crossing of **Shyambazar**, northern part of the city. **Prof. Samar Guha** presided and the speakers included **Councillor Ranajit Coomar Mitter**, **Janab Saifuddin Kashmiri** and others.

There were other meetings at different places including **Shyanpukur Square**, **Tarasundari Park**, **Barrabazar area** and southern part of the city. These meetings were addressed by different leftist leaders. A meeting at **Azad Hind Bag** could not be held for want of necessary permission. It may be recalled here that the **Park** still bears vivid memories of the incidents of that memorable day.

At the weekly meeting of the Corporation, **Councillor Satyananda Bhattacharyya** moved that on that memorable day the House should adopt a new procedure of introducing Bengali as the official language of the institution. He also felt that difficulties in obtaining suitable synonyms in Bengali might be avoided by coining new words in this language which is prospering rapidly.

CORPORATION NOTICES

To Contractors

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 Noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for.....". For specifications and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

PHENEOL LAMP BRAND

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUITA :: BOMBAY :: KANPUR

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates :—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0.16 for a Bicycle and 0.30 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0.30, Motor Cycle 0.60 and after midnight Bicycle 0.120, Motor Cycle 0.240. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

AUGUST 15

AUGUST 15, 1947. On that day India was reborn. On that day India was admitted into the Hall of the Free. India burst upon the Light.

It is true that on that day we did not realise millennial hopes. It is true that the day did not break like the dawn of a golden age. The sad music of humanity breaks out even in our day in a mad moaning. Still, all day, the iron wheels go onward, grinding life down from its mark. It is true Sri Aurobindo called our acquisition "this fissured independence."

But on that day, after centuries of toil and travail, the rich, far wandering, many-imaged life of India's hills and planes, its variedly modulated undertones and overtones, came to fit into a new Glory that was the glory of freedom. And a new warmth flows through Indian life. The heavy, dead lump of lead that lay overspread in and about us has melted away. India once again has awakened to the impatience of the future, and regained the lost eagerness of her youth. We have learnt to look forward in a passionate aspiration for the glories of our land and history, in a passionate faith in a world in which the air we breathe is liberty, love and truth. We are again on the open road, and should find hints of goodness and of blessing there.

Of this exciting drama, Calcutta was and is the focus of interest. In its many episodes Calcutta was the chief participant. And Calcutta, by its dominant emphasis, by the largeness of its hope, by its vision, will interpret this new freedom and reveal our aspiration to reach out into unknown modes of being, into new forms of truth and beauty. *The Municipal Gazette* rejoices with the rest of the country and looks up to Calcutta as its path-finder in the new values we shall create for our society.

Independence Day In Calcutta

CAUGHT UP by a spirit of gaiety and grandeur, Calcutta witnessed the happiest scenes on Thursday last, the 15th August, when the city observed the Tenth Anniversary of Indian Independence. Coinciding with a day on the eve of Centenary Celebrations of India's First War of Independence in 1857, Calcutta citizens' enthusiasm with the rest of India ran high to observe the occasion. Really, it was a day of days and the city had rare chances to come across such a day.

Prabhat Pherries with music greeted the day's dawn when groups of children carrying the tricolour National Flag went round the streets. The National Anthem conspicuously formed the common feature of those groups. This was followed by hoisting of National Flag in the residential quarters and shops. Later on, there were ceremonial hoistings in public buildings and public places.

Along with flag hoisting at every school and college, special programmes of drill, dance and music planned over a long period. *Alpana* paintings added colour to the occasion in many of the girls' institutions. In one word the city wore a festive appearance towards the earlier part of the day.

It was also one of the Remembrance Days, as the country owes its independence to the martyrs who laid down their lives for its cause. In the morning thousands visited Gandhighat at Barrackpore where a memorial service was held under the auspices of the State Government. Wreaths were also placed at martyrs' columns erected at different street corners.

The sick and suffering were not forgotten. In the city's hospitals representatives of the West Bengal Pradesh Congress Committee brought sweets, fruits and flowers for the patients. Orphanages and refugee homes also had such welcome visitors.

Through an impressive function the Corporation celebrated the day. Held in the courtyard of the Central Municipal Office Buildings, Dr. Pratap Chandra Guha Roy, Deputy Chairman of the West Bengal Legislative Council, conducted the ceremony. Hoisting of National Flag, placing of wreaths at the "Martyrs' Memorial" by the President, several Councillors, the Commissioner and others were in the programme.

An attractive feature of the day's programme was a March Past under the command of Shri B. K. Sen. Children and teachers of the Corporation Primary Schools and employees representing all the departments participated in that ceremony.

The All-India Radio arranged a special programme for the day. Centenary stamps commemorating the Great 1857 Revolt started selling at the Philatelic Bureau, G. P. O.

There was also a State Reception on the previous day.

Participating in the celebrations outside were also 2,500 convicts who were released from the State's jails under clemency specially granted to mark the Centenary of India's first Struggle for Independence. The convicts in Alipore Central Jail also arranged a function there.

A mammoth mass rally at the Maidan, at the foot of the Ochterloney Monument, was another feature of the day. In the rally not only all sections of citizens represented but people from Greater Calcutta were also present. A large number of students and youths as well as refugee population gathered there to hear the Pradesh Congress Chief, Shri Atulya Ghosh, M.P. All of them came in small processions. Besides, four big processions from north, south, central and Burrabazar areas joined the rally after parading the streets.

Simultaneously on the day three exhibitions, running in the city, drew large crowds. One at the Ranji Stadium where the crowds was the biggest; second at Victoria Memorial Building, and the third at the Indian Museum.

Celebrations reached at height in the evening when people were out in the streets in their thousands. Places which attracted them most were the Chowringhee, Dalhousie Square and Maidan areas wherein Raj Bhavan, Congress Bhavan, the Assembly Building, the Ochterloney Monument, the Indian Museum and the Central Municipal Office Buildings were illuminated with stringed lights. Some buildings were also floodlit. In north and southern parts of the city there was a play of light.

Fireworks were released in some of the city's parks in the morning when mass drills were held. In the evening, rockets burst in the air in many localities.

CORPORATION CELEBRATES AUGUST 15

THROUGH a nice, little and disciplined function the highlights of the Corporation's Independence Day celebrations included the hoisting of the National Flag, the laying of wreaths at the Saheed Bedi and the March Past in which the Commissioner and other members of the staff took part.

Under a decorated pandal at the quadrangle of the Central Municipal Office Buildings, S. N. Banerjee Road, the function was held. The whole atmosphere was charged with a sweet smell of burning incense. It was started with the presentation of a song 'সার্থক জনম আমার' from Rabindranath. A large gathering was present there including many of the City Fathers, Corporation officials and other important citizens. All of them watched the function in silence and reverence when the India's National Flag was going up with the rhythm of music.

'IMPRESSIVE MARCH PAST'

Amidst cheering shouts of *Bande Mataram* the Tri colour Flag was hoisted in that quadrangle by Shri Guha Roy. The saluting ceremony was ensued then. Headed by the Commissioner, Shri B. K. Sen, thousands of Corporation employees saluted the National Flag in a March Past ceremony. The Commissioner was followed by different heads of departments including the Chief Accountant, Shri P. Mitra, the Chief Engineer, Shri A. K. Sen, the City Architect, Shri P. Guha, District Engineers, the Superintendents of Corporation Markets and smart dressed Market Sergeants. The Deputy Commissioner, Shri A. K. Basak also led a batch of Corporation School Children including a smaller number of teachers. The St. John Ambulance Corps, Corporation Brigade, the Treasury Guards with their guns, the Fire Fighting Squad of the Sir Stewart Hogg Market participated in that March Past. Hundreds of Mazdoors led by the Conservancy Staff Officials followed them. A sweet music 'নমো নমো স্বদেশী জন্মভূমি' went through all along. The March Past was heralded by a Band Party striking the National Anthem. This was provided by one of the Corporation Primary Schools.

'AN APPROPRIATE MUSIC'

Barefooted the President, many of the Councillors, the Commissioner, then laid wreaths on the Martyr's Altar which was erected on the occasion. Wreaths were also placed on behalf of the Corporation Employees' Association and many other allied organizations. The music provided on the occasion 'ফসীর মস্তে গেয়ে গেল যারা' was appropriate in reminding all the burning patriotism with which the martyrs sacrificed their lives for the liberation of India from foreign yoke.

FREEDOM MOVEMENT SINCE 1857

Shri Guha Roy in his speech recalled the history of India's freedom movement since 1857. He illustrated that the glorious achievement of India to emerge as a Free Country was the result of sacrifices of thousands of youngmen. While reminding their noble deeds the speaker was eloquent in describing the deeds and ideals of the present Free India which also pledged freedom for all. He was most

enthusiast to narrate the existing freedom of the country as it was the continuous sun shining the darker days being over.

In that connection, the President also exclusively referred to the sacrifices made by the youths of Bengal to achieve the end. His was a speech marked with fluency and diction when he mentioned the ideals of Gandhiji and Deshabandhu who dreamt of an India free from an economic bondage.

The future society of India as visualized by them would sure to bring immense good to the citizens of Free India, Shri Guha Roy concluded.

Earlier Councillor Mihirlal Ganguly welcomed all.

The songs were rendered by the members of the Corporation Dramatic Club under the guidance of Shri Himaghna Roy Chowdhury, a music teacher of Corporation Schools.

Among those present were Councillors J. L. Saha, M.L.C., D. P. Chatterjee, M.L.C., B. N. Banerjee, M. Sarbadhikary, K. Hossain, Dr. S. K. Sett, D. N. Bose, Kumar B. Deb Rai Mahasay, B. K. Daw and others.

The Corporation at a previous meeting sanctioned a sum not exceeding Rs. 1,500 for celebrating the occasion in a befitting manner. It was also desired that the amount would be spent on illumination of the Central Municipal Office Buildings, decorations, distribution of sweets to school children and such like.

ALLIED INSTITUTIONS

The day was also celebrated by many of the allied offices and institutions under the Corporation. Flag hoisting ceremony was also observed by all the Primary Schools under the Corporation. Shri A. Mitra, Headmaster, hoisted the National Flag at the S. B. Dey Model School, Nebutala area.

At the Employees' Association Office, Hogg Buildings, Shri Abinash Bhattacharyya, Secretary of the Association, hoisted the National Flag. Tri-colour was also flown at the office of the Co-operative Credit Society at the same building by Dr. Sailesh Sen, its President.

—CELEBRATIONS IN CITY AND SUBURBS

(Continued from next Page)

people to build a united movement on the basis of 12 demands including severance of India's connection with the Commonwealth and nationalisation of large-scale Indian and foreign industries without giving compensation.

At the Park Circus Maidan meeting over which Shri Bankim Mukherjee, M.L.A., presided, speakers including Shri Somnath Lahiri expressed their support for India's policy of peace in external affairs. But they criticized India's "silence" over Oman in spite of the Imam's appeal to the Bandung countries.

Speakers were also critical of the Government's domestic policy which, they said, had added to the peoples' distress. They urged people to voice their protest against any proposal to curtail the principal projects under the Second Five Year Plan.

Celebrations In The City & Suburbs

CALCUTTA celebrations took colours on Thursday, when the city and suburbs observed the Tenth Anniversary of Independence. The enthusiasm ran high throughout the day. The day's celebrations, marked with several important functions, started with a prayer meeting at Gandhi Ghat, Barrackpore. Before that Prabhat Ferries paraded the streets. Moving scenes were witnessed in many of the groups who carried National Flags with them and chanted National songs. The National Flag was hoisted on the Mahatma's memorial column at Gandhi Ghat just at sunrise and a ceremony was held later on wherein Shri P. C. Sen, Food Minister, presided. The singing of devotional songs was a feature of the function which was attended by among others, Shri Hem Chandra Naskar, Minister for Fisheries, and representatives of several Consular Crops.

Shri Sen referred to the supreme sacrifices made by many people in the country's freedom movement and paid his homage to them on this auspicious day. He said that India's message of peace and friendship to the world had been preached by Shri Chaitanya 500 years ago and by Mahatma Gandhi in this age. The message would have added significance if they could solve the country's internal problems—poverty and unemployment.

FLAG HOISTINGS

At Assembly House Shri Sankar Das Banerji, the Speaker, hoisted the National Flag in presence of officers and staff of the Legislature Secretariat. The local N. C. C. Air Wing organized an aero-modelling display and flying on the Brigade Parade Ground.

Independence Day celebrations of the Eastern Railway began with the Railway Protection Forces parading on its football ground in Sealdah in the morning. Five platoons, two armed, consisting of about 150 members of the force participated. Shri S. Sarangapany, General Manager, took the salute.

Brief but solemn functions were held under the auspicious of various Calcutta University Departments in the morning. At the Darbhanga Building lawn, Prof. Nirmal Kumar Sidhanta, the Vice-Chancellor, hoisted the flag. Members of the Senate, Syndicate and professors present at the ceremony sang "Janagana Mana" as the Tri-colour went up. Professor N. R. Sen, Vice-President of the University College of Science, unfurled the flag at the college premises at Upper Circular Road.

The National Flag was hoisted in the morning at Congress Bhavan by Shri Atulya Ghosh, President of the P.C.C. This was followed by the singing of the National Anthem by volunteers of the Congress Seva Dal.

Among the functions in parks and public places, unfurling of the National Flag took place at Deshabandhu Park, North Calcutta under the auspices of the North Calcutta District Congress Committee. The State Congress chief Shri Atulya Ghosh broke the Flag amidst shouts of "Bande Mataram". Wreaths were offered at the Martyrs' column erected at the Park.

Shri Atulya Ghosh told the gathering that they could take legitimate pride in what independent India had achieved during the last few years.

Independence Day was celebrated by the non-Bengalee students of the Nikhil Bharat Banga-Bhasa Prasar Samity at its premises at Puddapukur Road, South Calcutta. Shri Kalipada Mukherji, Minister, West Bengal, who presided, hoisted the National Flag. Mr. George Kilmer of USIS, acted as Chief Guest. The function was participated in by the students who rendered Bengali songs and recitations.

MAIDAN MEETING

Long processions with National Flags, festoons, bands and life-size portraits of national leaders carried in decorated lorries converged at the foot of the Ochterloney Monument, Maidan from different parts to celebrate the Tenth Anniversary. The meeting was held under the auspices of the West Bengal Pradesh Congress Committee and was presided over by Shri Atulya Ghosh.

Among the audience were many factory workers from in and around the city and a large number of women, some of whom had walked all the way from Deshabandhu Park and Deshapriya Park in procession. Tagore songs were sung.

The President reminded the audience that every one of them must sacrifice if he was really serious about the country's progress. To implement the Second Plan successfully sacrifice on a national scale was essential.

Shri Ghosh maintained that the rise in prices had occurred because many projects had been undertaken to make India self-sufficient. These had not yet been completed and so did not benefit the public. If India had not taken up the projects and spent crores of rupees prices might not have risen so high but the country would then have remained ever dependent, economically and industrially, on other countries.

Shri Ghosh also regretted that the Government's action was not sufficiently appreciated even when it had made substantial progress. Nearly 3.5 million refugees had come over from East Pakistan. West Bengal's economy not only did collapse as a result of the tremendous impact of the influx of displaced persons but had expanded in many spheres.

OTHER MEETINGS

Two separate meetings were held by other political parties in Calcutta on Independence Day. While the Communists and members of the Forward Bloc (Marxist) held a meeting at Park Circus Maidan "on the occasion of Independence Day", nine Leftist parties including the Forward Bloc, the Revolutionary Socialist Party and the Socialist Unity Centre, held a joint rally "to condemn the anti-people rule of the Congress Government". The Praja Socialist Party was not represented at either of these meetings.

Speakers at Wellington Square meeting over which Shri Hemanta Kumar Basu, M.L.A., presided, wondered why "so much money should be wasted on the day's celebrations when hundreds of people are suffering from poverty, hunger and disease."

The meeting adopted a resolution urging the

A Century Of Struggle For Independence

COINCIDING with the Tenth Anniversary of Independence Day celebrations came off the Centenary Festivities of India's First War of Independence, the Sepoy Mutiny, 1857. As Bengal always took the lead in national movements, so the first shot of the movement was fired on the soils of this country. And happily the site was not far from this city. It was at Barrackpore within the compounds of a military cantonment. The first victim of the sepoy uprising was hanged. The spot where Shri Mangal Pande, the martyr in the 1857 movement, opened the first shot and which

The first day's programme started with a torchlight relay from the very spot at Barrackpore. Shri P. C. Sen, State Food Minister, was the first runner. It was received at the Gardens by Shri Atulya Ghosh, M.P., Pradesh Congress President, who placed it on a special stand. The Martyrs' Column was also raised in the exhibition, in this connection. A wreath was placed there in that morning by our Deputy Commissioner, Shri Lokenath Bal, of Chittagong Armoury Raid fame, as a homage to them.

In a pandal to celebrate the anniversary of Indian Independence, on the 5th August, Dr. Surendra Nath Sen, a noted historian, delivered an illuminated speech on the History of Freedom Movement beginning from 1857.

He said that it was true that the type of democratic independence now enjoyed in India was never conceived by the mutineers of 1857, but their main objective was to replace British administration by Mughal monarchy. Still its great contribution was that it had in later years inspired the revolutionaries and fighters for India's freedom, added Dr. Sen.

PRESIDENT CALLS FOR SACRIFICE

"Our country is up against some difficulties in marshalling adequate resources for implementing the Second Five-Year Plan. These difficulties, whatever their nature, are a challenge to our nation's resourcefulness and our people's determination to carry out the Plan in the interest of national development and the welfare of the country as a whole. I feel sure, and there is enough evidence to show it, that the Indian people will not be cowed down by any difficulties and that to a man the whole nation will rise to the occasion and make sacrifices so that a better, brighter and more prosperous India may be built.

"Let me remind you, men and women of India, that political freedom is not complete until it furnishes us with the means to acquire economic freedom also so that every citizen is guaranteed the minimum comforts of life and complete freedom from want. This transition from political to economic emancipation necessarily calls for determined effort and sacrifice of personal comfort for the sake of the nation's good. The testing time has come and India looks to each one of our citizens to do his or her duty honestly and conscientiously in this hour of trial. I have no doubt that we shall not fail to respond to this call.

"This day is an occasion for national rejoicing. Let everyone feel happy, cheerful and buoyant. I wish you all the best of luck and greater happiness and prosperity in the coming year".

—PRESIDENT RAJENDRA PRASAD

BROADCASTING HIS MESSAGE TO THE PEOPLE
OF INDIAN UNION ON THE EVE OF
INDEPENDENCE DAY

ultimately led to the countrywide struggle for freedom, has to-day become a place of pilgrimage to all. The Government has rightly declared the site as one of the monuments of treasure. A Sabeed Bedi has also been erected there. This was unveiled by Shri K. P. Mukherjee, a Minister of West Bengal in one of the days of celebrations.

In the 24-day celebrations of the West Bengal Pradesh Congress Committee, held at the Eden Gardens, commencing on the 3rd August last, centenary functions formed the major programme.

Exhibition and Expositions of old Relics

The Mutiny was commemorated through different functions mostly of exhibitions of the relics of those days. Even arts and paintings and sculptures were not left out. An exhibition of marble busts, paintings, engravings, documents and books relating to the Mutiny was opened at the Victoria Memorial Hall on Wednesday, the 14th August. Dr. S. N. Sen performed the opening ceremony. The exhibits numbered about 120.

Atkinson's original sketches of the campaign, some books on the Mutiny, published in 1858, and some documents in Lord Canning's handwriting were interesting exhibits. The swords which belonged to General John Nicholson and Lord Clyde (Sir Colin Campbell) were also on view.

AT INDIAN MUSEUM

An 1857 Centenary Celebration Exhibition, sponsored by the Academy of Fine Arts, was inaugurated at the Indian Museum by Shri Kalipada Mookerjee, Minister, on the same afternoon.

There were 101 paintings on show executed mostly by contemporary artists. A number of them related to personalities and events of the relevant period while others were on general subjects. Several were old works depicting places and scenes in the early British period in India.

Among the Mutiny paintings "Jawala Prasad as a Prisoner" by Kishory Roy, Arun Kumar Maity's "The Lady of 1857", Ganesh Pyne's "Mari Jhansi Nehi Dungee", Kalyan Sen's "1857" and Dipen Bose's "Fall of Jhansi" had some qualities of illustration.

In welcoming all Lady Rani Mookerjee, President of the Academy, said the selection of the exhibits had been made on strict standards. Stressing the importance of such exhibitions, she hoped that similar exhibitions on important periods of Indian history would be organized from time to time.

(Continued on Page 488 (c))

On the second day, a Reception was accorded to Dr. S. K. Mitra (sitting extreme left), while Prof. N. K. Sidhanta, who presided, sitting next to him. A medal was also awarded to Sm. Tinkoo Thakur for her superb play in 'Kabuliwala' film (sitting beside Shri Atulya Ghosh, M.P.). On the mike Shri Chabi Biswas, well-known artiste, who presented Sm. Thakur before the audience.

TWENTY-FOUR DAY CELEBRATIONS

MARKED with a unique exhibition the highlights of the celebrations and festivities at the Eden Gardens, of the West Bengal Pradesh Congress Committee included symposia on the achievements of the Party Government, both at the Union and the State levels, discussions and deliberations on the Nineteenth Century culture and traditions, during a period of twelve days prior to the Independence Day. Since that day the trends of programme included Receptions to important personages who have earned a name in their respective spheres along with short speeches delivered by them. The persons requested to preside over those functions were no less important. The twenty-four day celebrations commencing from the 3rd August, is scheduled to be concluded with a Juba-Utsav to be opened by Shri U. N. Dhebar, President of the Indian National Congress. Each day's programme ended with a cultural function. These were mostly musical soirees, performances of dramas, and so on.

During earlier days speeches were made by citizens having repute in the Nineteenth Century's culture and education. After Dr. S. N. Sen's comment on Sepoy Mutiny, Dr. Kalidas Nag delivered a lecture on 'Rabindranath and Bengal'.

Dr. Sashi Bhusan Das Gupta, Ramtanu Professor of Bengali Literature, Calcutta University, gave a learned speech on "The Nineteenth Century Bengal" on the 8th August in which he emphasized the background of the twentieth century national awakening which was the result of the nineteenth century traditions and culture. Another speech in an almost similar nature was delivered by Shri Chapalakata Bhattacharyya, Editor, *Ananda Bazar Patrika*, who on contributions of Bengali News Paper to the 'Indian Freedom Movement', eulogised that in the beginning of the nineteenth century it was Raja Ram Mohan Roy who first took upon himself the task to start a crusade against all sorts of narrowness and conservatism. He laid the foundation of the freedom of conscience of the Indian people. In this task, he was followed by stalwarts

like Vidyasagar, Iswar Gupta, Bankim Chandra, and Mahatma Sisir Kumar Ghosh and Motilal Ghosh. Iswar Gupta was the first who openly preached in his 'Sangbad Provakar' the need for political significance of freedom. In the same breath he recalled the most selfless role played by Krishnadas Pal, Harish Mookerjee, Bipin Chandra Pal and Naren Sen. Journalists like them sacrificed themselves at the altar of freedom.

Another speaker of that day Shri Tushar Kanti Ghosh, Editor, *Anrita Bazar Patrika* said that the Indian language newspapers had played a vital role in bringing independence no doubt. But its vital force did not end with the achievement of independence. On the other hand, newspapers in free India would have to play a more vital role in consolidating that hard-won freedom.

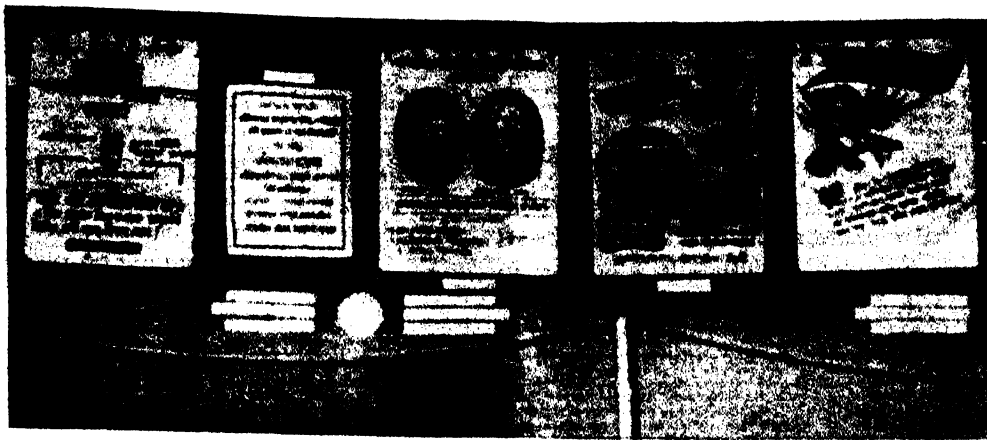

The Independence Week celebrations was formally started from the 15th August when a book 'Mahapran Harendra Coomar' was published. The announcement was followed by speeches by Shri Tarasankar Banerji, the eminent Bengali novelist, and Dr. Nihar Ranjan Ray on social and cultural changes since India's first struggle for freedom.

Professor Sisir Kumar Mitra, the well-known scientist, was felicitated by the Pradesh Congress Committee at a function held on the 16th August. Prof. N. K. Sidhanta, Vice-Chancellor, Calcutta University presided.

Professor Mitra is a pioneer in research on radio electronics in India and has founded several research schools on the subject. The Institute of Radio Physics and Electronics under Calcutta University was opened in 1949, primarily through his efforts. His research on the Ionosphere has made him an authority on the subject.

A gold medal was also awarded to the child actor, Tinkoo Tagore, for her role in "Kabuliwala" on that day.

Seventyfour brilliant students who won distinction in different examinations this year were felicitated by the West Bengal Pradesh Congress Committee at the same morning at Ranji Stadium.

Some of the events of the Nineteenth Century Bengal displayed through posters in the exhibition.

PHOTO: PROF. A. ROY CROWDHURY

The Mayor Dr. Triguna Sen gave away a cash price of Rs. 25 for purchasing books and a fountain pen to each student. Rai Harendranath Choudhury, the Education Minister, presided.

Receptions were accorded to Kabi Sekhar Kalidas Roy, a popular poet and litterateur, and one who has enriched the Bengali literature by contributing to varied subjects, and to Prof. Sailaja Ranjan Roy of Vidyasagar College, Calcutta, as a noted cricketer of Bengal during these days. Shri Atul Bose, the famous artist, whose realistic portrait painting has become unparalleled, and whose fame has spread beyond the seas was also given a Reception. Among the others recipients were Natyacheryya Naresht Mitra, a powerful actor in the

Bengali stage and Sangitacheryya Krishna Chandra Dey, a bright star in the musical horizon of Bengal. Besides, days were fixed for the children and the women who themselves conducted their own business and thought of improvements in their own spheres.

The week was concluded with a speech delivered by Shri Sankardas Banerji, Speaker, State Legislative Assembly, on the 'Constitution of India' with its aspect for a progressing country like India. The drama staged on the occasion, namely Tara-sankar Bandopadhyay's 'Arogya Niketan' by Biswarupa, Surat Chandra Chatterjee's 'Charitrahinc' by Calcutta Artistes' and 'Lal Bag' by Congress Sevadal, deserve appreciation.

A CENTURY OF STRUGGLE FOR INDEPENDENCE

(Continued from Page 438 (a))

Prof. Dr. Nihar Ranjan Ray said that paintings and other documents and books, which were rare but had great historical importance were available with several organizations in Calcutta.

AT NATIONAL LIBRARY

An exhibition on the 1857 revolt, organized by the National Library, was opened by Dr. S. N. Sen at Belvedere on Friday the 16th August last. Consisting of books, records, paintings and sketches and comments from several contemporary British journals, the exhibition undoubtedly had great interest, especially for students of history.

The most interesting documents of the exhibition was the book corner. Among the books there were publications as old as of 100 years. The book on the Bengal Mutiny, published in 1859, illustrated with drawings on how the revolt was met by the British authorities and the extent of vengeance indulged in showed a glimpse of hatred that the great upheaval generated. A book of 52 stories of Indian Mutiny by Alfred Miles and published in 1894 was also an interesting addition.

In a foreword to a Brochure published on the occasion Maulana Azad—Education Minister of the Indian Union, has said: "In the fight for freedom, Hindus and Muslims stood shoulder to shoulder. Their common effort was to liberate themselves from the British yoke."

Dr. Sen in his speech maintained that it was not the first war of independence. Wars had been waged against the East India Company almost since the beginning of its rule, though not on as large a scale as in 1857. The mutiny changed character from time to time. Initially, it was a mutiny

confined to the Army but later its character changed and it assumed political significance. The 1857 events served the cause of independence by leaving memories which inspired "our contemporary revolutionaries" he added.

Shri B. S. Kesavan who welcomed all, preferred to call it the first war of independence. In spite of rigid Army discipline a widespread revolt took place. Large numbers of people also revolted and thus it was a war of independence, added the Librarian.

MARTYR'S COLUMN AT BARRACKPORE

While unveiling a martyr's column, built by West Bengal Government at Barrackpore Shri K. P. Mukherjee, the State Home Minister, referred to the sacrifices made by the sepoys in 1857 and said that the examples set by Mangal Pande, Iswar Pande and their comrades inspired subsequent generations in their fight for the country's independence. Freedom has been won, the Minister added, the people should dedicate themselves to the building up of a prosperous India.

A large gathering attended the ceremony.

A. I. R. CALCUTTA

On August 14, Dr. Pratul Chandra Gupta of the Calcutta University, narrated the story of the revolt in a talk in English entitled "The Saga of 1857" in the night's programme of the A. I. R. Calcutta.

A programme in Bengali about the story of 1857 in contemporary literature and folklore was broadcast by Shri Premendra Mitra, Shri D. N. Mithawlia and Sri Shafi Nishat another day.

The last talk on "The Saga of 1857" was delivered by Dr. S. N. Sen from the station on the 16th August.

A MARCH

(By SHRI P. C. SEN, Minister, Government of West Bengal.)

We have completed to-day, August 15, ten years of Freedom. The day is historic because it witnessed the consummation of the aspirations of millions of people for over a century to attain complete freedom. On this day our mind naturally turns in humble obeisance to those martyrs who laid their lives for the freedom of the country, to those great personalities who by their sacrifices made the dream of Independence a reality.

Freedom came to the people of West Bengal at a very critical time. Partition of the country only intensified the crisis. With the people's co-operation we have so far boldly confronted the problems that have arisen. But to over-come this crisis completely, we must struggle hard with devotion and skill.

The successful implementation of the First Five-Year Plan has ensured our progress. The call for making the second plan successful has also come. In this context, a resume of the country's achievements during the past ten years may not be quite out of place on the occasion of the Anniversary of Freedom.

In the sphere of education,—the country has made rapid strides. In 1947-48 the number of primary schools in the State was about 14,000. This figure stood at over 23,000 in 1956-57, and the number of primary school students increased from 12 lakhs to 22 lakhs during the last ten years. Similar progress has been recorded in the secondary and collegiate education. In 1947-48 the number of secondary schools in the State was 1,903 and the number of students reading in the schools was 3,29,063. The number of schools increased in 1956 to 3,170 and the number of students to 6,77,689. The number of students in the collegiate stage increased from about 42,000 in 1947-48 to over 87,000 in 1955-1956.

In the sphere of public health, there has been almost a record progress in the matter of reduction in the death rate from 18.1 to 8.2 per thousand during the Five-Year Plan period. The number of hospital beds in 1948 was 13,472. This increased to 18,645 in 1956. Two hundred and eighty two health centres have been set up in the rural areas with provision of 3,300 beds. Provision has been made for 1,280 beds for T. B. patients at Kancharapara and Digri.

In the sphere of industries, greater emphasis is being laid on labour intensive cottage and small-scale industries because of the acute unemployment problem in this country. During the First Five-Year Plan, Rs. 1.19 crore was spent for the development of handloom, conchshell, brass, bell-metal and other cottage industries of the State. Under the Second Five-Year Plan, provision has been made for Rs. 7.74 crores for the development of cottage industries in the State.

The importance of large industries has, however, not been overlooked. The preliminary arrangements for setting up the Iron and Steel Industry at Durgapur are under progress. The progress has also been made in the programme of establishing a Coke Oven Plant at Durgapur.

During the last ten years, 31.4 lakh refugees took shelter in West Bengal. A State with 808 persons per square mile can ill-afford to provide adequate land for the rehabilitation of all the refugees. From the records of house-building loans, small trade loans and others, however, it appears that about 22 lakh refugees have received Government assistance and nearly half of them have been fully rehabilitated. Of these, 96,358 have found employment through Government assistance. For the education of the displaced persons, Government have spent so far nearly Rs. 7 crore and the result has been quite satisfactory. In 1950 the percentage of

DR. H. C. MOOKERJEE'S BIOGRAPHY

WRITTEN by Shri Narayan Chaudhury Mahapran Harendrakumar is an illuminated life story of Dr. Harendra Coomer Mookerjee, one of the noblest sons of Bengal. Priced at Rs. 2.00 only the book contains a number of photos of the late Dr. Mookerjee as Governor of West Bengal. The author's attempt to describe the late Dr. Mookerjee's great and graceful personality, profound patriotism and abounding charities have come out successful. He has also painted the former Governor as teacher, writer, philanthropist and lastly as a true Christian. The early life as well as the private life of the late Dr. Mookerjee have been incorporated in it. In a word the book is comprehensive life sketch containing many events which were not known earlier to many of us.

Introducing the book to the readers Shri Atulya Ghosh, M.P., the publisher on behalf of the Pradesh Congress Committee, narrated the circumstances under which the book was written and how it was considered to be the best composition being judged by experts. Still we are to say that the material could have been treated in a better way by an established writer to make the book more interesting to readers than has been done. However, we wish a wider circulation of the book.

literacy had increased to 52.9. Paucity of land for the rehabilitation of refugees in West Bengal has induced Government to settle refugees outside the State. Among these schemes for rehabilitation outside the State, mention may be made of a decision to rehabilitate 27,000 displaced persons at Bettiah in Bihar and of the Dandakaranya scheme under which 80,000 square miles are proposed to be reclaimed for the rehabilitation of refugees.

Among other development schemes the completion of 3,000 miles of new road, the Greater Calcutta Milk Supply Scheme, Build your own houses scheme deserve mention.*

*Summary of a broadcast speech delivered from Calcutta Station on the 15th August.

AN EXHIBITION ON OLD BENGAL

WE congratulate the organizers of the Eden Gardens' Exhibition, and the public of Calcutta patronizing the same, on their enthusiasm in the show. Few suspected how so many genuine and valuable historical materials, documents, arts and crafts etc., would be so promptly collected and shown. The letters relating to Nana Saheb and others to be handed over by the people who rejected the British bribe of one lakh of rupees (1857) was visualized not only from the angle of Meerut and Delhi but of Barrackpore and Berhampore (1824) and earlier stages. Not only the arts of Murshidabad (silk and brocades) were shown but the very throne of the last Nawab Shirajudowla,—rehabilitated by Hindu historians like Akshoy Kumar Maitra. So the Calcutta Exhibition together with the Ranji Stadium lectures, forcibly and convincingly proved that Bengal—in spite of "Doctors' Dilemma" in recent historiography—sincerely believes—with the millions of Indians elsewhere—that 1857-59 marked the turn in our national history when Hindus and Moslems (may be ignorant of the western theory of Nationalism) shed their blood in that First War of Independence which, within 90 years, brought us real independence (1947) from foreign rule.

That note was significantly sounded by contemporary Bengali poets like Rangalal and Nabin Chandra. Their "Padmini" and "Palasyr Juddha", gave mass-education and Nationalism the supreme dynamic which progressively developed the Hindu Mela, the "National Paper" (financed by the Debendranath Tagore), the Indian Association (1876) and the National Congress (1885) with the renowned Bengali—W. C. Bonerjee—as the first President. Their personal letters and the belongings of those pioneers should be more thoroughly searched out, collected and shown to the public. Bengal now should take the lead in building a permanent Hall of Independence like the American Hall in Philadelphia, where those "souvenirs" should be displayed to perpetuate the memory of the Bi-centenary of our War of Independence (1757-1957).

I suggested this in the Special Exhibition of 1857 opened in our National Library, Alipore. Invited to preside over the function, attended not only by the citizens of Calcutta, but by distinguished representatives of foreign nations,—like China and America—I urged upon the historical need of supplying the "World background of the Wars of Indian rebellion and/or Independence."

America revolted (1776) against England after years of exploitation and humiliation of the Stamp Act and the Tea Duty etc. American rebellion (1776-1785) indirectly led to the French Revolution (1789-1799) and both furnished striking parallels and justification to many acts of the so-called Sepoy Mutiny (1857), which was preceded by the popular struggles against foreigners, in Bengal, Bihar, Orissa, Assam, and many other parts of India—not effectively shown in any Exhibition. Not feudal fights but popular defiances against the foreign East India Company—as we saw in the Santhal Rebellion and specially the Sannyasi Rebellion immortalized

by Rishi Bankim in his "Ananda Math" and 'Bande-Mataram' written before the birth of the National Congress (not Parliament) of India.

His contemporary poet Hemchandra wrote his "Bharat Sangit" (1870) which inspired thousands including the boy poet Rabindranath (1861-1941) who wrote two "seditious" poems attacking the mockery and cruelty of the Lytton regime (before 1878). Tagore returned from England in 1881 and witnessed the birth of the Congress; and his revered father Debendranath (1817-1905) contributed to the National Fund. In the Calcutta Congress of 1886 Rabindranath wrote in simple *raasprasaadi* tune the inspiring song

‘আমরা মিলেছি আজ যাদের ভাষে’

Rabindranath paid homage to Rishi Bankim (1838-1894) by setting tune to Bande-Mataram which he sang alone in the Congress pandal hypnotizing the large audience. He was the highpriest of Nationalism in our Swadeshi Days (1904-1910) composing tracts, plays, novels and songs not only strengthening our claims for independence but inspiring our youths to die for Freedom. Bengal took the lead (1907), just 50 years after the so-called Mutiny of 1857, which was sympathetically reviewed (not by the British) by the Continental thinkers led by Karl Marx, long before the cult of communism.

Alas, the freedom movements in Belgium (1830) in Hungary and Central Europe (1848), in Italy and Germany, what to speak of America and France in the 18th century—were not remembered or documented by the organizers of the 1857-1957 Exhibition and Celebrations. But the war of our Independence continued till 1859 and thus within two years we may yet lay the foundation of our Hall of Independence dedicated to our national martyrs and to the martyrs of All Nations, justifying our National Anthem

‘জন মন অধিনায়ক জয় হে
ভারত ভাগ্য বিধাতা’

Conveying my best wishes to all those who worked nobly so hard to make the Centenary Celebration a success—including the Youth Festival (Yuva Jayanti) where our beloved Chief Minister Dr. B. C. Roy takes the salute, I hope and pray that in the big planning of the Calcutta Stadium the planners should make provision for the first Hall of Independence of Asia in our cosmopolitan city of Calcutta. American and French architects of world renown will gladly co-operate with our Indian architects so that we may build for the countless coming generation an Exhibition, a Folk Theatre Centre Auditorium and a Library etc.—all integrated into Bengal's National Stadium. That alone would give a permanent shape to our floating aspirations behind the National Celebrations (1857-1957) sponsored by the Central and State Governments.

The West has erected stadia which baffle the imagination of many in the East; but the People's Republic of China has shown the way and Free India should not vacillate with paltry details of

(Continued on Page 440)

Calcutta Municipal Act Before And After Independence

[Shri Chandra Sekhar Bhowmick, Councillor, Calcutta Corporation.]

RASTRAGURU Surendranath Bandyopadhyaya, the father of Indian Nationalism, was the author of the Calcutta Municipal Act, 1923. The Calcutta Municipal Act, 1923, meant for the better and efficient administration of the city, owed its life to Surendranath, as a Minister for Local Self-Government. Surendranath had given practical shape to his dream for democratizing the administration of the then second greatest city of the British Empire by wresting all powers from unwilling hands of the foreign masters and vesting the same in the elected representatives of the citizens. Deshbandhu Chittaranjan Das and Shri Subhas Chandra Bose took up the management of the Corporation of Calcutta as the first Mayor and the first Chief Executive Officer to fulfil their ideals of the then leaders of Bengal,—nay of India. Thereafter Deshapriya Jatindra Mohan Sengupta, Deshgourab Subhas Chandra Bose, Dr. Bidhan Chandra Roy and other distinguished persons conducted the administration of the premier city of the East from the exalted Mayoral Chair and tried their level best to contribute to the welfare of the citizens of Calcutta within the limitations of the powers given to the Mayor and Councillors of the Corporation by the said Calcutta Municipal Act, 1923.

Ever since much water has flown down the Ganges; India has achieved independence in 1947, citizens of Calcutta have expected with ardent enthusiasm that with newly-earned freedom from foreign domination of about one-and-a-half century the city will be probed with new life and fresh inspiration so much so that Calcutta people will breathe a better atmosphere in enjoying civic amenities such as sanitation, habitation, education, culture, sports and amusements, hospitals, lighting, conservancy, water supply, drainage and in other respects as far as possible. While struggling for freedom from foreign control our hopes and aspirations amongst others were to convert the Metropolis of Calcutta into one of the finest cities of the world, —a centre of culture and learning, a centre of Indian Nationalism and civilization. Independence in the shape of transference of power from foreign ruler has come no doubt as a paper transaction, but desired destination has vanished in the smoky screen of tumults and uproars of selfishness and self-aggrandisement.

In the melee we have lost our actual perspective and main target. We shouted and shouted for a change in the civic administration—its root and branch during the foreign rule and we wanted to instal therein a more popular management of the civic affairs by the elected representatives of the citizens. A change has undoubtedly come but not in the desired way of the people. The Calcutta Municipal Act, 1923, has undergone overall change, lock, stock and barrel, with the result that our present rulers thought it prudent and wise for them to enact the present Calcutta Municipal Act, 1951, by giving a decent burial to the old Calcutta Municipal Act, 1923. By the present Calcutta Municipal Act, 1951 many democratic rights

and privileges have been snatched away from the rate-payers' hands ruthlessly. The elected representatives of the people have been rendered powerless and useless in shaping the destiny of the electors. The Commissioner of the Calcutta Corporation has been enthroned as a statutory autocrat with complete discretion "to drift hither and thither with every wind that blows." Accordingly, the Commissioner is a creature of the Statute, though actually clothed with unfettered authority in almost all important administrative affairs. He has been curiously bearded in his own den very often through extraneous influences. Even if any Commissioner has ardent and genuine desires to execute certain enterprising and ambitious plans within the bounds of his powers under the Act he cannot move to his better judgment. He will feel himself helpless if his projects and ideas do not get the approval of the State Government. Thus the Commissioner under the Statute feels handicapped at every stage. The much vaunted democracy has been given go-bye in one sense under the 1951 Act and the Corporation cannot any longer be called a self-governing institution. Thus the popular representatives have been robbed of the little powers possessed by them even before independence—without enlarging their rights and powers as expected in an Independent India. The Councillors have been rendered to the position of pious members of an Advisory Body with privileges to hurl heaps of instructions to the Executives left to the latter's choice to be followed in the usually leisurely manner and the Corporation has been converted into a debating society for exhibition of certain histrionic feats.

When the peoples' representatives can conduct the administration of India and shape their own policy and activities and management without any outside inspiration, then why Calcutta Corporation, a semi-autonomous body in the pre-Independence Days, should be robbed of democratic powers in the post-Independence days. It would be voicing the rightful demands of the citizens to say that Calcutta Corporation ought to be invested with autonomous character and be governed by the trusted and popular representatives by making suitable amendments to the present Calcutta Municipal Act of 1951.

—AN EXHIBITION ON OLD BENGAL

(Continued from Page 439)

funds and boldly begin building our first Hall of Independence of Man dreamt of by our great Pioneer Rammohan Roy (1772-1833) who solemnly celebrated the Freedom of Latin America (1821-23) by giving, in our Town Hall, a Banquet of Hope for the Freedom and Federation of Man in the East and the West.

The Calcutta Town Hall, so close to our Centenary Exhibition, is a symbol of that universal urge for and faith in Human Freedom.

Bande-Mataram !

WHAT SRI AUROBINDO FOUGHT FOR

[By S. CHOWDHURY]

SRI AUROBINDO

VERY few people have the power to understand and assess Sri Aurobindo's contributions towards the upliftment of India, and for the matter of that, the entire world. Nay there are many, and not an insignificant number among them, are our own nationals, who take him for an impractical visionary, deeply engrossed in his other-worldliness so long he held his mortal body in this our earth of constant strifes and tribulations.

An intellectual giant with his outstanding scholarly attainments from a foreign land he at one time appeared as a great luminary holding immense possibilities for the future of our country then gasping with its lacerated and afflicted heart under the domination of the British. And when this man had thrown himself headlong into the battle field of freedom, without any thought for his personal ease and comfort, people naturally entertained high hopes for their country.

Did Sri Aurobindo belie those hopes? That is the question that cannot be easily answered by those who have cloudy notions of this world and who have not developed inwardly to see things in their true perspective. They even put a counter question—Why did he secretly preach the cult of violence as a means to achieve the political emancipation of our country and why did he extricate himself abruptly from the movement of which he was the guide?

VIOLENCE & NON-VIOLENCE

In some quarters, on the contrary, the idea goes that Sri Aurobindo was a pacifist, that he was against all violence and that he denounced

terrorism, insurrection, etc. as utterly unnecessary in his scheme of things. Was he then a forerunner of the gospel of non-violence—*Ahimsa*? To this Sri Aurobindo's own answer is that he was "neither an impotent moralist nor a weak pacifist." Sri Aurobindo was never against violent revolution, if it was necessary for his purpose. If he had not believed in its efficacy and had disliked it he would not have joined the secret society whose purpose was to prepare a national insurrection.

Dynamic nationalism with complete and absolute independence as its aim had been the ideal of Sri Aurobindo who constantly insisted on it through his writings in the *Bande Mataram*. Naturally he could not side with the then Congress that stood for its policy of prayer, petition and protest. In this his aim he fortunately found in Lokamanya Tilak a powerful ally. They together fought for this ideal, brought the Congress from its depraved proclivity to the progressive extremist fold and moulded it to its revolutionary shape.

AUGUST 15.

On this day Sri Aurobindo was born.

On this day also was born the Free and
Renascent India.

The strange coincidence of the two great events
bears within it a special significance
for the glorious India that is yet to emerge.

August 15 shines, and will be ever shining,
in the pages of Indian History.

In blissful reverence, on this auspicious day,
we bow to the Mahayogi Sri Aurobindo,
we bow to Mother India,
and we bow to the Supreme Being That
guides the Destiny of this World.

—EDITOR.

In his public activity Sri Aurobindo adopted non-co-operation and passive resistance as a means, but not the sole means to achieve his end. Secondly, he simultaneously maintained a secret revolutionary activity as a preparation for open revolt, in case his former method proved insufficient for his purpose.

An armed insurrection, according to some, against the all-powerful British Empire as it stood then, was an impossibility, and if it were ever to happen, it was bound to be crushed. So, they ridiculed it as a wild phantasy—a chimera. But Sri Aurobindo never swerved from it but clung to it, not to satisfy a whim of his egoistic self but to obey the will of the Power Beyond that guided his destiny. And what followed the subsequent history vividly tells.

HIS MISSION

Sri Aurobindo believed that he had a mission to work, and it was the will of the *Brahman* that he should work out the salvation of his own country and re-establish it in its pristine glory so that she might lead the world to a higher fulfilment.

In his prison-cell in the Alipore Jail, in calm seclusion, when he was put on trial, he had this realization about India:

"She does not rise as others do, for self or when she is strong, to trample on the weak. She is rising to shed the eternal light entrusted to her over the world. India has always existed for humanity and not for herself and it is for humanity and not for herself that she must be great."

When he came out of the Alipore Jail after his acquittal he found that he had done that part of the work which his Supreme Guide had willed he should do, and was preparing himself for a greater job that awaited him. For, his countrymen had, by this time, learnt to shake off fear and were ready to stand for any sacrifice that could be demanded of them.

As his advent in politics, so his departure therefrom was a strange phenomenon. He retired one day in response to a call from within to Pondicherry, a far-off seaside place from Bengal, where he sat for his *sadhana*—his Yoga, later called the Integral Yoga, and apparently lived as a spiritual recluse up to the last day of his life. Many of his countrymen, even some of his associates, then accused him of escapism and loudly complained that he had left them in the lurch only to live a life of spiritual inactivity.

But he was not to be judged by ordinary human standards. His retirement from the political field was a prelude to another great adventure of his—a deep plunge into the spiritual domain to get at the ultimate Truth of our existence.

NEXT EVOLUTIONERY STAGE

The gist of what Sri Aurobindo realized as his life-long spiritual experience is:

The world is not an illusion. It has been created with a purpose and the Supreme Force that guides it will lead it through evolution to its ultimate goal. Evolution embodies in itself the process of transformation. From matter to man with a mind has been known as the highest development so far. Now the time has come when man will have to rise above mind to go to the Supramental Plane to effect the next evolutionary stage which, according to Sri Aurobindo, is inevitable.

Mind with its intellect and ego is not free from conflicts and confusions. So a new light will have to come to throw its lustre over our mind, life and body so that they may undergo a complete change.

Though inevitable, should we have nothing to do except to wait for the day of inevitability? But that may take millions of years, says Sri Aurobindo. We can hasten this process by our individual efforts, if we have only the will and the

aspiration to rise above the ego-centre to seek the Grace of the *Brahman*. If we are sincere the progress is sure to come.

Here in his spiritual search for Truth Sri Aurobindo was also fortunate to have a powerful associate who is called the Mother of the Pondicherry Ashram. How tremendously they fought, how terribly they suffered for this Truth! Thus describes Sri Aurobindo their sufferings to one of the Ashramites at Pondicherry:

"As for the Mother and myself, we have had to try all ways, follow all methods, to surmount mountains of difficulties, a far heavier burden to bear than you or anybody else in the Ashram or outside, far more difficult conditions, battle to fight, wounds to endure, ways to cleave through impenetrable morass and desert and forest, hostile masses to conquer—work such as, I am certain, none else had to do before us.

But it is not necessary, nor tolerable that all that should be repeated over again to the full in the experience of others. It is because we have the complete experience that we can show a straighter and easier road to others—if they will only consent to take it."

THE SUN-LIT PATH

Sri Aurobindo has showed us the sun-lit path to follow so that we may have a life of fullness and richness. But how many of us have the aspiration to do it? How many have the patience to see through its manifestation? How compassionate Sri Aurobindo was even to those who could not sustain for long the patience needed or repeatedly failed because of a frail mind!

"Well, it is for them I am putting forth all my efforts to bring down the Supramental Force within a measurable time. I know that it will descend but I am seeking its near descent and, with whatever dark obstruction of the earth-nature or furious inroads of the Asuric Forces seeking to prevent it, it is approaching the terrestrial soil. The Supramental is not, as you imagine, something cold, hard and rock-like. It bears within it the presence of Divine Love as well as the Divine Truth and its reign here means for those who accept it, the straight and thornless path in which there is no wall or obstacle, of which the ancient Rishis saw the far-off promise."

Such are the assuring words of Sri Aurobindo, a spiritual revolutionary too, who not only spoke of this great hitherto unknown Truth but also manifested it in his own life.

Those who have eyes to see may have the glimpses of things grandiose clustered in a harmonious link even in the present tussle and turmoil of this tormented world which does not apparently present any new possibility that is spoken of by Sri Aurobindo. But we should remember that that is only a passing phase of the night before the day dawns.

Supramentalisation is not a vain word reflecting only an illusory image of a phantasmagoria, but the inevitable next step towards the growth of the human race.

The Mayor, Dr. T. Sen takes salute of thousands of boys and girls at the March Past Ceremony.

PHOTO: A. B.

Sri Aurobindo Abirbhav Utsav In The City

SYNCHRONIZING with the day of the birth of Free India, came off the Eighty-fifth Birthday of Sri Aurobindo, the seer and saint. His messages are now-a-days a guiding star to the people of India.

Day-long functions were arranged by different organizations in order to fulfil many of the ideals preached by that great saint. There were meetings to discuss the preachings of Sri Aurobindo. A 'Message' from the Mother was also read in one of the functions.

The All-India Radio, Calcutta Station, also arranged a special programme on the occasion wherein teachings of Shri Aurobindo were discussed. Recitations were also made from the writings of Sri Aurobindo.

IMPRESSIVE MARCH PAST CEREMONY

The most interesting function which attracted thousands of citizens was Sri Aurobindo Physical Demonstrations held at the Aryan-Mohammedan Sporting Ground in the Maidan on that afternoon. The March Past Ceremony was most colourful. The Mayor, Dr. Triguna Sen took the salute. The programme included, among other items, P.T. drills, Yogic exercises, lathi and dagger play, gymnastics and best physique contests. About one thousand school boys and girls, attired in multi-coloured dresses heralded by melodious band play formed the most impressive feature of the function. The March Past was participated in by different schools for both boys and girls, the competitors circled round the ground to the hilarious applause from all sides.

The whole programme on that day was conducted in a perfectly disciplined way for which Dr. S. K. Mitra, the Administrator of the Board of Secondary Education, showered praise on the organisers. Deeply impressed, Dr. Mitra who inaugurated the function, said that the Board of Secondary Education would have functioned better had there been such a perfect discipline among the personnel as was evidenced among the school children.

Dr. Nalinakshya Sanyal, the Chairman of the Organising Committee, conducted the rally.

Prizes were distributed to the successful candidates who contested in many of the physical feats. Both boys and girls participated in the competition.

"MOTHER'S MESSAGE"

With a view to preach the ideas and ideals of the Savant of India a public meeting was organised at the Lake Maidan, in the southern part of the city in the afternoon.

In the morning the Mother's Flag was hoisted at the venue of the meeting. Children from different parts of the city came in a route march to the place in the afternoon.

A message sent by the Mother from Pondicherry on the occasion was read at the meeting. The message states: "Heralding the birth of a new world, we invite all those who want to have a place in it to prepare themselves sincerely for it."

In a brief speech Shri Mani Bishnu Choudhuri pointed out that Sri Aurobindo had not renounced the world in search of truth. Practising 'yoga' for nearly 25 years in a room at Pondicherry he discovered the true path of salvation and later he gave his message to the world.

Shri Promode Kumar Sen, who presided, said that a cold war was going on all over the world at the present moment. The world would be saved from the danger if the teachings of Sri Aurobindo were followed. 'Sri Aurobindo had realised and showed to the world, how peace could be maintained', the speaker added.

OTHER FUNCTIONS

Sri Aurobindo Pathamandir celebrated the Savant's Birthday at its premises at 15, College Square. There were two sittings at which a programme was gone through, Dr. Sadananda Bhaduri presided.

The celebration was marked by holding an Exhibition at Theosophical Society Hall, College Square. It lasted for a week.

Shri Aurobindo Parishad held another meeting at the University Institute Hall on Saturday, the 17th August. Shri N. C. Chatterjee inaugurated the function. The speakers included Dr. Kalidas Nag, Shri Hemendra Prasad Ghosh and others.

CITY NEWS PARADE

OBITUARY: Prof. Girindra Nath Chatterjee, a former Head of the Department of English, Hooghly Mohsin College, died on Sunday, the 18th August, 1957, at his residence at 15A, Paddapukur Lane, Bhowanipore. He was 81. As a teacher he was most popular. A large number of students were attracted to his amiable behaviour.

The death of Shri Haridas Kar, a retired Headmaster, Mitra Institution, Bhowanipore, took place on the 14th August, last, at this residence at 5B, Sailendra Halder Street, Kalighat. He was 77. The death came after a protracted illness.

He was connected with the University of Calcutta and other educational institutions for years together. He was an Hony. Magistrate for a long time. He served the Mitra Institution, Bhowanipore, for about 42 years and retired in 1949.

A BURMESE TRADE DELEGATION being invited by the Government of India, reached the city from Rangoon on Sunday, the 18th August, on a fortnight's visit of this country. Led by Mr. U. Ba Maung, it consisted of six members, including two women. They represent the Union of Burma Joint Venture Corporations set up by the Government to carry on export and import trade on a substantial scale.

At Dum Dum, Mr. U. Ba Maung, said that the delegation would be particularly interested in textiles, electric goods, hardware and building materials. The volume of imports of these goods from India would depend on the competitive price and the quality of the products. They, in turn, could give India seed potatoes, rice and pulses.

SECRETS OF AERONAUTICS were disclosed through demonstrations at Dum Dum airport on Friday, the 16th August to several thousands of school and college students. They were given all about flying. Officials of the Corporation at the airport explained to the students the working of the various departments. The students were shown round the passenger reception, reservation and teleprinter sections at the Corporation office, Hindusthan Buildings.

The Corporation operated 15 flights to give opportunities to about 500 students to fly over Calcutta.

FIVE-DAY SYMPOSIUM ON AMERICAN LITERATURE jointly sponsored by the USIS, Calcutta and the Jadavpur University lasted in the Asiatic Society Hall, Park Street, from the 19th August to 23rd August. The discussions were participated in by two prominent American literary scholars. Mr. Berryman, Professor of Humanities, University of Minnesota, and Dr. Howard Munford, Professor of American Literature, Middlebury College, Vermont. The symposia were also presided over by Prof. N. K. Sidhanta, Dr. Srikumar Banerjee, Prof. Buddhadeva Bose and Prof. R. Marshall.

Prof. Berryman and Dr. Munford, now in India under the U. S. Government's Exchange of Persons Programme, have lectured in Poona, Cuttack and Patna on American literature. They will also address American literary symposia in Ahmedabad, Nagpur and New Delhi.

A distinguished poet and biographer, Prof. Berryman is author of "Poems", "The Dispossessed", and "Stephen Crane." He has been honoured with several literary awards among them Levinson Prize of Poetry magazine, Shelley Memorial Award, and Harriet Monroe Prize for Poetry.

In the history of American civilization Dr. Munford received his Doctorate from Harvard University. An

authority on the works of Henry Adams, an important 19th-Century American author, he has a specialized knowledge of the wide field of American literary realism.

SOCIAL CRIMES: Four persons, including two partners of a fair price shop in the Belgatchia area were arrested on Saturday, the 17th August last, on a charge of removing from the shop two bags of rice meant for fair distribution. In the same area that day the police seized two lorries, loaded with about 336 maunds of soft coke and which had no valid permit. Three men, including the driver of one of the lorries, were arrested.

ABANINDRA NATH TAGORE'S 87TH BIRTH DAY was observed in the City on Sunday, the 18th August, through different functions. The function at Rabindra Bharati was most important wherein the President Shri O. C. Gangooly, said that Abanindranath was a man of outstanding genius. His works of art had an universal appeal and not confined to any particular country. His fame as an artist spread at a period when Indian art had lost all its pristine glory.

Prof. Charu Chandra Bhattacharjee, President, Abanindra Parishad, suggested that in order to popularise Abanindranath's works of art, an art museum wherein his collections could be permanently exhibited, should be established at Rabindra Bharati. He also suggested that reproductions of Abanindranath's paintings at comparatively cheap prices and a complete list of the great master's works should be published.

Dr. Kalidas Nag who was the Guest-in-chief, said that through his works of paintings Abanindranath had been immortalized. The renaissance that spread through the length and breadth of India late in the nineteenth century and early in the twentieth century had centred round the Tagores and Abanindranath had a major contribution to this.

Shri Promode Kumar Chattopadhyaya recalled Indian Society of Oriental Art's part in the development of art and culture in India. This institution was founded by Acharyadeb.

Earlier at a meeting held at the Rabindra Bharati on the 2nd August, with Prof. Charu Chandra Bhattacharya in the chair, a permanent body under the name "Abanindra Parishad" was formed. The main object of the Parishad is to undertake all types of creative and artistic works to propagate the life and works of late Abanindranath Tagore and other artists and literateurs having similar objectives.

In this connection a ten-day show of Abanindranath's hitherto unexhibited paintings and other works of art including his now famous "Katam-Kutum," articles of his every day use and copies of his books was opened on the occasion by the President, Shri Gangooly.

The exhibits were rare and highly interesting pieces of art. "Parrots' Training", a series of seven drawings arrested every visitor's eye. Shri Chaitanya's ecstasy at a Kirtan dance and Janmastami are two of the exhibits in colour pleased every lover of art.

A COMET WAS VISIBLE to the naked eye in Calcutta on Friday, the 16th August, 1957, after 7 P.M. when it was sufficiently dark. It was seen in the north-western sky about 30 deg. above the horizon. It set after nearly three quarters of an hour. The tail of the comet was pointing upwards and was inclined towards the north. It was about 5 deg. long. The head of the comet had the brightness of third magnitude.

The comet Arend-Roland, which appeared 3½ months ago, could not be seen in the city due to atmospheric haze, cloudiness, lights in the city and the moonlight. A comet was last visible to the naked eye in November, 1948. It was seen in the early hours of the morning. It had a tail 8 deg. and was somewhat brighter than the present comet.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 27th August, 1957, upto 2 P.M.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. on the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P. I. Works may at the discretion of the Commissioner be forfeited.

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates :—15 minutes—Two annas. $\frac{1}{2}$ Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law.
Supt., S. S. Hogg Market.

VIEWS AND REVIEWS

DR. J. B. S. HALDANE'S LETTER

'In reply, let me say that my wife and I look forward to being citizens of Calcutta as well as of India. In particular my wife says that she feels *at home in Calcutta as she does in London*, but not in many European or American cities, and some Indian ones.' This has been written by Dr. J. B. S. Haldane, the world famous scientist, when a letter of welcome was sent to him on behalf of the Corporation. Dr. Haldane are at present residing in the premises of the Indian Statistical Institute, Barrackpore Trunk Road, Baranagore, in the outskirts of the city.

The letter further said:—

'I must confess that I do not feel *at home* anywhere, at least in this present world, but I expect to be *quite happy in Calcutta*, particularly in this Institute.'

The Corporation's letter to Dr. Haldane, sent by the Secretary, Shri B. Ghosh, stated as follows:—

I have been directed by the Corporation of Calcutta to convey on behalf of the Corporation and the citizens of Calcutta their sincere greetings and hearty welcome to you and Mrs. Haldane on your decision to make India your permanent home and your selection of this City as the place of your residence. It is a great pleasure and privilege and matter of deep pride for the citizens of Calcutta to have in their midst such eminent personalities of world renown.

It may be recalled here that the Corporation at its weekly meeting on the 26th July last, extended hearty welcome to Dr. J. B. S. Haldane and his wife Dr. Helen S. Haldane on their emigration to this country. The proposal was made by Councillor Dr. K. P. Ghosh.

CORPORATION'S DEVELOPMENT SCHEMES

Calcutta Corporation will soon go ahead with many of its development projects and schemes.

There were several others for which sanctions had been obtained and loans raised earlier. But these could not be implemented due to various reasons. Shortage of personnel is the main factor and for which difficulties have been experienced both in the past as well as in the present. This has caused much headache to the authorities as well as to the citizens.

The Mayor, Dr. Triguna Sen, himself has taken a special initiative in implementing many of the projects. At a special conference, recently held, at the Mayor's Room, Central Municipal Office Buildings, discussion was made and suggestions were put up to execute them.

At the weekly Corporation meeting on the 30th August, the Deputy Mayor read a statement by the Mayor on the progress of the Corporation's Rs. 2.25 crore scheme to augment water supply and drainage which had been forwarded to the Centre.

The statement runs as follows:—

The Corporation of Calcutta prepared a plan for augmentation of water supply and drainage amounting to Rs. 2.25 crores. The scheme was approved by the State Government and was forwarded to the Central Government. The Union Government accepted the scheme and accorded their sanction assuring that money would be provided in the Second Five Year Plan. Unfortunately, no fund was provided in the Central Budget during 1956-57 nor in 1957-58. At the request of the Corporation, Central Ministry, however, agreed to provide necessary funds to carry on the projects of the Scheme. The Union Government have asked for the details of the Plan to which the Chief Engineer had replied and the scheme was generally agreed upon.

It is known that the Corporation is just maintaining its services with shortage of its Engineering personnel as many posts were not being filled up by Municipal Services Commis-

sion. The members of the Standing Finance Committee as well as the Mayor were keen to go ahead and tried how it could be done by allotting additional work to existing staff. The Committee considered the suggestion of the Chief Engineer if the Deputy Chief Engineer could be relieved of his normal duties and be asked to carry on with this important development project under the Chief Engineer.

Nearly seventy-five per cent. increase in the daily rate of consumption of filtered water and coverage of nearly double the present area with a system of sanitary sewerage are envisaged in the Corporation's schemes which, have been agreed upon to 'in principle' by the Public Health Engineering Organisation of Government of India, according to the Mayor's statement.

The scheme for augmentation of water supply envisages increasing the daily output of filtered water to 140 million gallons a day, against 80 million gallons at present. Under the new scheme, there are proposals to instal additional rapid gravity filter plants and to undertake auxiliary items of work. This, it is estimated, would increase the rate of daily consumption to about 37 gallons per head, for a population of about 4 millions using filtered water. Besides, the present supply of drinking water of about 80 million gallons from the Pulta Water Works, about 10 million gallons from tube-wells are obtained. The present rate of consumption thus comes to about a little more than 20 gallons per head.

The scheme for improvement of sanitation covers extension of sewerage in unsewered areas, expansion of the capacity of pumping stations and conversion of a portion of open storm water channel from Palmer's Bridge into twin barrel sewerage. So it is estimated that some 17 square miles of nearly 32 square miles of the city area are sewerred. The present proposal of the Corporation is to extend the system to unsewered areas also.

ASSESSMENT PROCEDURES

At the weekly Corporation meeting on the 23rd August last, Councillors were critical of the work in assessing valuation of buildings and premises.

Drawing the attention of the House, Councillor Purnendu Sen Gupta said that the Corporation had been following no hard and fast rule relating to assessment. He said that there were discriminations in the assessment of premises. While speaking that there was no method in assessing premises, Councillor Sen Gupta demanded a thorough enquiry into the matter.

In that connection Councillor Sushil Paul said that the tax on a bustee-dweller widow on Kashiswar Chatterjee Lane, had been raised from Rs. 1-10-0 to Rs. 24. Characterising this assessment as arbitrary one Councillor Paul also stressed the need for thorough inquiry into the method of taxation. He alleged that Corporation did not follow any systematic policy in assessing buildings.

Really speaking, assessment procedures have been a subject of criticism ere long, even the Calcutta Municipal Act, 1951, did not satisfy either the Councillors or the rate-payers in this regard.

It is hoped, that when the new amendments will be put up before the State Government soon some modifications are sure to come in this procedure.

COUNCILLOR RANAJIT MITTER

Councillor Ranajit Coomer Mitter, the present Deputy Leader of the U. C. C. Group in the Corporation, has been nominated by the leftist political parties to fight a Legislative Council seat representing 24-Parganas-cum Calcutta Local Bodies Constituency. The other candidate Shri Harendra Nath Mazumdar, a Congress nominee, is a member of the Alipore Bar. The vacancy has been caused by the death of Shri Hriday Bhusan Chakraverty. The election will take place during the middle of September. The electors would be the Councillors of the Corporation, Commissioners of 25 Municipalities in the district of 24-Parganas.

Thus there will be a straight fight between the two on a secret ballot system. In the weekly meeting of the Corporation on the 30th August, Councillor Mitter pointed out that this election, held on a secret ballot basis should be more free and fair than had been prescribed by the Government recently. He thought that Corporation would suggest to the Government for holding election on that line.

COUNCILLOR ROY'S BEREAVEMENT

We deeply regret to announce the death of the mother of Councillor Sushil Kumar Roy. The melancholy event occurred recently. She was a pious lady and devoted much of her time on religious pursuits.

The Corporation at its weekly meeting on Friday the 23rd August, last, mourned her death and sent its condolences to the members of the bereaved family. Two minutes' silence was observed praying peace for the departed soul.

We also extend our sincerest condolences to Councillor Roy and other members of the bereaved family.

DISEASES & DEATHS IN THE CITY

During the week ended the 17th August 1957 there were 17 attacks and 10 deaths from cholera against 33 and 15 the week before in the city. During the corresponding weeks last year there were six attacks and four deaths.

Small-pox attacks and deaths during the week were two and one against four each the previous week; the figures for the corresponding fortnight last year being 13 attacks and nine deaths.

There were two deaths from influenza against two the week before.

Tuberculosis claimed 34 lives against 40 the previous week, the figures for the corresponding weeks last year being 47 and 41.

Deaths from all causes totalled 699 against 765 the week before. During the corresponding weeks last year there were 640 and 663 deaths.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE SIXTEENTH ORDINARY MEETING OF THE CORPORATION, HELD ON FRIDAY, THE 23RD AUGUST, 1957.

SINKING OF TUBE-WELLS

At the outset, Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, referred to the sinking of tube-wells in a haphazard manner by the Corporation staff. He said that the sites for sinking tube-wells should be so selected as they might not create inconvenience to the implementation of Corporation plans and C. I. T. projects. In this connection he also cited examples where Corporation men, knowing fully well that there was a scheme to widen Madan Chatterjee Lane in the northern part of the city, had tried to sink tube-wells within the projected line.

The Deputy Mayor, Shri Keshab Chandra Basu, who presided, said that he would refer the matter to the Water Works Department for taking necessary precaution.

Councillor Samer Rudra also narrated another example in which the Water Works Department had made some statements which was far from actual facts. Replying to several representations made by the local people protesting against the removal of a tube-well from a scarcity pocket the department concerned had stated that the tube-well had been yielding good quantity of water after it was attended to by the Department's men.

The Deputy Mayor, however, assured the House that the matter would receive his immediate attention.

SANCTION OF A BUILDING PLAN DELAYED

Councillor Narendra Nath Sen, pointed out a case wherein the required sanction for constructing a building had been delayed due to the alleged neglect on the part of the City Architect's Office. In this connection he acquainted the House how an esteemed physician in the city Dr. G. Panza, an expert in Dermatological science, had been harrassed by the department since he, as one of the Trustees of a public body, sought sanction for construction of a building meant to be used as Dermatological Institute. Councillor Sen went far to say that the delay in getting sanction had denied the citizens for having such an institute in the city which pledged to start research work in that field of science.

The Deputy Mayor, Shri Basu, assured the House that the matter would be looked into and he requested the City Architect through the Commissioner to submit a report in this connection.

TRAFFIC ON KALAKAR STREET

State Buses plying on Kalakar Street, one of the busiest thoroughfares, in the city, generally cause much hardship to the pedestrians. Several street accidents also occurred during the month of April and May this year. Councillor Harinarayan Sadani in one of the previous meetings drew the attention of the House in this regard and requested the State Transport Authorities through the House to the effect that either the speed of the State Buses passing through Kalakar Street should be con-

trolled in order to obviate such accidents in future, or the Buses should be completely withdrawn from the street.

Replying to the communication the Directorate had informed the Corporation that State Buses were allowed to be driven over by the street on moderate speed as prescribed by the Commissioner of Police, Calcutta.

ROADS & FOOTPATHS

Drawing the attention of the House, Councillor Mihir Lal Ganguly emphasized that the foot-paths and roads in many places, remained unattended to for a long time. He wanted that they should be thoroughly repaired before the Pujas because during that time the pedestrian traffic would be much increased.

AN ALIGNMENT

The House, on the recommendation of the Standing Town Planning and Improvement Committee, sanctioned an alignment of a 20 ft. projected street in continuation of the existing 20 ft. wide public street within No. 14, Mandevilla Gardens connecting it with the proposed 30 ft. street within premises No. 7, Cornfield Road.

BAGBAZAR GHAT

"That the bathing ghats on both the sides of the Hooghly are being maintained properly and are repaired to from time to time when damaged by tidal actions," thus wrote the Secretary, Commissioners for the Port of Calcutta, when replying to a communication sent by the Corporation during May last. The representation was made by the Commissioner of the Corporation in compliance with an assurance given by the Deputy Mayor, Shri K. C. Basu in the House when Councillor Ranajit Coomarr Mitter in the Corporation meeting dated the 24th May last complained of accumulation of slimy mud and also of treacherous under-water pit falls at the foreshore of the Ganges near about the Baghbazar Ghat.

In reply to the alleged complaint that several fatal accidents had also occurred due to the fault of the Port authorities, the letter further stated:—

It might be pointed out that normally the river bed, all along the convex bank of a tidal river like the Hooghly, scours during the dry season and siltation takes place during the freshet months. The severity of bore tides in recent years has resulted in increased scour during the dry season to such an extent that, at times, the seasonal siltation during the freshets cannot make up the extent of scour that takes place. As a result of this scour holes are formed particularly in the vicinity of projections into the river such as bathing ghats located on a convex bank like Baghbazar. The House recorded the letter.

Youth Festival in the City.

ROUNDING UP the three-week long celebrations in connection with the Centenary of Freedom Movement and first decade of Independence, JUVA JAYANTI or youth festival was organized at the same pandal, Eden Gardens. Sponsored by the West Bengal Youth Congress the four-day Festival was inaugurated on Friday, the 23rd August, last, by Shri U. N. Dhebar, President, Indian National Congress, in presence of a large gathering. The function was also attended by the Union Minister, Shri Lal Baha-

dur Shastri, Shri Atulya Ghosh, M.P., who presided, and other important leaders.

An impressive March Past ceremony participated in by thousands of young students and girls formed the feature in one of the days' programme. The State Chief Minister, Dr. B. C. Roy and Shri Ghosh took the salute at the Aryan-Mahamadan Sporting Club Ground, Maidan.

The Festival was concluded with presentation of prizes to those successful competitors who took part in different features arranged on the occasion.

ACHIEVEMENT OF A SOCIALIST SOCIETY

Bringing into existence by the citizens of Free India, particularly by the youth, a new society where the individuals would be knit with one another by bonds of love and spirit of sacrifice, was stressed by Shri Dhebar, in his inaugural speech. This was, he stated, the summum bonum of the messages delivered to them by great Indians since the days of Indian Revolt of 1857, which set the first spark of Independence afire in this country. To become the worthy fellow countrymen of Gaurangadeva, Ramkrishna Paramahansa, Vivekananda, Rabindranath and Mahatma Gandhi the youth should learn their first lessons in the art of self-immolation and self-sacrifice, the President added.

Shri Dhebar began his speech with a reference to the freedom struggle of 1857, in which he said many people had sacrificed their lives to end foreign rule. The struggle's centenary reminded him of Tantia Topi, Nana Saheb, Maharani Lakshmibai and others. The struggle might have its excesses but the question of violence and non-violence had not been raised at that time.

Shri Shastri also urged the youth to develop a constructive approach towards the country's problems. He also warned them against the dangers of "false romanticism."

The inaugural function was followed by an elocution competition, a Gujarati folk dance presented by the Gujarat Kalamandir and a variety performance by college students.

The second day was devoted on discussions and deliberations. There was also another convention represented by the youth of West Bengal districts. The day's function ended with a cultural programme.

(Continued from page 463)

NEW TRUCK CHASSIS

The House, on the recommendation of the Standing Works Committee, accepted quotations for supply and delivery of Truck chassis numbering 16 for replacement purposes. Messrs. Auto Distributors Ltd., and India Automobiles have been selected as suppliers. They would be of Studebaker and Dodge make.

Quotations for supply of 36 Truck Chassis for additional services were also accepted, based on the same recommendation. These chassis would also be furnished by the same suppliers and of the same make.

The House also desired that the transactions would be on cash purchases.

A large number of school and college students and members of different organizations took part in a March Past held at the Aryan-Mohammedan Sporting Club ground, Maidan, on Sunday, the 25th August. The State Chief Minister Dr. B. C. Roy and Shri Atulya Ghosh, President of the West Bengal Pradesh Congress Committee took the salute.

At the March Past Dr. Roy urged upon the youth to the virtues of discipline. Once they acquired such qualities they could contribute effectively to the country's development.

The three weeks' celebrations concluded with a function at the Eden Gardens on Monday, the 26th August. Prizes were distributed to those who occupied first, second and third places in music, sports and other competitions which were a part of the Yuva Jayanti.

Speaking at the function Shri Ghosh, President of the Pradesh Congress Committee, who distributed the prizes, said that people from all walks of life had co-operated to make the celebrations a success.

SARAT BOSE ACADEMY

MUSIC SECTION OPENED

Citizens of South Calcutta will be happy to learn that a new centre for teaching music, both in Eastern and in Western methods, has been inaugurated under the auspices of the Sarat Bose Academy, Netaji Bhawan 38½, Elgin Road, Calcutta.

The inaugural function, which held recently at the Bhavan, was largely attended by the elite of the city. It was marked with a programme of demonstration of Rabindra Sangeet, under the direction of Shri Sailja Ranjan Mazumdar, Principal, Viswabharati Sangeet Bhavan. Both chorus and solos featured in that function being participated in by Shrimati Khama Gupta, Shri Prasad Sen, Shri Asoketaru Banerjee and many other artistes. Instrumental music tuned on Rabindranath also included in the programme.

Shri Mazumdar, who has been elected as the President of that section, through a speech, acquainted the audience the method to be followed there in imparting Rabindra Sangeet to the first learners.

Earlier, in welcoming all on behalf of the Academy, Sri Amiya Nath Bose, spoke on the objects and purposes of opening such a cultural section wherein music, one of the main branches of fine arts, could be taught to the students perfectly and correctly. He was also happy for having Father Awtoam, a master, both of Eastern and Western sciences of music, as the Secretary of that section. He hoped that intending students would derive much benefit by learning under his feet particularly of the Western branch of the subject.

"CITIZENS AND CORPORATION"

[By SHRI USHANATH SEN, Councillor, Calcutta Corporation.]

TO take up the pen with any pretension of carrying conviction to the citizens of this big city of bigger baffling problems is too big a task to be undertaken with any degree of complacency. Yet, there are moments when one feels urged for saying something for expressing what he feels on a subject rather than injecting his feelings into the public mind.

Without much *ado*, I admit outright that those staff of the Calcutta Corporation who have to come in daily contact with the public are the unhappiest of all; for they have to answer for the defaults of the staff of all categories, including such matters of high policy as exclusion from the budget provisions. Councillors, whose prerogative of pre-natal and post-mortem certification attracts them to indigents about to be born or buried or cremated, find themselves helpless as the general public would not listen to their remonstrances that in addition to the aforesaid fixed points the Councillors' statutory powers extend only to ineffective elocution during the Corporation meeting! In the unwritten constitution of the city the Councillors have another short notice obligation of presiding over local meetings, when celebrated ones intimate their inability at the last moment. And that exhausts the whole field of a Councillor's effectiveness!

In this state of confusion a short-sighted citizen often forgets that much of the squalid, unhealthy condition in the city and its environs results from his selfish, unlawful outlook. Unauthorised *khatahs*, unsanctioned constructions including latrines of the ancient origin, keeping intact condemned structures, throwing dirt, filth and even night-soil at all hours, everywhere on the public thoroughfare and was-

tages of filtered water are only some instances of avoidable nuisance, which like avoidable diseases grip the unscrupulous citizens. It is known to everybody how youngsters in any locality convert the streets into Football or Cricket grounds at all seasons and hours regardless of wheeled or pedestrian traffic. Can any Corporation employee or Councillor stop such things unless the residents of the immediate vicinity rise against those practices or, better still, persuade the delinquents to desist, packaging at the same time, their energies into healthier and lawful channels? Excepting pointing out duties to others can we sincerely say that we always do everything that is expected of us in the circumstances?

I hold no brief for Corporation employees. I do not say that they, as a lot, are incorruptible or that some are not already corrupted. That state of things unfortunately exists in all departments in our country. On this point I can do no better than repeat what I recently heard two friends saying to each other. A citizen was expressing his genuine surprise and indignation at a constable settling his dues with a trespassing peddler in the vicinity of some high officials. His lawyer friend stepped forward exclaiming "the constable must have been thinking at the same time of the almighty powers of Art. 226 of the Constitution." In my opinion, the delinquent constable should not have been so much optimistic. For, as it is, Administrative Courts following on a re-shaping of that ubiquitous Article are already having their ante-natal care in the proper Nursing Home. So what is wanted is not mutual recriminations but mutual understanding and a spirit of co-operation imbued with a sense of nationalism, amongst the people of all walks of life.

MARKET AT KIDDERPORE

In course of replying questions in the Loke Sabha it was learnt that negotiations had been going on for some time past between the Government of India and the West Bengal Government for transfer of the Orphananj Market, Kiddepore, Calcutta, to the latter. A decision in the matter is expected soon. In view of the considerable work load and very heavy rent collections, it was administratively found impossible to abolish the post of Superintendent of the Market.

Against an annual income of approximately Rs. 3 lakhs, Rs. 1.25 lakh were incurred on expenditure annually for the maintenance of the market. The rents were originally fixed in respect of a majority of holdings by the Collector, 24-Parganas, before the control of the market was taken over by the Central Government in 1942. Refixation of rent was made by the Central Public Works Department as applicable to private persons whenever the holdings were re-allotted.

INDIAN JOURNALISTS ASSOCIATION

MEMBERS OF FEDERAL EXECUTIVE COUNCIL

The following members of the Indian Journalists Association Calcutta, have been elected to the Federal Executive Council of the Indian Federation of Working Journalists in an election held on Sunday, the 25th August :-

Shri Dharendra Nath Das Gupta, Shri Adhir Chandra Banerjee, Shrimati Vidya Munshi, Shri Prafulla Ratan Ganguly, Shri Bhabesh Chandra Nag and Shri Sibdas Bhattacharjee.

-PUBLIC RELATIONS-NOT A 'BED OF ROSES'

(Continued from page 467)

Have we been able to retain that impression in the minds of our brothers and sisters in the rest of India? Possibly not. I am one of the millions who feel in the heart of hearts that we should no longer side-track the vital issues but be bold enough in our thinking and action. Criticisms alone will not help us any longer. We should sit round and find out solution of various problems in a cordial atmosphere. We must detect whose inactivity is affecting the name and fame of the master architects of the nation. My humble feeling on this big occasion of the Independence Day Celebration is that we have had enough recapitulation of the achievements of the past. We should not lose any further time but speed up. Let the achievements of the past be nicely printed and given to our children as tear-sheets from the book of world history. For us there is a sacred duty of rising upto the expectation of our contemporaries and fulfilling the desire of our forefathers. In our deeds and misdeeds, in our sayings and silence, we are making history everyday which may be put to an acid test by the citizens of to-morrow. Let us be more humane and depend more on our efforts than efficiency.—JAI HIND.

Public Relations—Not A 'Bed Of Roses'

[By Shri Mihirlal Ganguli, Councillor, Corporation of Calcutta, & Secretary, Congress Municipal Association]

I AM grateful to the Acting Editor of the *Calcutta Municipal Gazette* for kindly allowing me to contribute an article for the special *Independence Number*. I was asked to write on "Calcutta's Role in the Struggle for Independence," but, as I am neither a historian nor a political sufferer, I could not venture to take up the subject as suggested. Yet I shall love to read and learn it from authoritative writings.

I cannot resist the temptation of writing a few lines in the 'Gazette' on the need for improved public relations on behalf of the Calcutta Corporation.

As a child of the soil and now a grown-up citizen of Calcutta, with also the privilege to represent the rate-payers of Ward No. 10, I have got the opportunity of attending Corporation meetings, Standing Committee Meetings, Borough Committee meetings—all with a view to improving civic amenities for the rate-payers. During the last five months, I have felt that there is a missing link between the rate-payers and the Calcutta Corporation which ought to be restored immediately in the interest of all concerned. That can only be done through the medium of public relations work. It is true that the Corporation officials are trying their best to improve conditions in the city, yet it is everybody's feeling that things are not done so quickly as they should be. The reason for the delay or for some other difficulty is elsewhere and I do not intend to plunge into any controversy in that connection. I only respectfully appeal to the Mayor, the Deputy Mayor, Aldermen, Councillors and all the officials of Calcutta Corporation, high and low, to come into greater contact with the people, the rate-payers with whose money and for whose benefit Corporation is working for so many years. The representatives of the people cannot avoid their touch with the electorate, as every morning, noon and night they have to hear complaints and suggestions. The problems of the rate-payers are too well-known to all of us. Efforts are certainly being made to solve them. But at present there is no machinery which may keep the people informed from day to day as to what is actually happening inside the Corporation files regarding any suggestion, complaint, or scheme for improvement. We hear everyday that letters are not replied to. From the other side, we are told that if the officials have to reply to all the letters which they receive everyday, they will have to give up other work and sit down for unending correspondence. Could something be done to improve this situation? My humble suggestion is that a well-equipped Public Relations Department can certainly clear the misunderstanding between the officials and the rate-payers. Now we have to consider how to materialise this idea. It can be done in two ways.

I have no information as to how the existing Public Relations Department of the Calcutta Corporation is working. Assuming that it is working well within its limitations, it has to be expanded. We cannot afford to keep it confined within the four

walls of the Central Municipal Office Building. We have to take the Public Relations officials to the different districts of the Corporation and if possible to smaller zones created for the purpose of contacting more people more frequently than is done now. It may mean a lot of expenditure to the Corporation, which will frighten the Chairman and the Members of the Standing Finance Committee but in the greater interest of the people it should be done. Incidentally I may be excused if I mention that in the present-day world, public relations work is an important job for all serious-thinking people—either in the Government or in business. Even in India, where, we hear that progress is little compared to many other countries of the world, the Government and the business houses are very anxious to keep in constant touch with the people and the clientele. They are keen to know the difficulties and to find out ways and means to solve them. I fail to understand why the Calcutta Corporation which is responsible to so many millions of people should not maintain an efficient Public Relations Department which can tell the people how things are working. To sum up, I suggest, without meaning any offence to the existing set-up, a high ranking Public Relations Officer should be appointed immediately and for the purpose of this appointment assistance of some of the successful businessmen in the city should be sought for. I mean, the final selection may be made either by the Public Service Commission or by the Municipal Service Commission but during the selection, experts should be invited to sit on the board and help the Corporation in recruiting a competent Public Relations Officer who will conduct the affairs of the department without much scope for criticism. Under him Assistant Public Relations Officers may be appointed and posted at different district offices and sub-offices like Cossipore and Tollygunge. If these officers have to be of any use either to the Corporation or to the rate-payers, they should be given sufficient powers to deal with different departments and get work done or at least get replies in time so that the people may be informed quickly about the difficulties standing in the way of execution of a particular work. Public Relations Observers should also be appointed with the rank of Inspectors and should be provided with cycles, whose duty it would be to go round the area allotted to them, meet people, see things for themselves and report for causing necessary action. At this stage, I should analyse what are usually the items of work worrying the rate-payers in daily life. They are—water supply (filtered and unfiltered), conservancy, bad food, insanitary conditions and special difficulties when streets are water-logged with storm water or epidemics break out. Lack of maintenance of good roads and footpaths and insufficient lighting are also items which worry the rate-payers more than the officials. Information about the sinking of a new tube-well, repair of a derelict tube-well or frequency of conservancy service—these are some of the items of civic amenities which every rate-payer is entitled to. They are more entitled to know what

are the difficulties with which the officials are confronted in expediting a particular work. For this they write letters, carefully drafted and signed by as many persons as are available, duly despatched and delivered at the proper place against receipts but alas, they wait for days and months for a reply which never comes to them. It will not be out of place to mention here that as a new Councillor I have also experienced the same difficulty. From my records I can show that I have written several letters in public interest to different departments in public but most of them are still unreplyed.

As I am giving my suggestions rather hastily they may be defective, they may be impractical at first sight but this is my appeal to all concerned that even if my suggestions are unacceptable to the authorities they should try to find out a workable formula and put it into operation at the earliest opportunity. Rate-payers have simply become exasperated by the continued silence of the officials in matters which are very vital to the civic life of a citizen of this big city. If once an organisation can be set up under able supervision and if it starts working, experience will tell us in due course how the working of the Public Relations Department will have to be adjusted keeping pace with time. I should not forget to mention here that when the public relations observers will be out in the streets they should either wear badges or should carry some sign, which may impress upon the people that they are the representatives of the Corporation appointed for ascertaining the grievances of the people and sent out to redress them, firmly holding the balance of mind involved in a tug-of-war of charges and counter-charges.

Now about the publication of the Official Organ of the Calcutta Corporation—'the Calcutta Municipal Gazette'. With all respect to the past and present editors of the Bulletin and with great regards for its tradition, I may be permitted to say that this particular publication could be much better utilised and could be effectively used as a vehicle of public opinion concerning an institution which is responsible for the civic welfare of nearly a crore of people. At the outset I suggest that a Bengali edition of the Municipal Gazette should be published simultaneously with the English edition. In the Bengali edition we should publish articles and information with more human touch. What we find at present in a particular issue of "the Calcutta Municipal Gazette"? Firstly, it appears at least a fortnight after the printed date of publication containing market rates and advertisements inviting tenders and applications for allotment of stalls and many other matters, which at times become back-dated. To be read by the people of Calcutta it should have an angle of vision which can interest the people at large. Relevant and up-to-date information about the working of the different departments of the Corporation may be incorporated in the Gazette. Many other information which are required by the citizens of a busy metropolis may also be published from time to time such as, railway time table, Calcutta street guide, radio programme, amusement programme etc., etc. I am sure if 'the Calcutta Municipal Gazette' is run on a business line, it will be able to secure ample advertisements from many big and small advertisers who must be made to feel that the 'Gazette' has a big circulation and pulling

power. If possible, 'Gazette' should reach almost every home in the city with its usefulness to the citizens. I am not an expert to suggest further details but from my experience for more than a decade I may say with all humility that the mouth-piece of the Calcutta Corporation may work wonder in setting up an example before other publications in the country. I am anticipating a retort that it may not be possible for the Corporation Press to cope with the work as suggested by me i.e., simultaneous publication of a Bengali edition and an English edition of 'the Calcutta Municipal Gazette' every week in time. If it is run on a business line the Gazette may very well be printed from a good printing press in Calcutta and I am sure the yield of revenue by sale of copies and sale of space will be much higher than the cost of production. One or two more suggestions regarding the contents of the Gazette. The middle-class citizens of Calcutta feel sometime that justice is not done to them in matters of assessment. This statement of mine should not be taken as a sweeping remark. I do not have any material with me now to prove the correctness of my statement. If it is wrong I may be excused for saying this. But if it is not wrong, we can satisfy the rate-payers of Calcutta by publishing the results of assessment-hearing every week from which the people may find as to what assessment has been made relating to houses owned or occupied by them and houses owned and occupied by their neighbours. Corporation has another big responsibility in pulling down unauthorised structures and old buildings endangering public safety. The official photographer of the Calcutta Corporation may move everyday in the city and publish the photographs of any such building in the next issue of the Gazette. It will simultaneously draw the attention of the officials and the people concerned. If we want to do good to the people we have to take them into real confidence, we have to accept suggestions from them. It is not fair that accepted experts are the only 'pundits' who can suggest better administration in running the Corporation. In this city of Calcutta there are wise persons whom we do not know but whose suggestions may spontaneously come if we invite and publish them in the columns of the Gazette, from which, we can find out many a solution against problems confronting us in day to day civic life. It is no use publishing the commodity rates of only the municipal markets in Calcutta because they are not many in number. If we mean to help the people with market rates we should publish rates prevailing throughout the city of Calcutta in a particular week and we should record an average rate calculated from the rates in different markets in the city. There are many other items of publication which may be suggested by persons who have the training and experience in the job. I am just giving the outline as I feel.

In conclusion, I appeal to the masters of the Corporation that this great Institution in this famous city of Calcutta came into existence as a challenge to the then alien rulers of India. Our pioneers were noble sons of India and their activities once inspired another illustrious contemporary to say "What Bengal thinks today India thinks to-morrow."

CITY-NEWS-PARADE

OBITUARY: The death of Shri Pashupati Bhattacharyya, Advocate, Police Court occurred on the 27th August at his residence in North Calcutta.

The late Shri Bhattacharyya was a prominent member of the Bar Association. He joined the bar in 1919 and worked his way to a prominent position. He was in charge of State prosecution in some well-known cases.

A NEW TELEPHONE TRUNK EXCHANGE was put into service on Saturday evening, the 24th August last. Henceforward "90" will have to be dialled for trunk booking, and "91" for trunk inquiries.

Number "91" has been specially allotted for trunk inquiries to ensure better service to the public after the change-over and to bring the arrangement in line with the practice prevailing in other big trunk exchanges in India.

ALL-BENGAL WOMEN'S UNION has started its week-long celebration in connexion with the Silver Jubilee Foundation Anniversary. On Monday, the 26th August, the first day's programme included the Union's annual meeting and the opening of a hand-work exhibition at 89, Elliot Road.

The annual meeting over which Shrimati Indira Devi Chaudhurani presided, reviewed the activities of the Union, the Union Home and the Union Children's Welfare Home. Shrimati Chaudhurani expressed her appreciation of the Union's work for the suppression of immoral traffic in women and of commercialized vice.

The exhibition which was also opened by the President included handiworks such as needlework by inmates of the two homes. It lasted for one week.

Messages wishing success to the Union have been received from, among others, the Vice-President of Indian Union, the Governor of West Bengal and the State Chief Minister.

CALCUTTA EXPERIENCED ANOTHER HEAVY SHOWER at the fug end of monsoon on Saturday noon, the 24th August last, dislocating partially the city's transport service for nearly four hours. The rainfall was fairly widespread throughout the State. In Calcutta it was recorded at 1.43 inches within a period of few hours.

Temporary suspension of trams and buses on almost all the routes caused immense hardship to people returning from offices. Services for few routes were also diverted. Many of the people also were fully drenched while returning home.

During the rains the plaster of the roof and a beam in a double-storeyed building at 103, Park Street, at present occupied by the Refugee Rehabilitation Directorate of the West Bengal Government, collapsed. None was wounded.

A HOUSE COLLAPSE: A portion of the first floor balcony of a four-storeyed building at Rupchand Roy Street, collapsed on Friday evening, the 23rd August last. There was no casualty. The firemen cleared the debris within half-an-hour.

CALCUTTA PORT COMMISSIONERS' one of the major steps to instal a giant crane to ensure quick clearance of cargo, was tested on Wednesday, the 21st August last with a 250-ton load. The installation of the 200 ton electrically operated crane at No. 1 King George's Dock, Kidderpore, has just been completed.

The Chairman and senior officials of the Port Commissioners and the German Engineers who had installed the plant, saw the crane lift the load to a height of about 15 ft.

The biggest in the East, the crane, has cost about Rs. 19 lakhs while the entire scheme has been for Rs. 53 lakhs. It will help to accelerate the loading and unloading of heavy materials. It will largely help the port of entry for nearly all heavy lift material intended for development projects in the Eastern Region. After a global tender was invited for the design, fabrication, supply and erection of a crane, capable of lifting its peak load at a maximum radius of 80 ft. and providing an out-reach over the quay side of 50 ft. a West German firm, Messrs. C. H. Jucho, Dortmund, specializing in the line, started installation of the crane on June 28 last year.

Six hundred and fifty tons of steel were needed to build the 8,000 cubic feet steel and concrete foundation of the crane. The yard in which the crane is situated, will be completed by this year.

DEMONSTRATIONS: Since withdrawal of the P. & T. workers strike threat in the city, the employees did not refrain from sending representations to the authorities. On Sunday, the 25th August the Union Minister for Transport and Communications, Shri Lal Bahadur Shastri, heard patiently for over an hour some of the leaders in this city speaking on their pressing local grievances. One of them was their demand for staggering the recovery of the festival advance over a larger number of instalments. Complaints were also made by the Union leaders about the shortage of staffs, insufficiency of accommodation in the existing Posts and Telegraphs buildings and paucity of tools to work with. They also urged a more regular supply of uniform and footwear to the workers.

Referring to the Pay Commission Shri Shastri said that he had no doubt that it would finish its work as quickly as possible. They should realise that involving as it did certain outstanding issues those who carried a tremendous responsibility of ensuring right decisions on them had naturally to become very careful about their work.

A deputation followed by a demonstration from the people of the Sunderbans area tried to impress upon the authorities in this city about the acuteness of the current food problem in that part of the country on Monday, the 26th August.

They conveyed to the Government that a near famine condition was fast approaching in the Sundarbans and that a large section of the people, mostly landless labourers, had been faced with starvation.

The deputation which waited on the State Food Minister, Shri Prafulla Chandra Sen at the Writers' Buildings was led by Shri Subodh Banerjee, M.L.A. and others.

The demonstration was held by about 1,000 peasants from Canning area before the office premises of the Additional District Magistrate of 24-Parganas in Alipore. The peasants were led by Shri Hemanta Kumar Ghosal, M.L.A.

A large number of employees of the Corporation demonstrated in the premises of the Central Municipal Office Buildings on Tuesday, the 27th August after office hours demanding an increase in Dearness Allowances of Rs. 5 to each of the employees drawing a basic salary up to Rs. 353 per month.

After parading round the Central Municipal Office with posters and festoons and shouting slogans for some time the demonstrating employees dispersed peacefully. Later on, they held a meeting at Wellington Square wherein the demands were re-iterated.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

Cossipore Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover, superscribed "Tender for....." on Friday, the 6th September, 1957 up to 2 P.M.

The abstract of the estimate can be seen at the Cossipore Eng'g Dept. (Eng'g Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of the tender.

The successful tenderer will have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the Authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates :—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law.
Supt., S. S. Hogg Market.

OUR ALDERMEN AND COUNCILLORS

WARD NO. 1.

SRI SUSHIL KUMAR PAUL

49, Satchasipara Road, Calcutta-2.

BORN in the year 1925, at Cossipore area SRI SUSHIL KUMAR PAUL has earned for himself a good-will. He did it when he had scarcely attained his Thirtieth year. The social as well as the philanthropic activities of the locality owe much to Shri Paul and a right choice is made. The philanthropic bent of mind from his early age subsequently channelled by his long and close association with Swami Avedananda, one of the twelve direct apostles of Shri Shri Paramhansa Dev, added grace and charm to the already sweet character of Shri Paul. He developed in him the quality of love for mankind. This ultimately actuated Shri Paul to espouse the cause of the Bustee dwellers of that area in the Corporation.

It was towards the close of the last century that the ancestors of his family migrated to Cossipore from a village in the District of Hooghly. They took up to business and by diligence soon attained prominence in the manufacture of oil. Since then the family has been one of the oil magnets in the city to which position Shri Sushil Kumar has added much.

WARD NO. 2.

SRI GANAPATI SUR

53, Barrackpore Trunk Road, Calcutta-2.

SRI GANAPATI SUR, one of the senior members of the House well befits the Chair of the Standing Town Planning and Improvement Committee. He has been voted to the Corporation from Cossipur Constituency since the year 1944. During the post-war years he earned a position in the body of the Calcutta Improvement Trust as a representative of the Calcutta Corporation. Both the positions aided him to serve the ratepayers of the city and particularly the

Bustee-dwellers, amelioration of whose suffering has been the ideal of his life. Straightforward and truthful in his nature Shri Sur has attracted one and all who happened to come in his contact. "Canada" by which name he is known, bespeaks of his wide popularity in his constituency. Love of sports and consequential sportsmanship spirit is another trait of his character.

Councillor Sur was born in Sinthee in the year 1905. He was being trained up in the city, while in his Intermediate Class in the then Ripon

College his father passed away. Shri Sur had then to shoulder all the responsibilities of the ancestral business as well as of the burdens of family. Although tender in age Shri Sur had courage and tenacity enough to tide over all the difficulties and carve out his present position.

WARD NO. 3.

SRI SUDHA SANKAR SINGH

1/1, Turner Road, Calcutta-2.

ONE of the youngest members in the present Corporation is COUNCILLOR SUDHA SANKAR SINGH, son of Shri Jay Narain Singh, an important citizen in Cossipore. Councillor Singh counts a growing popularity in his area. His election for two consecutive terms—also speaks of such. His first election in 1952 was disputed still he came out successful in a Bye-election occasioned then.

Hardly there had been an occasion when Councillor Singh spoke in the House still he made others to feel his presence in the Standing Committee meetings by representing the cause of the rate-payers. He is at present a member of the Standing Accounts Committee. Earlier to this he was a member of the Standing Health Committee and the Standing Public Utilities and Markets Committee. The desire he cherishes most in his mind is to improve the lot of the Bustee-dwellers in the city.

As a staunch supporter of the Congress Party Councillor Singh befits his father who once took the lead in many of the mass movements sponsored by the Congress. He is also attached to many of the social and cultural institutions in his area.

WARD NO. 4.

SRI NANDALAL BANERJEE

18, Simlai Para Lane, Calcutta-2.

CONSTITUENCY No. 4 is represented by COUNCILLOR NANDALAL BANERJEE, son of the late Shri Rajendra Nath Banerjee. Born in March, 1920, Shri Banerjee after his graduation started his career as an employee of Messrs. Burma Shell Oil Storage and Distribution Co. Ltd. But the steel frame of an employee's life could not accommodate the desire of service to fellowbeing as latent in Shri Banerjee. During his leisure he generally freed himself from the routine duties and took up to philanthropic and social services. In no time his association with some of the cultural

and educational institutions of the locality gained popularity for him. About this time Shri Banerjee was drawn to politics. In 1952 for the first time, he sought election to the Corporation by virtue of his already gained popularity and was returned. By his talent Shri Banerjee created his position in the Corporation and he took his seat as numbers of important Standing Committees. His metal shone all the more as a member of the Standing Finance Committee and prior to that as a Deputy Chairman of the Standing Works Committee. During his association with the Corporation Shri Banerjee identified himself with the Bustee-dwellers of his area in their sorrows and sufferings. This was another spur to his already established fame which aided him in his re-election for the second time.

WARD NO. 5.

SRI DULAL CHANDRA MUKHERJEE

24, Bananali Chatterjee Street, Calcutta-2.

A LAWYER COUNCILLOR DULAL CHANDRA MUKHERJEE represents Constituency No. 5, the Tallah area. He inherits the legal knowledge and all the alertness of practising the same from paternal as well as maternal sides. His father the late Shri Himangshu Bhusan Mukherjee was a lawyer of wide reputation in the criminal side in the District Court of 24-Parganas. The maternal uncle of Shri Mukherjee, the late Shri Girindra Nath Banerjee, was an Advocate. He was also a Councillor of the Calcutta Corporation from the Belgachia Constituency for two consecutive terms since the merger of the Chitpore-Cossipore Municipality with the City Corporation. Prior to it the late Shri Banerjee was Vice-Chairman of that Municipal body.

Shri Mukherjee was born in 1912. Since boyhood he had a love for all sorts of social activities. His unsophisticated love for work benighted him with the popularity of the rate-payers of his locality and they voted him to the Corporation for the first time in the year 1952.

Shri Mukherjee has faithfully maintained the trust imposed upon him. He had been the Chairman of the Standing Public Utilities & Markets Committee. During his tenure of office he constantly endeavoured to get the dark areas of the city illuminated. Besides his lively association in a few other Committees gave them special integrities in the Corporation. Shri Mukherjee has been representing the Corporation in the Improvement Trust as one of the Trustees since last year.

WARD NO. 6.

SRI SATYANANDA BHATTACHARJEE

1A, Joy Bhattacharja Lane, Calcutta-3.

SHRI SATYANANDA BHATTACHARJEE is a new entrant in the Council Chamber. Although young in age he has an eventful life. He comes out of

a respectable cultured middle class family in the

northern part of the city. His father late Shri Kalibilash Bhattacharjee well-earned the reputation of a leader of the Swadeshi Movement by virtue of the talent in him. The worthy son Shri Satyananda Bhattacharjee has inherited the quality of his father. A leader of man from boyhood

Shri Bhattacharjee was expelled from the Government College of which he was a student for his participation in active politics. This was an important phase in his life. Later on he became an important member of the Krishak Mazdoor Party, since its very inception. Some time after when Dr. Rammonohar Lohia started the move for the formation of the Socialist Party, Shri Bhattacharjee became one of his trusted lieutenants and he became the Provincial Secretary of the Party. Even with such pre-occupations in political affairs Shri Bhattacharjee did not put off the civic side of life. He sought election and was warmly welcomed in his constituency. By virtue of his forceful oratory and other shining qualities he has in a very short time made his presence felt in the House.

As a lover of fine arts Shri Bhattacharjee is a stage-free man and can successfully play in any role.

The diverse experience of Shri Bhattacharjee, as a teacher in school, as an Editor of a local daily and as a leader of men subjected to all humiliations will surely make him, we hope, a City Father in the proper perspective of the term.

WARD NO. 7.

SRI RANAJIT COOMAR MITTER

5/C, Ramkrishna Lane, Calcutta-3.

RETURNED to the Corporation for the second time COUNCILLOR RANAJIT COOMAR MITTER was born in Calcutta on the 22nd June, 1918. His father Shri Prafulla Chandra Mitter and his brothers are the old residents of the Bagh-bazar area. During 1942 Movement Shri Mitter was in the forefront of country's struggle for freedom and was thrown into prison as a Forward Block worker. While in detention he passed B.A. Examination. Earlier he participated as a volunteer in the Holwell Monument Removal Movement under Netaji Subhas Chandra. He was released in November, 1945.

Shri Mitter is known to his constituency not only as a political worker but also as an active participant in all the cultural, social and educational movements. Even his activities have extended throughout the northern part of the city as a Secretary of the North Calcutta Rate-Payers' Association as well as a Vice-President of the Northern Association. He is also linked with Praja Socialist Party.

Shri Mitter has in his credit a number of political and civic articles published in different journals including the *Calcutta Municipal Gazette*.

Since his entrance into the Corporation he has moved the House in different matters pertaining to civic and cultural aspects in the city. He has extended his hand of co-operation in implementing just and rightful claims of the citizens as a member of different Standing Committees. He was the Secretary of the United Citizens Municipal Association for one term and at present the Deputy Leader of the party. He is also the Chairman of the Borough Committee No. 2.

WARD NO. 8.

SRI KUMAR DUTT

36A, Raja Rajballav Street, Calcutta-3.

SON of late Shri Upendra Nath Dutta, SHRI KUMAR DUTT belongs to the family of the famous manufacturing jewellers Messrs. Bennd Behary Dutta & Co. Councillor Dutt is at present an active partner of the firm. But he has always associated himself with the social and cultural activities of the locality and no doubt his popularity in his Constituency earned him Councillorship in the Corporation. Born in the year 1915 on the northern part of the city he had his activities in some social work as a member of the Boys' Scout Association. Later on he became the Assistant District Commissioner. He had also acted as an Assistant District Organiser of the St. John Ambulance. Since his participation in the 1942 Movement, he has been actively found in all other movements sponsored by the people. Lately he went to Goa as a lieutenant of Shri Hemanta Kumar Basu, M.L.A. He was also a promoter of Peace movement during post-war days and rendered much help in relieving the distress of the famine-stricken people in his locality during 1943.

WARD NO. 9.

SRI PURNENDU SEN GUPTA

79/3/2A, Raja Naba Kissen Street, Calcutta-5

PROBABLY the youngest member in the present Corporation SHRI PURNENDU SEN GUPTA has hardly crossed thirty, but he has earned the membership of the Communist Party of India. Even as a school boy Shri Sen Gupta joined the August Movement of 1942, and was imprisoned. He passed the Matriculation Examination while in detention in Buxa Camp, Alipur Duars. After his release as a student of the third year class in the Scottish Church College he was elected a Secretary of the Students' Union there. Since then he has actively participated in

many of the social and cultural activities of the students' community. His activities were also extended towards the social and cultural upliftment of the locality he lived,—the Shyampukur area. He has also associated himself with all the political movements of his area.

Shri Sen Gupta promises a good future in the Corporation.

WARD NO. 10.

SRI MIHIRLAL GANGULI

2, Shamlal Street, Calcutta-4.

41-YEAR old Advocate of the Calcutta High Court SHRI MIHIRLAL GANGULI, M.A., B.L., is attached to the *Amrita Bazar Patrika*, a premier daily of this city. His father late Hiralal Ganguli

was also a Member of the High Court Bar and earned a name by defending many of the political cases in earlier days. Councillor Ganguli has inherited many of the qualities of his father. Since his college days Councillor Ganguli has been connected with numerous social service

organizations in North Calcutta. Thus his entrance to the Council Chamber representing Ward No. 10 will no doubt inspire him to be more enthusiastic in social and civic services. At present as the Deputy Chairman of the Standing Accounts Committee, Councillor Ganguli, has already earned a name. As a Secretary of the Congress Municipal Association he has a tough job to perform. Within a short period he has fought for many of the grievances of the citizens. 'Life for those who are just living to-day and more amenities to the citizens'—is the motto of his life in Corporation business.

WARD No. 11.

DR. KRIPABINDU CHAKRABARTY

1-B, Bacharam Chatterji Lane, Calcutta-5.

SIMPLE, truthful and unassuming COUNCILLOR DR. KRIPABINDU CHAKRABARTY, who lately occupied the Chair of the Deputy Chairman, Standing Health Committee for a comparatively longer period than any one else in the present House, is very keen to keep the citizens healthy and free from infectious diseases. In that capacity Councillor Dr. Chakrabarty has patiently watched the activities of the city's hospitals and tried to mend them wherever he found a wrong in them.

Dr. Kripabindu Chakrabarty graduated himself from the Calcutta Medical College. His early life was spent in Chapra where his father Dr. Surendra Nath Chakrabarty was a medical

practitioner. Dr. Chakrabarty started his practice in this city and by devotion and earnestness he has built up an extensive practice. His association with different organizations has also earned him his popularity.

WARD No. 12.

SRI SUDHIR CHANDRA MUKHERJEE

30, Beadon Row, Calcutta-6.

FORTY-SEVEN-YEAR old lawyer COUNCILLOR SUDHIR CHANDRA MUKHERJEE hardly takes part in any debate in the Corporation. He is also a C. I. T. Trustee. It is not due to his reserve nature but because he prefers much work than to open one's mouth everywhere. He is sobre, gentle, amiable and above all a good talker on whatever subject you like to discuss. Though not his profession still he claims himself as an astrologer by going deep into the subject.

Shri Mukherjee is proud of his heritage and he is the eighth descendent of his great great grandfather who first migrated to this city from a village in the District of Hooghly. The famous Sanskrit Scholar Jagannath Tarkapanchanan of Tribeni is threaded with the family. The late Sir Surendra Nath Banerjee was also not a distant relation to them. The house in which the present family lives, in the Beadon Street area, bears the footprints of all the notable Bengalis of the nineteenth and early twentieth centuries. All these are vivid in the minds of his aged father Shri Suresh Chandra Mukherjee.

Shri Mukherjee has a successful academic career. After obtaining his M.A., B.L., Degrees from Calcutta University he joined the Bar in the Judges' Court, Alipur, 24-Parganas. Even as a student of the Scottish Church College from where he took his B.A. Degree with Honours in Philosophy, he won a prize for his social services. Lately he was the Secretary of the U. C. C. Party. A Joint Secretary of the Chaitanya Library, he has a long connection with Daridra Bandhab Bhandar, an important social service organisation.

And if sincerity and devotion to work have any reward this can be amply demonstrated in the life of Councillor Sudhir Mukherjee who though not affiliated to any political party, has been elected twice.

WARD NO. 13.

SRI PANNALAL DAS

19, Goabagan Street, Calcutta-6.

AIMED at to improve the lot of the Bustee-dwellers, being himself a dweller in Bustee, COUNCILLOR PANNALAL DAS devotes most of his time in social services. He was a strong

critic of the Corporation Annual Budgets for the last five years as they had failed to provide adequate money for the development of Bustee areas. In vain, he himself had persuaded the House to do so through some amendments. It was due to his efforts the Bustee Development Committee of Goabagan was formed earlier and

he was asked to represent that area in the Corporation. Besides, spread of primary education to the children living in Busteas, is his another object in life. This quality he has inherited from his father the late Shri. Nanilal Das, who was an ardent promoter of education in the city.

Born in 1919, Shri Das was attracted to the ideals of Mahatma Gandhi from his early life. He joined the Congress even during his student life and was one of the active workers of the North Calcutta Congress Committee. In 1950, he was elected a member of the Labour Sub-Committee of the West Bengal Provincial Congress Committee. But he could not stick to the Congress principle and joined the Proja Socialist Party when it was first originated in the State.

WARD NO. 14.

DR. KANAILAL DAS

55B, Badridas Temple Street, Calcutta-4.

COUNCILLOR DR. KANAILAL DAS B.Sc., M.B., is one of the popular figures in the locality he represents. His popularity is almost inherent due to the fact that his father late Shri Jogendra Nath Das and his grand-father late Shri Nandlal Das were well-known persons of the locality they lived. The family had resided for more than one hundred years in the Goabagan area. Born in 1901, Dr. Das had also spent his boyhood and student life in this part of the city.

But what earned the popularity of Dr. Das was his untiring services to the local citizens. As a physician he serves them in their distress and as a social worker he stands by them in their needs and wants. He has organized several relief societies and other social organizations for the purpose including Night Schools to fight out illiteracy. Besides, he has been rendering honorary service as an Officer-in-charge of the Out-door Department of the Charitable Hospital, managed by Daridra Bandhab Bhandar, a premier social service organization in the northern part of the city. Thus as a member of the Standing Health Committee his services will be helpful to the Corporation.

In spite of his multifarious activities, Dr. Das snatches away his time to attend musical conferences particularly of classical natures.

VIEWS AND REVIEWS

RAM MOHAN AND SURENDRANATH

Life-size portraits of great Indians—particularly those who had laid down their lives for the upliftment of the country, would adorn the Indian Parliament House, according to the decision taken by the present Union Government. The move has to-day received the country's support and admiration, and accordingly portraits of many of the leaders have been installed there. The portraits of Mahatma Gandhi, Lokmanya Tilak and others are already there. But unfortunately, portraits of two great Indians, Raja Ram Mohan Roy, the pioneer of Indian Nationalism and Sir Surendranath Banerjea, the father of Indian Nationalism, could not be accommodated there due to want of proper space, according to a News. These two great Bengalis were not only great fighters of India's struggle for freedom but also their contributions to the upliftment of the country were immense. Raja Ram Mohan was a pioneer in the cultural, social, educational and political upliftment of the country through his varied activities during the early British Rule. Later on a kind of world fraternity took shape in him and he moved the country towards it.

Sir Surendranath was responsible for the growing political consciousness of the people. He caused the country to rise to the occasion whenever it came. Two times President of the Indian National Congress he moved the whole country from one corner to another.

Their absence in the Lok Sabha Hall, New Delhi, would do injustice to the future legislators who could derive inspiration from them in their day to day activities. At the same time it would amount to negligence on the part of a country which gave birth to these noble sons.

The alleged statement in the Press was referred to in the weekly meeting of the Corporation on

the 30th August last by Councillor Amulya Charan Sarker, who demanded that the House should voice a protest against such omission. He also thought that there should not be two opinions for arousing a feeling of discontent throughout the country if such things were allowed to happen.

CHANGE OF OFFICIAL LANGUAGE

Madras Corporation deserves appreciation and admiration for taking a bold step in switching over to Tamil language by abandoning the 120-years old practice of using English in its official correspondence.

Under the new policy all letters will be sent in Tamil, the vernacular of the citizens of that premier city in South India. Arrangements have also been made for the purpose.

The names of many of the departments have already been changed to the Tamil equivalents. According to the news published in the local Press, the Annual Administration Report has also been published in their vernacular. The proceedings of the Corporation Council will henceforward be recorded in Tamil but members will be allowed to speak in English if they so desire.

A separate story was told in case of the Calcutta Corporation. The Corporation which was once a citadel of freedom during an alien rule and where Mayoral Chair was adorned by great leaders like Deshabandhu Chittaranjan Das, Deshapriya Jatindra Mohan Sen Gupta and Deshagourab Subhas Chandra Bose, should have been the pioneer in introducing Bengali, the local language so rich in every branch of knowledge. When the new Corporation came into being in the year 1952, members of the House tabled several motions to that effect. They pleaded to have the proceedings recorded in Bengali, the State's vernacular.

The Ex-Councillor Debajyoti Burman took the lead in this regard.

Recently another move was taken by Councillor Satyananda Bhattacheryya who said that growing difficulties for having proper Bengali synonyms of official English language might be avoided by simply coining new words in Bengali. And now if Madras has been successful to have their official records in their own vernacular Calcutta should not be lagging behind.

B. C. G. CAMPAIGN IN THE CITY

Recently the Government of West Bengal, Health Directorate has undertaken a B. C. G. Vaccination campaign in some parts of the city. Propaganda and publicity work have also been carried on simultaneously to make the campaign a success. In order to gain popularity for the scheme, the help of the Public Relations' Department, Corporation, was also enlisted.

Referring this at the weekly meeting of the Corporation, on the 23rd August last, Councillor Dr. Sukhabehari Mukherji, Chairman of the Standing Health Committee, said that certain surprising revelations had been made while the campaign was in progress in the city. From a sample survey it was known that about 80 per cent. of the city's population, above 15 years of age, appeared to have imbibed T. B. germs in their bodies. According to Councillor Dr. Mukherji the benefits of vaccination might be extended to 20 per cent. of the population at the utmost. Even after inoculation, chances of being imbibed with the T. B. infection may be noticed in 10 per cent. of the people because of the fact that under-nourishment still prevailed in the country.

Councillor Dr. Mukherji said that mere B. C. G. vaccination against Tuberculosis was not sufficient to prevent the spread of Tuberculosis. He emphasized the need for raising the standard of living of people as well as creation of good environmental hygiene in the city.

Councillor Dr. Birendra Chandra Basu suggested that a conference of an expert body should be convened to devise ways and means for prevention of tuberculosis. He thought that the Government scheme did not take to a mass campaign which was urgently needed in the city. Besides, provision of other subsidiary proceedings should be made. In this connection he felt that the State machinery should have sought the co-operation of the Corporation who have given a priority in eradicating the menace from the city. Dr. Basu also remarked that the B. C. G. campaign could not be expected to be successful unless it was accompanied by mass-X-Ray or screening arrangements, according to a report of the International Tuberculosis Association.

Whatever differences of opinion there might be about the successful operation of the B. C. G. vaccination scheme, it has been found by the experts that an attenuated T. B. Bacilli when injected into a body automatically develops a power to fight on the living germs of T. B. making inroads into the body. The power thus generated in a body, may be retained for long, provided stronger forces do not make fresh attacks. Moreover, an

attack on a patient suffering from the disease, could stand a longer period even when B. C. G. is vaccinated into the body. The campaign has also proved successful in the Scandinavian countries and other advanced countries in the world. The under-developed countries have also been benefitted by successfully operating the campaign.

But, provision of proper nourishment and better environmental hygiene always take the uppermost in this regard. And unless that sphere has been attended to in our country the menace is sure to continue.

CORPORATION CONDOLES DEATH OF SHRI A. N. CHATTOPADHAYA

Calcutta Corporation at its weekly meeting on Friday, the 6th September, condoled the death of Shri Amarendra Nath Chattopadhyaya, the well-known revolutionary leader of Bengal. The death occurred after protracted illness at Uttarpara, in the district of Hooghly. He was 78.

As a close associate of Shri Aurobinda, Shri Barindra Nath Ghose and the late Shri Jatindra Nath Mukherjee, the late Shri Chattopadhyaya joined the revolutionary movement of Bengal in 1905. Since then he was an active participant in the country's struggle for freedom. He was a member of the Bengal Legislative Council and of the Central Legislature. He also suffered imprisonments and was detained under Regulation III for more than one occasion. He absconded for seven continuous years when the police wanted to arrest him during the early twenties.

The death was referred to in the House by the Mayor, Dr. Triguna Sen, who said that with the death of Shri Chatterjee, the country has lost another great and noble son. Joined as a soldier in the fight for country's independence the late Shri Chatterjee earned tremendous popularity among the masses and his death has caused a void which will be difficult to fill up in these days, added the Mayor. The House was adjourned for ten minutes as a mark of respect to his memory.

A TRAGIC AEROPLANE ACCIDENT

At Dum Dum Airport on Sunday morning, the 1st September, a four-engine Hermes plane, on its way to Singapore from Blackbushe, England, crashed into an I.A.C. Dakota passenger-cum-freighter on a runway when landing at airport. It completely wrecked the I.A.C. aircraft and killed three officers outright and seriously injured its steward. The Hermes was also badly damaged, but none of its 50 passengers, including some women and children, and the crew of six were seriously hurt.

Those killed aboard the I.A.C. Dakota freighter were Captain B. Chowdhury, the pilot; Shri S. Chowdhury, the first officer, and Shri N. C. Chowdhury, the Radio Officer. Shri T. Singh, its Steward, was admitted to the R. G. Kar Hospital in a dangerous condition and subsequently succumbed. The accident was referred to in the House, by the Mayor Dr. Sen. Condolences were also sent to the members of the respective bereaved families.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE SEVENTEENTH ORDINARY MEETING OF THE CORPORATION HELD
ON FRIDAY, THE 30TH AUGUST, 1957.

EXTENSION OF OFFICE HOURS

Councillor Mihir Ganguly pointed out that the existing working hours of the Corporation Offices very often stood in the way of public contact. Standing in line with the office hours of all the other institutions the rate-payers are more or less in a difficult position to contact Corporation officials within that limited periods. Councillor Ganguly thought that the working hours should be fixed in such a way so that there might not be any difficulty for them to contact the officials in matters of urgent civic needs. In that connection he also narrated his personal experiences in the past.

The Deputy Mayor, Shri Keshab Chandra Basu, who was in the Chair, assured the House that it would be looked into.

STATE BUSES

After nationalization of transport system in the city, mainly after taking over many of the Bus Routes by the Government of West Bengal from the then private enterprisers, the difficulties of the citizens have increased. This was pointed out by Councillor Prasanto Kumar Sur when he said that the citizens' misery had filled to the cup when these routes were run by the State Government on a monopoly basis. He was, however, critical to say that there should be an increased number of State Buses to ply on particular routes where trams are not run along with greater conveniences for the people.

Councillor Sur also wanted that the House should draw the attention of the State Transport authorities in this regard which was assured to.

COUNCILLOR DR. HIMANGSHU DAS

The House appointed Councillor Dr. Himangshu Das a member of the Standing Education Committee. The vacancy was caused by the death of Councillor Kissan Chand Boral.

It may be recalled here that Dr. Das has been elected to the House in a bye-election in Ward No. 43 held on the 11th August last. The Oath was administered to him at a previous meeting of the Corporation.

EXTENSION OF EMPLOYEES' AGE OF RETIREMENT

The House, on the recommendation of the Standing Finance Committee, decided to extend the age of retirement of the employees up to 60 years. This was in accordance with a previous resolution of the House passed on the 24th May last and after consultation with the Municipal Service Commission. The resolution passed in this connection runs as follows:—

That the existing regulation for the age of retirement of the employees of the Corporation other than those referred to in Section 76(1) of

the Act or holders of posts carrying a maximum salary of Rs. 1,500 per month and above and also those classed as labour as sanctioned by the State Government and communicated in their letter No. 1781/M.I.C-99/56, dated the 2nd March, 1957, be amended in the following manner as indicated below:—

"Except as otherwise provided in these Regulations, an employee, whether in Superior Service or in Inferior Service, shall retire on

DEATHS AND DISEASES IN THE CITY

Attacks and deaths from Cholera in the city during the week ending the 31st August were 14 and 8 as compared with 17 and 6 during the preceding week. There were 11 and 4 attacks and 10 and 1 deaths during the same period last year.

The number of attacks from small-pox was 4 when equal number of persons died of the disease against 2 attacks and 1 death the week before. There were 10 and 5 attacks and 3 and 5 deaths during the same weeks last year.

Two persons died of Malaria against 3 during previous week. The number of deaths during the same period in 1956 was 4 and 9.

Tuberculosis tolled the largest number of lives during the week when 52 persons died of the disease against 22 the week before. Deaths from the same during the corresponding weeks last year were 50 and 36.

Influenza attacks and deaths were 776 and 3 against 838 and 2 during the previous week.

Deaths from all causes during the week under review were 962 as compared with 662 the week before. There were 704 and 627 deaths during the corresponding weeks last year.

attaining the age of 60 years and no employee shall continue in service beyond that age."

It may be noted here that the State Government's approval to the above Service Regulation has been obtained, through a communication No. 6222/M.I.C-99/56, dated the 6th September, 1957.

A CORPORATION SCHOOL BUILDING

The House, on the recommendation of the Standing Education Committee, engaged the newly constructed portion of the present school building at premises No. 9, Nritya Gopal Chatterjee Lane for the purpose of housing a Corporation Primary School for Girls to be started soon.

The monthly rent fixed for the premises is Rs. 300/- only.

Slum Clearance In The City

BUSTEE improvement and slum clearance work have been causing the headache of the Corporation authorities for long. Some time ago refreshed efforts have been started to proceed with the work. The Corporation Five Year Plan, meant for city's developments, has also incorporated an eight-crore scheme for slum clearance. This was to replace the city's bustees comprising of slums by new sanitary tenements. It was proposed to build those tenements on acquired plots of lands where the present bustees are situated.

Recently, the Corporation took a move in providing many of the civic amenities to the Bustee population. But the lacunae of the present Municipal Act stood in the way for their proper implementations. Accordingly, the Corporation requested the State Government for promulgating a special ordinance which would provide lands in the bustee areas so that the Corporation might sink tube-wells in those places.

The Government's move in that direction was also commendable. The Government has undertaken a project to sink 300 medium-sized tube-wells in the Bustee areas to mitigate the water-scarcity.

A special meeting of the Corporation convened in this regard on Saturday, the 31st August last, could not be held due to various reasons. One of the reasons stated that the Mayor's presence was felt necessary as he himself wanted to take part in it. The Mayor was absent on that day.

In the meantime, the Mayor, Dr. Triguna Sen, took a special initiative in providing sanitary accommodation for the sweepers and Harijan employees of the Corporation. A two-crore scheme has been prepared for the purpose. No doubt this would go a long way in removing the slums from the city. The Union Government's help has also been enlisted in constructing brick-built tenements for these poor employees who had so far no roofs over their heads. In its efforts for implementation of low cost housing scheme, the Corporation proposes to construct tenements for its 13,000 sweepers, scavengers and other Harijan workers in the city. Sites for four-storied buildings have been selected in the four Districts spreading over 18 places. Each tenement, according to the scheme, will be self-contained with two rooms, kitchen, bath and other facilities whose number would be nearly 2,000 and single-room tenements numbering 800.

The scheme being approved by the State Government was forwarded to the Centre for acceptance. When finally approved, the Union Government will contribute 50 per cent. of the estimated cost of the project as loan and 25 per cent. as subsidy and the balance will have to be borne by the Corporation.

Meanwhile, a conference attended by the Minister for Local Self-Government Shri I. D. Jalan, the Secretary of the Union Ministry of Works, Housing and Supply, Shri Sachdeva, the Mayor, Dr. Triguna Sen, the Chairman of the Standing Finance Committee, Councillor K. L. Dhandhanian, and the Chief Engineer, Shri A. K. Sen, was held at the

Secretariat on Monday, the 26th August last. The conference discussed the Rs. 2-crore Slum Clearance Plan.

The Corporation authorities were informed by the Union Government's Secretary that although at the moment the slum clearance project of the State Government had been given priority, still the Corporation's scheme would be treated separately by the Union Government. He assured that consideration would be given to the Corporation's schemes in consultation with the Planning Commission.

The Corporation at its weekly meeting on Friday, the 6th September, praised the Mayor's action in sponsoring and forwarding the Housing Scheme to take the mazdoors out of slum. It also approved the scheme as drawn up by the Chief Engineer and duly recommended by a joint meeting of the Standing Finance Committee and the Standing Town Planning and Improvement Committee. In that connection many of the Members felt that in building tenements for the poor sweepers such environments should be created as they might live in a congenial atmosphere.

Concluding the debate, the Mayor said that though he was not optimist about the city's slum clearance still the efforts he had made would be successful as State aid was sure to come. He also informed the House that slum clearance work would henceforth be undertaken by the State Government and the C. I. T.

Presenting a demographic survey of the Corporation mazdoors, Alderman Dr. A. K. Basu said that there should be at least 3,000 two-room and 1,300 one-room tenements, in order to accommodate the majority of the mazdoors in good hygienic environments.

Councillor S. K. Gupta, I.C.S., also felt that the designs of the buildings would be such so that each family might live in separate enclosures. He did not favour the idea of community baths or community lavatories.

There appears to be no well-integrated schemes to tackle the bustee problem and slum clearance in the city. At present the Calcutta Improvement Trust, Calcutta Corporation, the West Bengal Government's Construction Board, the Irrigation Department and private landlords are going ahead independently with their schemes to re-house bustee-dwellers.

The C. I. T. will shortly start construction of pucca tenements, one on the Barrackpore Trunk Road and the other on Dum Dum Road—within Corporation's jurisdiction—for the accommodation of over 700 families, who are expected to be rendered homeless as a result of the implementation of the organization's general improvement scheme covering the area from Baghbazar Street to Califf Street. Three big bustees fall within the area under the general improvement scheme. These are known as Mukherjeepara Bustees.

Building the tenements will cost the C. I. T. about Rs. 56 lakhs and the land an additional Rs. 10 lakhs. Of the total cost, 26.64 per cent. each will be paid by the Union and the State Governments, and the balance will be paid as loan by the Union Government.

The C. I. T's original general improvement scheme was prepared before the Calcutta Improvement (Amendment) Act, 1955, had been passed. The Act imposed a condition upsetting the general improvement schemes. According to the Act, no bustee-dweller can be ousted unless previous arrangement has been made for alternative accommodation for all bustee-dwellers affected by the scheme.

Thus the question of fixing the rent for the new tenements would be an intricate one and posing a bit of a problem for the authorities.

Recent enquiries show that the average earning of the inhabitants of these three bustees does not exceed Rs. 100 per month. More than half of the wage-earners living in these bustees belong to the group with income below Rs. 100 per month, another group—about 35 per cent.—have income between Rs. 100 and Rs. 150 and only a negligible minority of about 5 per cent. earn more.

Nearly 77.86 per cent. of them occupy one room and 15.27 per cent. two rooms. The number of people occupying more than two rooms is negligible.

The West Bengal State Government's Slum Clearance project took another step ahead with the Union Government's decision to sanction about Rs. 85 lakhs towards two of the schemes submitted by the Government.

The two schemes envisaged consideration of some 1,350 tenements which would be let to bustee-dwellers. The first scheme relates to demolition of present Orphananj Market near Belvedere,—one of the oldest cattle markets in the city. The market has assets in the shape of shops, sarais and structures worth about Rs. 25 lakhs. There are long platforms for cows and buffaloes where the cattle from upcountry centres are kept pending for sale. The taxes are levied on varied rates. But a purchaser has to pay to the Government of India, which owns the market, a sum of Rs. 2 for each head of the cattle bought by him from this market. The average daily collection has been estimated at Rs. 400 on Mondays and Tuesdays the sale is rather brisk.

The condition of the market has become a veritable nuisance for the people living in surrounding areas. Its structures are dilapidated and in a very bad state of disrepair. Hygienic arrangements are almost absent. The cattle are kept in the open, the platforms are filthy and covered with garbage. All these combined together make the market look like a hovel with provisions for sub-human living.

In the circumstances its demolition will be welcomed by the citizens of the locality.

The other scheme, prepared by the State Government, which though agreed upon, has yet to get the formal approval of the Union Government. It envisages filling up of the present Circular Canal and the new Canal for the purpose of converting the same into broad roads on both sides of which multi-storeyed tenements will be built for housing the inhabitants of bustees to be demolished. It might involve huge expenditure on the State Government's part.

A certain section of experts also feel that instead of embarking upon such a big venture space can be made available for erection of tenement

buildings by removing the cattle sheds and small mills from the heart of the city.

Recently the Union Government has laid down certain principles that govern the decision of the State Government and public bodies in the matter of clearance of slums. According to the principles, a slum, even having reasonable sanitary arrangements, is fit for clearance if it is over-congested.

At present, in the city bustees occupy less than 10 per cent. of the total area under the Corporation. The dwellers of these bustees form 33 per cent. of city's total population, leaving the balance 67 per cent. of the non-bustee population to occupy more than 90 per cent. of the city's space. The number of slums or such bustees in the city is no less than 3,000 and the population living there is nearly seven lakhs. The magnitude of the task then easily be realized. During the Second Plan period, the Union Government have set apart Rs. 2.8 crores only for slum clearance in West Bengal.

For the two schemes which have earned sanction of the Union Government, the cost will be borne in this way: Union Government 75 per cent. (50 per cent. as loan and 25 per cent. as subsidy), and the State Government 25 per cent. Not satisfied with the allocation made for the projects a strong representation is to be made by the State for allocation of further sums for the purpose, it is surmised.

DEATHS AND DISEASES IN THE CITY

Seventeen persons were attacked with cholera during the week ending the 24th August last. Out of them six died as compared with 17 attacks and 10 deaths the week before. Attacks from cholera during the same period in last year were 4 and 3 while the deaths were 1 and 3.

Small-pox attacks and deaths during the week were 2 and 1 against the same numbers the week before. Attacks from small-pox during the corresponding weeks in 1956 were 5 and 4 while equal numbers died of the disease.

There were 3 deaths from Malaria as compared with 1 of the previous week. During the corresponding weeks last year 9 and 4 persons died of the same.

Tuberculosis was responsible for largest number of human lives during the week ended August 24 when 22 persons died of the disease as compared with 34 the week before. During the corresponding weeks last year deaths from tuberculosis were 36 and 47.

Influenza attacks and deaths were 838 and 2 against 671 and 2 of the proceeding week. There was no attack or death from Influenza during the same period last year.

The total number of deaths from all diseases in the week under review was 662 against 699 the week before. Deaths during the same week last year were 627 and 640 respectively.

FREE EYE TREATMENT AND OPERATION

Nagarik Sangstha's Move To Help Citizens

SURPRISED to look into a house where nearly 350 patients suffering from eye-troubles of varied nature, I was informed that all of them had been operated upon by a single Ophthalmic Surgeon within a course of a two-day lasting camp hospital. The time took by Dr. P. D. Giridhar to undergo the operations was only a few hours and an average of 15 to 20 seconds he took to complete one operation. During this period he had also attended complicated cases and patients suffering for long days on eye-troubles and complaints. A large number of out-door patients were also treated during this period.

The temporary Eye Hospital was set up on a building, said to be a Rest House, at Chittaranjan Avenue, towards the northern part of the city, under the auspices of the Nagarik Sangstha of Burrabazar area, a social service organization mainly devoted to philanthropic activities. Civic needs are also looked after by them.

Dr. Giridhar switched off his first operation on Thursday, the 22nd August last, in presence of several distinguished citizens including the Mayor, Dr. Triguna Sen, the State Health Minister, Dr. A. B. Roy and others. Representatives of Indian Medical Association, Calcutta Branch were also present during the period of operation.

Dr. Giridhar has acquired much proficiency in this line in this country. The Surgeon is permanently attached to the Kishanlal Jalan Free Eye Hospital, Bhiwani (Hissar, East Punjab) and his record of surgical output has surpassed many an eminent Surgeons in the West where the science has developed much. In 1956, Dr. Giridhar has treated more than 83 thousands out-door patients and about 11 thousands indoor patients. Besides, he gave a balmy touch to suffering patients by operating more than 14 thousands with an average of 216 surgical cases a day. Out of these, 8,988 Cataract cases were operated upon during that period.

Thus Dr. Giridhar's services in treating the suffering humanity have been much appreciated by the citizens.

Apparently 350 patients were not herded together in that building, still they had to spend a few days in a crowded atmosphere. The patients were practically hospitalized and they were provided with all possible benefits. There were patients from different ranks of life mostly of elderly population. When I had visited the hospital I found a few elderly ladies who had long suffered, were comfortably placed and looked forward for new light.

The arrangements were all provided in a decent way. Appreciations were recorded from many of the prominent

citizens. The Minister for Local Self-Government, Government of West Bengal, Shri I. D. Jalan, visited the place on several occasions. Councillors K. L. Dhandhanian, and H. N. Sadani took special initiative in this matter. The Public Relations' Department, Calcutta Corporation, did much of the publicity work.

'It is truly amazing and praiseworthy effort on the part of this social and humanitarian organization and to Dr. P. D. Giridhar who did all these' wrote Shri Jyoti Basu, M.L.A., a leader of the Opposition in the Assembly, while looking into the temporary hospital in one of the days.

'Nagarik Sangstha has been rendering services to the citizens of the locality in awakening the civic consciousness and of duties' wrote Shri Hemanta Kumar Basu, M.L.A., leader of a Political Party and President of the U. C. C. Party in the Corporation.

The Deputy Mayor, Shri Keshab Chandra Basu, Councillors Anil Maitra, Kumar Dutta, Samar Rudra, Barendra Krishna Daw, Dr. K. P. Ghosh, and several others also looked into the working of the temporary hospital of the Sangstha.

In view of his great humanitarian services Dr. P. D. Giridhar was entertained at tea by the Mayor Dr. Triguna Sen, on Friday, the 6th September. Many of the Aldermen and Councillors were also present.

VITAL STATISTICS

*For the City of Calcutta for the week ending
17th August, 1957.*

City of Calcutta (Town and Added Areas.)

The total number of deaths registered during the week was 699 against 765 and 676 in the two preceding weeks and higher than the corresponding week of the last year by 59. The general death-rate of the week was 11.97 per mille.

Town (Wards 1-27.)

The number of deaths registered during the week ending 17th August, 1957, was 539 against 552 and 544 in the two preceding weeks. There were 9 deaths from cholera against 14 and 13 in the two preceding weeks. There was 1 death from small-pox during the week against 4 in the previous week. There was 1 death from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 23 and 91 respectively against 25 and 92 in the preceding week. The general death-rate of the week was 11.92 per mille per annum.

There were 66 imported deaths. Excluding these, the death-rate of the Town was 10.46.

There were 75 deaths from respiratory diseases against 69 in the previous week.

There were 30 deaths from tuberculosis against 31 in the previous week.

Added Areas (Wards 28-32.)

The number of deaths registered was 160 against 213 and 132 in the two preceding weeks. Of these, 1 was from cholera, nil from small-pox, 1 from influenza, 5 from fevers, 51 from bowel-complaints and 24 from respiratory diseases. The death-rate of the added areas was 12.15 per mille.

There was no imported death. Excluding this, the death-rate was 12.15.

There were 4 deaths from tuberculosis against 9 in the previous week.

NEW METHODS OF CRIME PREVENTION

In their attempts to devise new methods in crime prevention the Calcutta police have opened six camps in parks and other public places in the city for public contact as preventive measures recently. Police officers attached to these camps have been visiting houses in their localities seeking suggestions. They will also distribute 20,000 leaflets in English and Bengali issued by the Police Commissioner appealing for more co-operation in their campaign against rowdies and other anti-social elements during the Pujas.

Registers are also being maintained in these camps to record suggestions and complaints from the public.

Anti-social activities such as adulteration of food-stuffs, use of short weights, extortion of subscriptions during social ceremonies, teasing of girls are some of the problems which would concern the citizens mainly.

DUEL AVENUE

[By SHRI B. V. Roy, M.A.]

DUEL AVENUE is the name of a road in Alipore, and it bears this peculiar name because it commemorates the famous duel that was fought at this spot in August 1780, between Warren Hastings, the Governor-General of British India and his First Member of Council, Philip Francis.

Duels were very much in vogue in 18th century in England, and also of frequent occurrence in the English Settlement in Calcutta. The morality of the times required a public insult or a difference of opinion to be wiped out by fighting a duel. The following extract from an authoritative work (W. C. Sidney's "Eighteenth Century England") is interesting and illuminating:—

"Duelling was very prevalent in English life in the 18th century, and the reasons are not far to seek. In the first place, the fact must be taken into account that the condition of the London thoroughfares was so disgraceful until the later days of the century that it rendered all attempts on the part of the poor, feeble old watchmen to prevent and quell the daily, nay hourly disturbances of the public peace inefficacious. In the second place, the strife and rancour of political feeling, the brawls and squabbles of coffee-houses and taverns, love affairs, and beyond everything else, the universal mania for gambling tended to produce quarrels and irritations, and at the time when the canons of fashion declared swords to be indispensable articles of male attire, it can hardly be wondered at that duels were of such frequent occurrence as they were. . . . actuated by motives of pride utterly false, men considered it beneath their dignity either to acknowledge, apologise or retract, and held that all short-comings should be atoned for either at the point of the sword or mouth of the pistol."

When the English came to India and laid the foundations of the city of Calcutta in 1690, a large English "Settlement" grew up in Calcutta. These Englishmen, exiles in a far distant land, kept rigidly to the habits, manners and customs of their homeland, and one of the customs they had brought to Calcutta was that of duelling. The pages of the "Calcutta Gazette" (founded in 1784) contain many accounts of duels fought in Calcutta, as the following extracts will show:—

"19th July, 1784—Died, on Saturday morning, Lt. White, of an wound which he unfortunately received in a duel the preceding evening."

"31st May, 1787—Yesterday morning, a duel was fought between Mr. G. an attorney-at-law, and Mr. A. one of the proprietors of the Library in which the former was killed on the spot. We understand the quarrel originated about a gambling debt."

The duel was governed by punctilious methods of waging it: the choice of weapons lay with the aggrieved party and in most cases pistols were chosen, to fight duels with, swords hardly ever. Each opponent had to have a "second" to accompany him, to ensure fair play, to see to the loading of the pistols, to measure out the space between

the two combatants—generally 15 to 20 paces—to see that the pistols were of equal size (duelling pistols were sold in pairs, to ensure their being of equal size and bore). Then the two opponents would stand facing each other, with the arm holding the pistol outstretched, and both of them fired simultaneously at the drop of a handkerchief, or at the counting of one, two, three. As long as one of the combatants was wounded (or killed) honour was deemed to be satisfied.

Coming to the famous duel fought at this spot, Governor General Warren Hastings fought with his First Member of Council Philip Francis on the 17th August, 1780. At this period, Hastings was not only hard pressed for money, but was constantly harassed and balked in his actions by the strong opposition in his Council. Of the four Members of his Council, only Richard Barwell was on the side of Hastings, the other three, General Clavering, Colonel Monson and Philip Francis being ranged against him in opposition. Determined to bring matters to a crisis, Hastings penned the celebrated Minute of 3rd July, 1780 in which he wrote of Francis:—

"I judge of his public conduct by my experience of his private, which I have found void of truth and honour. This is a severe charge, but temperately and deliberately made."

Such an insult could not be allowed to go unchallenged, and a duel was arranged between Hastings and Francis. A detailed account of the duel was written out by Hastings' second, Lt. Col. Pearse, from which we obtain a clear picture of the punctilious manner in which the rules governing such "affairs" were carried out (a duel was always an "affair of honour").

Hastings and his Second Col. Pearse arrived at the spot fixed for the duel and found Francis and his Second Col. Watson, already arrived there. The time was about 6 o'clock in the morning. The spot fixed was "on the road leading to Alipore, at the crossing of it through a double row of trees that formerly had been a walk to Belvedere Garden on the western side of the house." Hastings disapproved of the spot chosen because it was dark and full of weeds. So after walking about a little "a retired, dry spot was chosen as a proper place." The pistols were then loaded by the seconds, and handed over to the contestants. The question as to the distance at which the contestants were to stand next came up. Col. Watson mentioned that "in a recent duel in England between Adam and Charles James Fox, they had taken fourteen paces, and he recommended this distance. Mr. Hastings observed it was a great distance for pistols, but as no actual objection was made to it, the two seconds measured out the distance. The contestants took then stand, Col. Pearse stating that it was a rule that neither of them were to quit the ground till they had discharged their pistols. Col. Watson proposed that both should fire together without taking any advantage, at which Mr. Hastings asked if he meant that they ought to fire by word of command. Col. Watson replied that he only meant they should fire together as nearly as could be. Francis and Hastings then "presented" their pistols but Francis'

(Continued on page 494)

THE TASHKENT WATERWORKS

[By V. KOROBOV]

"Water Clear cold water—boys with jugs filled the markets of pre-revolutionary Tashkent selling drinking water to the thirsty, carefully measuring each cup of this valuable liquid.

Prior to the revolution Tashkent, although being the administrative and economic centre of a vast territory in Central Asia, had no water-works. Only several houses had their private wells. The overwhelming majority of the population used the open aryks (irrigation ditches) for drinking water. This water was the source of various stomach ailments and epidemics. And although there were many sources of excellent drinking water near Tashkent's suburbs, the city languished for water.

Only after the setting up of Soviet power were the designs elaborated and then the construction of Tashkent's waterworks undertaken. The city was soon supplied with running water. At present the total length of Tashkent's water mains runs into hundreds of kilometres. It uses both underground and surface waters, carefully checking their taste and the absence of harmful admixtures. The water is cleaned and disinfected.

The head structures of the Tashkent water-works are situated in picturesque surroundings in the shade of a large grove. The cleaning of water from floating particles first takes place here in settling tanks. This is done by adding sulphuric alumina. While dissolving in the tanks, they form large flakes which rapidly sink, carrying with them mineral particles which are to be found in the water. However, this cleaning is regarded as being insufficient. Therefore, water from the settling tanks is passed through special filters. The next stage is the chlorination during which all bacteria in the water are killed. Only then is the water, completely cleaned and disinfected, pumped into the water mains.

Several laboratories have been organized on the territory of the cleaning station and the tanks. They continuously test the water.

The premises of the filter aggregates and pumping stations resemble medical establishments: immaculate cleanliness and order reign here. There premises have been painted with white oil paint, laid out with tiles and shine with nickel.

According to state standards, one cubic metre of drinking water should not contain more than one milligram floating particles. However, cleaning is so efficiently organised at the Tashkent water-works that only 0.5 milligram of particles are to be found in 1 cubic meter.

To achieve such a high degree in cleaning and to ensure the population with pure drinking water, a large staff of chemists, doctors-bacteriologists, sanitation engineers and mechanics are employed at the waterworks.

Mention should also be made of the high degree of the mechanization and automation of processes connected with the cleaning and supplying water to the population at the Tashkent waterworks. A worker by pressing a button raises or lowers slides weighing several tons. Sediments are removed from the settling tanks by special

dredges. The sulphuric alumina used for cleaning the water is ground by electric crushers. Automatic metres register the amount of water pumped into the city's mains.

At present automatic signalization devices are being installed at the head structures of the Tashkent waterworks. They will register the main indices of the cleaning equipment and the pumps, the water level, its pressure, etc. The dispatcher by the readings of the instruments mounted on the control panel has a clear picture of what is taking place in the settling tanks, the filters and the pumping stations. The most modern engineering devices are employed in the city's water-works.*

—DUEL AVENUE

(Continued from page 493)

powder being damp, his pistol did not fire. So Hastings came down from his "present" to give Francis time to rectify his priming; and this was done by putting fresh powder into the pistol. Again the gentlemen took their stands and presented together, and Mr. Francis fired. Mr. Hastings did the same, at the distance of time equal to the counting of one, two, three distinctly but not greater. His shot took place, hitting Francis. Francis staggered, and in attempting to sit down, he fell and said he was a dead man. Mr. Hastings hearing this, cried out "good god! I hope not" and immediately went up to him, as did Col. Watson, while Col. Pearce ran to call the servants. A sheet was then fetched, to bind up the wound, and a cot was brought, on which Francis was placed and carried to Belvedere, where a Surgeon (Dr. Cambell) attended on him. Hastings also sent his own Surgeon (Dr. Francis) to attend on the wounded man. He assured Hastings that the wound was not a mortal one.

In a letter written by Hastings a few days later to his wife, he wrote:ff

"I have now the pleasure to tell you that Mr. Francis is in no manner of danger, the ball having passed through the muscular portion of his back, just below the shoulder, and without penetrating or injuring any of the bones."

In a later letter Hastings wrote:

"Mr. Francis continues well and I promise his cure certain."

Thus ended the famous duel, which is commemorated in the name of "Duel Avenue" near Belvedere. By the end of the 18th century, it may be said that duels went out of fashion in England, and consequently in Calcutta as well. The last important duel fought in England, of which there is any record, was fought in 1798 between the Rt. Hon. William Pitt, M.P. and George Tierney, M.P. The quarrel arose out of certain derogatory expressions used by Pitt during a debate in the House of commons. The next day Tierney challenged Pitt and they met in a duel. Their pistols were discharged without either being hit, and honour was deemed to be satisfied.

CITY-NEWS-PARADE

OBITUARY: The death of Shrimat Swami Bishudhananda Giri Maharaj occurred on Saturday, the 31st August last, in a compartment of the Up Doon Express. Swamiji was then travelling in the Doon Express which had left Howrah on that night. When the train was between Burdwan and Asansol, he suddenly expired. Swamiji was 83.

The late Swamiji had been suffering for the last few months from chronic anaemia.

The late Swamiji was author of many books on Hindu religion and for some time edited a monthly journal known as "Sivam."

Prior to his becoming a Syannasi he was known as Shri Rishikesh Kanjilal, son of the Late Amar Nath Kanjilal of Pundaripur in the district of Jessore, now East Pakistan. He was a close associate of Shri Barin Ghose, the Upendra Nath Banerjee, Shri Abinash Chandra Bhattacharjee, and Shri Ullaskar Dutta and was an accused in the Alipore Bomb Case. He was convicted and sentenced to transportation for life. After independence he was granted a political pension by the West Bengal Government.

The weekly meeting of Corporation on the 6th September condoled his death and adjourned the meeting for ten minutes as a mark of respect to his memory.

A SHOW OF RUSSIAN INDUSTRIAL EQUIPMENTS comprising of heavy tools, tractors and printing machinery, high precision microscopes and consumer goods such as radiograms and gramophones was opened at the Trade Representation of the U.S.S.R. in India at their premises on Bishop Lefroy Road on Saturday, the 31st August, by Shri Bhupati Mazumdar, Commerce and Industries' Minister, West Bengal.

Varieties of cylindrical and surface grinding machines, sawing lathes, motors, transformers, switchgears and framing implements, motor cars, optical instruments and portable tools were on view at the showroom.

Welcoming all Mr. N. I. Vasiliev, Deputy Trade Representative of the U.S.S.R. in India referred to the growing volume of trade between India and Russia during the past two years. He said that Russia was striving hard to avoid laying a burden on India's trade and payment balances.

BIRTH OF AN INDEPENDENT ASIAN COUNTRY, MALAYA, was occasioned on Friday, the 31st August last. Through numerous celebrations the city observed the day.

In that connection an exhibition comprised mainly of pictures and literatures of Malaya was organised by the American Alumni Fellowship Centre at the office premises of the Air-India International, Dalhousie Square, on that day.

The Mayor, Dr. Triguna Sen unfurled the Independent Malaya's Flag at the exhibition room in presence of a distinguished gathering.

In opening it the Union Law Minister, Shri Asoke Sen hoped that Malaya would be a powerful force in the preservation of peace in the world.

Prof. Nirmal Kumar Siddhanta, Vice-Chancellor, Calcutta University, Dr. R. Ahmed, Agriculture Minister, West Bengal, and Dr. Kalidas Nag also spoke on the occasion welcoming the birth of a new Asian nation.

Similar sentiments were also expressed at another function organized on the day at the British Council premises, Theatre Road, by the Malayan Students' Association in Calcutta.

Shri B. K. Chengappa who presided at the function

and who had been in Malaya for long, wished the Malaysians success as a free nation.

Shri Sankardas Banerjee, the Speaker, West Bengal Legislative Assembly, and the Chief Guest at the function, said that that was a great day not only for Malaysians but also for Asians because she was the tenth Asian country to regain independence.

Indians speaking at these meetings expressed the feeling that there could be no greater occasion for them to rejoice than to see a neighbouring nation of theirs regaining independence after subjugation for long. They all read in this event the sign of the march of resurgent Asia towards progress and wished Malaya which had a large population of Indian origin, happiness and progress.

CALCUTTA EXPERIENCED ANOTHER HEAVY SHOWER on Sunday night, the 1st September. This continued until the early hours of next morning, resulting in many parts of the city being water-logged and traffic dislocation.

Alipore meteorologists said that the rain was caused by a depression which crossed the North Bay and spread over Gangetic West Bengal. The depression tended to move further north. The rainfall, recorded within 24 hours up to the morning on Monday, was about five inches.

On Monday morning almost all routes in the city tram services were seriously dislocated. The Tollygunge route was paralysed for a considerable part of the day due to the usual water-logging under the Tollygunge Bridge. The Shambhutan section, which is the main connecting line between the northern and southern parts of the city did not function until the afternoon. Other routes were also dislocated in the morning to certain extent. Some of the buses were diverted to avoid flooded areas.

DEMONSTRATIONS: A meeting organized by the West Bengal Secretariat Employees Association during the earlier part of last week demanded a Puja advance of Rs. 100 or one month's basic pay, whichever is less, to be paid at least 10 days before the Pujas to all non-gazetted employees. The money, the resolution suggested should be recovered in ten monthly instalments. By another resolution the meeting demanded alternative employment for those employees of the Settlement Department who have been declared surplus.

A large number of bank employees demonstrated in the Dalhousie Square area, Calcutta, on Wednesday, the 28th August last demanding 25% increase in allowances to compensate for the rising prices of essential commodities and reduction of bank advances against foodgrains. The employees demanded that these conditions to be complied with by August 31st, failing which they will "adopt the path of struggle."

Continuing their demand for an increased rate of Dearness Allowances of Rs. 5/- per month to each of the employees drawing a basic pay up to Rs. 350/- per month, the employees of the Corporation held a mass demonstration on Friday evening, the 30th August last when the weekly meeting of the Corporation was in progress. The employees carrying posters and festoons earlier paraded the streets and met at a rally on the lawns of the Central Municipal Office Buildings, S. N. Banerjee Road. A deputation of representatives also met the Deputy Mayor, Shri K. C. Basu, and many of the Aldermen and Councillors in the Mayor's office room wherein the demands were re-iterated. The employees were represented by Shri Abinash Chandra Bhattacharyya, Shri Biren Roy, Shri Santi Sen and others. The Corporation meeting was also adjourned for a few minutes to meet the employees' representatives. Later on there was another meeting at the Wellington Square by the demonstrators.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. I Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 13th September, 1957, up to 2 p.m.

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

OUR ALDERMEN AND COUNCILLORS

WARD NO. 15

SRI NAREN SEN

26, Manicktolla Main Road, Calcutta-11.

Son of Shri Ramani Mohan Sen Gupta. **SRI NARENDRA NATH SEN**, is one of the youngest members in the Council Chamber. He has not yet crossed thirty. Born in 1928 in the District of Faridpur, now East Pakistan, he has been in this city for long.

Though himself attached to one of the important political parties, namely Revolutionary Socialist Party of India, Sri Sen sought election as an independent candidate and still now maintains himself

in that spirit.

Since his youth Councillor Sen has associated himself with the Trade Union movement under his party banner. He is at present attached to about thirty labour organizations, several clubs and libraries and other different associations. And he devotes much time for their political as well as cultural upliftment. Himself being a bustee dweller he feels for the distress of the poor who live there and he has organised several dozens Bustee Unnayan Committees in his own area. He wants the bustee-dwellers to live like human beings. City's slum clearance problem has also attracted his attention.

WARD NO. 16.

SRI KALI CHARAN PAUL.

151, Manicktolla Main Road, Calcutta-11.

BORN in 1921, in the Manicktala area, Calcutta, **SRI KALI CHARAN PAUL** has been elected to the Corporation for the first time from Ward No. 16. His father late Shri Dasharathi Paul was an old resident of that locality. His success in the last Corporation is due to his hard organizing capacity and tenacity to achieve anything which he undertakes to do.

Councillor Paul has at his credit organizations of different clubs and institutions of varied natures in his locality. Lately he has extended his activities in the labour field, and many of the labour organisations under Messrs. Bengal Chemical and Pharmaceutical Works Ltd., owe their existences to him. Even he has sponsored co-operative movement among the workers in order to improve their lots.

Councillor Paul can claim philanthropic work at his credit and he participated in many of the relief works organized by Social Service Institutions. Another side of his life is his histrionic talents.

WARD NO. 17.

SRI TULSI CH. PAL

3, Beniatolla Street, Calcutta-5.

RETURNED from Constituency No. 17. **COUNCILLOR TULSI CHARAN PAUL** is an independent member. On the last occasion Councillor Paul was elected on Congress ticket but later on he resigned from the Party. He has never lagged himself behind from any activity of the House as a protest against wrong or injustice.

Aged 42 years Shri Paul is the son of Shri Atindra Nath Paul. He had his early days in this city and acquainted himself with the local affairs intimately. Educated in this city Councillor Paul is very keen in sports and each and every interesting game either in the local sphere or international sphere ever had escaped his notice.

In the Corporation he has a mission to fulfill. Ever since his election to the Corporation he tried hard to move the Standing Education Committee to which he was a member for long, for removing illiteracy from the city. This year he has been elected to the Standing Accounts Committee. One time Chairman of the Borough Committee No. 5 he is keen to effect improvements in civic services in his area.

WARD NO. 18.

SRI KAMAL KRISHNA PAUL.

92, Sovabazar Street, Calcutta-5.

SECOND son of late Sir Hari Sankar Paul, an Ex-Mayor of Calcutta, **COUNCILLOR KAMAL KRISHNA PAUL** has inherited many of the qualities of head and heart of his father. His grand-father was the late Shri Butta Krishna Paul, founder of the well-known druggists house in the city named after him. Councillor Paul is also associated with his family business as one of its enterprising partners.

Born in 1919, Councillor Paul was educated at the Scottish Church Collegiate School and even during those days he was attracted towards philanthropic work and public services in the locality he lived. Intimately connected with many of the clubs and associations in his constituency he is a great patron of sports and games.

Returned to the Corporation as a Councillor for the second time he has fully identified himself with the programme of service to the ratepayers as drawn up by the Congress Municipal Association to whom Councillor Paul is pledged.

WARD NO. 19 KRISHNA CHANDRA BYSACK

131, Sovaram Basak Street, Calcutta-7.

A member of the distinguished Bysack family of Burrabazar area COUNCILLOR KRISHNA CHANDRA BYSACK was born on the 16th October, 1916. The late Shri Sovaram Bysack, after whom a street runs in the Burrabazar area, is one of the illustrious ancestors of Councillor Bysack.

Entered in the Corporation in 1952, Councillor Bysack devoted all his energies for the expansion of primary education in the city. At the same time being inspired by the ideals of Gandhiji he has espoused the cause of the poor and downtrodden to whom civic amenities have been scant in one way or other. He is at present a member of the Standing Town Planning and Improvement Committee. He is also a Chairman of the Borough Committee No. 5.

Shri Bysack is very popular in his locality for his social and cultural activities. He has been a prominent member of Jorabagan Congress Committee. He had also been a Secretary to Burrabazar Sarbojonin Durga Puja Committee for long years.

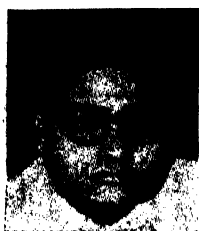

Councillor Bysack is attached to the well-known firm of Messrs. G. C. Bysack and Co., Engineers, Builders and Contractors, founded by his father the late Shri Gagan Chandra Bysack. His firm is known as one of the recognised architects and builders in the city.

WARD NO. 20.

SRI GOBINDO CHANDRA DEY

54, Ramdulal Sircar Street, Calcutta-6.

PRESIDENT of Borough Committee No. 3, COUNCILLOR GOBINDO CHANDRA DEY is one of the popular figures in the Corporation. Though comparatively young in age Councillor Dey has acquired considerable knowledge in the Corporation work. Within these few years he had been a Deputy Chairman in one of the important Standing Committees. Besides, he was taken in many of the Special Committees appointed by the Corporation whenever such occasion arose. This year

he has been elected to the Standing Town Planning and Improvement Committee as he used to take a keen interest in the improvement of gardens in the city.

Councillor Dey is also equally popular among the employees as he takes much interest in their well-being and improvement of their lots.

Born of a family devoted to trade and commerce, Shri Dey is the son of Shri Basanta Kumar Dey. Shri Dey is attached to the business of the family. He is also keen in sports and derives pleasure by witnessing games and sports in open fields.

WARD NO. 21 SRI BADRIDAS BURMAN

1, Madan Mohan Burman Street, Calcutta-7.

COUNCILLOR BADRIDAS BURMAN's association with the Corporation commenced long before he actually became a Councillor. He was a Councillor prior to the supersession period, and has been elected to the Council Chamber for the last two consecutive general elections from the same constituency. His keen interest in every affairs of the Corporation is due to his inheritance of such quality from his uncle late Dinabandhu Madan Mohan Burman, who had been a Councillor for long years.

Councillor Burman has also specialized himself in the Building Rules and Regulations of the Corporation because of his association to the Standing Buildings Committee for the last few years.

Amiable and well disposed towards all who come to him for help and advise, Councillor Burman is very popular in his locality. The family once being a pillar of the Burrabazar District Congress Committee, Councillor Burman still maintains the old relation. He is at present the President of the Ward Congress Committee. As a lover and patron of sports he desires that the standard of games and sports would be raised. He himself was one of the foremost swimmers and water-polo players during his youth. He is also keen to watch the sports and games in the fields.

WARD NO. 22.

SRI KRISHNA CHANDRA KUNDU

42A, Sita Nath Road, Calcutta-6.

THE forefathers of COUNCILLOR KRISHNA CHANDRA KUNDU belonged to those Kansabaniks who were the early inhabitants of the tiny village Sutanati and Govindapur, out of which the present metropolis has sprang up.

Councillor Kundu's family is well-known in the Simla area for their participation in social welfare work and also for their charming personal demeanour. And Shri Kundu is no exception to this. Besides, he is attached to more than two scores of clubs and associations in his locality in different capacities. This has paved the way in earning the popularity of 33-year old Councillor Kundu. He was one of the pioneers in establishing the Simla Bayam Samity, the famous youths and students' organization for physical culture in the city and started social work under the guidance of Shri Amarendra Nath Bose, M.L.A. Since then he has never dissociated himself from any youth of students' movements in this city. And as a recognition of his services he was sent abroad to represent the city's youths in the World Youth Convention held in Warsaw, Poland during 1955.

14th September, 1957

This year he has also attended the World Youth Festival in Moscow.

In the Corporation he was elected for the first time in 1952, as a Member of the United Citizens' Committee. This occasion he has been voted as an independent member. He rarely opens his mouth but whenever he speaks it bears much literary flavour and classical style.

WARD NO. 23.

SRI ROUF ANSARI

102, Meehuabazar Street, Calcutta-7.

THE only fluent Urdu speaker in the House is COUNCILLOR RAUF ANSARI and his speeches have attracted many to attend him because it carries emotion as well as feelings of his mind. He can speak in English also. Born in this city he had his education here. Having graduated in Commerce he earns his daily bread by establishing a small industrial concern. He edited a monthly journal *Subh Now* (New Morning), now defunct.

Councillor Ansari is also attached with different social, educational and cultural organizations in the city. Expansion of primary education among the bustee children is his main object in life and for that he had struggled for the last five years. The present Deputy Chairman of the Standing Education Committee, Councillor Ansari, hopes that his desire will be fulfilled. He was also Chairman of the Borough Committee No. 7 for one term.

WARD NO. 24.

DR. SUDHANGSU KUMAR SETT

3, Sir Hari Ram Goenka Street, Calcutta-7.

AGED 42 years COUNCILLOR DR. SUDHANGSU KUMAR SETT is at present the Deputy Chairman of the Standing Health Committee. Earlier, to this he served the Standing Accounts Committee and the Standing Town Planning and Improvement Committee.

Corporation work is familiar to Dr. Sett. As one of the younger brothers of the late Councillor Prabhangshu Kumar Sett, an important member of the House during the forty's, Councillor Sett has gathered considerable experiences in the work of social and cultural fields of his locality. As a practicing physician his name became known to all before. His philanthropy also added another step to gain popularity among the citizens and that is why he has been voted to the House on two consecutive terms. This time he has changed his party affiliation and has attached himself to the Congress Group.

OUR ALDERMEN AND COUNCILLORS

Son of the late Shri Pannalal Sett, Councillor Sett belongs to the old family of Sett-Basaks who claim themselves as the original residents of this city.

WARD NO. 25.

SRI HARINARAYAN SADANI

P-7, Kalakar Street, Calcutta-7.

ATTACHED to a number of social and philanthropic organizations located mostly in the Burrabazar area, SHRI HARINARAYAN SADANI has been elected for the first time to the Council Chamber.

He is the only member belonging to the Marwari Community who takes his seat in the U. C. C. bench.

Born in February, 1925, in this city Councillor Sadani entered the business field even when he had not closed his student life. But never was he found failing in his

duties and obligations towards the poor and the distressed. Almost every social movement in his area always receives his active support and patronage.

Within a short time Councillor Sadani has asserted himself among the members of the House. His efforts to remove the water scarcity from the Burrabazar area should receive recognition.

WARD NO. 26.

SRI BIVASHI CHANDRA GANA CHOWDHURY

57, Chive Street, Calcutta-7.

COMPARATIVELY YOUNGEST in age SHRI BIVASHI CHANDRA GANA CHOWDHURY, is also a new comer in the Corporation. He has been voted from a Constituency which is mainly inhabited by people devoted to business and commerce. Councillor Gana Chowdhury himself comes from the same community and runs a big business firm dealing with spices. This firm he has probably inherited from his father the late Shri Jogesh Chandra Gana Chowdhury.

He was born in 1928. The Gana Chowdhury's are the migrants to the vicinity of this city and has permanently settled at Salkia, Howrah leaving Tipperah, East Pakistan. The family has a philanthropic trend of mind and Councillor Gana Chowdhury is no exception to this. He is equally popular in the area he represents as well as in Salkia. In the Corporation he has been elected to the Standing Public Utilities and Markets Committee and aims to effect improvement in the city's markets.

WARD NO. 27.

SRI KISHORI LAL DHANDHANIA

42, Kali Krishna Tagore Street, Calcutta-7.

THE present Chairman of the Standing Finance Committee COUNCILLOR KISHORI LAL DHANDHANIA, possesses a better quality of experience in this field than many members of the House. During last five years as a Deputy Chairman of the said Committee he has shown much talent and efficiency for the improvement of Corporation finances. In the coming years under his stewardship the civic finances would sure to progress much. A balanced budget of the Corporation is his ideal for which he is striving at. As a Deputy Chairman he has piloted the Corporation's Annual Budget this year and it bore marks of his knowledge and wisdom. By virtue of his position Councillor Dhandhania has a large hand in the affairs of the Corporation including improvement of the lot of the employees, and to which he is fully befitted.

Born in 1913, Councillor Dhandhania had his education at Amraoti, Rajasthan. But the family had settled in this city long ago. Economics, Finance and Taxation were the subjects which attracted him most during his college days. He entered into the business field in the prime of his youth and gradually became the Director of many business houses and firms. As President of the Bharat Chamber of Commerce, an organization of Marwari Business Community his views are valued in the business world and advises are recognized even by the Government. Earlier he had been its Secretary for long and a Senior Vice-President. He is also attached to many of the social service organizations in his locality.

WARD NO. 28.

SRI KESHAB CHANDRA BASU

30/6/2A, Madan Mitter Lane, Calcutta-6.

COUNCILLOR KESHAB CHANDRA BASU is the present Deputy Mayor of Calcutta. His election in the year 1952, for the first time, foretold of his future. During this period he had been the Chairman of the Standing Works Committee. He was also an important member of the Standing Finance Committee. As a Solicitor of repute and having an intrinsic knowledge in his profession his presence was solicited in different Special Committees appointed from time to time by the House. Even this year he has been chosen as the Chairman of a Special Committee going into the lacunae of the Calcutta Municipal Act, 1951 and to suggest Amendments in this regard.

Being the Deputy Mayor, the House appreciated many of his qualities of head and heart. His knowledge in law has also solved many intricate problems the House came across during deliberations. Besides, the House has witnessed his gentle temperament, quick presence of mind and other qualities.

As a Chairman of the Borough Committee No. 4, he sincerely attempted for improving the civic services of the locality. He had a mind also to illuminate the city sufficiently. This idea he still cherishes as a Deputy Mayor of the city. Organizations aiming at to improve the city's cultural and sports' fields have always received his patronage.

Born in 1905, Shri Basu had his early education in this city. He was graduated in Science from the Scottish Church College and later on wore the silk in Law from the University Law College. He also stood first both in Intermediate and Final Attorneyship Examinations. He was awarded the Belchambers' Gold Medal in 1934.

At present a Senior Partner of Messrs. P. C. Ghosh & Co., a leading firm of Solicitors, the Deputy Mayor, Shri Basu is well-known in the High Court Bar and has earned a name there. He had visited many of the cities in the West and studied the civic problems there during his professional call in Europe in 1951.

'Learn to live is the motto' that the Deputy Mayor practices in his day to day life.

WARD NO. 29.

SRI SAMAR KUMAR RUDRA

2, Sibnarayan Das Lane, Calcutta-6.

AN Advocate as well as a Solicitor of the Calcutta High Court SRI SAMAR RUDRA has returned to the Corporation for the first time after defeating an important member of the former House as well as a veteran citizen of that locality. This justifies Shri Rudra's popularity in the area where he was born, spent his student days and started his professional career. His father late Shri Akshoy Kumar Rudra was also a Solicitor of the Calcutta High Court.

Born in the year 1920, Shri Rudra had his early education in this city. He took his M.A. in 1941 and passed the L.L.B. in 1942. He started the Lawyer's profession next year. He was enrolled as a Solicitor in 1948. He promises a bright future in his professional career. Shri Rudra is associated with most of the cultural and social organizations of his locality. He has a literary taste also and he can wield his pen through pathos and prosperity. He was the Editor of 'TARANGA' now defunct, a monthly journal.

Within these few months Councillor Rudra has established his position in the Council Chamber and his advices are very often sought for.

VIEWS AND REVIEWS

SARAT BOSE'S BIRTHDAY OBSERVED

Glowing tributes were paid to the memory of Sarat Chandra Bose through different functions in the city on Friday, the 6th September last. It was occasioned by the observance of the Sixty-eighth Birthday Anniversary of the departed leader of India.

A meeting was held in the evening at Netaji Bhawan, 38/2, Elgin Road, under the auspices of the Sarat Bose Academy, wherein Shri Bhupati Majumdar, West Bengal Minister for Commerce and Industries, presided. Shri Ganesh Ghosh, M. L. A., gave an illuminating talk on Sarat Chandra's activities and achievements.

The two rooms where Sarat Chandra lived in Netaji Bhawan, were kept open throughout the day inviting visitors to look into some of the personal belongings of him and to pay respect to that great leader.

The ideal which inspired Sarat Chandra to fight against the then foreign rule in order to achieve the country's freedom, was amply illustrated by Shri Majumdar in his speech. Himself being a past revolutionary he appreciated the traits of Sarat Chandra's character, 'the philosophy of which can hold an easy triumph over past and future misfortunes'.

The Minister continued that as an idealist Sarat Chandra never compromised with any form of injustice and whenever occasion arose stood resolutely in favour of justice. His patriotism was worthy of emulation. Even in the face of serious personal difficulties Sarat Chandra devoted himself completely to the service of the country, added Shri Majumdar.

Paying his personal tributes, Shri Ghosh, Chief Whip of the Communist Party in the State

Assembly, recalled the essentially democratic attitude of Sarat Chandra Bose. Though Sarat Chandra differed sharply from Communist policies still he never hesitated to show his sympathy for any genuine democratic movement sponsored by any political party of that group. His footsteps trod with all the liberal and progressive movements in the country and 'his seal was on his brow', he said.

Essentially good at heart Sarat Chandra shared the troubles and agonies of the political sufferers and he sacrificed everything he had for them and that is why his leadership was never disputed in the country, added Shri Ghosh.

At the end a programme of Rabindra Sangeet befitting the occasion, was gone through.

MAYOR'S EFFORTS TO MEET EMPLOYEES' GRIEVANCES

Rise in prices of essential commodities particularly of food-stuffs combined with a comparatively lower rates of wages, has prompted the employees of the Corporation to place their demands before the authorities for increased rates of pay as well as other emoluments. They have struggled hard in the past to make feel their grievances by the authorities. For the last few months they had fought for a minimum demand of Rupees Five as an increased rate of Dearness Allowance to all employees receiving a basic pay up to Rs. 250/- only per month. Demonstrations were staged to place the demand for more than once. This was in line with the rate of Dearness Allowances paid to the employees of the West Bengal Government placed on a similar status.

The Standing Finance Committee, mainly concerned with the Corporation finances, consider-

ed the problem sympathetically but their limited resources did not allow them to go far. At the initiative of the Mayor, Dr. Triguna Sen, the Standing Finance Committee moved all the corners and arrived at a decision to pay a 20 per cent. share of the additional Dearness Allowances to the employees. This would cost the Corporation more than Rupees three lakhs. It still needs the approval of the Corporation. The Standing Finance Committee's recommendation was made on Wednesday, the 11th September.

According to the procedure, 80 per cent. of the total amount of Dearness Allowances are met by the State Government. Representations had already been made to the State Government to meet the share of the additional Dearness Allowances. And happily, the West Bengal Cabinet at their meeting on Thursday, the 12th September, agreed to meet 80 per cent. of the cost involved in granting the Corporation employees, drawing up to Rs. 250/- per month, Rs. 5/- as additional Dearness Allowances, a portion of which may be given as a loan to the Corporation.

Earlier, the Mayor, in a statement before the House on Friday, the 6th September last, assured the employees of consideration of the employees' grievances. In that connection the Mayor also demanded stabilization of price of necessities "with an iron hand by the powers that be".

The Mayor said that the Corporation's share of the proposed increase in Dearness Allowance—(20 per cent.)—would be paid with retrospective effect from April 1 together with an advance of one month's salary before the Pujahs. The balance of the Dearness Allowances would be paid as soon as the State Government sanctioned it. He proposed a meeting with the Corporation administration and the representatives of the workers on a subsequent date to discuss the other demands of the staff.

The Mayor also said that he would fight for "living wages of the good and honest workers of the Corporation" provided the employees helped the Corporation to raise the revenue, realizing dues from tax-evaders. He opposed the idea of raising additional funds by curtailing essential civic expenses which would be required to pay increased Dearness Allowances to the employees. He did not favour the idea of levying extra taxes on the rate-payers.

Before conclusion, the Mayor also referred to the abnormal rise in the prices of all essential commodities and said that a few rupees' increase in income was not sufficient to meet the difficult situation.

On that day the employees of the Corporation, at a meeting at Subodh Mulla Square, held under the auspices of the Calcutta Corporation Employees' and Workers' Joint Committee, decided to serve a two-week strike notice on the administration on September 11, if no satisfactory settlement regarding their demands was reached in the meantime. Accordingly they met on the fixed day but could not arrive at a final decision.

In the meantime the Mayor met representatives of employees for over an hour on Monday,

the 10th September, to discuss the demands. The Commissioner, the Chairman and some members of the Standing Finance Committee, officials of the Law and Accounts Departments, and several Councillors were present.

The Mayor emphasized that the agreement arrived at between the Corporation and the Unions' representatives in November should be taken up for immediate implementation. This covers most of the employees' demands.

The Mayor through another statement in the House, on the 18th September, said that he had met the employees and considered their

DEATHS AND DISEASES IN THE CITY

Although not in an epidemic form still deaths from Influenza numbered two in the city during the week ended the 7th September against three the week before. The number of attacks were 704 against 776 in the week before. These figures relate to patients attending hospitals. Besides, a considerable number of 'flu' patients were treated at home during the week. During the corresponding weeks last year no death from the disease was reported.

Cholera attacks and deaths were 16 and 11 against 14 and eight the week before. During the corresponding weeks last year, attacks numbered 12 and 11, and deaths six and 10.

Attacks and deaths from small-pox numbered three each against four each the week before. In the corresponding fortnight last year, attacks numbered 19 and deaths eight.

Forty-three persons died of tuberculosis during the week against 52 week before, and 50 each in the corresponding weeks last year.

Next to tuberculosis, the biggest killer during the week under review was diphtheria, the disease accounted for 18 deaths against nine in the preceding week.

Deaths from all causes totalled 655 against 692 in the week before, and 674 and 704 in the corresponding weeks last year.

grievances sympathetically. He also referred to the Bi-partite agreement made last year between the Corporation authorities and the employees. He assured the House that the Standing Finance Committee would make a fresh study of their grievances at the earliest opportunity.

Dr. Sen also said that the full implementation of the agreement could not be done due to the fact that the report of a Wages Committee, set up earlier, to determine the minimum wages of the municipal employees in Calcutta and Howrah was still forthcoming.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE EIGHTEENTH ORDINARY MEETING OF CORPORATION HELD ON FRIDAY, THE 6TH SEPTEMBER, 1957.

CITY'S FOOTPATHS

At the outset, Councillor Purnendu Sen Gupta, complained against deteriorated condition of footpaths in the city. He also referred to obstruction to pedestrian traffic by unauthorized improvised temples and trees on footpaths which were worshipped in certain areas. In that connection he also cited the construction of a temple near the Hatibagan Market lying within the Ward represented by him. Councillor S. K. Gupta, I. C. S., Chairman of the Improvement Trust, also requested Councillors to see that such practices did not cause obstruction in their respective areas. He referred that in the past the C. I. T. had experienced difficulties while undertaking improvement work in the northern part of the city.

STREET LIGHTING

During discussion on matters of public importance, Councillor Satyananda Bhattacharyya referred to the inconvenience the citizens in certain parts of the city were experiencing because of inadequate lighting arrangements in public thoroughfares. He also felt the need of uniform lighting arrangements throughout the city as the present practice lead to leave a few areas comparatively dark while others brilliantly illuminated. The member urged the House to take up the matter with the Oriental Gas Company without delay as crime in those areas was increasing and was likely to further endanger public life during the Puja festival.

The Mayor, Dr. Triguna Sen, who presided, assured the House that the matter would be looked into.

ASSESSMENT IN TOLLYGUNGE AREAS

Councillor Nripendra Nath Banerjee pointed out some of the alleged irregularities in assessment of holdings lying in Tollygunge area. He said that the rate-payers were required to pay rates and taxes at higher levels than an ordinary rate-payer living within the city and having almost similar holdings. Councillor Banerjee in this connection referred to the past assurance of the State Government indicating that in spite of Tollygunge Municipality's merger with the Corporation the procedure of assessing holdings would be undertaken as provided under the Bengal Municipal Act, at least for the years up to 1958.

The Mayor, Dr. Sen, however, requested the Commissioner, to look into the matter.

DESHPRAN SASMAL ROAD

The House decided to re-name the portion of Russa Road from Tollygunge Railway Bridge to

Tollygunge Train Depot as Deshpran Sasmal Road. The re-naming was jointly recommended by the Borough Committees Nos. 14 and 16. The road re-named is the continuation of Dr. Syama-prasad Mookerjee Road.

The late Deshpran Birendra Nath Sasmal, one of the leaders of Bengal during the early twentieth century, requires no introduction to the readers. He was a leading Barrister of the Calcutta High Court, an important legislator, as well as an orator of high order. He struggled for the cause of India's independence and suffered much. He used to live in that part of the city.

NIGHT SCHOOLS

The House on the recommendation of the Standing Education Committee, allowed Kalidas Memorial Free Primary Night School and Adarsha Pragati Club to hold night schools in the premises of Corporation Primary Schools at 59, Anherst Street and 8 B, Ganga Narayan Dutta Lane, in the northern part of the city.

DRAFT BYE-LAWS

The House, on the recommendation of the Standing Works Committee, forwarded for final approval by the State Government under Section 581 of the Calcutta Municipal Act, 1951, the draft of the Bye-Laws under Section 527(17) of the existing Municipal Act, prohibiting or regulating the placing of obstructions, projections, encroachments or the depositing of materials or goods in a public street or in or over any drain or aqueduct in a public street or any land vested in the Corporation. The Draft Bye-Laws have been duly published in the 'Calcutta Gazette' and local newspapers.

The House also assured the existing tall-holders on pavements having temporary structures that they would not be disturbed if their structures had not disturbed the pedestrians or citizens. This arose while the House was discussing the recommendation. Councillor Subrata Kumar Sen Sarma opposing the resolution, said that alternative arrangements should be made for those stall-owners who were to be removed from footpaths and other public places, otherwise the poorer traders would be hard hit.

A NEW DEPUTY CHIEF ACCOUNTANT

In pursuance of a letter from the Municipal Service Commission and based on the subsequent recommendation of the Standing Finance Committee, the House appointed Shri Subimal Chatterjee substantively to the post of Deputy Chief Accountant (Budget and Revenue) on Rs. 600/- p.m. in the grade of Rs. 600—800 plus the usual allowances subject to Service Regulations in the Corporation.

APPOINTMENT OF SPECIAL OFFICERS

Based on the recommendation of the Standing Finance Committee, the House appointed the following Special Officers for a period of six months with effect from 16th October, 1957, to hear objections to the valuation of properties made under Chapter XI of the existing Calcutta Municipal Act. The officers have been appointed on a fixed pay of Rs. 600 per month each or on a salary on the basis of pay admissible to them. The appointments are subject to the approval of the West Bengal State Government as provided under the existing Municipal Act:

- (1) Shri Subodh Chandra Mukherjee, Choudhurypara, Sarsuma.
- (2) Shri Gouri Sankar Chatterjee, 16, Anath Deb Lane.
- (3) Shri Gauri Pada Mukherjee, Plot 485, Keyatola Road, West.

The recommendation on the appointment of special officers to deal with pending cases of assessment of properties was debated long. Several members demanded reorganization of the Assessment Department. Some members said that the practice of appointing retired Government officers as Special Officers on a temporary basis was not a happy one. Permanent officers would be more responsible. They also felt the need of appointment of the Third Deputy Commissioner permanently as he would help to deal with the pending Assessment cases as well as would help the administration.

Councillor K. L. Dhandhaniala, Chairman of the Standing Finance Committee said that Special Officers would be necessary as 11,000 Assessment cases were pending and every year there were 5,000 to 10,000 fresh ones. Special Officers would also

LANGUAGE PROBLEM AND WEST BENGAL

Educationists, writers and Intellectuals in city meeting together on Sunday, the 8th September strongly pleaded for retention of English, for an indefinite period, as a medium of the Union Public Service examinations. It also felt that English should continue to receive special attention as an integral of higher education.

Shri Naren Deb presided over the meeting. Prominent among the participants included Dr. Srikumar Banerjee, Prof. Nirmal Chandra Bhattacharyya, M.L.C., Shri Buddhadev Bose, Quazi Abdul Odud, Shri H. K. Sanyal, Shri Prithwish Chakravarty, Shri Soumendra Nath Tagore and Prof. Andan Dutta.

The meeting entrusted Shri Naren Deb with the task of formation of a Committee to give a shape and guide the movement to be undertaken in this respect.

The meeting, while yielding to none in goodwill towards Hindi language and Hindi-speaking people and in its determination to strengthen the unity of India, was firmly of opinion that education at all stages should be imparted, as far as practicable, through the medium of mother tongue. It felt that it was a delusion to believe that English, through which the country in the past had drawn from the thoughts and literatures of the world and particularly of the West, could be made to cease as an official language of the country without its being increasingly neglected in educational institutions.

be necessary for some additional work such as the assessment of Central Government property in Calcutta. He promised to look into allegations of delay and to expedite disposal of assessment cases.

It may be noted here that the Union Governments' Ministries of Finance, and Housing and Supplies have agreed to pay in advance part of the sum of Rs. 50 lakhs claimed by Calcutta Corporation in respect of enhanced consolidated rates on Central Government property, other than railways, and service charges for Government buildings. The Corporation has a total claim of Rs. 93 lakhs.

Under the Constitution, Union Government property is not generally taxable but a clause states that property which was taxed before 1937 is rateable. The service charge has been fixed at 20 per cent. of the valuation of the property. When the arrears are cleared, the Corporation can expect an increase of Rs. 10 lakhs in its annual revenue. The Government has also agreed to pay an enhanced rate of charges provided they are duly revised by competent officers, mostly belonging to Judicial Services.

HANDING OVER A ROAD

The House, on the recommendation of the Standing Town Planning and Improvement Committee, handed over Russa Road South and Banskhandani Road known as Netaji Subhas Chandra Bose Road, Tollygunge, to the Government of West Bengal for a period of 10 years subject to the condition that the Government should improve the road by providing lights, road-side trees, conservancy services within the time-limit.

LETTER TO THE EDITOR**SEGREGATION OF LEPROSY**

To THE EDITOR, "CALCUTTA MUNICIPAL GAZETTE"

Dear Sir,

As the secretions of the Leporous persons produce leprosy, they should never be allowed to come into contact with the healthy individuals. They must invariably be isolated in the Leprosy Asylums.

At the present moment the lepers are allowed to go freely and come in contact with their healthy neighbours. Besides a large number of lepers who are professional beggars move about in all directions of the city.

Viewing the disease with much concern the Corporation should undertake an intensive campaign through the CALCUTTA MUNICIPAL GAZETTE, in order to arouse the feeling of the citizens the need of segregation of those patients and this to save the healthy public of this crowded city from this awful contagious disease, which is specially dangerous in the tropical climate of this country.—

Yours etc.

BIJOY GOPAL ROY.

SANTI NIKETAN,
3/2, Rajapara Lane, Baghbazar, Calcutta.
The 19th August, 1957.

NIKHIL BHARAT BANGABHASA PRASAR SAMITY

Twentieth Annual Convocation

Growing popularity of Bengali among the non-Bengali population both Indians and foreigners living in this country is so much keen that the NIKHIL BHARAT BANGABHASA PRASAR SAMITY has to open its teaching centres as far as Bombay and Trivandrum. This was disclosed when the Samity held its Twentieth Annual Convocation on Sunday, the 8th September, at the premises of the Ballygunge Government High School, Pudda Pukur Road. Forty-four non-Bengalees were awarded medals and certificates for passing different examinations in Bengali by Mrs. U. Tin Mang, wife of the Consul-General for Burma in Calcutta.

Rai Harendra Nath Chaudhuri, Education Minister, West Bengal, presided over the function. Dr. Atul Chandra Gupta, President of the Samity, welcomed all. It was attended by the elite of the city. Dr. P. N. Banerjee, a former Minto Professor, Economics and Politics, Calcutta University, Dr. S. K. Banerjee, former Ramtanu Professor of Bengali, Shri O. C. Ganguly, well-known artist, Dr. A. C. Banerjee, a former Vice-Chancellor of the Allahabad University, Rev. Bhaikshu Jinaratna were also present. A

Rai Harendra Nath Choudhury in his presidential address said that the Samity was doing useful work which would help to cement good feelings and unity amongst the various linguistic groups of people in India. He also felt that the Samity deserved support from all quarters.

Dr. Atul Gupta felt that in order to give long life to the Samity adequate pecuniary help should be ensured.

The Chief Guest of the function, Shri Damodar Das Khanna addressed the gathering in Bengali. He said that all non-Bengali speaking people living in Bengal should adopt Bengal as their Motherland and learn Bengali.

Shri Jyotish Ghose, the Founder-Secretary, in his report said that owing to heavy demand from many of the States, the Samity had to open centres in Bombay, Cochin, Trivandrum and Madras; and had to introduce teaching of Bengali by postal correspondence. He declared that an essay competition in Bengali had been introduced in Rangoon University and endowed for a prize of Rs. 100 annually in memory of Dr. Shyamaprasad Mookerjee.

Mrs. U. Tin Mang distributing a prize to
Miss Francis Major.

programme of dance and music including solo songs in Bengali, performed by non-Bengali students, delighted the audience. The recipients of prizes included Miss Francis Major, an American lady who won a Gold-gilt Medal for standing first among the ladies in the Final Examination, Shrimati D. L. Wangdi (wife of Dy. Minister Shri T. Wangdi) who was awarded Rev. Jinaratna Medal for being first among the hill people and others.

The State Governor, Shrimati Padmaja Naidu, who could not be present, in her message expressed her desire to watch with interest the progress of the Samity and promised her help and co-operation to achieve its objective.

In a message given on the occasion, Dr. B. C. Roy, the State Chief Minister, said that the Constitution of India laid down that Bengali and any other regional language could be developed for the solidarity of Indian Union. The richness and tradition of Bengali language were well-known. Its spread and culture did not at all stand against the development of the official language, rather it would help its growth. He congratulated the Samity on its successful efforts to teach and spread Bengali to non-Bengali speaking people and foreigners.

VITAL STATISTICS

For the City of Calcutta for the week ending
31st August 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 632 against 662 and 699 in the two preceding weeks and less than the corresponding week of the last year by 12. The general death-rate of the week was 11.85 per mille.

TOWN (WARDS 1-27)

The number of deaths registered during the week ending 31st August, 1957, was 551 against 490 and 539 in the two preceding weeks. There were 2 deaths from cholera against 5 and 9 in the two preceding weeks. There were 2 deaths from small pox during the week against 1 in the previous week. There were 3 deaths from influenza against 2 in the previous week. The mortality from fevers and bowel complaints amounted to 22 and 98 respectively against 13 and 81 in the preceding week. The general death-rate of the week was 11.75 per mille per annum.

There were 66 imported deaths. Excluding these, the death-rate of the Town was 10.29.

There were 67 deaths from respiratory diseases against 41 in the previous week.

There were 45 deaths from tuberculosis against 19 in the previous week.

ADDED AREAS (WARDS 28-32.)

The number of deaths registered was 161 against 172 and 169 in the two preceding weeks. Of these, 6 were from cholera, 1 from small-pox, nil from influenza, 11 from fevers, 53 from bowel-complaints and 25 from respiratory diseases. The death-rate of the added areas was 12.23 per mille.

There was no imported death. Excluding this, the death-rate was 12.23.

There were 7 death from tuberculosis against 3, in the previous

Spot-Light On Corporation Primary Schools

[By **SEENI HANDEESENDA SARKA, M.A.**]

THE right of every child to education has become an universally recognized feature. Wise men are alert to make the primary education free and compulsory in almost all the civilized countries in the world. Unfortunately the facilities and opportunities for primary education have not been equally developed in all the parts of India. Even if we concentrate our attention on the present educational system of Calcutta this view does hold good. This defect was severe a few decades ago in this picturesque city like Calcutta. It was perhaps the dream of our great citizens to see that every child is given the full opportunity of education. It had inspired Deshabandhu Chittaranjan Das, the First Mayor of Calcutta, to embark upon a scheme of free primary education in this city in 1924. It is only through his realization and initiation that the scheme has been materialized to-day to a great extent. The Calcutta Corporation's successful progress in spreading primary education in the city has also inspired others to follow.

In order to evaluate the progress of education under initiation of the Corporation we should look upon the progress of the number of students attending schools every year. A study of the percentage of the number of births registered in the city is also given with it. A similar study has also been made in the educational system in most of the advanced countries of the world. The U. S. A. occupies the top-most place in this field. In Calcutta, the birth-rate is generally low and to arrive at a somewhat correct idea in this regard we should qualify the causes of this down-swing birth-rates. Many citizens find it advantageous to send women outside the city to their native places at the time of birth of child. This arrangement is resorted to in order to avert the troubles of getting the women admitted into the congested maternity hospitals and as a result these births are registered in places outside the city, but after sometime the mothers with their babies in their arms are brought in and their education starts in in this city. A Table is given herewith containing the increase in percentage of births *pari-passu* with the increase in percentage of number of students from 1926 to 1951.

TABLE A.

Year.	Percentage of students.	Increase of births.
1926	162	90
1927	138	92
1928	106	132
1929	109	104
1930	105	102
1931	108	114
1932	103	94
1933	104	104
1934	102	99
1935	100	98
1936	104	121
1937	103	87
1938	103	106
1939	101	104
1940	98	101
1941	87	99
1942	65	83
1943	136	99

Year.	Percentage of students.	Increase of births.
1944	112	111
1945	106	128
1946	82	121
1947	125	99
1948	116	121
1949	97	143
1950	107	84
1951		

It is clear from the above data that except a few years from 1940 to 1942 the record of progress in the field of primary education is after all satisfactory. The period from 1940 to 1942 is also known as abnormal period. War threats knocked at the doors of the city. Many a citizen left the city during this period lest war disasters should make heavy havoc in their lives. Thus we see that the data of birth as registered in this city do not fully reveal the actual number of children receiving education. At the same time it should be remembered that there are still many primary schools in the city attached to higher standard schools. An additional number of schools is also maintained by private professional men. The number of children in those schools is also several thousands. So, these facts should be taken into consideration before we assess the position of primary education in this city. After the partition of Bengal, a large number of families migrated to this city from East Pakistan with their children. Many of them were admitted in the primary schools of the city for education but their births had not been enrolled in the Birth Registers maintained by the city's Health Officer. This is another consideration before drawing a correct picture of the city's educational progress.

A further examination of the data regarding increase percentage of boys and girls in the Corporation Primary Schools has been made showing a comparative increase in percentage of births of boys and girls in the city from 1942 to 1950 through another Table 1, given below:—

TABLE B.

Year.	Increase in percentage of births of males.	Increase in percentage of boy students.	Increase in percentage of females.	Increase in percentage of girl students.
1942	71	60	64	72
1943	101	136	109	136
1944	101	113	110	112
1945	125	108	128	107
1946	120	82	122	82
1947	98	123	100	127
1948	123	124	119	108
1949	140	96	146	92
1950	105	101	106	113

The above Table, no doubt, discloses a satisfactory progress in the field of primary education for boys and girls. The achievement of the Corporation in this sphere is praise-worthy. For long time past the female education in our country was neglected. But to-day, much attention is being focussed on this sphere and the Education Department of the Corporation has so far discharged their duties satisfactorily.

In the following Table we shall attempt to show the percentage of teachers in proportion to students studying in the Corporation Primary Schools from 1925 to 1951.

TABLE C.

Year.	Total number of teachers.	Percentage of Female teachers.	Pupils per teacher.
1925	180	19	53
1926	315	26	45
1927	513	29	34
1928	718	31	32
1929	827	34	31
1930	896	34	32
1931	945	35	31
1932	986	37	31
1933	1,038	36	31
1934	1,052	37	30
1935	1,092	38	32
1936	1,086	38	32
1937	1,113	38	32
1938	1,150	38	31
1939	1,184	38	31
1940	1,184	38	31
1941	1,150	38	27
1942	1,166	36	18
1943	1,110	37	26
1944	1,083	37	30
1945	1,035	37	31
1946	1,083	37	26
1947	1,050	40	32
1948	1,068	40	38
1949	1,047	40	36
1950	1,049	42	42
1951	977	43	..

It is an admitted fact that women are best suited in rearing up children and many of the advanced countries have obtained good results by plying female teachers in primary schools. For comparative study we give below another Table that shows the percentage of female teachers to the total number in certain countries.

TABLE D.

Name of Country.	Percentage of female teachers.	Pupils per teacher.	Percentage of literacy.
Alaska (U. S.)	86	27	73
Bermuda (U. K.)	87	29	82
Burma (Union of)	31	47	18
Ceylon	43	38	44
Italy	73	29	75
Portugal	81	41	44
Yugoslavia	63	59	66

From the above Table it is evident that the Calcutta Corporation lags behind most of the occidental and American countries in employing female teachers in the Primary Schools. But it has remarkably proved its superiority to any other countries in Asia in this field. In Calcutta, the percentage of female literacy in 1951 was 46 and so we can expect that more female teachers should be absorbed in the Corporation Primary Schools. Pupils per teacher in the Corporation Primary Schools are more or less static. If the number of pupils be lowered per teacher then larger attention for each pupil is possible on the part of a teacher. Any system of education

must be based on a right nature of the soul. In early years, imagination, fancy and feelings play a predominant part in the life of an individual. Education is not anything but enables the soul to see the beautiful and the good. Hence it deserves the special care for every child and the creation of right surroundings and environment can by no means be ignored. Most of the pupils of the Corporation schools come of a lower or lowest income group families. It is no denying the fact that the responsibilities of teachers to train up these children are very important. From this point of view a teacher should not be entrusted with a larger number of students.

The expenditure on education should also be considered to form an opinion and to conclude on the sufficiency of expenditure per student. The Table below will speak of expenditure on primary education by the Corporation.

Year.	Total expenditure (in thousand rupees).	Expenditure per student.
	Rs.	Rs.
1925	2.62	25
1930	11.03	39
1935	13.39	41
1940	15.86	44
1945	14.45	43
1950	19.55	48

The above figures for expenditure on primary education are very inadequate in relation to the task. From 1925 to 1950 the expenditure per pupil is in an increasing state. It is hoped that in course of a few years the allotment of expenditure per head will be made on reasonable grounds. Six rupees per student in a month is not only inadequate in view of the needs of poor students but also a cause of negligence to improve the conditions of students. Most of the students in the primary classes of the Corporation schools are of ill health. It is urgently necessary for the Corporation to pay proper attention to improve their health by way of free medical treatment and by providing free medicines. Though the medical assistance is being rendered to the students yet can we say with certainty that the health of the children has improved up to satisfaction? The parents of the students are too poor to provide their children with sufficient quantity of food—not to speak of nutritious food. Purchase of books and other necessary equipments for their wards are burdens upon them. As the Corporation has undertaken it as a sacred duty to impart education among illiterate and poverty-stricken children of the city so it should look upon many of their daily problems. To improve standards at the rate at which they have been advancing in the last few decades will require greater efforts. An effective way in which the Central and State Governments can aid these efforts is to reduce their tax bills. Such action should make it easier for the Corporation to raise additional funds for the primary schools without increasing the total tax burden on the citizens.

In fine, we shall add that education has a vital role to play in our modern democratic life. Our form of Government presupposes educated citizenry. And unless free and universal education in the primary stage of the city schools be encouraged as early as possible this cannot be achieved.

CITY NEWS PARADE

OBITUARY: The death of Shri Barada Charan Dutt Roy, M.A. F.I.A.C., the late professor of Vidyasagar College and a noted educationist and journalist occurred on August 28 last at his residence at Bechu Chatterjee Street. He was 59.

The late Shri Dutt Roy was the Editor of 'VOTRANG', 'Nayak' and many other journals. He was connected with many public institutions and founded the Salesmanship Institution. He hailed from Tipperah district.

PRINCE WAN WAITHAYAKON OF THAILAND and President of the U.N. General Assembly, and his wife among 30 passengers, made an unscheduled halt at Dum Dum Airport on Thursday, the 5th September last, on account of engine trouble. The plane was on its way to Karachi from Rangoon in the course of a round-the-world flight.

Prince Wan and the Princess spent the night at Raj Bhavan.

SCIENTISTS FROM INDIAN UNIVERSITIES met at a Conference at Calcutta University Science College, recently.

The discussion started on Monday, the 9th September. That day they spoke of the need for improvement of University syllabus, methods of teaching, and the condition of teachers. It has been sponsored by the University Grants Commission. Representatives of Research Institutes are also attending it.

Dr. D. M. Bose, Director, Bose Research Institute, who presided on that day, emphasized that there should be a uniform syllabus for all Indian Universities. Professor N. W. Buchner of the U.S.A., who is now on a visit to India under the wheat loan exchange programme, said that Indian Universities should play a more important role as initiators of research work and independent thinking.

BAGHA JATIN DAY was observed in the city on Monday, the 9th September, through different functions. The exploits of Jatindra Nath Mukherjee, the hero of Balasore battle with the British forces in Orissa were recalled at those functions. A meeting was held at the Federation Hall, on that evening, Shri Suresh Chandra Das presiding.

At the meeting, resolutions were passed urging the Chief Minister of Orissa and his other Cabinet colleagues to take immediate steps for building a suitable memorial at the spot where the great leader fought with the British for Independence. The Calcutta Corporation was also requested to re-name the Cornwallis Street after Jatindra Nath Mukherjee. It also appealed to the publishers of West Bengal to bring out more books on the life and times of the revolutionaries of the country so that authentic records could be placed before the reading public.

In the morning a memorial service was held at the Azad Hind Bag. The Mayor, Dr. Triguna Sen garlanded the statue of Jatindra Nath. Many speakers including Shri Bhupati Majumder, Minister, West Bengal, Dr. Bhupendra Nath Dutt, and Shri Harikumar Chakraborty, associates of Jatindra Nath, spoke about the life and struggle of this brave son of Bengal. On behalf of Madaripur Santi Sena a guard of honour was provided before the statue of Jatindra Nath.

SOCIAL CRIMES: The enforcement branch police arrested a post-man attached to Shyambazar Post Office on

Wednesday, the 4th September last, on a charge of mis-delivery of a registered letter containing a permit for three tons of cement.

Police also arrested two coolies on Lake View Road, South Calcutta on the same day following seizure of one bag of cement without permit from them.

Police arrested on Sunday, the 8th September the owner of a fair price shop on Manicktala Main Road for alleged hiding of rice stocks supplied by the Government.

One Mohammad Ismail was arrested on Howrah Bridge Approach for carrying three maunds of wheat without a permit. Three handcart-pullers with 10 bags of cement were also arrested on Lansdowne Road on the same day.

Sudhir Kumar Chakravarty, the owner of a fair price shop on Dum Dum Road, and two others were arrested on Tuesday, the 10th September on a charge of removing a bag containing one and a half maunds of wheat from the shop.

CALCUTTA EXPERIENCED A VARIED NATURE OF WEATHER during the last few days. Thunder-showers accompanied by gusty wind occurred over the city a little before midnight on Thursday, the 5th September last. The wind speed was about 22 miles an hour, from the south-west, over Dum Dum. According to a meteorological expert such thunder-showers usually occur at the tail end of the monsoon over Gangetic West Bengal.

This was followed by a heavy thunder-shower on next day. The downpour, which began at about noon, was confined to the city's central and northern areas and continued about two hours. The rainfall recorded about .7 cm.

The Dalhousie Square area, low-lying parts of Chittaranjan Avenue, and other zones were water-logged, partly disrupting tram services. Buses were diverted to avoid the inundated localities.

Portion of the tower of a church at the crossing of Central Avenue and Bowbazar Street toppled down during the rains.

It may be recalled here that the Corporation has acquired five portable pumps to drain water from low-lying areas after rain. They will shortly be put into service in Cossipore, Manicktola, Tangra and Tollygunge. They will pump water at the rate of 30,000 gallons per hour.

MR. C. J. M. ALPORT, Parliamentary Under-Secretary of State for Commonwealth Relations, U.K., was given a Reception by Shri Sankaradas Banerji and Dr. Saniti Kumar Chatterjee, Presidents of the Commonwealth Parliamentary Association, West Bengal branch, on Saturday, the 7th September last at the Assembly House.

Mr. Alport said that through the Commonwealth Parliamentary Affairs Association they got into friendly contact with others. He was convinced that however strong and powerful a Commonwealth member might be its strength and power was far greater inside the Commonwealth than outside because of the strength it would gain from this association of the nations. He himself was anxious to see India and particularly meet the personalities who guide the affairs of India.

Dr. Saniti Kumar Chatterjee, in welcoming Mr. Alport, referred to India's association with Britain and said that this Commonwealth to which India still belongs—as a political institution, had a great potentiality. The Commonwealth would, he believed, be a great force for the good of the humanity.

Shri Sankaradas Banerjee proposed a vote of thanks. A large number of M.L.A.s and M.L.C.s and distinguished guests were present on the occasion.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for..." on the 17th September, 1957, up to 2 p.m.

Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year "A" class coolies have been allowed Yellow arm badges with Red numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

OUR ALDERMEN AND COUNCILLORS

WARD NO. 30.

SRI BARENDRA KRISHNA DAW

81, Beniatola Lane, Calcutta-9.

PROBABLY, among the lawyer members in the House COUNCILLOR BAREND DAW is the youngest in age. But still he possesses a power of quick judgement and witty mind. He was for one-term the Chief Whip of the United Citizens' Committee Party in the Corporation. Lately as a Secretary of the Party he was more responsible for its consolidation and integration in the House. It would not be exaggeration to say that the return of larger number of Members under the banner of the Party was due to his untiring efforts. His suggestions in the Corporation carry weight and as a Corporator he can render practical suggestions to tide over difficulties.

Youngest son of the late Shri Nilmony Daw, Councillor Daw is a very popular figure among the students and youths in his locality mainly the College Square area. He had been an active participant of both in-door and out-door games under the Calcutta University Institute or Y.M.C.A., College Street Branch. Still now he is actively connected with many of the clubs and associations.

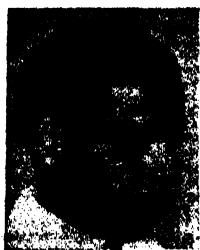

Besides, Shri Daw is an active political worker. His political career started even when he was a school-boy during the 1930's Movement as a volunteer under the banner of the Indian National Congress. During 'Quit India' Movement in 1942 he was sentenced to undergo imprisonment and later on was detained as an under-trial prisoner till 1945. He worked whole-heartedly for the restoration of communal harmony in the city. He had been to Noakhali for the same pursuit. And with much devotion and earnestness he carried the recent campaign of Anti-Merger Movement. He also participated in other movements sponsored by the people either for the economic freedom or for social upliftment.

WARD NO. 31.

DR. K. P. GHOSH

85, Upper Circular Road, Calcutta-9.

COUNCILLOR DR. K. P. GHOSH has combined himself both as a social as well as a political worker. During last two General Elections he had carried intensive campaigns for the leftist candidates in the city. But as a physician he never forsakes the social service in which philanthropy occupies the top-most. During the last five years he had all along been an important member of the Standing Health Committee and guided the Committee on many occasions with his valued and wise opinion. He has again

been elected to the same Committee this year and it is hoped that his past experiences will surely help much in shaping the future policy of the Corporation in health matters. The present deteriorated health condition of the citizens and frequent outbreaks of epidemics have roused much of his concern and Dr. Ghosh has tried to remedy them in many ways. In that connection he has even written a number of illustrated articles and a few of them had adorned the 'GAZETTE'.

Born in 1918 Dr. Ghosh had his education in Chittagong, now East Pakistan. He had imbibed the spirit of social service even when he was a student of the Chittagong Medical School. Thereafter he devoted much of his time to the service of the suffering humanity. His activities spread throughout the East Bengal. He started a Childrens' Hospital at Chittagong with 15 beds which later on received recognition from the State authorities. Dr. Ghosh was also the Secretary of the Indian Medical Association, Chittagong Branch.

WARD NO. 32.

SRI NANDADULAL SRIMANY

15/1, Mahendra Srimany Street, Calcutta-9.

COUNCILLOR NANDADULAL SRIMANY is one of the senior Councillors in the Corporation. He first came to the Corporation in the year 1944. He was the Secretary of the Congress Municipal Association for some time. He was also a Chief Whip of the Party. Councillor Srimany opened his mouth in the House not on many occasions still he was found instrumental in moulding the policy of the House and to take decisions to that effect. His knowledge of Corporation intricacies has very often put him on the platform still he had **always** tried to put himself away from the picture. Councillor Srimany has also served different important Standing Committees in the past.

At present a member of the Standing Works Committee, Councillor Srimany's mission is to free the city from dirt and filth. He had been in this Committee on two previous occasions and took an initiative to introduce complete mechanisation of conservancy services in the city and this time he is there to watch the progress.

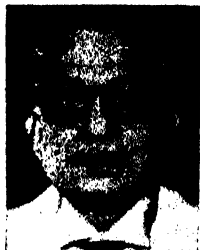

His father, the late Shri Mahendra Nath Srimany, an important citizen of the locality, was well known for his genial behaviour and charitable disposition. The Srimany's are the old residents of the city and possess prospering business firms. Shri Srimany has breathed the air of the city since his birth. Aged 47 years he is at present attached to his family businesses.

WARD NO. 33.

SRI CHANDRA SEKHAR BHOWMICK

15, Matilal Sen Lane, Calcutta-1.

At present an Advocate of the Supreme Court of India, New Delhi, **SRI CHANDRA SEKHAR BHOWMICK** was enrolled as an Advocate of the Calcutta High Court in the year 1931. Prior to that he was a member of the Alipore Bar since he became a permanent resident of this city in the eastern part namely Nar-keldanga area.

Born in 1902, at Gopalpur, District Noakhali, now East Pakistan, Councillor Bhowmick started his political career even from his student life. While undergoing rigorous imprisonment in the Alipore Central Jail in connection with the Non-co-operation Movement in 1922, he resorted to hunger strike due to the mal-treatment towards political prisoners. Shri Bhowmick also belongs to a family of social workers and he along with other members of the family started social upliftment movement during his boyhood. Councillor Bhowmick was the first Headmaster of the Chaumani National School. As a participant in the Hindu-Muslim Unity Movement during communal riots in 1946 he gave immense service to his people. The recently sponsored Anti-Merger Movement also received his active support and as a lawyer he defended large number of Satyagrahis arrested in that connection.

WARD NO. 34.

SRI SHIV KUMAR KHANNA

10, Mahatma Gandhi Road, Calcutta-9.

CLOSELY connected with large number of organizations and Trade Union Societies, COUNCILLOR S. K. KHANNA has been elected to the House uncontested. Shri Khanna was a member of the House on the last term also.

He is an Honourary Magistrate in the Bankshal Court.

As an active member of the Congress Shri Khanna is at present President of the Sealdah Moudal Congress Committee, an enthusiast of the Central Calcutta Congress Committee as well as a Member of the Pradesh Congress Committee. For some time he was also a Joint Secretary of the Congress Municipal Association.

In the Corporation his efforts have been towards imparting free primary education to a larger number of city's children. As Deputy Chairman of the Standing Education Committee he formulated a scheme for constructing school buildings in city's parks and squares where much space was available and thus to remove the difficulties in housing schools. He also takes a keen interest in the improvement of his locality.

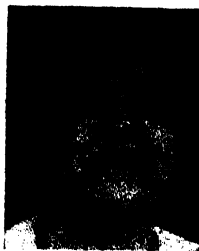

WARD NO. 35.

DR. SUKHABEHARI MUKHERJI

157, Beliaghata Main Road, Calcutta-10.

THE Standing Health Committee is at present headed by COUNCILLOR DR. SUKHABEHARI MUKHERJI. During the last five years Dr. Mukherji had served in different Standing Committees including the

Water Supply and everywhere he has left a mark of his sincerity of purpose as well as honesty and integrity. But the question of improving the city's health condition was the foremost in his mind and whenever there was an occasion to move the House for some health measures he lost

no opportunity to do so. He also took an intense interest in the working of city's hospitals. He is also the Chairman of the Borough Committee No. 6, which post he held in an earlier occasion.

A nephew of the late Shri Shyamakanto Banerjee, a renowned athlete of Bengal Dr. Mukherji is a sportsman also. Even at his present age nearing sixty he possesses a good physique that of a young man. After graduating from the Calcutta Medical College in 1922, he started his professional career in the Beliaghata area. And he has always shared the difficulties and troubles of the local people. He had been connected with the Ward Health Association in Beliaghata area for long till it was abolished. During the days of communal disturbances he was a promoter of peace in that area. Bustee improvement is the mission of his life and he has not abandoned that idea till now. Dr. Mukherji had also undertaken an extensive tour of South-Eastern countries during his youth.

WARD No. 36.

SRI PANCHANAN SARKAR

69, Beliaghata Main Road, Calcutta-10

At present an important member of the Standing Public Utilities and Markets Committee COUNCILLOR PANCHANAN SARKAR is also the Deputy Chairman of the Borough Committee No. 6. He takes a keen interest for the improvement of the area he represents which is mainly an under-developed one. During the last term he was a member of many important Standing Committees.

Councillor Sarkar is the son of the late Shri Surendra Nath Sarkar, a Zamindar of the locality. His uncle Shri Bidhu Sekhar Sarkar was an important Councillor of the Corporation for several years. Besides, he exercised considerable personal influences in the House. Councillor Sarkar also imbibes many of the qualities of his popular uncle. He is at present 40 years.

WARD No. 37.

SRI DURLAV CHANDRA MAJUMDAR

45, Old China Bazar Street, Calcutta-1.

The man who enjoys extensive trust and confidence of the people of his Ward is COUNCILLOR DURLAV CHANDRA MAJUMDAR. On the last election he was also voted to the House and there was nobody to contest him.

A strong sense of public duty has inspired him to become a Councillor and this will no doubt pave his path to attain his life's ideal that is to relieve the sufferings of the distressed humanity.

This mission in life he had fulfilled in his earlier life by his active participation in many of the Flood Relief or Famine Relief Organizations. He also launched in the political movement when the late Sir Surendranath was leading the Anti-Partition Movement.

In the Corporation, Councillor Majumdar has served in different Standing Committees during the first term. At present a Member of the Standing Accounts Committee he is keen to effect economy in the administration. Besides he represented the Corporation in different other outside bodies. He was also the Chairman of the Borough Committee No. 8 during last year.

Hailing from the well-known Majumdar family of Saraty-Mayapur, District Hooghly, he was born in 1894. Councillor Majumdar had his education in this city. His father was in the employment of the Government. Still he entered the business profession in 1914 with an humble beginning and rose to prominence by his sincerity and dexterity of purpose. Gradually he rose to be the Chairman of the West Bengal Traders' and Manufacturers' Council and President of the Chinabazar Glassware and Enamelware Merchants' Association.

WARD No. 38.

SRI RAJENDRA NATH MAJUMDAR

208/1, Cornwallis Street, Calcutta-6.

Born of a respectable family of physicians in North Calcutta namely the Mazumdar, COUNCILLOR RAJENDRA NATH MAJUMDAR is a Solicitor by profession. His grandfather the late Dr. Pratap Chandra Mazumdar

was a well-known Homeopathic physician in Calcutta. His name as a pioneer in that branch of medical science, spread throughout India. Councillor Mazumdar's father, the late Dr. Jitendra Nath Mazumdar tried his level best to spread the cause of the Homeopathic Science in India.

His elder brother Dr. Jnan Mazumdar though earned laurels from Western countries in the Allopathic Science, still he maintains the old family tradition of a Homeopathic physician. He is a Member of the State Legislature.

Councillor Mazumdar has also taken up the motto of his family service to the humanity. He entered Corporation for the first time in 1952. And as a prominent member of the legal profession he was immediately brought in to the forefront. In that year he was elected as the Deputy Chairman of the Standing Finance Committee. Next he became the Chairman of the Standing Public Utilities and Markets Committee. At present he is the Chairman of the Standing Works Committee, one of the important Committees to carry on the administration.

Besides, his presence was needed in many of the Special Committees appointed by the Corporation from time to time.

Aged about 45 years he has also earned a name in his own profession. He was also in the Delegation to China last year.

WARD No. 39.

SRI MOHANLAL GHOSH

P-14, Mission Row Extension, Calcutta-1.

Though a new comer in the Corporation SRI MOHANLAL GHOSH has gathered considerable experiences in the civic services as a Vice-Chairman of an important Municipality in the outskirts of the city from 1948 to 1952.

Thus the election of Shri Ghosh as Councillor brought him soon the Deputy Chairmanship of the Standing Water Supply Committee, an important Committee dealing many intricate problems.

Son of late Shri Matlal Ghosh, Councillor Ghosh was born in 1912. By profession a businessman he has started a manufacturing firm for Dry Colours and Paints. His elder brother is Councillor Benoylal Ghosh, C. E. Civic services have become one of the part and parcel of the family he belongs. His eldest brother Dr. Maneklal Ghosh, M.B., M. R. C. P., is also a sitting Councillor in Burton-on-Trent, United Kingdom.

WARD No. 39.

DR. ESMAIL EBRAHIM

68, Canning Street, Calcutta-1.

ASSOCIATED with a varied number of organizations and institutions COUNCILLOR DR. ESMAIL EBRAHIM, M.B., B.S., is one of the popular members in the House. Councillor Dr. Ebrahim had

extended his activities beyond his own locality. Besides, an extensive practice which he still maintains he has been the Vice-President of the Muslim Institute since 1953. He was also a Representative of Government of West Bengal to Port Health Organization. As General Secretary to

Jamat-e-Ulema-e-Hind, Dr. Ebrahim enjoys a great trust and honour among the Muslims in the city.

In the Corporation he had been the Deputy Chairman of the Standing Health Committee, and Member of other important Standing Committees during the last five years. His desire to serve the city intensively has inspired him to seek election for the second time. This year he has again been elected to the Standing Health Committee. For years together he has been the Deputy Chairman of the Borough Committee No. 8.

Eldest son of Janab Hajee Ahmed, a Senior Trustee of the Nakhoda Mosque, Calcutta, Dr. Ebrahim was born in 1920. He had his education in different important educational institutions in the city namely the Presidency College, St. Xavier's School and others. At the Calcutta Medical College he was elected as President of the Students' Union and maintained the solidarity of the students when the disastrous communal feeling filled the air of the city.

As a Councillor he is sincere and loyal to the citizens and as a social worker Councillor Dr. Ebrahim has endeared himself to all for his growing love for humanity.

WARD NO. 41.

SRI DEBENDRA LAL DUTT

12, Kapalitolla Lane, Calcutta-12.

BORN in 1914 of the well-known Dutta family of Kolutola, Central Calcutta, COUNCILLOR DEBENDRA LAL DUTTA is now active with his family business. The family is noted for their benevolence and charities. The late ever memorable Madhab Dutt and the late benevolent Sagore Dutt were also members of this family. Councillor Dutt has inherited many of the traditional qualities of the family. He believes in service to suffering humanity before self. During the Great Calcutta Killing of 1946, Shri Dutt rendered yeoman's services to give relief to the riot stricken citizens and helped to establish peace and harmony. As the President of the old Ward Congress Committee No. 8 under Central Calcutta District Congress Committee he also rendered much service to give relief to the refugees.

Graduated from the Calcutta Presidency College in 1937 he took his M.A. in Commerce in 1939. During the Second World War he joined the Defence Services and was in-charge of a Recruitment Section which post he held till 1944. In appreciation of his high qualities he was appointed a Justice of Peace in 1942 and an Honorary Presidency Magistrate of Calcutta which post he retains till now.

Councillor Dutt entered Corporation in 1952 and in that year he was elected as the Chairman of the Standing Accounts Committee. Later on he served many other important Standing Committees. This year he has been elected as the Deputy Chairman of the Standing Buildings Committee.

WARD NO. 42.

SRI TARA PROSAD MITRA

8, Madan Boral Lane, Calcutta-12.

A practising Solicitor of the Calcutta High Court SHRI TARA PROSAD MITRA is born of the famous Mitra family of Bowbazar, one of the oldest residents in the Malanga area. Shri Mitra's grand father the late Shri Asutosh Mitra joined the famous 'Kabul Expedition' under the command of Lord Roberts towards the close of the nineteenth century. His father the late Shri Jotindra Kumar Mitra was a pioneer in the business of electrical goods. The late Shri Mitra was also a graduate of the Calcutta University in last 'nineties'. But his uncles were called to the profession of Law. One of them, the late Shri Nripendra Kumar Mitra was a Solicitor of repute and another Shri Manindra Kumar Mitra is still now a leading member of the Bar in the Presidency Magistrate's Courts. Councillor Mitra was born in 1908 and he had his education in this city.

Held in high esteem by his colleagues Councillor Mitra is attached to many of the cultural and social organizations in the locality he lives. He has also revealed to the public his superior quality on fine arts lay hidden in staging of dramas by a new technique in Bengal. He has for his credit many of the stage productions of Rabindranath's and Saratchandra's famous books through the Bharat Natya Parishad. His merit in the characterization of 'Amit Ray', 'Suresh' and others throws a new light being acclaimed by all.

In the Corporation he has a special mission to fight out illiteracy and thus he has entered the Standing Education Committee.

WARD NO. 43.

DR. HIMANGSU KUMAR DAS

24/3-B, Mirjapur Street, Calcutta.

DR. HIMANSHU KUMAR Das is a new member in the Corporation. He has been administered oath the other day after he was voted in a Bye-election caused by the death of a sitting member Shri Kissan Chand Baral. He has also been elected to the Standing Education Committee.

By profession a physician, Councillor Dr. Das is associated with almost all the social and cultural organizations in his locality. Service to the distressed as well as to uphold their cause has occupied his mind.

This has earned him much popularity in the area he lives. Besides, Dr. Das commands a wide practice.

Councillor Dr. Das was born in Vikrampur Parganas, in the District of Dacca, on 1st of December, 1917. His father Shri Jatindra Mohan Das is a leading practitioner at the Dacca Bar. His late grandfather also rose to fame in the Bar. He was a close associate of Late Principal Heramba Maitra and the late Shri Krishna Kumar Mitra. One of his uncles was an M.L.A. of the East Pakistan Legislative Assembly who died recently.

After passing the M.B.B.S. Examination from the Calcutta Medical College, Councillor Dr. Das entered the Indian Medical Service but he resigned later on as he could not stand against the orders of an officer and his rude behaviour towards Indians when the country was under an alien rule. Since his resignation Dr. Das entered into an independent profession in medical lines. He had also played an important role in the revolutionary activities of Bengal.

WARD NO. 44.

SRI SUDHANGSU SEKHAR MITRA

158, Bowbazar Street, Calcutta-12.

WARD 44 has rightly voted in two successive elections COUNCILLOR SUDHANGSU SEKHAR MITRA, one time Secretary of the U.C.C. Party. During the first term he had been an important member of the Standing Education Committee and all his efforts were concentrated towards spread of primary education in the city. This year he has been elected to the Standing Finance Committee. But he has never lost time to put up the grievances of the citizens before the House. His speeches are always impressive because he cannot stand against any injustice done either to any section of citizens or to any individual employee.

Councillor Mitra was once a member of a revolutionary group and came in contact with well-known fighters of country's freedom like the late Shri Tarakdas Banerjee, the late Shri Anantahari Mitra while he was under the foil of Krishnanagore Athletic Club. Living in Central Calcutta he was a follower of the late Shri Santosh Kumar Mitra and others. He was also imprisoned for participating in the movement of thirty's. Another fact of his career is his sportsmanship. He was once widely known as an athlete of repute for many of his physical feats like muscle-controlling, weight-lifting and others. He holds in his credit many certificates and rewards of honour for those feats. He also won the championship of a 18-mile swimming competition from Krishnanagore to Nabadwip. He has not totally discarded that side of his life's mission as yet. At present social and cultural work has occupied much of his time.

Born of a well-known Kayastha family of Krishnanagore, Councillor Mitra had his early college education in Krishnanagore. He was graduated from the Scottish Church College. His father the late

Shri Girindra Nath Mitra was an officer in Calcutta G. P. O. At present Shri Mitra is in the business profession. He has organized there the Baithakhana Traders' Association. He is also the Chairman of the Borough Committee No. 8.

WARD NO. 45.

SRI DHIRENDRA NATH DHAR

12/1D, Chaitan Sen Lane, Calcutta-12.

COUNCILLOR DHIREN DHAR needs little introduction to the citizens at the present moment. He is the only Councillor who has been voted to the State Legislative Assembly from Taltala area, a part of the city but not identical to the area he represents in the Corporation. This amount of popularity he has earned by dint of his long services to the people. Earlier in his life he was a fighter in the struggle for country's freedom. He was once an ardent Congress worker and an active participant of all the activities of the Central Calcutta Congress Committee during the movements in thirty's. Even before that he was in the revolutionary fold and suffered through detentions. As a student leader, he was in the cultural field and for sometime edited a students' journal 'USHA'. The communist ideals had a greater influence upon his mind and he embraced the faith during 1938. Since then he has extended his activities to the labour field and has been responsible for establishing a number of Trade Union organizations. As Chairman of the Borough Committee No. 9 in the Corporation his contributions are immense both in the field of administration as well as in the welfare of the citizens. As an important member of the Standing Finance Committee his efforts for the improvement of employees' lots was commendable. He was also a member of the Standing Accounts Committee. The one-time Whip of the U.C.C. Party in the Corporation, Councillor Dhar has now become an indispensable hand of the Party. At present he is a member of the Standing Works Committee. In the Legislature during the last session he had put up many of the grievances of this civic body and wanted to see the citizens' misery remedied by State aid through the Corporation.

Councillor Dhar comes of a respectable progressive business family of Subarna Baniks of Central Calcutta. After graduation from a local college he took up service to the people as his life's mission and shared the joys and sorrows of the local people. A recent street accident has temporarily suspended Councillor Dhar's activities. Comparatively younger in age, the forty-year old Councillor promises a bright future in his public life.

WARD NO. 46.

SRI MUKUR CHANDRA SARBADHIKARI

18C, Fordyce Lane, Calcutta-14.

A social worker by nature SHRI MUKUR CHANDRA SARBADHIKARI keeps himself in constant touch with social and cultural functions in the city. Born and brought up in this city he picked up close friendship with many of the well-known cricketers including C. K. Naidu, C. S. Naidu, Mustaq Ali and others who imbibed in him the love for cricket. He is also eager to improve the general health of the citizens by the culture of physical exercises.

In the field of social upliftment, Councillor Sarbadhikari's contributions are also worth-mentioning. His association with 'Narayani Sadhan Chakra' which aimed to have a casteless society in the country, as stated by him, is long. He had also been in the revolutionary fold of Central Calcutta group having its leaders so well-known as the late Shri Bipin Behary Ganguly, the late Shri Girindra Nath Banerjee, Prof. Provash Chandra Dey and others.

As a student leader he joined the 1942 movement and left his studies. As a student of the Calcutta University he organized the 'Versity Students' Cultural Association. He had also a hand in founding the Congress Sahitya Sangha. Frenzied with communal disturbances when the city wanted peace and solace and among the few who realized that was Councillor Sarbadhikari who launched peace demonstrations. He had a providential escape one day. Thirty-seven year-old Councillor Sarbadhikari is at present attached to a number of clubs and associations in his locality.

Shri Sarbadhikari's ancestors migrated to this city from historic village Radhanagore in the District of Hooghly. They were well-known in the nineteenth century India. A member of that family Dr. P. K. Sarbadhikari was Principal of Calcutta Sanskrit College. His grand-father, the late Dr. S. K. Sarbadhikari had built up a wide practice in Lucknow. Later on, he was responsible for the foundation of the Indian Association in Calcutta, along with Sir Surendra Nath Banerjee. Dr. Sarbadhikari narrowly escaped death at Lucknow when he attempted to save a party with a bride-groom who were suspected to be mutineers. His father the late Shri Nagendra Prasad Sarbadhikari was the only Indian among the founders of the I. F. A. Moreover, his literary vent prompted him to translate many of the works of Shakespeare.

Councillor Sarbadhikari imbibes many of the qualities of his ancestors. In the Corporation his mission is to extend larger civic amenities to the citizens.

CONSTITUENCY No. 47

DR. L. M. BHATTACHARYYA

14A, Middle Road, Entally.
Calcutta-14.

ASSOCIATED with several cultural and philanthropic institutions and organizations of the Entally area COUNCILLOR DR. L. M. BHATTACHARYYA was first elected to the Corporation in 1952 as an independent candidate. Shortly he joined the Congress Municipal Association and this time he was a Congress Party nominee. Councillor Dr. Bhattacharyya takes much interest in the health problems of the city and that is why he was taken in into Standing Health Committee.

He has again been there for the second time.

Son of the late Shri Barendra Krishna Bhattacharyya, Dr. Bhattacharyya belongs to a respectable Brahmin family of Harinavi on the southern part of the 24-Parganas. Born in 1901 he had his early education in his native village. He took his B. Sc. degree from the St. Xavier's College, Calcutta in 1922 and had successfully negotiated with the final M. B. Examination from the then Carmichael Medical College. He started his professional career in the Entally area and soon built up a wide practice. He is loved and respected by all for his benevolent activities.

WARD NO. 48.

SRI BANKIM CHANDRA SARKAR

39/1A, Pottery Road, Calcutta-15.

COUNCILLOR BANKIM CHANDRA SARKAR hails from one of the oldest and most respectable families of East Calcutta. As a life long social worker and even from his school days he used to take an active part in various social and literary activities. Many a cultural and social organizations owe their existence to him. For years together he was the President of the Kamardanga Sadharan Durgotsav Samity, one of the oldest organizations for community worship in the city. His activities have not been confined to the area he lives, rather they have spread to the field of his service. As an employee of the R. G. Kar Medical College he has founded the Medical College and Hospitals' Recreation Club and the Employees' Union there. As a member of the Congress he had been in the Congress Panchayet and is at present an active member of the Entally Mondal Congress.

Born in 1914 he had his education in this city. While studying M. A. in Commerce and Law in the then Rpon College he entered into service. His father the late Shri Ramani Mohan Sarkar had enjoyed long association with the then Imperial Library. Business pursuits has also attracted his life and Councillor Sarkar is an energetic partner of a few small business firms. As a great admirer of music and dramatic art he has always patronized those organisations and is keen to see their further developments.

Councillor Sarkar is at present a member of the Standing Works Committee. He had been in that Committee earlier for one term.

WARD NO. 49.

SRI AMULYA CHARAN SIRKAR

29, Christopher Road, Calcutta-14.

THE Chief Whip of the Congress Municipal Party. COUNCILLOR AMULYA CHARAN SIRKAR, as a social and political worker of the locality is better known as 'Rakhal Sirkar'. If sincerity and honesty have any reward they have been amply demonstrated in the life of Councillor Sirkar. Having lost his father at the tender age of 15, he had to struggle hard for the maintenance of a big family. And by dint of his honest and sincere activities in business life he came out successful.

His pecuniary difficulties did not stand in the way of his irresistible urge to serve his Motherland and he courted imprisonment by plunging himself into the movement of thirties. As a fighter for country's struggle for freedom he came in contact with the then great leaders like Subhas Chandra Bose and others. He was then also elected as an Assistant Secretary of the Bengal Provincial Congress Committee. For years together he was the Assistant Secretary of the Entally Congress Committee and was an important member of the Central Calcutta Congress Committee when the late Shri Deben Dey was its Secretary. Lately he was the Assistant Secretary of that Committee.

Councillor Sirkar was born in the village of Arial in Dacca and his father the late Shri Nagendra Nath Sirkar, came to Calcutta and settled here for business pursuits.

In the Corporation he has fought hard for meeting the grievances of the citizens. Sincere and outspoken as he is, he never hesitates to stand against any injustice done to the Bustee-dwellers, and to the people of under-developed areas in the city, whose cause he has espoused since his entrance in the Council Chamber. Even he will not spare his own party in shaping its policy and this was witnessed through his critical speeches during Budget discussions in the House. In Standing Committees he served, either in the Water Supply or in the Education, he has tried hard to extend amenities to the citizens of the under-

developed areas mainly Tangra and Gobra and Bustee-dwellers. In the Board of the C. I. T. where he sits as a Corporation representative he also sings in the same tune. Councillor Sirkar is responsible for many of the development work in the Tangra area. The opening of Gobinda Khatiek T.B. Clinic Unit last year under the auspices of the Mayor's T.B. Clinic Fund was due to his efforts. He had a large hand in establishing a Maternity Hospital in that area, the construction of the building is now in progress. He has a mind to start a High School there also.

WARD NO. 50.

SRI BENOY LAL GHOSE

26, Chowringhee Road, Calcutta-13.

COUNCILLOR BENOY LAL GHOSH was born in Sunda, the famous hill resort, in the year 1907. Son of the late Shri Matilal Ghosh, the three brothers Dr. Manicklal Ghosh, Shri Benoylal Ghosh, and Shri Mohanlal Ghosh have devoted themselves to civic services. The eldest brother is a practising physician in England as well as an elected Councillor of Burton-on-Trent, near Birmingham. His younger brother Councillor Mohanlal Ghosh is at present a Deputy Chairman of the Standing Water Supply Committee.

By profession a Consulting Engineer and Architect Councillor Ghosh runs a Contractor's firm himself. Many of the architectural designs in the city are at his credit. At the same time he has lent his hand in constructing and designing a number of public buildings including Hospitals, Libraries, Schools and others. He has also designed and constructed a modern swimming pool with recirculating water plant at Garia.

As an Engineer of repute he has a mind to find out a new design for low cost housing so that rents yield might be economical in its true sense. He has already introduced a new Preservative Treatment of local timber, shalbullu etc. mainly to be used for Building construction instead of costly wood.

In the Corporation he is at present a member of the Standing Finance Committee. During last term he had been a member of the Standing Works Committee and advised the Committee on its Engineering matters.

WARD NO. 51.

SRI KARAM HOSSAIN

35, 1, Imdad Ali Lane, Calcutta-16.

COUNCILLOR KARAM HOSSAIN entered Corporation for the first time in the year 1947 as a nominee of the Provincial Government. The then

one-year term was cut short by the axe of supersession by the Government. But his path was paved towards the Council Chamber for two subsequent terms in 1952 and 1957 as an elected Councillor. His services to the Congress Municipal Party, to which he is pledged to is really admirable. As the Whip he is almost indispensable to the party. During this period he has been the Deputy Chairman of the Standing Markets & Public Utilities Committee. He had also served the Standing Education Committee and the Standing Town Planning & Improvement Committee. Besides, he has been the Chairman of the Borough Committee No. 12 for the last two years.

Councillor Karam Hossain's enthusiasm for public services has been well recognized through his attachment to different charitable, cultural and youth organizations. As a lover of sports he patronizes all the sporting events in his area.

Born of an old and aristocratic family of Central Calcutta in 1906, Councillor Karam Hossain had to give up his studies when he was a student of the Bangabasi College due to ill-health. But pursuit of knowledge has induced him to retain his studious habit even now. His grand-father the late Sk. Ameenulla occupied a position of reverence in his community. His father the late Sk. Habibulla was also a worthy son of a worthy father. His maternal grand-father was a prominent businessman in this city.

WARD NO. 52.

SRI JOGINDRA LAL SAHA, M.L.C

51A, Mott Lane, Calcutta-13.

ELECTED to the Corporation for the first time in 1944, COUNCILLOR JOGINDRA LAL SAHA is the present Deputy Leader of the Congress Party in the Corporation. Earlier to that he was the Secretary of the Congress Municipal Association. His sincerity to the Congress creed stood fast through man turmoils. He was elected to the Chair of different Standing Committees as well as Member to many important Committees. He was returned to the State Legislative Council representing Local Bodies of Calcutta-cum-24-Parganas, being uncontested in 1956. He is also the present Chairman of the Standing Water Supply Committee which he held for another term during the last Corporation. He was also the Chairman of the Standing Works Committee. His close attachment with the Corporation befitted him well to be a Chairman of a Special Committee appointed in 1953 for putting up suggestions in regard to the

Amendments of the existing Calcutta Municipal Act, 1951. Even in the deliberations of the House his opinions are valued and attended to. He also cherishes the idea of establishing a Unitary system of administration in the Corporation by linking up the different Standing Committees.

Born in 1899 Councillor Saha had his education in the city. After obtaining his B.L. degree he preferred to devote himself on his family business. He has also added much to the business and even explored the fields of Stock Exchange. In addition to this he has been enrolled himself as a member of the Bar.

Councillor Saha's family are the original residents of Bhagalpur, North Bihar and they came to settle in this city, in the Janbazar area. His father the late Shri Lalan Chand Saha, founded a firm in the city. Councillor Saha has inherited the firm. The family was intimate to the family of Rani Rashmani. His maternal grandfather late Mani Lal Saha was well-known to the locality and famous for his hospitality towards his neighbours.

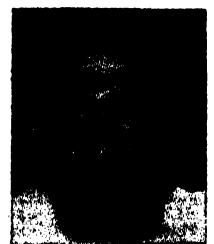

Social and political activities have combined in the life of Councillor Saha and he joined the movement for struggle for independence in 1922. He had the privilege of working under eminent leaders like Deshabandhu Chittaranjan, Deshapriya Jatindra Mohan, Deshagaurab Subhas Chandra, Shri Sarat Chandra and others. He is attached to different social and cultural organizations. He also heads many Trade organizations.

WARD NO. 53.

SRI ABU HAFIZ MD. ISMAIL

32, Elliot Lane, Calcutta-16.

BORN of a respectable Muslim family of Calcutta COUNCILLOR ABU HAFIZ MAHAMMED ISMAIL claims that his great grand-father had to face death by hanging in the hearts of the city having his connections with the India's First Struggle for Independence then raging in this part of the country in 1857. His father Mohammed Ibrahim also commands respect over the community he belongs. Councillor Ismail was born in 1926 and he has imbibed many of the qualities of his ancestors. Upliftment of the community is one of the principal aims in his life. At the same time he is eager to see the city free from slums and bustees.

Entered in the House during early part of 1955 through a bye-election. Councillor Ismail's enthusiasm in Corporation work is laudable. This year he has been elected to two important Committees namely the Standing Health Committee and the Standing Accounts Committee. He was a member of the latter Committee in an earlier term.

VIEWS AND REVIEWS

CORPORATION SHOCKED AT FOOD SITUATION

Aldermen and Councillors at the weekly meeting of the Corporation on the 20th September, unequivocally expressed great anxiety at the deteriorated situation arrived at due to shortage of essential foodstuffs consequented by soaring rise in prices thereto. This was caused by low productivity as well as devastations of flood during last year resulting in shortage of food crops. A movement has also been launched by the people urging the Government to tackle the situation.

After a debate lasting for more than one hour the Corporation on that day passed a resolution unanimously. It urged the Mayor to approach the State Government with the request to form an All-Party Food Committee and to convene an All-Party Conference without further delay for devising ways and means for solving the present food crisis. The Mayor has also been authorized to urge the release of "all the arrested peaceful Satyagrahis including popular leaders who courted arrest demanding relief for the distressed people of West Bengal."

Concluding the long debate the Mayor, Dr. Triguna Sen observed that as an engineer and as a scientist he owed a duty to the country in the matter of solution of the food problem. But he was not fully aware what exactly should be their part of contribution to the solution of the problem as Corporators in this civic institution.

Councillor Sachin Sen at the outset moved an adjournment motion seeking to have a full debate on the alarming food situation and the indiscriminate arrest of peaceful Satyagrahis including popular leaders. The motion which was also signed by Councillor Mani Sanyal described the bankrupt policy of the State Government as callousness on their part to tackle the food situation.

Presenting a statistical statement which showed that there might not be so much scarcity

as had been witnessed, Councillor Samar Rudra said that the modified rationing scheme had been practically a total failure. The Government could not boast and take pride in calling itself a democratic Government aiming at a Socialist Pattern of society at the present moment when thousands die of starvation. The evil technique of hoarding had been allowed to play a great part. He felt that there should be a joint effort for withdrawal of Section 144 Cr. P. C. orders from the Dalhousie Square area so that people might represent their cause to the authorities.

NOTICE

The 'CALCUTTA MUNICIPAL GAZETTE' will not be published for the following dates, the 28th September and the 5th October, 1957, on account of the Pujah Holidays.

The Market Prices current will, however, be issued on these dates.

The next issue of the 'Gazette' will appear on the 12th October, 1957.

Councillor Dulal Chandra Mukherjee regretted that Government took no effective steps so far in tackling the problem that had hit hard the workers, peasants and the people of the middle class families. He stressed the need for adopting strong measures to check hoarding and black-marketing in foodstuffs as a part of the duty of the Government in order to build up healthy citizens.

Criticizing the present policy of the State Government, Councillor Subrata Kumar Sen Sarma said that the Government had not yet

confirmed the starvation deaths reported from some districts where famine conditions prevailed. He characterised the test relief work as a farce. He also complained that modified rationing had not been introduced in many of the areas in the city. Even where introduced, there was discrimination in many places in the matter of distribution of ration cards. He already referred this matter on an earlier occasion.

Councillor Sen Sarma, however, felt the need for the constitution of an All-Party Food Committee, the only solution for tackling the situation.

Councillor K. L. Dhandhanja, Chairman, Standing Finance Committee, agreed to the proposal for demanding the constitution of an All-Party Food Conference.

Councillor Shyamal Dutta wondered whether there was any other free country in the world today where people died of starvation. If the Government could levy duties for protection of industries, he failed to see why they could not find means to protect the lives of the common man. He also complained that the quality of rice distributed through fair price shops was unfit for human consumption.

Councillor Dr. Biren Bose urged that food economists, members of the Bar as also leaders of public should be invited to co-operate with the Government as to how best the situation could be solved.

Councillor Chandra Sekhar Bhowmick also demanded enquiry into the present shortage of foodstuffs. The Food Minister by his 'bankrupt, short-sighted and undemocratic policy' had helped the present crisis to develop, he alleged.

Councillor Dhirendra Nath Bose and others felt on the same lines.

In this city with the rise in price of rice and non-availability of adequate quantity of wheat the Government made efforts to introduce modified rationing, and the Bustee areas where poorer people live mostly the benefits were first extended. The project envisaged to include the city and the industrial belt around it. In an earlier statement it was announced that considerable number of citizens have been enumerated for the purpose.

The poor progress of enumeration caused resentment in certain sections of the citizens and their grievances were represented to the State Government. Even they were referred to in the weekly meetings of the Corporation. Complaints were also made in those meetings about the adulteration of many of the foodstuffs. One day, Councillor Dulal Mukherjee reported that hoarding was allowed to play everywhere. Even fish had been put to cold storage in order to maintain a soaring price.

However, a happy augury has come and Councillors and Chairmen of the Borough Committees of the Corporation would visit fair price ration shops in order to see if these were functioning properly according to a new arrangement. The issue was discussed by them with the State Food Minister, Shri P. C. Sen at Writers' Buildings on Saturday morning, the 21st September, at the latter's initiative.

A representation was made earlier to the Food Minister about the defective functioning of some

of the fair price shops and non-availability of ration cards. The citizens have been asked to approach local Borough Committees in case of any difficulty.

Really speaking, West Bengal to-day is on the verge of famine, equal in magnitude, to the one that visited the unfortunate Bengal about a decade and a half ago in 1948. All the elements of a famine nearing condition have been witnessed everywhere. The real shortage have been aggravated by hoarding, official bungling and Central's apathy. The State Government's gesture to stop the evil of hoarding had also not proved fully successful.

Recently the Union Minister for Food, Shri A. P. Jain visited the State to study the situation. He had long discussions with the State Chief Minister, Dr. B. C. Roy and the Food Minister, Shri Sen—for three days. Definite assurances were given for big allotments of foodstuffs at least for the months till the new harvest was raised. He re-iterated all his promises before the members of the Lok Sabha. He said that the present stocks were sufficient to meet the requirements. Unloading of foodstuffs has also been started in the Calcutta port and a quick progress is expected soon. A close supervision of the working of ration shops would surely end in good results. In the meantime unauthorized movements of foodstuffs have been checked and hoarding activities have been suppressed.

The shortage is not of rice only but of all foodstuffs generally. The prices of some of the articles are so high that they are well beyond the reach of the middle classes. Rice, wheat, sugar, milk, fish, vegetables and the greater majority of the items of daily use have all become very dear. It is difficult in some places to procure them even.

Earlier, there were mass demonstrations through parading of long processions and meetings. The movement, started on the 18th September in the city, is of holding a meeting first at Subodh Mullick Square (Wellington Square) followed by a march on towards Dalhousie Square area in processions where Section 144 is in force, and then to court arrest by defying it.

On the first day the spectacular procession which displayed the main demands was organized by the Famine Resistance and Anti-Price Increase Committee. Many of the leftist leaders including Shri Jyoti Basu, M.L.A., Dr. Suresh Banerjee, M.L.A., Shri Hemanta Basu, M.L.A., Shri Jatin Chakravarty, M.L.A., headed the procession and courted arrests. The same was repeated during the other days of the week and a total of 1,574 arrests was made in connection with the food demonstration in the city so far. It included many of the Calcutta M.L.A.'s,—Shri Sunil Das, Dr. Ranen Sen, Shri Somenath Lahiry, Shri Amar Bose, Shri Suhrid Mullick Choudhury, Shri Haridas Mitra and a large number of women and children. The first phase of the 'Direct Action' is going to end on Saturday, the 21st September.

But unless quick and effective measures are taken the aggravated suffering of the people would defy description.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE NINETEENTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 13TH SEPTEMBER, 1957.

PROVIDENT FUND CASES

At the outset the Mayor, Dr. Triguna Sen, was happy to announce in the House that almost all the outstanding cases for the settlement of Provident Fund dues to the employees of the Corporation who either retired or died, had been settled up. The Mayor also said that there were a few cases still lying undisposed of, due to difficulties mainly related to legal knots. Earlier, there were lots of complaints against the outstanding cases mostly by the employees retired from the Corporation services.

The Mayor placed his appreciation on those who took personal efforts in bringing the matter to a happy end.

GROWING NUMBER OF KHATALS

Councillor Mani Sanyal pointed out the growing number of khatala in Borough Committee No. 15 comprising mainly the Kidderpore, Alipore and Chetla areas. He referred to the construction of a khatala in Raja Santosh Road, the area is said to be a comparatively cleaner one than the rest of the city.

Councillor Sanyal also said that the plague spots could not be wiped out in spite of best efforts of the local citizens. He thought that in order to free the city from the growing menace of khatala the Corporation should take drastic steps in future.

The Deputy Mayor, who was then in the Chair, however, assured the House that he would look into the matter.

BUSTEE CLEANSING GANG

The continuance of Bustee cleansing work was felt by several members in the House. During the epidemic season their services need most and even during the rainy season they are indispensable to maintain cleanliness to a certain extent in city's abounding number of Bustees. Recently, the gang's life in the Corporation was extended till the 30th September.

Alderman Shrimati Pratima Basu in her maiden speech also felt such. She urged the House that the services of the gang might be retained further.

The Deputy Mayor, Shri Basu, however, requested the Standing Finance Committee and the Standing Health Committee to look into the matter.

WEST BENGAL MUNICIPAL CONFERENCE

The House elected five members besides the Mayor, Dr. Triguna Sen and the Deputy Mayor, Shri Keshab Chandra Basu, to the Twentieth Session of the West Bengal Municipal Conference

to be held at Jagunj on the 26th and 27th October, 1957. The Annual subscription fees for two years were also sanctioned in this connection. They are:—

1. Councillor J. L. Saha, M.L.C.,
2. Councillor D. P. Chatterjee, M.L.C.
3. Councillor Anil Mahtia,
4. Councillor Rauf Ansari, and
5. Councillor Sachin Sen.

TRAINING AND RESEARCH IN MEDICAL STATISTICS

The Second Five Year Plan under the Union Government contains a scheme for Training and Research in Medical Statistics. The Director, All India Institute of Hygiene and Public Health, has been entrusted with the task of drawing up a suitable syllabus for the training in consultation with a Committee consisting of experts.

The House appointed the Health Officer, Dr. A. Mukherjee, to represent the Corporation in that Committee of experts.

A GIST OF PROCEEDINGS OF THE ADJOURNED MEETING OF THE CORPORATION HELD ON WEDNESDAY, THE 18TH SEPTEMBER, 1957.

AUTUMN PLANNING SEMINAR

The House appointed the present Chief Valuer and Surveyor to attend the Autumn Planning Seminar and the Annual State Planning Officials Conference to be held in Patna, Bihar, from the 3rd to 10th October, 1957, as a representative of the Corporation. The representation was recommended by the Standing Town Planning and Improvement Committee earlier.

GRANTS-IN-AID TO CITY'S HOSPITALS

Based on a recommendation made by the Standing Health Committee the House sanctioned a sum of about Rs. 8.5 lakhs for distribution among the city's hospitals, and dispensaries as grants-in-aid for the year 1956-57 under usual conditions. The recommendation was however modified by the House when Councillor Dr. K. P. Ghosh put up an amendment wherein the original amounts of grants undergone changes in respect of a few institutions. These amounts were earlier scrutinized by a Sub-Committee of the Standing Health Committee headed by Alderman Dr. A. K. Basu and a few others.

The total amount included a sum of Rs. 75,000 for B. G. Kar Hospital on a condition that the grant should not be released till a Report from the Sub-Committee appointed to carry on a shifting

investigation into an alleged complaint was forthcoming. The administration of the Hospital came in for criticism in the House—wherein some Councillors took part. A few also thought that the grant should be released forthwith because in no case they could allow patients to suffer. Grant was also made to the Sambhu Nath Pundit Hospital, at Elgin Road, in view of the fact that a Corporation Vaccination Station would be located there.

At the end Councillor K. L. Dhandhanias assured the House that grants would be released as early as possible.

NEW BODIES OF TRUCK CHASSIS

The House, on the recommendation of the Standing Works Committee accepted tenders for the supply of Bodies of Truck Chassis. Altogether 95 Bodies of those Trucks will be supplied by two suppliers,—Messrs. International Trailers, Manufacturers and Body Builders and Messrs. Bharat Industries and Commercial Corporation—divided proportionately. The Entally Workshops of the Corporation would also build up 19 Filtered Water Carrier Tank Bodies. The suppliers' bodies would be used for Silt Carrying, Night Soil Carrying and Conservancy Services.

A prolonged discussion arose in the House as regards allocation of the contract as well as the feasibility of the supply of those bodies in the present situation of import difficulties due to shortage of foreign exchange.

The Mayor, however, was happy to see that these Bodies when properly detailed for service by the Corporation would help much in the success of Cleaner Calcutta Campaign, at least in house to house collection work.

A GIST OF PROCEEDINGS OF THE TWENTIETH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 20TH SEP- TEMBER, 1957.

BROJENDRA GANGULI LANE

The House, on the recommendation of the Borough Committee No. 14 renamed Tollygunge Lane, as 'Brojendra Lal Ganguli Lane'. The re-naming of the lane was in response to an appeal made by the Secretary, 'Brojendra Lal Smriti Samsad', with a simultaneous appeal signed by hundreds of residents of the locality.

The late Shri Ganguli was a prominent worker during the Swadeshi days. Due to his political activities he was externed from East Bengal. Thereafter he permanently settled in that part of the city.

Several members including Councillor Biman Mitra, Dr. K. P. Ghosh and others objected to the practice of re-naming streets in a haphazard manner.

Councillor S. K. Gupta, I.C.S., Chairman, Calcutta Improvement Trust, said that such changes created difficulties for the postal department, insurance offices and foreign correspondents of local papers. "We do not realize that by this kind of childish changes we have made ourselves

ridiculous to the sensible section of the public", he said.

Councillor Dr. K. P. Ghosh also recalled that the re-naming of the Princep Street had not been rightly done. He urged that the House should re-consider the decision.

At the Mayor's request Councillor Gupta and other members who objected to this practice withdrew their objections as the lane sought to be renamed had 'an impersonal name.'

PAYMENT OF SERVICE CHARGES

The House noted proceedings of a meeting held in Rotunda Hall, Writers' Buildings during August, 1957, in connection with the payment of service charges in respect of Central Government's properties as well as on the question of payment of enhanced consolidated rate with effect from 1948.

The Conference was attended by Councillor K. L. Dhandhanias, Chairman, Standing Finance Committee, Shri B. K. Sen, Commissioner, Shri P. Mitra, Chief Accountant, Shri A. Bhattacharyya, Assessor and a number of officers representing the Government of India and Railways.

RECEPTION TO SATYAJIT ROY

At the weekly meeting of the Corporation it was decided that a Reception would be accorded to Shri Satyajit Roy by the Mayor, on his winning the highest honour Golden Lion of St. Mark at the Venice Film Festival along with the International Critics Award and La Prix des Cinema Nouveaux for his book 'Aparajita'.

The House accepted the proposal which was made by Councillor Mukur Sarbadhikary.

While the House was recording the Proceedings, Councillor Dhandhanias said that another Conference was going to be held soon in this connection. He also said that the arbitration sought for from the Accountant-General, West Bengal, had fixed 20 per cent. as Consolidated Rate for all properties of the Central Government lying in this city. In the meantime the Railway Board, has offered to pay Corporation 15 per cent. of the annual rateable value of all railway properties constructed or requisitioned after the 26th January, 1950, in this city, as service charges. Payment will be subject to adjustment when a final decision is reached. The offer has been referred to the Standing Finance Committee.

After the coming into force of the Constitution, new railway property was not considered assessable. But a State Government's award directed the railway authorities to pay 20 per cent. of the rateable value as service charges. This rate was considered to be high by the Railway Board.

The Corporation has asked the Union Government to frame legislation on the Railways Local Authorities Taxation Act of 1941 which made railway property assessable.

NEW TOWNSHIP IN NORTH BENGAL

About 60 miles from Siliguri, at the confluence of the Jaldhaka and the Jhalung rivers, a township is fast growing up around the site where the West Bengal Government's new hydro-electric power station will be built.

From November a geological survey will be made of the area. This will be followed by preparation of the final alignment and lay-out plans for the four-mile open channel and the two-mile tunnel which will carry water from a 20 ft. high and 200 ft. long barrage to the power station. The intake barrage will have a few gates to pass on excess monsoon water.

Tenders for the project are expected to be invited in the coming year. As the scheme has been given priority in the matter of foreign exchange little delay is likely in the import of equipment.

TELEVISION UNIT FOR DELHI

According to the Minister for Information and Broadcasting due to financial stringency and shortage of foreign exchange, the setting up of a Television Station in Bombay had been postponed but the question of having an experimental unit in Delhi was still under consideration. The Delhi unit would be of an experimental one and 50 per cent of the equipment for it have already been secured.

ROAD NAMED AFTER JATIN MUKHERJEE

The State Government has renamed the main road of Balasore as "Jatin Mukherjee Road" to perpetuate the memory of Bengal's great patriot on the occasion of the Tenth Anniversary of India's Freedom and the Centenary of India's first struggle for freedom.

The State Minister for Tribal and Rural Welfare, Shri Pabitra Mohan Pradhan, declared the road to be named as "Jatin Mukherjee Road" amidst cheers by a large gathering including women and children at Balasore on the eve of the celebration.

It may be recalled that the late revolutionary Shri Jatindra Nath Mukherjee, died of bullet injuries while he was fighting against a contingent of British Army and police at Chasakhand, three miles from the town.

TUBE-RAILWAY IN BOMBAY

Mr. Yoshi Tane Higashi, a Japanese Tube Railway expert, some time ago discussed a plan for a Tube-Railway System for Bombay city with Shri M. G. Normani, General Manager of the municipalised Bombay Electric Supply and Transport Undertaking. The preliminary plan is receiving final touches at the hands of Mr. Higashi. The 18-mile long tube railway has been estimated to cost Rs. 60 crores.

Mr. Higashi and five other experts collected the necessary data during February-March last. The preliminary plan was prepared later on. The plan will be finalised after discussion with the local authorities.

WATER SUPPLY AT HOOGHLY-CHINSURAH

The Hooghly-Chinsurah Municipality's problem of supplying adequate drinking water to its 1.2 lakh population is gradually becoming more acute. As the pressure of supply has also gone low, the Municipality has taken up a decision to instal two boosting pumps, one each in Wards IV and VI. The estimated cost is nearly Rs. 80,000 --a portion of which will be shared by the Government in the form of loan. The Municipality will also apply for some amount of subvention.

CHANDERNAGORE CORPORATION

Chandernagore Corporation has been entrusted with the responsibility for conducting primary and secondary education within the area of the Corporation.

The recent Cabinet Meeting of the West Bengal Government has decided to give financial grants to the Corporation for the purpose. Two months' salaries for the teachers of the primary and secondary schools would be given by the State Government as grants-in-aid.

WATER SUPPLY IN RANCHI

The Bihar State Government has recently sanctioned a water supply scheme for Itki Tuberculosis Sanatorium, Ranchi, with an estimated cost of about Rs. 3 lakhs. Construction work in this connection would start soon. A small dam would be constructed on the south Koel river for the purpose.

Against an estimated cost of Rs. 77 lakhs, the water supply scheme for Ranchi had been completed at a cost of Rs. 64.49 lakhs.

HOUSING SCHEMES IN HOWRAH

A sum of Rs. 5.76 lakhs comprising of Rs. 2.88 lakhs as loan and Rs. 2.88 lakhs as subsidy has been sanctioned to the West Bengal Government by the Union Government for construction of 128 houses at Kadamtolla in Howrah under the Subsidised Industrial Housing Scheme.

MADHUBANI MUNICIPALITY'S NEW CHAIRMAN

At the first meeting of the newly elected and nominated Municipal Commissioners held recently, Shri Baidya Nath Paajiar, a practising lawyer and Janab Md. Safikulla, a sitting member from Bhowara have been elected Chairman and Vice-Chairman respectively of the Madhubani Municipality for the current term. Shri Anant Prasad Mahtha, another Municipal Commissioner was elected President of the Municipal Committee.

SUBHAS PARK AT KAMARHATI

Under the auspices of the Kamarhati Municipality, the opening ceremony of "Subhas Park" at the foot of Vivekananda Bridge, Dakshineswar, was performed some time in August, 1957.

Shri Iwar Das Jalan, Minister-in-charge, Local Self-Government Department, Government of West Bengal, inaugurated the function.

LETTER TO THE EDITOR**NAMING OF A NEW C. I. T. ROAD**

TO THE EDITOR, "CALCUTTA MUNICIPAL GAZETTE"

SIR—It has come to my notice that Calcutta Corporation's Borough Committee No. 2 has proposed to name the Calcutta Improvement Trust's new sixty-feet wide road under Scheme No. LI from the south-west corner of Jagat Mukherjee Park upto Upper Chitpore Road, within the area of the present Ward No. 8, as 'PRAFULLA SARKAR ROAD'. Notices have also been issued to that effect in the city's newspapers during April last inviting objections as to the naming of the road.

Objections have already been lodged on behalf of different rate-payers to the proper authorities against the proposed naming of the road. And myself being one of them, I think that the road should be named as MADAN MOHANTALA ROAD or MADAN MOHAN TEMPLE ROAD in view of the fact that the temple of the Deity of Madan Mohan is situated in that area. The covering land of the road was once shared by the then SEBAITS of the Deity, the late Shri Gopal Chandra Mitra, and Raja Naba Krishna Deb. Besides, this, the new road is the only straight way which leads to the Temple of Madan Mohan from the five-point crossing of Sham-bazar or from the Bhupen Bose Avenue. During the RASH JATRA festival or the ANNAKUT UTSAV thousands of pilgrims use this newly built road as their path leading to the Temple. Thus the naming of the new road after the Deity would be more befitting than anything else.

Calcutta is a city of just two centuries, and it has its own history to tell. Whatever faith the citizens believe in, still they are devoted to their respective faiths with equal toleration for others. And the naming of the road after Madan Mohan would no doubt give the religious-minded citizens a solace in their anxious minds particularly when the area is being inhabited by the old residents of the city who always placed religion above their earthly affairs.

Taking the early history of the Madan Mohan, we can say that it is the enshrined family Deity of the Kings of Bishnupur. It was during the time of Lord Clive, the Deity was brought to this city by Shri Chaitanya Singh, who was then engaged in a family feud with his cousin brother the then King, Shri Damodar Singh. For want of money Shri Chaitanya Singh had to keep the Deity in pawn to Shri Gokul Mitra, a businessman in exchange of three lakhs of rupees and he could never recover Him back.

The King Damodar Singh himself had tried hard to get the Deity back in his own palace at Bishnupur. Vainly he sued against the late Shri Gokul Mitra in the Supreme Court. But the enshrined Deity remained with the Mitras, who worshipped it with much devotion and religious performances. Later on Gokul Mitra added much to his wealth and properties. Taking all his wealth as a blessing of that Supreme God, Gokul Mitra made a gift of almost all he had to the God making himself a simple SEBAIT of Him. Very little was left for his family members to enjoy.

Prosperous days were also witnessed when during RASH MELAS and other festivities thousands thronged together to worship the Deity. In many of the important occasions the celebrations ran so high that the grandeur and pompness would have spread over the whole area. A big tank was also used for NUKA BIVAR of the Deity. The site has now been filled up and tall buildings are being raised there just on the north of that new road built by the C. I. T.

The Borough Committee's stated proposal to name the new road after an important departed citizen is no doubt commendable. But that naming can be effected to some other new roads to be built up soon by the C. I. T. in that area and to name the road as suggested would receive admiration and appreciation in all hands.—Yours etc.

RAJENDRA KUMAR MITRA.

'MITRALAYA',

11-B, Gokul Mitra Lane, Calcutta-5.

THE WORLD OF BOOKS

THE FIRST DECADE—(A volume containing a symposium commemorating the Tenth Anniversary of Indian Independence.) Edited by CLIFFORD MANSHARDT; Published by the United States Information Service.

Containing a number of articles written by men and women so eminent in public life and scholarship in India, the volume really presents a subject of wisdom and thinking to the intending readers. The Editor has rightly remarked: 'The coming of Independence has released creative forces which are at work in every phase of the national life, and has expanded the areas of popular participation'. Thus India to-day has inspired a creative genius, a part of which is being reflected in this book on the historic occasion of celebrating the Tenth Anniversary of Independence.

The Preface written by a person no less than an Ambassador of the U.S.A. to India, the Hon. Ellsworth Bunker, has expressed similar sentiments hoping with confidence 'that future anniversaries will find the progress recorded in the book, not just sustained, but accelerated, as the nation goes on from strength to strength'.

The contributors of this volume include Shri R. R. Diwakar, Shri K. M. Munshi, Ex-Governors, Shri G. L. Nanda, Dr. P. Deshmukh, Union Ministers, Shrimati Hansa Mehta, Vice-Chancellor, Prof. O. N. Vakil, Shri B. C. Desai and others.

In accepting the volume we send our best compliments to the Information Services for their continuing sincere regards for our Motherland, India.

BARSHA-PANJ1—1364 B.S.—(A Bengali Year Book)
—Edited by SHRI SANTOSH RANJAN SEN GUPTA—Published by Messrs. S. R. Sen Gupta & Co., 25-A, Chittaranjan Avenue, Calcutta-13, Price Rs. 4/- (four) only.

A book dealing with so varied a subject needs no introduction to the readers. It is a storehouse of knowledge which should be given proper recognition by the reading public. It has accommodated almost all the subjects which a common man generally desires to know. Besides, it has incorporated many subjects which require expert knowledge. Even a chapter has been devoted to sports and games. The informations given in it about the Calcutta Corporation deserve commendation. The book should receive a wide circulation.

CITY NEWS PARADE

SAHID JATIN DAS'S death anniversary, a revolutionary of Bengal was observed by different organisations in the city on Friday, the 13th September last. In those functions the heroism and sacrifice of the great revolutionary were recalled.

The Mayor of Calcutta, Dr. Triguna Sen and other citizens paid their respectful homage to the memory of Jatin Das at a function held at the Keoratala Burning Ghat in the morning. Floral wreaths were offered by many organizations.

Earlier under the auspices of the Shahid Jatin Das Memorial Committee a meeting was held at Hazra Park in which a large number of people were present. The bust of Jatin Das at the Park was profusely garlanded.

The day was also observed by the Kalighat Tarun Sangha and Jatin Das Smriti Pathagar. Wreaths were placed at the foot of the statue of Jatin Das by Prof. Nirmal Chandra Bhattacharyya M.L.C., and others.

In the evening also a number of functions were held. Under the auspices of the Jatin Das Smriti Pathagar, a memorial meeting was held at the premises of the Sahanagore Library in which Prof. Bhattacharyya presided. He eulogized the need of observing the day.

Respectful homage was paid by different speakers including Shri Haridas Mitra, M.L.A., Shri Rabi Roy and others to the memory of Sahid Jatin Das who sacrificed his life against wrong and injustice done to the political prisoners then.

Shri Barindra Kumar Ghosh, who was to preside, in a message felt the need of larger sacrifice to achieve the desired ideal as envisaged by those revolutionaries.

SARAT CHANDRA CHATTERJEE'S the famous literature of Bengal, birth anniversary came off on Tuesday, the 17th September. A special programme was broadcast from AIR, Calcutta in celebration of the birth anniversary. It included talk in Bengali entitled "Sarat Chatterjee Samaj Chetana" by Dr. Uma Roy and a feature, "Sarat Sahitye Nari", written by Prof. Bibhash Roy Chowdhury. Those who took part in the feature included Shrimati Molina Debi, Shrimati Sabita Chatterji and Shri Sekhar Chatterji.

Sarat Chandra's life and literature was also discussed at a Conference, held on that day at Municipal Museum Hall, College Street Market.

Dr. Srikumar Banerjee presided over the function. Shri Upendra Nath Gangopadhyay, Kazi Abdul Odud, Prof. Hemanta Chakraborty, Prof. Narayan Ganguly, Prof. Bhudeb Choudhury, Prof. Sudhasatta Bose, and others spoke at the function.

SHRI SHRI BALANANDA BRAHMACHARI SEVAYATAN'S working of new X-ray apparatus was inaugurated by Dr. A. B. Ray, Minister of State, Health, West Bengal, on Sunday, the 15th September, in presence of a large gathering.

The apparatus was purchased at a cost of Rs. 43,000/- of which a sum of Rs. 25,000/- has been contributed by the Ministry of Health, Government of India.

The Health Minister, in a suitable speech, eulogised the services rendered by the Bhandar and its associate institutions and wished the continuous progress.

Shree Shree Balananda Brahmachari Sevayatan, together with its out-door chest clinic caters to the needs of indigent persons suffering from chest complaints absolutely free of charge. Its In-door Hospital has got 52 free beds for admission of patients without any distinction of religion, caste or creed.

Shri Hemendra Prasad Ghosh, who presided over the function, and Dr. B. K. Pal, the Chief Medical Officer of the Sevayatan explained the lofty ideals of the Bhandar and gave a description of the method of its treatment.

VISHVAKARMA, the Architect of the Universe and Presiding God of Tools and Machines, was worshipped by the technicians in factories and other industrial establishments on Tuesday, the 17th September. In the evening entertainments were organized before images of the God installed in decorated pandals. Pujas were also held at the Entally Workshop and the Central Garage Workshop of the Motor Vehicles' Department, Calcutta Corporation, wherein festivities were also observed.

On this day boys fly kites and there was great demand for kites, reels and string. Two teen-agers lost their lives and other two dozen were injured in connection with kite flying.

TRAFFIC CENSUS OPERATION STATISTICS organized by the West Bengal Government's Road Development Department in collaboration with the Traffic Police, started for one week on Friday, the 13th September last, in the Greater Calcutta area.

Eleven centres, each manned by three enumerators, three assistants and two traffic constables, were opened.

The staff split up into two groups and took their positions on either side of the road. The traffic constables stopped the vehicles and the assistants asked the drivers whence they came and where they were going.

The points where the centres worked were: B. T. Road and Dum Dum Road; Budge Budge Road and Diamond Harbour Road; Gariahat (beyond Gariahat level crossing); Jessore Road (off Belgatchia Bridge); Alambazar Road (near the Dakshineswar Temple); Grand Trunk Road-Uttarpara; Necap Subhas Road (near Regent Park); Howrah-Amta Road; Andul Road; Shalka Road; and Chanditola Road.

A **SYMPOSIUM ON HINDI** was organized by the Hindi Parishad at Darbhanga Building, Calcutta University, on Saturday, the 14th September last. Dr. Sasibhusan Das Gupta, Ramanuj Professor of Bengali Literature, who presided, felt that in order to become a State language Hindi should develop itself.

Dr. Makhanlal Roy Chaudhury was the Chief Guest.

Prof. Nirmal Bhattacharyya, M.L.C., said that Hindi protagonists should simultaneously enrich their language and help to develop other Indian languages. India, he said, needed a common language and Hindi could serve that purpose. Indians abroad were sometimes held in opprobrium for not having a common language other than English. Classical Hindi should be translated into Bengali. It was the Parishad's duty to see that Hindi-speaking people also learn Bengali.

BENGAL PRADESH NATIONAL TRADE UNION CONGRESS concluded its annual session with a Maidan rally on Sunday, the 15th September. Shrimati Maitreyee Bose, M.L.A., who presided, said that the rise in prices of rice and other essential commodities had hit workers hard. Not shortage but hoarding of these commodities pushed up

prices and caused hardship. Workers had two other problems—housing and supply of drinking water.

Shri Kali Mukherjee, General Secretary, suggested that the Government opened or took over more industries to provide employment for thousands of unemployed people. Measures should also be taken to ensure security of service. Explaining the role of the I.N.T.U.C., he said that it stood for a socialistic pattern of society and would not tolerate attempts by capitalists to control the Government.

Shri Naren Sen, M.L.A., said workers could hope to fulfil their demands only by strengthening the I.N.T.U.C.

In a meeting held at the Wellesley Institute, on the previous day, the Conference put forward eight demands for immediate fulfilment. These included stoppage of retrenchment and unplanned rationalization, guarantee of security of service, a minimum wage for agricultural labour, implementation of industrial housing schemes, adoption of development schemes to remove unemployment, stricter vigilance on stockists and hoarders of food and essential commodities, and distribution of these articles through fair price shops, especially in industrial areas.

Regarding clerical employees, the Conference stated that the terms and conditions of their employment in firms other than the constituent units of the Bengal Chamber of Commerce had been left to the mercy of the employers. It suggested that a wage board be set up to recommend adequate emoluments for such employees.

In a message, the State Chief Minister, Dr. B. C. Roy said that the fundamental requirement of an undeveloped country like India was to increase its productive capacity. For this, joint efforts by employers and workers were incumbent.

Janab Abdus Sattar, Labour Minister, who inaugurated the Conference, said that Congress policy was to improve employer-employee relations, and to ensure better conditions for employees.

DEATHS AND DISEASES IN THE CITY

Calcutta is still being visited by Influenza. There were two deaths in the city; in addition about 690 patients suffering from the disease were treated in hospitals during the week ended the 14th September, against 704, the week before. Deaths from the disease were also of the number during week previous.

Cholera attacks and deaths numbered 16 and six, against 16 and 11 in the previous week. In the corresponding weeks last year there were nine and 12 attacks and four and six deaths.

There was one attack and one death from small-pox, against three each the week before. During the corresponding fortnight last year, attacks numbered 17 and deaths 12.

Tuberculosis claimed 47 lives against 43 the week before and 39 and 50 in the corresponding weeks last year.

There were 18 deaths from diphtheria, against 18 in the previous week and 17 and 13 in the corresponding weeks last year.

Deaths from all causes totalled 692 against 655 in the preceding week and 680 and 674 in the corresponding weeks last year.

MUNICIPAL SERVICE COMMISSION New Appointments

Sub: Appointment to a permanent post of Deputy Chief Accountant (Budget and Revenue) in the grade of Rs. 600—20—800.

In pursuance of Municipal Service Commission's letter No. 373.MSCD/1D/30/56 dated the 19th July, 1957 and based on a recommendation of the Standing Finance Committee dated the 31st July, 1957, the Corporation at its meeting held on the 6th September, 1957, made the following appointment:—

"That accepting the recommendation of the Calcutta Municipal Service Commission as conveyed by their letter No. 373./MSC/1D/30/56 dated the 19th July, 1957, Shri Subimal Chatterjee be appointed substantively to the post of Deputy Chief Accountant (Budget and Revenue) on Rs. 600/- per month in the grade of Rs. 600—20—800 plus usual allowances subject to the period of probation for one year and also subject to the Service Regulations of the Corporation."

Sub: Permanent appointments to the newly created posts of Assistant Superintendents, Tangra Slaughter House in the grade of Rs. 200—10—300 plus the usual allowances.

In pursuance of Municipal Service Commission's letter No. 414/M.S.C./1D/7/56 and

No. 415/M.S.C./1P/7/56 dated the 30th and 31st July, 1957, respectively the Standing Finance Committee dated the 13th August, 1957, made the following appointments:—

"That accepting the recommendations of the Calcutta Municipal Service Commission Shri Aniya Kumar Ghosh and Shri Jitendra Nath Dutta be appointed permanently to the two newly created posts of Assistant Superintendents, Tangra Slaughter House, in the grade of Rs. 200—10—300 plus the usual allowances."

Sub: Appointment to a permanent post of Law Assistant, Law Department, in the grade of Rs. 125—300.

The Standing Finance Committee dated the 13th August last, made the following appointment based on a recommendation of the Municipal Service Commission's letter No. 445/M.S.C./1D/8/56 dated the 5th August, 1957, on the subject:—

"That accepting the recommendation of the Calcutta Municipal Service Commission, Shri Chandi Das Sen Gupta be appointed permanently as Law Assistant, Law Department, on Rs. 125/- per month in the grade of Rs. 125—10—295—300 plus the usual allowances."

CORPORATION NOTICES

To All Registered Petty Improvement Lighting Contractors

DISTRICT No. II

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 26th September, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the Lighting Superintendent's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer for all works exceeding the value of Rs. 2,500 shall have to deposit 5 p. c. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law

OUR ALDERMEN AND COUNCILLORS

WARD NO. 75.

SRI USHA NATH SEN

9/1, Ramanath Pal Road, Calcutta-28.

A Graduate in Science and some time Demonstrator of Physics at St. Xavier's College, COUNCILLOR USHA NATH SEN, can also wield his pen on any subject he chooses. As a Chairman of the Standing Education Committee his contribution deserves worth-mentioning. He was the first to realize that primary education can best be imparted through lady teachers and he tried to introduce that system. Even to-day Councillor Sen keeps a watch over the progress of the city's primary education as an important member of the Standing Finance Committee. Councillor Sen's contribution in the administration of the Corporation is equally worth-mentioning in that capacity.

The Deputy Leader of the Congress Municipal Association also guides the House very often. This has enabled him to represent in many of the Special Committees appointed by the House from time to time.

Born of a respectable 'Baidya' family of Burdwan, Shri Sen had his early education in this city. After a brief career in the educational line he joined the Bar and to-day he is one of the senior members of the Alipore Bar. He is also connected with a number of organizations mainly educational cultural and philanthropic. Libraries and Reading rooms in his area do receive his patronage. Besides, he is keen to see the boys have a play ground in his area. Councillor Sen has been responsible for opening a spacious Park in his own area which he named as 'Kavi-Tirtha' the site being hallowed by the memory of three great poets Madhusudan, Hemchandra and Rangalal who lived in that part of the city.

WARD No. 76

SRI RAJ SATYENDRA MITRA

52, Banku Behari Chatterjee Road, Cal.—81.

PROBABLY the most extensive area within the Corporation, being represented by a single member, is the Kasba and Tiljala from where COUNCILLOR RAJ SATYENDRA NATH MITRA has been voted on two successive occasions. The constituency's northern extremity runs on an imaginary line entering into a part of China town and Topsia and on the east it extends up to the Salt Lakes on the same imaginary lines. Prompted by a spirit to serve the entire population thus scattered in different ways, Councillor Mitra puts

up a suggestion to re-constitute the Ward into several constituencies if an amendment to the present Municipal Act is taken up at all. According to him the area is so vast that it exceeds the areas of many of the Suburban Municipalities. This no doubt speaks of the high order of popularity commanded by Councillor Mitra. In the Corporation he is the Deputy Chairman of the Borough Committee No. 16.

Son of the late Raj Debendra Nath Mitra, Councillor Mitra took up the motto of service to the people even when he was too young. This spirit he imbibed to a certain extent from his grand-father (on the maternal side) Shri K. C. Roy Chowdhury, one time Councillor of the Corporation as well as an Ex-M. L. C. Shri Roy Chaudhuri's contribution in the labour front is still now being recognized by the Trade Union Leaders. Civic services have never been neglected by Councillor Mitra. Sincerity and dexterity have brought him to the Council Chamber. He is the life and soul of many of the social organizations in his locality.

WARD No. 77

SRI NRIPENDRA NATH BANERJEE

57, Beni Banerjee Avenue, Calcutta—81.

COUNCILLOR NRIPENDRANATH BANERJEE represents an almost similar extended area within the Corporation and pleads that there are ample grounds for re-constituting the ward. In spite of his failing health Councillor Banerjee keeps a close watch over the whole area once under the Tollygunge Municipality and at present constitutes Borough Committee No. 16. He also headed that Committee for one term only. Since his entrance into the Corporation his advices are being sought for by the House mainly on Accounts matters and that is why he has been in the Standing Accounts Committee these years.

Born in 1914, in this city Councillor Banerjee spent his early days in the northern part of the city namely the Chorebagan area. The family had migrated from an adjoining District and his father the late Shri Dharendra Nath Banerjee was a permanent resident of Dhakuria. During his boyhood days Councillor Banerjee was in Ranchi Ramkrishna Ashram. As a student there he imbibed the spirit of service to the people. Later on, he developed this quality when he had returned to this city for higher education. After obtaining his M.A. Degree in 1939 Councillor Banerjee joined the office of the Deputy Accountant-General, Posts & Telegraphs, Calcutta. Soon he participated in a movement organized by the employees there for having rights of Trade

Unionism. Since then he had never been lagging to take an active part in any of the movements organized by the Central Government employees. After the merger of Tollygunge Municipality into the Corporation he sought election as an independent candidate in 1954 and came out successful. His success for the second time speaks of his popularity he has earned by dint of his sincerity and devotion to public service. In the Corporation he has always sided with the U.C.C. Party and never hesitates to take up the just and right cause. He always takes a sympathetic view of the Corporation employees' grievances.

WARD NO. 78.

A. SRI DEVA PRASAD CHATTERJEE

4, Prince Baktiar Shah Road, Calcutta-83.

A former Chairman of the Tollygunge Municipality Councillor DEVA PRASAD CHATTERJEE is also a Member of the West Bengal Legislative Council. He has been elected to the Council from Calcutta-24-Parganas Local Bodies' Constituency in 1952 on a Congress ticket. His election to the then Municipality was also on the same party ticket. In the Corporation he represents almost the same municipal area and is responsible for many of its civic improvements. Even when the Municipality was superseded and kept under an official Administrator his advices were sought for to carry on the civic administration. This year Councillor Chatterjee has been elected as the Deputy Chairman of the Standing Public Utilities and Markets Committee. On an earlier occasion he had been in the Standing Town Planning and Improvement Committee. In the Council Chamber he has always taken up the cause of the rate-payers.

Born on the 10th November, 1916, at the southern part of the city Councillor Chatterjee had his education here. He took M.A. in Economics and also secured a high position in B.A. Honours on that subject. He showed great organizing talent even during his student days. While as a student of the University he was in the forefront of the student movement. His name spread as one of the organizers of the University Students' Union, Bengal Provincial Students' Federation and others. As a student of Economics he was keen to form an All-Bengal Students' Economic Society. He was also the Secretary of the College Economic Society and Editor of the College Magazine.

Eldest son of the late Shri Charu Chandra Chatterjee, a great social worker, philanthropist and Congressman, Councillor Chatterjee inherits many of the qualities of his father. He actively

participated in almost all the social and political movements he came across since the Bengal Famine in 1943. Though attached to the profession of business mainly dealing on lands and properties Councillor Chatterjee is better known as an educationist in the city. He is the Founder Secretary of the Charu Chandra College built on a handsome gift made by his father. This institution he has nursed since its very inception in 1947. He is also connected with a number of educational institutions in Tollygunge area either as Secretary or as President of the Managing Committees. Libraries or cultural organizations have always received his patronage. As a Member of the Administrative Council of the Jadavpur University his services have also been recognized. Devoted to literary work he has also published a number of articles in various journals.

WARD NO. 79

SRI PRASANTA KUMAR SUR

1/49, Netaji Nagar Colony, Calcutta.

DEVOTED most of his time on social work and cultural pursuits COUNCILLOR PRASANTA KUMAR SUR has never neglected to improve the lots of the Tollygunge people in effecting civic improvements. For this purpose, he thinks that supply of filtered water should top the list and that is why he has been in the Standing Water Supply Committee. During these years he has qualified himself as a Member of that Committee possessing considerable knowledge in the city's Water Supply System. Councillor Sur keeps a constant watch on every stage of civic services in the area he represents.

Born in March, 1923, in the District of Noakhali, now East Pakistan, Councillor Sur had his education there. He was a student of the Comilia Victoria College and of the Calcutta University. After obtaining his M.A. L.L.B. degrees from the same University he started his legal profession independently. Even when he was a college student he was attracted to the Communist ideals and later got himself enrolled as a Party Member. He is also the Secretary of the Netaji Nagar Vidyamandir and attached to other institutions. His services in rehabilitating the refugee people in the Tollygunge area and work for their social upliftment have received recognition. He was one of the leaders of the Anti-Merger Movement and suffered imprisonment for active participation.

Councillor Sur is the son of Rai Sahib Nagendra Nath Sur, once Public Prosecutor at Noakhali who is now leading a retired life in the East Pakistan being attached to the social upliftment work.

VIEWS AND REVIEWS

A GRIM TRAGEDY

A TRAGIC incident that took place in Calcutta will long be remembered for its suddenness and loss of human lives connected with it. A portion of a two-storeyed building suddenly came down on its sleeping inmates in the early hours of October 15 and thereby eleven were killed instantaneously and six were injured. According to newspaper report Mr. Wazed Ali Khan, the proprietor of Argus Trading Company used to live with his family in a portion of the first floor of the ill-fated building at 1, British Indian Street and there was a few printing presses in the ground floor of the said building. It also housed several offices of business establishments and a few families. At about 4 o'clock on Tuesday morning a part of the roof on the rooms in which Mr. Khan and his family were sleeping collapsed suddenly without any warning, resulting in the deaths of Mr. Khan, his wife, four male children, a cousin and a maid servant of the family. Three other persons who were sleeping in a room on the roof also died. Among the injured persons were two daughters of Mr. Khan and four other tenants of the same building.

Immediately after the incident the local people started rescue operation and the Fire Brigade people and the local police joined them soon. Within three or four hours all the bodies of the dead were recovered from the debris. It is

strange, says a press report, that most of the dead bore no appreciable mark of injury and it was suspected that they died either from shock or suffocation under the debris.

On receipt of the information, City Architect, Shri P. Guha with the officials of the Building Department of the Calcutta Corporation visited the place of occurrence and arranged to pull down the rest of the building which was standing in a dangerous condition.

A pertinent question has been raised by the Press—'who is responsible for this gruesome incident?' The building which collapsed so suddenly was no doubt a very old one but that fact alone cannot be the main cause of collapse. There are many old buildings still standing in the city which are considered very safe and sound. The front portion of this building has recently been reconditioned according to a report published in the press. Information received from the Building Department also reveals that the Corporation was not informed previously of the unsafe nature of the building as reported by one of the local press.

Then what may be the main cause or the contributory factor in the sudden collapse of such a building where so many people lived and many offices were housed? This question remains to be answered. However, we convey our deep sense of sorrow to the members of the families who suffered a great loss in the calamity.

PERFORMANCE BUDGETING

By C. R. A. SOLOMON, A.I.M.T.A. (S.A.), Cost and Statistical Accountant, Johannesburg.

TO compare performance budgeting as it might be applied in a local authority with the budget procedure sometimes followed by commerce and industry would be an oversimplification. Performance budgeting may be regarded, however, as a refinement and extension of these basic procedures and, therefore, it may be as well to start by recalling to mind the implications of budgeting for manufacture and sale on a large scale under competitive conditions.

The starting point is normally the "profit target" which in turn leads to the various functional estimates. These are, first the sales estimate which is a forecast of future sales, followed by the production or operating estimate which is based on the sales estimate; this in turn is followed by the labour and material estimates which are based on the production estimate; and finally come the financial estimates. These estimates together constitute the budget, and the operational plan for the coming year. It will be clear that the key to budget formulation is the unit cost of activity, wherever such costs can be established, and that it is important to distinguish between expenditure which varies closely with the volume of production, and that which does not. This emphasises the fact that every product and every service is comprised of a number of different activities or tasks, each of which can be studied on its own. By evaluation of these components, sectional or total cost forecasts can be built up for any level of activity that may be desired.

This is not the place to pursue the topic, but this preamble will indicate the line of thought that the "performance" approach to budgeting implies.

In America and Canada "Performance Budgeting" is a term which has grown in popularity since it was first brought to the attention of the general public by what is now commonly known as the "Hoover Commission." This commission recommended in its report on Budgeting and Accounting issued in February, 1949, that the whole budgetary concept of Federal Government should be reorganised by the adoption of a "Performance Budget" based upon functions, activities and projects.

The concept of performance budgeting is not new to local authorities, but the development and extended application of the principles involved has created a renewed interest in financial administration of government at all levels, and an awakening to the possibilities inherent in a system of budgeting based on "performance." It is little wonder that more and more local authorities in America are embarking on what is now popularly termed "performance budgeting" programmes.

Mr. L. F. Anderson sums up the position very well when he says—*Municipal Finance* (November, 1955)—

" . . . it is clear that the public financial plan based upon realistic performance data is rapidly

earning a permanent niche for itself in the administration of government at all levels in the United States. This recognition stems from its superiority first, as an improved instrument for management at all levels in the administrative hierarchy; second, as a more meaningful and effective device in the hands of the legislative body for evaluating and controlling financial operations of the executive; and third, as a plan more comprehensible to the individual citizen, citizen research agencies and related groups, and the public generally. As government at all levels in this country continues to increase in size, complexity and cost, it is certain—perhaps inevitable—that the work and cost data required by a performance budget will not only be desired but demanded as an essential item in the quest for better administration and more effective utilisation of available financial resources."

Although we, as officials, ratepayers or consumers of services, are vitally concerned with the control and efficiency of local authorities, it would appear from a study of our present methods, that there is still much that could be done to improve our technique. Recent developments in the field of management and financial control stress the importance of planning all operations and activities in advance, and suggest that budgetary control is the best accounting tool available for this purpose. The performance concept of budgeting is a new approach to budgetary control which appears to offer many advantages over our existing system, and therefore merits our earnest consideration.

Let us examine this new approach to Budgetary Control and Financial Management more closely so that we may determine in what way a budget based on performance can assist us to improve our financial administration.

THE PERFORMANCE CONCEPT OF BUDGETING

Under the performance concept of budgeting, the annual budget (or "the Estimates" as we call them) is presented on a programme basis, and is based on unit costs, manpower statistics, and related indices of measurement, whereas the conventional budget is built up in subjective form with the emphasis on type of expense rather than on task evaluation. In other words, performance budgeting is the application of modern management accounting methods to the needs of local authorities. First the nature and extent of the services to be provided are determined, and then the costs of these services are estimated in terms of some pre-determined yardstick. Thus the provision made in the budget for "Street Sweeping" would be based on the cost of sweeping one mile of street and the total length of streets to be cleared. Obviously the success of a budget based on performance will depend to a large

extent on the adequacy and relevancy of a supporting system of programme accounting and reporting.

Performance Budgeting shifts the primary emphasis from the means of attaining an objective to the objective itself.

A "PERFORMANCE BUDGET PROGRAMME"

The introduction of a system of performance budgeting must of necessity start with an analysis of the functions carried out by the local authority.

The objects of this analysis are threefold :—

- (1) *To separate the costs of individual functions, services and activities.*

The reasons for this operational breakdown are important. Firstly, by relating expenditure to specific functions and services, it is possible to measure the efficiency of these activities in terms of some predetermined yardstick. In addition, it is possible to use these costs as "building blocks" to establish the cost of any portion of an operation or of the operation as a whole.

Secondly, it reflects the organisational structure of the department, and makes possible the delegation of responsibility for expenditure and performance to individuals actually in charge of activities. This is what is known as "responsibility accounting."

- (2) *To avoid overlapping of functions and duplication of activities.*
- (3) *To build up a comprehensive work programme as a basis for the budget.*

A "WORK PROGRAMME"

A work programme is a forecast of the expenditure to be incurred during the year in carrying out the various functions and activities. Expenditure and work-load are based on unit costs and performance standards and set out in detail in respect of each activity. In preparing the work programme, estimates of expenditure and work-load for the period under consideration are obtained from every individual in charge of an activity. The virtue of this approach to budgeting is that it demands realistic planning in terms of services to be provided.

The guiding principle behind the work programme is a sound one. Firstly, by separating costs of activities and functions, expenditure is related to services performed, and it is thus possible to measure the efficiency of these services; and secondly the responsibility for carrying out the programme and controlling costs is identified with certain officials. Control is a governing influence. It is directive as much as it is restrictive, and it is only by controlling the actions of people that we can ultimately influence costs, and ensure specific performance.

It is possible, however, to prepare a work programme without using work units, or cost data; but this method is not recommended, since it does not provide adequate and reliable information to compile a realistic budget, or to measure the efficiency of performance.

As far as I know, no local authorities in South Africa use thoroughgoing work programme when

preparing Estimates. Certainly any work-load statistics that may be used are not prepared in the same detail or form as that envisaged under the performance concept of budgeting.

WORK UNITS

Each of the functions described for departments may be made up of several different services and activities which must be separated and broken down into work units. For want of a better definition I have defined a work unit as a measurable quantity of work accomplished by a certain amount of human effort working at a standard rate to perform a specific task, and suggest that it be determined at the level of accomplishment. By "level of accomplishment" I mean the operating level such as the number of letters typed, or the number of requisitions handled—both of these units indicate volume of work.

Each general function should be divided up into the sub-functions which make up the service under consideration. For example, the City Engineer is responsible, *inter alia*, for the service functions of Water Supply, Sewage Disposal, Road Maintenance, and Cleansing Services. Each of these functions normally has sub-functions. The sub-functions of Cleansing Services, for instance, include Refuse Removal, Refuse Disposal, Night Soil Removal, Vacuum Services and Street Scavenging. Often these sub-functions may be broken down further into separate and distinct services and activities or tasks. For example, in the case of Street Scavenging, we have Gully Cleaning, Street Flushing and Street Sweeping.

These sub-functions and services represent a distinct activity which must be accomplished by a series of different work operations, and therefore each sub-function or service must have its own work unit. In the case of Street Scavenging, the level of accomplishment would be Gully Cleaning, Street Flushing and Street Sweeping, and the work units would be, say, 100 gulleys cleaned and mile of street flushed or swept.

The careful definition and separation of work units is important, as it forms the basis of performance budgeting. Once work units have been established, however, it becomes a comparatively easy task for departments to prepare their financial budgets on almost any basis, such as level of activity or standard of performance.

One word of warning. The selection of work units is both interesting and exasperating and not nearly so simple as it appears. But the advantages to be gained from sound reliable work units soon outweigh any of the initial problems.

STANDARDS OF PERFORMANCE AND UNIT COSTS

The development of unit costs for the various departmental activities implies the existence of basic standards of performance. In South Africa, unfortunately, little attention has been paid to this aspect of budgetary control, with the result that there are few adequate standards of performance available. Nevertheless, experience has shown that when work units are expressed in terms of costs, Heads of Departments tend to show more interest in the development of sound and effective standards. Further, standards expressed in terms of costs

invite comparison, and thus draw attention to operating results which are exceptional.

The modern approach to the question of unit costs is the unit of variable cost. Each item of expenditure is examined in relation to a particular activity, and classified according to whether it is fixed or variable. Fixed costs do not vary directly with the volume of work, and could be regarded as a mathematical function of time rather than of work-load. It must be recognised, however that so-called "fixed" costs are only fixed in relation to a certain specified level of operation. Any change in this level may cause certain of these costs to move in sympathy, though of course not in direct proportion. For example, a drastic curtailment of cleansing services may result in a saving of depot costs and administration expenses.

Variable costs on the other hand are directly related to the volume of work, and it is these costs which form the basis of the unit of variable cost. Unit variable costs are useful in planning the budget, appraising performance and controlling expenditure. They also simplify comparison between performance and expectation. Total variable costs are quickly obtained by multiplying the unit variable cost by the estimated work-load.

It should be possible for executive officials through a knowledge of the different characteristics of fixed and variable costs to predict with reasonable accuracy the reaction of these costs to possible administrative decisions. For example, if it is known that certain items of expenditure should vary with the level of activity, it is possible to take steps to ensure that they really do so vary.

The standards by which performance will be measured in any local authority will depend on policy rather than on any restrictions found in textbooks. Another point to be considered is whether the standard should relate to cost techniques or non-cost techniques such as the man-hour approach or statistical methods. In the former case any comparison made between different periods must take into account the changing level of prices.

When services are being expanded to meet the demands of a growing population, a budget system based on standards and unit costs provides an excellent administrative and financial tool for controlling rising expenditure. The system also provides information to guide management in estimating future operating expenses for different standards of service and sizes of population.

Possibly the lack of interest in standards shown by local authorities generally, is due to the absence of competition and the profit motive which is the driving force in commerce. Nevertheless, in spite of the absence of this motivating force, there is clearly an obligation on the part of local authorities not to waste resources. This implies the need for a well integrated system of control to ensure that value is received for money spent. This, in turn, can only be achieved if there is some means of measuring the quantity or value of the service received or rendered.

In determining the work unit to be used as a standard, consideration must be given to the most suitable methods of operation, and the most effective combination of labour, material and equipment. This involves a careful and detailed study of the work to be performed, and in my opinion this task

could best be undertaken by some central body such as the O and M Division of a local authority, or by a firm of management-consultants who should be given specific terms of reference. Four types of standard are normally used.

These are :—

- (a) *Historical Standard.* This is simply the level of performance achieved in the past.
- (b) *Ideal Standard.* This is a standard which can only be attained under the most favourable conditions possible.
- (c) *Normal Standard.* This is the average which it is anticipated could be attained over a period of time.
- (d) *Expected Standard.* This is a standard which it is anticipated can be attained during a future specified standard period.

BUDGET COMPILATION BY THE PROGRAMME METHOD

Annually departments submit to the Council through the normal channels a Work Programme and Financial Plan. These documents set out the planned expenditure and the work-load for each activity within the department, and for the department as a whole in the form of a summary.

Although the accounting system provides a detailed analysis of expenditure in subjective form, these details are not included in the budget. It is considered that a basic breakdown of expenditure to the following headings is sufficient and more useful for budgetary purposes :—

- (a) Salaries, Wages and Allowances.
- (b) Miscellaneous Expenses.
- (c) Repairs and Maintenance.
- (d) Capital Charges.

Once the work-load has been determined, it is a matter of simple arithmetic to complete the financial plan. The unit cost—this includes all the various items of expense needed to perform one unit of work—is multiplied by the total number of work units proposed in the programme. The attached specimen Work Programme and Financial Plan demonstrate clearly the simplicity of the budget arrangement under the performance concept of budgeting.

In South Africa the annual Estimates are designed to establish the limits of expenditure for a financial period, to fix rate levies and other charges required to finance the expenditure budget, and to ensure compliance with statutory and other provisions. In other words, the main purpose of the Estimates is to calculate the revenue requirements and establish the rate. Further, Estimates are usually presented in subjective form, which makes it almost impossible to relate expenditure to services, activities and tasks.

THE ACCOUNTING SYSTEM

A cost accounting system does not form an essential part of Performance Budgeting—there are other, non-cost devices such as the "man-hour" approach, and statistical methods which under certain circumstances may prove adequate for estimating expenditure. For example, in Johannesburg we

have successfully experimented with statistical methods for the ascertainment and control of costs on certain construction jobs. A sound cost accounting system is desirable, however, and it could be said almost indispensable in the larger local authorities.

In any case some costs are necessary—those to assist in estimating expenditure accurately, and to support claims for reimbursable expenditure; and those to aid management in determining policy, and making day to day decisions. This does not mean that costs should be kept for all jobs continuously—there is a big difference between having costs available and keeping them. To account means to answer; and therefore the predetermination of the questions to be answered will indicate the nature and extent of the accounting system. Accounting for costs in accordance with work programmes simplifies procedure, and assists in making costs available at short notice.

“Cost Accounting” to most local government officials conjures up visions of elaborate systems of mechanisation, complicated distribution charts and scores of accounting personnel. Often this implied criticism is justified, especially when the costs of maintaining the accounting system are incurred at the expense of urgently needed operating staff.

Programme Accounting is a modern approach to this problem which produces all the significant results of cost accounting with less effort and less expense. Under this system all costs of the department are separated according to functions and activities, and allowed to accumulate under these headings. No attempt is made to apportion any expenditure of an overhead nature to functions or activities. For example, in the Cleansing Branch, the costs of Head Office Administration and District Administration (which may include depot and certain ancillary services) would not be distributed over the services of Refuse Collection or Night Soil Removal, etc. To do so would be tantamount to holding the overseer responsible for costs over which he does no control. The practice of apportioning overhead expenditure over measurable activities is unnecessary and costly in a case like this, and in general tends to militate against the acceptance of responsibility. By leaving costs where they are generated, not only is there a tremendous saving in accounting and clerical time, but attention is focused on the operating efficiency of individual functions and activities.

BUDGETARY CONTROL

Technically, the ideal form of budgetary control would call for exact fulfilment of the budget commitments. For various reasons, however, this is impossible, so the next best thing is to establish the cause and the cost of all variations, and determine what effect these changes will have on the rest of the budget. The planned expenditure and workload of each activity within the department should be broken down into quarterly programmes, and these quarterly programmes into monthly programmes as the year advances. The reason, obviously, is that the annual work programme is not something that can be accomplished in exact monthly

twelfths, but is influenced by seasonal fluctuations and the type of work to be done.

A well prepared budget is a wasted effort unless the Work Programme is properly administered. This can only be accomplished if officials at different levels of management maintain constant control over the functions and activities for which they are responsible. The accountant should acquaint himself with the difficulties likely to face these officials from time to time, and his reports and operational statements to the various levels of management should contain all the information necessary to produce positive action. A report of expenditure by itself is of little value; if accompanied by a statement of output it renders some service; if, in addition, a standard is introduced the statement becomes valuable, for officials need only pay attention to those items which deviate markedly from the standard or budget.

Control implies a standard by which to measure the worth of information received, and it is only by constantly measuring actual performance against this predetermined yardstick that it is possible to reduce costs, increase efficiency and promote economy. Control must start at the operating levels of management. At this level the use of personnel and the use of material and equipment are controlled. At the next level of management the activities of operating heads are controlled, and so on up the scale. But control can only be effective if results together with an analysis of any variances are reported promptly.

Positive control requires enthusiasm, hard work, constant attention to detail, and (above all) a persistent and determined effort on the part of all employees to work as a team.

Passive or negative control which is the acceptance or rejection of information in accordance with some personal standard assumed by the recipient of the report is of little value, and often leads to trouble and dissatisfaction.

Although all reports should be designed to suit the particular requirements of an organisation and the potential recipient, the following points should be borne in mind. All reports should :—

- (1) Cover a specific activity.
- (2) Be complete, concise and simple.
- (3) Compare actual performance with the standard or budget.
- (4) Utilise the exception principle.
- (5) Provide for routine analysis of significant variations.
- (6) Be submitted regularly and timeously.

In South Africa, financial control is mainly directed towards ensuring that local authorities count the cost of any projects before they are adopted, that the moneys are spent only on authorised projects and that routine control of borrow-

ing and similar financial operations is carried out. Very little attention is paid to that aspect of control which ensures that the money has been spent wisely and effectively, except in the widest sense.

GENERAL

Performance Budgeting is not just another way of presenting a budget. It is a major change in the philosophy and approach to the problem of budgeting. As stated earlier the primary emphasis has been shifted from the means of attaining an objective to the objective itself. Under this new concept of budgeting, expenditure is planned and controlled in terms of predetermined workloads: the practice of using the previous year's figures as a guide, and adding a certain percentage to cover rising costs without reference to the work programme ahead, has no place in performance budgeting.

The head of a department is in effect placed in the position of a sub-contractor for services—the Council allows him greater flexibility in the use of funds provided, but in return expects specific performance. Any shortfall in the workload should be accompanied by proportionate savings. Consideration of budget requests by the Council is converted from a purely mechanical operation to a review and appraisal of actual performance against standard.

Since the fiscal policy to be followed and the administration of local affairs is the responsibility of the elected council of the local authority, it should be provided with the necessary tools to carry out these functions. The budget presented in purely subjective form which diverts attention from policy and programme to administrative matters is of little use for this purpose. How can members of the local authority possibly know from it if 10 or 12 men should be employed on a certain activity; or what the cost make-up of any project should be? However, if the budget figures presented to them were based on unit costs, they could relate this information to their own experiences, and also compare it with results achieved by other local authorities.

The rate fund and miscellaneous funds account for a large portion of the municipal budget, and anything that can be done to ensure better preparation and control of their sectional budgets must result in a marked increase in the efficiency of municipal operations.

Heads of departments are responsible for planning and controlling the functions of their departments, and in the end it is they who must account for any excess expenditure on any project. They are constantly faced with the challenge of doing more and more on less and less, and therefore, operational costs are of extreme importance to them.

HEALTH AND HYGIENE**TREATMENT OF TUBERCULOSIS**

ALDERMAN Dr. Amiya Kumar Bose who is also a member of the Standing Health Committee of the Corporation has submitted a scheme to the Mayor of Calcutta for the expansion of domiciliary treatment of tuberculosis in Calcutta. The scheme is mainly for the patients suffering from the tuberculosis of the lungs and he proposes to divide the city into 12 Zones for the facility of organizing treatment centres and chest clinics. Alderman Dr. Bose is a specialist of heart and chest and he also runs a fairly big hospital in the city. Dr. Bose has been elected President of the Medical Section of the Science Congress to be held in 1958. In his scheme Alderman Dr. Bose has stated that about 2,00,000 people suffer from tuberculosis of the lungs in West Bengal, as against 3,000 beds in the State for T.B. patients, many of which are reserved for the police, army and other categories of special workers.

Quoting 1955 survey Alderman Dr. Bose said that out of 1,676 T.B. patients, 65 per cent. belonged to lower classes, 34.3 per cent. to lower middle classes and the rest to middle classes. Their living conditions were such that 75 per cent. could not be isolated in their homes, in a scientific way through domiciliary treatment. More than 70 per cent. had no economic resources to pay for their medicines. Only 20.8 per cent. could take rest during treatment, 11.7 per cent. had to work half-time to maintain their families, and about 48 per cent. had to work part-time.

With regard to X-Ray facilities, Dr. Bose said that at least 60 to 70 per cent. of the patients derived only negligible benefit of free medical advice and very little help for treatment either from any association, Government or private Chest Clinics.

About the expansion scheme, Dr. Bose said that one of the main ideas of extension of domiciliary treatment was to try to eradicate the disease within a certain specific period by intense chemotherapy, and as such effective isolation was of prime importance. He emphasized that it was not possible and perhaps not necessary to hospitalise all such patients. He suggested the division of Calcutta into twelve zones, each having a properly equipped chest clinic, with subsidiary centres. The principle of control and treatment would be based on the following arrangements:—

1. Prevention—B. C. G. vaccination with "proper care" and nutrition.

2. Home segregation and isolation in special huts in "bustee" areas.

3. Early detection—Mass miniature radiography of socially controlled group of population.

4. Treatment—Intense and judicious chemotherapy; hospitalisation of only actually ill cases who are unable to come to clinics; clinical (ambulatory) and home treatment when necessary, with follow-up and check-up facilities for surgical

treatment in a central hospital and care of the "contacts".

5. Isolation huts in bustee areas: Provision should be made for erection of economical isolation huts for sputum positive cases, where isolation in their own homes is not possible. These huts will function as mere extensions of their own homes so that they can get their own food and attention from their own house. Groups of such huts may be supervised in the general way by one doctor or health visitor. This will minimise the cost of isolation to a very great extent. There is to be a phased programme for achieving this objective.

6. Rehabilitation—Finding proper jobs for the cured.

Discussing the working pattern, Dr. Bose said it would be necessary to provide all the specific drugs free to a large percentage of patients. On the "salary question", he said that if the patient is the wage-earner of the family, "his economic security must be maintained during the period of his absence from work. If necessary, suitable legislation should be enacted. For non-wage earners, it should be the duty of a Welfare State to find suitable economic help for them."

ASIAN MAYORS' CONFERENCE

Asian Mayors' Conference will be held for the first time at Tokyo around October this year says Tokyo Municipal News. The Mayors and their wives of the following Asian cities will be invited to the Conference by the Governor of Tokyo:—

Taipei, Kaohsiung, Tainan, Manila, Cebu, Baguio, Quezon, Saigon, Cholon, Phuon Penh, Vientiane, Bangkok, Chang Mai, Rangoon, Mandalay, Moulmein, Jakarta, Medan, Surabaya, Makassar, Semarang, Bandong, New Delhi, Madras, Bombay, Calcutta, Delhi, Ahmedabad, Hyderabad, Karachi, Dacca, Lahore, Colombo, Kandy, Hong Kong, Kabul, Katmandu, Punakha, Kuala Lumpur, Singapore, Sandakan, Brunei, Kuching, Teheran, Abadan, Nawa, Seoul, and Pu-San.

About 50 Japanese cities will take part in the conference.

The Asian Mayors will discuss such problems common to their cities as: democratic and efficient management of city administration, relations between the central government and the local (especially city) authorities, financial establishment of cities, tourism and trade of cities, city planning, housing and regional development, public welfare, and exchange of cultural and technique.

It is expected that the Conference will bear fruits of better understanding and friendship among Asian countries.

THE WORLD OF BOOKS**PUJAH NUMBERS**

THE FREE-LANCE, 1957—Edited by Shri Sures O. Das, M.A., Price—60 Naye Paisa.

THE AMRITA BAZAR PATRIKA, 1957—Edited by Shri Tusar Kant Ghosh, Price Rs. 3/8/- only.

THE HINDUSTHAN STANDARD, 1957—Edited by Shri Sudhangshu Bose, Price—Rs. 3/- only.

THE JUGANTAR (Bengali) 1364 B.S.—Edited by Shri Vivekananda Mukherjee, Price Rs. 3/- only.

Containing a smaller number of articles and priced on a comparatively easy amount the "Free-Lance" Puja Special is, no doubt, a new entrant on this occasion. The Special Number has been enriched with articles from the pen of authors many of whom are not unknown to us. Besides, within that thin volume all modern topics have been given due shares being discussed by writers prominent in their respective fields. Still a question arises in readers' minds that 'Bengali films 10-day' should be equally treated in the journal with an article namely 'Bengali sportsmen of these Days'. However, the birth of the new journal should be welcomed by all.

The "Patrika" Puja Number, 1957, has not been able to reach the standard of expectation to its readers when one goes through the voluminous number containing a list of contributions. To-day the reader has become tired of these age-old practice in the system of selection of articles published in the two prominent journals,—the 'Amrita-Bazar Patrika' and the 'Hindusthan Standard'. No body can boldly say that these two journals have been successful in catering to all the needs of the present reading public.

However, the Number has been enriched with many of the important articles on Industrialization, on Development, on Education, on Arts & Crafts, on Music and what not. And the authors of these articles are mostly renowned men like Dr. Ramesh Chandra Masumdar, Shri Nityananda Kanungo, Prof. O. C. Ganguly, Shri Ashit Kumar Haldar, Swami Pragwananda, Shrimati Indumati Bhattacharyya, and others. Shrimati Lila Roy's 'Chara in Bengali Folk-literature' is really an interesting article. Articles on 'Humour' from the pens of Shri Ashu De, Ralph Middleton and others deserve special mentioning. Short stories from writers of international repute, faithfully translated into English have also graced the volume.

The "Hindusthan Standard" Puja Number, 1957, has no doubt maintained its age-old tradition. But it is to be pointed out that neither the spirit of articles nor the selection and arrangements of these, have inspired the veteran reader who vainly search for a new and fresh gesture of attitude in bringing out such Special Numbers.

In spite of all these, there are certain articles which cannot be ignored at all. Dr. Radhabinod Paul's 'Shadow of the Past' and Dr. Jadunath Sarkar's 'Our Present Discontent' have really filled the readers' minds with something thought-provoking as well as to find a solution

out of the present evils. These two significant contributions have no doubt pointed out the causes of the ill of the modern times which should draw the attention of the social and political workers in the country. Prof. O. C. Ganguly, Dr. Suniti Kumar Chatterjee, Shri Debes Das, I.C.S., Shri Amal Mitra and several others have wielded their pens in a manner really interesting to read. Many of the famous Bengali short stories, faithfully translated into English, have added equal treasures to the volume.

"Jugantar", Annual Number 1364, B. S. holds good of the past traditions. The voluminous number contains as many as fifty-six short stories from the writers well-known in the Bengali literature. But it is too early to predict how much treasures will they add in the richness of the Bengali literature. Still stories from many of the acions of Bengali literature, namely, 'Parasuram', 'Banaful', Pramathanath Bishi, Bibbuti Bandyopadhyay, Dakshinaranjan Basu, Dr. Jyotirmoy Ghosh and others deserve special mention. Giving a perspective view of the daily "Jugantar" the number contains all the aspects including the children's corner, sports field, fine arts and what not. The volume has certainly traced another step towards achieving an ideal feature for journals with varied subjects.

VITAL STATISTICS

For the City of Calcutta for the week ending
21st September, 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 667 against 692 and 655 in the two preceding weeks and higher than the corresponding week of the last year by 57. The general death-rate of the week was 11.42 per mille.

TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 21st September, 1957, was 515 against 526 and 499 in the two preceding weeks. There was 1 death from cholera against 4 and 7 in the two preceding weeks. There were 2 deaths from small-pox during the week against 1 in the previous week. There were 3 deaths from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 12 and 63 respectively against 10 and 79 in the preceding week. The general death-rate of the week was 11.39 per mille per annum.

There were 85 imported deaths. Excluding these, the death-rate of the Town was 9.51.

There were 76 deaths from respiratory diseases against 69 in the previous week.

There were 33 deaths from tuberculosis against 26 in the previous week.

ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 152 against 166 and 156 in the two preceding weeks. Of these, 1 was from cholera, 1 from small-pox, nil from influenza, 6 from fevers, 35 from bowel-complaints and 25 from respiratory diseases. The death-rate of the added areas was 11.55 per mille.

There was no imported death. Excluding this, the death-rate was 11.55.

There were 6 deaths from tuberculosis against 11 in the previous week.

REFUGEES AT SEALDAH STATION

The demand for early removal of the refugees now living at Sealdah to camps was made at a meeting held in Wellington Square in the afternoon of October 10. Shri Dhiren Bhowmick presided. In a resolution the meeting decided to launch a satyagraha by the refugees unless the Government adopted speedy measure for their early removal to camps and subsequent economic rehabilitation.

CITY NEWS PARADE

WAGE BOARD DECISIONS IMPLEMENTATION

DAY has been observed by the working journalists all over the country on October 14. The Indian Journalists' Association held a public meeting in this connection at the Indian Association Hall.

AIR SERVICE to Asansol which is fast developing as the industrial haunt of West Bengal, has recently been put into operation.

A regular service between Asansol and Dum Dum has been introduced from October 15.

Asansol is 138 miles from Calcutta by road.

FAST FLIGHT TO DELHI: The inaugural flight of the Indian Airlines Corporation's Viscount service in the Delhi-Calcutta route arrived in Calcutta on October 10 with the Minister for Civil Aviation, Shri Humayun Kabir, Burmese Ambassador in India, U. Than Aung, other India Government officials and some Press people on board.

The Calcutta-Rangoon flight was inaugurated in the same evening.

CALCUTTA CITIZEN HONOURED: Shri Amartya Kumar Sen, Professor of Economics, Jadavpur University, has been elected a Fellow of Trinity College, Cambridge University. He is the first Indian to be elected a Fellow in Economics of Trinity College.

FIRE PREVENTION WEEK: The various types of equipment and apparatus used for fire fighting and rescue operations were displayed at the exhibition opened by the State Food Minister, Shri P. C. Sen at the Chittaranjan Avenue Fire Station on October 13.

The opening of the exhibition marked the inauguration of the Fire Prevention Week, organised by the West Bengal Fire Service.

The object of the programme drawn up being to make the general public conscious about prevention of fires. An impressive procession of firemen with fire engines, wireless and publicity vans paraded the city streets in the afternoon.

As the procession moved about in different areas, hand-bills were distributed asking the people to take care of naked lights, not to smoke in bed, to extinguish the cigarette ends and match-sticks before throwing them, to keep combustible materials in safe places, not to store petrol and other highly inflammable liquids in a place of residence, to check up electric wirings for faults, and to extinguish all fires before retiring.

The exhibition at Chittaranjan Fire Station remains open for a week.

STRIKE IN HOSPITALS: The Government of West Bengal, it is learnt, have asked the Government of India to evolve a formula to prohibit strikes in charitable institutions, hospitals, schools and colleges.

The State Government have pointed out that these bodies should not be considered at par with other organisations making profit. Any strike in these organisations, the West Bengal Government have further pointed out, stifles the progress of the society and seriously endangers the health of patients.

To safeguard the rights and privileges of the workers in such organisations, the State Government have pointed

out that statutory bodies could be set up in these institutions with a retired judge and representatives of the employers and the employees.

Such statutory bodies would conciliate disputes besides suggesting improvement in the living conditions of the workers.

DENTAL HEALTH: All India Council of Dental Health is running a poster competition which is open to school children, college and art students. The subject of competition must be: "Dental Care", to be used for educating the public on how to look after teeth. Designs can be done in any number of colours to a maximum size of 18 ins. by 24 ins. The closing date for the Competition is 20th December and all details can be obtained from the Honorary Secretary, All-India Council on Dental Health, 64, Mohamedali Road, Bombay-3.

BABY MOON: The aeronautical communication station at Dum Dum received signals from the baby moon. The usual "beep, beep" followed by strong musical note was recorded at the station.

The State police wireless headquarters in South Calcutta had recorded the familiar 'beep-beep', dots and dashes morse signals.

A tape recording of the signals had been made and would be played to Dr. B. C. Roy, Chief Minister of West Bengal.

THE WOMEN'S AND CHILDREN'S INSTITUTIONS ACT, the women's and children's Institutions (Licensing) Act, 1960, which received the assent of President has been made enforceable in West Bengal. Provisions of this Act will extend to the whole of India.

After the commencement of this Act, no person shall establish or maintain an institution, for women and children except under and in accordance with the conditions of a license granted under this Act. Every person desiring to establish an institution shall make an application to the licensing authority.

RUPA BHARATI: Dr. R. Ahmed, Minister for Agriculture, West Bengal, inaugurated the Rupa Bharati, a new cultural organisation, at a special function of little children held at Raj Bhavan, Calcutta, some time back. Dr. Ahmed in his speech emphasised the need for such cultural institutions for children to broaden their outlook and education from the very childhood. Dr. Kalidas Nag, who is the President of the Rupa Bharati, explained the aims and objects of the new organisation which is meant to inculcate cultural and social education into the minds of the little children through music, dance, dramas, educational film shows, etc. Shri Ajoy Kumar Mukherjee, Minister for Irrigation, also addressed the gathering and explained the aims of basic education and its formative influence on the minds of the children. Shrimati Sontosh Kumari Devi in a short speech said that the children should learn to love their country from their very childhood and should be taught to aspire after higher ideals of service to humanity through education, music, dance, drama, games, etc.

The little children of Rupa Bharati then entertained the audience with a variety programme of dance and music. A speciality of the function was that Master Narayan Mathur, a young boy, and Kumari Anupa Bhuamik, a young girl, were elected President and Chief Guest, respectively, and they delivered short speeches. Shrimati Padmaja Naidu, Governor of West Bengal, was present at the inaugural function and witnessed the performance of the little children.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following work are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 23rd October, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the D. E. II's Office (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P. I. Works may at the discretion of the Commissioner be forfeited.

14. Repairs to footpath pavement of Dharamtalla Street from the junction of Wellington Street to Lower Circular Road (portion), Const. Nos. 45 & 46—Rs. 4,532/-, dated 15th October, 1957 (1 month).

15. Repairs to footpath pavement of Lower Circular Road from the junction of Dharamtalla Street to Bowbazar Street (portion) and Sashi Bhuvan Dey Street (portion), Const. No. 46—Rs. 3,891/-, dated 15th October, 1957 (1 month).

16. Provision of benches, umbrella type shelter etc. in the Wellington Square, Const. No. 45—Rs. 1,595/-, dated 15th October, 1957 (1 month).

17. Providing umbrella type shelter, benches in the Children's Park at Ramnath Kaviraj Lane, Const. No. 45—Rs. 575/-, dated 15th October, 1957 (1 month).

19. Construction of pucca surface drain near premises No. 52C, Adhar Chandra Das Lane, Ward No. 15—Rs. 628/-, dated 18th September, 1957 (21 days).

20. Construction of pucca surface drain leading to premises No. 32 etc. Ultadanga Main Road towards Gurudas Dutta Garden Lane, Ward No. 15—Rs. 619/-, dated 18th September, 1957 (1 month).

21. Construction of culvert at 60/4, Suren Sarkar Road, Ward No. 36—Rs. 345/-, dated 18th September, 1957 (15 days).

22. Construction of culvert between premises No. 46 and 47A, Belegata Main Road, Ward No. 36—Rs. 119/-, dated 12th October, 1957 (10 days).

23. Construction of culvert at 116, Belegata Main Road, Ward No. 36—Rs. 345/-, dated 18th September, 1957 (15 days).

24. Construction of pucca surface drain leading to premises No. 20, Canal East Road, Ward No. 15—Rs. 1,962/-, dated 23rd July, 1957 (1 month).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored out and noted accordingly and initialled in case of above Rs. 1,000/- only.

S. K. MUKHERJEE,
District Engineer II.

District II Eng'g. Office.
The 14th October, 1957.

District No. IV Engineering Department

PHENEOL LAMP BRAND

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates :—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leasee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

A. QASIM, Bar-at-Law.

OUR ALDERMEN AND COUNCILLORS

WARD NO. 80.

DR. ARABINDA PROSAD DAS GUPTA

24/4, Lady Willingdon Road, Calcutta-82.

IMBIBED with a spirit of service to people COUNCILLOR DR. ARABINDA PROSAD DAS GUPTA has returned to the Council Chamber for the second time. As a physician he has built up an extensive practice in the Tollygunge area and has rendered appreciable amount of services in the social and cultural fields of that locality. This has enabled him to earn popularity and command respect of the citizens. He was elected on an U.C.C. Ticket in the Corporation and politically he is linked with Praja Socialist Party. For two successive terms Councillor Dr. Das Gupta was an important member of the Standing Health Committee and contributed much for the improvement of city's health. This year he has been elected to the Standing Town Planning and Improvement Committee. Besides, he is attached to a number of social and cultural organizations in his locality.

Son of Shri Nalini Mohan Das Gupta, Councillor Dr. Das Gupta was born in Dacca now in East Pakistan, in the year 1914. His uncle a renowned artist was a Principal of the Jubilee Art Academy. His great grand-father was an Advocate of the Calcutta High Court.

After obtaining his M.B. degree from the Calcutta University, Dr. Das Gupta specialized himself in Tisio Logia from Naples, Rome. He was also the Resident Surgeon of Grove Park Hospital in London and obtained F.C.C.P. from the U.S.A. He has been the Visiting Physician of the K. S. Roy T.B. Hospital, Jadavpur, for a long time. He is also the President of the Indian Medical Association, Jadavpur Branch. Giving relief to the suffering T.B. patients and improvement of the lots of Bustee-dwellers are the two aims for which he has been striving in the Corporation for the last few years.

SHRI TULSI PAUL

A few lines may be said in connection with the life-sketch of Councillor Tulsi Paul, published in the Supplement to the "Gazette", dated the 14th September, 1957. According to Councillor Paul he has never been returned on a Congress or any other Party Ticket to the Corporation on any occasion; so the question of resignation from any party did not arise in his case.

Name of Councillor Paul's father has been printed inadvertantly as Shri Atindra Nath Paul instead of Shri Arindra Nath Paul. Further he was not a Chairman of the Borough Committee No. 5 as stated by him.

We regret for all these.

Ex-Officio

SRI S. K. GUPTA, I.C.S.

Chairman, Calcutta Improvement Trust.

Neither an erstwhile youth leader, nor a politician in the making, nor representing any constituency, and owning no party allegiance, Shri Gupta chooses to plough a lonely furrow in the Corporation, and play the modest role of a Cassandra crying in the wilderness.

Born in February, 1902, he graduated in 1922 from the Presidency College with Eshan scholarship in Economics, stood 2nd in the I.C.S. examination held at Allahabad in 1924, and after two years of probation in Oxford, entered service towards the end of 1925.

Service career was chequered and eventful with many ups and downs (more downs than ups) due to political and administrative conflicts. Not being considered fit for an executive charge of a district, he was groomed for the judicial line which, after a time he began to like immensely because of its comparative freedom from outside interference and the scope it gave to the exercise of the intellect. In 1938-39 he went back to London to study law in Gray's Inn and secured 1st class in all the three papers of the Preliminary Bar Examination for which he sat, standing first in Constitutional Law and Hindu and Mohammedan Law, and third in Roman Law. He regrets not being able to complete the Bar final owing to the outbreak of World War II and still retains some forlorn hope—never, perhaps, to be realised—of being able to do it some day. After Independence, he was drafted to the Secretariat, first as Secretary of three departments, then of two, and lastly of one—the gradual shedding of multiple responsibilities being due as much to clash of personalities as to the strain of combining a number of developing departments like Education, Medical and Public Health, and Local Self-Government under one hand. Appointed Chairman, Calcutta Improvement Trust, in October, 1950, he has stuck to that post for the last seven years and by virtue of that office is also a Councillor of the Calcutta Corporation.

Age has sobered the radicalism of his youth but not eliminated it, as one of his Oxford Professors predicted in 1925 that it would. Judicial experience has, however, taught him that every shield has another side to it and service experience has bred in him a dislike for rhetoric and slipshod work. An ardent believer in the virtues of local self-government which in his youthful enthusiasm he once regarded as an essential first step in the democratisation and decentralisation of power his faith is sometimes sorely tried by evidence of lack of planning, perfunctory work under inadequate supervision, the precedence given to sectional interest, and the premium given to rhetorical displays in preference to action.

ALDERMEN

DR. TRIGUNA SEN

Jadavpur University, Calcutta-82.

FORTUNE favours the brave, is a phrase really applicable to the life of Dr. Triguna Charan Sen. Dr. Ing. (Mun'ch), A. M. M. E. (B. Tech). A. M. I. Mech. E. (Lond), M. I. T. (Ind), the Mayor of Calcutta and the present Rector of the Jadavpur University. Dr. Sen is one of the pioneers for the expansion of Engineering education in the country. Before the University came into existence in the year 1955, Dr. Sen was the Principal of the College of Technology and Engineering, Jadavpur, under the National Council of Education, Bengal. He can claim his association with the College even as a student of the great institution. The present all-round expansion and development of the Engineering College is also due to his untiring efforts as its Principal in the fifty's. As a Principal and later on as a Rector, Dr. Sen has endeared himself to the student community of the country.

Born in 1904, Dr. Sen had his early education in his native district Sylhet (now East Pakistan). He graduated from the Jadavpur College in 1921. Later he was sent abroad from the College with a scholarship for Post-Graduate studies. In Germany he obtained a Doctorate Degree in Mechanical Engineering and studied Business Administration and Industrial Structure. Since then he used to take keen interest in the future industrialization of the country and inspired many of his students to start factories and small industrial managements after completion of their studies.

He was arrested and was kept under internment on his return to India in 1932. He was also externed from the Presidency Division. He joined the College in 1943 as a teacher.

Besides, Dr. Sen is associated with different other organizations and institutions, particularly in the Engineering field. He is a Member of the Durgapur Industries Board and his advice is very often sought in many of the Government industrial projects and plans. He is also a member of the Senate of the Calcutta University as well as of the Engineering University of Roorkey. For the past few years he has been a Member of the Board of Trustees, Calcutta Improvement Trust. He also represented the Corporation there.

As the Mayor of the biggest city in the East, burdened with the problems of over population and its consequential effects, Dr. Sen has gained a reputation within the short span of time for his untiring energy and right approach to the various problems. The urgent need of augmentation of water supply in Calcutta, construction of accommodation for the Mazdoors of the Corporation and such other improvement works of capital nature drew his attention from the very beginning. He rushed to Delhi

to convince the Union Minister of the urgency of the works and to get sanction of loan and other aids from the Union Government. And his effort has been a success to the great relief of the citizens. His effort in removing the grievances of the Corporation employees has made him dear to them who take guidance from him in their activities. Dr. Sen is now bent on the programme of control of infectious diseases in Calcutta and other corollary activities of the Corporation. He has already shown his proficiency and quality of managing this great corporate body in a manner that has earned praise from all quarters.

SRI AJIT KUMAR DUTTA

67, Southern Avenue, Calcutta-29.

One of the leading Advocates of Calcutta High Court and Supreme Court of India, Alderman Ajit Kumar Dutta is quite well known among the circles who fought for freedom in India. His father Shri Kamini Kumar Dutta of Comilla was one of the associates of Deshabandhu Das and the then Big Five of Bengal. He has a great contribution in the freedom movement of India. Shri Kamini Kumar Dutta was also a member of the Legislative Council of Bengal. After the

partition of Bengal, Alderman Dutta's father preferred to stay in his native place and he is now a member of the Pakistan Parliament. The famous industrialist and Congress leader, late Captain Narendra Nath Dutta, founder and Managing Director of Bengal Immunity Co. Ltd., once well known in political circles of Bengal was the uncle of Alderman Dutta who has acquired many of the qualities of his great lineage. Along with his career as a boy in the educational institution he learned to love his country from his illustrious elders and to fight for freedom. Thus he became one of the pioneers of the student movement in Bengal and became the founder member of A. R. S. A. He plunged himself deep into politics during the non-co-operation days and salt-campaign initiated by Mahatma Gandhi. He had to suffer for his political views and activities. Student demonstration against Simon Commission was mainly organized by him.

Gradually he became connected with various educational institutions and he is still now one of the leading figures in the field. As an Alderman, Shri Dutta chose the same path of his activity. He has been elected Chairman of the Standing Education Committee—a work which he carries on happily in spite of his day long toil for his own profession and various philanthropic work. Many social welfare organisations viz., Ramkrishna Mission, Refugee Relief establishments and similar

others receive his help and co-operation and he has now become much interested in the well-being of the children.

SREEMATI PRATIMA BOSE

2/2, Keyatala Road, Calcutta-29.

The only member of the fair sex in the Council Chamber is Alderman Sreemati Pratima Bose who is one of the leading social workers in this part of the country. She has chosen the career of teaching as professor of a College and has dedicated her life to the cause of social upliftment of not only the women and children of the soil but of all who are down-trodden and driven by fate to remain so. Sreemati Bose attended the course of journalism in the Calcutta University and studied social service in Europe. She toured round the continent to visualise the social reconstruction work that are now being carried on in England, France, Germany and many other countries of Europe after the devastation of the second world war and she gained first hand information and knowledge of what she saw with her own eyes about the working of socio-educational institutions in a most scientific way. She came back with a determination to utilise her knowledge in her own country and since then she is carrying on the work of service towards humanity.

Sreemati Bose is now the Honorary Secretary of the Prime Minister's Relief Fund Committee, she is a member of the Indian Red Cross and General Secretary of Bangiya Mahila Sangha, Child Welfare and Mahila Seva Samity. Her work in the field has earned a reputation and her services are counted much by the Congress in their social service work. She has already been able to open several units in the rural areas of West Bengal for spreading mass education to uplift the economic and social condition of women. She is keen to awaken the submerged mind of the feeble and the depressed with a psychological approach to the problem best suited to the occasion.

Alderman Bose is attentively heard in the Corporation when she prefers to speak and she has created an impression in the Council Chamber for her bold manner and relevant points in her talks.

A social worker from the very bend of her mind, very amiable in nature with a touch of motherly affection and love for all, Sreemati Bose finds her hobby in reading and translating the ideas imbibed into action.

SRI GURUGOBINDA BASU

16/4, Garahata Road, Calcutta-19.

Wizard in the line of Accountancy, Alderman G. Basu was not unknown to the Corporation even before he was elected to the position of

Aldermanship. His help was sought to improve the system of the age-old method of accountancy prevalent in the Corporation and he eagerly gave all possible assistance that he could give in spite of his pre-occupation and very busy life in the profession as well as in his many sided social activities. He is now an important member in the Standing Finance Committee of the Corporation.

Alderman Basu comes of the much respected family of Basu Ramananda, one of the famous devotees of Shri Chaitanya Dev. Son of the late Mohun Mohan Basu, Alderman Basu's native place is Purgapur, now famous for many industrial projects undertaken in the area, in the district of Burdwan. He was born in the year 1898 and after graduating from the University of Calcutta he qualified himself as Incorporated Accountant in the year 1924 from England. He also became the Chartered Secretary. Coming back to India Alderman Basu plunged headlong into work and by dint of his devotion to work and merit very soon became one of the leading figures in the field. He is now fellow of many organizations like the Institute of Chartered Accountants of India, Society of Incorporated Accounts, London, Chartered Institute of Secretaries, London, Institute of Cost and Works Accounts of India of which he was the founder Secretary and its President in 1956-57 and founder member of the Institute of Company Secretaries of India. He was a member of the Accountancy Board from 1939 till 1949 when it was replaced by the Institute of Chartered Accountants. He also became the Vice-President of the Institution in 1949-50 and President in the year 1952-53. He has been the Chairman of its Coaching Board nominated by the Government of India. Advice and help of Alderman Basu have always been sought by the Governments of India and West Bengal and he became the member of the Industrial Finance Corporation Enquiry Committee set up by the Government of India to investigate into the complaints made in the Parliament. He has been a member of the Board of Directors of West Bengal Financial Corporation, Central Advisory Council of Industries, Minimum Wages Advisory Committee of West Bengal, Licensing Board under the Excise Act, West Bengal, Provident Fund State Committee, Government of India and many such other Committees set up from time to time. He is now a member of the Company Law Amendment Committee, appointed by the Government of India.

Business and Industrial magnates have always sought his co-operation in their work in the field. He has been in the Executive Committee of the Bengal National Chambers of Commerce for more than twenty years and its President for two years in succession. He has also been a member of the Indian Chambers of Commerce and Bharat Chamber of Commerce.

As a tried Rotarian he became the President of the Calcutta Rotary Club in 1954-55 and was District Governor for some time and now he is

the B. I. Councillor of Rotary International for territories from Peshwar to Burma.

As a teacher of this branch of science he has gained reputation and he was a lecturer of the Calcutta University for more than 25 years in the B. Com. and M. Com. classes. He is still a visiting lecturer in Costing at the Bengal Engineering College. He has been examiner in Accounts, Auditing, Taxation, Costing and Business Administration of Calcutta and many other Universities and Union State Public Service Commission. He is the author of the book "New Company Law" which has been appreciated.

Many other organizations viz. Mental Hospital, Ranchi, Safety First Association of India, Calcutta Charitable Society, K. S. Roy Tuberculosis Hospital, Women's Co-operative Industrial Home get his help and advice by electing him as member or important office bearer.

Government of West Bengal has appointed him Justice of Peace and nominated him a member in the West Bengal Legislative Council.

Alderman Basu has a hobby of studies in social welfare work and he never lags behind in any such work entrusted to him.

DR. AMIYA KUMAR BOSE

63, Elliot Road, Calcutta-16.

A true scientist from the very core of his heart who finds pleasure in reading and producing scientific treatise, yet full of love for humanity's Alderman Dr. Amiya Kumar Bose, elected to the exalted position for the first time in the Corporation. Within this short span of a few months Alderman Dr. Bose has earned a reputation as a member of the Standing Health Committee and his presence is felt in the Corporation. His sobriety and sincerity have a telling effect upon the members on whatever subject of his own he speaks. Gentle by nature and well-mannered in attitude Alderman Dr. Bose is one of the leading heart specialists in the country and is a member of the Indian Council of Medical Research, Government of India. He has occupied many an exalted positions in the medical line. He was a senior Physician of the Calcutta Medical College and a Professor in the Lake Medical College. He was also a Cardiologist in charge of Presidency General Hospital. As an Honorary Superintendent of Islamia Hospital since 1947 he has practically rebuilt the hospital and has given it a new shape for which he had to labour hard. He is still a member of the Governing Body of the Child Health Institute and Vice-President of the Students Health Home—the institution which he reared from its very birth. He is the present President of the Medical Section of the Science Congress. Being a lover of Medical Science and its studies he was an examiner of Final M.B. Examination of Calcutta University and an examiner of M.D. Examination of other Universities. He had been a member of the Post Graduate Medical Committee of Calcutta University and a Medical Secre-

tary of the Asiatic Society. The Cardiological Society of India owes its origin to him and he is not only the Secretary of the organization but a life and soul of the institution. He has been mainly responsible for starting the Indian Heart Journal which has now secured an international recognition. Attached to many organizations in his own line in various capacities he is the Vice-President of the Indian Medical Association and he was more than once President of the Bengal Branch of the same Association.

He has been elected President of the Peoples' Relief Committee and a member of the Education Reforms Association. Culture and union of human knowledge attract him most. So he has been elected Vice-President of the India China Friendship Association and Indo-Soviet Cultural Society. As a man of learning and profound knowledge he loves to write and convey the message of his findings and work through various scientific treatises and papers. The articles published in the Scientific Journals have been found to be of so much importance that many references have been made from these articles in Medical Books published outside India, particularly on heart diseases. Alderman Dr. Bose also finds time to work in the editorial Board of the Journal of the Indian Medical Association and Calcutta Medical Journal.

Hailing from Bongaon not very far from Calcutta Alderman Dr. Amiya Kumar Bose entered into Presidency College as a student in the I. Sc. class and came out with the Masters Degree in Science. After completing his medical education in the Calcutta Medical College he went to England and there he got the highest medical qualification from the University College of London. He was also attached to the National Heart Hospital for some time. The pursuit of knowledge drove him from one continent to the other several times and wherever he went he kept himself busy in studying the working of the hospitals and socio-economic institutions and cultural organizations.

The spirit of armed revolution in the country as a goal to freedom caught him in his early school-boy days and he joined the Jugantar Party in the year 1917. In those hectic days of troubles and turmoil he was persecuted at different times on the suspicion of connection with many violent activities of the revolutionary party. But Gandhiji won his heart and a revolutionary gradually turned to be a real social worker organizing schools, preaching the gospel of charka and doing constructive work. He was greatly attracted towards Netaji Subhas Chandra and Alderman Dr. Bose worked with him some time though he did not join the Forward Block.

Alderman Dr. Bose is still young in heart and health and works from morning till night with vigour unknown to many. Once he was a good sportsman and he really held the Presidency College Blue and secured many much coveted prizes for sports and games. Dr. Bose's heart still sighs for scientific research work and he describes himself as a man temperamentally and fundamentally a scientist who has been forced by circumstances to take up socio-political work.

VIEWS AND REVIEWS

KALI PUJA AND DIWALI

Kali Puja and Diwali associated with the pomp, grandeur and festival of lights passed over the city smoothly. These are the occasions also of the end of festive mood and gala life that pervaded the citizens since the beginning of Durga Puja. Being the seat of Tantra cult of Hinduism the worship of Kali is much popular in Bengal and Calcutta is no exception to it. Hundreds of community Kali Pujas were held as usual and house tops were illuminated. Thanks to the steps taken by the Police, nuisance of fire-work displays on streets and open thoroughfares was much less in evidence than in previous years, though more than a hundred injured persons were treated in the hospitals for burns and a boy was killed on the spot due to a bomb explosion on Kali Puja day. Fire Brigade people had to rush on several occasions to extinguish the fire caused by fire-works.

Men hailing from the North and Central part of India observed Diwali with its traditional rejoicing, revelry and prayer. Friends and relations met each other and greetings were exchanged. We also extend our greetings to all on this auspicious occasion.

THE RIGHT APPROACH

At the meeting of the West Bengal Pradesh Congress Committee held on October 20 last under the Chairmanship of Shri Atulya Ghosh, M. P., President of the Pradesh Congress and President of the Calcutta Corporation Congress Municipal Association to discuss about the problem of refugees, Dr. Triguna Sen, Mayor of Calcutta, emphasized the point that the continued influx of refugees was putting a heavy strain on the city-life of Calcutta. He opined that if things went on unchecked it would have a most adverse effect on the living conditions of the city-dwellers. Worst than slum condition, prevailing in

Sealdah station and in some parts of the city due to congregation of displaced persons over there—has endangered the general health of the city population and with the advent of the season when small-pox spreads, the problem looms large. Moreover the general up-keep and cleanliness associated with many other services of the City Corporation that have been strained since partition and the consequent result of influx of refugees are on the point of deterioration mainly due to over strain. We hope, that our Mayor with his energy for new work will bring some relief to the city dwellers with the help of the State as well as Union Government in this respect.

The view was expressed at the meeting that it was not intended to stop migration to West Bengal but a date should be fixed beyond which no migration to this State would be officially recognised and the Government would not be responsible to shoulder the responsibility of these newcomers. It was deemed that those who would be coming over after ten years of partition of India would be doing so not because of communal tension but due to economic reasons.

Shri Maher Chand Khanna, Union Minister for Refugee Rehabilitation said that in the near future he was thinking to have a scheme under which the refugees in the camps would be given six months' cash doles, etc., in advance and would be asked to find out venues for rehabilitation in which the Government would only come forward to help in his initiative.

Shri P. C. Sen, Food, Relief and Rehabilitation Minister, West Bengal, said that the refugees who were not in the camps but had been rehabilitated elsewhere were doing nice work in increasing the production of the country.

Many prominent leaders of the State including Shri Bejoy Singh Nahar, M.L.A., Shri Preo Ranjan Sen, Dr. Nalinakshya Sanyal and others, participated in the discussion. Dr. B. C. Roy, Chief Minister, attended the meeting.

BACK TO HOME

THE MAYOR OF CALCUTTA
GREET'S THE PRIME
MINISTER OF INDIA AT
DUM DUM

Dr. B. C. Roy, Chief Minister of West Bengal and Dr. Triguna Sen, Mayor of Calcutta are receiving the Prime Minister of India at Dum Dum on his way back to the country after visiting Japan and other Eastern countries.

AFTER a 14-day long tour in the land of Rising Sun and other countries in the Eastern part of Asia, the Prime Minister of India, Shri Jawaharlal Nehru with his party landed at Dum Dum on October 17 at noon on his way back to Delhi. At the Air Port he was greeted by Dr. B. C. Roy, Chief Minister of West Bengal, Dr. Triguna Sen, Mayor of Calcutta, representatives of the Consular Corps in Calcutta and the representatives of the Central and State Governments. It was raining heavily when 'Meghdut', the plane carrying the Prime Minister touched the ground to the much inconvenience of the spectators and visitors. The Prime Minister had his luncheon in the transit lounge and then he met the Press who went there to record his say on important world affairs and the Second Five-Year Plan of India.

SECOND FIVE-YEAR PLAN

Speaking on the Second Five-Year Plan, Shri Nehru said that the Plan might be curtailed to some extent but there was no question about its phasing. He also informed that India had dealt

with the Soviet for individual major projects apart from the Second Five-Year Plan.

SPACE MISSILES

In reply to a question whether Soviet discovery of space missiles would intensify the cold war, the Prime Minister affirmed that it was the opinion of some people. He did not, however, think that the so-called space missiles were likely to make any difference to warfare in the foreseeable future. They only indicated the capacity of a country to throw a missile at a long range. The Prime Minister emphasised that it was not a question of finding clever words and phrases for peace but the making of approach—a change of mental approach, a change of heart—otherwise it was all playing about with words and phrases.

Shri Nehru said that the Department Commission had not failed yet. "It was bound to succeed sometime or other because there was no way out", he added. The basic agreement on general disarmament, said the Prime Minister, was on suspension of nuclear tests—something solid that led to other aspects of nuclear control and general disarmament.

EPIDEMIC CONTROL MEASURES

The Mayor's Appeal For Active Support And Co-operation

Dr. Triguna Sen, the Mayor of Calcutta, convened a Conference of Government Officials, Police authorities, the leading social, philanthropic, humanitarian and Medical organisations including the Principals of Medical Colleges and the Presidents of the different Chambers of Commerce as well as the representatives of the Corporation on October, 21, in the Council Chamber of the Corporation to secure active co-operation in achieving the success of the new scheme of the Corporation for controlling epidemics in the city. Many leading citizens were present in the Conference and the House assured the Mayor of their support to the Corporation's drive for controlling the fell diseases in Calcutta. The Mayor also announced that an Advisory Committee with the representatives of different organisations would be formed to advise the Standing Health Committee of the Corporation with their valuable suggestions.

The Mayor appealed to those present to extend their kind assistance and active co-operation in achieving complete success of the new scheme which the Corporation were about to launch with the object of controlling and, if that be possible, rooting out epidemics from the city.

CITY'S WATER SUPPLY

There were factors and circumstances prevailing in the city of Calcutta, said the Mayor, which perhaps did not exist in other cities of the world who have been so lucky as to eliminate altogether epidemics like cholera and small-pox. Calcutta, maintains as you all know, a dual system of water supply—a filtered water supply for drinking and cooking purposes and an unfiltered water supply for flushing the drains. The Mayor admitted that even the filtered water supply was not adequate for the purpose. He said that the people may thus be forced sometimes to use unfiltered water for domestic purposes. The general ignorance about rules of health and unhygienic habits which also often lead people to use freely unfiltered water, said the Mayor was probably one of the chief causes of cholera in Calcutta. There are insanitary tanks, especially in the fringe areas of the city, explained the Mayor and there are also about 4,000 bustees in the city. All sorts of cut-fruits and almost every article of cooked and readymade food and sweets are being sold to crowds of customers.

BAD HABITS

The Mayor said, "You will be surprised to find well-dressed aristocratic ladies, alighting from splendid luxury limousines and standing or squatting on the pavement for their favourite 'ruchka'. Bengalee ladies crowd round pavement 'telebhaja' ovens. An uncontrolled rush and influx of a large mass of humanity during the day from surrounding areas enhance the complexity and difficulty of the problem, explained the Mayor.

THE EPIDEMIC CONTROL SCHEME

About the new Epidemic Control Scheme, which was adopted finally by the Corporation on the 18th September, 1957, the Mayor said that

the Corporation decided to base the epidemic control work on each of the 80 constituencies into which city is now divided, so that each constituency will be a field of operation. Personnel consisting of Inoculation Officers and Vaccinators who would be working in collaboration with Assistant Sanitary Officers and the District Health Officers, considered adequate for the purpose, have been provided for.

The present scheme was to carry on throughout the year intensive inoculation-cum-vaccination drives in every part of the city. The idea was that before an epidemic was due to start, the Corporation wanted to see every inhabitant of the city vaccinated or inoculated, added the Mayor.

THE NATURE OF HELP

While explaining the help needed the Mayor said—

From the Government—we need manpower (vaccinators and inoculators); wide publicity; and also we want them to issue a notification that everyone in the city must possess a card showing that he or she has been vaccinated and inoculated; and those coming to Calcutta from outside by train must show the card to the Railway authorities at the railway station-gates or get themselves inoculated there before entering the city.

From the Police—we need the assistance in checking the certificates at the railway stations; and also at other places of the city.

To the Presidents of the Chambers of Commerce, I appeal to issue necessary directions that every worker must possess an inoculation certificate. They are also requested to grant leave, if and when necessary, on production of inoculation certificate.

"To the Social and humanitarian organisations, Clubs and the Bustee organisations of the city, I appeal to help us by supplementing our workers with volunteers; and to give wide publicity to the general public to get themselves inoculated and vaccinated."

To the Principals of the Medical College, Mayor's appeal to assist the Corporation with student-workers. Authority of N. R. Sirkar

Hospital may kindly keep a record and history of the cases coming into that hospital. The Mayor suggested that the Standing Health Committee of the Corporation should function as the Committee of Action in regard to the implementation of the scheme.

REPRESENTATIVES SPEAK

Raja B. N. Roy Choudhury, Ex-Deputy Mayor of Calcutta, at the outset wanted to have the early removal of khatala from the city. The Mayor assured that drive against khatala would be undertaken by the Corporation from the next month.

Shri P. K. Sen, Additional Commissioner of Police narrated his experience in the Anti-small-pox drive conducted by the Police in the year 1951. He also suggested the house to have vaccination, first in the affected areas, then in the Bustees and other places.

Dr. B. P. Trivedi, President of the Indian Medical Association, Calcutta Branch narrated his experience in the drive against small-pox and cholera conducted by the Association last year. He suggested compulsory universal vaccination.

Dr. S. Seal, Professor of Epidemiology, All India Institute of Hygiene and Public Health emphasised the need of vaccination and re-vaccination for maintaining the efficacy of immunity.

Shri Biren Roy of Bustee Federation wanted that Bustees should be kept clean and more drinking water to be supplied to the Bustee people.

A representative of United States Information Service assured the Mayor of their help and co-operation in the matter as was done in the past.

A senior officer in the Army Medical Corps dwelt on the control of infectious diseases prevalent in the Army and assured the support of the Army in supplementing the scheme.

Dr. Souren Sen Gupta, an Associate Member of the Standing Health Committee and Secretary

of the Indian Medical Association, Calcutta Branch suggested that steps should be taken to ensure the quality of the soap manufactured by the Corporation. He also requested the Mayor to increase the Public Relations activity of the Corporation. He thanked the Commissioner for his help in their drive against the infectious diseases.

Councillor Dr. Birendra Chandra Basu, Deputy Chairman of the Standing Finance Committee and a member of the Standing Health Committee gave an outline of the scheme for the control of epidemics as accepted by the Corporation which was being launched.

Among those present in the Conference were Mr. Lt. H. S. Michelmores, President of the Bengal Chamber of Commerce, Shri P. N. Talukdar, President, Bengal National Chamber of Commerce, Shri K. L. Dhandhanias, President, Bharat Chamber of Commerce and Chairman of the Standing Finance Committee, Dr. S. K. Chatterjee, Deputy Director of Health Service, West Bengal, Shri A. Mukherjee, Deputy Director of Publicity, Government of West Bengal,

Councillor Dr. Sukhabehari Mukherjee, Chairman of the Health Committee, Anil Maitra, Dr. K. L. Das, Raj Satyendra Mitra, Kamal Pal, Pannalal Das, Dr. Ismail Ebrahim, Dr. K. P. Ghosh, Dev Prosad Chatterjee, Dr. P. K. Roy Choudhury, Badridas Burman, Dharendra Nath Bose, J. L. Saha, Ushanath Sen, Md. Zakir and other Councillors were present.

Commissioner, Shri B. K. Sen, the Secretary, the Health Officer and the District Health Officers were also present on the occasion.

ANTI-PLAGUE MEASURES IN CALCUTTA

The Government of West Bengal have adopted a scheme regarding anti-plague measures for collection of rats, dead or alive, through voluntary agencies on payment of one anna per rat. The rats must be collected from the areas within the city of Calcutta and deposited with the Epidemic Control Officer (Plague) at 185/1, Lower Circular Road, Calcutta-17, on any working day between 11 A.M. and 12 Noon. Payment will be made by the aforesaid Officer. For this purpose Calcutta has been divided into four areas as follows:—

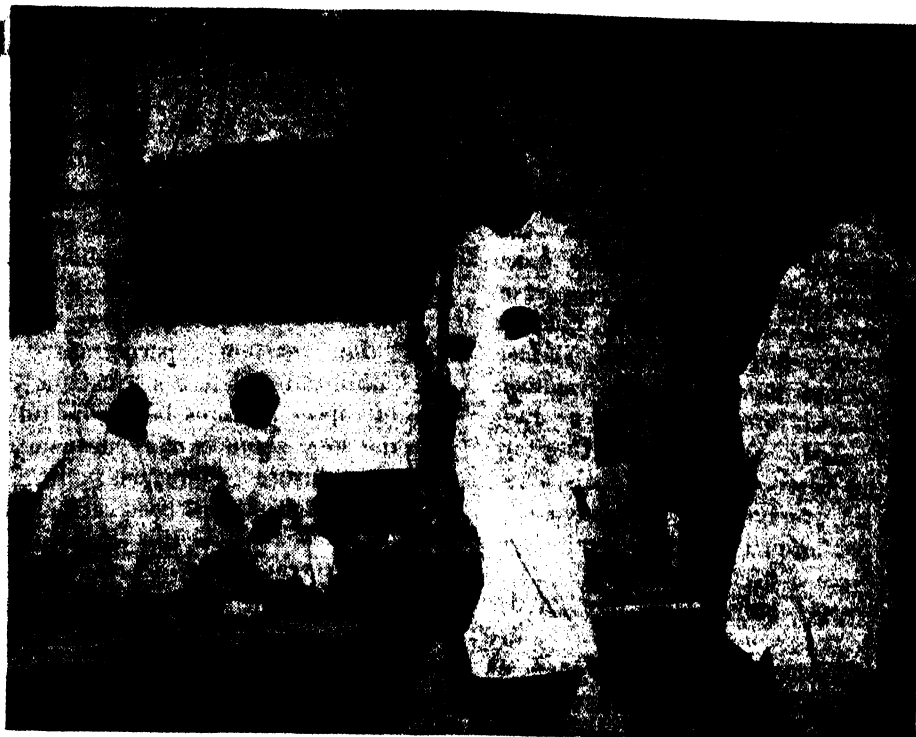

Area No. 1—North—Lal Bazar Street, Dalhousie Square, North, Fairlie Place and a line drawn in continuation of Fairlie Place to the Bank of the river Hooghly. South—Esplanade Row East, Lawrence Road and Esplanade Row West East—Bentinck Street, West—The River Hooghly. Area No. 2—North—Kyd Street and Ripon Street, South—Theatre Road, East—Wood Street and Wellesley Street, West—Chowringhee Road. Area No. 3—North—Balaram Bose's Ghat Road and a portion of Kalighat Road, South—Nepal Bhattacharjee Street, a part of Sadananda Road and Bank Bhari Avenue, East—Busta Road North, West—Tolly's Nullah. Area No. 4—North—Kalicharan Ghosh Road and Ram Krishna Ghosh Road, South—Raja Manindra Road and Belgachia Road, East—Eastern Railway, West—Barrackpore Trunk Road.

RATE-PAYERS AND CITIZENS COMMITTEE

The citizens and rate-payers of the Ward No. 60 which is underdeveloped have been feeling the want of civic amenities and they have a view to mitigate and remove these grievances with the help of and in co-operation with the Corporation. Prompted by the spirit of social service the citizens of the locality convened a meeting of the rate-payers and citizens on 18th October last with Janab M. A. Nesar, Ex-Councillor, Calcutta Corporation in the Chair. The meeting was largely attended and the above-mentioned Committee was formed with the following members:—

PRESIDENT—Janab M. A. Nesar; VICE-PRESIDENTS—Dr. J. N. Bhattacharyya, Haji Shamsuddin Ahmed, Haji Osman Ghani, Sri Bency Roy, Janab Mohiuddin Ahamed; JOINT GENERAL SECRETARIES—Janab Md. Ishaque, Sri Santosh Sen; SECRETARIES—Dr. M. L. Chowdhury, Janab Idriul Haq, Dr. Zaber Mohammed; TREASURER—Janab Mohammad Jan, M. L. C.

55 members have been elected to the Executive Committee.

Dr. Triguna Sen, The Mayor of Calcutta (at the mike) presiding over the function. Janab Hussainbhai Sahab Hussamuddin Sahab, Prince of His Holiness, Dr. Syedna Taher Saifuddin Sahab, the Chancellor of the Aligarh University, Janab Hatimbhai Sahab, Shri Mohammad Bhoj, S. A. Kayum, President of the Dawoodi Bohra Merchants' Association are also seen in the picture.

The Mayor Presides Over Bohra Community Meeting

A pleasant function to welcome Janab Hussainbhai Sahab Hussamuddinsaheb, the Prince of His Holiness, Dr. Syedna Taher Saifuddinsaheb, the Chancellor of the Aligarh University, was held by the Dawoodi Bohra Merchants' Association of Calcutta on the 15th October, 1957. The centenary of the freedom movement of India was also celebrated on the same occasion. Dr. Triguna Sen, the Mayor of Calcutta, presided over the function. Shri A. K. Mukherjee, Minister for Irrigation and Water, Dr. R. Ahmed, Minister for Agriculture and Animal Husbandry, Moulana Hifzur Rehman, M.P., the General Secretary of the Jamiatul Oloma-e-Hind, New Delhi and other prominent persons were present at the function. In the beginning Mr. Taherbhai Ayaz recited an extract from the Holy Quran. The President of the Association, Mulla Mohamedbhai Sh. Abdullhajan welcomed the guests and paid compliments to the qualities of Janab Hussainbhai Sahab. He then paid homage to those who fought for the freedom of our motherland. He also referred to the part played by Bengal in the fight for Independence. He congratulated Dr. Sen on his being elected Mayor of Calcutta.

The Mayor, Dr. Triguna Sen said that he had not the opportunity of knowing the Bohra Community until then. From the history given by Mr. Badruddinbhai Madraswala he had learnt so much about them. He thanked the Association for the invitation and was glad to meet Janab Hussainbhai Sahab. He further said that by celebrating the centenary the people of India pay

homage to their martyrs and your celebration might inspire you to make our country prosperous.

The Secretary, Mr. Mohsinbhai Mogul outlined the activities of the Association. Mr. Badruddinbhai Madraswala in his address gave a short history of the Dawoodi Bohra community. Poet Sajid Lucknavi recited a poem. Janab Saifuddin Kashmiri paid his homage to the martyrs of 1857 about whom no mention is made anywhere.

On behalf of Janab Hussainbhai Sahab, Mr. Esmail Sh. Easabhoj thanked the Association and expressed good wishes for its progress.

National Anthem was sung and after lunch the function came to a close.

CALCUTTA CORPORATION

ST. JOHN AMBULANCE BRIGADE

Dr. M. Goswami, Superintendent, Calcutta Corporation Division, St. John Ambulance Brigade reports that the following persons of Central Public Works Department have passed the "First Aid" Examination held on 17th April, 1957, under the St. John Ambulance Brigade, Calcutta Corporation Division.

They attended the "First Aid Class" held under Calcutta Corporation Division.

Shri Amulya Kumar Bhattacharjee, Shri Anil Kr. Chanda, Shri Ram Dayal Chakraverty, Shri Mritunjoy Das, Shri Gopal Ch. Das, Shri Parash Ch. Das, Shri Atul Ch. Saha, and Shri Biswanath Ghose.

REPLENISHMENT OF MILCH CATTLE

[By **DR. K. AHMED**, MINISTER-IN-CHARGE, AGRICULTURE AND ANIMAL HUSBANDRY]

More than 80 per cent. milk supply in the city is produced within the city precincts. For this purpose, it is estimated that about 40,000 milch animals—she-buffaloes and cows in the proportion of about 70 : 80, are annually imported to Calcutta and its satellite municipalities of Howrah, Garden Reach, Tollygunge and Behala. These animals come from well-known breeding tracts in East Punjab, Uttar Pradesh and Bihar. They are reckoned among the best of Dairy Animals available in India with an average milk production of

(i) Six seers per animal per day, in the case of buffaloes,

(ii) Four seers per animal per day, in the case of cows.

As these animals constitute not even one in hundred thousands of general run of Indian milch cattle, they command a very high price. The cost of the animals annually imported in Calcutta is estimated about Rs. 8 crores.

The animals imported are not only of high milking ability, but also at the very prime of their productive life. They can easily be bred again to produce milk for several successive lactations. Being themselves of high-producing strains and coming from recognised breeding tract, the calves accompanying the imported mothers are also of great potentiality.

These animals with their calves after reaching Calcutta, find their homes either in khatala located in the heart of congested bustees or in strips of vacant land, often incongruously enough, adjoining a residential quarter. Tethered to the same post, they spend 24 hours of the day for all the 300 odd days of lactation in a slur of urine and dung. The calf that needs to run about and must share, to live and grow, about a quarter of day's daily yield of milk is a nuisance and liability to the owner, and as such in most cases is allowed to die of starvation. In the absence of the calf, diabolical trick of 'Phooka' is practised to force down of milk. The practice of 'Phooka' when carried to the extreme, brings about the irreparable damage to productive organs and the victims become sterile for the rest of their life.

Whether they are victims of 'Phooka' or not, the milch animals are not bred again lest the milk yield drops. Besides, the owners can ill afford to keep an animal and meet its cost without production inevitable during the dry period. So when the days of lactation come to an end with least possible delay the dry animals are hustled out of their murky abode to make room for the freshly imported milch animals. The story repeats year in and year out.

But what happens to the discards—those who came only a year ago from the best of dairy stock with promise of milk yield not for one but for several lactations and crops of future progenies to perpetuate the prize species? In more cases than one, they find their way into the slaughter house.

A few are let loose by the sentimentals. Sterile and unproductives, they roam about in the streets of Calcutta creating many minor and major traffic jam to the utter helplessness of the city Police.

What a drain to the national wealth does the system perpetrate? To the lay and uninitiated, it is just a yearly loss of a sum of rupees 8 crores before its full value realised. But the loss is much more devastating and permanent for future generations. It is the extinction of 40,000 of country's best cattle before their life's work was over. It is the extinction of four to five times of 40,000 of urban prize progenies to replace and replenish the future dairy animals. Estimate in rupees cannot measure the magnitude of this loss.

The existing institution of city milk production, whether from khatala or from vacant strips, are evils unmixed. The concentration of a large number of milch animals in the very congested areas of the city has created serious problems of public health. The khatala create insanitary conditions which bring in its wake pestilence of flies and germs which breed freely. The already inadequate municipal water supply is required to be heavily drawn upon for milch animals. And since water in quantity cannot always be supplied, the accumulated urine and dung splash all over the surroundings and often choke the sewers. The congested insanitary khatala are not only a menace to public health, but also to livestock living there. Many an animal are known to die every year from contagious diseases.

Production of milk from city khatala is an expensive process. The entire quantity of feed required, both as 'bichali' and as 'dana-khol' kutta-mixture, has to be brought from outside. Their transport naturally adds to the cost of feeding.

In almost 99 per cent. of cases, owners of khatala are not owners of cattle. The invisible Lala Babu or Bare Mia owns the khatala. He charges a rent for accommodation of the animals in his khatala. But his interest in the business is much deeper. He is the local agent of the up-country Mahajan who keeps the continuous flow of animals from the breeding tracts. He is also the fountain head of finance who advances loan to the men in milk business to buy his replacement stock when the animals arrive in Calcutta. This loan, as can readily be understood, is advanced at an exorbitant rate of interest.

The overheads, which include (i) depreciation on animal rated to be recovered within a year, (ii) additional cost in feeding, and (iii) payment of rent and interest on loan, make the cost of milk production in the khatala prohibitive. But, since the purchasing power of consumers is low, the gowalas are forced to keep the price of milk near about its cost of production. They have to realise their profit in the business from water they add to the milk. Since in most cases khatala gowala sells

his milk in bulk, the process of adding water is repeated when small-scale distributors or hawkers deliver the milk at consumers' door.

The bane of keeping animals within the city precincts for production of milk was repeatedly drawn attention to by the dairy scientists on several occasions in the past. To eradicate the evil schemes were formulated envisaging:—

(i) establishment of milk colonies at the nearest fringe of the rural zone where all milch cattle in the city and suburbs can be resettled with their calves and owners,

(ii) construction of these milk colonies in the pattern of ideal dairy farms where provisions are made for proper housing and management, feeding and breeding, rearing of the young to maturity; and clean milk production,

(iii) milk produced in the colony to be quickly bulked and transported to a central dairy for processing and distribution.

(iv) supplementary tapping of milk from surplus rural centres and handled in the same manner as the colony milk.

(v) establishment in the city of a Central Dairy and an elaborate organisation for the distribution of clean, pasteurised and bottled milk,

(vi) institution of a statutory authority—Metropolitan Milk Board—to regulate and control production, distribution, price fixation, etc., of milk.

For one reason or the other, the scheme could not be given effect to until after India attained independence. In 1947, the city of Bombay gave a lead by adopting the scheme for practical realisation. Within 10 years of its working and by its magnificent achievement Aarey Milk Colony of Bombay has left no doubt even in the mind, of the most sceptic about the soundness of the scheme.

Following the example of Bombay, towards the end of the First Five-Year Plan, a scheme was formulated for the removal of Khatal animals from Calcutta to the Milk Colony to be specially established at Haringhata, and simultaneously take measures for distribution in Calcutta of milk produced in the Milk Colony after pasteurisation and bottling, and by opening large number of milk depots. The scheme to be known as Greater Calcutta Milk Supply Scheme was proposed to be implemented in three phases as stated below:—

Phase, I—establishment of one unit of Milk Colony at Haringhata for housing 1272 milch animals with the calves and owners,

Phase II—establishment of three more units of the same type as in Phase I, and also a fodder farm of 700 acres at Kalyani,

Phase III—establishments of (i) 18 more colonies, (ii) a fodder farm of 2,800 acres at Kalyani, (iii) a dry cattle farm of 3,000 acres, (iv) a dairy factory with a capacity to handle upto 6,000 mds. of milk daily, and (v) other ancillary projects, such as workshop for maintenance of tractors and machineries, milk distribution booths in numbers consistent with enlarged handling of milk.

Acquisition of land and work of construction in the implementation of the scheme were taken up late in 1955. Cattle shed units, each capable of housing 1272 milch animals, with their calves and

owners were given priority in the construction programme. Already two such units are completed and five more are at different stages of construction. A site measuring about 12 acres has been acquired at Belgachia for the construction of the Central Dairy at Calcutta. In consultation with engineers lent by Governments of U.S.A. and New Zealand under International Co-operative Action, layout plan and design of the new dairy factory has been completed. Estimates for construction has also been made and works expected to commence from September, 1957. Recently, purchase indent orders have been completed for the procurement of plants and machineries for the factory under the foreign aid programme. An area, approximately 8,000 acres, has been acquired at Kalyani for the establishment of Fodder Farm. Already a block for 700 acres of this land has been reclaimed and sown with seeds of kharif fodder. Considerable progress have also been made in the construction of staff quarters, water supply, new roads and drainage both at Haringhata and Kalyani.

In December, 1956, applications were invited from the producer-owners of Calcutta Khatala for accommodation of their animals in Colony Unit No. 1. The response to this invitation at the beginning was rather disappointing. But once the first few—which to be precise was only two—got settled down, applications for accommodation are pouring in. Already (August 1957), cattle shed Unit No. 1 has been filled up. There are pending applications for accommodations of over 1500 more animals and almost every day one or more new applications are being received. Arrangements therefore have been made to fill up Colony Unit No. 2 in September, 1957.

Recent declaration of a Government Loan to be granted to prospective licencees at Haringhata Milk Colony is expected to give an added momentum to the movement of animals. Since, the units under construction are scheduled to be gradually completed between October, 1957 and March, 1958, there will be provision for further admission of 6,860 to make the total, including those already taken, of about 9,000 milch animals and their calves by the end of March, 1958.

The present draft bill, the West Bengal Cattle Licencing Bill, 1957, to regulate the keeping of cattle in urban areas has, therefore, to be considered against the background of evil that the cattle keeping in the city stables engender and progress already achieved in the implementation of the Greater Calcutta Milk Supply Schemes. The essential objective of the Bill is to re-settle in becoming surroundings dairy cattle of the following classifications:—

- (i) Cows and she-buffaloes in milk with calves at foot.
- (ii) Cows and she-buffaloes in milk without calves.
- (iii) Cows and she-buffaloes that are dry but in-calf.
- (iv) Cows and she-buffaloes that are dry and not in-calf but otherwise fit to breed again.

The enactment of the bill will indeed be an added expedient to help in the speedy removal of khatala from the city. But perhaps more than that, in the light of the fact that animals in number may move into the Haringhata Milk Colony at the volition of owners themselves, the Bill should have such provisions which will prevent filling up of these khatala that are going to be vacated in part or full.

The removal of khatala from a particular area of the city is likely to create a local milk famine—a fear which required to be fully guarded against. So long khatala removal culminates into colonisation at Haringhata milk must flow back to Calcutta. It would be the responsibility of the milk organisations to see that the flow back is on the basis of equitable distribution. It is also neither feasible nor desirable to clear out all khatala at one time. The process of removal must be gradual.

It may be of interest to describe briefly how the milk supply in Calcutta under the scheme is being operated. The scheme, although it is a commercial undertaking, is intended to run on 'no-profit no-loss' basis. Its object, therefore, is to promote milk colony and rural collecting centres by giving the necessary economic incentive to the primary producers to come to realise that their effort will be rewarded by an assured uninterrupted off-take of their produce and by a price which will make milk production a worthwhile venture. The object can, therefore, be achieved only by allocating as much as possible, after meeting all overhead costs in collection, processing and distribution, of the sum realised from the consumers of milk for payment to the producers. The basis of 'no-profit no-loss' has also been directed to fix the consumers' price of milk at a reasonable low rate so that milk can reach to the largest number of consumers irrespective of the income group they belong to. As a matter of fact, to the credit of the scheme it may be mentioned that the retail price of Haringhata milk is the cheapest in the city and has been a curbing factor on gowalas' irrational spiral of price in and out of the season.

Haringhata Dairy receives pure cow and buffalo milk separately. Cow milk is processed and bottled as such for distribution. In the case of buffalo milk, owing to its high fat content, it is toned down from 7 per cent. fat to 3 per cent. fat. The object of toning is two-fold: firstly, to cheapen the cost from Re. 1-4-0 (for pure buffalo milk) to -/8/- per seer so that people of the lower income group can buy it. Secondly, researches carried out have shown that more than 60 per cent. of fat of buffalo milk does not enter into any profitable utilisation in the human system. Besides, occurrence of fat in high proportion in relation to non-fatty solids has hindering effect on the complete utilisation of milk protection. In this context, one may also remember that fat contributes only a part of the sum total of nutritive value of milk. Among the non-fatty solids, protein in milk, is considered to be one of the very best among its class. Lactose in milk has a

special therapeutic value in its toning effect on gastro-intestinal tract of the human system and minerals in milk are known to be most essential assimilable to meet particularly calcium and phosphorous requirements of growing children and expectant mothers. In toning none of these constituents are disturbed; they remain the same as they occur in the natural secretion.

Standardisation of fat in milk at a physiologically optimum level has become a recognized scientific practice. In countries like Norway, Sweden, Denmark, United States of America, Canada and others where dairying has made greatest advance and where production of milk is in abundance, it is not uncommon to see that the market supply of milk for fluid consumption is invariably standardised to a fat varying between 2.5 to 3 per cent.

If production and sale of toned milk is entrusted to a recognised agency and indiscriminate retailing of milk powder is prohibited, toned milk surely would be the answer in a city like Calcutta where supply is far below the demand and purchasing power of people low. This contention finds ready corroboration from the results obtained from the Bombay scheme. At the early stage pure buffalo milk was the only line to which the scheme was engaged and since it was a question of disposal of few hundred maunds, the sale was not a problem notwithstanding high price of the product. But as the volume of supply grew, and yet sale continued to be confined to those who can afford, steps has to be taken to standardize buffalo milk by toning with reconstituted skim-milk which permitted not only cheapening the milk but also augmenting its volume by 2 to 3 times as much. From a modest beginning, the sale of toned milk rose at an enormous pace to constitute to-day over 60 per cent of the total daily sale of about 3,600 mds. The Government of Bombay, by an appropriate measure have simultaneously invested the Milk Commissioner with the control of storage and sale of skim-milk powder within the metropolitan limits of the city.

In days to come, milk supply scheme is not going to be mere business proposition. The colony now set up at Haringhata will imperceptibly grow into a vast dairy farm where the best of the animals available in the State will be congregated under model conditions of hygienic living. This congregation will permit up-to-date method of feeding, breeding and management in one hand, and on the other introduction of scientific methods of production and handling of milk. Above all, such a congregation will offer the unique opportunity to the State to build its wealth of dairy cattle within its own territory instead of import from other States of the Union.

The West Bengal State Government have launched a scheme of milk supply in Calcutta known as the Greater Calcutta Milk Supply Scheme. The scheme involves establishment of a big milk pasteurising plant factory at Belgachia which will eventually pasteurise and bottle about 6,000 mds. of milk a

Welfare For Municipal Employees Of Tokyo

All the personnel of the Tokyo Metropolitan Government get benefits by means of associating themselves with the Health Insurance Association and Mutual Aid Association intorins Tokyo MUNICIPAL NEWS. In case an employee holding the membership of H.I.A. happens to get hurt or be ill, he will be given a medical treatment free of charge at any of the medical institutions enrolled.

The member's families or those supported by him are also permitted to receive the same treatment at any of the hospitals or clinics under the direct management of either association. If they visit one of the medical institutions designated by the H.I.A. they are required to pay one-fourth of the specified charge. When they seek some treatment from an enrolled institution or physician, they must pay one half of the charge, but they will later be reimbursed by the H.I.A. one half of the amount they paid.

Each of the H.I.A. and the M.A.A. has a general hospital and, in addition, the M.A.A. has a clinic, attached to its office, fitted up with medicine, surgery, otolaryngology, ophthalmology, and dentistry.

Laying emphasis on T.B. treatment, the H. I. A. has a sanatorium with 340 beds at a healthful place in the north-western suburb.

The quasi-consumptives who would be prevented from falling ill by a short period rest and the convalescents who show a prospect of coming back to their working places before long, are taken in a preventorium for prevention and after-care. This preventorium, located at a grassy plain in the neighbouring Chiba Prefecture, has accommodation for 100 persons.

It is a general rule of the health insurance plan that the medical benefits allowed to a member for one kind of disease are available for three years and no more. For T.B. cases, however, one year's grace is granted to a member and six months' to the families and the supported. When a consumptive is ordered to take a sick leave he will be assured of his salary and allowances in the name of a medical allowance which the H.I.A. and M.A.A. bear in a specified ratio. After three years this allowance will be reduced by half.

In the event of marriage, child birth, child's entering school, disaster, or death, a certain amount of money is presented to the members from both or either of the associations.

For health keeping and recreation, there are five hotels, three in Hakone spa, one in Yugawara spa, and one in Oshima Island off the coast of Izu Peninsula. These hotels, except one in Hakone managed by the H.I.A., are operated direct by the M.A.A. The expense borne by the members for lodging scarcely reaches one-third of an average hotel expense.

The M.A.A. has recently established a smart house near Sendagaya Station and opened it to the members for gathering and other uses. Meal also is served here at a small cost.

It also runs three shops in order to sell daily necessities, foods, drugs and sundries at a low price.

In case of the urgent need of money, the members are allowed to borrow it in a certain limit from the M.A.A. The cost of season-ticket and the money for buying expensive daily necessities are advanced by the Association. These debts are to be repaid on a 10-month instalment basis without interest.

If a member wishes to save the expense for a formal wear on some ceremonial occasions, such as wedding or funeral, he may borrow it from the Association at a small charge.

The M.A.A., keeping a hearse and coffins, offers the members even an undertaking service.

The share of the members for all the services afore-mentioned is a small sum of premium and dues, that is, 1.24 per cent. of each member's salary and allowances for the H.I.A. and 0.2 per cent. of the salary for M.A.A. Meanwhile, the T.M.G. bears, as a business proprietor, 4.34 per cent. of the said base for the former and three times as much dues of each member for the latter.

Aside from the two associations, some portion of the personnel hold, at their choice, the membership of the Credit Union for Metropolitan Employees. Any member is permitted to borrow money from this Union by means of investing 10 per cent. of the loan.

—RESETTLEMENT OF MILCH CATTLE

(Continued from previous page)

day when in full production. This milk will be brought from the Government Milk Colony which Government has established at Haringhata. With this scheme is linked the scheme of removal of khatahs from the City of Calcutta. In very broad outlines, the picture of the two schemes taken together, is as follows:—

The animals from the khatahs of the city will be progressively removed to the Government Milk Colony at Haringhata which will ultimately accommodate nearly 28,000 animals. The owners of the animals to be removed from Calcutta will also be provided with residential accommodation which has been built adjoining the milk Colony at Haringhata. Accommodation for the animals will be charged for at the rate of -/7/- per animal per day and, in return, Government will provide them with free veterinary aid and water. The owners will be supplied by Government with cattle feed and fodder at cost and the milk will be purchased by Government at an agreed rate.

In order to ensure smooth and progressive removal of the animals from the khatahs of the city, Government propose to enact a suitable legislation.*

[*From the copy of a note and letter sent to Mayor of Calcutta.]

CITY-NEWS-PARADE

LABOUR AND WELFARE OFFICERS OF INDIA met in a three-day Conference at St. Xavier's College in Calcutta on October 19 under the Presidentship of Dr. U. Krishna Rao, Speaker of the Madras Legislative Assembly.

Welcoming the members, Mr. W. H. S. Michalmore, President of the Bengal Chamber of Commerce and Industry and Chairman of the Reception Committee, pointed out that problems relating to Personnel Management and Industrial Relations were dynamic in character, and required constant study and research for their solution. He also said that employers as a class were not politicians, nor the employees. They needed to forge steadily ahead in double harness with a view to increased production, to the development of resources of the country, and to an ever rising standard of living for all.

Continuing the speaker said, "that with this aim in which all of them there could play their part, in wholly banishing politics from industrial relations and in fostering the direct and cordial non-political contact between employer and employee which was essential to orderly progress".

The Union Law Minister, Shri Asoke Kumar Sen said that the industrial progress was necessary for the welfare of the country and therefore the policy of the Government of India was to try to maintain good relationship between the labour and the management. With this end in view the Industrial Dispute Act was introduced by the National Government in 1947. He also appealed to the industrialists to create conditions favourable to the middle class youths of West Bengal to get adequate scope for employment in factories and other establishments.

Dr. U. Krishna Rao, presiding over the Conference said that the duty of every Labour and Welfare Officer was to see that good industrial relations were maintained in the organisations with which he was connected. The existence of a healthy and prosperous industry was essential to the welfare of both—employees and employers.

AN AD HOC COMMITTEE has been formed for the General Council and State Faculty of Ayurvedic Medicine, West Bengal, in the interest of better and more efficient administration says a press report, with the following members: Principal, Jamini Bhushan Ashtanga Ayurvediya Vidyalaya, Calcutta (ex-officio), Principal, Shyamadas Vaidya Sashtira Pith Parisad, Calcutta (ex-officio), Principal, Vishwanath Ayurveda Mahavidyalaya, Calcutta (ex-officio), Kabiraj Anath Nath Ray, 7, Raja Bagan Street, Calcutta-6, Kabiraj Jyotish Chandra Sen, 5, Kumartuli Street, Calcutta-5, Dr. K. N. Sen, Professor of Pharmacology, Medical College, Calcutta and Director of Health Services, (Ex-officio). The Director of Health Services, West Bengal is the Chairman of the Committee.

TERRITORIAL ARMY: With a view to encouraging young men of West Bengal to join the Territorial Army in larger number and to induce them to take a more sustained interest in their duties the State Government, it is learnt, have decided to award 36 prizes every year in the shape of wrist watch to the three best personnel from each of the twelve units of the army.

These awards are to be made for (i) best attendance, (ii) overall and sustained smart turnout and (iii) to the best shot.

BANK STRIKE has ended from October 19 after suspension of work for 31 days in the Commercial Banks of West Bengal.

Employees Association revised their decision to continue strike following Chief Minister Dr. B. C. Roy's wholehearted backing to their 5-point terms which included no victimisation, withdrawal of all pending court cases, immediate payment of strike period pay as advance non-recoverable for six months and a recommendation by the State Government to the Centre for revision of the terms of reference of the tribunal relating to compensatory allowance.

BABY MOON'S ROCKET was sighted for the second time on October 20, over Calcutta. It may be recalled that the Satellite was projected into the space with the help of the rocket which has also been travelling with it on the same path at a distance. Many people of Calcutta crowding the city roofs and banks of the Hooghly have seen the rocket passing over Calcutta towards the north-east, with naked eyes. It is stated.

SOVIET BOOK EXHIBITION: A little corner of the wide and variegated world of books of the Soviet Land and of Soviet life was partly laid bare for the first time on October 21 for the benefit of Indian readers when the Trade Representative of the U. S. S. R. in Calcutta threw open a books exhibition at Subodh Mullick Square (Wellington Square). The exhibition will remain open to the public from 4 p.m. to 10 p.m. till November 10.

VITAL STATISTICS

For the City of Calcutta for the week ending
5th October, 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 634 against 669 and 667 in the two preceding weeks and higher than the corresponding week of the last year by 22. The general death-rate of the week was 10.85 per mille.

TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 5th October, 1957, was 507 against 540 and 515 in the two preceding weeks. There were 3 deaths from cholera against 5 and 1 in the two preceding weeks. There was nil death from small-pox during the week against nil in the previous week. There was nil death from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 19 and 5 respectively against 24 and 66 in the preceding week. The general death-rate of the week was 11.21 per mille per annum.

There were 42 imported deaths. Excluding these, the death-rate of the Town was 10.28.

There were 96 deaths from respiratory diseases against 90 in the previous week.

There were 32 deaths from tuberculosis against 39 in the previous week.

ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 127 against 129 and 152 in the two preceding weeks. Of these, nil was from cholera, nil from small-pox, nil from influenza, 8 from fevers, 21 from bowel-complaints and 31 from respiratory diseases. The death-rate of the added areas was 9.6 per mille.

There was no imported death. Excluding this, the death-rate was 9.64.

There were 3 deaths tuberculosis against 5 in the previous week.

CORPORATION NOTICES

To Contractors

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 Noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for". For specifications and tender form apply to the Keeper of Records Price Rs. 4/- per set.

Food Supply Department

NOTICE

Separate sealed quotations superscribed "Quotation for Sugar", "Quotation for Arhar Dal" and "Quotation for Gota Musur Dal" with samples in sealed covers are invited by the undersigned for the supply of 145 (one hundred and fortyfive) maunds (nett) of Sugar, 500 (five hundred) maunds (nett) of Arhar Dal and 150 (one hundred and fifty) maunds (nett) of Gota Musur Dal, to the Food Supply Department, and will be received by him upto 12 Noon on Saturday, the 26th October, 1957. The commodities must be dry and fresh and free from any foreign matters. The rates should be quoted for nett weight in rupees and naye paise, and should include the cost of gunnybags and all other charges with free delivery at the Central Stores, 1, Hogg Street, Calcutta-13, where cent. per cent. weightment will be effected. The supply must be in strict accordance with the samples received from you and any deviation detected within one month, in case of Dals, will entail replacement at your cost. Payment will be made after one month in case of Dals and within a period not exceeding one fortnight in case of Sugar from the date of submission of the bill. The number and date of current year's Corporation Trade License should be stated on the quotation. Delivery is to be completed within a week from the date of receipt of the order. Bill for partial supply will not be accepted.

L. BAL,
Deputy Commissioner II.

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycles 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

S. M. MURSHED.

Offg. Superintendent S. S. Hogg Market.

VIEWS AND REVIEWS

EPIDEMIC CONTROL SCHEME LAUNCHED

Within five days after the Conference of the Mayor with the representatives of the citizens and trade concerns, social workers and Medical men to secure help and co-operation for controlling epidemic diseases in Calcutta, the new scheme for the work has been launched by the Corporation from the 28th October. 80 Epidemic Officers appointed by the Corporation for the purpose received the necessary guidance in their work from Councillor Dr. Sukha behari Mukherji, Chairman of the Standing Health Committee, and from Shri B. K. Sen, Commissioner. On October 26, in a meeting held

every house in the city and give inoculation and vaccination. Health Officer, Dr. Anil Mukerji, has informed that the work will begin from the fringe areas of the city where epidemic diseases usually take a heavy toll and it will gradually spread in the central part of Calcutta.

The Publicity Section of the Public Relations Department of the Corporation has also prepared a comprehensive programme of campaign. Bustees and fringe areas of the city will be in the front line of attack and the work will start soon.

This is the first time in the Corporation that such a big project with a properly planned programme has been undertaken and, we hope, that with the co-operation of the citizens the Corporation will be able to control the recurrence of small-pox and cholera to a large extent if not totally. The Advisory Committee formed for the purpose to assist the Standing Health Committee held its first meeting on Thursday which was attended by the representatives of different organizations.

NO CASE OF SMALL-POX

Calcutta continued to be immune from the ravages of small pox, there being no case or death in the week ended October 26 as in the week previous, according to vital statistics report.

Cholera was responsible for 12 attacks and 2 deaths during the week under review against 9 attacks and 3 deaths in the week before.

at the Central Municipal Building. Shri Sen emphasized on the concerted action on behalf of the Officers who have now become responsible to eradicate infectious diseases from the city. Councillor Dr. Mukherji asked the officers to take up the work with a spirit of service to humanity because not only the Corporation but the citizens as well would depend on them for successful eradication of infectious diseases from Calcutta.

It may be recalled that according to the new scheme sponsored, one Epidemic Officer will be put in charge of the work in each new ward or constituency who will be assisted by four or five inoculators and vaccinators. They will visit

GREAT NATIONAL ENDEAVOUR

Dr. B. C. Roy, Chief Minister of West Bengal, convened a meeting of the representatives of all walks of life in Private as well as Public Sectors including the Corporation of Calcutta which was attended by Shri B. K. Sen Commissioner, and asked for co-operation in the public relations sphere of activity of the Second Five-Year Plan. The gathering was large at the Writers' Building on the 26th October and the response was great from among those who were present. Shri B. K. Dutta of the United Bank of India, Shri K. L. Dhandhanai, President of the Bharat Chambers of Commerce and Chairman of the Standing Finance Committee of the Corporation and Shri T. R. Gupta of Joy Engineering Works spoke on the occasion extending their support to the cause.

Dr. B. C. Roy after a brief reference to the achievement of the First Five-Year Plan and the target of the Second Five-Year Plan said that planning was a democratic process and democratic planning meant an endeavour to utilise all the resources for development. He also added that it was an attempt to secure the maximum quantity of willing co-operation of all people for promoting good of the community and the individual. Chief Minister also explained to those present that they had in their field of activity the mechanism of communication to the people and the means of influencing the thought and behaviour of them, which is, in a word, public relations; it had a telling effect on the people, he added and he wanted that a portion of their endeavour might be diverted towards sponsoring the development of the country—the Second Five-Year Plan.

The plan is no doubt a great national endeavour and everybody should feel the urge of co-operation in implementing it for the development of the country through various means. Calcutta will be much benefited by the Second Five-Year Plan as stress has been laid on the improvement of urban areas. Clearance of slum areas, augmentation of water supply, eradication of khatala and removal of stray cattle are some of the projects that have been mooted under the plan and citizens of Calcutta are directly concerned with these schemes. The main obstacle that still stands in the way of such a big endeavour is the question of finance and we firmly believe that the target of procurement of the investment for the plan will be available without much hardship to the people.

WEST BENGAL MUNICIPAL CONFERENCE

While inaugurating the West Bengal Municipal Conference which was held at Jagannj (Murshidabad), Shri I. D. Jalan, Minister for Local Self-Government of the State said, on October 26, that the Local Finance Enquiry Committee as well as the Taxation Enquiry Committee made certain recommendations in their reports for improving the finance of the local bodies. They were also considered by the Central Council of Local Self-Government and certain suggestions had been made. The Government was considering the problem in all its aspects. A large number of suggestions were made. All these, said Shri Jalan, were under the active consideration of the Government. He hoped that in the next few months decisions would be arrived at on those matters.

He also emphasized the need of toning up the activities of the local bodies and he suggested to reduce the factions to the minimum. Shri Jalan said :—

"The Government is extremely reluctant to supersede any Municipality, but it has to do so in certain circumstances when this course becomes unavoidable."

The Central Government has been impressed by the State Government to pass the necessary law to permit imposition of terminal taxes for the benefit of the local bodies, disclosed the Minister.

It is no doubt a happy news that the State Government has now turned their eyes towards the finances of the local bodies who cannot function

under the existing circumstances and the changed socio-economic-political life of the country. The local bodies have such a limited scope for taxation that most of them cannot even carry on the day-to-day administration not to speak of enhancement of amenities and other sanitary measures. Even the Corporation of Calcutta who have finalized their Five-Year Plan could undertake working only a part of their scheme due to paucity of fund and limited source of income which has already been stretched to its extreme limit. If some of the recommendations of the Taxation Enquiry Committee could be given effect to Corporation will have a substantial share of income from different sources and the local exchequer. Let us hope for the better.

HOUSING FOR CORPORATION MAZDOORS

At a Corporation meeting held some time ago the Mayor, Dr. Triguna Sen told the House that the Union Government had agreed to the Corporation's request to allot Rs. 2 crores for construction of quarters for the Harijan labourers.

The news was received with applause by Aldermen and Councillors present.

In course of his statement the Mayor said that the scheme did not receive the approval of the State Government earlier because it aimed at implementing the housing of the Harijan employees. This did not fully satisfy the authorities still the help came according to the assurance made by Shri T. T. Krishnamachari, the Union Finance Minister.

At a Special Meeting to discuss problems of bustee people, the Mayor, Dr. T. Sen said that he knew that the condition of bustee-dwellers had changed little in the past 80 years. He had repeatedly pressed the State Government to give, if necessary by an Ordinance, the Corporation adequate powers to deal expeditiously with the problem. But nothing had been done so far.

The Mayor was not disheartened. He believed that if bustee people co-operated, the Corporation would be able to meet their requirements.

Although the discussion on that day was inconclusive still the Mayor requested the Members to put up further suggestions in this connection. He also assured them that there would not be any lack on the part of the Corporation to remove the grievances of the Bustee people.

ELECTORAL ROLLS FOR CALCUTTA ASSEMBLY CONSTITUENCIES

In connection with the preparation of electoral rolls for 1957 for the Calcutta Constituencies, a house-to-house enquiry has been taken up in Calcutta, and the work is already in progress. The Assistant Investigators appointed by Government are visiting every house in order to obtain full particulars about all the members of the household. The work in connection with a group of constituencies has already been completed and the field work in connection with the constituencies of Belgachia, Maniktala, Sukea Street, Beliaghata, Chowringhee, Tollygunge and Fort has just been taken up or is likely to be taken up soon.

THE CORPORATION AT WORK

A GIST OF THE PROCEEDINGS OF THE TWENTYFIRST ORDINARY MEETING OF THE CORPORATION HELD ON TUESDAY, THE 29TH OCTOBER, 1957

RECENT HOUSE COLLAPSE TRAGEDY

On a reference by the Mayor, Dr. Triguna Sen to the unfortunate tragic incident of house collapse on October 15 last at British Indian Street in Central Calcutta the House expressed its profound sense of sorrow for the deaths of 11 persons. In this connection Councillors Satyananda Bhattacharjee and Biman Mitra expressed deep concern for a number of houses which were in dangerous condition and as such required immediate demolition.

BUSTEE AREAS AND REFUGEE COLONIES

The Mayor in course of a statement before the House said that the bustees were the sore spots in the city. The task of removing them was of such magnitude, the Mayor stressed, that it could not be tackled single handed by a few individuals or even by such an organisation as the Calcutta Corporation. He however assured the House that recently the State Government was preparing to take steps for acquiring the bustees, constructing alternative accommodation for the dwellers and for removing them from the veritable hell in which they were living. He further said that the Central Government was also willing to subsidise the scheme with funds.

The Mayor drew attention of the House to another type of bustees that have cropped up as refugee concentrations in different parts of the city. He said the conditions of the people living there were very deplorable. Sometime back, the Mayor added, he took Dr. B. C. Roy, Chief Minister of the State round the outskirts of Calcutta to impress upon him as to how these areas could be developed for giving the people residing there at least the minimum essential services. These could not be done unless the refugee colonies were regularised by the Government. He concluded his statement with the words "we can no longer shut our eyes to these sore-spots of Calcutta—the bustees and the refugee colonies".

MINIMUM WAGE ADVISORY COMMITTEE

Councillor Anil Maitra, U.C.C. leader has been nominated as one of the representatives of the Corporation of Calcutta to the Minimum Wage Advisory Committee. The other representatives of the Corporation are Councillors K. L. Dhandhanja, Chairman of the Standing Finance Committee, Ushanath Sen and Debaprosad Chatterjee. The Committee was set up by the State Government in 1956 to enquire into the conditions prevailing in the wage structure of employment under the Local Authorities in Calcutta and Howrah Municipal areas and advise the State Government about revision of minimum rates of wages fixed for such employment.

EXTRA ARRANGEMENT FOR ENSUING LUNAR ECLIPSE

On the report of the Secretary, the Corporation sanctioned Rs. 2,700,- towards expenditure for extra arrangements for opening medical bases, cleaning and fencing bathing ghats for the convenience of intending bathers on the occasion of the lunar eclipse on the 7th November next.

A SPECIAL COMMITTEE

The House appointed a small Committee with the Deputy Mayor, Shri Keshab Chandra Basu, Councillors Anil Maitra and Ushanath Sen to go into certain charges made against a member.

—IMPLEMENTATION OF CAPITAL PROJECTS OF THE CORPORATION

(Continued from next page)

personnel. Even in the lower grade technical posts such as Overseer etc., the personnel recruited after acquiring a few months' experience in the Corporation, secured employment elsewhere with a higher scale of pay and better security of service and left the job. Most of the few Assistant Engineers that could be recruited on the recommendation of the Municipal Service Commission, stayed in the Corporation service only for a short period and left. While a few appointed by the Corporation on the recommendation of the Municipal Service Commission did not join; the problem of recruitment of technical staff is acute and is to be solved immediately. He suggested that the tenure of service of these men should be raised at least 5 years.

ESTIMATED COST OF CAPITAL WORKS

	Rs. in lakhs
WATER WORKS	429 ..
Available balance of raised loan	18 ..
Out of loan to be raised this year by the Corporation	46 ..

Loan from Central Govt. for construction of quarters for Harijan employees	200 ..
Available balance of raised loan	85 ..
ESTIMATED COST OF WORKS IN PROGRESS	
Water Supply	18 ..
Drainage	14 ..
Miscellaneous Projects	24 ..

Implementation of Capital Projects of the Corporation

The Corporation has undertaken a capital work scheme at a total cost of Rs. 8.67 crores to be completed within the next few years. The undertakings are a part of the Corporation's 4.5 crores Five-Year Plan and the work has been taken into hand according to exigency and considering the prime necessity of the Citizens. Shri A. K. Sen, Chief Engineer of the Corporation has submitted a note to the Mayor of Calcutta and to the Commissioner of the Corporation in which he has stated the nature of undertakings and the progress of work already started. Difficulties facing the Engineering Department in the implementation of the projects have also been pointed out by him.

Out of the loan of Rs. 225 lakhs allocated to Calcutta Corporation by the Union Government under the Second Five-Year Plan the Corporation has allocated Rs. 145 lakhs for Augmentation of Water Supply and Rs. 80 lakhs for the Sanitation Scheme.

The Schemes with estimates and Engineering Reports were duly submitted to the Union Government through the State Government. The Ministry of Health, Government of India, wanted further informations on some of the projects, and these were also supplied without delay.

ASSISTANT DIRECTOR GENERAL VISITS CALCUTTA

Shri S. Raja Gopalan, Assistant Director General, Public Health Engineering, Government of India, visited Calcutta in September last for local inspection and detailed discussion of the projects.

In spite of the shortage of personnel in the engineering department as most of the technical staff sanctioned by the Corporation for loan works could not be recruited so far, the preparation of details were taken up with the help of the existing technical staff, who worked hard and all the required details, estimates and specifications were prepared and placed before him in time.

Shri Raja Gopalan during his stay in Calcutta had a thorough inspection of the existing Water-supply and Drainage systems and scrutinised the designs, estimates and specifications and had also discussions on the details of the projects. The Engineering Department is now ready with the specifications and tender schedules, etc., for inviting tenders for the machineries both for the Water Works and Drainage Schemes. As regards the machineries to be imported, the Chief Controller of Imports and Exports, New Delhi, has now asked for phasing the programme year by year upto March, 1962.

DETAILS OF WORK

A draft specification for Water Purification Plant has been forwarded to Delhi.

For additional Reservoir at Tullah detailed design and estimate are ready.

The design for New Intake Station and Jetty at Pulta is almost ready and on receipt of the sounding charts from the Port Commissioners it will be finalised.

The detailed design and estimate for Double Barrel R. C. Storm Water Sewer from Palmer Bridge Pumping Station have already been prepared and placed before Shri Raja Gopalan.

The Loan Works at an estimated cost of Rs. 811 lakhs including Rs. 200 lakhs for Harijans' Housing which is yet under consideration are to be executed during the next five years, out of which the contract for Pulta-Tallah Water Main (Estimated cost Rs. 225 lakhs) has already been let out. But this amount of Rs. 811 lakhs excludes other Loan Works already in progress at an estimated cost of Rs. 56 lakhs.

THE DIFFICULTIES IN EXECUTION

The Chief Engineer while explaining the difficulties of execution of works has said that the work itself is voluminous and complicated so far as the technical aspects are concerned. The question of proper supervision of the works already in progress and the works which are to be started in the near future is also there.

Another important factor for keeping to the schedule is the timely procurement of necessary materials, specially the controlled materials, such as Cement, Steel, etc. For the maintenance of the progress of works, the controlled materials should be procured and properly stored for a particular phase prior to its commencement so that the progress schedule may not be upset.

The Chief Engineer has also pointed out that the recruitment of the necessary technical personnel for the implementation of all these schemes is absolutely essential. Though a number of technical hands for Loan Works have been sanctioned by Corporation, the top posts from Assistant Engineers and upwards, could not be made available to the Department. Availability of technical staff is rather difficult. Despite all earnest and serious attempts on the part of the Engineering Department, implementation of the loan projects is much handicapped due to these causes. The staff already sanctioned is not even adequate considering the nature and volume of capital works as well as the need of proper supervision.

TECHNICAL PERSONNEL

It is essential, informs the Chief Engineer that the Planning and Development Section should be fully organised by filling up of all the technical top posts. He also has stressed upon the immediate necessity of creation of the post of a Constructional Engineer for the Drainage projects.

He has pointed out that the scale of pay offered and the short tenure of service viz. for one year will not attract the right type of technical

(Continued on previous page)

MUNICIPAL PROBLEMS AND DIFFICULTIES

[By SHRI D. BALASUNDARAM, COMMISSIONER, CORPORATION OF MADRAS]

LOCAL Bodies are the pivots of the function of democratic self-government and their present them to be self-sufficient and to properly discharge resources and finances are too inadequate to enable their obligations. A complete re-orientation of the functions of local bodies, so as to secure for them greater independence and initiative, to make them potent instruments in the fulfilment of national policies for effective and functioning units of democracy, is absolutely necessary. The Government should formulate a plan to augment their income.

After the country had secured Independence, the need for development of local bodies was recognized in a greater measure and the directive principles of the Constitution laid great stress on the importance of Local Bodies by urging the establishment of Panchayats as units of Local Self-Government. The intention is that our democracy should be built up from below with the village panchayat as the basis.

The Madras State has taken prompt action by passing the Madras Village Panchayat Act, which contemplated the constitution of a panchayat for every village and vested considerable powers with the panchayat boards in order to increase their resources. The trend in recent times had been to expect local bodies to undertake more and more responsibilities without there being a corresponding increase in their resources.

In the Constitution of India there is no mention about local bodies, their structure, their functions, their possibilities, and their potentialities. Article 40 mentioned the village panchayat as the unit and the training ground for democracy and this was an undoubted contribution to the local bodies idea. But the main work and the finances devotable to local bodies are inherent in the State and the powers which should normally belong to local bodies, are vested in State Governments. Therefore, the question is asked whether a local body or a municipality or a corporation should be dependent on the State Government for chance gifts and subventions for their day-to-day working or whether they were to be independent and definitely functioning entities.

Local bodies are generally in a position of uneasy equilibrium. The franchise had been widened greatly and the powers and obligations of the local bodies had been considerably enhanced, but their financial position had not only been ameliorated but had positively worsened. Some sources of revenue had been taken away from the purview of local bodies such as entertainments tax, toll collections, Motor Vehicles Tax, electricity surcharge, etc. In the changed context of the country, the local bodies have grown in significance and importance.

GROWING RESPONSIBILITIES

Municipal affairs in Madras State have reached such an alarming state that urgent proposals for immediate reform are to be mooted. In no other State in the world are the local bodies expected to exercise such complex responsibilities as are vested with the municipalities and the Madras Corporation. The range of subjects for any municipal body

to tackle is vast—housing, hospitals, streets, sewers, schools, playgrounds, assessments, child welfare, sanitation, water supply, drainage, town planning, and a dozen others of major importance. Therefore, a local body has not only to administer, but must combine its functions into one, namely, public relations, planning and administrative. It is a burden that has accumulated over the years and something surely needs to be done soon, if local bodies are to be straightened out.

Municipal work is becoming more and more difficult, not only because of want of money but because of the unhelpful attitude of certain sections of the public. Most of the public conveniences have been provided with flush-out arrangements, water supply and also lighting. There are whole-time scavengers on duty at each, but the public have generally a habit of misusing them. Although public conveniences are provided in almost all the divisions, still the streets are fouled. This practice is prevalent not only in hunting areas, but also in important thoroughfares.

The cocks of public taps are removed frequently causing thereby terrific wastage of water, insanitation around the tap and loss of materials. The indiscriminate scribbling on walls, bridge, parapets, public conveniences, roads and the objectionable display of posters is another instance of lack of civic sense. It is a common practice with some people to lop off branches of avenue trees to feed their goats. Streams of people pass by in the busy thoroughfares, but nobody raises the little finger against such vandalism. Stealing of chockers condensers, bulbs, etc., from street-lights, plants from parks, coverings over drains and manholes all point to the lack of public opinion condemning such unsocial acts. Vagrant children are seen picking crumbs near hotels and begging at bus stops. Some of the pavement dwellers are either able-bodied beggars or beggars suffering from infectious diseases.

The public should not allow rubbish and filth to accumulate in their houses. They should not themselves use or allow their children to use the street or the public drain as latrines. They should not scatter rubbish and filth in the streets, but deposit them only in the dust-bins provided for the purpose. They should not spit indiscriminately in streets and pavements and they should notify promptly to the municipality or the Corporation cases of infectious or dangerous diseases. Periodical cleansing campaigns should be undertaken by the residents and when the local bodies organise them, the residents, without any exception, should take an active part in them and this will infuse a lot of enthusiasm or cheer in the minds of the low-paid employees of the local bodies.

There is, therefore, no greater problem to-day facing the civic bodies than that of educating the public, to cultivate a civic sense and I commend these remarks to every citizen of Tamil Nad and if only every citizen does his bit, municipal services will be better recognised and will enable them to provide a better dividend for the services rendered by them in municipal areas.—The Hindu.

Cultural Barriers to Family Planning

[By Dr. S. CHANDRASEKHAR]

THE dilemma before India and other similar semi-developed countries in Asia and Africa, whose population continues to grow at an annual rate between 1.3 and 2.6 is that whereas fertility control is needed to check the threatened decline in the already poor living standards of their people, the successful and widespread practice of family planning requires and presupposes a far higher general living standard than is the case in these countries.

In other words, it is the poor and under-privileged with large families who desperately need assistance in family planning but who are denied access to it because of poverty and ignorance and cultural inhibitions. They are the least equipped for the rearing of the nation's future citizens; and yet, often it is these poor families who contribute more than their proportion of the next generation. Thus the under-privileged, who are a majority in all these under-developed areas, tend to become greater majorities through progressive differential birth-rates. And the children are even more handicapped than the parents.

Sooner or later, these countries will have to face the social, economic, cultural, and even political implications of this dilemma, and some effective way has to be found to cut through this vicious circle. And as the cultural setting of any community is to some extent both the cause and consequence of its poverty, ignorance and ill-health, an understanding and appreciation of the cultural barriers to the widespread dissemination of the family planning habit may be of some value.

Before the second World War, when the conscience of the West and other privileged nations was not aroused over the plight of Asian and African countries, mostly colonial areas, it was customary to dismiss them as "backward". This involved a value-judgment and implied that these people, the so-called "natives", were somehow inferior and incapable of rapid advancement. It also provided a much needed justification for Western political domination over these areas. Strangely enough, this attitude still persists in some parts of the world.

EFFORTS TO RAISE LIVING STANDARDS

However, in recent years, the fallacy of this assumption has been exposed, and a more objective term, "under-developed", has come to be applied to erstwhile colonial and dependant areas. The peoples of these countries have already demonstrated their ability to manage their own political affairs (so long as bigger nations do not use them as pawns in their power politics) and advance economically as rapidly as circumstances would permit. The second World War also demonstrated effectively how small and interdependent our world has become. The anxious problems of one country have become the real concern of all. Peace, political freedom, economic security, and

social progress are becoming one and indivisible. This awareness is at the back of the present global endeavour to help the under-developed countries and enable them to reach a standard of living commensurate with that of the rest of the world. Hence the American Point Four and U.N. Technical Assistance Programmes, the Colombo Plan, etc.

But a dichotomy of the world into "developed" and under-developed areas is rather misleading; for certain economically and technically advanced countries do not possess all the features of a real welfare State. Nor are the poor countries devoid of all the factors of a balanced economy. The concept of under-development therefore possesses many questions. Is it merely a matter of proper utilisation of human and material resources? Is it a question of imbalance of population and available land and other resources in any given technological level? Is it simply a need to strike a proper balance between agricultural development and industrialisation? Is the material advancement of the people taking place at a pace assimilable and in harmony with their cultural milieu? Are cultural factors a barrier to their economic progress?

Many such questions can be raised. While it is difficult to define precisely the term "under-developed area", several criteria may be suggested: income per head of population; the percentage of the gainfully employed population supported by modern industry; food intake per head; or even simply to connote countries which receive economic aid from other countries. To these economic criteria, cultural criteria can be added.

In reality, paradoxically enough, "under-development" means "over-development" in more than one sense. That is, wasteful, inefficient and improper utilisation of the available resources. Rapid exhaustion of resources is a sign of under-development because it involves "over-development". In terms of population, too many people in relation to land and other resources particularly non-renewable ones, is also a sign of under-development. Over-population is thus a symbol of unbalanced development. The too rapid utilisation of resources is seen in a very advanced country like the United States. In a semi-developed country like India, on the other hand, there are too many people for available resources. The United States is consuming the world's minerals and fuels at an incredible rate. According to the Report of the President's Material Policy Commission (the Paley Report), "The quantity of most metals and mineral fuels used in the States since the first World War exceeds the total used throughout the entire world in all of history preceding 1914." Both the countries—U.S.A. and India—are simply the two sides of the same coin of under-development.

Mckim Marriott, an American sociologist, expresses the paradox as follows: "In any under-developed area, too many techniques are too exhaustively applied by too many people to too

little land". This is true of many regions in Asia, Africa, and Latin America, but nowhere is it so true as in India. The Indian village is a classical example of under-development. To quote McKim Marriott again: "The changes which had occurred have not penetrated very deeply but had gone far enough to double the population of the village in the past century. There is not now a square foot of unused land to be found. In the present generation, pastures and forest plots have all been cleared and sown with grain. While I was in the village, the last bits of interstitial lands—roadways, cremation grounds, shade trees, gravel pits and the like—were leased out for cultivation. This was clearly desperation. Agricultural development has now gone so far that every new organic development is completely extracted from the soil once, twice, or many times each year. Almost every plant is fully used. Grass and weeds are carefully dug up, roots and all, to be used as animal fodder. Leaves are stripped off the trees repeatedly. The entire land lies absolutely bare and brown for three months in each year; the air, too, is brown, for it is full of the precious soil, dried and blown about as dust. It learned that one family of every ten had been compelled to leave the village in this generation in search of food."

It is often wrongly assumed that the question of birth control can be settled merely by stating the case for it. This may be the experience in certain advanced countries where education is widespread and where mass media for the dissemination of knowledge is taken for granted. Even in these countries, despite obvious aids, severe battles had to be fought for nearly fifty years before family planning could be made acceptable and respectable. Unfortunately, in the under-developed countries where literacy is yet a privilege and where the printed word is not an effective medium for the propagation of ideas, the situation is much more difficult.

But at the outset, there is an even more basic difficulty. The idea of family planning does not enter into the minds of men and women just by itself. They must be aware that such an improvement is possible and in their own lifetime. A better order of things in any realm of human endeavour, including a higher standard of living, presupposes a knowledge that such betterment can be attained by reasonable effort. To be aware of a station in life better than your own you must have either seen persons in better circumstances or be able to imagine what a fuller and more abundant life would be like. This sounds very simple, for most people have seen others in more desirable circumstances. It might appear that anyone could easily cultivate a "had I only a university education or a better job or a car" attitude, but in actual practice this is not so easy as it seems.

The majority of the people in a country like India have no opportunity to travel abroad or, indeed, outside their village or town. Also, they lack the urge to do so and accept their lot fatalistically, without question. The presence of abject poverty in the midst of relative plenty never, or at least very seldom, seems to jar on their

minds. Yet again, the very poor are not those who demand a better life. It is always those who have had a slight taste of a higher level of living that want more of it.

All our socio-religious-cultural ideologies, through the centuries, have helped to bolster this apathetic attitude because it perpetuates the "status quo". Certain religious leaders and philosophies have been inclined to associate poverty, and sometimes even ignorance, with spiritual development on the one hand, and rational education and a high standard of living with materialistic civilisation on the other. This attitude in practice tends to justify large populations beyond family or national resources. Hence the earthly relationship of a Dives and Lazarus is taken for granted as divinely ordained, whatever might be their spiritual possibilities in another world. But such a philosophy is not warranted by facts, for those who must work in these countries from dawn to dusk for a mere subsistence have little opportunity or inclination for the development of the spirit. An ailing and hungry body, an illiterate and closed mind, and a miserable hovel cannot foster spiritual development. Of course, there have been slave rebellions, racial and religious minorities agitating for equal treatment, subject countries fighting for political freedom, and ideologies all the way from Fabianism to militant Communism. There is also a microscopic minority of rare souls who deliberately choose simple living and high thinking. But as we are concerned with the work-a-day millions and not with a score of saints, such exceptions do not disprove that, on the whole, mankind has tended to put up with its miseries more often than to rise in revolt.

If people in such countries have become immune to their misery it is not because they love it but because there is no easy alternative. They have had to compromise with and adapt themselves to their hostile environment and hence the particular pattern of agriculture (there are no large-scale industries), family structure, magic and medicine, religion, value systems, and ethical codes, etc. The result has been stability and continuity of cultural evolution at a high cost in terms of human wastage. Had these people been completely isolated from the West, they would have continued to maintain their wasteful demographic balance and remained "happy". But they are no longer isolated, thanks to the revolution made by modern transport. They have had a glimpse of what seems to them in many respects a fuller and better way of life. In the present transitional stage, a certain discontent with traditional values has set in without necessarily creating the conditions for the ready acceptance of the newer values. A cynical American in the Technical Assistance Programme in one of these "backward" countries observed: "The first point of our Point Four Programme is to make the people realise how unhappy they are"! We cannot, of course, impose on people what we think they ought to want. Nevertheless, we can take it that these people do not love their poverty.—THE HINDU.

EMPLOYEES MADE PERMANENT

List of temporary employees made permanent by the Commissioner with effect from 30th November, 1956 in accordance with the resolution of the Corporation dated the 1st October, 1956 and 14th December, 1956.

CITY NEWS PARADE

ANNUAL FESTIVAL OF PLAYS will be organized by the Theatre Centre during the second week of January, 1958, thus making it the first cultural function of the year in Calcutta. Arrangements are being made to hold the Festival on a more elaborate scale than in the previous three years and bring it within the reach of the general public. There will be no ticket for the performances, which will be made free to the members only. The annual membership fee has been fixed at Rs. 10, which would entitle the holder not only to witness all the plays in the Festival, but also enjoy all other amenities of the Theatre Centre throughout the year, including the One-Act Play Competitions.

Any enquiry regarding Festival may be made to the Secretary, Theatre Centre, 31A, Chakraborty Road (South), Calcutta-25.

SHRI SATYAJIT ROY was entertained by Children's Little Theatre at a special function at Purna Theatre some time ago. The children welcomed him traditionally with sandal paste and a lovely bouquet of flowers. The function opened with the well-known rhyme composed by Shri Satyajit's father, the late Sukumar Roy, which was sung by the C. L. T. ballet unit. President Sri N. N. Bhosee introduced Shri Satyajit and spoke eloquently about the honour he brought to the country. Sri Provat Kiron Bose of the C. L. T. playwrights club addressed the children and happily recalled his association with Shri Satyajit's father and uncle.

Shri Satyajit Roy in a fitting reply said that he was indeed glad that he could be present in this happy gathering, although his work compelled him to decline many other invitations.

PASCHIM BANGA UTKAL SAMAJ held a social function on October 23 at the Utkal Mining and Industrial Association Hall in Calcutta when a reception was given to Shri Asoke Sen, Union Law Minister.

In welcoming Shri Sen, the General Secretary of the Samaj referred to the problems facing the Oriya community in West Bengal,—about 5 lakhs of such people living in the city and its industrial belt. He emphasised the necessity of opening two schools for the Oriya boys and girls in Calcutta and providing facilities for Oriya students being admitted in the Medical College and Engineering College in West Bengal. The Secretary also referred to the bad housing conditions of the Oriya community in the city.

SHRI AMARENDRANATH ROY DEAD

Shri Amarendranath Roy who was an eminent litterateur-journalist of early twenties, died on October 2, at his Calcutta residence. He was 69.

During his career as a critic and journalist he edited 'Nayaka', 'Prababini' and other periodicals.

The late Shri Amarendranath was appointed 'Girish Lecturer' of Calcutta University in 1935. He was also connected with the University for more than 17 years, as the Secretary of Bengali Publication Department. Among his literary works 'Shakta Padabali', 'Girish Natya Sahityer Vaisisthya', 'Samalochona Samgraha' etc., deserve special mention.

Gradh ceremony of the deceased was observed on the 19th instant.

Shri Asoke Sen replying said that schools could be started very easily with mutual help and if there was any necessity of approaching the Government for financial help he would do that. But speaking on the housing problem Shri Sen said that it was a wider problem and could not be looked into on any community basis. For the wider interest of the nation one must forget his own suffering. It could not be denied that the Government had not been able to do anything for the people. He emphasized the need for sacrifice to ensure happier and better life.

Shri Sen was made the permanent President of the Samaj.

INDIAN PRODUCE ASSOCIATION held its 38th annual general meeting on October 26. Shri V. S. Aggrawal, President of the Association stressed the need for setting up of Food Advisory Committees both at the Centre and the State level representing commercial and consumers' interest to advise Governments in formulating their food policy as also to ensure public co-operation for its execution.

While admitting the efficacy of the measures of credit control in checking rise in prices of food grains Shri Aggrawal said that such measures should be applied having regard to the place, time and the commodity to which they were applied. In consuming centres like Calcutta credit control might lead to shrinkage of stocks which might encourage rise in prices.

The proper remedy to counteract undue rise in prices of food grains, Shri Aggrawal said, would be that free market should always be allowed to function and overall supply in the market should be augmented by release of Government stocks in time of need in addition to the free market, and running of Fair Price Shops rather than resorting to physical controls.

SRIMATI INDIRA GANDHI arrived in Calcutta on October 27 afternoon after her visit in Japan. She resumed her journey to Delhi after a brief stay.

Speaking to the Pressmen at the airport Srimiti Gandhi said that the social custom of the Japanese women were more akin to that of women of India. Japanese women were very keen to know Indian women and their organisations, she added.

She said that the Japanese women have a powerful organisation of their own called "Housewives Union" which tries to solve the problems affecting the housewives, like rise in prices of essential commodities. The different women's organisations are united when matters vitally affect them, she further said.

Srimiti Gandhi said that American laws have brought about changes in the life of women of Japan, but they were adjusting themselves to these changes.

The State Chief Minister, Dr. B. C. Roy and the Pradesh Congress Chief, Shri Atulya Ghosh were present at the airport to see her off.

A GERMAN DELEGATION consisting of 12-men from West Germany, now on a study tour of India, passed through Calcutta on way to Bhubaneswar from New Delhi on October 27.

During their few hours' stay in the city the members of the delegation, who included two professors and four women, met the State Chief Minister, Dr. B. C. Roy and discussed the problems of the State and the progress it has made during the post-Independence period.

In the afternoon the National Cultural Association gave them a reception in oriental style in South Calcutta. Welcoming the members of the delegation on behalf of the Association; Dr. Nihar Ranjan Roy referred to the

age-old cultural relations that existed between India and Germany. He said that Germany was first among the European countries which had shown interest in Indian culture and literature. Many Sanskrit books were translated into Germany, by their scholars in the 19th century when other countries of the West hardly knew anything about India. It was a happy sign that they had come to India for a study tour, he added.

THE SECONDARY BOARD OF EDUCATION has intimated that in view of the decision that the school session from 1958 is to begin in the middle of April, the annual examination of this year may be held in the beginning of March, 1958, the results being declared by the end of March.

The Heads of all high schools have also been requested to make necessary adjustments in regard to the shifting of the session in the post-Puja term which this year is longer than usual. However, the School Final Examination in 1958 may begin towards the end of March or early in April.

STATE BUSES may not increase in number in Calcutta due to non-availability of foreign exchange.

It is learnt that although a huge sum has been sanctioned by the Government of India for 80 more buses in the city to relieve passenger congestion, paucity of foreign exchange might ultimately force the Government of West Bengal to shelve the matter for some time, says a Press report.

BLOOD BAND: Dr. Souren Ghosh, Director, Blood Bank, in a Press statement states that "due to extreme shortage of donors and high demands for blood for the last 16 days, there is shortage of blood in the Blood Bank. Therefore, for the next ten days no blood will be supplied for planned or "cold" operation. Every attempt will be made to supply blood for emergency cases".

THE CALCUTTA IMPROVEMENT TRUST authorities will have a tough job in the allotment of 24 single-roomed self-contained flats they have built up in Christopher Road, East Calcutta for letting out amongst needy people of low income group.

On October 21, 300 application forms open for them were exhausted in a matter of an hour's time. On an announcement that 300 more forms would be distributed from 10 a.m. on October 24 people started queueing up before the C. I. T. headquarters at Netaji Subhas Road since 8 p.m. on October 23. At midnight there were 50 candidates for forms.

INFLUENZA VACCINE

The military medical authorities of India are now manufacturing a standardised vaccine for protection against influenza at the Armed Forces Medical College, Poona.

The vaccine has been available for Armed Forces personnel since June 15, 1957. So far, 10,000 key Service personnel have been inoculated with this vaccine. Data are now being collected and analysed to assess the efficacy of the vaccine.

NOBEL PRIZE FOR LITERATURE

French author Albert Camus has been awarded the 1957 Nobel Prize for Literature. Camus is 44.

The Nobel Committee said it awarded the coveted prize to Camus for his literary works which examined with penetrating seriousness present day problems confronting the consciences of men.

Camus is a novelist, play-right and journalist whose writings illustrate what he calls his Philosophy of the Absurd.

MUNICIPAL SERVICE COMMISSION NEW APPOINTMENTS

Sub: Appointment to a permanent post of Supervisor, Collection Department, Corporation of Calcutta in the grade of Rs. 200—10—800.

PHENEOL LAMP BRAND

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUITA :: BOMBAY :: KANPUR

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

S. M. MURSHED,

Offg. Superintendent S. S. Bogg Market.

VIEWS AND REVIEWS

COMMISSIONER LEAVES FOR DELHI

Shri B. K. Sen, Commissioner of Calcutta Corporation has left for Delhi on Wednesday night on an urgent call to meet the Prime Minister of India on November 7, along with the Commissioners of Bombay, Madras and representatives of important Municipal Bodies in India. They will discuss about the problems of slum clearance in important cities.

The deputation will place before the Prime Minister of India facts and figures concerning slums in the big cities and they will discuss about the schemes on slum clearance. Some time ago a seminar on slum clearance was held in Bombay under the Indian Conference of Social Work where Shri B. K. Sen laid a special stress on the clearance of slums from Calcutta and he also pointed out that about 100 crores of Rupees will be required to convert all the slums in the city into tenement buildings. According to Corporation Five-Year Plan it will require about Rs. 8 crores for construction of tenements for accommodating only 40,000 people. Shri Sen is in favour of beginning the work with 8 crores of Rupees, the amount which has been allotted for Calcutta area for this purpose under the Second Five-Year Plan. We hope that Commissioner's visit will bear some fruit and a beginning will be made possible for this urgent work within a short time.

SECTION 526

Yet the necessity of another amendment of the Calcutta Municipal Act and this time of Section 526 had been felt by the Corporation on November 1 when the House discussed an item placed before it on the recommendation of the Standing Planning and Improvement Committee.

Section 526 of the Calcutta Municipal Act empowers the Corporation to erect public buildings and to decorate the same for the convenience of the public but there is no provision under the Act which clearly states that the Corporation can build statues of great men of the soil and place the same in any open public place.

This naturally led to hot discussion at the meeting when it was pointed out that the Act was not quite clear on the point of the Corporation's competence to honour the great men by erecting their statues in open public places though none was against this age old system.

Shri S. K. Gupta, I.C.S., Chairman of the Improvement Trust and Shri J. L. Saha, Chairman of the Standing Water Supply Committee wanted to request the Government to amend the Section 526 so that the proposed statue of Netaji could be placed in any site to be selected by the Corporation and to request the sculptor to go ahead with the work. But the majority decided otherwise and the recommendations of the Standing Town Planning and Improvement Committee for constructing a small public building on the gyratory island at Shambazar Crossing and adorning the same with the statue of Netaji Subhas Chandra Bose was accepted by an overwhelming majority. The House also decided to install a statue of Deshabandhu Chittaranjan also in a similar manner in Deshabandhu Park.

To erect public buildings and to adorn the same with statues of great men is no doubt a way out of the woods but the Section 526 needs a change in clear and unambiguous terms empowering the Corporation to erect statues in open public places as erection of buildings is now

(Continued on next page)

THE CORPORATION AT WORK

A GIST OF THE PROCEEDINGS OF THE TWENTY SECOND ORDINARY MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 1ST NOVEMBER, 1957

UNPLEASANT INCIDENTS DURING FOOTBALL MATCHES

Councillor Dr. Sukhabehari Mukherjee, Chairman, Standing Health Committee, referred, during question time, to the unpleasant incidents that recently took place during Football matches in Calcutta Maidan. These incidents, he alleged, frequently happen for naming of teams after a community or a province and also for lack of proper supervision on the part of the organisers of the games. He requested the Government to take up the responsibility of conducting the games under stricter management as is being done in matches for Rovers and Durand Cups.

MISMANAGEMENT IN CITY HOSPITALS

Alleging mismanagement in City Hospitals, Councillor Nripendranath Banerjee referred to the tragic circumstances in which a female patient recently died in Sambhunath Pandit Hospital in South Calcutta. The patient, he described, fell from the cot while she was being administered oxygen and she succumbed. He also referred to non-service of any meal to the 17 patients of Golam Mohammad Block in Eden Hospital (under Calcutta Medical College Group of Hospitals) in Central Calcutta on Monday last. The patients were all of post and antenatal cases, and they had to go without food till night.

STATUES OF NETAJI AND DESHABANDHU

On the recommendation of the Standing Town Planning and Improvement Committee the Corporation decided to erect a statue of Netaji Subhas Chandra Bose in a small public building to be constructed on the gyratory island at Shambazar crossing, North Calcutta. It also decided to instal a statue of Deshabandhu Chittarajan Das in another small public building to be built in Deshabandhu Park, North Calcutta.

Shri S. K. Gupta, Chairman, Calcutta Improvement Trust by an amendment on the original resolution wanted to request the State Government to amend the relevant section of the C. M. Act to enable the Corporation to erect the statue of Netaji without erecting a public building. Councillor Ganapati Sur, Chairman, Town Planning

COUNCILLOR DR. A. P. DAS GUPTA

Councillor Dr. A. P. Das Gupta has informed us in contradiction of what has been published in his life sketch in the "Calcutta Municipal Gazette" issued on 26th October, 1957 that he was not linked with any political party but he took his ticket from U.C.C. in the last Corporation election. He also states that he is the President of Indian Medical Association, Tollygunge Branch and not of Jadavpur Branch.

We are sorry for the inadvertence.

and Improvement Committee, had his say in favour of the original resolution passed by the Committee. Councillors Baren Daw, Sachin Sen, Anil Maitra delivered speeches in favour of the original recommendation and the amendment was put to vote and was lost, the original resolution being passed by overwhelming majority.

NAMES IN TELEPHONE DIRECTORY

Members from both sides of the House expressed great resentment over the rejection by the State Government of the Corporation proposal to incur expenditure from its fund for insertion of the names of Aldermen and Councillors with their respective telephone number (for both office and residence) in the Telephone Directory under the heading "Calcutta Corporation" where names of the Mayor, the Deputy Mayor, etc., appear. After a heated and critical discussion participated by many, the House decided to refer back the matter to the Standing Finance Committee to advise whether the Corporation was competent to spend money for implementation of the proposal.

—VIEWS AND REVIEWS

(Continued from previous page)

required only to avoid any controversy that may arise between the Government and the Corporation over the legal interpretation of the Section 526. We, therefore, hope that the views expressed by Shri S. K. Gupta, Chairman, Improvement Trust and Councillor J. L. Saha may be given due consideration and an item may be placed before the Act Amendment Committee which, we understand, have not yet finalised their suggestions to the Government.

HOUSE COLLAPSES IN BOMBAY

We have collected a few lines from the Report of the Commissioner of Bombay for 1956-57 published recently and these are reproduced with a hope that citizens of Calcutta may compare their lot with that of the citizens of Bombay. The report runs:—

The Corporation served 8,260 notices against 6,497 during the previous year in respect of repairs or removal of unsafe structures. Of these, 6,468 were complied with while the remaining were pending at the end of the year.

Ninety-nine buildings or portions thereof collapsed during the year, against 101 during the previous year. The total number of persons injured was 66 and killed 18.

We may not be proud of our affairs in Calcutta but one cannot surely be envious of Bombaywallas.

Personalia**SHRI NAMBOODRIPADA IN CALCUTTA**

Calcutta once again saw a crowded rally at the Maidan on November 4 when Shri E. M. S. Namboodripada, Chief Minister of Kerala delivered 90 minutes speech on the current political topic and launching of Second Five-Year Plan by the Government of India. He several times referred to his own opinion during his speech that the plan target need never to be pruned if main burden for implementing the plan was put on those whose 'shoulders were broad enough to carry the burden.'

Shri Namboodripada said that swaraj did not mean replacement of white bureaucracy by brown bureaucracy. No attempt has been made during the last ten years to reform or change the brown bureaucracy. He quoted Gandhiji in support of his proposed administrative reform. He also said that his Government had also set up committees for "thoroughly democratisation of the administration" by making officials accountable to elected representatives of people.

Shri Namboodripada said, such administrative reforms were not only good in themselves, but in the context of the present crisis of the Plan they were essential. Because unless the people were given the confidence that "saving or ruining of the Plan would mean saving or ruining of themselves", they would not come forward to help it.

Planning, he said, was not merely the question of resources. Together with the resources it was necessary to create a psychological conditions to ensure people's participation in its implementation. Extension of civil liberties, freedom of the Press and such other "democratic measures" would help create such a condition.

Shri Jyoti Basu, M.L.A. presided over the meeting. Earlier Shri Namboodripada called on Dr. B. C. Roy, Chief Minister of West Bengal at Writers' Buildings. The two leaders were closetted together for more than half an hour and they had a heart to heart talk.

Shri E. M. S. Namboodripada, Chief Minister of Kerala arrived at Dum Dum on November 3 in a three-day visit to West Bengal and had a warm welcome by a large number of people. From Dum Dum he proceeded to Bongaon where he delivered a speech before a big gathering of people at the end of the All-India Kishan Conference.

Shri Namboodripada was received in the city by different organizations including Kerala Muslim Association, the Marwari Students Union and others. He also met the Press people and delivered a short talk before them.

DR. K. L. SHRIMALI

Union Minister of Education and Scientific Research, Dr. K. L. Shrimali visited Calcutta with a two-day programme on November 4 and went to National Library, the Indian Museum, the department of Anthropology and the Asiatic Society and many other places. Dr. Shrimali called on the Governor of West Bengal and Chief Minister of the State. The Minister felt the necessity of developing the National Library into a Cultural Centre for holding exhibitions and seminars.

Obituary**DR. B. N. GHOSH**

Dr. Birendra Nath Ghosh, Professor of Pharmacology, R. G. Kar Medical College and author of several standard medical books, passed away in Calcutta on Sunday (November 3) evening at his residence in 2F, Garcha 1st Lane. He was 75.

Author of some standard books on Pharmacology and Therapeutics, which earned recognition in India and abroad, Dr. Ghosh worked as Chairman of Indian Pharmacopoeia Committee. The first Indian Pharmacopoeia was published under his chairmanship. He was also elected a member of the Panel of Drugs and Medicine to advise the Government during the Second World War. He was later taken on the Government-sponsored committee on Indian medicine (Ayurveda and Unani) and the Drugs Technical Advisory Board, Government of India. He retired as Professor of Pharmacology of the R. G. Kar Medical College, Calcutta in September this year.

Dr. Ghosh had his early education at the Metropolitan Institution and St. Xavier's College, Calcutta. After qualifying himself as L.M.S. from Medical College, Calcutta he joined the University College of London and worked on Experimental Pharmacology under Prof. A. R. Cushny. He obtained the Fellowship of the Royal Faculty of Physicians and Surgeons of Glasgow in 1915.

DR. KUNJESWAR MISRA

Dr. Kunjeswar Misra, oldest physician and surgeon of Calcutta breathed his last at his residence in Calcutta after a short illness in the early hours of November 3, at the ripe old age of 85.

Throughout his long life he was actively connected with many social and religious institutions. He was a patron of physical culture and sports. Dr. Misra was one of the founders of "The Refuge", a social institution for the orphans. He also founded "Tibbati Baba Vedanta Ashram" at Howrah of which he was the Acharya. Dr. Misra was a philanthropist and benefactor to all those who came to him for help and guidance. He leaves behind him 9 sons including Sri P. Misra, a veteran sports leader, a daughter, grandsons and grand-daughters and a host of admirers to mourn his loss. His wife predeceased him in 1948.

Hailing from Rajshahi District, he had graduated from the Calcutta Medical College in the year 1897, and continued practice in the city for well over half a century. Dr. Misra was the first to introduce Saline as a specific treatment for Cholera which method of treatment was later on taken up by other eminent contemporary physicians including Sir Leonard Rogers and late Dr. Gopal Chandra Chatterjee.

After retirement from medical practice he devoted his time to the study of scriptures and religious books. He wrote several books, which were published, including a book entitled "Ramayan Bodh" in which he threw new light on the historical aspect and spiritual import of the epic.

CIVIC NEWS FROM FAR AND NEAR

PATNA CORPORATION

The Standing Committee of the Patna Corporation at its meeting towards the earlier part of this month reviewed the progress made so far regarding the improvement and construction of roads and drains within the Corporation area.

The Committee decided to draw up an integrated list of the requirements of the entire Corporation areas.

The Corporation has been authorized by the Bihar Government to take suitable steps for the levy of the profession tax without any loss of time.

TOWNSHIP FOR DISPLACED PERSONS

The Union Rehabilitation Ministry has sanctioned Rs. 8.4 lakhs to the Government of West Bengal sometimes ago to cover the expenditure to be incurred on the first phase of the work of construction of roads in Khoshbash Mohalla.

It has been stipulated that displaced persons living in this township should be employed to the maximum extent possible in the execution of this project to open up employment avenues for them. Non-displaced persons can be employed only if absolutely necessary.

UNDERGROUND DRAINS IN VIJAYAWADA

It has been reported that Vijayawada is the first town in the Andhra State to provide for an underground drainage scheme. The Andhra Minister for Health and Planning, Shri Kala Venkata Rao, laid the foundation stone of this scheme which will cost Rs. 73 lakhs and which will be completed in about 8 years. A sum of Rs. 9 lakhs yearly from 1956-57 has been provisionally earmarked for this civic undertaking which will benefit a population of 1,50,000. Apart from a few of the larger cities there is hardly a town in the country which can boast of an adequate drainage system. During the monsoons most of the streets in the mofussil towns become impassable for days together. Due to choked open drains and insufficient outlets whole areas become waterlogged. With improved drainage will come improved health and better living conditions.

MODERNISING PEKING

The ancient walls of Peking are to be pulled down as plans to modernise and expand China's capital are put into effect over a number of years.

But in its place a green wall of trees being planted round and throughout the city as part of a nation-wide reafforestation campaign.

Already, workmen are tearing great holes in the 60-ft. thick walls to allow roads suitable for modern transport to be constructed. Planners say that in time all the walls which encircle the Tartar and Chinese cities will be pulled down, except those round the imperial and forbidden cities, the heart of the old capital. These will be left because they do not impede planning in the

modern city and they constitute a memorial to China's past.

There is a rearguard still fighting to preserve the walls which were built in their present form by the Ming emperors 500 years ago and the decision to demolish them has not been reached without considerable opposition from those who wish to see old Peking remain unspoiled.

But the planners say that the walls must be breached in many places to make way for new roads and it would be foolish to leave only small sections of the walls standing.

They add that many gates and towers of particular historical or artistic interest will be left or removed to new sites and add that in any case, because of the money and labour involved, it will be many years before the walls are completely demolished.

The planning of new Peking is an architect's dream, with great flat open spaces to be filled with all the buildings necessary for modern capital.

SURI MUNICIPALITY

Shri Debendra Kumar Mukherjee and Prof. Debrunjan Mukherjee were declared elected uncontested Chairman and Vice-Chairman respectively of the Suri Municipality at a meeting of the newly elected Commissioners.

It is the fourth term Shri Debendra Kumar Mukherjee has been elected Chairman.

THE WORLD OF BOOKS

INCOME TABLES (Mitra & Ghosh)—By Prafulla Kumar Mitra B.Sc. and Amalendu Ghosh. Published by Ajit Guha, 448, G. T. Road, Sibpore, Howrah, Price Rs. 5/-.

This book is a "Ready Reckoner" calculated on the basis of Decimal Coinage system, which has been introduced by the Government of India. Figures have been computed up to three decimal places and, in our opinion, this expression has resulted in more accuracy than that of many other similar recent publications in the field. The Decimal Coinage system has come to stay and in calculating income wages and valuation of the job this book will be of much help to all those who have to deal with such receipts and payments with a fair amount of accuracy even when it is needed for fractions upto 7/8th part of a day in a month consisting of 28 days to 31 days.

Shri Devaprosad Ghosh, in his "Foreword" of the book has rightly emphasized, "I am sure that the painstaking labour that has been put into this Ready Reckoner by the computers to ensure accuracy will meet with appreciation it deserves". And we are glad to announce that the book has already received the appreciation of Shri P. Mitra, Finance Officer and Chief Accountant of the Corporation who has issued a circular to the different departments of the Corporation to this effect.

The printing, binding and get-up of the book is quite up to the mark and this has made it a handy reference book that could be kept on any table at ease.

HEALTH AND HYGIENE

Arrangement of Milk Supply in Cities

BOMBAY

INAUGURATED in 1951, the Aarey Milk Colony covers an area of about 3,500 acres and is situated about 20 miles north of Bombay. At present the Colony has 26 farm units, each accommodating about 500 cattle. Construction of six more units is in progress. The total expenditure on land, buildings, roads, dairy, veterinary hospital, staff quarters, water supply, electricity, etc., is estimated at Rs. 350 lakhs.

Each farm unit in the Colony is self-contained. It has accommodation for milking cattle, dry cattle, calves, down-calves, bulls, carts, trucks etc. All the operatives of such a unit are provided with proper residential accommodation. The Colony also supplies cattle-feeds and hay and green grass at reasonable rates. It provides free veterinary aid, the services of Government bulls and other technical assistance.

All the milk produced at the Colony as well as that obtained from other sources is pasteurised and bottled before distribution to the public. The capacity of the Central Dairy of the Colony is to pasteurise and bottle 4,000 gallons (500 maunds) of milk per hour. The Dairy is large enough to handle the entire milk supply of Bombay for many years to come. On receipt of milk from the Colony and the outside suppliers, the cans of milk are examined for smell, appearance, visible dirt, cleanliness of the cans etc., and only those cans, the contents of which satisfy the minimum standard, are accepted. After the milk has been weighed and sampled, the empty cans and the lids are washed, steam sterilised and dried before they are returned to the suppliers.

In pasteurising milk, nothing is added to it nor anything is removed from it. Only the milk is subjected to heat and cold treatment under controlled conditions which lengthens its life and destroys the disease germs. Pasteurised milk is then held in huge insulated tanks made of stainless steel, till it is bottled in properly cleaned and sterilised bottles and mechanically sealed. Bottled milk is kept in cold storage till it is sent out for distribution to the 700 distribution centres in the City in insulated trucks.

A cleaning plant, a plant control laboratory, bottle washing and filling sections, cold storage and toned milk section and a cream separation section, are among the other important features of the Colony. The Colony also provides dormitories for the workers with other amenities like an electric laundry, a canteen and a co-operative bank.

MADRAS

The keeping of cattle in congested localities in towns was detrimental to the interests of public health. It also affected adversely the milk yield of the cattle and their breeding capacity. The cost of maintenance in towns was high and this reacted unfavourably on the consumers' prices. The State Government were taking steps to establish cattle colonies on the outskirts of the Madras City for settling the city cattle with their milkmen. A cattle colony would shortly be established at Erukancheri near Madras City. It was expected to provide in all accommodation for 7,000 cattle during the Second Plan period at a cost of Rs. 120 lakhs. The City Corporation was taking steps to have a sewage farm on a site of 800 acres at Kudumbiyur for growing green fodder for the colonised cattle at a cost of Rs. 16 lakhs.

Schemes relating to milk supply and improvement of cattle wealth had been drawn up and included in the Second Five-Year Plan. The following were the schemes proposed at a cost of Rs. 35.95 lakhs:—(1) Development of milk production in urban areas; (2) Installation of pasteurisation plants in ten co-operative milk supply unions; (3) Hygienic handling of milk by the Madras Co-operative Milk Supply Union by supply of coolers, insulated vans, provision for sterilization of cans, etc., (4) Establishment of five co-operative salvage farms for dry cattle and (5) Establishment of co-operative societies for cattle breeding.

The implementation of these schemes would help towards improving the quality of milch animals and increasing the output of pure milk to the public at fair prices.

The Government Milk Factory at Teynampet, Madras had started production of toned milk, instead of reconstituted milk from July this year. This toned milk, which was prepared by adding a certain proportion of whole buffalo's milk to skimmed milk was intended to make a cheaper kind of wholesome milk available to the poorer section of the City's population.

The Government Milk Factory which had now come under the control of the Animal Husbandry Department and was at present producing 'toned milk' was contributing its little quota to solve the milk problems in Madras City. Toned milk which consisted of specified proportions of whole buffalo's milk, skimmed milk powder and water, had been tested by the experts and certified to be both nutritive and wholesome. It had never been the intention of Government that toned milk should replace whole milk. It had been introduced only with a view to making cheaper and at the same

(Continued on next page)

Milk From Soyabeans

[By Dr. S. C. PAUL, M.B.]

Milk, cow's, buffalo's or goat's is a nutritious and complete food and most essential for the young and growing children. It contains protein, calcium and vitamins which are so essential nutrients for the growth and development of muscles, bones and other tissues in a growing child.

But alas! India, once flowing with milk and honey, cannot now provide milk to her children as it is beyond the reach of the common man due to its high cost, and involving also the risk of adulteration.

Other countries like China with her perpetual milk scarcity devised a method of producing milk from soyabean and her millions of children thrived and grew well on this soyabean milk for the last thousand years. It is equally nutritious as natural milk as it also contains all the growth promoting elements like protein, calcium and vitamin. Not only that, but it can be made also into Dahi, Khoa and added to beverages like tea, coffee, cocoa etc.

The process is very simple and consists of 4 stages:—

Soaking the beans; Grinding the beans into paste; Boiling the paste, and then sieving the mixture.

The soyabean is soaked in water for a few hours or overnight and then spread out in shallow tray till the seeds germinate. During germination certain food constituents are mobilised and vitamins formed, at the same time outer skin gets loosened. The skin is then removed by rubbing on hand. The clean kernel is boiled in water for 10 minutes with a pinch of soda-bicarb, which removes any colouring matter or any bitterish taste. The beans are then made into a fine paste by grinding on an ordinary household spice grinder (stone). The paste is then boiled in 5 or 6 times its weight of water for 20 minutes adding a little quantity of lime water (chuna). The mixture is then strained through a fine cloth. The white liquid strained through the cloth is the milk ready for drinking.

The solid residue remaining on the cloth is very rich in protein and can be made into many household dishes like Dosai, pakoda, bada, vadai, etc. Needless to say that it is also a valuable cattle feed as it is a protein concentrate.

Roughly, the cost of soyabean milk will not come to more than As. -/6/- per seer.—[Press Service Bureau].

—ARRANGEMENT OF MILK SUPPLY IN CITIES—

(Continued from previous page)

time sufficiently nutritive and wholesome milk available particularly to the poorer sections of the City's population and generally to act as a sobering influence on the price of whole milk.

The other important scheme proposed to be implemented during the Second Five-Year Plan period and which had also been the subject of a certain amount of misapprehension was the establishment of a Milk colony for Madras City. It had been tentatively decided that the colony site would be near to the sewage farm proposed to be established by the Corporation authorities. Under the scheme it was proposed to provide accommodation not only for the milch animals but also decent quarters and other amenities for the milkmen. While buffaloes' milk and cows' milk produced at the colony would be separately pasteurised and supplied in bottles to the public, some portion of the buffaloes' milk was proposed to be converted into toned milk. It was also proposed to systematically upgrade the milch animals which would be accommodated in the colony with a view to increasing their milk yield by correct breeding and feeding.

The scheme, when it materialised, would be a model because even in the Aarey Colony in Bombay there was no combination of pasture and dairy units.

FILM ADVISORY BOARD

For the purpose of advising the State Government about the suitability of films being notified as scientific film, or a film intended for educational purposes, or a film dealing with news and current events, or a documentary film, within the meaning of the directions already issued, the Government of West Bengal have constituted the West Bengal Film Advisory Board, as follows:—The Secretary, Education Department, Ex-officio Member and Chairman of the Board; Shri Sookamal Kanti Ghosh; Shri Tarashankar Banerjee, M.L.C.; Shri Ahindra Chaudhury; Shri Muralidhar Chatterjee; Shri Kabirish Chatterjee, M.L.C.; and Shrimati Anjali Khan, M.L.A., Members; the Secretary, Commerce and Industries Department, (Ex-officio) Member, and the Director of Publicity, (Ex-officio) Member and Secretary of the Board.

The members of the Board, other than the ex-officio members, shall hold office for a term of two years.

MUNICIPAL SERVICE COMMISSION

NEW APPOINTMENT

Sub:—Appointment to a permanent post of Lady Health Visitor, Maternity Unit in the grade of Rs. 200—10—350 plus T. A. of Rs. 75/- p.m.

In pursuance of Municipal Service Commission's letter No. 628 M. S. C./1D/32/56 dated the 18th September, 1957 the Standing Finance Committee dated the 24th September, 1957, made the following appointment:—

"That accepting the recommendation of the Calcutta Municipal Service Commission, Dr. Kamala Bhattacharjee be appointed permanently to the post of Lady Health Visitor, Maternity Unit, in the grade of Rs. 200—10—350 plus T. A. of Rs. 75 per month and other usual allowances subject to the Service Regulations of the Corporation."

SPECIAL

Articles

Corporation And Prevention Of Cruelty

[By SHRI PRABODHA NATH CHATTERJEE, M.A. B.L., Advocate, Calcutta High Court.]

BULLOCK carts and buffalo carts are still among the distinctive features of our country. Moving slowly they are a class apart from other types of animal-drawn vehicles and bring out the archaic side of the Indian people. In Western countries their type is scarce.

The number of these carts plying in Calcutta are now only a fraction of what it was in the twenties and there is a talk in responsible quarters of imposing more restrictions on them. Their bulk and their slow motion constitute a traffic problem. These carts also damage the road surface by their weight. But the problem weighing on the animals drawing them is poignant and the present article would suggest certain necessary measures to lessen to some small extent the sufferings of these mute animals.

For the majority of these beasts of burden have a very difficult life. How often one sees lame and sick animals being harnessed. Healthy animals are often overloaded till they are disabled. Many will find them with bleeding injuries inflicted by whips.

C. S. P. C. A. is there but their Inspectors on the road are insufficient to cover the whole of Calcutta. In some other places even the Police are scarce. Naturally, the cartmen take advantage of this state of affairs and sometimes an almost sadistic callousness is manifested in their conduct towards the poor animals under charge. The passers-by do not intervene because ordinarily, people busy with their own affairs and preferring the line of least resistance would not like to take the trouble of forcing an unruly cartman to accompany them to a C. S. P. C. A. or police station.

Yet the public do not approve of this sort of cruelty and would willingly help the authorities concerned if there be least trouble in doing it. If number plates are fixed on the carts it makes easier to report to the authorities against the offender with the number of the cart so that the culprit could easily be found out. Like the motor drivers, cart drivers will also then be prevented from doing mischief by the easy possibility of somebody from among the public reporting against him.

But it is also obvious that it is not enough to fix a number plate somehow in a cart. The plates must be permanently fixed on the cart as number plates are fixed in other vehicles in some conspicuous part of the cart so that it can easily be seen by the people on the street. Then it will be convenient for a member of the public to take down the number when there is any infringement of the law against cruelty to animals and report the matter to the C. S. P. C. A. or to the Police. The mere knowledge that the Authorities can be easily informed will make cart-owners and drivers

more law-abiding. Even a threat from a passer-by that he has noted the number of the cart and that he may approach the authorities will in the majority of cases cow down the bully in the cartman. Thus there may be scarcely any necessity for an actual complaint.

At present carts are registered and given number plates by the Calcutta Corporation but these number plates are not only of small size, these are actually hidden from view by being fixed underneath the cart; the plate is joined to the axle which connects the wheels. This position of the number plate in a cart defeats the all-important object of ready identification of the number. The present arrangement is hence quite useless for the purpose of securing public co-operation to check cruelty. Few will think of taking the trouble of creeping under a cart to note its number.

The remedy lies with the Corporation, and for the sake of welfare of draught cattle, the Corporation must use its powers under the law.

By Section 224 of the Calcutta Municipal Act, 1951, Corporation is empowered to direct the manner of fixation of number plates on the carts. It can therefore easily direct that a number plate should be so fixed on a conspicuous place in the body of the cart as to be prominently exposed to view. A Bye-law should be made for the purpose.

The outer side of the hub or nave of the wheel of a cart is one of its conspicuous parts. Alternatively, the number plate can be fixed along the upper portion of the outer sides of some of the spokes of a wheel the numbers will remain visible as a cart cannot move with speed.

These are only suggestions as to ways for prominent display of cart numbers. The important thing is the principle that cart numbers, like numbers of other vehicles, should be clearly visible. Once this is decided upon, it will not be difficult to work out the details.

Again subsection (1) of section 228 of the same Act enjoins that every cart-driver shall wear a ticket exposed to view bearing his license number. This provision of law also is never enforced. The rule (Rule 82) to this effect in relevant draft bye-laws circulated in or about 1951, was later withdrawn for reasons unknown. Thus the Corporation has not paid attention to another of its powers which would keep the carters under more effective control.

In conclusion, I must say, human institutions have so far been too neglectful in matters that promote welfare of animals. We must wake up to our own responsibilities towards humanity's poor relations otherwise we would not morally deserve the achievement of our rights and aims for "pursuit of happiness" under a just and Divine dispensation of affairs.

HOUSE DRAINAGE—New Connections

The following new sewer connections were effected in the month of May, 1957 :—

DISTRICT II

Premises No.	No. of Connections	Date of Connections
26/1/B, Pollock Street	... 1	14-5-57
1/1/A, Champatala 1st Bye Lane	... 1	24-5-57
10A, Jadu Srimani Lane	... 1	24-5-57

DISTRICT I (Proper)

The following House Drainage Plans showing new sewer connections have been sanctioned during the week ending on 4th May, 1957 :—

Premises No.	No. of Connections	Date of Connections
33, Baghbazar St.	... 1	3-5-57

The following House Drainage Plans showing new sewer connections have been sanctioned during the week ending on 11th May, 1957 :—

CORPORATION NOTICES—Contd.

District No. IV, Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Monday, the 18th November, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. on the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. Works may at the discretion of the Commissioner be forfeited.

198. Repairs to footpath of Ashutosh Mukherjee Road from Shambhunath Pandit Street to Debendra Ghosh Road (Western side)—Rs. 1,894/-, dated 17th October, 1957 (2 months).

199. Maintenance of sewer at Balarum Bose Ghat Road—Rs. 1,582/-, dated 4th November, 1957 (1 month).

200. Repairs to commandeered building at 206, Harish Mukherjee Road—Rs. 2,077/-, dated 22nd August, 1957 (2 months).

201. Repairs to passage leading to Shanagar Burning Ghat—Rs. 1,876/-, dated 2nd September, 1957 (1½ months).

202. Repairs to Kalighat Dispensary—Rs. 1,210/-, dated 14th October, 1957 (2 months).

203. Repairs to the free primary school at 13/1, Nepal Bhattacharjee Street—Rs. 2,237/-, dated 4th November, 1957 (1 month).

204. Repairs to the Kerb & Channel stones at 27, Kankulia Road—Rs. 1,516/-, dated 17th October, 1957 (1 month).

Please note that words "Two months" as printed in italics in Clause 8 of the tender form, is to be read as 3 months and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

A. C. SINHA,
Actg. District Engineer IV.

DISTRICT IV ENG'G. OFFICE:
The 5th November, 1957.

It is proposed that Mc Carthy Lane in Ward No. 44 be renamed as Sudhir Sen Barat Lane.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Friday, the 6th December, 1957.

A. BHATTACHARJEE,
Assessor.

Central Municipal Office:
The 31st October, 1957.

VITAL STATISTICS

For the City of Calcutta for the week ending
19th October, 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS.)

The total number of deaths registered during the week was 659 against 652 and 634 in the two preceding weeks and higher than the corresponding week of the last year by 77. The general death-rate of the week was 11.29 per mille.

TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 19th October 1957, was 506 against 486 and 507 in the two preceding weeks. There were 2 deaths from cholera against 6 and 3 in the two preceding weeks. There was nil death from small-pox during the week against 2 in the previous week. There were 5 deaths from influenza against 4 in the previous week. The mortality from fevers and bowel-complaints amounted to 16 and 50 respectively against 15 and 45 in the preceding week. The general death-rate of the week was 11.20 per mille per annum.

There were 46 imported deaths. Excluding these, the death-rate of the Town was 10.29.

There were 99 deaths from respiratory diseases against 84 in the previous week.

There were 38 deaths from tuberculosis against 35 in the previous week.

ADDED AREAS (WARDS 28—32)

The number of deaths registered was 153 against 166 and 127 in the two preceding weeks. Of these, 1 was from cholera, nil small-pox, 2 from influenza, 4 from fevers, 27 from bowel-complaints and 39 from respiratory diseases. The death-rate of the added areas was 11.62 per mille.

There was no imported death. Excluding this, the death-rate was 11.62.

There were 5 deaths from tuberculosis against 7 in the previous week.

STUDENTS FROM PHILIPPINES IN CALCUTTA

A party of students from the Philippines arrived in Calcutta on October 29, on the last lap of their tour of India. The party, which is touring the country at the invitation of the Indian Council of Cultural Relations, has already visited Delhi, Kashmir, Bhakra-Nagal, Bombay, Bangalore, Mysore and Madras.

During its three-day stay in Calcutta, the party saw some factories, handicraft centres and the National Library.

PHENEOL LAMP BRAND

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUITA :: BOMBAY :: KANPUR

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, baggies, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south west corner where the visitors can keep their bicycles in charge of the police thereof on payment of a fee of 0-1-6 for a Bicycle and 0-5-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 1 A.M. Bicycle 0-5-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle 1-8-0. The Corporation does not take any liability in the connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

S. M. MURSHED,
Offg. Superintendent, S. S. Hoag Market.

OUR PRIME MINISTER'S BIRTHDAY

Calcutta is in a festive mood.

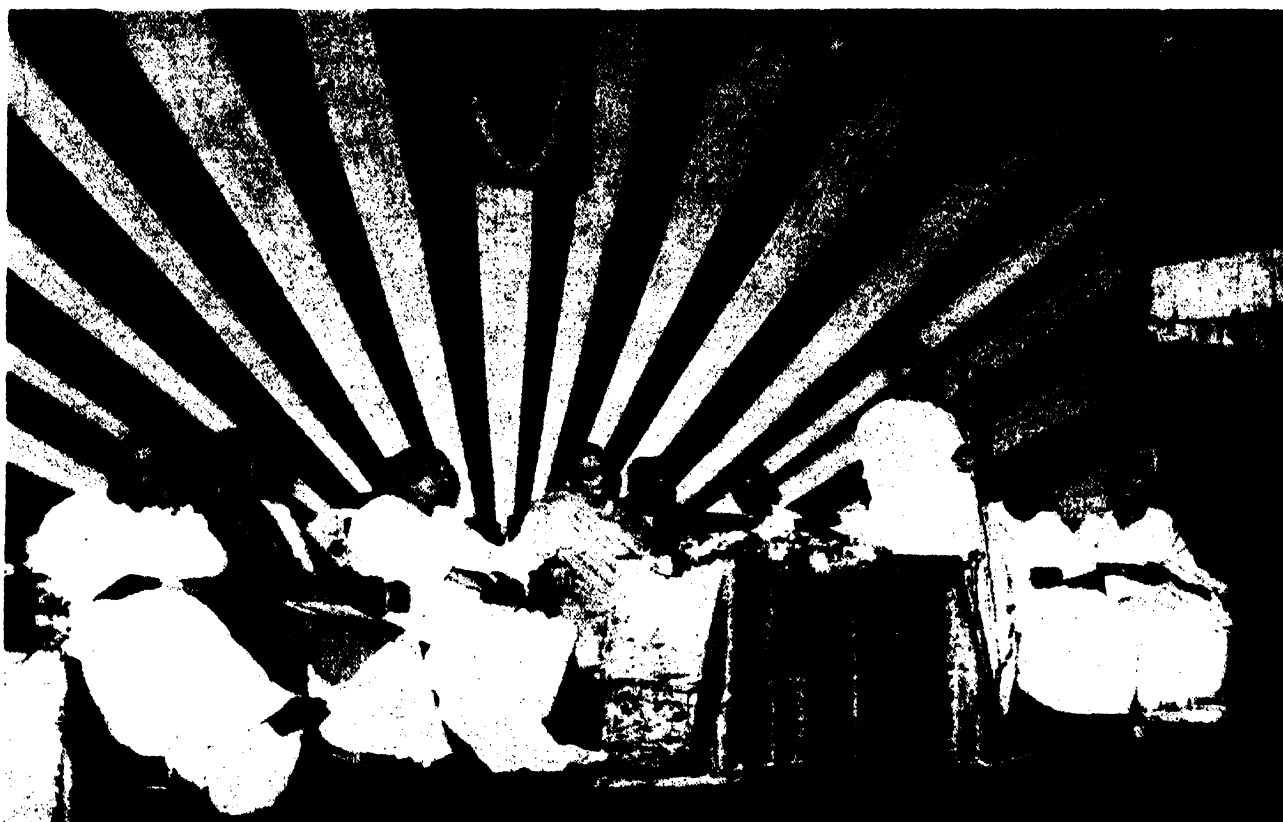

Sixty-ninth birthday of our beloved Prime Minister is being celebrated in the City from November 14.

A four-day festival programme has been mooted and many organisations are participating. Educational institutions observed the day by mass rally, hoisting of flags, performance of singing and dancing of boys and girls, colourful processions and delivering short speeches on the life of the Great man of India. Minister P. C. Sen while speaking at the rally organised by Manimela said that Prime Minister, though big was a child at heart.

Sports and games were also organised on the occasion.

West Bengal Pradesh Congress Committee has undertaken a three-day programme and commenced the day with the children's rally at the Aryan/Mahamedan Sporting Club ground where more than 100 institutions participated including the Chinese. About five thousand Corporation Primary School Children took part in the occasion. Shri Sankar Das Banerjee, Speaker, West Bengal Assembly, took the salute and Shri Atulya Ghosh, President of the Pradesh Congress presided. Education Minister spoke on the occasion. Cultural function at Mahajati Sadan in the evening was a treat.

International Children's Art and Crafts Exhibition opened at the Corporation Municipal Museum, College Street will remain open till November 17.

CORPORATION STARTS DRIVE AGAINST UN-AUTHORIZED KHATALS AND STRAY CATTLE

Commissioner, Shri B. K. Sen with the Health Officer, Dr. Anil Mukherji, District Health Officer and the Assistant Commissioner of Police, South Section raided an unauthorised Khatal at Garcha Lane, Ward No. 62 and rounded up 165 cattle (82 cows, 67 buffaloes and 16 calves) on November 14 midnight. The raid lasted for more than two hours. The party suddenly appeared on the spot and the cattle owners were taken unaware. The drive was conducted in a well planned manner and the place of drive was kept secret till the last moment. The whole cattle troop were taken to District IV Gowkhana and they have been impounded there. The drive, it may be recalled, was mooted some time ago and since then the publicity vans of the Corporation are informing the cattle owners of the city about the impending drive so that the owners may not feel themselves harassed and may remove their cattle to Haringhata in time. It is understood that the Commissioner of the Corporation has requested the Milk Commissioner to augment the necessary supply of Haringhata milk in the locality so that there may not be scarcity of milk supply.

SLUM CLEARANCE

Shri B. K. Sen, Commissioner of the Corporation of Calcutta, has come back to the city after meeting the Prime Minister of India, the Finance Minister, the Union Minister for Steel Mines and Fuels and many other important personages at Delhi. He went to Delhi on an urgent call to discuss the Slum Clearance problem facing the city of Calcutta. Before the Prime Minister the

Commissioner emphasized the need of improvement of bustees and removal of the worst type of slums from the city as early as possible and appraised him of the prevailing situation. Shri. Nehru, it is learnt, has opined that some of the Calcutta bustees are really in a deplorable condition. Union Finance Minister, Shri Krishnamachari has suggested that at the initial stage of slum clearance programme more attention should be paid to the improvement of sanitary and hygienic condition of the existing bustees. The Commissioner has requested the Finance Minister to expedite the diversion of Rs. two crores to the Corporation so that the slum clearing programme may be taken up early. It is understood that the Central Government is considering the question of integrating some of the industrial housing schemes along with the slum clearance scheme. Shri Sen also met Sardar Swaran Singh, Union Minister for Steel, Mines and Fuel while at Delhi and stressed before him the need of iron and steel for construction of Talla-Pulta mains, the work which has already been undertaken. Augmentation of water-supply in the city of Calcutta depends to a large extent on this work.

According to the reports appearing in the Press, the Planning Commission will soon meet and discuss the Second Five Year Plan in the perspectives of work already undertaken and the financial difficulties. We are glad that the above proposal of modification in the outlook of the slum clearance is being considered and improvement of some of the bustees has been taken into account. Worst slums should be removed as early as possible but the rest may be provided with improved sanitary and hygienic arrangements for the present.

THE CORPORATION AT WORK

A GIST OF THE PROCEEDINGS OF THE TWENTY THIRD ORDINARY MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 8TH NOVEMBER, 1957.

CIVIC RECEPTIONS

The House decided to accord Civic Receptions to Shri Satyajit Roy, Director of two famous pictures Pather Panchali and Aparajita, who has recently secured the highest honour at International Film Festival in Venice.

60 delegates from 25 countries to the Conference of Economic Commission for Asia and the Far East which is now being held in Calcutta under the auspices of the Geological Survey of India will also be accorded Civic Reception.

CITY'S DRAINAGE

The Mayor, Dr. Triguna Sen, appraised the House about the working of the Drainage Department of the Corporation. He said that one of the pumping units at Birpara Pumping Station had been commissioned and the second unit there as well as the pumping sets at Palmer Bridge Pumping Station and Ballygunge Drainage Pumping Station were nearing completion. Installation of the pumping set at Dhappa Lock Pumping Station had been taken in hand. Besides these the silt clearing mazdoors had been doing their best in clearing accumulated silt from the sewers. The Mayor hoped that it would give relief to the citizens during the next monsoon. Later the House agreed to the retention of additional sewer cleansing staff for a further period of six months.

CLEANER CALCUTTA

The Mayor also emphasized the emergency of extending the programme of house to house collection of garbage to bigger areas as a measure to keep Calcutta cleaner and sought demarcation of responsibilities between the District Engineers and the Superintendent of Motor Vehicles Department for expeditious work through conservancy lorries. On his suggestion the Works Committee agreed to bring forward a scheme with details for sanction of the House.

LANGUAGE COMMISSION REPORT

Councillor Mukur Sarbadh'kary pointed out the implications of the recommendations of the Language Commission and the possible repercussions of suppressing regional languages and thrusting a common language against the will of the people.

SPREAD OF JAUNDICE CASES

Councillor Dr. Himangshu Kumar Das drew the attention of the House to sporadic cases of jaundice prevailing in the city. If proper precautionary measures, he said, were not taken from the beginning the disease might break out in an epidemic form and take a heavy toll as it, unfortunately, did in Delhi year before last.

NEGLIGENCE IN HOSPITAL

Another instance of "gross negligence" on the part of attending nurse and Doctor in Nilratan Sarkar Hospital where a baby patient suffering from burn injury died on 31st October last, was pointed out by Councillor Biman Mitra at this meeting of the Corporation. Being asked by the Mayor, Councillor Mitra handed over the complaint from the father of the deceased baby to the Hospital Enquiry Committee appointed by the Corporation sometime ago.

—EPIDEMIC CONTROL SCHEME OF THE CORPORATION

(Continued from page 81)

of Hygiene and Public Health, Dr. N. C. Banerjee, Peoples' Relief Committee, Dr. B. P. Trivedi, President, Indian Medical Association, Senior Executive Medical Officer, Army Medical Unit, Military Hospital, Dr. S. K. Chatterjee, Deputy Director of Health Services, Public Health, Government of West Bengal, Major H. K. Indra, Principal, R. G. Kar Medical College & Hospital, Secretary, Kalikata Bustee Federation.

ONE DEATH FROM SMALL-POX

During the week ending November 9, one person died of small-pox at Nilratan Sarkar Hospital. The patient Arun Kumar Ghosh aged 5 years was admitted from 4/3, Bhukailash Road, Ekbalpur, Ward No. 74, it is learnt and he died on November 4. 11 persons were attacked with cholera and of them 5 died.

The following Sub-Committees have also been formed :—

TECHNICAL SUB-COMMITTEE

Dr. S. C. Seal, Professor of Epidemiology, Dr. K. K. Mathen, Professor of Statistics, Dr. M. N. Lahiri, Professor of Micro Biology, All India Institute of Hygiene and Public Health.

THE PUBLICITY SUB-COMMITTEE

Dr. B. P. Trivedi, Director of Publicity, Government of West Bengal, Public Relations Officer, Corporation of Calcutta, Officer-in-charge, USIS, Dr. Naresh Banerjee, Peoples' Relief Committee, Councillor, Dr. K. P. Ghosh, Representatives of the Police, Port Commissioners and Kalikata Bustee Samity.

ORGANIZATIONAL SUB-COMMITTEE

Dr. S. K. Chatterjee, Deputy Director of Health Services, Government of West Bengal, Senior Medical Executive Officer, Army, Dr. B. P. Trivedi, Shri S. C. Sen-Gupta, Shri Biren Roy, Presidents of all the Medical College Students' Unions, Chief Medical Officer, or his representative South Eastern Railway and Representative of the Port Commissioner.

Epidemic Control Scheme Of The Corporation

After taking into consideration of the Scheme of Councillor Dr. P. K. Roy Chowdhury, the then Chairman of the Standing Health Committee regarding epidemic control, as sanctioned by the Corporation on 15th March, 1957 and also having regard to the epidemic control scheme, as submitted by Alderman Dr. A. K. Bose in so far as it relates to the appointment of personnel and also taking into consideration the suggestions of Councillor Dr. S. B. Mukherji, Chairman of the Standing Health Committee the Corporation passed the following Scheme on the 18th September last which was formulated for control of epidemics as an emergency measure on three-year basis in the first instance within the Municipal limits of Calcutta:—

AREA OF OPERATION

Calcutta is now divided into 80 Constituencies and each constituency will be a field of operation.

PERSONNEL

(a) 80 Epidemic Officers (one for each Constituency) to work under the permanent Assistant Sanitary Officer.

(b) 339 Vaccinators (including 69 existing permanent Vaccinators).

Under each Epidemic Officer there shall be 3 to 5 Vaccinators as the case may be according to the area and population of the Constituency.

PROGRAMME OF WORK

Epidemic Officers will chalk out the programme for anti-epidemic work in their respective circles in consultation with the Assistant Sanitary Officers and District Health Officers concerned. They will also be responsible for supervision of this campaign and will keep watch on outbreak of any other infectious diseases within their respective Constituencies.

They will also carry on health-education programme specially in bustee areas.

Vaccinators will have to carry on vaccination and inoculation drive within their respective Constituencies and if necessary, to other Constituencies according to the situation.

29 permanent vaccinators will be designated as Vaccinators and Peripatetic Sub-Registrars and they will be in charge of the 29 Vaccination Stations.

20 Vaccinators will be posted at the different gateways of the City.

40 will be posted at the four District Offices including Cossipore and Manicktolla—10 for each District for different markets and big assembly places.

6 will be posted in the Tollygunge Office.

14 will be under the Health Officer as leave reserve and emergency calls and the rest will be distributed wardwise.

4 posts of Assistants—one for each District including Cossipore, Manicktala and Tollygunge will be created temporarily and they will check the Attendance Registers of the Vaccinators as also the number of vaccinations done each day by each vaccinator and perform other duties relating to this staff.

10 posts of Disinfecting Sarkars and 30 posts of Masdoors will be created temporarily.

TRAINING

Course of training for vaccinators shall be prescribed by the Health Officer in consultation with the Standing Health Committee; similarly the examination which the vaccinators shall be required to pass, will be arranged for by the Health Officer in consultation with the Health Committee.

The anti-epidemic work will be carried on under the direct supervision of the Health Officer subject to the advice and guidance of the Standing Health Committee.

BUSTEE HEALTH CENTRES

Standing Health Committee has been requested by the Corporation to consider immediately the question of starting Bustee Health Centres on the lines indicated by Dr. A. K. Bose in his Scheme, to give it a concrete and practical shape.

NAMES OF THE MEMBERS OF THE ADVISORY COMMITTEE

The Mayor convened a Conference of Government Officials, Police Authorities, the leading social, philanthropic, humanitarian and Medical organizations on October 21 and also formed an Advisory Committee to advise the Standing Health Committee for the work. The members are as follows:—

President, Indian Red Cross, President, St. John Ambulance, President, R. W. A. C., Principal, Calcutta Medical College & Hospital, Principal, R. G. Kar Medical College & Hospital, Principal, N. R. S. Medical College & Hospital, Principal, National Medical Institute, President, Marwari Relief Society, President, Peoples' Relief Committee, President, Indian Medical Association, President, Azad Hind Ambulance, Senior Executive Medical Officer, Army Medical Unit, Military Hospital, Director of Health Services, Government of West Bengal, Director of Publicity, Government of West Bengal, Officer-in-charge, USIS, Dr. S. C. Seal, Epidemiologist, All-India Institute of Hygiene and Public Health, Councillor Dr. Sukhabehari Mukherji, Chairman, Standing Health Committee, Corporation of Calcutta, Dr. Amiya Bose, Alderman, Corporation of Calcutta, Councillor Dr. Birendra Chandra Basu, Calcutta Corporation, Dr. Sauren Sen Gupta, Associate Member, Standing Health Committee, Calcutta Corporation, Secretary, Kalikata Busteebashi Sammilan, Secretary, Kalikata Bustee Federation, Secretary, Kalikata Bustee Panchayet, Secretary, Kalikata Bustee Unnayan Samity, Secretary, Bustee Unnayan Samity.

SUB-COMMITTEE OF THE ADVISORY COMMITTEE

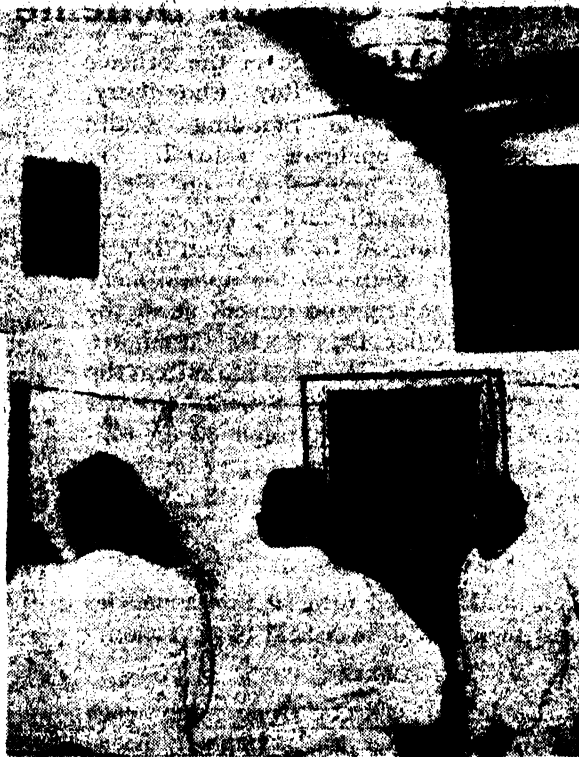

The Advisory Committee met for transaction of business and formed a small Sub-Committee to tackle the problem effectively and to submit their proposals before the Advisory Committee. Members of the Sub-Committee are:—

Councillor Dr. Sukhabehari Mukherji, Chairman, Standing Health Committee, Corporation of Calcutta, Dr. A. K. Bose, Alderman, Corporation of Calcutta, Councillor Dr. K. P. Ghosh, Corporation of Calcutta, Dr. S. C. Seal, Professor of Epidemiology, All-India Institute

(Continued on previous page)

BIPIN CHANDRA PAL

Mayor Unveils the Portrait

A PORTRAIT of late Bipin Chandra Pal was unveiled at the Federation Hall, Upper Circular Road, North Calcutta by the Mayor of Calcutta, Dr. Triguna Sen on the occasion of the 99th Birth Anniversary of the departed leader on November 7. Shri Hemendra Prosad Ghosh presided over the function. Shri Hem Chandra Sen sang the Bandemataram.

Shri Soumendra Nath Tagore in course of his speech recalled the Renaissance movement of Bengal commencing from the time of Raja Rammohan Roy and laid particular emphasis on the contribution of Bipin Chandra towards its fulfilment. Bipin Chandra, he said, illustrated by his own life that he was not a man to bow down before the altar of wealth or power. He did not hesitate to stand alone and to do and act what he thought to be right. He would accept things after very critical analysis and would urge his countrymen to do the same instead of accepting them blindly at the biddings of so-called gurus. His great contribution for economic, social and political emancipation of the country should be gratefully remembered for the benefit of all when Bengal had fallen in bad days.

Shri Hemendra Prosad Ghosh said that Bipin Chandra was a leader of thought and it was he who first pointed out the dangers of Pan-Islamism that was trying to make its headway in the political horizon.

His courage of conviction made him an outstanding leader although sometimes he was forlorn for this rare quality. The function concluded after a few selected songs melodiously sung by a group of artists from Gita Bitan.

Shri Hemendra Prosad Ghosh, Chairman of the preparation Committee of the Birth Centenary of Shri Bipin Chandra Pal earlier in a Press Conference told that steps were being taken for the celebration of the centenary of the birth of the departed

leader in a befitting manner in a week long programme from 7th to 14th November, 1958. Detailing some of the programmes of the Centenary celebration he said that two volumes of Books—one on the Renaissance in Bengal (from Raja Rammohan to Rabindranath) and the other containing a selection of the writings and speeches of Bipin Chandra on political, sociological, cultural and religious subjects would be published on the occasion. Exhibition of arts and periodicals, etc. as well as of personal belongings of the very important personalities of the contemporary period will also be held on the occasion. A preparatory Committee with the Chief Minister of West Bengal, Dr. B. C. Roy as one of the members has already been set up for the purpose. An estimated amount of Rs. 25,000 will be required to carry out the plan. The Committee has appealed to the public to contribute liberally for the great cause. Shri Bipin Chandra Pal played an important role during the first phase of freedom movement of the country and he was also connected with the renaissance of Bengal.

OLD CITY DISCOVERED

Beads of gold not bigger in size than the pinhead have been found in the excavations at Lothal on the Cambay coast by the Western Circle of the Archaeological Department of India.

Although the use of precious metals in the life of the people five thousand years ago was not very marked, the finds show that they were highly skilled artisans, according to Mr. S. T. Rao, Director of the Western Circle.

The Microscopic gold and steatite beads found at Lothal seem to have no parallels elsewhere in India or abroad, Mr. Rao said. There were also semi-precious stones like agate and carnelian and other materials like shell, ivory and bone.

A careful study of these and other finds at Lothal and the neighbouring site of Rangpur have brought to light many missing links in the pre-Buddhist period of Indian history, according to Mr. Rao.

MIDDLE

SMOKE NUISANCE

Though, in the past, occasional protests were raised from time to time against sources of air pollution, people everywhere were apparently content with caring for disposal of their solid and liquid wastes only in a planned and efficient way. The present trend in living, with industrialisation raised to a high pitch, has lately focussed general public attention to the question of efficient dispersal of wastes thrown into the surrounding atmosphere. The recent clamour over the Clean Air Bill in Great Britain and the intensive research on pollution of air undertaken in Los Angeles on the American Continent, point towards this general public interest in the English-speaking world. It has been proved that there is a limit to what the air can take and that what otherwise is an innocuous state of the air can be instantly altered by nature's apparently vagrant and whimsical ways to a potentially dangerous state from public health point of view. It has also been proved that the working of the internal combustion engine, so pervasively rampant on every accessible part of the world today, can be sources of potential danger when concentrated in a place in the presence of sunlight.

The subject of air pollution demands intensive application of human ingenuity of a selfless nature with only the good of one's neighbours in mind. The West Bengal Smoke Nuisance Commission have so far dealt with the smoke aspect of the problem only and that even in part. Economic considerations have not permitted interference with smoke from domestic chullas where raising of smoke is unfortunately timed with periods of less favourable condition of the air for dispersal. Even in a few cases coming under the scope of the Act, economic considerations have been found to be in the way for a suitable solution. Small rolling mills and potteries of which there are many in the area, steam piling of building foundations in congested areas, are instances in question. It has been difficult persuading the smaller units of industries of this nature who are always faced with keen competition for survival to change their established old fashioned ways in favour of proved equally economical but better ways.

The pace of air pollution in the area seems to have increased at a tremendous rate if our impressions, in the absence of suitable past records, are taken as guides. The tidal basin of the Hooghly and the neighbouring marshes have always been responsible for the local mist and fog in mornings and evenings in the late winter months and is a very natural phenomenon for the area. But the eye-smarting and throat irritating part of it as prevailing at time nowadays, indeed, need all-round attention for adequate amelioration.

The Commission's efforts, for the part for which they have been responsible, have been reviewed in the first part of this report. The part played in the area by electricity and gas which are considered to be ideal sources of power from the point of view of prevention of air pollution

may be stated here by quoting the authorities responsible for their supply. "During the year 1955, over 80,189 H. P. of Electric Motors were connected to the Calcutta Electric Supply Corporation's system. This figure represents additional load of which over 6,000 H. P. replaced existing Steam and Oil Engines." The total number of consumers on the list of Messrs. Oriental Gas Company on 31st December 1955 were 7,158. Of these 6,136 represented domestic users, hospitals, clubs, etc., and the remainder were industrial consumers. Total number of new connections during the year were 630.

Further prospects for alleviation of the pollution in the area may be looked for in the impending electrification of the suburban railways, in the present trend in shift of power generation from individually owned equipments to multi-purpose hydel or suitably equipped large thermal power station, in the control of quality of fuel by processes such as carbonisation, coal washeries, etc., and last but not the least, in a better standard of living for the general masses.

The Inspectors of the West Bengal Smoke Nuisance Commission paid altogether 8,920 visits to premises containing furnaces in the year 1955. 767 of these visits were paid to separate premises of same number for carrying out periodical assessment of their furnaces, flues, chimneys, etc.

The other visits were paid for investigation of complaints against particular furnaces with a view to remove same as far as practicable within the terms of the Act, supervision of furnaces under construction or re-erection for ensuring that they are made strictly in accordance with the plans approved by the Commission, demonstration and instruction to furnace owners on the best way for abatement of smoke nuisances from their furnaces compatible with individual industrial process, advice on design of furnaces where the resources of the owners were found inadequate for getting proper technical help elsewhere, etc.

Observation on density of emission from every chimney in the area together with arrangement for immediate warning to those found violating the limits specified under the Act have been one of the most important aspects of the control by the Commission. A vigilant and comprehensive watch over the present controlled area of nearly 80 square miles, with approximately 1,060 premises containing chimneys as registered with this Directorate, have been maintained.

Whenever a chimney was found to be emitting smoke of nearly offensive nature, observations were taken on the chimney. In 471 cases, attention of the owners of respective furnaces could be drawn over the telephone directly the offence was checked. The remaining cases had to be reported.

An analysis of these records of offensive emissions shows that 125 of these were from steam launches plying on the river, 70 from paddle steamers and ocean-going vessels berthed at the docks and wharves, 25 from stationary steam

(Continued on page 84)

Solving The Housing Problem

231001M

Rs. 105-crore provision in the Plan for Government-aided urban housing would result in the construction of 8,06,000 houses, said Shri K. C. Reddy, Union Minister of Works, Housing and Supply in his address before the Ministers Conference at Mysore. In addition, the Union and State Governments would build about 7,69,000 houses for their own employees, for coal and mica mines and plantation workers. The private sector was expected to put up 8,00,000 urban houses with an investment of about Rs. 800 crores.

Shri Reddy said that this development would not be enough. The shortage of houses in 1951 was 2.5 million and taking into account the new requirements, demolition and replacement of old houses, the shortage in 1961 was expected to be about 5.7 million units or twice as much as it was in 1951 when the First Plan started. This estimate was based on a rise in urban population of about 20.6 million during 1951-56.

The number of houses built during the First Plan period totalled 1.8 million.

Referring to rural housing, the Minister said that there were 5,58,089 villages with a population of 295 million and about 54 million houses to accommodate it. Nearly 50 million needed to be rebuilt or substantially improved. A larger number of villages had to be provided with wider streets, better drainage, school buildings, playgrounds and community centres. This would involve an expenditure running into several thousand crores of rupees.

Despite its staggering magnitude, the problem, he said, had to be tackled and results could only be achieved if the programme of rural housing were linked with the community development and national extension programme which was expected to cover the entire country in the Second Five-Year Plan.

SLUM CLEARANCE

Referring to the problem of slum clearance, the Minister said, "We must all give our most serious attention for it is one of the major challenges to our concept of a socialist pattern of society."

A sum of Rs. 20 crores had been earmarked during the Second Plan for slum clearance to provide 1,10,000 developed plots or tenements. Of this amount, Rs. 15 crores was to be given by the Union Government as their share of loan and subsidy and the State Governments had to find the remaining Rs. 5 crores as subsidy from their own resources. Out of the Union Government's share, Rs. 11.14 crores had already been allotted to the States and the remaining amount was available for allocation.

Shri Reddy also referred to the other Government housing schemes. He said that 68,452 houses were built and Rs. 25.88 crores sanctioned up to August this year under the subsidised Industrial Housing Scheme. The co-operatives followed closely by the industrial employers, had been the least enthusiastic in building houses. The progress could have been much better if only there had been a more determined approach all round to this problem of industrial housing.

Under the Low-Income Group Housing Scheme, the number of houses built up to the end of August this year was 18,512 while 18,168 units were under construction. A sum of Rs. 18.41 crores had been disbursed so far to the State Governments under this scheme. The Minister asked the conference to consider why more houses could not come up under this scheme.

HOUSING FINANCE CORPORATIONS

Referring to some of the measures necessary for expediting the construction of houses, Shri Reddy said that Government proposed to set up Housing Finance Corporations in various States. It was intended that these institutions would channelise into housing, funds drawn from the private sector as well as banks, investment companies and financial institutions supplemented by funds from the Life Insurance Corporation and the Employees' Provident Fund Account.

The Corporations would give long-term loans at a reasonable rate of interest. In this proposed scheme, the highest priority would be given to provide money for the acquisition and development of land to be made available to the builders on a non-profitable basis. It was also the intention that State Government would be asked to use Government land for the construction of houses meant for low-income groups as a part of their contribution towards their subsidy.

Shri Jayachamaraja Wadiyar, Governor of Mysore, inaugurating the conference, told the Ministers that as economics of housing was closely linked with the economic level and prosperity of the people they should devote their earnest attention, whatever might be their other preoccupations, to the task of housing and step up the tempo of house building activity.

"A clean and healthy house is an important element in the constitution of a happy home. If we make our nation an aggregate of happy homes we shall have gone far on the road to the contentment and happiness and improved the outlook of our people as citizens of the world."

—SMOKE NUISANCE

(Continued from page 83)

locomotives and 1,051 from chimneys of different land-based installations.

Fifty-five complaints were received from the public against alleged smoke nuisances during the year. The complaints were generally against small concerns, such as country smithies, eating houses, sweetmeat shops, etc., and in some cases against domestic chullas and gaseous fumes which do not come under the scope of the Act. Every complaint was duly attended and relief arranged wherever practicable. Where the Act did not permit of any tangible measure, the matter was referred to the local health authorities for necessary redress.

During the period under review the Commission had to prosecute 20 furnace owners for not complying with their directions in spite of repeated reminders.

[—From the Report of the West Bengal Smoke nuisances Commission, for 1955.]

CHARU CHANDRA COLLEGE TENTH FOUNDATION ANNIVERSARY CELEBRATED

The Tenth Anniversary of the Foundation of Charu Chandra College was celebrated on Wednesday, the 6th instant in a specially erected pandal at the Lake Maidan, South Calcutta. Hon'ble Minister Shri Prafulla Chandra Sen, President, College Governing Body presided over the function.

Shri N. K. Sidhanta, Vice-Chancellor, Calcutta University in his inaugural address expressed satisfaction for the speedy development of the institution from humble beginning in October, 1947. That was possible due to the munificent donations of the brother and the sons of late Charu Chandra Chatterjee after whom the College had been named and also for the sacrifices of the teaching staff. Dr. Triguna Sen, the Mayor of Calcutta and Rector, Jadavpur University distributed the prizes for meritorious results during the last ten years. Dr. Sen in his address said that the students had faith in idealism and an urge to know more and more.

Councillor Devaprosad Chatterjee, Secretary, of the College narrated in detail a history of the College since its foundation with only the morning session at Tirthapati Institution in 1947 with only 66 students and how passing through vicissitudes it had grown into a first grade college with 3,000 students at present on its roll. Dr. S. N. Roy, Principal said that B. Sc. classes could not be opened inspite of instant demand for want of accommodation.

Shri Sankardas Banerjee, Speaker, West Bengal State Assembly and Chief Guest of the function urged the students to be prepared to do hard manual labour. Service, he said, could not be provided for all who receive collegiate education inspite of the best endeavours of the Government. Dr. D. Chakraborty, Registrar, Calcutta University said that there were 70 colleges in West Bengal in 1947 whereas in 1957 the number is 138. He pointed out that no institution could expect help for indefinite period as the resources of the University and the Grants Commission are limited.

Shri P. C. Sen in his presidential address said that the number of students receiving collegiate education in West Bengal was much higher than those in even bigger states such as Uttar Pradesh, Bombay etc. He hoped that the College would be able to solve its immediate problems of space and finance and would continue to cater to the needs of South Calcutta so far as the question of higher education of the locality is concerned.

The function came to a close after a drama staged by the students and a variety programme of songs and dances by the Phillipine Cultural Delegation.

DR. CHARU CHANDRA CHATTERJEE TWELFTH DEATH ANNIVERSARY

Twelfth death anniversary of Deshakarmi Dr. Charu Chandra Chatterjee was observed under the auspices of Charu Chandra College and Charu Chandra Memorial Committee with due solemnity on November 5. Dr. Charu Chandra was a true

'Bhai Bon' At Kasba

render help to their neighbours said Dr. Triguna Sen, Mayor of Calcutta in a well-attended meeting organized at Chittaranjan High School, Kasba, when a centre of "Bhai Bon"—brothers and sisters was opened on November 10. The Mayor, Chief Guest of the function also said that little boys and girls should aim at doing what was considered to be helpful to others. They should protect themselves against infectious diseases.

Councillor Dr. Sukhbehari Mukherji, Chairman of the Standing Health Committee of the Corporation who presided over the function emphasized the need of taking protection against the fell disease like small-pox and he urged the gathering to help the vaccinators of the Corporation in their work when they call at their areas for work.

Councillor Raj Satyendra Mitra who represents the local citizens in the Corporation while offering the vote of thanks explained the need of such organisation for spreading education and upliftment of the people through cultural functions. He appealed to the Government as well as to the Corporation for financial help so that the movement may spread throughout the city.

Shri Sarat Chandra Ghosh, Secretary of the Chittaranjan High School said in his introductory speech that the "Bhai Bon" aimed at making the children true citizen so that they might build the country. Cinema shows and cultural functions were two main media of the organisation for such training, said he. He wanted that local people should help the organisation to grow.

Shri Bejon Kumar Gangopadhyay, director of the "Bhai Bon" explained the utility of such functions and he also arranged the cultural programme. Cinema show was also held. Among those present were Councillor Anil Maitra, Shri Provat Ghosh, Bhupati Pal, Lalit Ghosh, Sunil Ganguly, Santi Brahmachari and others.

social worker and he lived the life of dedication to the cause of the country. Wreaths were placed on his memorial tomb at Keoratolla Ghat by Shri Debaprosad Chatterjee, M.L.C., Charu Chandra College, Kamala Nari Siksha Sadan, Victoria Girls School and others. Pandit Shrinath Shastri recited from Upanishads, West Bengal Pradesh Congress Secretary, Shri Biswanath Mukherjee delivered a neat speech on the life and work of Dr. Charu Chandra.

A public meeting was held in the Lake Maidan in the evening with Dr. Protap Chandra Guha Roy in the chair and Shri Siddhartha Sankar Roy, the State Law Minister as Chief Guest. The State Cabinet Minister, Shri P. C. Sen garlanded the portrait of Dr. Charu Chandra. The President, the Chief Guest and the State Cabinet Minister, Shri P. C. Sen, Deputy Mayor, Shri Keshab Chandra Basu and other important and prominent persons present at the meeting paid eloquent tributes to the memory of Dr. Charu Chandra. Three 'kirtan' songs were sung by the famous artist Shrimati Chhabhi Bandopadhyaya.

HEALTH AND HYGIENE

Good Health And Good Citizenship

[By SANYASACHI]

CLEAN habits are helpful for good health and good health is correlated to good citizenship. The problems of health are in their final analysis the problems of citizenship. The mere practising the habit is not enough. If you practise it with satisfaction it builds but if you practise it with annoyance it tears down.

Our boys and girls should be taught to be strong and useful so that our country may become greater and better. Not only the clothes and the body should be kept clean but the mind should also be kept clean—to be clean physically, mentally and morally. Not only the harmful habits should be avoided but the healthful habits should be formed and should never be broken. Not only the bad foods should be avoided but such food, sleep and exercise should be taken as will keep one in perfect health.

It is the duty of the parents as well as the duty of the teachers to guide and direct the development of the child's character. Teaching is a guiding of forces rather than a compelling of the mass to take a certain shape. The environment has an influence on the development of the child including his mind and character. We must therefore do something positive and practical towards shaping the environment that the child is to absorb.

The method of education imparted to our boys and girls does not give them the moral and physical training required for good health and good citizenship. The system of fact learning and fact gathering does not help to acquire attitudes and ideals. The approach is merely intellectual, so that it never takes a root in their life or character. Knowing the number of bones in the body and their scientific names does not help in developing health knowledge or health habits. The study is rather casual and for the sake of merely passing the examinations. Nobody gains better health by the study and nobody suffers any more from not having studied it. The approach should therefore be realistic so that positive health habits may be formed. Being a good citizen means having one's character developed.

Not personal hygiene alone has to be considered but the home and the community are also involved. The home, the school and the State must work together to make it possible to have better and happier citizens. There is interrelationship between body and mind. Everybody should therefore keep in mind that he must make him strong—his eyes, his teeth, his heart, his whole being must be healthful, so that his mind can work properly. He must keep physically and morally clean. Cleanliness is rightly said to be next to Godliness for virtue never dwells along with filth.

The education given to our boys and girls in schools and colleges does not help to develop and build up character which is the keystone of success in life. Cramming has become the order of the day. Cramming may help to acquire some knowledge but surely that knowledge does not help to develop the realistic attitude towards life nor does it help to develop healthy habits and character. The rules of right living and thinking may not be imposed on them. The ideals may be placed before them through ways and means that appeal through their imagination. For their own good and for the good of the community and the country at large all must develop as strong, useful and physically and morally clean citizens.

The teacher is the most important factor of the school environment. The poor teacher can counteract the advantages of the finest buildings, best materials and text books. The good teacher can accomplish more with such aids, but even with serious environmental handicaps he or she can perform the unusual. The world's greatest teachers such as Buddha, Jesus, Shri Chaitanya and Shri Ramakrishna did not require any of the modern equipments of schools and colleges of to-day, they only required an opportunity to meet face to face those who wished to learn.

The first and foremost requisite of a good teacher is a wholesome personality. The word "personality" may be defined in many ways but all will agree that its chief characteristic is personal influence. Though this influence or power may be used for good or bad ends, yet it is this personality that counts. Teachers with offensive personality should not teach our boys and girls. Such teachers are likely to be harsh and unsympathetic, impatient and quick tempered. They prefer to indulge in reproaches and are often overcritical, sarcastic and crabbed in disposition. They inspire dread and fear and a dislike of the facts taught. This is too common in our schools.

Teachers with wholesome personalities are likely to win the confidence of their pupils, become their friends and help them to solve some of their personal problems of adjustment. Personality may depend to some extent on heredity but it can be cultivated.

The teacher should preferably be healthy, for a healthy teacher makes health attractive to the pupils. Health is also contagious as some diseases are. Health surely stands for personal attractiveness, brings energy and enthusiasm in carrying on teaching. Personality may be improved by healthy habits, cleanliness, neatness and good taste in dress which influence pupils. A sense of humour, fairness, love of the beautiful, serenity and reverence, all capable of cultivation, make an

(Continued on page 87)

International Dental Congress

Giving his impressions of the 12th International Dental Congress recently held in Rome to the Students' Union meeting of the Calcutta Dental College & Hospital, Dr. U. S. Malik, the Principal who along with Col. N. N. Bery represented the India Government at the Congress, described how it was a great success from every point of view. Dr. Carl Sebelius of the W. H. O. presided.

Dr. Malik said that about 8,000 dental surgeons from all parts of the world attended the Congress and it was a pleasure to meet so many noted personalities of the profession who had contributed so much to the advancement of the same.

They were given the warmest of welcome not only by the organisers of the Council but also by the Government and general public who were also anxious to know more about the latest developments of our country in various fields. The delegates from India, he said, were the only delegates who were given the singular distinction of having been televised along with the President and Secretary of the Congress.

Dental surgeons of different parts of the world discussed how they had revolutionised the dental operations making dentistry painless so that the patients remain smiling even through the most complicated of the dental operations.

Dr. Malik described how by the introduction of high speed drill and addition to water spray and compressed air on the hand piece, has completely eliminated the vibrations and unpleasant feelings to the patients so that he can now have his teeth filled up in a much shorter time and with no inconvenience at all.

The present drill revolves from six to twelve thousand revolutions per minute. But the high speed engine now revolves at the rate of 24000-100000 revolutions per minute. This will now save lot of chairside work for operative and prosthetic dentistry.

Describing the improvement in this field, Dr. Malik described how by the introduction of implant dentures, the process of fitting artificial teeth has been completely revolutionised.

A skeleton denture without covering much of the gum in lower and leaving the plate completely free in the upper infixed on these posts. The process takes a little time but is already servicing as a great boon to edentulous (Root Canal Treatment). Dr. Malik enlightened how by the introduction of poly antibiotic pastes, this treatment which formerly took months to complete can now be completed in two sittings with very successful results.

Describing the advantages of Fluoridation of teeth in countries where dental decay in children is

rampant, Dr. Malik said how by the addition of sodi-fluoride in the ratio of one part per milli of water has reduced dental caries by 40 to 60 per cent.

He said that India was fortunate in this respect that dental caries is no problem in this country as fortunately there is enough fluorine in our water supply and that is why caries of teeth is so little in this country.

In U.S.A., England, Australia, Newzeland where dental caries is very rampant and made the populations edentulous soon after the age of 20 to 25 years.

He briefly described his visit of Dental factories and institutions in West Germany, England, Scotland and France and gave a brief account of how the profession was marching forward in all its aspects giving relief and better health to the modern generation.

—GOOD HEALTH AND GOOD CITIZENSHIP

(Continued from page 86)

impression on boys and girls. More emphasis should be put on training for character and citizenship. Unless this is done, I am afraid, our progress as a nation will be slow.

The parents and the teachers who live healthy, clean and gracious lives, who laugh often and love much, who appreciate beauty and virtue are truly precious for they are the real moulders of destiny of our nation and nation does live in our children.

The system of education prevalent in our country does not fulfil the needs. It does not help to build up good health and good citizenship nor does it help to develop character which only can steer a man in the storms and gales of life. This system of education has to be thoroughly changed and the change does not brook any delay without disaster to our society and nation.

In the animal world we find that all other creatures except man live for themselves—theirs is an eat-drink-and-be-merry life. It is only man who lives for others—for his family, for his community, for his country. He gives more than he takes. But in the present day society we have the pains to see that the number of this type of men is on the wane and the number of self-seekers and pleasure-hunters is on the increase. It seems that the people who are better placed in society do care little for their less fortunate neighbours. The woes and wails of their poor neighbours do not move them. This is not manly. This speaks ill of the education and training they have received.

So we have to begin from the beginning. For good and healthy citizens our efforts should be to reorientate the system of education and change the environment under the pressure of which our children are being choked and crippled. Unless the future citizens are placed in a better setup congenial for their normal growth they may not blossom into flowers blooming and beautiful which are so rare notwithstanding the rapid growth in the population.

WEST BENGAL ASSEMBLY AND COUNCIL SESSIONS SUMMONED: The Governor has summoned the Legislative Assembly of West Bengal to meet at 5 P.M. on Monday, November 25, 1957 and the Legislative Council of West Bengal to meet at 10 A.M. on Friday, November 29, 1957, in the Legislative Chamber, Calcutta.

CITY NEWS PARADE

GURU NANAK: Under the auspices of the Shri Guru Singh Sabha, Calcutta, the birthday anniversary of Shri Guru Nanak Devji, the Founder of Sikhism was celebrated at Gurudwara Jagat Sudhar 31, Rash Behari Avenue, Kalighat from morning till midnight of 7th November, with great enthusiasm.

In the morning 'bhog' ceremony of continuous recitation of Shri Guru Granth Sahib was held at Gurudwara Jagat Sudhar while 'kirtan' of Shri Asa Di Var was conducted in the Park adjoining the Gurudwara. Speeches were made on the life and teachings of Shri Guru Nanak Devji by Giani Mehar Singh, Giani Sohan Singh Nital, Giani Waryama Singh and others. Free meals were served to about 20,000 people.

KARTICK MAHOTSAV: Two colourful Pareashnath processions of the Jain Community in celebration of the Kartick Mahotsav came out on Calcutta streets on November 7 with usual pomp and grandeur. One of the processions, with the deity of the Pareashnath mounted on a well-decorated chariot emerged from the Jain temple in Cotton Street, Burrabazar while the other from Bysack Street in the same locality.

As the processions with flags, festoons, banners and models passed along the streets, thousands of people lined up both sides of the routes to see them.

Apart from many items of interest, models depicting the legends associated with Mahabir formed a distinct feature of the processions.

The procession that came out from Cotton Street converged on the Dadaji Temple in Badridas Temple Street while the other went to the Pareashnath Temple in Belgachia Road.

LUNAR ECLIPSE: Lakhs of people congregated at different bathing ghats on the river Hooghly during the Lunar eclipse period and had their dips in the holy water on November 7, night. Numerous kirtan parties were out on the city streets and converged on the river-side singing devotional songs in accompaniment with musical instruments. There was a heavy rush of bathers at Dakshineswar bathing ghat.

Elaborate arrangements were made by the Corporation authorities and the Port Police in different bathing ghats. Paths leading to the ghats were well lighted and the bathers had no difficulty in their dip.

The Police launches patrolled in the river as a measure against any likely accident. Several divers were also posted at different bathing ghats as a precautionary measure.

Besides, volunteers of a number of social organisations extended their services for the convenience of the pilgrims.

INDIAN MUSEUM: The Government of India have decided not to split up the Indian Museum at Calcutta and to retain it as multipurpose museum.

The recommendation of the reviewing committee, set up in 1955 that only the scientific section of the Museum should be retained in Calcutta has not been accepted by the Government was disclosed by Dr. K. L. Shrimali, Minister of State in the Union Ministry of Education and Scientific Research.

OUTSTANDING BENGALI BOOK: The Sahitya Akademi of India adjudged Pramendra Mitra's

'Sagar Tasho Phara' as the most outstanding book published in Bengali during the three years, 1954-56, and has awarded a prize of Rs. 4,000 for it.

The Executive Board of the Sahitya Akademi which met under the chairmanship of Pandit Jawaharlal Nehru, also awarded prizes of Rs. 5,000 each to the other books in Hindi and other languages also.

CALCUTTA DEAF AND DUMB SCHOOL: The five-member Inquiry Committee set up by the Government of West Bengal under the Chairmanship of Shri Sankar Prasad Mitra, a former Minister of the State Government to make an inquiry into the state of affairs is said to have recommended to the Government the immediate reconstruction of the Managing Committee of the institution and abolition of the co-education system there.

It was also felt that a better representation of the State Government and the Calcutta Corporation should be made in the Managing Committee.

BIPIN BEHARY GANGULY: The 77th birthday anniversary of late Bipin Behary Ganguly, the eminent leader was celebrated under the auspices of B. pin Ganguly Birthday Celebration Committee on November 5. Shri Barindra Kumar Ghose, Editor, 'Dainik Basumati' presided over the meeting. Shri Bijoy Lal Chattopadhyay was the chief guest and Shri Sukha Ranjan Banerjee, Editor, 'Shahajogita', a Bengali Monthly, inaugurated the function.

Flowers were offered to the bust of late "Bipinda" by Shri Chandi Charan Banerjee and Shri Prodyot Narayan Sarkar, Joint Secretaries of the celebration committee. There had been a musical soiree conducted by Shri Rakhal Ganguly.

ATOMS FOR PEACE exhibition, depicting phases of peaceful atomic energy development through photographs, reactor models and motion picture, was opened at USIS auditorium, Chowringhee, by Shri Vivekananda Mukherjee, Editor, "Jugantar" on November 8. Dr. B. D. Nag Chowdhury, Palit Professor of Physics, Institute of Nuclear Physics was the Chief Guest of the function. The exhibition has been organised by USIS.

Welcoming the guests, Mr. Chester R. Chartrand, Director, USIS Calcutta said that the purpose of this exhibition—which would be open to the public daily during the next three weeks—was to bring to the people of Calcutta a graphic documentation of progress achieved in the development of the "peaceful atom". The exhibits, he explained, demonstrated current progress and the ever-widening scope of application of atomic energy to peaceful purposes. It would bring to sharp focus the truly remarkable achievements that U.S.A. was making in many fields of applied technology in a constant search to assure for all a richer, happier and more productive life.

Addressing the gathering, Dr. Nag Chowdhury said that atomic energy which was one of the greatest achievements of human mind had opened up to them a new source of power—a million times mightier than coal. Even the radio-activity produced in the process of atomic fission was capable of utilisation in numerous ways.

DESHABANDHU BIRTH ANNIVERSARY: The 86th birth anniversary of Deshabandhu Chittaranjan was held at Deshabandhu College Hall on November 5 under the presidency of Principal Jites Chandra Guha. Dr. H. N. Dasgupta, Prof. Suddha Satwa Bose and Pandit Kaitish Chandra Sastri spoke on the life and career of Deshabandhu. Teachers and students of the college and the school and others largely attended the function.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. I Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on the 22nd November, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the Cossipore Engineering Department (Engineering Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be issued in submission of the tender.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

48. Construction of culvert at K. P. Singh Road (W-3)—Rs. 4,706/-, dated 7th November, 1957 (1 month).

49. Repairs to footpath at Dilwaranj Road (W-3)—Rs. 4,340/-, dated 7th November, 1957 (1 month).

50. Providing passage to tube-well pumping station at Umakanta Sen Lane (W-4)—Rs. 612/-, dated 7th November, 1957 (1 month).

51. Providing tree-guards at Indra Bis was Road (W-5)—Rs. 475/-, dated 7th November, 1957 (1 month).

52. Repairs to footpath at Cossipore Road near Gunfoundry Road (W-1)—Rs. 4,082/-, dated 7th November, 1957 (1 month).

53. Construction of Surface drain or sewer to stop overflowing in the compound of Tallah Pumping Station—Rs. 2,971/-, dated 7th November, 1957 (1 month).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

S. MITRA,
District Engineer I.

DISTRICT I ENG'G. OFFICE:
The 12th November, 1957.

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on the 19th November, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer II's Office. (Estimating Section) The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of the tender.

The successful tenderer will have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of

failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the Authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

26. Maintenance of sewer by changing S. W. Pipe including providing G. P. L. H. and M. H. in Bhawani Dutta Lane and Nawab Badruddin Street and Giri Babu Lane, Ward No. 8—Rs. 2,926 dated 5th November, 1957 (1½ months).

27. Repairs to privies of C. S. Market in G. F. Ward No. 8—Rs. 2,068/- dated 5th November, 1957 (1 month).

28. Repairs to kitchen of Jamadars and Peons of C. S. Market—Rs. 976/- dated 5th November, 1957 (3 weeks).

29. Maintenance to footpath of C. R. Avenue from the junction of Mechua-bazar Street to Ratu Sarkar Lane—Rs. 4,179/- dated 8th November, 1957 (2 months).

30. Maintenance to footpath of Sambhu Chatterjee Street, Constituency No. 23—Rs. 2,624/- dated 8th November, 1957 (1 month).

31. Maintenance to footpath of Tara-chand Dutta Street from the junction of Chitpore Road up to the junction of C. R. Avenue—Rs. 2,569/- dated 8th November, 1957 (1 month).

32. Maintenance to footpath of Nawab Badruddin Street and Ramohan Street—Rs. 2,271/- dated 8th November, 1957 (1 month).

Please note that the words "two months" as printed in italics in clause 8 of the tender form, is to be scored and noted in ink as "three months" and initialled in case of above Rs. 1,000 only.

S. MUKHERJI,
District Engineer II.

DISTRICT II ENG'G. OFFICE:
The 9th November, 1957.

District No. IV, Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 26th November, 1957, up to 2 p.m.

The abstract of the estimate can be seen at the above Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

74. Supplying rubbish and bamboo piling at Ramghar and Paddapukur Road in Const. No. 80, Tollygunge—Rs. 518.00, dated 12th October, 1957 (4 weeks).

73. Improvement of Bainsakhata Lane and Jadavpur South Road by rubbishing in Const. No. 80, Tollygunge—Rs. 1,45,500, dated 12th October, 1957 (8 weeks).

Please note that words "two months" as printed in italics in Clause 8 of the

tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of works valued above Rs. 1,000/-.

A. C. SINHA,
Actg. District Engineer IV.
DISTRICT IV ENG'G. OFFICE:
The 5th November, 1957.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on Monday, the 25th November, 1957, up to 2 P.M.

NOTICE

To all whom it may concern, that an application has been received from (1) Shri Madan Mohan Adak, (son) (2) Smt. Thanda Bala Dasi (wife) for self and as natural guardian of the minor son, Shri Chandi Charan Adak for the registration of their names in place of Rampada Adak (deceased) in respect of Stall No. 2, Potato Range, Gariahat Market.

Objections, if any, to this application should be submitted to the undersigned within 30 days from date hereof.

K. C. LAHIRI,
Superintendent.

GARIAHAT MARKET:
The 6th November, 1957.

CORPORATION NOTICES—Contd.

TENDER NOTICE

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 Noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for.....". For specifications and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

1. Supply and delivery of tyres, flaps and tubes for motor cars and motor lorries for the year 1958-59. (Earnest money Rs. 1,500/-).

2. Supply and delivery of 2 in. to 3 in. gauge Trap, Basalt or other equally hard, tough stone ballast for asphaltum pavement of roads during the period of one year from 1st April, 1958 to 31st March, 1959. (Earnest money Rs. 2,000/-).

3. Supply and delivery of sand required for Asphaltum pavement of roads from 1st April, 1958 to 31st March, 1959. (Earnest money Rs. 1,000/-).

Tenders for 1 and 2 will be opened on 26th, and for 3 on 27th November, 1957. The rates quoted in the above tenders are to hold good for three months.

B. GHOSH,
Secretary.

CENTRAL MUNICIPAL OFFICE :
The 9th November, 1957.

Renaming of Road

It is proposed that Bediadanga Road in Ward No. 76 be renamed as Dr. Girindra Sekhar Bose Road.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Thursday, the 12th December, 1957.

A. BHATTACHARJEE,
Assessor.

CENTRAL MUNICIPAL OFFICE :
The 7th November, 1957.

Notice

Notice is hereby given for the information of the public that the Corporation of Calcutta at its meeting held on the 23rd August, 1957 in exercise of the powers vested in it in this behalf, has considered it expedient to prescribe the alignment for widening the narrow portion of the public passage running between premises Nos. 33, 33/1 and 33/2, Satish Mukherjee Road on one side and 29A,

31B, Satish Mukherjee Road and 122/1M, 122/LJ, Monoharpukur Road on the other to a width of 20-ft. under Section 356 of the Calcutta Municipal Act, 1951.

Any person having any objection to the same should submit it in writing so as to reach the undersigned on or before the 31st December, 1957.

A copy of the plan showing the alignment proposed to be prescribed may be seen in the Chief Valuer and Surveyor's office between the hours of 11 A.M. and 2 P.M. on all working days.

B. K. SEN,
Commissioner.

CENTRAL MUNICIPAL OFFICE :
The 5th November, 1957.

Renaming of Lane

It is proposed that Balu Hakkak Lane in Ward No. 59 be renamed as West Lane.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Saturday, the 14th December, 1957.

A. BHATTACHARJEE,
Assessor.

CENTRAL MUNICIPAL OFFICE :
The 11th November, 1957.

Sir Stuart Hogg Market

NOTICE.

To all whom it may concern, that an application has been received from Shri Kishin Chand for the registration of his name as half partner in respect of Stall No. 65 in the Block "G" of the S. S. Hogg Market.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Offg. Superintendent.

S. S. HOGG MARKET :
The 9th November, 1957.

NOTICE.

To all whom it may concern, that an application has been received from Shri Lokuwal for the registration of his name as half partner in respect of Stall

No. 66 in the Block No. "G" of the S. S. Hogg Market.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

S. M. MURSHED,
Offg. Superintendent.

S. S. HOGG MARKET :
The 9th November, 1957.

CALCUITA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

CIVIC RECEPTION TO ECAFE DELEGATES

THE southern wing of the Central Municipal Office Buildings assumed a gala appearance befitting a festive occasion on last Saturday evening when the Mayor Dr. Triguna Sen accorded a Civic Reception to the delegates to the Conference of Economic Commission for Asia and the Far East in the Councillors' Club Room decorated with flowers and foliage of variegated colours.

Delegates representing Afganistan, Australia, British Borneo, Burma, Cambodia, Ceylon, China, France, Germany, (West), Indonesia, Japan, Malaya, Netherlands, Phillippines, T. A. A., Thailand, U. N. T. A. B., U. K., U. S. A., U. S. S. R., U. N. Carto Section and India attended the reception. Many of the Aldermen, Councillors, Associated Members and Corporation Officials were present on the occasion.

WELCOMING the delegates the Mayor said that they had been able to prepare the geological map of Korea, Japan, Phillippine and British Borneo within a short period of three years. Afganistan had also a commendable progress in that direction. He was sure that as a result of this they had made many significant discoveries. He was happy to learn that the International Geological Congress were preparing the geological map of Europe and South America and had also published the maps of African countries. Unfortunately, the Mayor said, no such map was yet available for Asia or South East Asia.

The Mayor on his own behalf and on behalf of the citizens of Calcutta thanked the Geologists for their sincere efforts for preparing a comparative geological map of this area which would provide a cue for further research and exploration leading to the improvement of the living conditions of the people.

Replying to felicitations on behalf of the delegates the U.K. Geologist, Mr. A. F. Maddocks

thanked the Mayor and the Corporation of Calcutta for the cordial reception accorded to them. He hoped that under the able guidance of the Mayor the city of Calcutta, a big industrial centre of the East would prosper and the people would have enough fresh air to breathe.

The Conference of ECAFE which was invited by the Government of India had just concluded its important deliberations in Calcutta.

Earlier the delegates of the ECAFE were entertained at tea parties by Rai Bahadur M. G. Bungta, Chairman, Mineral Sub-Committee of the Bharat Chamber of Commerce at Scherazade Garden, Grand Hotel and by Shri S. C. Bose, President, Utkal Mining and Industrial Association at Great Eastern Hotel.

The Asian Geologists, as a part of their programme, left on a study tour of West Bengal and Bihar.

THE CORPORATION AT WORK

A GIST OF THE PROCEEDINGS OF THE TWENTY FOURTH ORDINARY MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 15TH NOVEMBER, 1957.

OBITUARY

On a reference by the Mayor, Dr. Triguna Sen, the House deeply mourned the deaths of Dr. Adityanath Mukherjee and Dr. Kunjeswar Misra—both eminent citizens of Calcutta and observed two minutes' silence as a mark of respect to the departed.

DRIVE AGAINST UNAUTHORISED KHATAL AND ADDITIONAL MILK SUPPLY

The Mayor informed the House that arrangement had already been made to augment the supply of milk in Garcha Lane area in South Calcutta where the Corporation had launched a drive against unauthorised khatal as sequel to which a large number of cattle had been seized and impounded in the midnight of November 18. The Mayor said that the Milk Commissioner had increased the supply of milk from Haringhata to the existing Sale-Depots at 49, Garcha Road and 44/1, Hazra Road. Milk supply has also been arranged through mobile vans. The Milk Commissioner has further assured opening of new Sale-Depots in the locality when accommodation would be available.

FREQUENT RAILWAY ACCIDENTS

Councillor Dr. Sukhabehari Mukherjee, Chairman, Standing Health Committee while expressing concern over the repeated occurrences of Railway accidents on the Eastern Railway during the last fortnight drew the attention of the Mayor to the inefficient management of the Railway administration and requested him to move the Central Government to enquire into and take necessary steps for prevention of such accidents.

EXTRA CHOLERA BEDS

The House, on the recommendation of the Standing Health Committee sanctioned expenditure amounting to Rs. 65,487 for opening and maintaining extra cholera beds in different hospitals, viz., (1) Nilratan Sircar Hospital, (2) R. G. Kar Hospital, and (3) Chittaranjan Hospital.

RENAMING OF STREET

Accepting the recommendations of Borough Committee No. 5, the House renamed Doyehatta Street in Ward No. 24 extending from Sir Hariram Goenka Street opposite Sree Sree Pareshnath Digambar Jain Temple upto Burtolla Street as Digambar Jain Temple Road. The House referred back to the appropriate Committee a similar proposal of renaming Dharamtala Street from junction of Wellington Street up to Lower Circular Road as Dr. Bamandas Mukherjee Street. In this connection, Councillor S. K. Gupta, Chairman, Calcutta Improvement Trust said that the History of Old Calcutta by late Harihar Sett referred to by the Assessor with regard to the origin of the name of Dharamtala was not very authoritative as it was full of contradictions. Shri Gupta also reiterated his objections to this half-hazard manner of changing names of streets.

CONSERVANCY LORRIES

Councillor Samar Rudra and Dr. Lalmohan Bhattacharjee while speaking on matters of public importance drew the attention of the Mayor to the system of purchasing new chassis for conservancy lorries without having their engines duly examined by experts. They alleged that due to supply of defective chassis adequate number of lorries could not be made available and as a result the work of garbage clearance suffered. The Mayor in a statement before the House said that henceforward two experts would check up defects in each and every newly purchased lorry and payment for the lorries would be made after their approval. In this connection he also suggested that conservancy service should be decentralised. The Mayor opined that the Standing Works Committee would look into the matter.

VIEWS AND REVIEWS

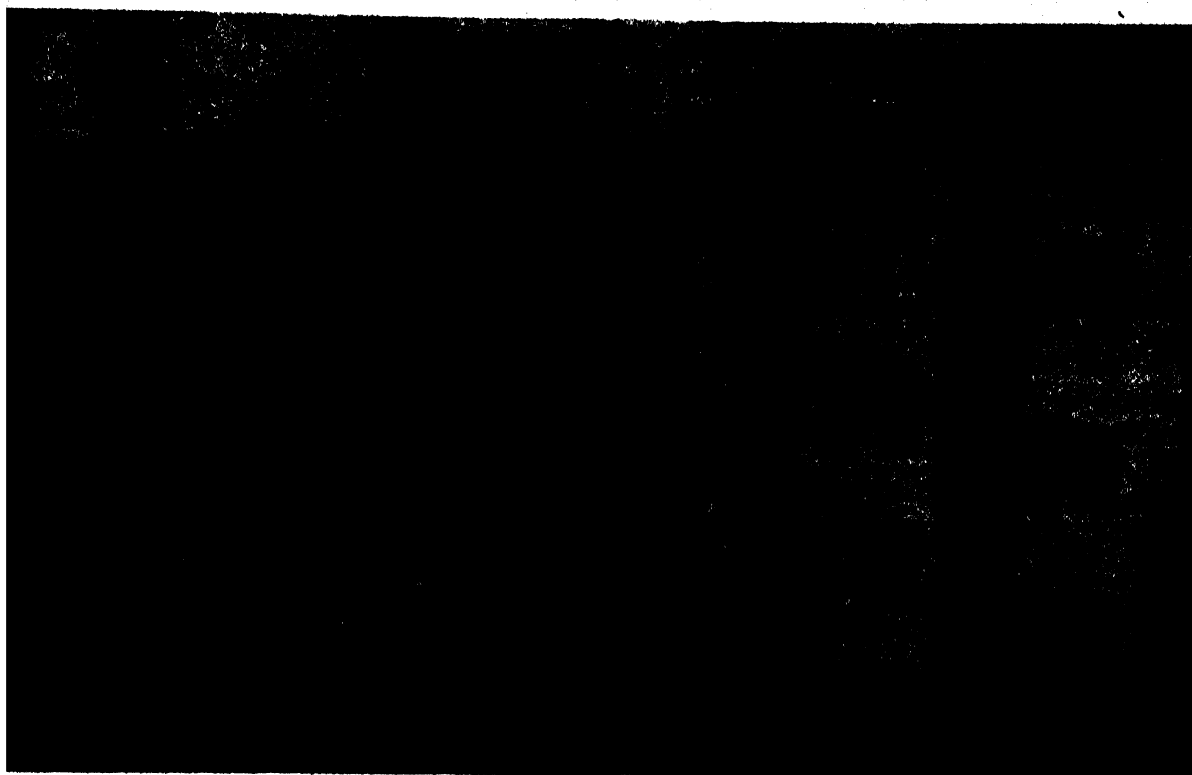

HONOUR FOR CORPORATION EMPLOYEES

On the occasion of the eighth anniversary of Territorial Army day this year which was held on the 16th November, prizes were awarded by the Government of West Bengal to some of the men for attendance, efficiency and skill and it is gratifying to learn that one of the employees of the Corporation, Shri Kanai Lal Banerjee, Electrician, Entally Workshops, has received a Wrist Watch as an award for best attendance. Shri Banerjee belongs to 929 Engineers, E & M Company of the Territorial Army. There are about one hundred Corporation employees in the Territorial Army and one of them has secured the honour for his diligence and sense of discipline. It is no mean endeavour and all of us should emulate this ideal for service. We must also add that the sense of discipline, obedience, alertness and many other qualities are inculcated in a man through this part-time military training which is so very essential in building a nation. About one hundred employees of the Corporation lost no time in enlisting themselves for the training but more should come forward to join the Territorial Army.

We are also glad to announce that Shri Sourindra Nath Roy Chowdhury, M. S., of the Mosquito Control Department of the Corporation who is in the 118 Infantry of the Territorial Army was selected as one of the best men along with twenty nine others from among the Calcutta Unit of the Army for participation in the Military Tattoo at Madras, but subsequently he could not join the group as the number selected for the purpose was reduced.

KANAI LAL BANERJEE

Panoramic view of some of the four-storeyed blocks of buildings constructed by the Improvement Trust in Beliaghata.

BLOCK—BY COURTESY, CALCUTTA IMPROVEMENT TRUST.

The Operations Of The Calcutta Improvement Trust During 1955-56

[SHRI NRIPENDRA KUMAR GUPTA]

ONE naturally feels considerable hesitation in offering his comments and criticisms on the operations of the Trust, because we have already left a year and ten months behind us. Many things may have occurred after the period under review, which are calculated to make these comments and criticisms stale and unmerited. I am therefore left to try to make the best of a bad job, and I have hopes that the worthy Chairman of the Trust will not take anything amiss.

The things which have most gladdened my heart are the pictures of the Rehousing scheme buildings. In the first place, we have a view of the 4-storeyed building in Christopher Road (Scheme XXXVR). The building has 8 flats each, consisting of 3 rooms, a verandah, kitchen and bath and lavatory. There is also a panoramic view of 11 blocks of four-storied building (Rehousing Scheme No. II) in Beliaghata, forming part of the Subsidised Industrial Rehousing Schemes. The third picture is a side view of the four-storeyed blocks of buildings (Bustee Rehousing Scheme No. I) at the junction of Madan Chatterjee Lane and Rajendra Mullick Street (Singhee Bagan). There are 8 blocks of buildings containing 124 units of tenements each, consisting of two bed rooms, verandah, kitchen, bath and lavatory. These tenements will be a source of great relief to the low income groups among the poorer middle classes at Calcutta.

Up-to-date, the Trust has spent nearly a crore of rupees in rehousing schemes (to be exact, Rs. 96,78,281), of which more than half has gone to meet the cost incurred in (a) Rehousing at

Christopher Road and (b) the Singhee Bagan Scheme. I have no hesitation in offering my hearty congratulations to the Trustees and the Chairman of the Trust in this regard.

FINANCES

The Trust's financial position remains thoroughly sound. It has been able to redeem nearly all high-interest bearing Debentures including £ 1050,000 sterling loans. The face value of these two, and two rupee Debenture Loans was Rs. 22,850,000. The only remaining high interest-paying rupee loan (5½ per cent Debenture Loan of Rs. 25 lakhs) will be redeemed in 1959. Already the amount paid to the Sinking Fund in respect of it is Rs. 20,86,862. Out of Rs. 892,00,000, outstanding at the end of 1956, the Sinking Funds have collected already Rs. 166,22,000. Considering the fact that Capital Expenditure stood at the end of 1955-56, at Rs. 28,62,89,200 in round figures, the amount spent from Debenture Loans is Rs. 599,50,000 only or just about a fifth. One may truly say that it is insignificant in relation to the huge total expenditure. The annual charge on the Loans however is a pretty round sum,—Rs. 13,80,000 by way of interest, and Rs. 12,87,627 by Sinking Fund, and Management expenses,—a total of Rs. 26,67,627.

REVENUES

Revenue receipts during 1955-56 were Rs. 78,58,489, of which more than half was derived from the Calcutta Corporation's annual contribution (Rs. 39,16,975). The terminal tax has increased, and stood at Rs. 847,798. The duty on

jute Rs. 646,868, as a source of income will tend to become less helpful, as half of it will have to be refunded to the Howrah Improvement Trust. The expenditure on Revenue A/c was Rs. 58,85,777 leaving a surplus of Rs. 20,23,862. Up to the end of 1955-56 the surplus on Revenue account has amounted to Rs. 7,97,56,648, out of this amount no less than Rs. 655,26,581 has been advanced for Capital Expenditure. Indeed the total expenditure on capital account to the end of 1955-56 (Rs. 28,62,89,207) has been met in the following manner:—

	Rs.
Capital income to 31-3-56 ...	16,05,12,678
Advance from Revenue ...	6,55,26,581
Loan Proceeds ...	5,99,50,000
Total ...	28,62,89,207

CAPITAL INCOME

This income is derived, year by year, from sale proceeds of surplus lands, sale of buildings and old materials, exemption and betterment fees, and subsidies from the Central Government, in respect of Industrial Housing Projects. Proceeds of Debenture Loans, as and when raised, are taken into account in assessing capital income. Considering the fact that in 1941-42 the sale proceeds touched as high as Rs. 90,88,959 (a record) the proceeds in 1955-56 viz. Rs. 19,56,058 was a mere trickle. As at 31st March, 1956, the Trust had no less than Rs. 77.27 lakhs worth of surplus lands in hand. Trust's main surplus lands are situate in the Manicktala area, but buyers are few due in the main to three causes:—

- (1) insufficiency of water supply arrangements by the Calcutta Corporation.
- (2) distance from business centres.
- (3) totally insufficient transport facilities.

If the Corporation pushes through its deep tube well schemes in right earnest, this problem will be greatly mitigated if not solved altogether, (2) and (3) go together. The Trust should form the State Transport Department for opening new routes and adding to the number of buses already plying in the existing routes. With greater punctuality and frequency, and some facilities in fares, this problem can be met. I believe once these three grievances are removed, buyers will flock to the area, as it is being developed on magnificent lines with broad roads, underground sewage, and a lake, which when completed, with surrounding grounds and playing fields, will be an ornament to the city. The lake so far excavated was 78B. 17K. and 10 Chittaks upto the end of 1955-56. I would earnestly request the Trustees to increase it to at least 125 Bighas. The excavated earth is really required to raise the level of this low-lying marshy area, and to fill up insanitary hollows and tanks of which there still remain a very large number. The Dhakuria Lake is 245 Bighas in area. As regards lands, (Dhakuria Lake lands), I think the time has come to force the Refugees, in illegal occupation, to remove to the magnificent barracks built for them by the Refugee Rehabilitation Department at Ganguly Bagan and Poddar Park in the Tollygunge area, and thus enable the Trust to take possession of the land and sell them at high profit.

PARKS AND CHILDREN'S PLAYING GROUNDS

I never tire of praising the Trust authorities, contribution to the amenities of this city in the respect of parks and open spaces. Although the city is still very backward, the Trust has done a lot already in this respect. In the forefront, stands the beautiful Dhakuria Lake,—a bright and detectable area, where people flock to breathe the pure and bracing air blowing from the south. The Calcutta Corporation is yet to take charge of this lake. The large parks taken over by the Corporation are:—Chitpore-Cossipore Open Space (156 Bighas); Deshabandhu Park at Shambazar (58 Bighas); Eastern Park in Karaya (78 Bighas). 42 small parks, including children's playing ground, have been completed. Only 8 remain to be taken over by the Corporation owing to some work being incomplete in them.

CHILDREN'S PLAYGROUNDS

I must utter my vehement protest against the niggardly measure adopted by the Trustees in respect of these playgrounds. At P-XXIX (Capital Account—Expenditure), I find that so far only Rs. 247,566 has been spent in acquiring land for children's playground. It is a common sight to see teen-ager and even toddling children playing on footpaths and adjoining roadways, at a considerable risk to their lives and also causing considerable annoyance to passers-by. I would ask our live-wire Chairman to pay serious attention to this problem.

THE INDUSTRIAL HOUSING SCHEME II BELLIAGHATA

I am indebted to the kind Editor of the "Calcutta Municipal Gazette" for sending me a copy of the illustrated brochure specially written by S. K. Gupta the Chairman about the above. His narrative, in which, with an admirable economy of words, he refers to the obstructive attitude of the Central Government towards the scheme, displaying gross ignorance of the Central Ministry of Works officials regarding conditions ruling in Calcutta, leaves one with a bitter taste in the mouth. These "subjantas" presume too much, and pose as experts in everything, often without an elementary knowledge about the difficulties which the execution of big schemes entails. They wasted time between April 1950 when the scheme was first mooted, and September 1954 when at last they announced their approval for nothing. It is a study in official cussedness.

I fail to find any justification of the Centre's contribution of only one-third to the big cost of undertaking—viz. Rs. 86,26,207. They should have met at least 66 per cent of the cost. I have no hesitation in congratulating the Trustees and their Chairman on an achievement, which is truly unique, in bringing to a successful termination this big project more or less within the scheduled time. Altogether 556 flats have been built. From the plan in the brochure, I find each flat consists of a bedroom 12 ft. by 10 ft. with a 6 ft. wide balcony, a kitchen 8 ft. by 6 ft., a small cubicle for storing fuel, a W. C. 4 ft. by 5 ft. and a bath 5 ft. by 4 ft. Ample privacy has been ensured. There is also a verandah 4 ft. wide. Each block has an overall length of 85 ft. 10 in. with an entrance 9 ft. wide separating two sets of flats

(Continued on next Page)

SCOPE OF EMPLOYMENT

An analysis of the local employment situation in different parts of the State reveals the possibilities as inherent in the various projects both in the public as well as private sectors, says a Report of the Directorate of National Employment Service, West Bengal, for September, 1957. At Durgapur, the progress in the erection of factories is promising employment opportunities in an ascending scale. In Barrackpore area also, a number of industrial units is due to start operations in the near future, offering thereby employment opportunities on a substantial scale. In Asansol area, employment opportunities in the private sector are very promising. The Employment Exchange is not in a position to take the fullest advantage of the situation on account of inadequate co-operation from the industry, a case which probably underlines the necessity for some sort of compulsory measure to induce the private sectors to notify vacancies to Employment Exchanges.

The overall employment situation in the Calcutta region appeared to have received a considerable set-back particularly in the public sector. Imposition of restrictions on import, agitation against rising prices of essential commodities, agitation for Puja Bonus and the continuing strikes in Banks mainly accounted for the decline of the employment market. The situation in North Calcutta deteriorated considerably during the month. The employment situation in the South Calcutta Exchange area did not indicate any change during the third successive month. Contacts were being made to explore the available employment potentialities in the area of the Sub-Regional Employment Exchange, Kidderpore. The employment position in Kidderpore in general remained unchanged. In spite of restriction on import, employment prospects were discernible only in the Calcutta Port Commissioners and the Engineering industries. The situation in the public sector and Cotton and Jute Industries remained dull as usual.

Widespread shortages persisted during the month in respect of Tool Room Fitter, Power Press Operator, Ivory Designer, Pottery Modeller and Designer, Textile Designer, Weaver, Die-Fitter, Miller, Structural Draughtsmen, Structural Fitters, Markers, Template Makers, Overseer, Electrical Foreman, Electrician (maintenance), Road Roller Driver with licence, Scheduled Tribe Compounder, Auto-Electrician, Mobile Crane Driver, Fork-lift Driver, Borer, Miller, Core-Maker, Draughtsmen (Civil), experienced Mechanical and Electrical Engineers, experienced Chemist, Botanists and Archologists, Scheduled Cast Instrument Mechanic and Surveyors.

There was also a dearth of personnel in the categories of trained Nurses, passed Compounders, Midwives, trained Teachers, good Stenographers, fast Typists, Schedule Caste/Tribe Teachers, Science Graduate with knowledge of Hindi and Graduate with good knowledge of Tibetan language.

SURPLUSES :

Widespread surpluses were reported in respect of Inspectors (administrative), Doctors, Fitters (general), Motor Mechanics, Electricians and Wiremen without licence, Radio Mechanics, Telegraphists, Wireless Operators, Motor Drivers (with new licence), Compositors, Turners, Welders (Gas & Electric), Blacksmiths, Hammermen and Carpenters.

Supply was in far excess of demands for clerks (fresher), semi-skilled and unskilled workers for offices and factories.

REGISTRATION :

As many as 15,781 registrations were effected by the Employment Exchanges in the State during the month, as compared to 19,861 during the previous month thus recording a decrease of 3,680. The fall in registration was mainly noticeable in Calcutta, Kidderpore, Howrah, Asansol and North Calcutta Employment Exchanges. On the other hand a slight increase was observed in Barrackpore and Durgapur Exchanges.

THE OPERATION OF THE CALCUTTA IMPROVEMENT TRUST DURING 1955-56

(Continued from Previous Page).

on each side and a staircase. The Chairman says with justifiable pride that the entire sets of buildings which abut on the Beliaghata Canal, and lie east of the Chaulapatty Road, are in direct line with the prevailing southern breeze for better ventilation. It is a bare act of humanity to offer sanitary and fairly comfortable accommodation, to the hard working labourers, whose painful march between life and ultimate death is as full of misery and frictions.

THE PROGRESS MADE HITHERTO

At the end of the year 1954-55, the Trust had made over to the Calcutta Corporation 88.23 miles of completed roads, with an area of 25,81,110 sq. yds. There were a further 17.80 miles in hand, so that the total has now topped 100 miles. The number of schemes in the main city area so far undertaken, is 66, besides 8 schemes in the Manicktala Area. This is in addition to the Re-housing Schemes, Lakes and Parks which I have referred to, in detail above. To a student of town-planning, the Trust's activities are of perennial interest. But the number of citizens who are fully aware of the great work done by the Trust will not exceed 5 per cent. We are a languid, sleepy nation, without true civic sense, hopelessly inert and unimaginative. I am sure by this time the Editor must have become restive, for the length of the article is perhaps inconvenient for him. But I must conclude, by saying that I wish I were given the space to comment on the various other problems with which the operations of the Trust bristles. I am a lover of my great city, and any one who contributes to its progress and beautification is one for whom I would naturally cherish warm feelings.

Town Planning In India **CALCUTTA LOOKS AHEAD**

ADDRESSING the sixth autumn planning seminar on "industry and planning" under the auspices of the Institute of Town Planners, India, Mr. Fayazuddin said some time ago "What demands our immediate attention is the relation which must be established between the town as a whole and the surrounding country. The countryside must be protected against uncontrolled expansion of our cities. The harmonious organisation of space in towns and cities demands above all a systematic distribution of the districts on scientific lines. The systematic introduction of greens, is a modern element of present day town planning."

"All these objects," Mr. Fayazuddin said, "can only be achieved effectively if there is a proper administrative machinery which could control and co-ordinate the execution of a national policy with respect to all the activities which affect the use of land. This is only possible by the creation of a Central Ministry of Town and Country Planning and Housing".

About 80 town planners, planning officials, engineers, architects and sociologists from different States, besides representatives from the Planning Commission, the Union Ministry of Housing and Community Development Administration attended the seminar.

Mr. Fayazuddin warned against "Political influences" hampering execution of essential town planning schemes. He regretted that the local autonomous bodies, vested with vast powers, had not fulfilled their obligation of carrying out town improvement and development schemes.

He said, "It is high time for town planners and administrators to move the authorities for a probe into the affairs on the local bodies and devise ways and means for regulating improvement and development schemes of our squalid and over-congested towns on the basis of a master plan prepared and approved in advance."

He referred to what he described as "cheap hero-worship" by installing statues of patriots and great leaders in "petty roundabouts and traffic controls" and said it only reflected lack of aesthetic sense of the citizens. He said it should not be allowed by the local bodies without approval of experts responsible for city planning and civic design.

He suggested that the statues should be removed and placed in parks and public gardens. He regretted that in spite of instructions issued by Government of India, no action had been taken by the State Government in this respect.

Shri Bir Chand Patel, Bihar's Food and Health Minister, who inaugurated the seminar, urged architects and town planners to review the progress of town planning schemes in the State. He suggested preparation of an integrated regional plan for Chotanagpur plateau for the balanced development of the area and proper utilisation of all natural resources based on a sustained yield basis.

Shri C. C. Chandrasekhara, Honorary Secretary of the Institute of Town Planners said the

SLUM CLEARANCE

Houses built under the slum clearance scheme part-financed by the Government of India will in future have separate baths and w.c.s for each family.

At present a group of families has to share a bath and a w.c. in such houses.

The standard costs of various types of houses that can be built under the slum clearance scheme have been revised in view of the rise in the cost of building materials and labour, as well as to provide for separate baths and w.c.s. for each family.

In places other than Bombay and Calcutta where construction is through self-help method, the standard cost of a plot per family living in a slum will now be Rs. 900/- and Rs. 1,250/- instead of Rs. 700/- and Rs. 1,000/- respectively, depending on the land costs obtaining and the standard of development adopted in various towns or at different places in the same towns.

In Bombay and Calcutta, the standard cost will be: single-storey one-room Rs. 4,600; double-storey one-room Rs. 4,850 and multi-storey one-room Rs. 6,000. Construction of single-storey one-double-storey houses will be permitted in Bombay and Calcutta only in case multi-storey houses cannot be contemplated due to special reasons such as low-bearing capacity of the soil.

An increase in rent up to Rs. 8.50 per month per house in the Bombay State and the Calcutta industrial area has also been allowed.

Under the slum-clearance scheme, 50 per cent. of the total amount is given by the Centre to the State Governments as Loan and 25 per cent. as subsidy. The balance of 25 per cent. is provided by the State Governments as matching subsidy.

FAMILY PLANNING

A Family Planning Centre at Upendra Nath Mukherjee Memorial Hospital, Beliaghata, was opened by the Deputy Director of Health Services, Dr. Mrs. Anila Banerjee, Dr. B. B. Sen, Secretary of the Governing Body and of the Hospital welcomed the guests and dwelt upon the history and development of the hospital and referred to the able guidance of the late Dr. D. N. Mukerji and the late Dr. B. K. Ray, who amongst others were responsible for the growth of the Institution. Shri Hemendra Prosad Ghosh then spoke about the importance of this hospital in this locality.

Then the President, Dr. A. B. Roy, Minister for Health, West Bengal in a neat little speech hoped that the family planning centre opened by Dr. Mrs. Banerjee will be a boon to the people.

Institute had prepared a model town planning legislation which had been circulated by the Central Government to the various State Governments.

He hoped the model would pave the way for enacting proper town planning legislation in the various States and thus provide the necessary legal tool for the town planners.

CANCER

DETECTION AND PREVENTION

Cancer is the second greatest killer of mankind, the first one being heart disease.

Cancer is known since the days of Ayurveda Charaka and Shushruta. It is also known during the days of Galen and Hippocrates.

Cancer is common all over the world. The following tables give the incidence of cancer corresponding to the population :—

	U.S.A.	India
	millions	millions
Total Population (1951)	170	350
Total Death	2	6
(12 per mile)	(25 per mile)	
Cancer Deaths	200,000 (1951)	200,000
	(at 2.5 per cent.)	

Country	Population	Cancer death Per year
England and Wales	48,880,000	85,270
U.S.A.	170,000,000	200,000
France	41,944,000	72,621
German Federal Republic	42,695,672	80,841
Italy	86,279,523	49,607
Japan	88,200,000	64,428
Norway	3,208,988	4,884
Spain		20,919
India	350,000,000	200,000

Cancer does not respect any age although it is commonest after 40.

Age at Death	Number of persons dead
1	65
5	227
40	2,796
50	7,235
60	11,548
75	11,886

Cancer can be found anywhere in the body but in India it is very common in the uterus, in the mouth, in the foodpipe, in the throat and also in the liver.

Is Cancer on the increase? In the Western countries, as the average life expectancy is increasing, the incidence of Cancer is also increasing.

Is Cancer curable? If detected early, Cancer is in many cases curable. If neglected or not detected, it leads to sure death.

How To DETECT CANCER EARLY

The 7 points formulated by the American Cancer Society are as follows :—

1. Any sore that does not heal—particularly about the tongue, mouth or lips.
 2. A painless lump of thickening especially in the breast, lip or tongue.
 3. Irregular bleeding or discharge from the nipple or any natural body opening.
 4. Progressive change in the colour or size of a wart, mole or birthmark.
 5. Persistent indigestion.
 6. Persistent hoarseness, unexplained cough, or difficulty in swallowing.
 7. Any change in the normal bowel habits.
- Fight Cancer with Knowledge.**

DR. SUBODH MITRA'S VIEW

At a press conference in Calcutta on November 17, Dr. Subodh Mitra, Chairman, Indian Cancer Society, North Eastern Division, said that high death rate from cancer in this country was mainly due to lack of consciousness of people about the disease.

Cancer which was only the second to tropical diseases as a killer in India took a toll of two lakhs of people every year. Observation of the Indian Cancer Week which ended on Sunday, he said, was intended to create sufficient consciousness among people about the danger of the disease, and how it could be cured if detected early.

EARLY DETECTION NECESSARY

Cancer detected early and treated scientifically was in most cases curable. Advanced cancer had no remedy. But unfortunately it was their experience that most patients who sought admission in the Chittaranjan Cancer Hospital came for the treatment of their disease quite at an advanced stage.

NO SPECIFIC DRUG

Greatest disadvantage in fighting this potential killer was the absence of any specific drug or treatment. Researches all over the world had not yet resulted in the discovery of a positive panacea for the disease which claimed one person every 24 minutes in America, and large number of people in all other countries.

SURGICAL TREATMENT

Despite that handicap, Dr. Mitra said, surgical and other treatment of early cancer cases had resulted in quite satisfactory result. By surgical treatment of uterine cancer the Chittaranjan Cancer Hospital had cured about 84.6 per cent. cases. The Hospital, he said, applied all available latest method of treatment of the disease including radio isotopes and chemotherapy.

TYPES OF CANCER

Some types of cancer, he said, was particularly common in India. One of them was the cancer of mouth. Such cases were found to occur in large numbers in Agra district. Some experts believed the disease was due to chewing of a particular type of bettlenut and tobacco. But the research at the Chittaranjan Cancer Hospital of this particular type of mouth cancer had not substantiated the opinion of the experts.

SHORTAGE OF HOSPITAL FACILITIES

Dr. Mitra also pointed out the tremendous shortage of hospital facilities for treatment of cancer disease in Calcutta. Even though 80 new beds had been added to Chittaranjan Cancer Hospital by the State Government, it hardly could cope with half of the patients who sought admission. Out of 8,000 cancer cases which came for admission yearly only 1,600 could be treated at the hospital.

CIVIC NEWS FROM FAR AND NEAR**RECEPTION TO MAYOR OF CALCUTTA**

Dr. Triguna Sen, Mayor of Calcutta was given a Civic Reception by the Sulchar Municipality some time ago. The Mayor said that municipal activities should always remain above politics.

Dr. Sen also said that "the sole concern of municipalities being service to citizens there was no room for politics in local bodies."

BOMBAY MUNICIPAL WORKERS GET INCREASED REMUNERATION

Three concessions to Municipal workers were sanctioned by the Bombay Municipal Corporation some time ago.

The Municipal workers struck work for non-implementation of their demands.

The additional expenditure on account of these concessions is a little over Rs. 31 lakhs.

Congress members of the Corporation expressed the fear at the meeting that if all the demands of the workers were sanctioned, the Corporation would be on the "brink of bankruptcy." However, the Samiti members stated that the capacity of the Corporation to bear this additional burden was satisfactory and that "the financial structure of the Corporation would not in any way be adversely affected."

The three concessions granted to workers are: The merger of 50 per cent dearness allowance with basic pay; the grant of dearness allowance on the same scale as for Central Government servants; and revision of the existing scale of pay from Rs. 85-1-40 to Rs. 85-1-45 and advanced increments to every employees in the old scale.

The Corporation authorised the Municipal Commissioner to give effect to the above proposals from April, 1957.

SLUM CLEARANCE IN A PLANNED MANNER

Prime Minister Nehru said in Delhi some time ago that the work of slum clearance had to be tackled in a planned and far-sighted manner and with the willing co-operation of the people affected. Any other approach would only result in new bustees springing up and defeat the very purpose in view, he added.

Shri Nehru was inaugurating a mobile hospital of the Lok Kalyan Samity, a voluntary organisation working in Delhi's slum areas.

Government, he said, had taken up the question of training a team of architects in co-operation with the Ford Foundation which was sending five or six experts to India. The services of these trained architects would be available for the whole country in the matter of slum clearance and town planning.

PRECAUTION AGAINST PLAGUE

On the assumption that the suspected cases reported from the Burrabazar Road area might ultimately prove real cases of plague, the Assam Health authorities started prophylactic inoculation of plague vaccine in the affected area of Shillong city. Urgent steps are also being taken to inoculate about 80,000 people in Shillong to spray D. D. T. all over the town.

There have been no fresh cases and the suspected patients are now on the way to recovery.

GAUHATI

The Working Committee of the Kamrup Chamber of Commerce, at a recent meeting at Gauhati, viewed with "grave concern the deplorable conditions of roads, and inadequacy of scavenging and and drain clearance arrangements by the Gauhati Municipal Board in the Fancybazar area, the biggest market of Assam, despite the Chamber's repeatedly drawing the attention of the Chairman of the Board to these conditions prevailing in the area for a long time."

PRECAUTION OF SMALL-POX AND CHOLERA

As a precautionary measure against small-pox and cholera during the ensuing Congress session at Gauhati, the Sanitation Sub-Committee of the Reception Committee has decided, in collaboration with the Public Health Department of the Assam Government, to undertake a mass inoculation campaign immediately within a 10-mile radius of the Congress site.

The public has been requested by the Sub-Committee to co-operate with the campaign.

HOOGHLY-CHINSURAH MUNICIPAL ROADS

The municipal roads total about 78 miles in Hooghly-Chinsurah area. The roads are, mostly not easily negotiable by either vehicular traffic or by pedestrians. The municipality cannot find its own money for keeping even the prestige roads in passable condition. After considerable efforts, however, the Government of West Bengal decided to contribute Rs. 80,000 a year for five years from 1956-57 for repair of all the municipal roads to supplement a yearly municipal contribution of Rs. 40,000, although the municipality was prepared to contribute Rs. 60,000 annually. This scheme has gone to pieces as the State Government has declined to make any grant on this account this year.

There are some Government roads in the municipal area but their condition is worse than that of Municipal roads.

SWEEPER REWARDED

Baiju, a sweeper, found a pendant while sweeping the road. He deposited the same at the municipal office of Krishnagore. Attempts were made on behalf of the municipality to trace the owner but to no effect. The pendant was then sold at Rs. 86. From the amount a reward of Rs. 50 was given to Baiju by the Chairman of the Krishnagore Municipality, Shri Sudhindra Chandra Moulick at a meeting held at the municipal hall.

IMPROVEMENT OF PATNA CITY

A Rs. 2-crore master plan for the improvement of Patna City is now being prepared by the Patna Improvement Trust and the Town Planner.

This was stated by the Chief Executive Officer at a meeting of the Patna Corporation sometime ago.

Members at the meeting had urged that an integrated plan for all-round development of Patna including its roads, markets, water supply, parks etc., should be immediately drawn up.

Appointments

NOBEL PRIZE FOR MEDICINE

Daniel Bovet, 50-year-old Swiss professor now working in Rome, was awarded the Nobel prize for medicine for this year. He is particularly known for his synthetic efforts to produce anaesthetic products of prime importance to modern surgery.

Bovet, whose father, Prof. Pierre Bovet was a child psychology specialist, was born in Switzerland in 1907. He studied in Geneva and entered the Pasteur Institute at the age of 22.

Bovet came to Italy after World War II and became a naturalised citizen of Italy.

CONSUMER PRICE INDEX FOR AUGUST, 1957

The consumer price index numbers for working class base shifted to 1949 equal to 100 except where otherwise indicated) increased at six centres during August, 1957, according to the Labour Bureau, Government of India.

The maximum rise of 4 points was recorded by the index number for Kharagpur, which stood at 116. The index number for Delhi appreciated by 3 points to 118, for Gauhati by 2 points to 105, and for Ajmer, Jamshedpur and Tinsukia by 1 point each to 99, 120 and 120 respectively.

In this group of centres, the food group index number appreciated at all the centres, the fuel and lighting index number at 3 centres, the clothing index number at 1 centre and the miscellaneous group index number at 2 centres.

The index number for Silchar declined by 3 points to 108, for Cuttack by 2 points to 113, and for Ludhiana, Akola and Jubbulpur by 1 point each to 96, 98 and 108 respectively.

In this group of centres, the food group index number declined at 4 centres, the fuel and lighting and the clothing index numbers at 1 centre and the miscellaneous group index number at 3 centres.

STATE TRANSPORT IN INDIA

The biggest State venture in the field of transportation in India today is the Bombay State Road Transport Corporation. From modest beginnings in the Poona division in 1948, the Bombay State Road Transport Corporation at present owns a fleet of about 3,163 vehicles plying on over 1,916 routes, employs over 16,000 persons; and covers a route-mileage of 48,175. It provides conveyance facilities to some 600,000 passengers every day.

In fleet-strength, Uttar Pradesh comes second with 1,668 vehicles.

The number of vehicles proposed to be added to some of the State undertakings during the Second Plan period are: Assam—237, Bihar—430, Orissa—278, Bombay—781, Travancore-Cochin (now Kerala)—460, Uttar Pradesh—101, West Bengal—753, Delhi—334.

Substantial additions to their fleet-strength are expected to bring up West Bengal, Punjab and Kerala transport undertakings to over the 1000 mark by 1961. During the same period, the fleet-strength of Bombay will edge nearer to the four-thousand level.

STATE FLOWER GARDEN

The Government of West Bengal has started a State garden at Kalyani with a view to making people more and more flower-minded and saving the fast dying trade of florists in the city.

The Flower Board constituted under the chairmanship of the State Development Commissioner for the purpose have already taken up the first phase of the work.

RENEWAL OF ARMS ACT LICENCES

Arms Act Licences (Form XVI) will be renewed at half-rates for 1958, on and from November 1, 1957 notified Commissioner of Police. Fees payable for licences should be paid in cash between 10 A.M. and 2 P.M. on working days, and till 12 Noon on Saturdays. Free annual licences should also be renewed in time, as fees will be levied on such licences after January 31, 1958. Personal production of all weapons is compulsory, unless specially exempted by the Arms Department. Revolvers and pistols must be produced in all cases.

AUTO-SCOOTER RICKSHAW

An auto-scooter rickshaw service has been introduced in Howrah Municipal town.

At present six auto-rickshaws are plying. An auto-rickshaw can carry two passengers with luggage kept in a separate compartment.

The service started on October 31.

NOBEL PRIZE IN CHEMISTRY

Britain's eminent biologist, Sir Alexander R. Todd, Professor of Organic Chemistry at Cambridge University since 1944 and Chairman of the U.K. Advisory Council of Scientific Policy since 1952, has won the 1957 Nobel Prize in Chemistry for work dealing with matter inside the simplest of cells. Outside this basic work for which he was awarded the Prize, the awarding body has also noted two other significant contributions to scientific knowledge, namely his investigation into vitamin B12 and into the poison contained in hashish (the basis of opium).

BUILDING SCHEME UNDER SLUM CLEARANCE

Houses built under the slum clearance scheme partly financed by the Government of India will in future have separate baths and W. Cs for each family.

At present a group of families has to share a bath and a W. O. in such houses.

The standard costs of various types of houses that can be built under the slum clearance scheme have been revised in view of the rise in the cost of building materials and labour, as well as to provide for separate baths and W. Cs. for each family.

In Bombay and Calcutta, the standard cost will be: single storey one-room Rs. 4,600, double storey one-room Rs. 4,850 and multi-storey one-room Rs. 6,000. Construction of single-storey and double-storey houses will be permitted in Bombay and Calcutta only in case multi-storey houses cannot be contemplated due to special reason such as low-bearing capacity of the soil.

An increase in rent up to Rs. 3.50 per month per house in the Bombay State and the Calcutta industrial area has also been allowed.

Under the slum-clearance scheme, 50 per cent of the total amount is given by the Centre to the State Governments as loan and 25 per cent as subsidy. The balance of 25 per cent. is provided by the State Governments as matching subsidy.

NO MORE CLERKS

Clerks would gradually become forgotten tribe in the Punjab Civil Secretariat if the experiments now being carried out by the State Government succeed. This archaic institution of clerks will be replaced by office assistants, stenographers and diarists.

The Government has taken this decision in pursuance of their policy of enforcing increased efficiency in the working of the Punjab Civil Secretariat and other allied offices of the State Government.

CITY NEWS PARADE

SM. KARUNA SAHA'S PAINTINGS: Sm. Karuna Saha's paintings, 60 in number including 37 oils and 19 water colours, are now on view at Artistry House, Park Street.

With marked influence of the Impressionists, Sm. Saha's paintings have a gay and lyrical look. She knows what sensation colour can create if only balance and precision are maintained. "Reverie" is soothing, "Combing" elegant, the misty "Day Break" mysterious and the sun-bathed "Balcony" exciting.

The artist seems to have a particular fascination for the visible and the commonplace. But her brush has evidently the power of sublimating them. The familiar "Dalhousie Square" and "No. 2 Fairlie Place" have their inner beauty which may be lost sight of by the busy office-goers while the "Kalimpong Bazar" does not lack in poetry.

Also on show in the exhibition are four works of the artist in pastel.

The exhibition remains open to the public till November 27 between 4 P.M. and 8 P.M.

OCTOBER REVOLUTION: On the occasion of the 40th anniversary of the October Revolution two public meetings, —one at Wellington Square and the other at the Maidan were held on November 17.

Shri Jibanlal Chatterjee presided over the meeting at the Maidan while speakers included Shri Makhan Paul, Sibdas Ghosh and others. The meeting was held under the auspices of seven left parties. A resolution passed at the meeting while expressing its sense of solidarity and fraternity with the working class emphasized that the aspirations of the working people of India for an era free from exploitation and bondage still remained unfulfilled. Unemployment was becoming acute, prices of daily necessities of life were soaring high and the tax burden had become unbearable.

Shri Amar Bose presided over the meeting at Wellington Square which was held under the auspices of the Communist Party and the Forward Bloc (M). Shri Bhavani Sen and Shri Suhrid Mullick Choudhury explained the significance of the October Revolution.

INDIAN RED CROSS: A post-graduate training course in nursing will be started in Calcutta shortly with a view to imparting higher training in nursing.

This was hinted by Dr. A. B. Roy, West Bengal's Health Minister, at a reception meeting at Raj Bhawan on November 17. He said that even highly educated girls were now coming forward to take to nursing as their career. It was an encouraging development. We are looking forward to start a post-graduate training course in nursing in a very near future", he added.

A reception meeting was organised by the West Bengal Branch of the Indian Red Cross Society in honour of Miss Y. Hentsch, Director, Nursing Bureau of the League of Red Cross Societies and Miss A. Pfirter, Head of the Medical Personnel Section and War Disablement Section of the International Committee of the Red Cross. Miss Hentsch and Miss Pfirter attended the recent International Red Cross meeting at New Delhi.

Miss Hentsch in reply to the reception praised the various humanitarian works being done by the different branches of the Indian Red Cross Society. She stressed the

need for popularising "home nursing" that is, imparting preliminary training in nursing to all housewives.

Miss Pfirter in her speech pleaded for intimate co-operation among sister Red Cross Societies.

HOTEL ENQUIRY COMMITTEE: The five-member Inquiry Committee set up by the Government of India under the Chairmanship of Dewan Chaman Lal, M.P., began its investigation into the standards and rate structure of the hotels in the city on November 13.

Dewan Chaman Lal and his party arrived in Calcutta on November 12 from Darjeeling after the conclusion of their investigations into the conditions of the hotels there.

On the next day the members of the Committee visited some of the first class hotels in Calcutta and also the Y.M.C.A. Hostel. On November 14 they inspected some more hotels and saw the Retiring Room of the Howrah Railway Station.

MOTOR RALLY. The Automobile Association of Bengal in co-operation with the Calcutta Motor Sports Club is organising a 747-mile Endurance and Reliability Trial for motor cars and motor cycles on an undisclosed route on November 23 next.

It would be a non-stop run and a competitor who will leave the starting point on Red Road near the Md. Sporting/ Aryans Ground on November 23 night, is expected to take a little over 26 hours in covering the route. The route will be disclosed only one day ahead of the competition when each competitor will be given a sealed envelope containing the Route Card and Map, as well as the average speed to be observed throughout the competition.

WORLD VEGETARIAN CONGRESS: The 15th session of the World Vegetarian Congress will hold its mobile session at Calcutta from 23rd to 26th November, 1957. About a hundred delegates, representing many countries are to attend the conference, reaching Calcutta on the morning of 23rd from Patna. Among them will also be Mrs. Clarence Gasque, the President of the Conference.

An elaborate reception committee has also been formed with Shri Shantiprasad Jain as chairman. Further particulars about the session can be had from the Secretary, Reception Committee, World Vegetarian Congress, 8-1, Esplanade Road.

THE CALCUTTA BLOOD BANK is stepping up its efforts to improve and enrich its variety of blood stocks with a view to meeting any emergency. The Bank has also plans to be self-sufficient in respect of blood groups that are at present being imported.

The scheme for improving the services of Bank, according to Dr. Sourin Ghosh, the Director, envisages the expansion of the present set-up to accommodate daily collection of 125 bottles of blood instead of current collection of 80 bottles. The daily minimum demand is, on an average, 100 bottles which is fast increasing.

THE TERRITORIAL ARMY DAY: Celebrations were held this year on November 16 and 17, 1957. The Officers and men of the Territorial Army Units in Calcutta took part in a Ceremonial Parade held on the Maidan, South of the Territorial Army Pavilion. On November 16, Shri Kalipada Mookerjee, Minister for Home (Defence and Police), West Bengal, took the salute. On November 17, there was a flag march by the T. A. Units. The column moved from the Territorial Army Pavilion, and passing through Chowringhee, Dharamtala, Wellington Street, College Street, Cornwallis Street, terminated at Shyam Square on Bhupen Bose Avenue.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on the 26th November, 1957 up to 2 p.m.

CENTRAL MUNICIPAL OFFICE:
The 13th November, 1957.

VITAL STATISTICS

For the City of Calcutta for the week ending
2nd November, 1957.

CITY OF CALCUTTA (TOWN AND ADDED AREAS)

The total number of deaths registered during the week was 619 against 621 and 659 in the two preceding weeks and less than the corresponding week of the last year by 69. The general death-rate of the week was 10.60 per mille.

TOWN (WARDS 1—27.)

The number of deaths registered during the week ending 2nd November, 1957, was 483 against 485 and 506 in the two preceding weeks. There were 4 deaths from cholera against 1 and 2 in the two preceding weeks. There was nil death from small-pox during the week against nil in the previous week. There was nil death from influenza against 1 in the previous week. The mortality from fevers and bowel-complaints amounted to 11 and 49 respectively against 14 and 52 in the preceding week. The general death-rate of the week was 10.78 per mille per annum.

There were 55 imported deaths. Excluding these, the death-rate of the Town was 9.56.

There were 107 deaths from respiratory diseases against 86 in the previous week.

INFECTIOUS DISEASES HOSPITAL

The new Infectious Diseases Hospital at Beliaghata has now been fully equipped to admit Diphtheria cases for treatment. Henceforth all cases of Diphtheria will be admitted in the Infectious Diseases Hospital. The guardians of patients suffering from Diphtheria are advised to take the patients to the above hospital for admission and treatment.

The Diphtheria Ward of the Calcutta Medical College Hospitals is being closed.

There were 19 deaths from tuberculosis against 26 in the previous week.

ADDED AREAS (WARDS 28—32.)

The number of deaths registered was 136 against 136 and 153 in the two preceding weeks. Of these, 1 was from cholera, nil from small-pox, 1 from influenza, 5 from fevers, 17 from bowel-complaints and 39 from respiratory diseases. The death-rate of the added areas was 10.33 per mille.

There was no imported death. Excluding this, the death-rate was 10.33.

There were 11 deaths from tuberculosis against 5 in the previous week.

MUNICIPAL INSPECTOR

With a view to ensuring efficient functioning of the municipal bodies,—85 in all, in West Bengal, the State Government, it is learnt, have appointed an Inspector.

The powers and functions of the officer, it is gathered, will be defined by an official notification later; but the purpose of this appointment is to carry on an inspection of the municipalities, from time to time, and to report direct to the Government the affairs of Local Bodies inspected. Shri M. M. Banerjee, a retired Deputy Magistrate, it is stated, has been given this appointment.

The Government have under the amended West Bengal Municipal Act already appointed a cadre of executive officers for municipalities. But the Government felt that it was necessary to co-ordinate the supervisory activities of the district officers with the efficient functioning of the municipal bodies. This co-ordination, the Government expected, would be achieved through the Inspector.

Matters relating to improvement of the financial position of the Local Bodies, specially the municipalities, and extensive changes in the Municipal Act through amendments are now understood to be under consideration of the Government.

SHOPS TO LET

COLLEGE STREET MARKET

Applications with offers of Initial Rent for the privilege of occupying the undermentioned stalls on rent noted against each are invited and will be received in the College Street Market Office on all working days between the hours of 11 a.m. and 2-30 p.m.

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates :—15 minutes—Two annas. 1 Hour—four annas 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the leases thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

S. M. MURSHED,

ALONE SHE WAITS FOR HER DAY

After the cattle drive undertaken by the Corporation it is reported that many heads of cattle have been removed from the city, some of the khatahs look deserted where a few of the stock could be seen during the day time. Above is the impression of an artist when he paid a visit to one of the cattle-sheds once full of live stock.

VIEWS AND REVIEWS

CHAIRMAN OF CHILEAN MUNICIPALITIES

Mr. Armando Verdugo Ramires, Chairman of the Chilean Conference of Municipalities, visited the Calcutta Corporation Office last week when the Commissioner took him round the Council Chamber, Mayor's room and other places. He was shown the pictures of our great national leaders which adorn the Corporation building and the Commissioner narrated to him in short the history of the Corporation and the part it played in the battle for freedom. Mr. Ramires was very much interested in all what he saw and heard and left the Corporation with a hearty thanks to the Mayor, Deputy Mayor and City Fathers. His mission was to act as Ambassador for unity and fraternity with the sister municipalities throughout the world.

PROBLEM OF LANGUAGE

The Corporation viewed the majority report of the Official Language Commission with great concern and passed a unanimous resolution demanding recognition of the languages which are in the list of the Constitution of India. The language problem has stirred the City recently as eminent educationists feel that "Hindi" has been forced upon them by the authorities in the Central Government. The famous writer Shri Manoj Basu who came back recently after touring Russia and European countries while narrating his experiences in Czechoslovakia, said in a public meeting organised by the Association for Advancement of National Language of India that Tagore's works were sent there in "Hindi" translation but not in original Bengali. The eminent scholars of that country wanted to know Tagore in his original, added

Shri Basu. Shri Tarasankar Banerjee, M.L.C., in his presidential speech denied the allegation that the language issue was a conspiracy hatched against Bengal. He was of the opinion that non-discriminatory policy should be adopted to develop all the languages listed in the Constitution. The following resolutions were passed in the meeting:—

That within each State, education be imparted at all stages in national language or languages from as early a date as practicable and Authorities be left entirely free to determine the place of English and any other languages in educational curriculum, unhampered by directives or discriminatory measures from the Centre.

That the efforts made by the Central Government to develop and propagate the Indian languages through translations, publications, broadcasting, journalism, educational measures, etc., be based on the principle of equality and free from discrimination in favour of any one particular language—that is Hindi.

That all efforts on the part of Central Government to develop and propagate art, crafts, and literature of India be based on the principle of equality and free from discriminatory attitude in favour of any one linguistic or regional group. State Governments should be left free to develop respective national languages without any let or hindrance.

Apart from using Hindi as the official language of India there is also a proposal for using Hindi as the language of Indian News Agencies. This proposal if carried into effect soon will surely

jeopardise the Press in non-Hindi speaking areas and it will suffer from incompetency of translation. The news and the write ups will lose their original form and charm. Hindi as lingua franca of India should be taught and learnt no doubt by the children of the soil and every effort should also be made to propagate Hindi but it must not be made the only State language within such a short time by sacrificing other major rich languages of India. Every State must have the right to foster its own language and spread education through the mother tongue. This view is still held by many prominent leaders of the country and legislators who fought hard for the cause during the pre-Independence days. No-Hindi speaking areas feel perturbed over the issue and it should not be ignored.

But mere public speeches and Press publicity won't carry much weight unless the State comes forward to conduct its business in the major language of the people within the area. We believe, that there was a move in the Writers Buildings in this direction immediately after Independence but the efforts soon died down. Some of the case with the Corporation offices. Some of the Corporation officers began to write office-notes in Bengali after Independence but the attempt was discarded after some futile attempts except one officer who still carries on holding the ideal. Local Self Governing Institutions may take a lead on making Bengali the official language of the institutions and pave the way for the Government of the State.

STREET LIGHTING

International expert on illumination Dr. W. E. Harper is in India to discuss with the Governments and Municipal authorities about the methods of improving interior and exterior lighting. He visited the Corporation the other day and discussed with the authorities about the lighting arrangements in the City. It is said that he had generally approved of the street lighting arrangement of Calcutta but he pointed out the danger of less even lighting in

many of the streets. In his opinion uneven lighting with fluorescent and other varieties of lamps is undesirable from the point of view of road safety. At marginal points where one system of lighting ends and the other begins an optical illusion causes the danger.

A 80-lakh scheme was prepared for the entire change of street lighting but paucity of fund, it is understood, intervened in the way of undertaking. But Calcutta now enjoys better illumination than a couple of years ago. Many gas lamps have been changed to electric lights and dark black corners have almost disappeared from the heart of the city. The Corporation alone with its limited resources and more serious problems viz., water supply, drainage, etc., facing the city, cannot undertake to change the entire lighting system within a short period. If State comes forward to help the Corporation it can be done and Calcutta may take up the gay appearance within the lapse of not much time. Dr. Harper is right as he says that the illumination of streets should be taken as national problem and the State should share at least 50 per cent of its expenditure with the Corporation.

ALL INDIA BOXING CHAMPIONSHIP

[By KANAI ROY]

The National Boxing Championship, 1957 was held in Calcutta and concluded on 24th November, 1957 in presence of a large and distinguished gathering.

There were entries from Services, Railways, West Bengal, U.P., M.P. and the Punjab (for the first time). Once again the Services swept the board by winning the Team Championship for the second time and proved the axiom that in all branches of sports 'physical fitness' first. Though they are still green horns in the art of Boxing by superior stamina they won most of the fights.

The credit of shouldering the responsibility of keeping this noble form of sports from decadence rests with Bengal who for years kept the flag high flying as would be apparent from two World Olympics where largest number of Boxers from Bengal were sent and in the present the most credit goes to its erstwhile Honorary Secretary Shri P. Misra who has carried it well on his shoulder.

Incidentally, the standard of Boxing this year is much better than last year.

The winners of 1957 All India Boxing Champions are as follows:—Fly Weight, Lnk. Devadanam (Services); Bantam Weight, S. Khatun (Railway); Feather Weight, Lnk. Sarwan Singh (Services); Light Weight, Nk. Sunder Rao (Services); Light Welter Weight, Nk. Sain Raj (Services); Light Middle Weight, B. D'Souza (Services); Middle Weight, Hav. Hari Singh (Services); Light Heavy Weight, S. Bose (Railway); Heavy Weight, Hav. Mange Ram (Services).

ELECTRIC TRAINS

Electric trains between Howrah and Sheoraphuli are not likely to be introduced before the end of this month, according to a Railway Press Note issued recently.

The Press Note said that it had been indicated earlier that the trains run by electric traction would be introduced between this 14-mile route on November 14. It was now felt that shuttle trains between Howrah and Sheoraphuli, with electric locomotives and the existing suburban passenger coaches were not likely to be introduced before the end of this month.

INDIAN MEMBER OF U.S. CONGRESS

Mr. Dalip Singh Saund, the first U.S. citizen of Indian origin ever to be elected to the United States Congress, reached Calcutta on November 25.

Born at Amritsar in 1899, he graduated with honours from the Punjab University and went to the U.S.A. in 1920 to study agriculture at the University of California. He graduated in 1924 with a Ph.D. in mathematics.

Mr. Saund became an American citizen in 1949 and a short time later was elected Judge of the district court in Westmorland, California. He has been a Democratic Partyman.

He has been returned to the 85th Congress of the U.S.A. as candidate of the Democratic Party from Westmorland and is the first Democratic Party candidate to succeed in a district which generally elects Republican Congressmen.

Mr. Saund addressed the Calcutta Rotary Club on November 26. He also addressed several gatherings and met the elites of the city and the administrators on the day following.

THE CORPORATION AT WORK

A GIST OF THE PROCEEDINGS OF THE TWENTY-FIFTH ORDINARY MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 22ND NOVEMBER, 1957.

REPRESENTATIVE ON CISCA

The Corporation elected Councillor B. K. Banerjee as its representative on the Council of the Indian Science Congress Association for the unexpired part of the year 1957-58. The election became a necessity as the former representative of the Corporation, Councillor B. N. Banerjee had tendered his resignation for private reasons.

REPRESENTATIVE ON MPGM

The Lighting Superintendent has been selected to represent the Corporation on the Membership Panel for Gas Mantles set up by the Oil Burning Domestic Appliances Selection Committee of the Indian Standard Institution.

SILT CLEARANCE

The Mayor, Dr. Triguna Sen appraised the House that the work of silt clearance was going on vigorously in spite of various difficulties such as lack of technical personnel, red tapism and want could pursue it, the Mayor hoped, the citizens of Calcutta would not experience much difficulty due to inundation excepting for 5 or 6 days in a year when the rainfall is heavy and exceeds one inch. Even then as all pumping sets of the Corporation would be put to commission, in the meantime, it is expected, that the Corporation would be in a position to pump out the water within a short period.

OUTFALL SCHEMES

The Mayor impressed upon the members of the Standing Town Planning and Improvement Committee the importance of formulating immediately a scheme for outfall which was essential to save the people living in low-lying areas such as Cossipore, Manicktolla and Tollygunge from utter misery during the rains. He further said that in Cossipore and Tollygunge areas, houses were being built at random without any space left for drain or roads for the sweepers to get in to cleanse the open lavatories as a result of which the whole area became insanitary. The Mayor also advised the members of this Committee to immediately sit with the authorities of the Improvement Trust and draw up a scheme for these areas and inform the public about that scheme so that they might not construct buildings at random.

MATTERS OF PUBLIC IMPORTANCE

During discussion on matters of public importance Councillor Banajit Coomar Mitter drew the attention of the House to the recent publication of the Telephone Directory which was compiled in a haphazard and unscientific way causing inconvenience to the public.

Councillor Dulal Chandra Mukherjee spoke about the increasing menace of mosquitos in the city.

Councillor Mihirlal Ganguly drew the attention of the Deputy Mayor who was then on the Chair about the delay in attending to such matters of public importance discussed on the floor of the House long before.

A GIST OF THE PROCEEDINGS OF THE SPECIAL MEETING OF THE CORPORATION HELD ON FRIDAY, THE 22ND NOVEMBER, 1957.

GRAVE CONCERN OVER THE OFFICIAL LANGUAGE COMMISSION REPORT

At a Special Meeting of the Corporation held on November 22, a resolution was unanimously adopted on the question of National language of India. It was moved by Councillor Mukur Sarbadhikary and amended by Alderman Dr. Amiya Bose.

The resolution stated that the recommendations of the Language Commission regarding Hindi, if implemented, would curtail the rights and hamper the development of other languages. The resolution, therefore, demanded rejection of the Language Commission's recommendations and desired for recognition of the 14 languages mentioned in the Indian Constitution as National rather than regional languages.

The following suggestions were also embodied in the resolution :—

(i) That education, administration, legal and judicial affairs should be conducted in the respective national languages of the States.

(ii) That it be left to the discretion of different States and their Universities to determine the place of English and any other language at all Indian levels.

(iii) That for the present All-India Service Examinations should be conducted in English.

Stress was also laid on the need for a national language of India which could be determined after 10 years by a Committee of experts.

KAMALA LECTURE ON BUDDHISM

Mr. U Nu, Prime Minister of Burma, has been invited by the Calcutta University to deliver Kamala Lectures on "Buddhism in South East Asia"

The Burmese Prime Minister, it is learnt, has already accepted the offer and he will deliver lectures for 4 consecutive days beginning from December 11 next.

The University authorities have also decided to invite Shri V. K. Krishna Menon, India's Defence Minister, and also Dr. Samiti Kumar Chatterjee, Chairman of West Bengal Legislative Council, to deliver Kamala Lectures in 1958.

Personalia

SHRI G. L. MEHTA

Shri G. L. Mehta, India's Ambassador to U.S.A. arrived in Calcutta from New Delhi on November 28 to discuss with the representatives of jute and tea industries the possibility of increasing the export of these commodities to American markets.

During his five-day stay in the city, Shri Mehta met representatives of different chambers of commerce and discussed with them in detail the difficulties experienced by Indian traders in pushing jute and tea in the American markets. On November 28 in the evening he held talks with the representatives of the Tea Board.

Shri Mehta met the representatives of the I.J.M.A. at Great Eastern Hotel on November 24. In the afternoon he attended the reception given to the Commonwealth Parliamentary delegates at Assembly House. He took his dinner at Raj Bhavan.

On November 25, Shri Mehta was entertained at a luncheon given on behalf of the "Amrita Bazar Patrika." In the afternoon on the same day he met the representatives of the Bengal National Chamber of Commerce and the members of Gujarati Sahitya Mandal.

On November 26, he met the Indian Chamber of Commerce at India Exchange and later he met the representatives of Bharat Chamber of Commerce.

HONOUR TO A CALCUTTA SURGEON

Dr. A. K. Saha, Professor of Surgery, Nilratan Sircar Medical College, Calcutta, who delivered this year's Hunarian lecture of the Royal College of Surgeons, England and later visited the United States of America has been made an Honorary Admiral of the State of Nebraska (U.S.A.). The title was conferred at a special investiture held by the State Governor, Victor E. Anderson, in Lincoln, on September 11 last.

Dr. Saha, who is the third Indian and the first from Bengal to be appointed Hunarian Professor, is the first Indian to be made an Honorary Admiral of the State of Nebraska.

After delivering the Hunarian Lecture, in London in June, Dr. Saha proceeded to U.S.A. on a lecture tour as guest of the North-Western University of Chicago. In the States, he addressed several gatherings of medical men and surgeons in various hospitals and at a number of universities, including Chicago, Illinois, North-Western, Minnesota, Iowa and Columbia (crippled children's hospital). Later, he addressed a joint session of the Canadian and U.S. group of surgeons of the International College of Surgeons in Chicago.

Returning to England on his way home, he addressed the Muffield Orthopaedic Centre of the Oxford University as a guest speaker where he explained his own new surgical technique of rehabilitating completely paralysed lower limbs.

CIVIC NEWS FROM FAR AND NEAR

UTTARPARA MUNICIPALITY

The general election of the Uttarpara Municipality will be held on December 15 to elect 10 Commissioners from 4 different wards of the municipality. Altogether 19 candidates are contesting for 10 seats.

BHADRESWAR MUNICIPALITY

The election of Bhadreswar Municipality was held on November 17 peacefully.

The area of Bhadreswar Municipality was divided into 5 Wards. Formerly it had 9 Commissioners instead of 11 as at present. Nineteen candidates contested 11 seats.

Shri Santosh K. Pal Choudhury, the Chairman of the Municipality, was re-elected as a Commissioner while the Vice-Chairman, Shri Ram Krishna Banerjee was defeated by a margin of 49 votes by Shri Gopinath Khan, a new contestant. The candidates contested the election as Independents and without any party ticket.

Following were declared elected :—

Ward No. 1—Dr. Basanto Chatterjee and Shri Dhiren Mukherjee. Ward No. 2—Shri Sishir Banerjee and Shri Raghunandan Sing. Ward No. 3—Shri Sushil K. Mukherjee and Shri Bibhuti Das. Ward No. 4—Shri Santosh K. Pal Choudhury, Sk. Akbar Ali, Sk. Saffuddin and Shri Bhagaban Das Gupta. Ward No. 5—Shri Gopinath Khan.

BONGAON MUNICIPALITY

General election of Bongaon Municipality was held on November 17 last.

Fifty-six candidates contested for 15 seats from 5 Wards of the Municipality.

Following were elected :—

Ward I—Dr. Amar Kumar Chatterjee, Shri Manindra Bhusan Biswas, M.L.A., Shri Amulya Ratan Kar. Ward II—Dr. Bistupada Biswas, Shri Kalipada Bhowmik, Shri Pravash Chandra Saha. Ward III—Shri Balaidas Ghosh, Shri Jagabandhu Bala, Shri Nanda Kishore Paul. Ward IV—Shri Balahari Mandal, Shri Debaki Dulal Dutta, Shri Shyama Pada Nath. Ward V—Shri Mahendra Nath Ghosh, Shri Sudhir Kumar Banerjee, Shri Nirmal Kumar Roy Chowdhury.

BANSBERIA MUNICIPALITY

The following are the results of the election to Bansberia Municipality held on November 17 :—

Ward No. 1—Dr. Dhalendu Mitra, Shri Ganesh Kunda, Shri Mukunda Dutta. Ward No. 2—Shri Girin Kunda, Dr. Sanat Ghosh. Ward No. 3—Shri Kali Singh (present Chairman), Shri Santosh Majumdar, Shri Sew Mangal Singh and Shri Aurobindo Chatterjee. Ward No. 4—Shri Panchu Das and Shri Samar Singh.

Slum Clearance And Economic Point Of View

[By A. G. SHEPPARD FIDLER, M.A., B.A.R.C.H., A.M.T.P.I., F.R.I.B.A.]

In dealing with slum clearance and redevelopment, difficult problems are involved concerning people, prices, policy, the availability and best use of land and the general appearance of places, among other things. You will notice that I put people first, because people with their habits, desires, prejudices and enthusiasms are really the root and branch of the whole matter.

It is for them and for their comfort and convenience that the whole structure of planning exists, and to this end that research, study and experiment are always directed.

As an architect, I must leave the work of the sociologist, the statistician, the economist and the politician to others, but I do try to interpret the result of their studies with the tolerance and, if I may claim a little, the wisdom born of experience.

In this paper I shall try to present to you the problem as I see it to-day, and to show how it has been, and is being, dealt with in the city of Birmingham, of which I am, as you know, the city architect. I shall of course, also look outside my own city to see what is taking place elsewhere.

I am considering slum clearance and redevelopment together—the bigger problem rather than the smaller. I am not concerned in this paper with slum clearance and rebuilding on the minor scale involved in small towns and villages, but rather the wholesale treatment of obsolete areas, which involves the replanning and recreation of large areas of our larger towns and cities, where redevelopment is a continuing problem.

THE NATIONAL PROBLEM

In our great cities the problem is no less than urban renewal on a major scale. The areas concerned usually lie in a ring around the very heart of the city and largely determine its character. These are the areas which we see from the train as it slackens speed and we approach the central station, and in most cities, it must be agreed, redevelopment and revitalizing are sadly needed if we are to make urban living a pleasant thing and not something to be endured by those unfortunates who cannot live in the newer suburban areas or beyond the town altogether.

The problem facing the Authorities concerned and their administrators, planners and architects, represents a challenge of no mean order and it requires courage, determination and faith to see it through. In the history of our cities it is surprising how seldom real redevelopment has been embarked on in the past—much more often buildings and districts have been adapted to new uses to meet changing times—sometimes successfully in that the change is acceptable and has endured, but much more often the changing condition has led directly to slums and obsolescence.

Basically, obsolescence grows from the result of changing standards and conditions—more really from the decay of the fabric of the buildings concerned. Many of the buildings making our slums

are still structurally sound, but their space contents, their arrangement and their amenities are lower than present accepted standards. The infiltrating of industry into residential areas hastens the blight and there is no other solution but to redevelop the whole district. It is tempting to tackle the problem piecemeal, to replace the worst buildings, to straighten out a few tangles in the road pattern, but these measures are uneconomic and their value illusory as they delay the progress of redevelopment and ultimately make the problem greater and more expensive.

The slow and inevitable progress of buildings from youth to old age and decay is a fact which many of us like to forget while we are so busy on our present difficult tasks. But it is obvious that, day by day and week by week, more buildings are qualifying as slums. When the present slum clearance drive is substantially completed, and indeed in the case of many cities, long before this, new areas will rank as obsolete and their houses as unfit. So we have a continuing problem—especially in England, where we tend to revere the old and shrink from wholesale demolition, remaining all the while fearful of the cost of rebuilding.

There are, at present, about 850,000 unfit houses in England and Wales. This means almost 1,000,000 homes where families must live in difficulty and discomfort. This huge figure must be considered against a back-ground of hundreds of thousands more of aging houses, and against the fact that the national figure for houses over a hundred years old equals all the houses (including prefabs) which have been built since the war.

The size of the problem has to be judged, too, against a back-ground of changes in population structure (the number of households increased by 28 per cent. between 1931 and 1951), the rising need of provision for old people, and overcrowding. More than one in six of our national total of houses, that is 2,500,000 houses, are more than 100 years old—a further 1,500,000 are over 75 years old.

PLANNING FOR THE FUTURE

I am often asked whether the houses and blocks of flats being built to-day will last 100 years, as though any replacement or redevelopment within that period would be nothing short of a national calamity. Certainly they should last 100 years, but whether they will be fulfilling their proper functions is quite another question. It would be a bold prophet who would forecast what the form of our lives and the standard of our living will be in 100 years from now. The truth is that we have always built for immediate needs and usually in a hurry. In times of rapid change, like the present, that is not enough. Well-built housing can soon outgrow the needs which brought it into being and this period may well be considerably less than a century.

(To be continued)

ON VEGETARIANISM

MADAME CLARENCE GASQUE

PRESIDENT, WORLD VEGETARIAN CONGRESS

It is since long ago that India has sought out the best way for man to unfold into his highest possibilities, the highest in regard to a recognition of his source, his purpose on earth, his destiny and toward its fulfilment.

These are questions which are relevant to every human being, whether or not he be cognisant of the fact. It is India which has carried the torch of enlightenment of knowledge which is of permanent value to all the world.

Where can be found greater sublimity than in the beauty of your temples, dedicated to your highest concept of human thought in its furthest reach outward—the inward, toward its source; temples where every turretted corner and peak represents the flame — suggesting, objectively, the eternal Fire of Life.

But we of the West have had another part to play: although the remarkable accomplishments and sublime beauties of India are the gifts of India to human progress, in the West we are making another gift to humanity, a different type of human knowledge is being demonstrated. While the East has recognised the everlasting existence of the powers and glories which come through every phase of existence, seen and unseen, throughout all of Creation,—throughout all of the Cosmic realms and reaching its height and its depth in the Microcosm of Man himself, and while the East has recognised and known this everlasting movement as that of Eternal Creative Progression, — the West has harnessed a phase of these Forces of Nature, and given to the whole world the results of its findings. Its knowledge along the lines of its innate ability, that of applying the knowledge which is so much a part of the East.

Through the knowledge and study of the objective side of Nature, which the West has tested in numberless directions, and has, therefore, brought these forces to usage in countless practical ways, all the world thereby has been blessed. It is useless to try to tabulate the benefits to humanity everywhere the world-over, that this practical knowledge has brought us all in the application of universal principles and laws — laws which the East has recognised as eternal and powerful laws — which the West has recognised as forceful and practical — and yet, where else but in dear India, has been heard — the heart — beat of the rose! . .

It is, therefore, now time for the knowledge which the East has acquired through its daily life and through its respectivity to inner guidance — and it is now time for the West, with its knowledge which has come through its objective study of Nature, (but yet with an unknown and unrecognised guidance,) — it is now time for these two phases of knowledge — that of universal law unseen but recognised (in its aspect of eternal power) and knowledge of universal law as convertible into objective practical use, for these two phases of knowledge to come into consideration.

each of the other, that there may come out of knowledge a higher step — that of the understanding each of the other as to principle — for principle is one and never deviates, and is forever applicable to all aspects of life. In this thought, no longer do we say that "East is East, and West is West and never the twin shall meet", for that time is now past, for principle is one and in this thought of unified knowledge and understanding the two are meeting constantly and understanding each the other as never before!

In this thought — of the Principle of the Living Fire of Life and of its application to daily life — do we ask the East to teach us of the West what your great Eastern ancient culture has taught you which has made you, in principle, a Vegetarian Nation. You are to inform us of the laws, of which, for ages you have been conscious and aware by which consciousness you do not slay the younger brothers of our planet, in greediness, to stimulate false appetite of a humanity that has lost its way, being dazzled by a sense of power through force, rather than of force through power which, though unseen, is an everlasting power. In this knowledge, the West will be able to awaken within their minds, a knowledge which will clear their understanding to a full consciousness of the meaning of the words "All Life is One". In this understanding will the West learn why they cannot slaughter the younger brothers, so near to human form — just because of a greed which is so degrading, so forever terminating in a state of warfare — war! — in order to consume the evil murderous thought put upon the etheric waves by man — man who has even commercialized his greed by the exploitation of the animal kingdom!

Your country which has had as a skill the knowledge of a cure for every ailment of misdirected man — through its understanding of the value of herbs and the products that nature so bountifully bestows upon you and which are made use of since ancient times, as well as today, in your science of healing — a science which applies what in the West we regard as a Truth, but which it would seem we do not actually believe: that "Earth has no sorrow that heaven will not heal". Many have been the Westerners who in despair and as a last resort, have come to India to receive administrations of your great science of healing. And many, too, from here have gone to the West for medical help and have found great help. What the East has, we in the West need to make use of — although I know that much of this science is held to be secret, the use of it is readily given when asked of the Master of the Sciences. And what the West has and the East lacks, which is a result of the practical ability of the West, should come to the East. All these exchanges of culture are taking place. The further West you go the more one sees the longing for the natural ways of healing, of the natural ways of living, and of thinking.

But the West, besides countless blessings of present-day life which it can bring to more anciently established settlements all over the world, needs to learn from India as to why it cannot

partake of the flesh of the animal kingdom, in the false idea that it sustains the life of the human. Do not keep your knowledge to yourselves.

Let us live to the knowledge that we have, let us of the West acquire your knowledge which is superior, even supreme, along its natural lines; and let the West assist in the direction of its natural ability that daily living may become less burdensome. In these ways will our knowledge unfold in understanding which will bring us into the one thought of the one basic principle throughout all life.

MUNI SHRI JAYANTILALJI

As is our food, so is our life. Man's thoughts and deeds are inevitably affected and moulded by his diet. It will be the dawn of a new culture, truer and lasting when man abjures meat and adopts vegetarianism. To usher in that dawn of our practical dreams is the prime object of this Congress of the World Vegetarians. We have to endeavour that meat-eating goes : that is, those who are not meat-eaters, do not become so now, and those who are, take now to vegetarianism. And the realisation of this objective is truly desirable both from the point of view of the individual's interest and from that of the society's.

By nature man is not a meat-eater. The vast literature that this Congress has published will bear this out beyond the faintest shadow of doubt. Certain people think that if man give up meat-eating, he will become weak and eventually the entire nation will degenerate and fall into the bondage of other meat-eating strong nations. This is a wrong notion altogether. Instances abound, on individual as much as sectional and regional basis, where vegetarianism has not only, not caused weakness or lower vitality but produced stronger bodies and greater stamina. Of course, those who do not take meat are unexceptionally calmer of spirit and more peace-loving in behaviour. But this forsooth would not mean that they are cowards or poor of physical strength.

From the point of view of social value, vegetarianism is no less important. It is the harbinger, the fulcrum of universal welfare. No nation of the world can truly avow peace and justice unless her people have adopted vegetarianism as the practical rule of their conduct. Such a people will never think of meaning ill to others. They will instead till the land for their needs and make the earth beautiful and bountiful with green orchards and golden fields. The little birds of the skies will then become his brethren and the animals of the land his companions. It requires no imagination to see now with a simple stroke vegetarianism will usher in universal peace and natural brotherhood of all living creatures.

Saints and savants of the past have incessantly mobilised their energies against this heinous practice of meat-eating. Our history is replete with instances. Indeed, love for all living beings and compassion for all are some of the fundamentals of our culture. And there may had the explanation of how and why countless people of this land are strictly vegetarian by nature!

During the past few decades the attention of the West and of the Far East also has come to dwell on this subject. Many people of those lands realized the values and the virtues of vegetarianism and adopted it. Today there is quite an impressive number of a social bodies and institutions working for the population and wider adoption of vegetarianism in every land of the civilized world.

It cannot be gainsaid on any grounds that the first step to humanism is abstinence from all violence. We must therefore bring home to people here and elsewhere not to harm any living creatures and to take to vegetarianism to that end.

From the inauguration speech.

15TH WORLD VEGETARIAN CONGRESS

15th World Vegetarian Congress, held its session in Calcutta at Mahammad Ali Park, from November 28 for 2 days.

Over 60 delegates from nearly a dozen foreign countries participated in the Congress which rallied a gathering of 2,000 men and women of this City. The largest contingent of foreign delegates, 8 persons in all including a few women, came from the U.S.A.

In the absence of Madame Clarence Gasque, the scheduled President of the Congress, Calcutta industrialist Shri Santi Prasad Jain occupied the Chair.

Dr. Alan Stoddart, a medical practitioner of London, speaking to the Congress said that protein, carbohydrate, vitamins, water and mineral salts which man needed for his living were to be found in requisite quantities in the plants. It was therefore, unnecessary to subject animals to cruelty for the sake of satisfaction of their appetite.

Mr. Olof Egerod (Denmark), Deputy President, International Vegetarian Union said that vegetable diet was much cheaper and more nutritious than meat food. He felt that with the population of the world increasing rapidly the safety line lay in their switching on to vegetarianism. Unless that was done he apprehended that many would die of starvation.

Shri Santi Prasad Jain in his presidential speech said that as a corollary to the basic principle of Ahimsa, vegetarianism had been an article of faith with them in India. Though they were not a nation of cent per cent vegetarians yet on the positive side they had the unique distinction of having in India millions of families where meat or fish or egg had been a taboo for generations. Moreover, even among the families taking a non-vegetable diet there had been an implicit respect and regard for those who did not take such diet.

Shri Jain maintained that vegetarianism had always carried with it a sense of higher level of living in this country. Conscious adoption of a vegetarian diet was described by him to be a step leading to amity and peace between man and man and ultimately between nation and nation.

Delegates from many foreign countries also spoke at the meeting. Shri Dharam Chand Sarogi, General Secretary of the Congress was all attentive to the guests.

CITY-NEWS-PARADE

COMMONWEALTH DELEGATES IN THE CITY:

Reception was accorded to the Delegates of the Commonwealth Countries by the Speaker of the Assembly on November 24 and it was attended by many distinguished guests (including Chief Minister Dr. Roy, Indian Ambassador to America Shri G. L. Mehta and the Maharaja of Patiala), the State Ministers, legislators, journalists, educationists, businessmen and high officials of the State Government.

The members, who came to our city, were from countries like Australia, South Africa, Northern Rhodesia, Southern Rhodesia, Nyasaland, Singapore, Malaya, Pakistan, Mauritius, and Uganda.

Replying to the welcome address, Mr. F. J. Davis, an M.P. from Australia, said the Commonwealth countries through parliamentary democracy, had been aiming at the same goal though their roads to it might be different. When they came to India they felt they had come to meet friends, he said.

INDIA-CHINA FRIENDSHIP ASSOCIATION:

accorded a reception on November 19, to Shri Tarasankar Banerjee, Dr. Manindra Mohan Chakraborty, Shri Satya-priya Roy, Shri Sujan Sarker, Dr. Debesh Mukherjee and Dr. B. K. Dasu all of whom had toured China on invitation. Shri Uday Shanker and Shrimati Amala Shanker who were also members of the Indian Cultural Delegation could not attend the function. Prof. Nirmal Kumar Shiddhanta, Vice-Chancellor of the University of Calcutta presided.

Shri Tarasankar Banerjee, Shri Roy and other speakers dealt on length on the progress achieved by China under the new regime.

Prof. N. K. Shiddhanta said that the essential point in China's progress was the discipline of the people of the country which moulded their national life for achieving victory. Students in China had played a prominent part in building new China and had practised tremendous amount of discipline for the cause. Our students could also take lessons from their counterparts in China.

Prof. Nirmal Kumar Bhattacharjee, General Secretary of India-China Friendship Association thanked all present on the occasion.

BIRENDRA NATH SASMAL: "The 23rd death anniversary of Deshpran Birendra Nath Sasmal was observed under the auspices of Deshpran Smriti Sangha at Sahnagore Burning Ghat on November 24. Shri Suresh Chandra Roy, Sheriff of Calcutta, presided and Shri Sidhartha Roy, Law Minister of West Bengal was the Chief Guest. On the same day a meeting was held at the Hall of Maha Bodhi Society of India, College Square, to pay homage to Deshpran. Dr. Pratap Chandra Guha Roy, Dy. Chairman, West Bengal Legislative Council, presided over the meeting.

PATBARI FUNCTION: Three police constables of Baranagore police station were injured when trying to control the huge crowd of visitors and devotees who assembled at Baranagar Patbari on the outskirts of Calcutta to celebrate the memorial function of the well-known Vaishnava saint Ramdas Babaji.

It is gathered that more than 25,000 men and women gathered at the Patbari on the occasion. At about 1-30 p.m. there was a great rush to enter the inner portion where the celebrations were being held and a number of women, who could not withstand the pressure, fell down and were on the point of being crushed. At the sight of this,

three police constables who were on duty there, rushed to the spot and tried to save the women by forming a cordon round them and were injured.

ENQUIRY IN A HOSPITAL: The Health Directorate of the West Bengal Government is understood to have instituted an enquiry into the circumstances under which Sm. Pampa Roy, wife of Shri Banabehari Roy of Raja Basanta Roy Road, died in the Seth Sukhlal Karnani Hospital on November 5 last. The enquiry is being conducted by some senior officials of the Directorate.

Sm. Roy was admitted to the said hospital on October 28 for gallstone operation. She stayed there for six days under observation and the operation was done on November 2 by an eminent surgeon in Calcutta. But the said surgeon, it is stated, immediately after the operation, which according to him was very 'successful' had to leave Calcutta for Bombay. According to the husband of the deceased her condition became serious during the post-operation period when, Shri Roy alleged, she did not get proper medical attention.

The enquiry is expected to be completed in course of 10 to 12 days.

DIFFICULTIES FACING PERIODICALS:

A deputation consisting of Shri Upendra Nath Ganguly, Editor, Galpabharati, Shri Naren Deb, Shri Mohitosh Roy Chowdhury, M.L.C., Editor, Shikshak, Shri Sisir Bose, Editor, Bhagnadut, Shri Phanindra Nath Mukherji, Editor, Bharatvarsa and Shri Suren Niyogi, Editor, Samhati waited upon Shri P. C. Sen, Minister-in-charge of Food, Relief, Supplies and Refugee Relief and Rehabilitation at the Writers' Buildings recently. Shri Upendra Nath Ganguly, the leader of the delegation submitted the Memorandum and discussed the present difficulties of the periodicals in West Bengal.

The Minister assured the delegation that he would try his best to support the periodicals by distributing more Government advertisements. As regards Sales Tax, he has assured the delegation that he would do his best so that it is not levied on the periodicals.

PRESIDENT OF U. P. I.: Shrimati Sucheta Kripalani, M.P., was co-opted as a member of the U. P. I. Board of Directors at its meeting held on November 9 last and thereafter elected as the President of the U. P. I.

Shrimati Kripalani agreed to function as the President of the U. P. I. with immediate effect.

THE NATIONAL INDIAN ASSOCIATION OF WOMEN CELEBRATED ITS GOLDEN JUBILEE (Calcutta Branch) on November 26 at the Calcutta Club. The programme included a general congregation of the members of the Association and representatives of other social welfare organisations of women which was followed by a dinner.

The Association was first founded in England by Miss Mary Carpenter in 1890 with Raja Ram Mohan Roy, the great social reformer, as its patron. Its aims and objects included promotion of friendly intercourse and mutual understanding between Indians and the English and the advancement of the education of women and children in India. The Calcutta branch was established in 1907.

In course of the last 50 years of its existence the Association claims to have organised, in collaboration with other women's organisations, schemes for social uplift in and around Calcutta. It also runs a child welfare clinic in South Calcutta and awards scholarships to women and girls for training in nursing professions and other useful vocations. The Association's other activities cover wide range including collection of funds for relief of the victims of famine, flood, earthquake and other natural calamities.

MISCELLANY

FILM ON RABINDRANATH

A documentary film on the life and teachings of Rabindranath Tagore is proposed to be prepared by the Ministry of Information and Broadcasting, said Dr. B. V. Keshkar. Asked if Santiniketan would be consulted before the film was made, Dr. Keshkar said Government would see that all institutions and personalities connected with Tagore were consulted.

BILL FOR SECONDARY EDUCATION

A 27-member Board for advising the State Governments on all matters referred to it relating to secondary education in this State is proposed to be set up under the revised Board of Secondary Education Bill, 1957, the full text of which has been published in an extraordinary issue of the "Calcutta Gazette" on Friday.

The new Board which will include the topmost experts available in this State in the field of engineering, technical education, fine arts, agriculture and professional education, besides representatives of teachers' organizations and heads of high schools, will be presided by a Chairman to be appointed by the West Bengal Government. The tenure of office of the President of the Board, who will be drawing a salary to be fixed by the Government, will be 5 years.

Soon after its establishment, the Board will constitute five Committees—the Recognition Committee, the Syllabus Committee, the Examinations Committee, the Appeal Committee and the Finance Committee.

The Recognition Committee which will advise the Board on all matters concerning the recognition of institution will be presided by the Director of Public Institution, West Bengal. The Secretary of the Board shall be the Secretary of the Committee.

The Syllabus Committee which will consist of 11 members, will make recommendations to the Board regarding the syllabus, books and allied matters referred to it.

The Board may, with the approval of the State Government, constitute Regional Examination Councils.

For the purpose of enabling the Board to perform its functions under the Act the State Government would, at any time, pay to the Board such sums as it would deem necessary after examining the budget estimates and other accounts of the Board.

DEANS OF UNIVERSITY

The following is the full list of elected Deans of the various faculties: Prof. J. P. Neogy (Art.), Prof. Nikhil Ranjan Sen (Science), Shri Ramaprasad Mukherjee (Law), Prof. A. C. Roy (Engineering), Prof. Seroj Kumar Basu (Commerce), Dr. B. C. Guha (Technology), Dr. Subodh Mitra (Medicine), Prof. P. K. Sen (Agriculture), Dr. Nihar Ranjan Roy (Fine Arts), Dr. S. P. Chatterjee (Education), Dr. Anil Chandra Banerjee (Journalism), and Capt. P. B. Mukherjee (Veterinary).

The election of the new Syndicate comes off on December 10.

ATTENDANCE CENTRE INSTEAD OF JAIL

One of the measures the State Government purposes to introduce for jail reforms is that a man getting imprisonment for a period of less than one month may not be sent to jail at all in future, but he may be sent to compulsory 'attendance centre' to be established by the Government of West Bengal.

Other measures suggested in this respect include provisions for supply of a cup of tea in the morning to each of

the prisoner irrespective of his class or category, organisation of production centres and employment bureau exclusively for prisoners.

These along with other minor reforms aimed at providing more amenities for jail inmates were discussed at a conference between the Minister of State for Jail, Mrs. Purabi Mukherji, and leaders of some opposition parties and groups in the State Assembly at the Writers' Building some time ago.

PAGODA IN EDEN GARDENS

A proposal is initiated by the Mahabodhi Society of India, the Secretary of which has suggested to the Government of West Bengal in course of a memorial that the once beautiful Pagoda temple of Buddha, which was bodily lifted out of the Burmese soil exactly 101 years ago and replanted in Eden Gardens, should be looked after by the Society which would give an assurance that it would be maintained, as it should be, as a lovely specimen of temple architecture of Burma.

The old Pagoda is crumbling down daily. Its cornices, crowns and wooden roof are no longer tightly held together. It was originally a Buddhist temple in the town of Prome in Burma. Lord Dalhousie, the British Viceroy, on a visit to the place took fancy on this Pagoda and proposed its removal to Calcutta.

The Pagoda was removed in 1854 during the months of August and September and was set up in its present site in 1856 during the months of October and November. What was, however, a loss to Burma was a distinct gain to Calcutta. For the last 100 years the Pagoda has been a fascinating sight for the visitors, native and foreign, to the city.

IMPORT OF 'FLU AGAIN

International airports in India have been alerted by the Union Health Ministry against the import of 'flu virus into this country.

Government of India, it is gathered, are apprehensive of another 'flu wave visiting this country from foreign lands. As a precautionary measure, therefore, a warning has been issued to airports dealing with travellers from abroad.

"LIBRARY DAY"

This year "Library Day" will be observed on December 20 as usual in a befitting manner throughout West Bengal under the auspices of the Bengal Library Association. The Association has decided to organize a week-long exhibition in Calcutta on this occasion. The exhibition will consist of the following panels:

Wall pictures and posters depicting the short history and growth of different libraries of Calcutta. Display of rare books, journals etc., of those libraries.

Similar wall pictures and posters about Bengal Library Association.

Libraries and mass education programme in First and Second Five-Year Plans.

Library development in other Indian States as well as in foreign countries.

Important Bengali books published in 1957; also basic Bengali books suitable for different libraries.

Modern book printing and book production

Book binding.

Modern library furniture and equipment.

The Association cordially invites co-operation from different libraries, cultural organisations, printers, book traders, binders and interested individuals for the success of the exhibition.

POET KUMUD RANJAN

University of Calcutta have decided to award its "Jagattarini Gold Medal" for 1967 to the eminent Bengali poet, Shri Kumud Ranjan Mullick.

The medal instituted by late Sir Ashutosh Mukherjee, is given by the University out of its endowment fund to one who is considered by the Syndicate as the most eminent man of letters.

INDIAN MEDICAL ASSOCIATION REFUTE CHARGES AGAINST CITY HOSPITALS

Dr. B. P. Tribedi, out-going President of the Indian Medical Association, Calcutta Branch, told Press reporters on Friday, at a Press Conference convened by him, that the present administrative set-up in the hospitals of the city was not conducive to fostering better relations between attending physicians and the patients.

Dr. Tribedi stressed that the abnormal increase in the number of patients, without corresponding increase in the number of physicians and the facilities were the major factors which should be blamed for these lapses.

Dr. Souren Sengupta, Secretary, expressed the view that even under the present conditions there was 80 per cent. chance for improvement of service if money and allotted materials were made quickly available to the physicians. He cited instances where money allotted for opening 200 beds in city hospitals remained idle because it could not be spent according to the "whims of a particular man" in the administration.

It is understood that the Indian Medical Association is withdrawing its representatives from the Medical Relief and Co-ordination Committee set up by the Government of West Bengal.

CATTLE SHOW AT PATIPUKUR

The Eastern Regional Cattle Show was held in Calcutta (Patipukur) on November 24 and this was followed by a Poultry Show on November 27. H. H. the Maharaja of Patiala inaugurated the cattle show.

The Show concluded on November 29 when cash prizes of Rs. 15,000/- was given away to the successful livestock breeders in addition to a large number of cups and trophies.

About 772 entries were received from West Bengal, Assam, Bihar, Orissa and Tripura for the Show. Out of them 337 were for poultry while the rest for cattle, sheep and goats.

The All-India Cattle Show Committee which organised this regional show provided free tented accommodation to the breeders and free ration for their exhibits. In the show there were 20 demonstration stalls to educate the exhibitors on various scientific methods of animal husbandry and cultivation.

ELECTION TO W. B. LEGISLATIVE COUNCIL

Ten additional members—Congress—6, Communist Party—2, Proja Socialist Party—1 and Forward Block—1 have been elected to the West Bengal Legislative Council. The seats were filled on the votes cast by the members of the West Bengal Assembly on Monday last.

Altogether 13 candidates—Congress—7, C. P. I.—2, P. S. P.—2, Forward Block—1 and Independent—1 contested for the ten seats.

The following are the elected members.

Congress: 1. Dr. Raghunandan Biswas, 2. Shri Arabinda Bose, 3. Sm. Abha Chatterji, 4. Shri Biswanath Mukherjee, 5. Shri Jimut Bahen Sen and 6. Shri Ram Lagan Singh.

C. P. I.: 1. Syed Naushar Ali and 2. Shri Satish Chandra Pakrashi.

P. S. P.: Shri Naren Das.

Forward Block: Shri Bibhuti Bhushan Ghose.

According to the new provision West Bengal Legislative Council will have altogether 75 members in place of the existing 51. With the filling up of ten seats 14 seats still remain to be filled by the Local Bodies, Teachers and Graduates Constituencies.

ASSEMBLY IN SESSION

The winter session of the West Bengal State Assembly commenced from November 25. Some of the items that are likely to be discussed are food, refugee rehabilitation, secondary education and taxes.

Government's reoriented attitude towards migrants from East Pakistan, as indicated at the last Darjeeling Conference and in the Parliament is expected to be pinned down by the Opposition side.

The session's legislative programme includes 17 Government Bills.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 3rd December, 1957 up to 2 p.m.

Notice

The Standing Health Committee of the Corporation of Calcutta appointed a Sub-Committee, constituted as shown below, to carry out sifting investigation into the charges of gross mismanagement in the administration of different hospitals in the city:—

1. Dr. S. B. Mukherjee (Chairman),
2. Dr. S. K. Sett, Councillor,
3. Dr. K. P. Ghosh, Councillor,
4. Dr. B. C. Basu, Councillor,
5. Dr. S. Sen Gupta, Associate Member,
6. Dr. S. K. Dutt, Representative of the Indian Medical Association,
7. Shri Anil Moitra, Councillor,
8. Shri Nepal Chandra Sen, and
9. Shri Manindra Narayan Ray, Representative of the Indian Journalist Association.

The Sub-Committee hereby invite representative organisations of citizens, Medical practitioners, Association of medical students, trade union of hospital employees and all citizens, who are

interested in the subject to send memoranda (with 3 copies in each case, if possible, of their complaints and suggestions) to the Chairman of the Standing Health Committee, Corporation of Calcutta, Central Municipal Office, 5, Surendra Nath Banerjee Road, Calcutta, by 15th of December, 1957.

Only such complaints will be entertained and investigated by the Committee of Enquiry as relate to hospitals and dispensaries, which are in receipt of Corporation grants and which the parties making them are in a position to substantiate. All suggestions for improvement of hospital administration will be examined by the Committee with utmost care and respect.

A. MUKHERJEE,
Offg. Health Officer.

CENTRAL MUNICIPAL OFFICE:
The 12th November, 1957.

The Disinfecting boiler at the Central Disinfecting Station, Corporation of Calcutta, 149, Lower Circular Road, Calcutta, has since been put into commission after inspection by the Government and certain necessary repairs to the steaming machine.

The Local Hospital authorities and the members of the public concerned are now hereby requested to send their infected articles to the said station for disinfection, as usual.

I. N. SARKAR,
Offg. Health Officer.

Central Municipal Office:
The 27th November, 1957.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 a.m. to 7 p.m.; between 7 p.m. to 12 a.m. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

S. M. MURSHED,
Offg. Superintendent. S. S. Hogg Market,

THE MAYOR TAKES A ROUND ON THE CITY

The Mayor Dr. Triguna Sen has started inspection of different Wards in the City since November in connection with his scheme of giving more amenities to the citizens. He has already covered many of the areas in the City and its added areas in co-operation with the local Councillors. The Mayor inspected Ward No. 75 along with Councillor Usha Nath Sen on December 4, Shri M. Das, Deputy Chief Engineer, was also present on the occasion.

A PRIZE DISTRIBUTION CEREMONY

The Annual Prize Distribution Ceremony of the Corporation Primary School at 7, Ezra Street, Ward No. 39, came off on Sunday, the 1st December, in the Writers' Buildings Canteen Hall (ground floor). The function was largely attended. Music, recitations, playlets, presented by the students of the School, were appreciated by all.

Shri I. D. Jalan, Minister, Local Self-Government Department, West Bengal, (sitting at the centre) inaugurated the function. Councillor K. L. Dhandhanua, Chairman, Standing Finance Committee, (sitting right to Shri Jalan) who presided, asked the students to imbibe the virtue of great men as well as to become true co-operators in the civic administration of this vast city. Councillor Mohan Lal Ghosh (sitting left) gave away the prizes. The Headmaster of the School Shri B. N. Tiwari, presented the Annual Report (sitting on extreme right).

VIEWS AND REVIEWS

ADULT FRANCHISE

The Corporation at a special meeting on the 29th November last, has claimed to introduce the system of adult franchise in matters of election of the Councillors. It has further claimed that the system would come into force from the next General Election of the Corporation scheduled to be held in the year 1961.

The demand to introduce the system has rightly echoed the voice of the citizens when a greater amount of consciousness have grown in them. Besides, the present constitution of the Government of India pledges for equal rights in the matter of franchise particularly at the moment when the same has been tested twice in the soils of the country in matters of Parliamentary and State elections. Thus the democratic constitution of the country promises a kind of adult franchise for the Local Bodies in India.

But one has to pause for a moment when we think of introducing adult franchise in case of Local Bodies. Viewing from an acute angle, limited franchise was the slogan in elections of Local Bodies in many of the advanced countries until the other day. Property qualification was found to be the best solution as the incidence of taxation fall mainly on those having immovable properties. And even to-day, in Canada and in South Africa that qualification still holds good. In Japan and in Finland, payment of taxes for a certain period was the criterion for inclusion of one's name in voters' list. This has been based on the principle that one who pays from his pocket must have an absolute voice to mould the destiny of the body he belongs.

Since then the idea has been changed during the early part of this century. Co-operation, co-existence, socialization and others are the slogans of these days when every individual has a right to stand shoulder to shoulder with others irrespective of the monetary qualifications he has or has not. Liberal ideas have grown up. And to-day many of the countries have introduced the system of adult franchise in their Local Bodies' Elections. Adult franchise has become a general feature in the elections of the London County Council, Rome Corporation, Chicago Corporation and many other important cities of the world.

The Calcutta Municipal Act of 1923, although envisaged a democratic form of constitution lacked in this respect and provided a kind of limited franchise for the property holders and tax-payers only. The latest Act of 1951, at present governing the Corporation, has extended the franchise to a large extent. It has provided voting qualification for those having educational qualifications. It may be recalled here that the Corporation Investigation Commission was in favour of adult suffrage while putting up its recommendations. It felt that the matter should receive an immediate attention in view of the fact that when Bombay and Madras Corporations have not only introduced the system of adult franchise but have also tried with it successfully.

From the above we can conclude that the Corporation's move in this regard is a laudable one and it would receive due recognition in the hands of the State Government in the shape of amending the present Act to introduce the adult franchise system. There is no case for depriving

a major part of the citizens from enjoying the benefits of universal adult suffrage which would mean the negation of democracy at the bottom i.e., at the Local Self-Government level. Rather it would be conducive to an unhealthy growth of democracy at the State level.

NEW MAYOR OF MADRAS

It is gratifying to note that Shrimati Tara Cherian has been unanimously elected Mayor of Madras for the coming year. This is the first time in the history of the Madras Corporation that a lady has been elected to the Mayoralty since its birth twenty-five years ago. Bombay has shown the path when the Corporation elected a lady to the high altared chair a few years back.

Shrimati Cherian is the wife of the President of the Madras Legislative Council, Dr. Cherian who was also the Mayor of Madras for a term in 1949.

Shrimati Cherian has been a member of the City Council for eight years now, having been Alderman the first six years. She was elected to the Council in her current term from the Madras University Senate of which she is a member.

Keenly interested in social service and cultural activities Shrimati Cherian is also a member of the Advisory Boards of a number of social service organizations in the city and the State.

Shri D. Parthasarathy Chetty has been elected as the Deputy Mayor of Madras.

In Calcutta we have at present a member of the fair sex in the group of Aldermen who has much social activities at her credit. In the past ladies who had adorned the Council Chamber were equally notables with the present one and they had ably guided the House in its deliberations as well as had hands in shaping the policy of the Corporation. And from the past tradition it can safely be said that in near future Calcutta might follow the footprints of her sister Corporations.

EPIDEMIC DISEASES

A Press Note of the West Bengal State Government states that Small-pox and Cholera have been declared as epidemic diseases in the city of Calcutta. Government have, accordingly, prescribed temporarily regulations for the prevention and control of small-pox and cholera and for the medical inspection, isolation, observation and surveillance of persons suffering from or suspected to be infected with, small-pox or cholera in the city for a period of six months with effect from the 27th November, 1957.

SHRI BROJENDRA K. ROY CHOUDHURY PASSES AWAY

With a deep sense of sorrow we announce the death of Shri Brojendra Kishore Roy Choudhury of Gouripore, Mymensing, on Friday morning, the 29th November last at his residence, Ballygunge Circular Road. Death came after an attack of heart-failure. He was 88.

A pioneer in the field of political emancipation of the country and a prince among the philanthropists the late Shri Roy Choudhury had earned a

name for himself as well as for the family of the Gouripore Zamindars towards the early part of the Twentieth Century. Himself being a musician of the classical school he was also a great patron of others of the same school and this was another reason why his name spread throughout the country. The resoluteness of his character was superb and this inspired him to renounce the hereditary title of Maharaja twice conferred upon him during an alien rule.

The late Shri Roy Choudhury's contributions to the advancement of learning in the country was remarkable. He donated a sum of Rupees Five Lakhs for the building up of the National Council of Education, Jadavpur. His pecuniary aid for the national cause has also been acknowledged. This relates from the Swadeshi Days in Bengal under Shri Aurobindo.

In the promotion of national industries and commerce his enterprise was no less than the other pioneers. He was one of the founders of the Hindusthan Co-operative Insurance Society Ltd. The late Shri Roy Choudhury's eventful career can be illustrated in different other aspects.

The death was also widely mourned. As soon as the death news spread a large number of admirers and friends rushed to his place and joined the funeral. The Mayor, Dr. Triguna Sen, Dr. N. C. Sen Gupta, several noted classical musicians and many others were present. Wreaths were also placed on behalf of different organizations and on behalf of individuals including the State Chief Minister, Dr. B. C. Roy.

The Corporation at its weekly meeting on the same day mourned his death and adjourned its sitting for ten minutes as a mark of respect to his memory. The death was referred to in the House by the Deputy Mayor, Shri Keshab Chandra Basu, who presided the meeting. Eloquent tributes were paid to his memory by the speaker.

We also offer our sincerest condolences to the members of the bereaved family.

DEATH AND DISEASES IN THE CITY

During the month of November 1957, the city had comparatively a smaller number of deaths from the epidemic diseases. Attacks and deaths from cholera during the weeks ending the 2nd, the 9th, the 16th, the 23rd and the 30th November were 40 and 15 respectively.

The total number of attacks from small-pox during the last three weeks of November were 12 while deaths numbered nine only.

Malaria caused seven deaths altogether during the five weeks of November while 84 persons died of typhoid during the same period.

Tuberculosis tolled the highest number of deaths during the period and the number rose to 162.

Deaths from all causes totalled 3,208 during the five weeks of November—the average number being about 640 in each week.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-SIXTH ORDINARY MEETING OF THE CORPORATION
HELD ON FRIDAY, THE 29TH NOVEMBER, 1957.

CONDOLENCES

The House paid homage to those who were killed in the recent Calcutta-Bombay Mail derailment. Two minutes' silence was observed as a mark of respect to the memory of them.

KUMAR DEBENDRA KHAN ROAD

The House re-named Minto Park and Bhowanipore Road as Kumar Debendra Lal Khan Road. The decision was cheered by the members 'when the proposal was put up for approval in the House'. It was initiated by Councillor Subrata Kumar Sen Sarma and was duly recommended by the Borough Committee No. 18.

The name of Kumar Debendra Lal Khan is widely known in that part of the city for his long association with many of the philanthropic and charitable institutions. One of the stalwarts of political movements in Bengal the name of late Kumar Khan spread all over the country. His popularity was beyond question and he was elected to the State Legislative Assembly in 1937 when the Provincial Autonomy came into existence. The late Kumar Khan was later on elected to the Central Legislature from the Burdwan Division. He was also a man of liberal disposition and contributed largely for the cause of country's freedom movement. He was a close associate of the late Shri. Sarat Chandra Bose and Shri Subhas Chandra Bose.

The name Minto Park came after the name of Lord Minto, one time Governor-General of India.

TOLLYGUNGE AREA TO BE SUB-DIVIDED

The House decided to move the State Government in order to incorporate the Corporation's suggestion in sub-dividing Tollygunge area into fifteen isolated Wards or Constituencies in the proposed amendment of the Calcutta Municipal Act, 1951. The suggestion specifically mentioned that the present Ward No. 77 should be sub-divided into three wards. The proposal came in the shape of a motion tabled by Councillor Nripendra Nath Banerjee, representing Ward No. 77.

It may be recalled here that a similar motion was tabled by Councillor Raj Satyendra Nath Mitra on an earlier occasion.

The newly merged Tollygunge area is at present divided into the five Constituencies comprising of one Borough Committee holding a population of more than four lakhs with an area of over nine square miles.

A GIST OF PROCEEDINGS OF THE SPECIAL
MEETING OF THE CORPORATION HELD ON
FRIDAY, THE 29TH NOVEMBER, 1957.

ADULT FRANCHISE IN CORPORATION ELECTION

The Corporation decided to move the Government of West Bengal, Local Self-Government Department, to amend the relevant portion of the

Calcutta Municipal Act, 1951, so that the Electoral Roll of the Corporation for the future elections of Councillors be prepared on the basis of adult franchise in the same manner as it was applied in Parliamentary Elections in India.

The original motion of Councillor Anil Moitra, Leader of the U.C.C. Party with certain amendments by Councillor Parimal Kumar Sen Gupta, was carried amidst cheers. Councillor Ranajit Coomarr Mitter seconded the original motion.

Tabling the motion at the Special meeting, Councillor Moitra said that the motion sought to remove only the glaring anomaly in the constitutional framework of the Indian Union which pledged a democratic form of Government for the country with universal franchise to all.

While agreeing in principle to the question of adult franchise in future elections of Councillors, Councillor Dhiren Bose in his amendment sought to authorize the Mayor to work out the details in this connection in consultation with the Party leaders. But this was not agreed by the House.

A prolonged discussion ensued participated in by Councillors S. K. Gupta, I.C.S., Bejoy Kumar Banerjee, Samar Rudra, Dr. Himangsu Kumar Das, Ganapati Sur and others.

NEW DRUGS FOR TREATMENT OF DIABETES

The programme of research, recently concluded at the Central Drugs Research Institute, Lucknow, has produced valuable data to determine the efficacy of certain indigenous Indian drugs in the treatment of diabetes.

The full significance of the results obtained in this connection can be realised only when it is remembered that no medicine capable of giving radical and speedy cure of diabetes has so far been invented. The Researches carried out in the West have as yet yielded but only partially successful cures for this disease.

The diabetes was not unknown to ancient Indian physicians. Some well-known medical classics in Sanskrit written in the period between the 1st and 5th century A.D. contain adequate descriptions of diabetic disorders. Although many wonderful claims of cure by using certain well-known indigenous drugs have come down to us, reliable records about the lines of treatment followed by early Ayurvedic and Unani physicians are, however, lacking.

As part of the Government of India's programme to promote research in the Ayurvedic and Unani systems of medicines so as to place these systems on a modern scientific basis, a group of medical scholars and researchers associated with the Drugs Research Institute in Lucknow took up on themselves the task of testing by scientific methods the claims made on behalf of certain indigenous drugs as to their effectiveness in the treatment of diabetes.

A number of indigenous roots and plants were examined and experiments were conducted on artificially produced diabetic conditions in laboratory-bred rabbits and also on human diabetic patients. The experiments have yielded valuable data on the diabetic curing qualities of some common Indian drugs and on the manner in which these drugs can be best utilised for treatment of diabetic cases.

CIVIC NEWS FROM FAR AND NEAR**BADURIA MUNICIPALITY**

General Election of Commissioners of Baduria Municipality was held on the 24th November last. Out of twenty-four candidates contesting in 18 seats from the eight Wards, the following have been elected :—

Ward I—Shri Nandalal Sirkel, Shri Ganesh Chandra Banerjee and Janab Azizur Rahaman Biswas. Ward II—Shri Gourdas Kabasi and Janab Karim Bux Mondol. Ward III—Shri Bhowani Sankar Roy Chowdhury. Ward IV—Janab Osman Ali Mondol. Ward V—Shri Asit Kumar Nag and Shri Brindaban Chandra Chatterjee. Ward VI—Shri Bijoymadhab Mondol and Shri Debnath Banerjee. Ward VII—Shri Manmathanath Bhattacharyya. Ward VIII—Shri Sailendra Nath Chatterjee (Uncontested).

JAYNAGAR-MAJILPUR MUNICIPALITY

In the General Election of Jaynagar-Majilpur Municipality held on the 24th November last, fourteen candidates contested seven seats in the three Wards. Two candidates from Ward IV were elected unopposed. Nearly 77 per cent of the voters exercised their franchise.

The following is the result of the election :—

Ward I—Shri Kana'lal Pal and Shri Lalit Mohan Dutta.

Ward II—Shri Durgacharan Purkait, Shri Jatindra Nath Bhattacharyya and Shri Birendra Nath Bhattacharyya.

Ward III—Shri Prasun Kumar Ghose and Shri Hirendra Nath Mitra.

Ward IV—Shri Sachindra Nath Banerjee and Shri Dilip Kumar Bhattacharyya.

NORTH DUM DUM MUNICIPALITY

In the election of North Dum Dum Municipality held on the 24th November last forty-one candidates contested in six wards.

The following is the result of the election :—

Ward No. 1—Shri Sristydhara Ghosh, Shri Narendra Nath Ganguly;
Votes recorded—70.48 per cent.

Ward No. 2—Shri Anil Kumar Chakraborty, Shri Jyotirmoy Roy;

Votes recorded—72 per cent.

Ward No. 3—Shri Deva Prosad Roy, Shri Sub Charan Chatterjee, Shri Govinda Chandra Banerjee;

Votes recorded—70.46 per cent.

Ward No. 4—Dr. Subodh Chandra Roy, Shri Janendra Chandra Dey;

Votes recorded—70 per cent.

Ward No. 5—Shri Sailendra Nath Roy Choudhury, Shri Sashi Bhusan Chakravarty;

Votes recorded 74.5 per cent.

Ward No. 6—Shri Manoranjan Banerjee.

MIDDLES**A NEW MATERNITY HOSPITAL IN CITY****Mayor's Enterprising Role To Raise City's Hospital Conditions**

CALCUTTA citizens will be relieved of to hear that another Maternity Hospital has just been inaugurated in the city under the auspices of the Daridra Bandhab Bhandar, an important philanthropic institution in the northern part of the city. The hospital and child welfare centre, named as the Mohananda Brahmachari Sebayatan has been located in the Kankurgachi area.

The inaugural ceremony was held on Sunday, the 1st December. The Mayor, Dr. Triguna Sen, who performed the ceremony, said in that connection, that linked with the name of that great Saint the institution would inspire all for selfless sacrifices for the cause of suffering mankind and there lay the true salvation of the Humanity. The Mayor further believed that the efforts of the Bhandar would be crowned with success when a larger number of such institutions would spring up in different corners of the city. He also hoped that public co-operation would never be wanting in efficient running of the Hospital.

The Maternity Hospital has been built on a plot of land measuring about 84 kottahs donated by Shri Narendra Nath Paul. Shri Paul and his brother have donated Rs. 20,000 in cash. A cook of the family has also placed his entire savings for the purpose.

In extending thanks, Shri Chandra Sekhar Gupta, Secretary of the Bhandar, acknowledged the contributions made by different philanthropists and others in building up the Hospital.

On the same day, the Mayor, Dr. Triguna Sen, visited the Ramkrishna Mission Seva Pratishthan Hospital at Lansdowne Road, South Calcutta. He was received by the Swamis and taken round all the departments of the institution. He was pleased to see the newly installed 500 ma. X-ray plant, well-equipped operation theatres and the automatic laundry unit. He also visited the Nurses' Hostel. During his stay for nearly two hours he discussed about some details of its working, future improvement and extensions, problem of shortage of space, etc., and took keen interest in the development of this General Hospital.

WEST BENGAL LEGISLATURES

The State Legislative Assembly has started its winter session on the 25th November last. The State Council also met for few days during these days.

The two important Bills so far introduced in the Legislature are the Slum Clearance Bill in the Assembly and the Board of Secondary Education Bill in the State Legislative Council. State Legislative Assembly discussed important topics. The House discussed on question of increased Dearness Allowances to the municipal employees and the question of introduction of automation and rationalization in industrial establishments during the first few days.

Slum Clearance And Economic Point Of View

[By A. G. SHEPPARD FIDLER, M.A., B.Arch., A.M.T.P.I., F.R.I.B.A.]

(Continued from previous issue)

BARELY 70 years ago large numbers of three-storey semi-detached four and five-bedroomed houses were built by private enterprise in our cities, and commanded a ready sale. They were intended for middle-class families, larger than the present average, with a resident servant but no carriage. They are still, alas, structurally sound but too large for single families, difficult to convert into flats, almost impossible to heat efficiently and economically, while their narrow frontages make the provision of garages a virtual impossibility.

Between the wars, too, there was a preponderance of three-bedroom, five-person housing—usually in semi-detached blocks, without garages. Birmingham Corporation alone built some 51,000 houses in this period, mainly of this type, and private enterprise 60,000 more. All this building took place at a density of less than 10 houses per acre and used up one-fifth of all the land in the city. These houses are, of course, structurally sound and, with care, are likely to remain so for at least another 50 years—but their inflexibility of accommodation is likely to aggravate the problem of fitting families to houses, for reasons of under-occupancy or multiple occupancy, for households are increasing in number and growing smaller in size and the number of old people is growing quickly. In 1951, 116 persons in each 1,000 of population were over 65 years of age; by 1971 this figure will have risen to 170. We should, therefore, attempt to plan for the future in providing homes for the people. We are pledged to build "mixed development": a variety of size and type of dwelling, but we are still assuming a stable population structure and largely shutting our eyes to the definite trends I have just mentioned. Will the next generation curse us for being shortsighted? What can we do now? I leave this vital question for general discussion, but may I suggest a possible line which may help to ease the problem? Should we now build a proportion of houses on a flexible unit basis so that two houses may be easily converted into three, and so on? The matter is urgent, for we need at least 1,000,000 houses now and another 4,000,000 as soon as possible.

THE ADMINISTRATIVE PROBLEM

Turning for a moment to the administrative side of the problem, for most planners will know that Birmingham is, I believe, unique in that it is carrying out very large-scale slum clearance and redevelopment, as a result of powers granted under the provisions of the 1944 "Blitz and Blight" Act. Long before the passing of this Act, the city had turned its attention to the problems of urban blight and the need to redevelop large areas lying close to the centre. As in other places,

these are the areas of worst slums, with overcrowding and indiscriminate building, outworn street pattern, few amenities such as open space, and, especially in Birmingham, industrial premises, large and small, mixed with housing to a wholly incredible degree, and with scattered bomb damage to increase the confusion. It was due in no small measure to the foresight of the city surveyor, Sir Herbert Manzoni, and to the determination and courage of the City Council, that such steps had been taken before the war that Birmingham was able to take such immediate action on the passing of the 1944 Act. The city had already defined five areas, covering nearly 1,400 acres (with 30,000 houses, 2,500 shops and 2,000 factories, etc.), surveys were complete and draft zoning and tentative lay-outs had been made. The City Council approved the project in 1945 and made a Compulsory Purchase Order in February, 1946, under Section 9 of the Act. The Public Inquiry was held in July, 1946, and the Order confirmed by the Minister in June, 1947. The city was also given the great advantage of powers to acquire by expedited completion. This may, I am sure you will agree, be called a flying start.

Birmingham is fortunate, therefore, in being able to deal with really large areas comprehensively and able to look at the problem in its broad aspects. It is also Planning Authority and Housing Authority, and although many separate committees are concerned with the work of redevelopment, they are, so to speak, under one roof, and progress is quicker, as difficulties can be smoothed out by easy consultation. In country boroughs these same conditions generally apply although Section 9 procedure of the 1944 Act is no longer available. Present procedure, as you know, is by way of the 1947 Town and Country Planning Act, by which areas of comprehensive development are defined by the Planning Authority. The proposals for development must show the zoning and the Authority must be prepared to give basic information about the condition of property within the area. Then follows the making of the Order, the almost inevitable compulsory purchase, public inquiries, and so on. When all this is done, the Housing Authority participates in making the detailed plans for development of housing areas. In the case of non-county boroughs, close working arrangements and collaboration are vital to success between it and the County Authority, the Planning Authority under the Act. This collaboration must be in being during the whole operation, not only while the area is being surveyed and defined, but also during the planning of development stage by stage.

(To be continued)

Musing Of A Musafir

[By SREENPROKASH]

SINCE the inception of the creation of the Calcutta Municipal Corporation as a Self-governing institution for rendering civic amenities to the tax-payers by the elected representatives in 1928, the then foreign rulers took a sort of step-motherly attitude. Whatever step—good, bad or indifferent had been adopted in the Corporation for improving the civic administration was sabotaged by the foreign rulers firmly entrenched in Provincial and General administrations. As such Corporation Councillors had to wage a political fight to maintain and safeguard their constitutions. Thus the Calcutta Corporation was turned into a citadel of a political arena due to the machinations of foreign rulers. During the League rule in Bengal, a leader of the European group put in a resolution in the Bengal Legislative Assembly to amend the Act of the Corporation with this remark that Calcutta is the creation of the British out of three unknown villages. To break through the majority of undesirable Congress Councillors as City Fathers, these amendments were accepted. It was a political move for the seizure of power by the Britishers to rule their city of creation. By a much higher and better political manoeuvre Netaji Subhas Chandra Bose silenced once and for all these British aspirants with this that Indians and not foreigners should rule and shape the civic administration of the biggest city of Asia henceforward.

How prophetic he was. Henceforward a regular bull fight continued unabated to the neglect of the main functions of the civic administration. It became an Augean Stable. The collection and realization of taxes reached its lowest ebb and the structure was on the verge of collapse. Due to heavy military traffic and bombing and A. R. P. work the city was badly damaged. Civic amenities were unthinkable because of the paucity of funds. To replenish the empty treasury and to revitalize the administrative machinery in the light of the findings of the Biswas Committee, the Corporation was superseded by the West Bengal Government with the appointment of an Administrator. The administrative regime failed to tone up the administration properly but they did succeed in raising the revenue of the Corporation from Rs. 3,48,00,000 to Rs. 7,80,00,000 lakhs. The war-damaged roads, dilapidated conditions of the park, lighting, water supply, primary education, sewage and public health condition remained where they were before. The administrative regime was responsible for a new Act of the Corporation known as the Act of 1951 in which a few major changes have been introduced. The appointing authority for superior posts has been vested in the Municipal Service Commission, a new body created for the purpose. The head of the administration is renamed as the Commissioner of the Corporation. He has been given the power to appoint men whose salaries do not exceed Rs. 249/- where Service Commission Members have no jurisdiction. But the Commissioner is liable to be removed by the majority votes of the Councillors. As Shakespeare put it "What 'S' in a name"? Like the Chief Executive Officer of the halcyon days

the Commissioner is to remain for five years. In 1928 Act, Netaji Subhas Chandra Bose was the first Chief Executive Officer and in 1951 Shri B. K. Sen became the Chief and is continuing as Commissioner for the second term of five years.

During the elections held under the new constitution energetic Councillors have to serve the tax-payers with new ideals and ideas. Shri B. K. Sen with the help and co-operation of the Aldermen and Councillors has transformed some of the phases of the city from fantasy to fact. The parks, the lungs of the city, have been beautified. The lighting has been immensely improved. The water works project to give more water has been taken up in right earnest and with the completion of the project, water scarcity of the city will be a thing of the past. Roads are being improved. The two Calcutta—City and Bustee—are being remodelled. When the financial resources will be available from Central and Provincial Governments, Calcutta will look like cities of Europe and America, for which a real move has already begun. A comprehensive and systematic attempt is being made to arrest the spread of epidemic diseases with different batches of expert doctors and assistants to make house to house inoculations for small pox and cholera. These improvements were never attempted before. A regular campaign in the shape of publicity and exhibition is carried on by the Public Relations Officer with the instruction of the Commissioner of the Corporation. The drive against khatalas has already started for a cleaner Calcutta. The regular pure milk supply by the Milk Commissioner of West Bengal with the direct help of the Commissioner of the Corporation has been reassured from Harin-gkata. It is an unassailable fact that the present administrative machinery is moving slowly and steadily to remove bustees, to make green belts around the city, to give better lighting, to maintain ideal market, to clean underground drains and also to devise schemes for adequate pure water supply to the tax-payers. In no other regime tasks so gigantic were ever undertaken. Still there remains much to be done for Calcutta. Due to improvised shops, marketing arrangements and residence on the footpaths pedestrians fail to utilize their services meant for them. Men by defilement on the thoroughfares spread germs of diseases. But Corporation is helpless in preventing these. In other countries Mayor is the Chief of Constabulary and he can requisition the police force for immediate action. But here he is to depend on the West Bengal Government and Lal Bazar. So long as the social education of the people fails, is it not proper to use the rod of Peter the Great? After all, it must be an uncharitable remark if we hold Corporation administrative machinery wholly and solely responsible for dirty Calcutta. In conservancy matters it is my personal experience that roads, lanes, by-lanes and blind lanes are cleaned regularly in early morning but after cleansing garbage and litter from adjoining houses these are heaped on the roads which may remain there for long hours, till the cleaning gang reappear. Are the Corporation men responsible for this? Certainly and emphatically—No.

WELL-KNOWN SWIMMER FETED

Standing from left :—

Shri Profulla Ghosh, Shrimati Ila Ghosh,
Dr. Anath Bandhu Roy, Health Minister,
Master Ghosh, Shrimati Sadhana Devi and
Shrimati Kabita Nandi.

The famous swimmer Shri Profulla Ghosh and his wife Shrimati Ila Ghosh were feted by the members of North Calcutta Mahila Chetana Samity on November 23 last. The function was held at Madan Gopal Bhawan, Goswami Para Lane, Hatkhola, Calcutta. Presiding over the function, Dr. Anath Bandhu Roy, State Minister for Health, spoke highly of Shri Ghosh's feat and emphasized on the need for taking swimming as a part of physical exercise to maintain good health. Shrimati Purabi Mukherjee, Minister for Relief, Rehabilitation and Prisons, while delivering her speech as a Chief Guest of the function, requested the ladies to take up the cause of social work and emancipation of women in the country. Among those present were Shri Biren Pal, Shrimati Indira Devi, Sujata Roy, Bandana

Roy, Bindubasini Bhattacharya, Kamala Chowdhury, Shri Sashi Sekhar Paul, Dr. Debendra Mohon Kundu and others.

An exhibition swimming was demonstrated by Shri Profulla Ghosh and Shrimati Ila Ghosh in the Tank at Deshabandhu Park some time ago under the auspices of Mahila Chetana Samity. This Samity is doing social service work in the northern part of the city for a long time. Spread of adult education among women folk, medical relief to the needy and distribution of rice, cloth etc., to the indigents are some of the activities of the Samity that have been undertaken by Shrimati Sadhana Roy, the President and Shrimati Kabita Nandi, the General Secretary of the organisation who are doing immense service to the cause of humanity.

RAPID COPYING PROCESS

News has reached from Britain of the invention, by a private printing firm, of a new and rapid system of copying documents. The system, which is called the "reflex method", is claimed to dispense with the elaborate paraphernalia involved in the existing copying processes. It does not need dark rooms, developing trays, etc. and is capable of producing copies of letters, sketches, pages of books and other documents in less than a minute.

The new process, which is described in some detail in a British industrial review, is quite simple. The original document and a sheet of negative paper are placed on a glass platform on the photo copier and the lid closed over the two sheets. Light rays passed through the negative paper are reflected by the bright parts of the original and absorbed by the dark parts. A built-in clock controls the exposure time.

After exposure for a few seconds, the two papers are fed into the developing unit and carried through machine by rubber rollers which squeeze out the excess moisture collected during development. A few seconds later the two papers can be peeled apart and a true copy of the original obtained.

NO WHIPPING IN JAILS

The West Bengal Government have decided to abolish whipping as punishment for prison offences.

Whipping as a judicial punishment has already been abolished and those sections of the Criminal Procedure Code which contained provisions for whipping have been amended.

The provisions of a legislation to give effect to the decision have been published in the Official Gazette.

It is entitled the Prisons West Bengal Amendment Bill, 1957.

TEACHERS RECEIVE SALARIES THROUGH BANKS

The Corporation of Calcutta has finalised a new scheme for the disbursement of salaries of nearly 1,400 primary school teachers in the city through banks.

According to the new plan small saving accounts will be opened by the Corporation for each of the primary school teachers under their employment and the monthly salaries of the teachers would be diverted to their respective accounts through the banks for encashment according to their convenience.

HOWRAH IMPROVEMENT TRUST

Shri A. B. Chatterjee, I.C.S., Special Officer, Development Department, Government of West Bengal has been appointed the Chairman of the Board of Trustees for the Improvement of Howrah in addition to his own duties, vice Shri H. N. Ray.

METRIC MEASURES

The Indian Standards Institution has issued two more draft standards for metric length measures. Both cover tape measures, one deals with woven metallic cotton tape measures and the other steel tape measures.

The draft standards form part of a series of standards which are under preparation by the Institution in connection with the change-over to the metric system of weights and measures in the country.

An Indian standards specification for commercial metric weights has already been published and another standard dealing with metric capacity measures is expected to be issued shortly. It is also intended that Indian standards for different types of balances and weighing machines should be prepared in due course.

CITY-NEWS-PARADE

OBITUARY: The city has lost a number of important citizens and educationists during the last few days. Mention may be made, first of all, of Shri Ramaprasad Das Gupta, a Lecturer in History, Calcutta University. He died of heart failure due to coronary thrombosis on Tuesday, the 26th November last at his city residence. He was just 60.

The death of Shri Tarini Charan Das, Chairman of Nabin Chandra Das and Sons (Private) Ltd. occurred on the 24th November last at his Calcutta residence. He was 62. He was a grand-son of the late Shri Nabin Chandra Das, the well-known sweet-meat seller in the city. The late Shri Das introduced modern techniques in the manufacture of rassogolla and sandesh.

The Calcutta Corporation at its weekly meeting on Friday, the 29th November last, condoled his death.

Shri M. K. Roy, the noted Geologist, passed away on November 25 last at his residence at Rajani Sen Road. He was 75.

Born in 1883, the late Shri Roy was graduated from the Presidency College, Calcutta in 1904. Obtaining a State Technical Scholarship in 1907 he went to England and there the late Shri Roy obtained B.Sc. (Mining) degree from the Birmingham University in 1910.

The late Shri Roy had the unique distinction of being elected as the President of Geology, Mining and Metallurgical Society for three years in succession. He had been a member of Mineral Advisory Board of the Government of India and in 1956 was elected a Delegate of the Society to attend the 20th International Geological Congress held in Mexico.

Lieut-Col. F. J. Anderson, a prominent surgeon, died at his city residence at Pretoria Street, on Thursday, the 28th November last. He was 71.

Born in Capetown, the late Lt.-Col. Anderson was educated at Epsom, the South African and London Universities and at St. Bartholomew's Hospital, London. He saw active service in World War I and won the Military Cross.

The late Lt.-Col. was a member of the Indian Medical Service, from 1923 to 1934. He was Principal and Professor of Surgery of the Medical College, Visakhapatnam, which he started. Between 1930 and 1934, the late Dr. Anderson was a Professor of Surgery at the Medical College, Calcutta. The late Lt.-Col. Anderson was officiating Professor of Surgery in Madras.

The late Lt.-Col. took great interest in sports and was a well-known owner of race horses.

RED CROSS' MONTH has been inaugurated in the city on Friday, the 29th November last. Presiding at the ceremony held on the lawn of Raj Bhavan, the Governor, Shrimati Padmaja Naidu said that the Government would do its utmost to meet the situation—but it could not do everything alone. Organizations like the Red Cross could render great help in such situations.

Continuing her speech the State Governor said that the Red Cross had rendered yeoman services in the State, where its activities had expanded more than in other States.

The State Chief Minister Dr. B. C. Roy in a message said: "It would be a good thing if every man and woman were to snatch a few moments for

introspection and anything for the less fortunate brothers and sisters! Everybody should hasten to contribute to the Red Cross, which looks after them." Messages were also received from the Union Vice-President Dr. Radhakrishnan, Rajkumari Amrit Kaur, and the Chief Justice of India.

Shri P. C. Sen, Food and Refugee Rehabilitation Minister, as President of the State Red Cross, announced that the Governor had given Rs. 2,500 to the Red Cross.

Dr. Amarnath Mukerji, Chairman of the Red Cross Month Committee, and an Ex-Deputy Mayor of Calcutta, outlined the activities of the West Bengal branch of the Indian Red Cross Society.

Shri Bijoy Prasad Singh Roy, the guest-in-chief, said the spirit of helping people in distress was the tradition in India. The Red Cross activities in India had expanded tremendously since its inception after the first World War. It is the spirit that counted, however small the resources, he added.

SOCIAL & ADULT EDUCATION AND LIBRARY SERVICE opened an Exhibition on the service's activities on Sunday, the 1st December in the Auditorium Hall of the Calcutta University Institute in connection with the observance of the All-India Social Adult Education Day declared by Government of India.

Shri Hiranmoy Banerjee, I.C.S., Development Commissioner, Government of West Bengal, presided and Dr. Kalidas Nag opened the Exhibition.

A number of organisations also observed the day.

Among them mention may be made of Friends' United Club at Girish Park, Samajpati Smriti Samity at 47E, Shampukur Street, and Santi Institute at Sasi Bhushan Dey Street. Councillor Purnendu Sen Gupta inaugurated a lecture on Social Education at Samajpati Smriti Samity and Shri Indu Bhushan Roy presided over Santi Institute's meeting.

ACHARYA JAGADISH CHANDRA BOSE'S Birthday Anniversary was observed in the city through different functions on Saturday, the 30th November last.

In that connection a Memorial Lecture was organized at the Bose's Institute on that day and it was delivered by Dr. D. N. Wadia. He said that during the last century, India and Indians had witnessed events of far reaching importance resulting from fundamental research work by pioneers in the field of science. And no doubt, Acharya Bose was one of them.

Acharya Jagadish Chandra, however, did something more than mere scientific research work; and it was his leadership, which had contributed largely towards encouraging popular writings on scientific subjects, added Dr. Wadia in his lecture on the subject "India and the Atomic Age."

Dr. Wadia, in course of his lecture, also emphasised the importance of nuclear research in India, and envisaged that "within a few years India will have to follow the example of Britain, where electric power for town and factory supply is already being produced by nuclear energy at nearly competitive rates with coal."

In his Annual Report, Dr. D. M. Bose, Director of the Bose Institute, gave an outline of the different items of the programme, proposed to be drawn up for the celebration of the Birthday Ceremony of Acharya Jagadish Chandra on the 30th November 1968. The main items included various publications on the life and work of the Acharya, popular lectures and seminars on scientific subjects and others.

The Films Division of the Government of India, Dr. Bose announced, has decided to prepare a documentary film on the life and work of Acharya Jagadish Chandra.

VITAL STATISTICS

For the City of Calcutta for the week
ending 16th November, 1957.

City of Calcutta (Town and Added Areas.)

There was nil imported death. Excluding this, the death-rate was 11.32.

There were 7 deaths from tuberculosis against 6 in the previous week.

NATIONAL CADET CORPS'

The Ninth Anniversary Day of the N. C. C. was celebrated in the city on Sunday, the 1st December with a ceremonial parade at the Brigade Parade Ground. Twenty-six sections of No. 4 Circle Cadet Corps' three units, comprising 1,680 cadets, participated. Shri Kalipada Mukherjee, State Home Minister, took the salute.

The parade included 539 girl cadets of different sections commanded by 18 lady officers. Nine silver medals presented by the Governor were awarded to the best cadets of each arm of the senior, junior and girls divisions.

At the end Shri Mukherjee said that young men and women should be trained for the country's eventual defence needs. He appealed to the Universities and educational institutions for co-operation so that a greater number of young people joined the National Cadet Corps.

MUNICIPAL SERVICE COMMISSION**NEW APPOINTMENTS**

SUB: Continuance of the temporary appointment of Shri Chandidas Sen Gupta, B. L., as Law Assistant, Law Department, Corporation of Calcutta.

In pursuance of Municipal Service Commission's letter No. 622/M.S.C./1D/1/55 dated the 18th September, 1957 the Standing Finance Committee dated the 6th November, 1957 made the following appointment:—

"That accepting the recommendation of the Calcutta Municipal Service Commission as conveyed in their letter No. 622 M.S.C./1D/1/55 dated 18th September, 1957 the temporary appointment of Shri Chandidas Sen Gupta, as Law Assistant, Law Department, in the leave vacancy of Shri Indu Bhusan Majumdar up to 12th August, 1957 on the initial pay of the grade plus usual allowance be sanctioned."

SUB: Appointment to the permanent post of Mosquito Control Officer, Corporation of Calcutta, in the grade of Rs. 400—20—600 plus M. C. A. of Rs. 100/- per month.

In pursuance of Municipal Service Commission's letter No. 639 M. S. C./1D/81/55 dated the 27th September, 1957 the Standing

Finance Committee dated the 6th November, 1957 made the following appointment:—

"That accepting the recommendation of the Calcutta Municipal Service Commission Dr. Biraja Gobinda Das be appointed in the permanent post of Mosquito Control Officer, in the scale of Rs. 400—20—600 plus M. C. A. of Rs. 100 per month and other usual allowances, subject to the Service Regulations of the Corporation."

SUB: Retention of the Services of Shri Sushil Chandra Guha as Special Officer, Accounts Department up to 31st January, 1958.

In pursuance of Municipal Service Commission's letter No. 628 M. S. C./1D/14/56 dated the 19th September, 1957 the Standing Finance Committee dated the 6th November, 1957 passed the following resolution:—

"That letter No. 628-M. S. C./1D/14/56 dated the 19th September, 1957 from the Secretary, Calcutta Municipal Service Commission regarding retention of the services of Shri Sushil Chandra Guha as Special Officer, Accounts Department up to 31st January, 1958, be recorded."

Rules framed under Section 174 of the Calcutta Municipal Act, 1951 in respect of apportionment of valuation or for separation of number and valuation as adopted by the Standing Finance Committee on the 27th May, 1957 and published in the Calcutta Gazette (Supplement) on the 20th June, 1957 :—

1. Any of the co-owners of any land or building who intends to apply for apportionment of valuation, or for separation of number and valuation, under Section 174 of the Act, shall submit with his application a block plan of the parent holding showing therein in distinct colours, the different portions in respect of which such apportionment or separation is wanted together with documentary evidence, if any, in support of his application.

Provided that in the case of apportionment of valuation among the co-owners according to specified share only without separate allotments, the production of a plan will not be necessary.

2. When an application is received under Rule 1 in respect of any land or building and if separation or apportionment, as applied for, is otherwise admissible under the law, the Commissioner shall give notice thereof by registered post to all the co-owners of the same, as also to all the parties interested, intimating the manner in which the valuation is proposed to be apportioned according to the value of the respective shares, or the different portions are proposed to be valued separately with separate numbers, and inviting objection in writing, if any, to such proposal, to be delivered by the co-owners and/or parties interested against an official receipt for the purpose within 6 weeks from the date on which such notice is served.

The Commissioner shall maintain a register of such applications, giving details of the applications so received by him, and the register will be open to the public for inspection on payment of the prescribed inspection fee.

3(i). On receipt of any objection from any of the co-owners or parties interested notice shall be given by registered post to the objector as well as other co-owners and parties interested of a time and place at which the objection will be investigated.

(ii). At the said time and place the Commissioner or an officer (not below the rank of a Deputy Commissioner) nominated by him shall hear and determine the objection within 6 weeks either by passing an order confirming the apportionment of valuation or separate valuation, as the case may be, as proposed, or modifying the same as he thinks proper or by cancelling the apportionment or separation altogether and restoring the original valuation.

(iii). Every order passed by the Commissioner or an officer (not below the rank of a Deputy Commissioner) nominated by him under (ii) shall be final.

4. An apportionment of valuation or separation of valuation and number made under Section 174 of the Act shall, if not otherwise specifically provided in the proposal or the order passed at the hearing of the objection thereto, take effect from the quarter succeeding that in which the order of apportionment or separation is made, as the case may be, under intimation to the party.

5. An apportionment of valuation or separation of valuation and number in respect of any land or building shall not be made under clauses (i) and (ii) of Section 174 of the Act, if there be any arrears of consolidated rate due therefor for any period prior to the date of receipt of the application for such apportionment or separation.

6. As soon as any separation of valuation and number is allowed in respect of any land or building under Section 174 of the Act, the Survey Map maintained in the Assessment Department shall be corrected in accordance with the block plan submitted under Rule 1.

7. In case of separation of valuation and number under Section 174 of the Act in respect of any building, the owner of each separate allotment shall give a written undertaking to provide a separate water connection to his portion and to stop all intercommunications existing between the different portions within a period of three months from the commencement of the quarter with effect from which such separation of valuation and number may be given to ; and on their failing to do so, the owners of all the different portions shall be proportionately liable to pay for all filtered water supplied in excess of the free allowance permissible in respect of the entire premises in the same way as before separation, and the Commissioner shall have the option to cancel the separation.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District No. 1 Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on the 10th December, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be issued in submission of the tender.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

103. Construction of a Shelter Shed at Children's Corner of B. K. Paul Park, Ward No. 18—Rs. 2,726/- dated 25th November, 1957 (1½ months).

Plumbing Examination

NOTICE.

The Plumbing Examination for granting license under Chapter XIX (Drainage) of the Calcutta Municipal Act, 1951, will be held in the Chief Engineer's Department on Saturday, the 21st December, 1957 at 1 p.m. Candidates who are willing to sit for the examination may apply to the Chief Engineer and the last date for receiving such applications is 14th December, 1957. The necessary fees for the aforesaid examination will have to be deposited on Wednesday, the 18th December, 1957.

M. N. DAS,

Deputy Chief Engineer.

Central Municipal Office:
The 2nd December, 1957.

It is hereby notified for information of those concerned that the Plumbing Examination under Chapter XVIII (Water) will be held on 30th December, 1957, the last date of receiving application and examination fees being the 24th December, 1957.

The intending candidate should submit his application along with 3 copies of his photo and a certificate of his training under an authorised plumber of the Calcutta Corporation for at least three years. No candidate will be eligible to appear in the examination, who has not undergone such training. The examination fee will not be refunded under any circumstances.

S. K. KABASI,

Deputy Executive Engineer,
Water Works.

CENTRAL MUNICIPAL OFFICE:
The 3rd December, 1957.

Auction Sale

NOTICE

It is hereby notified for information of intending buyers that carts seized under Section 227(1) of the Calcutta Municipal Act, 1951 and not claimed within ten days of such seizure, will continue to be sold by public auction, as heretofore, everyday after 3 p.m., excepting holidays, by the Cart Registration Officer at his office at 185/1, Lower Circular Road, Calcutta, until further orders.

A. K. DUTT,

License Officer.

Central Municipal Office:
The 20th September, 1957.

CORPORATION NOTICES—Contd.

To All Registered Petty Improvement Lighting Contractors

DISTRICT NO. III

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 12th December, 1957, up to 2 P.M.

The abstract of the estimate can be seen in the Lighting Superintendent's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer for all works exceeding the value of Rs. 2,500 shall have to deposit 5 per cent. of the total value of the accepted tender as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

P. MAJUMDAR,
Offg. Asst. Collector.

CENTRAL MUNICIPAL OFFICE:
The 4th December, 1957.

Notice

Amendments proposed to be made by the Corporation in respect of the Rules framed under Section 229 of the Calcutta Municipal Act, 1961, regarding the levy of License Fees on advertisements and thereby affecting the schedule of Fees made thereunder are set forth herein below.

Copies of the proposed amendments as also of a statement showing the existing schedule of Fees and the proposed rates will be kept in the office room of the Secretary to the Corporation for inspection by anyone, free of charge, on all working days during office hours. The said amendments will be proceeded with further on or after the 15th January, 1958 and any objection or suggestions with respect thereto which may be received by the undersigned by that date shall be considered.

Printed copies of the proposed Amendments in this behalf together with a statement containing the existing schedule of Fees and amendments suggested thereto will be on sale from the Central Records Office of the Corporation at a price of 0.25 nP. Proposed Amendments:—

- (a) introducing monthly rates in addition to and irrespective of the existing annual rates, in item Nos. (1), (3), (5), (6), (9) of the Schedule of fees;
- (b) introducing weekly rates, applicable to Cinema and theatre advertisements only, in addition to and irrespective of the existing monthly rates, in item Nos. (7), (8) and (11) of the Schedule of fees;
- (c) replacing the existing rate in item No. (10) by a monthly rate on a flat rate basis, subject to the proviso regarding gradation of show houses, as in the statement;
- (d) providing that the existing rate of levy on annual basis in item No. (5) be

subject to such modification as may be prescribed by the Corporation, in case of fees exceeding Rs. 10,000 payable by a particular advertiser, or an advertising agent;

(e) (i) inserting an additional rate of levy in item No. (6) for a space up to 25 sq. ft. for fees payable both on annual and monthly basis;

(ii) altering, consequent on the above change, the wordings of schedule (b) of item No. (6) to read as "for a space over 25 sq. ft. and up to 50 sq. ft." and,

(f) inserting a new clause, as clause (c), in Rule No. 2 providing for the mode of payment of fees on weekly basis, and by deleting Rule No. 3 in toto, as per statement.

B. GHOSH,
Secretary.

Central Municipal Office:
The 29th November, 1957.

Gariahat Market

NOTICE.

To all whom it may concern, that an application has been received from Sri Sisair Kumar Sarkar for the registration of his name in place of the recorded temporary occupier of stall No. 8, M.S.T.—I, Gariahat Market, Sm. Panchu for self and on behalf of her minor son Sriman Ramprosad Mandal and minor daughter Sm. Mandodar.

Objections, if any, to this application should be submitted to the undersigned within 15 days from date hereof.

K. C. LAHIRI,
Superintendent.

Gariahat Market:
The 2nd December, 1957.

Auction Sale

(Public Auction of old Road Rollers on 12th December, 1957 at 10 A.M. at Entally Workshop—3, Convent Road, Calcutta)

The Corporation of Calcutta will sell by public auction the following twenty old Road Rollers at Entally Workshop—3, Convent Road, Calcutta, on 12th December, 1957 at 10 A.M., as they are and where they are.

25 per cent. of the bid will have to be deposited in cash on the spot as Earnest Money. The balance of the money will have to be deposited in cash in the Corporation Treasury within 7 days latest and the Rollers will be released when the full payment has been made. The Earnest Money will be forfeited if full payment is not made within seven days.

Corporation reserves the right to withdraw from the sale if the highest bid is not upto mark.

For other conditions please contact the Controller of Stores, Corporation of Calcutta.

The Rollers may be inspected on proper arrangement with the Manager, Entally Workshop, in Convent Road, Entally.

CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Rs. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-misdeeds by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

VIEWS AND REVIEWS

INCREASED STREET ACCIDENTS

Great concern was expressed by the members of the Corporation on Friday, the 6th December last, as to the increased number of street accidents in the city. Many of the members alleged that Traffic Rules had not been strictly followed in most of the cases while others opined that the road-side garages, workshops and other obstacles on public thoroughfares were equally responsible for such accidents.

The debate was initiated by Councillor Anil Maatra, who speaking on 'matters of public importance' drew the attention of the House to this and suggested that a conference of Police officials and eminent citizens should be convened for adopting effective measures against street accidents.

Councillor S. K. Gupta, I. C. S., also referred to an inconclusive conference held some time during 1955 in this regard and felt that conferences of this sort would help little to ease the situation unless devised methods were strictly followed. He, however, was inclined for holding another conference soon.

Councillor Bejoy Kumar Banerjee also referred to the road-side repair-shops and garages causing obstacles to the footpath treaders. Another referred to the projected rails and beams on footpaths being stored by the hard-ware dealers.

The Mayor, Dr. Triguna Sen, informed the House that he had already asked the Commissioner, Shri B. K. Sen, to call immediately such a conference. He also said that the Corporation was

trying to evolve measures to stop nuisances created by garages and workshops operating on public thoroughfares. The Commissioner, Shri B. K. Sen had been looking into those cases and if necessary the Corporation licenses issued to those repair-shops and garages might be discontinued in order to stop the nuisance. The Mayor also assured the House that there would not be any delay in taking necessary steps in this matter.

Really speaking, the number of street accidents is on gradual increase. Hardly a day passes on in the city without a report of such accidents due to the above stated reasons. The most notable one occurred within a few days was a case when steel girders projecting from a lorry trailer crashed through some windows of a moving tram car at the Beadon Street-Upper Circular Road crossing. It damaged the car, smashed four front seats and caused injury to five persons. Children and minors are also very often the victims of such accidents. Cases of violation of traffic rules detected by the Police between January and June in the West Bengal Police area numbered 24,929. In this city there were 80,170 cases against motor vehicles, of which 16,174 were against lorries.

The corresponding figures during the same period last year show 22,424 cases in the West Bengal Police area. In Calcutta, there were 59,814 cases, including 11,899 against lorries.

It may be noted here, that conferences have already been started in this regard and in one such conference, held recently, wherein the question of solving the congestion and

improving the existing traffic conditions in North Calcutta were discussed. The conference was attended by the representatives of the different bus associations and officials. It was held in the Office of the Additional Commissioner of Police, Traffic, Calcutta, and the Deputy Inspector-General of Police, West Bengal, was also present.

As a result certain decisions were arrived at, and these would come into effect shortly.

LANDS IN BUSTEE AREAS

The Corporation, at its weekly meeting on the 6th December last, requested the State Government to acquire suitable lands in the Bustee areas so that these lands might be utilized as sites for installing water hydrants or establishing health units or such places wherefrom civic amenities could be extended to the bustee dwellers and their miseries might be lessened. This suggestion was made by the Mayor, Dr. Triguna Sen, in course of a speech wherein he appreciated the Government of West Bengal for the Slum Clearance Bill, 1957.

The Mayor said that this long-term project of slum clearance would spread over many years while the citizens' misery would be continuing. Unless something is being done for them we shall be failing in our duties and obligations to them, the Mayor acquainted the House. And for this the State Government was approached earlier for promulgation of an Ordinance for acquisition of the required plots from the land-holders. Certain technical difficulties stood in the way then, the Mayor continued, now the Government has agreed to acquire lands on behalf of the Corporation.

Hence the request to the Government.

(Continued from next column)

delivered a public lecture on 'Land and People'. Geographers' Contributions to National Planning was the subject of another lecture in the Darbhanga Hall, Darbhanga Building, in another occasion wherein the Ex-Mayor, Shri Satish Chandra Ghosh presided.

MR. EDMUND BLUNDEN

Mr. Edmund Blunden, the well-known English poet and literary critic paid a short visit to this city during last week. During his stay Mr. Blunden delivered lectures at the Universities of Calcutta and Jadavpur. He also gave a public lecture at the British Council Centre, Theatre Road, on Friday, the 6th December last on "Shelly and Keats: Two Sketches".

Mr. Blunden has been Head of the Department of English, University of Hong Kong, since 1958. He first attracted the attention of literary critics in 1922 when he was awarded the Hawthorn-den Prize. He became Professor of English Literature in Tokyo University from 1924-27, and in 1931 became Fellow and Tutor in English Literature at Merton College, Oxford.

Among his best known poetic works are:—"Poems, 1915-30", "Poems, 1930-40", "Shells by a Stream" (1944), "After the Bombing" (1948), "Poems of Many Years" (1957) and others.

Personalia

The Seventy-third Birth Anniversary of Shri Hem Chandra Ghosh, a stalwart among the old revolutionaries of Bengal, was observed by his followers and admirers recently. The function was held under the auspices of the Satirtha Sanghati—an organization of the old revolutionaries of Bengal, once organized under the leadership of Shri Ghosh.

An Address of appreciation narrating the services of Shri Ghosh was presented to him. His contributions in the struggle of country's freedom movement was also recalled in that occasion by different speakers. A small purse of Rs. 1,001/- only, was presented to Shri Ghosh on behalf of the Sanghati.

In a befitting reply, Shri Ghosh asked the youths to go ahead with their objects keeping in mind the ideals to which they had once pledged themselves in the earlier days of freedom movement.

The Mayor, Dr. Triguna Sen, who presided, prayed the blessings of the veteran leader in the nation's march towards the desired goal. As an ardent believer in the activities of the youths towards the right path, Dr. Sen also said that such blessings would surely fulfil the nation's aspirations.

Those who spoke were Shri Bhupati Mazumdar, Minister, West Bengal, Shri Sirish Chandra Chatterjee, a veteran congress leader, Shri Nalini Kishore Guha, Shri Areshis Dinshear, Shri Haridas Mitra, M.L.A. and others.

PROF. CHARU CHANDRA BHATTACHARYYA

Prof. Charu Chandra Bhattacharyya, a veteran educationist and a litterateur of Bengal, was given warm felicitations recently by the members of the All Bengal Periodicals' Association on the occasion of his assumption of office as Editor of 'Basudhara', a new monthly journal. The function was held in the hall of the Manmatha Nath Mullick Smriti Mandir, Pathuriaghata Street, northern part of the city.

Prof. Bhattacharyya spoke on his experience as a writer of periodicals over fifty years and narrated his intimate connections with the late Ramananda Chatterjee, Jaladhar Sen, Rabindra Nath Tagore, Amulya Charan Bidyabhusan and others. He also requested the young journalists to follow the bold ideals of those veteran Editors.

The main object of the literary periodicals should be to elevate the moral and social standard of the people, emphasized Prof. Bhattacharyya.

Shri Phanindra Nath Mukherjee, Editor, 'Bharatbarsha', and President of the Association, presided. The meeting was largely attended.

PROF. DUDLEY STAMP

Prof. Leonard Dudley Stamp of London University, visited the city recently. During his stay he met the members of the Geographical Society of India in the Geography Laboratory, Ashutosh Buildings in one of the days. He also

(Continued in the previous column)

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-SEVENTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 6TH DECEMBER, 1957

CONDOLENCE

At the outset, the House condoled the death of Maulana Hussain Ahmed Madani, the Head of Dar-ul-Um-Deoband and adjourned its sitting for ten minutes as a mark of respect to his memory. The death occurred on Thursday, the 5th December last in the district of Lucknow, U.P.

The late Maulana was the President of the All-India Jamiyat Ul Ulema Hind. He was also a great national leader who fought in the thick of the country's struggle for attaining independence and courted imprisonment on several occasions.

Paying eloquent tributes to the memory of the late Maulana, the Mayor, Dr. Triguna Sen, said that he was a man of great intellect, great learning, great piety and a great patriot. His personality was immense.

INSECURED MUNICIPAL BUILDINGS

Councillor Biman Mitra referred to a number of insecure Municipal Market buildings and observed that the Corporation had better repaired its own buildings before asking the private building owners to repair theirs. In that connection he also mentioned some sites where the building structures had been dangerously placed overhead the market places. These places apprehensible to collapse at any moment, are visited largely by citizens.

PLIGHT OF REFUGEES AT SEALDAH STATION

Speaking on the miserable plight of the refugees now huddled themselves at the Sealdah Station platforms, Councillor Bejoy Kumar Banerjee urged upon the Mayor to move in the matter immediately and see that their present plight might be removed. According to him there were at least 8,000 men, women and children living together in a most insanitary condition in that narrow space. And out of which 60 were suffering from chicken-pox and two from small-pox. Conditions of a few were also alarming.

Councillor Banerjee said that serious consequences might follow unless the Corporation, the custodian of public health, took effective steps. It was a pity, he also said, that while a large number of refugees had been living in sub-human conditions there was none to look after them.

Let them not suffer either on political or for technical issues such as non-possession of certificates, appealed Councillor Banerjee. The Corporation should immediately take upon itself the responsibility of removing their medical, sanitary and other pressing problems and draw the attention of the Government for rehabilitation.

The Mayor, however, assured the House that the Chairman of the Standing Health Committee would inspect the place and take necessary steps.

Councillor Prasanta Kumar Sur also criticised the policy of the Government in delaying rehabilitation of these refugees.

POOR QUALITY OF FOOD-STUFFS

Councillor Satyananda Bhattacharyya, complained of poor quality of food-stuffs supplied to the citizens through Government sponsored ration shops. He apprehended that there might break

RECEPTION TO DELEGATES OF ALL-INDIA WRITERS' CONFERENCE

The Corporation at its weekly meeting on Friday, the 6th December last, decided to accord a reception to the writers who would attend the All-India Writers' Conference scheduled to be held in the city from the 23rd to 25th December next. A sum not exceeding Rs. 1,000/- only was sanctioned for the purpose on the suggestion of the Mayor, Dr. Triguna Sen. The House was then considering a letter written by the General Secretaries of the Conference, Shri Tarasankar Banerjee, M.L.C., and Shri Monoj Basu, noted literateurs in the city, who had requested the Mayor to accord such a reception.

In this connection Councillor Chandra Sekhar Bhowmik, suggested that a Civic Reception should also be given to Prime Minister, Shri Jawaharlal Nehru, who would be in the city at that time. The Mayor appreciated the idea but apprehended that owing to the Prime Minister's previous engagements it might not be possible. He, however, assured the House that he would contact the Prime Minister so that a reception might be arranged on a suitable occasion in future.

An elaborate arrangement befitting the occasion is under progress and a Reception Committee has been formed with Janab Humayun Kabir, Union State Minister, as the Chairman. The Conference will be attended by distinguished writers from the various parts of India as well as observers from abroad and UNESCO representatives. Shri Jawaharlal Nehru has also agreed to attend and address the Conference on the 24th December.

out diseases pertaining to stomach trouble due to indigestion and allied causes. He further alleged that a huge quantity of salt, now stored in a godown and found unsuitable for human consumption, were going to be sold in the market shortly due to the neglect on the part of the authorities. Councillor Bhattacharyya wanted that the Corporation should take timely action against consumption of such poor quality of food-stuffs.

KHAGENDRA CHATTERJEE ROAD

The House re-named Gun Foundry Road as Khagendra Chatterjee Road after the name of a great revolutionary leader of Bengal. The proposal to re-name the road was put up by Councillor Ganapati Sur and it was duly recommended by the Borough Committee No. 1.

The memory of the late Khagendra Nath Chatterjee still lives in the minds of the people residing on the extreme northern part of the city for his sacrifices and services for the cause of motherland. His contributions to the cause of India's struggle for freedom was immense. His organising capacity in that sphere was also highly appreciated. His services were largely recognized when he set his hand in organising the All-India Forward Bloc under the leadership of Shri Subhas Chandra Bose in 1938.

Born in the district of 24-Parganas, in the outskirts of the city the late Shri Chatterjee spent the major part of his life in Baranagore area. Closely associate with the revolutionary cult of Bengal the late Shri Chatterjee earned the name of 'Biplabi Bir', and earned respect and honour from his followers. He had to undergo prison life for more than thirty years. He breathed his last in 1940.

The name of Gun Foundry Road came off due to the existence of the Cossipore Gun and Shell Factory in that locality.

DEATHS AND DISEASES IN THE CITY

The incidence of both cholera and small-pox and deaths from all causes increased in the city during the week ended December 7, compared with figures for the previous week.

Cholera and small-pox cases numbered 5 and 7 against 3 and 6 respectively during this week. The figures of attacks from cholera and small-pox in the corresponding weeks last year were 4 and 9 and 21 and 8 respectively.

Two persons died of cholera, five of small-pox and 34 of T. B. during the week under review, against 3, 6 and 35 respectively in the previous week.

There were 625 deaths from all causes against 620 during the previous week.

A LANE RE-NAMED

The House re-named Sura First Lane as Abinash Chandra Banerjee Lane after the name of an ex-Councillor of the Corporation and a permanent resident of that locality. The re-naming was duly recommended by the Borough Committee No. 6. The lane is about one-third of a mile in length joining two main thoroughfares of that area—Bellaghata Main Road and Suren Sarker Road.

Closely associated with all the philanthropic and public organizations of the locality the late Shri Banerjee was one of important citizens of the place. Earlier he was a Commissioner of the Manicktala Municipality for more than a decade before its merger with the Corporation. He was

returned to the Corporation from the 1st Ward No. 29. A man of charitable disposition and as a sincere worker for the cause of motherland the late Shri Banerjee became one of followers of Shri Subhas Chandra Bose and set his hand in civic and political activities during the forty's. His legal talent was much appreciated by the members of the Sealdah Bar where he started his career in his prime of youth. He was Chairman of the Bar Association on several occasions.

DEPUTY MAYOR SHRI K. C. BASU

The House elected the Deputy Mayor, Shri Keshab Chandra Basu, to represent the Corporation at the Board of Examiners holding interview for recruitment to the permanent post of the Health Officer to the Corporation, to be held by the Public Service Commission, West Bengal.

COUNCILLOR MANI SANYAL

The House nominated Councillor Mani Sanyal as a member of the Standing Town Planning and Improvement Committee. The vacancy was caused by the resignation of Councillor Sachin Sen from the said Committee.

VAGRANCY ADVISORY BOARD

The House elected Councillors Amulya Charan Sirkar and Biman Behari Mitra, as nominees of the Corporation on the Vagrancy Advisory Board sponsored by the Government of West Bengal, Department of Food, Relief and Supplies for a term of three years.

The term of office of previous nominees expired on the 17th November, 1957 last.

IMPROVEMENT OF A ROAD AND A LANE

The House, on the recommendation of the Standing Works Committee, sanctioned an Engineer's estimate amounting to Rs. 64,000 for improvement and remodelling of Gopal Chatterjee Road and Gobinda Mondal Lane.

FOURTEENTH TUBERCULOSIS WORKERS' CONFERENCE

Tuberculosis specialists and workers from all over India will meet in a conference in Madras from January 29 to 31, 1958. Dr. K. S. Sanjivi a renowned specialist in Tuberculosis has been elected as the President of the conference.

The conference will discuss epidemiology of tuberculosis as revealed by the National Survey; the changes observed in the clinical manifestation of Pulmonary Tuberculosis and Bones and Joints tuberculosis. One session of the Conference will be devoted to a pannel discussion on Chemotherapy in Pulmonary T. B., with Dr. P. K. Sen as the Moderator.

The Conference will hold a separate special session for the para-medical personnel in fight against TB to discuss subjects like social work, occupational therapy and health education in tuberculosis.

Those who expected to participate in the Conference with scientific papers are Drs. P. B. Benjamin, B. B. Yodh, A. C. Ueki, T. J. Joseph, Fridolf-Moller, B. K. Sikand, M. D. Damakhi, Lt.-Col. Geel, B. C. Barbedikari.

Slum Clearance And Economic Point Of View

[By A. G. SHEPPARD FIDLER, M.A., B.Arch., A.M.T.P.I., F.R.I.B.A.]

(Continued from previous issue)

A brake on comprehensive redevelopment on a large scale exists under the present procedure under the 1947 Act, as Authorities may only in practice acquire such land as can be reasonably developed within a limited period. Land may not be bought well in advance of the requirements of reasonably early redevelopment, and it is, therefore, essential that Authorities should see that their areas of comprehensive development form units of the over-all pattern of redevelopment of the city, and the designers keep this in mind when building begins. The fact that fairly detailed zoning proposals must also be submitted with the comprehensive development area maps can also lead to delay.

ADVANTAGES OF DEALING WITH LARGE AREAS

All our experience in Birmingham suggests that it is much easier to deal with large areas than with small. By so doing not only can the whole character of an area be changed and, therefore, be reborn to new life, but the psychological effect on all who work and live there be all the more profound. To be really effective, redevelopment must be complete. A few new streets and a few new houses in an otherwise depressing and decaying area will never succeed: the whole area must be new and be very different from what was originally there. Birmingham has had experience of one scheme of redevelopment in isolation—a 6-acre site in a blighted area. Built in 1937, the project has 267 flats, mainly of three-bedrooms in four-storey blocks. Still surrounded by slums, its greens became playgrounds for children in the over-crowded area around, and the best hopes of the designer and the client were frustrated.

It is also possible to plan a comprehensive pattern of linked open spaces—green walks, which will help to define areas, and protect the area against the infiltration of surrounding blight when this occurs in due course.

The architect responsible for housing can vary his density over a large area much more easily than over a small one. This can produce a much more lively pattern than the maintenance of a steady density over all parts of the area. Occasional pockets of very high density, for example, the Golden Lane scheme in the city of London, can give a character and local interest to an area which is much more difficult to achieve if standards of density are to be maintained in all parts. Variety of density means variety of design.

In Birmingham, the difficult task of sorting out and grouping small industries has been helped by the building of two large flatted factories—with units varying sizes to be left, and by the adaptation of vacated larger factories as "transit camps" to help the process. Projects on such a scale are only possible when large areas are being redeveloped.

LAND USE AND DENSITY

It is perhaps not always realized that redevelopment of an area nearly always mean a

considerable loss in the total of houses. Even though redevelopment may be at high density, at least as high as existing before, or even higher, the provision of amenities such as parks, schools, and so on, means that the land available for housing will usually be less, and consequently the number of persons living there will be reduced. It has been found in the Birmingham schemes that for this reason, and because of overcrowding, for every new dwelling provided, 2.2 families have had to be rehoused. Most of the families moved are in the lower income group and their rehousing usually involves the movement of two or more other families in municipal houses elsewhere in the city to avoid difficulties arising from the disparity in rents.

The more redevelopment carried out, therefore, the greater the number of families who have to be found accommodation elsewhere, and these families are, of course, in competition with those on the Authority's regular housing list. This is a serious matter in Birmingham, where the housing list still contains the names of 68,000 families. Like many other cities, Birmingham is now short of building land.

In order to house the additional population we can make better use of what land is still left by accepting occasional pockets of higher density in a predominantly low density area. This is being done in Birmingham, on suitable sites—for example, at Millpool Hill (density 25 dwellings per acre) and Nazareth House (density 18.5 dwellings per acre). It may also be possible to build some blocks of flats—it is suggested for families without children—by clearing some sites in those estates which have mainly three-bedroom houses, and this possibility is now being investigated.

Another line of attack is to purchase blocks of large Victorian-era houses now decaying, which stand in substantial grounds, and redevelop the whole area—for example, Lyndhurst Estate (density 29 dwellings per acre) and Birchfield Road (at a similar density).

The other means of rehousing population are the overspill arrangements made with Receiving Authorities under the Town Development Act and the new towns themselves. Without entering a field of controversy falling outside the scope of this paper, one cannot help feeling that the contribution of the new towns to our population difficulties could have been much greater, without any loss that I can see, if their planners and architects had been allowed to build to higher densities than those now accepted.

The next point to consider is density and the resultant character of housing redevelopment. I have already inferred that greater flexibility in design and arrangement is possible with larger development areas. I also consider that density control should be administered in a less rigid

(Continued on page 190)

Housing Construction in Moscow

[By G. DUKELSKY]

The plan for the reconstruction of the City of Moscow, approved in 1935 after the interruption, caused by the war is successfully being continued. The principal part of this plan is the building of dwellings.

In the pre-war year of 1940 about 400 thousand square meters of housing were built, while in 1956—1.4 million and in 1957 1.8 million square meters are to be constructed. Altogether during the five-year period of 1956-60 over 11 million square meters of housing are to be built in Moscow i.e., almost 2.5 times more than during the previous five-year period.

In the Soviet Union the volume of housing construction is counted according to the area of rooms for living. If the area of kitchens, toilets, etc., are included, i.e., the entire utility space of the apartments is taken, then during the five-year period it will be about 18 million square meters or when converted into apartments with two rooms it will be equal to about 400 thousand apartments.

Of course, together with the building of dwellings, of which there is still an insufficient amount in Moscow, a large volume of schools, children's hospitals, and commercial institutions, cultural and public service establishments and sport stadia are being constructed. It is sufficient to say that 52 schools, kindergartens and creches for 5 thousand children, 21 hospital buildings, cinemas with 6,800 seats and so on to be constructed in 1957.

An important feature of the newly built territories is their wonderful natural conditions. They are the south-western region, lands near the Khimki reservoir, Kuzminky Park, Serebryany Bor, etc. During the summer thousands of Muscovites come to these places to rest on the banks of the Moskva River or in the wonderful verdure of these parks. Of the total volume of dwellings over five million square meters of housing are to be built during the five-year period on newly mastered lands in the city. This will allow also to increase the rate of reconstruction of old regions of Moscow. It is known that these regions are distinguished by high density of buildings and reconstruction will inevitably lead to the destruction of existing buildings and to moving of the inhabitants into new houses. This is also necessary for decreasing the number of inhabitants in the old houses and liquidating the dilapidated ones. Their destruction is being carried out intensively in many regions of Moscow. These measures to an even greater degree are to be carried out in the next one or two years, as on the new lands a large number of dwellings are to be built, thus ensuring the moving of inhabitants from buildings which are to be destroyed into new, large and comfortable houses.

The reconstruction of some of the ancient regions with a large number of dilapidated houses

(for instance, Marying Roshcha, Tcherkizovo, etc.) makes them available for new buildings and wide spaces with ready-made roads and underground communications. Building on these lands, even though it involves the destruction of a large number of existing buildings and moving of their inhabitants, is economically profitable. Thus, for example, experience has shown that construction in Maryina Rosheha, taking to account all expenses for the public works on these lands, will be somewhat cheaper than construction in new regions where the entire network of roads and communications must be built anew.

It is not necessary to describe the proposed ways of planning apartments—they may be different. We must only note that in the practice of Soviet architects and engineers there are several original and principally new peculiarities. The thing is that large programme of housing construction may be fulfilled successfully on condition of the use of a large amount of large-size prefabricated parts for houses, which are manufactured at building material plants. The problem consists in attaining complete prefabrication of buildings, including internal elements and external walls. During the present five-year period buildings of large-size blocks will be built to the extent of about 20 per cent. of the total volume, large-size panels—for over 12 per cent. In this way over one-third of all houses are to be built completely prefabricated, while in the other ones the framework, floorings, stairs, etc. are to be made of prefabricated parts.

The aim of the architects and engineers consists in the creation of projects of apartments and houses, which together with the ensuring of comfortable and economic structures will be the most convenient for the work of the powerful building industry. These projects have already been worked out. Some of them are being checked experimentally, others are already being used for mass construction. Nevertheless the improvement of these projects is being continued together with the mastering by industry of new kinds of building materials and parts.

For a number of years following the October Revolution a large amount of houses and social centres have been built in Moscow catering to the artistic tastes of the people.

Unfortunately during the post-war period the decorative, electrical architecture was inherent to creative activities of some architects. These architects have been impartially criticized lately because of this. At the present time the creative activities of architects are directed towards new aim. It consists of austere, realistic architecture, as far as from aesthetic tricks inherent to constructivism as from the even smaller formal methods of building caused by the non-critical attitude towards the classical heritage. RIGHT DIET

SM. RUKMINI DEVI ARUNDALE, M. P.,

CHAIRMAN, RECEPTION COMMITTEE, 15TH WORLD VEGETARIAN CONGRESS.

Our ancient systems of medicine such as Ayurveda taught right diet and the women of earlier generations had a very good knowledge of food values. Today, that knowledge stands in danger of being lost and even if we eat food that is not the product of the cruelty or slaughter, we still do not eat healthy food. This has added strength to the arguments of the meat-eater that vegetarian food does not give strength. Therefore they argue, meat-eating must be promoted. More and more people are finding it necessary to take injections, swallow vitamin pills and find cures for ailments in pharmacies rather than in the gardens and in the kitchens as our grandmothers did. This is the trend today in India and I am certain that only a scientific understanding of nutrition based both on Western and Eastern knowledge will save the health of our people.

In this context, it is deeply distressing to read the following observation in the "Report on the Marketing of Meat in India" published in 1956 by the Directorate of Marketing and Inspection of the Ministry of Food and Agriculture, Government of India:

"In many foreign countries large sums are annually spent on "Consumers' education" and sustained and successful efforts are made to drive home successfully to the consumers the value of meat and its products. Happily there is not the same prejudice in India to-day against meat eating, particularly mutton and goat flesh, as existed before. Efforts to increase production are unlikely to bear fruit if steps are not simultaneously taken to increase consumption."

"It is therefore recommended that extensive propaganda may be carried out to educate the people as regards high nutritive and protective quality of meat on the advisability of its increased consumption in their daily diet."

I hope, as a result of this Congress, Government itself will be convinced of the necessity of promoting vegetarian diet at least from the nutritional and economic point of view, if not for humanitarian reasons, though I believe that the Government of a people who call Gandhiji the Father of the Nation should be happy to govern in the light and shed by his principles. Two of our greatest leaders, Dr. Annie Besant, who was my own Guru, and Gandhiji, were of the opinion that they would rather not live than kill an animal, bird or fish for food.

Surely, the highest ideal in life is to avoid giving pain. By living unselfishly, we sow everywhere, the seeds of unselfishness and generosity. It is selfishness alone that brings suffering to other creatures and to ourselves. It is selfishness that is the root cause of war and the written treaties of peace that are signed are abrogated when selfishness and cruelty are allowed to dominate civil life. With the very food we eat, we can build up the strength of our bodies and equally build peace

that will be sustained by a belief in and a practice of harmlessness. India's voice carries strength in the Assembly of Nations because she stands for a policy of non-violence. But India's non-violence must not only be a policy we advocate as among nations, it must be a policy dictated and directed by the everyday life we lead in our homes as a people. The food we eat, the many medicines we take orally or by injection directly involve us in the slaughter that goes on daily for our sakes. All creatures try to protect themselves, for life is precious to all and though we do not see their tears or hear their cry, the very atmosphere around us is saturated with the pain and agony of other kingdoms of Nature. The only remedy we can offer is to live as harmlessly as we can. Perhaps, we cannot avoid giving pain altogether so long as we are born on the earth. But the amount of the suffering we inflict can be reduced a thousand-fold. Even so-called humane slaughter can never be humane because every creature is sensitive to its doom. It knows when its best friend, who has fed it, petted it and loved it, finally betrays its confidence and sells it to a butcher. At best, humane slaughter can only be the last resort of the humanitarian who recognizes that as long as there is this measure, it would be well to make it as painless as possible.

Even the vegetarian depends too much on animals for milk, butter, ghee and other dairy products. Often the cow that gives us milk and certainly, the bull, end up in the slaughter house. I hope, therefore, this Congress will help India to discover other nutriment that will have the same value as milk products. If breeding is allowed on a mass scale, the slaughter house becomes an inevitable concomitant. All these inter-related questions present us with a vast problem, but if the heart and willingness are there, all problems are easily solved. I pray that the voices of the Great which have rung down the ages in our country will once again be heard by the people and that our hearts will be moved to live more purely, simply and cleanly. The demands of science and what is called scientific progress bid fair to destroy in us all our finer sensibilities. When one reads of the animals that are to be sent up in the next satellite that will invade space to circle our globe and of the monkeys that are being shot up into the stratosphere in rockets, it is obvious that this direction which applied science has taken can never play a part in building a lasting peace, because it stupefies those sentiments in the human heart on the basis of which alone such a peace can be built. Peace cannot result from callousness nor can love come from hate. Only the higher science of love can produce men and women of compassion who will unite the nations of the world. With my whole heart I pray for the Blessings of the Saviours of Humanity so that They may find in this Congress the first few rain drops that will nourish this land and the world with Their compassion and wisdom.

Health Notes On Bombay

THIRTY-FIVE thousand three hundred and twenty-six school children, out of 42,472 medically examined, were found "defective", according to the Administration Report of the Municipal Commissioner for Greater Bombay for the year 1956-57.

This figure included 22,812 boys and 19,660 girls. Of them 27.84 per cent. were suffering from general debility, 24.08 per cent. from dental defects, 15.27 per cent. from throat troubles, 18.95 per cent. from enlarged lymphatic glands, 5.17 per cent. from skin diseases, 8.89 per cent. from eye troubles and a small percentage from defective vision and defects in nose.

The medical examination also revealed that 14 children out of the 58 suspected cases of leprosy were found to be positive cases and hence were prevented from attending school.

Over 36,870 weak and under-nourished children were given a daily free milk feed of eight ounces of pasteurized toned milk in every school working day. Snacks in the form of chhikki and fruits were also given to supplement the milk diet.

The education department conducted a research in specified area which disclosed that parental negligence, domestic work, frequent migration and lack of accommodation in nearby schools were found to be mainly responsible for non-attendance of school children who had reached compulsory school-going age.

During the year 64,885 live births and 21,759 deaths were registered. The rates of births and deaths per 1,000 of the census population were 27.8 and 11.9 respectively and they were 28.4 and 9.9 per 1,000 of the mid-year estimated population. Still-births totalled 2,778 or 4.8 per cent. of live births.

Infant mortality numbered 7,152 which was 745 less than in the preceding year.

Maternal and child welfare service was rendered by medical officers in charge of the various maternity homes and clinics. The maternal mortality rate recorded during the year was 1.0 as in the previous year.

The total attendance at 18 family planning clinics was 7,942. About 5,622 women were given advice and supplied with appliances free of charge.

During the year, 7,909 cases of infectious diseases were reported, against 8,461 in the previous year.

MANAGER'S DISEASE

Politicians and businessmen are increasingly becoming victims of a new type of disease, known as 'Manager's Disease'.

This new disease, believed to be the cause of many deaths in modern civilisation, was the subject of scientific discussion at a conference recently held at Frankfurt in Germany. Dr. Kraut, Director of Max Planck Institute of Nutritional Physiology, presided over the conference.

The phenomenon is, it is stated, not unknown altogether to medical science; but the incidence of the disease has increased during the last ten years with the politicians carrying heavier responsibilities and anxieties than ever before.

Death from this disease is caused after the circulatory system has worn out. Men in politics and business, who are between the ages of 45 and 60, it is stated, usually become easy victims of this disease. It had been noticed that fat was conducive to circulatory disease and that fat content of food taken was responsible for the disease, to a large measure.

To combat the disease therefore the conference suggested that politicians should change their food habit and restrict the consumption of fat and cooking salt. On the other hand, they should increase the in-take of albumen, vitamins, and mineral substance; and also take adequate rest at night, have leisure in the evenings and go on leave from time to time.

Above all, they should avoid the flood of conferences and congresses, the experts advised.

INFLUENZA IN ENGLAND

The influenza epidemic sweeping over Britain had claimed the Minister of Defence, Mr. Duncan Sandys, among its victims.

The announcement, which added that Mr. Sandys had cancelled all his engagements for the next few days, came as a Ministry of Health spokesman reported little change in the general flu picture.

The spokesman said there had been a decline in the total number of cases reported in the north of England, the Midlands and Wales, although in some areas, the number of cases remained high.

—SLUM CLEARANCE AND ECONOMY POINT OF VIEW

(Continued from page 187)

manner than is often done at present, so that greater variety may result and the nature of the ground and other factors taken more into account. Good regulations and fine administration cannot themselves achieve good design. We need interest, variety and inspiration in this vital urban rebuilding.

Most of our development plans in cities contain areas of high density at say, 100 habitable rooms to the acre and upwards, primarily to save land. This type of development is costly because it contains tall building in the form of flats or maisonettes in slab or tower blocks. But one of the reasons why tall blocks of small site-cover are not more used is that the open space which has to surround them is of no benefit to the general public. To take an extreme instance, Le Corbusier's Unite at Marseilles, with a density a little higher than that of Lansbury, is surrounded by what amounts to a good-size public park. In this country such open space created by a similar lay-out would be regarded as for the tenants only and other public open spaces would have to be provided on the basis of so many acre per 1,000 population. [THE COUNTRY AND MUNICIPAL RECORD: 8th OCTOBER, 1957]

CITY NEWS PARADE

OBITUARY: Shri Ati Kameswar Row, Press and Public Relations Officer, K. L. M., died at Sukhlal Karnani Hospital, on Sunday, the 1st December last. He was 42.

Before joining K. L. M. in 1949 as the Press Relations Officer, the late Shri Row worked in the Vikram Textile Mills, Allahabad, as Assistant Secretary and the National Tobacco Co. as Advertising Inspector. He was made K. L. M's Public Relations Officer for India in 1950. He was a founder member of the Advertising Club.

The death of Shri Sachindra Nath Banerjee, Registrar, Original Side of Calcutta High Court, occurred at his Calcutta residence on Monday, the 9th December. He was 56.

Late Shri Banerjee was President of the Bengal Olympic Association and the West Bengal Wrestling Federation for several years. A former President of Calcutta University Institute, the late Shri Banerjee was President of the Automobile Association of Bengal for the last three years. He took active part in most of the city's sports meets and even on Sunday acted as the chief judge in the ten-mile cycle road race for juniors under the auspices of the National Cycling Association.

The death was referred to at the weekly meeting of the Corporation on the 13th December. Eloquent tributes were paid to his memory by the Corporation.

The death of Shri Charu Chandra Basu, Solicitor, occurred at his Calcutta residence on December 9. He was 92.

The late Shri Basu was one of the leading solicitors of Calcutta. He made a handsome donation to Jadavpur T.B. Hospital. The Incorporated Law Society celebrated the Diamond Jubilee of his career four years ago.

MEMORIES OF DINESH-BADAL-BENOY, the three arch-revolutionaries of Bengal, who courted death in connection with freedom's struggle, were recalled by his friends and admirers on the 8th December last. A meeting was also arranged at Saheed Jatin Das Park, South Calcutta, on that day wherein different speakers narrated the heroic deeds of the great martyrs. Shri Soumendra Nath Tagore presided over the meeting.

ST. XAVIER'S SCHOOL'S new building for Primary Section was blessed and opened by Dr. Ferdinand Prier, Archbishop of Calcutta, at 12, Wood Street on Thursday, the 5th December last. The new four-storeyed school building, situated behind St. Xavier's College premises, has 32 rooms, including a Chapel, a big parlour and an infirmary. It will accommodate 720 boys in 18 classes from Infant to Standard III (class five). A special feature of the building is that its entire ground floor consists of a covered gymnasium. A big playground has also been attached to the school.

DR. DINESH CHANDRA SEN'S Death Anniversary was observed in the city on the 8th December. Contributions of the late Dr. Sen to Bengali literature were respectfully recalled by different speakers addressing a memorial meeting held at the Mahabodhi Society Hall, Bankim Chatterjee Street on that evening. Prof. Nirmal Kumar Sidhanta, Vice-Chancellor of Calcutta University, presided.

The meeting in a resolution moved by Dr. Srikumar Banerjee, suggested that as a mark of respect to the memory of Dr. Sen the University of Calcutta should organise a series of lectures after his name.

To find out ways and means of perpetuating the memory of Dr. Sen a committee was set up at the meeting with Prof. Sidhanta as one of its members.

Dr. Nihar Ranjan Roy, M.P., acknowledged that the present position of Bengali was largely due to the efforts of the late Dr. Sen who had devoted himself wholeheartedly during his life time to discover the lost treasure of Bengali literature.

Dr. Kalidas Nag said that Dinesh Chandra was a man of extraordinary talent. His works in Bengali attracted the notice of some scholars of the West in those days, the speaker added.

Prof. Janardan Chakraborty and others also spoke on the occasion.

ALL-INDIA WOMEN'S CONFERENCE, CALCUTTA BRANCH'S various welfare activities were referred to by Shrimati Amalprova Bose, General Secretary, at its Annual General meeting held at Working Women's Hostel, C. I. T. Buildings, Christopher Road, Calcutta, on Saturday the 7th December last. Shrimati Monica Gupta presided.

In her report Shrimati Bose said that during the past year a mobile medical unit for rural areas in the State had started functioning under the guidance of Shrimati Manrayee Bose, M. L. A. The State Government had given Rs. 5,000/- for the purpose to the Calcutta Branch. A social welfare organization of Canada had presented a motor van to the organisation.

Shrimati Bose further said that the Branch had been conducting some nursery and primary schools, child welfare clinics, milk and tiffin distribution centres and night schools during the last few years. They just started a basic school for which they had received from the State Government Rs. 32,000/-. Some adult education centres were also being run by the Branch.

ASHUTOSH COLLEGE, WOMEN'S BRANCH, celebrated its Silver Jubilee at the College premises in South Calcutta on Sunday, the 8th December. Interesting discourses on women's education, the systems prevalent in modern and ancient India, were held on that occasion.

Prof. Nirmal Kumar Sidhanta, Vice-Chancellor, Calcutta University, who presided, said that besides arts, science and other subjects women should be taught some special subjects which would help them in the proper management of household affairs and rearing of children. It was very regrettable, he said, that most women did not utilise the knowledge they had gained through education.

Discussing women's education in ancient India, Dr. Rama Chaudhury, Principal, Lady Brabourne College, said that even in the midst of most adverse circumstances women's education had never been neglected in ancient India. The Indian society had always placed women on high pedestal of esteem.

Speaking on the arrangements for education of women in America, Mrs. Jaffie of USIS said that along with the spread of women's education there had been an extension of co-education in that country. The American women were anxious to seek fulfilment of their talents in various ways alongside doing their household work.

Others to address the meeting were Shrimati Rani Ghosh, Principal, Gokhale Memorial College and Shrimati Latika Ghosh, Principal, Teachers' Training College for Women.

Principal Jyotish Banerjee welcomed the guests.

ACHARYA BROJENDRA NATH SEAL'S Nineteenth Death Anniversary was observed on Tuesday, the 3rd December last at the Bhowanipur Brahma Sammilan Samaj, on Dr. Rajendra Road. Dr. Satish Chatterjee presided over the meeting.

Dr. Kalidas Nag, Shri Soumendra Nath Tagore, Prof. Priya Ranjan Sen and many others spoke on the occasion.

Prof. Amulya Ratan Gupta also paid respect to the memory of Acharya Seal at Devalaya, Cornwallis Street, on the same afternoon.

WEST BENGAL LEGISLATIVE ASSEMBLY, during its recent session discussed on the issue of food problem faced by the State. Before a full-day discussion, that took place on Saturday, the 7th December last, the State Food Minister, Shri P. C. Sen, acquainted the members, in one of the days that the Union Government had been approached to meet the deficits. According to him the State had faced a deficit of 1.2 million tons of rice this year.

During a lively and sustained debate on the same problem on Saturday a dozen of members criticized the State's food policy. The debate was opened by Shri Jyoti Basu, leader of the Opposition. At the end, it was agreed that irrespective of party links all should work together to face the apprehended crisis. The State Chief Minister, Dr. B. C. Roy, also hoped that with the people's co-operation they would be able to survive "in spite of dark clouds hanging over us". Those who participated in the debate were Shri Hemanta Kumar Basu, President, United Citizens' Committee, Shri Jatin Chakravarty, Dr. P. C. Ghosh and others.

The second important debate related to the employment issue. The Assembly on the 6th December last, viewed with concern the fact that "although there is growing unemployment in the State, industrial and commercial concerns operating here are reported to be following discriminatory policy in matters of employment by not employing even qualified people of this State in sufficient numbers". The State Government was urged to make suitable representations to the Union Government.

Moved as a non-official resolution the subject was debated long. Even it was intervened by the State Chief Minister and others. The resolution was accepted after an amendment was moved by Shri Syamadas Bhattacharyya, duly supported by Shri Bejoy Singh Nahar, Pradesh Congress Secretary and others. Dr. Ranen Sen was one among the other speakers who presented a full picture of the actual situation and did impress upon the House. However, it was no hard bargaining on the part of the Opposition.

The Assembly adopted on Wednesday, the 4th December, the Calcutta and Suburban Police (Amendment) Bill. It accepted two amendments. The measure seeks to control the indiscriminate use of microphones and loudspeakers in the city and suburbs.

The Bill was criticized by many Opposition members as a ruse to hide the Government's real motive of depriving its political opponents of their fundamental rights.

On Monday, the 9th December, the Assembly passed the West Bengal Preservation of Historical Monuments and Objects and Excavation of Archeological Sites Bill. The Bill was introduced on the 5th December last. The basic object of the Bill received an all-round support from the members.

DEMONSTRATIONS: With the commencement of the Winter Session of the West Bengal State Legislature the

number of demonstrators ^{ing over the} is on the increase. The demonstration staged by the teachers of the secondary schools.

On Friday, the 6th December, a large number of teachers assembled at the Raja Subodh Mullick Square. From there they started in a procession towards the Assembly House in order to see the State Education Minister in putting up their demands. Baffled to proceed further as Section 144 was in force there, the demonstrators squatted on Lawrence Road, for over an hour demanding a meeting with the Minister to place a memorandum containing their grievances.

Their demands included constitution of a democratic Secondary Education Board, with a third of its members representing teachers, increase in pay and allowances of all categories of school employees, payment of aid to non-Government schools so that their teachers could get the benefit of revised pay scales and no increase in tuition fees.

They dispersed when they were told by some Opposition leaders that the Education Minister had agreed to meet a deputation some day later. This was announced first on the floors of the Assembly House which was then in session.

The Executive Committee of the A. B. T. A. who organised the demonstrations at its meeting on the 1st December last, also requested the Government to circulate the Secondary Education Bill for public opinion.

Later on that day, about 400 workers of some factories on Hyde Road, Kidderpore, demonstrated on Lawrence Road. Their demands included withdrawal of suspension orders alleged to have been served on a number of workers.

FUN FAIR, a joy and a merriment week had been organized by the military authorities of the Fort William. The proceeds of the fair will be utilized to meet the needs of the ex-servicemen.

The fair was inaugurated by the State Governor, Shrimati Padmaja Naidu on the 5th December last and concluded on the 8th December last. The show offered a rare opportunity to visit the Fort. The Governor, accompanied by Major-General T. B. Henderson-Brooks, Divisional Commander, rode a toy train at the fair.

By the side of a miniature race-course there were many stalls, each holding attractions for visitors.

Among ancient monuments opened for public was the famous Dalhousie barracks which housed a whole battalion of troops with food and equipment, the Grannery barracks, built by Warren Hastings after the famine of 1770, the highly artistic St. Peter's Church built in 1784, the old Government House and the Ball Tower which was used to signal ships passing along the Hooghly.

For those interested in arms there were the ornamental bronze gun, Top Zafar Baksh, manufactured for Aurangzeb in 1674, a magnificent 32-pounder dated 1811, which is believed to be a trophy of Second Sikh War of 1846 and a Spanish Gun bearing names of Philip V and Queen Elizabeth made in 1721. There were also guns captured at the Battle of Plassey.

CORPORATION NOTICES—Contd.

Auction Sale

Intending bidders are hereby invited to the public auction to be held by the Chief Valuer & Surveyor, Corporation of Calcutta, at the Central Municipal Office at 5, S. N. Banerjee Road, Calcutta-13 on Monday, the 23rd December, 1957, at 3 p.m. in respect of the following:—

1. Initial rent for license for removal of ashes and cinders from Ballygunge Drainage Pumping Station for a period of 3 years at a monthly fee of Rs. 15/- (Security money equivalent to six months' fee will have to be deposited by the successful bidder).

2. Monthly rent for license for grass cutting, fruit trees, tanks (except the one adjacent to Sub-Registrar's Quarter) at Topsia Hindu Burial Ground, for a period of 3 years. (Security money equivalent to six months' fee will have to be deposited by the successful bidder).

3. Monthly rent for license for grass cutting, some hogias and several fruit trees at Bhatchala Hindu Burial Ground, for a period of 3 years. (Security money equivalent to six months' fee will have to be deposited by the successful bidder).

CONDITIONS:

The full amount of initial rent together with a security deposit as stated above in regard to item No. 1 and security deposit in regard to item No. 2 & 3 as stated above plus Rs. 2/- as the cost of a printed form of agreement in each case will have to be deposited by the successful bidder in cash forthwith or as may otherwise be directed by the Chief Valuer & Surveyor on the acceptance of the bid, which is subject to approval by the Corporation. The license will run from the date on which possession of the property will be made as early as possible.

Intending bidders are advised to bid after proper enquiry and local inspection of the property as no objection will be entertained afterwards.

Other conditions may be seen in the office of the Chief Valuer and Surveyor on any working day during office hours.

A. K. SIRCAR,
Chief Valuer & Surveyor.

CENTRAL MUNICIPAL OFFICE:
The 5th December, 1957.

Food Supply Department

Separate sealed quotations superscribed "Quotation for Gota Musur Dal", "Quotation for Arhar Dal", and "Quotation for Sugar" with samples in sealed covers

are invited by the undersigned for the supply of 150 (one hundred and fifty) maunds (nett) of Gota Musur Dal, 550 maunds (five hundred and fifty) (nett) of Arhar Dal and 160 (one hundred and sixty) maunds (nett) of Sugar to the Food Supply Department. The quotations in respect of Gota Musur Dal will be received by him up to 12 a.m., on Thursday, the 12th December, 1957, and those for Arhar Dal and Sugar up to 12 a.m., on Thursday, the 19th December, 1957. The commodities must be dry and fresh and free from any foreign matters. The rates should be quoted for nett weight in rupees and naya paise, and should include the cost of gunny bags and all other charges with free delivery at the Central Stores, 1, Hogg Street, Calcutta-13, where cent per cent weighment will be effected. The supply must be in strict accordance with the samples received from them and any deviation detected within one month in case of Dals, will entail replacement at their cost. Payment will be made after one month in case of Dals and within a period not exceeding one fortnight in case of Sugar from the date of submission of the bill. The number and date of current year's Corporation Trade License should be stated on the quotations. Delivery is to be completed within a week from the date of receipt of the order. Bill for partial supply will not be accepted. Opening date should be written on the cover of the quotations.

I. BAL,
Deputy Commissioner II.

Central Municipal Office:
The 5th December, 1957.

PHENEOL LAMP BRAND

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycles 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

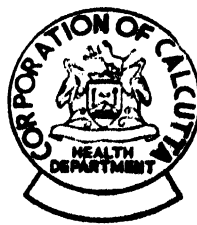

S. M. MURSHED,
Offg. Superintendent. 8. S. Hogg Market,

The Calcutta Slum Clearance Bill, 1957

The objects and reasons stated in connection of the Bill by Shri I. D. Jalan, Minister-in-charge of Local Self-Government are as follows:—

In view of the highly insanitary and unhygienic conditions prevailing in the slums in Calcutta and other congested towns, it has become imperatively necessary to take steps for the clearance or remodelling, where possible, of the slum-areas in the interest not only of the slum-dwellers themselves but in the wider interest of public health of these places.

The present Bill accordingly seeks to provide for the acquisition of such areas by payment of compensation to the persons interested in the land and structures contained therein and for the clearance or remodelling thereof. It also provides that no occupier of a hut or other structures in a slum-area to be acquired shall be evicted unless and until such occupier has been offered alternative accommodation at a rent considered by the State Government to be comparable to what was being paid by him.

The Bill also seeks to provide for other necessary and incidental matters.

To provide for the clearance of slums in Calcutta and certain other matters connected therewith.

WHEREAS it is expedient to provide for the clearance of slums in Calcutta and wherever possible for the erection of planned buildings after demolition of existing huts and other structures in such slums in the manner hereinafter appearing with a view to the removal of insanitary and unhygienic conditions prevailing therein, the provision of better accommodation and improved living conditions for the slum-dwellers, and the promotion of public health generally, and for certain other matters connected therewith;

It is hereby enacted in the Eighth Year of the Republic of India, by the Legislature of West Bengal, as follows:—

TITLE, COMMENCEMENT & EXTENT

1. (1) This Act may be called the Calcutta Slum Clearance Act, 1957.

(2) It shall come into force on such date as the State Government may by notification appoint.

(3) It shall apply to Calcutta or to such portion thereof as the State Government may by notification declare. The State Government may by notification extend it to any other town or local area in West Bengal specified in such notification.

Explanation.—In this sub-section, "Calcutta" means the area described in Schedule I to the Calcutta Municipal Act, 1951, as deemed to have been amended under Section 594 of that Act, West Bengal Act XXXIII of 1951.

REPEAL AND PROHIBITION OF ERECTION OR ADDITION OR ALTERATION OF NEW HUTS

2. In any area to which this Act applies:—

(a) the provisions of Sections 398 to 418 (both inclusive) and of Schedule XVI, Part VIII, of the Calcutta Municipal Act, 1951, and

Sections 384 to 347 (both inclusive) of the Bengal Municipal Act, 1902, as the case may be, shall stand repealed, and

(b) notwithstanding anything contained in any of the aforesaid Acts, no new hut or collection of huts shall be erected or no addition to, or alteration in, any such hut or collection of huts, shall be made in such area except with the permission in writing of the prescribed authority and subject to such restrictions or conditions, if any, as may be prescribed.

DEFINITIONS

8. In this Act, unless there is anything repugnant in the subject or context,—

(1) "hut" means any structure, no substantial part of which, excluding the walls up to a height of eighteen inches above the floor or floor-level, is constructed of masonry, reinforced concrete, ferro-concrete, cemented brick-work, steel, iron or other metal, or any combination of these materials, but includes any building constructed of plain or corrugated iron sheets;

(2) "notification" means a notification published in the Official Gazette;

(3) "prescribed" means prescribed by rules made under this Act;

(4) "prescribed authority" means any persons authorised by the State Government, by notification, to perform all or any of the functions of the prescribed authority under this Act;

(5) "slums" means any land containing a collection of huts used or intended to be used for human habitation;

(6) "slum-area" means any area declared as such by the State Government under Section 4.

DECLARATION OF SLUM AREA

4. (1) If the State Government is satisfied that in any area—

(a) the huts used or intended to be used for human habitation are unfit for such purposes, or

(b) the unhealthy or unhygienic condition thereof or of the huts therein, is dangerous or injurious to public health or to the health of the inhabitants of the area, the State Government may, by notification, and in such other manner as may be prescribed, proclaim its intention to declare such area to be a slum-area.

(2) Upon the publication of such a notification and within one month of such publication, the person or persons affected by such notification will be entitled to make representations in writing to the State Government, stating the grounds of their objection to the intended declaration,

(3) Upon consideration of such representations, if any, the State Government may withdraw the notification mentioned in sub-section (1) or may, by notification, declare such area or any portion thereof to be a slum-area.

ACQUISITION OF SLUM AREA

5. (1) The State Government may, at any time after an area has been declared a slum-area under sub-section (3) of Section 4, acquire the land comprised in such area together with all huts and other structures standing thereon by publishing in the Official Gazette a notice to the effect that the State Government has decided to acquire such land together with all huts and other structures standing thereon.

(2) When a notice as aforesaid is published in the Official Gazette, the land comprised in the slum-area together with all huts and other structures standing thereon shall, on and from the beginning of the day on which the notice is so published, vest absolutely in the State Government free from all encumbrances subject to the payment of compensation by the State Government as hereinafter provided.

(3) Any officer of the State Government, authorised by it in this behalf, may take possession of such land and huts and other structures at any time after acquisition:

Provided that such officer shall not take possession of any hut or other structure until the expiration of one month from the date of service of a notice to quit such hut or other structure which shall be served in such a manner and on such persons as may be prescribed.

(4) If such notice is not complied with by the person concerned mentioned in sub-section (3), the officer referred to in that sub-section may—

(a) if he is a Magistrate, enforce the delivery of possession to himself of the hut or other structure, in respect of which the notice has been served, or

(b) if he is not a Magistrate, apply to the Commissioner of Police, Calcutta, or to a Magistrate, as the case may be, and such Commissioner or Magistrate shall enforce the delivery of possession of such hut or other structure to such officer:

Provided that the provisions of sub-sections (3) and (4) shall not apply unless the State Government has offered alternative accommodation to the occupier of such hut or other structure at a rent which the State Government is satisfied is comparable to what was being paid by the occupier and the occupier has refused or neglected to occupy such alternative accommodation within the time prescribed. An occupier shall be paid such removal cost as the officer may decide according to prescribed rules.

UTILIZATION OF SLUM-AREA FOR BUILDING AND OTHER PURPOSES

6. (1) On the removal of the occupiers from all huts and structures in pursuance of the provisions of sub-sections (3) and (4) of Section 5, the State Government may take all necessary measures to clear the acquired land by the demolition of all huts and structures therein and to erect thereon buildings according to such plan as may be approved by it.

(2) The State Government may itself execute or cause to be executed the measures referred to in sub-section (1) or may entrust the execution to such local authority or other body or organisation and on such terms and conditions as may be determined by the State Government.

(3) The buildings so erected or the huts remodelled under sub-section (6) will be let out to slum-dwellers and to persons of such low income groups as may be prescribed.

(4) The terms and conditions for letting out the buildings erected or the huts remodelled under the provisions of sub-section (3) shall be such as may be prescribed.

(5) Where the acquired land is unsuitable for the construction of any building as aforesaid on the ground that the area is small, or on any other ground, the State Government may use it for such public purposes as it thinks fit.

(6) The State Government may, instead of demolishing huts and structures and erecting buildings, take measures to remodel the slum in such manner and subject to such conditions as may be prescribed.

COMPENSATION

7. (1) Any person having any interest in any land or hut or structure acquired under this Act shall be entitled to receive from the State Government compensation calculated according to the principles enumerated below, namely:—

(a) The owner of the land—compensation equal to the sum of—

(i) the purchase price of the land paid by the owner or where the owner's interests were acquired otherwise than by

purchase, then the purchase price paid by the last purchaser, and

subject to appeal as hereinafter provided, be final and conclusive.

- (ii) ten times the net annual income derived or derivable by the owner from the land as well as from any huts and structures owned by him.

(b) A lessee or a sub-lessee of the land—compensation equal to the amount admissible for the unexpired period of the lease or a sub-lease calculated on the basis of the net annual income from the land as well as from any huts and structures owned by him, subject to a maximum of ten times the net annual income when such unexpired period is ten years or more.

(c) An owner of any hut or structure—compensation equal to the cost or probable cost of construction of such hut or structure when it was first constructed after deducting therefrom an amount on account of depreciation calculated at such percentage as may be prescribed having regard to the nature of the materials used in the construction.

Explanation.—(i) "Gross income" means the aggregate of the amounts received or receivable during a year by the owner or the lessee or the sub-lessee on account of the rent of the land and of any huts or structures owned by him.

(ii) "Net income" means the amount arrived at by deducting from the gross income—

(a) the annual rents and taxes payable by the owner or the lessee or the sub-lessee for such land, huts and structures;

(b) the cost of repairs and maintenance of huts and structures, if any, calculated at ten per centum of the gross income;

(c) the cost of management and collection calculated at six per centum of the gross income.

(iii) "Net annual income" means the average of the net income calculated over a period of five consecutive years preceding the date of acquisition. If only a portion of the land was let out for any period during the five consecutive years as aforesaid, then the gross rent for the portion so let out shall be the basis for determining the gross rent of the entire land for such period.

(2) Where several persons claim to be entitled to compensation payable for any land or hut or structure under sub-section (1), the prescribed authority shall determine the persons who, in his opinion, are entitled to receive the same and apportion the amount among them.

(3) Determination of persons entitled to receive the compensation and the amount payable to each of them by the prescribed authority shall,

DETERMINATION OF COMPENSATION AND MANNER OF PAYMENT

8. The compensation mentioned in Section 7 shall be paid and satisfied by issue of bonds by the State Government which shall bear interest at the rate of 5 per centum per annum with effect from the date of issue of these bonds. The said bonds shall be redeemed and paid in full at the face value thereof immediately on the expiry of twenty years from the date of their issue but the State Government shall be at liberty to redeem and pay such bonds or any part thereof before the expiry of the said twenty years:

Provided, however, that the State Government may, where the compensation does not exceed Rs. 2,500, pay such compensation in cash.

APPEAL

9. (1) Any person aggrieved by an order made under Section 7 may, within thirty days from the date of such order, prefer an appeal to such authority as may be appointed by the State Government.

(2) The authority appointed to hear appeals may entertain an appeal even after the expiry of the period of thirty days, if he is satisfied that the appellant was prevented by sufficient cause from preferring the appeal in time.

(3) The State Government shall not appoint any person as the authority to hear appeals unless he is, or has been, or is qualified for appointment as, a Judge of a High Court.

POWER TO MAKE RULES

10. (1) The State Government may, after previous publication, make rules for carrying out the purposes of this Act.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the matters which, under any provision of this Act, are required to be prescribed by rules.

BUSTEES IN CALCUTTA

	Number of Bustees	Area in Bigha	Population
Calcutta (with added areas)	1,070	4,84,427	6,17,774
Tollygunge	94	...	40,521
Total	1,164	?	6,58,295

Ward No. 15 occupies the highest place in having bustee areas of 861.85 bighas with a population of 88,742. The Ward is bounded on the north by the New Canal, on the south Manicktala Main Road, on the east the Eastern Railway Lines on the west the Circular Canal.

THE BILL IN THE ASSEMBLY

On December 12 last, the West Bengal State Assembly referred the Slum Clearance Bill, 1957, to a Joint Select Committee comprising of members from both the Houses.

Earlier on that day, replying to the criticism made by Opposition members, Shri I. D. Jaian, the Minister for Local Self-Government, said that the question of slum clearance was interlinked with the question of finance. The century-old problem could not be solved within a few years with such inadequacy of funds.

Participating in the discussion members urged for giving more emphasis on improving the sanitary conditions and water supply to bustees. This was necessary if the majority of bustee-dwellers was to be ensured a minimum condition for living during the next few years.

Some of the members including Dr. Jnan Majumdar, Shri Somnath Lahiri and Shri Sunil Das suggested for an Autonomous Board for dealing with the question of slum clearance, for increasing

the tenancy rights of bustee-dwellers and building apartment houses first on available vacant lands without insisting on dismantling the existing bustees.

One should wait to see how the matters stand after going through the Select Committee which will discuss in detail the Bill, clause by clause.

In the meantime the Union Government has approved the State Government's Slum Clearance Scheme estimated to cost Rs. 28.04 lakhs for the construction of 884 one-room multi-storeyed houses on Barrackpore Trunk Road in northern part of the city. Of this amount, 50 per cent will be given to the State Government as loan and 25 per cent as subsidy. The balance of Rs. 5.76 lakhs is to be provided by the State Government as a matching subsidy.

The conditions so far imposed is that the houses are to be completed by the 31st March, 1959.

THE COMMISSIONER, SHRI B. K. SEN, PRESIDENT, POURA PRATISTHAN SANGHA WITH SOME OF ITS ENTHUSIASTIC MEMBERS.

Calcutta Corporation's Sports Club, Poura Pratisthan Sangha, has a chequered career in its march to become a member of the First Division Football League. This year the Sangha has snatched away the Second Division League Championship. It entered the League Tournament five years back only.

The above picture shows the encouragement given by its President to its members when the Trophy was brought down to the Corporation buildings.

The Sangha will hold its Annual Athletic Sports on the 18th January next.

MAYOR WELCOMES FAST MOVING TRAINS

The Indian Prime Minister, Shri Jawharlal Nehru, the State Governor, Shrimati Padmaja Naidu, the State Chief Minister, Dr. B. C. Roy and others who participated in that function are seen in the picture.

NEHRU SPENDS A BUSY DAY IN THE CITY

Calcutta Linked Up With Electric Train Services

FOURTEENTH of December was an eventful day in the history of Calcutta when a new era of quick travel for millions living on the eastern part of the Indian Union emerged. And the Indian Prime Minister, Shri Jawaharlal Nehru took the limelight of the day's functions. In the day's programme there were not only the inauguration of the electric traction at Howrah Station but also an address to the members of the Associated Chambers of Commerce of India emphasizing the economic policy of the Government of India.

In high spirits, the Prime Minister alighted from the plane at Dum Dum airport in the morning of that day. He was received there by the State Governor, Shrimati Padmaja Naidu, the State Chief Minister, Dr. B. C. Roy, other Ministers and a large number of State Officials. The Burmese Prime Minister, Mr. U. Nu was also present there. Thereafter he drove straight to Raj Bhawan. The route was lined up with cheering crowds.

Addressing the members of the Chamber, in the morning, the Prime Minister felt the need of human approach to labour. He also said that the main principle for economic stability and industrialization of the country lay in giving the highest priority to development of agriculture, particularly of food production.

In the afternoon, the Prime Minister formally inaugurated electric traction on the Eastern Railway's Section between Howrah and Sheoraphuli in a special function held at the Station platform. There he said that electrification of railways was not new. But it was new in this part of India. The world had advanced into the atomic age. But it had to go through the electric age.

He travelled to the end of the new track and back on the same train which carried him there. He was accompanied by the State Governor, the Union Railway Minister, the State Chief Minister, the General Manager of the Railways and others.

A huge mass of people witnessed the function from a distance. But they broke through the cordon when it ended. Excitement rose to the fever pitch at the time of the departure of the train. A large crowd of people travelled precariously resulting accidents wherein three men died and about 25 people received injuries. Thus the pleasantness of the Prime Minister's journey was marred by some incidents which would be remembered for some years more as it cost a few valuable young lives.

Addressing the students from more than 20 countries, now in the city, at night at Marble Hall, Raj Bhawan, Shri Nehru asked them to look both at the attractive and dis-attractive faces of India, and try to gain a true impression about her people. He also felt that the world owing to successive wars and other factors, was becoming less and less human. Less and less charity

is to be found and thus less and less grace is to be found in this world, he added.

The Prime Minister left the city on Sunday morning, the 15th December. He was seen off by a large crowd including the State Governor and the State Chief Minister. Thus within a period less than a full day Shri Nehru fulfilled one of the busiest programmes he had in this city.

THERE SHOULD BE A HUMAN APPROACH TOWARDS LABOUR

At Associated Chambers' meeting which was held at Royal Exchange Place, Dalhousie area, Shri Nehru said about the problems of industries. Placing the case of labour he said that they should be given facilities of education and training and a situation created in which they would feel that they had a future. This would obviate at least some of the troubles in the industrial field, and industrialists would not be the loser for this.

He also said that India had very considerable achievements to her credit during the past 10 years. But the problems the country had faced were tremendous and whatever had been done were very small compared with what would have to be done.

In an hour's speech he switched over to the social problems of the country when he said that the most revolutionary change had been in the field of emancipation of women. Laws had been

passed in marriage and divorce and inheritance rights of women. The laws had upset conditions which had their roots in the past.

Presiding over the annual meeting, Mr. W. H. S. Michelmores said about the dynamic changes in India in last ten years. He also welcomed the Government's attempt to extend the incidence of taxation to more people. The ultimate goal should be to induce every citizen to contribute his mite, however small it might be, he emphasized.

All the members of the business community in the city heard the Prime Minister speaking. Among those present were Shri Jagjivan Ram, Union Minister for Communication and the U. K. High Commissioner to India, Mr. Malcolm McDonald. Councillor K. L. Dhandhanian, Chairman, Standing Finance Committee and President, Bharat Chamber of Commerce, was also present.

PHENOMENAL INCREASE IN CITY AND SUBURBAN POPULATION

In India the electrification of the Bombay and Calcutta suburban areas was considered as early as in 1914. Bombay ran the first electric train in 1925 and Madras in 1981.

But in spite of a high phenomenal growth of population in this city and suburbs the electric traction came as late as this year. During these forty years the population has multiplied immensely and a saturation point had already been reached. The traffic has increased to nearly three and a half times its pre-war level. The conclusion is no doubt introduction of electric traction with a huge capital lay out. And this was amply witnessed when the electrification scheme took its shape and was inaugurated on that day.

In that connection, the station platform was profusely decorated. A high dais was erected. It was edged with rows of chrysanthemums. A large number of invited guests attended the function. Besides, the Prime Minister, Shri Nehru and the Mayor, Dr. Triguna Sen, the occasion was welcomed by the General Manager of the Eastern Railways Shri S. Sarangapani, Dr. Maitreyee Bose, M.L.A., Councillor K. L. Dhandhanian, President of the Bharat Chamber of Commerce on behalf of the business community and Shri Probodh Adhikari, a carpenter of the Lillooah workshop on behalf of the railwaymen.

The Prime Minister remarked that the occasion marked a milestone in the progress of transport in India. It appeared to him a bridge between the old regime and the new regime. India had her own plan which she had been working out for the progress of the nation and in the long run the progress meant the welfare and well-being of the teeming millions of India.

Shri Nehru also said that the Indian Railways had more than 10 lakhs of workers under them and they indeed had in their hands the biggest of the jobs. He urged them to work with enthusiasm

and in co-operation considering themselves as members of a single big family. He likened the railways to the arteries of a human body. If the arteries did not work, the body lost its vitality, he concluded.

'NO CHANGE IN ORIGINAL SCHEME'

The Railway Minister, Shri Jagjivan Ram assured the people that the Railway Board contemplated no change in the electrification scheme of Sealdah Division of the Eastern Railways. Neither did they contemplate to put off any of the electrification schemes of the Railways as contained in the Second Plan, he announced.

The Mayor of Calcutta, Dr. Sen, pointed out that for the over-crowded city, the electrification schemes of the suburban railways were very important. The middle-class people and workers could move away to the suburbs from Calcutta only when they could feel assured of cheap and speedy travel from the neighbouring areas to the city, he added.

Shri Sarangapani stated that the entire 18-crore scheme of electrification was being administered wholly by Indian engineers. The electrification work so far completed had been one of the most intricate ever attempted in India's railway history, he said.

Shri Sarangapani continued that the English Electric Company had a place of pride in India. One hundred and four years ago, the Vulcan Foundry supplied the first locomotive to India. Since then it had built more than 2,750 locomotives for this country. The English Electric Company had also supplied the electric locomotives for Bombay, Madras and now for Calcutta, he added.

Councillor Dhandhanian also felt that the electrification scheme would cause easy movements of goods transport from one end to another resulting in an inter-state trade facilities for the eastern zone.

THE CORPORATION AT WORK

A GIST OF PROCEEDINGS OF THE TWENTY-EIGHTH ORDINARY MEETING OF THE CORPORATION HELD ON FRIDAY, THE 18TH DECEMBER, 1957.

OBITUARY

At the outset, the House condoled the deaths of a number of important citizens. The death of Shri Panchanan Singh was referred to in the House by the Deputy Mayor, Shri K. C. Basu. The late Shri Singh was a renowned educationalist, author, patriot and ex-Principal of Ashutosh College. He died on the 9th December last at his residence at New Gate Street, Serampore. He was 72. He was the ex-Secretary of Serampore Union Institution. The late Shri Singh's contribution for the cause of education was recalled at the meeting. He was also for a time in the staff of the Calcutta University.

The House also condoled the death of Shri Anil Kumar Roy, a former Chief Building Surveyor of the Corporation. The late Shri Roy was one of the ablest officers of the Corporation. He had

BUST FOR AN EX-COUNCILLOR

A bust or statue of the late COUNCILLOR TULSIRAM SARAOGI will be installed at the north-eastern corner of Tarasundari Park. The Corporation at its weekly meeting on Friday, the 6th December last, allowed Saraogi Smarak Samity the space to be provided for the purpose. The memorial Samity will bear all the costs of the statue but the erection would be held under supervision of the Corporation. The Corporation's decision was backed by the recommendation of the Standing Town Planning and Improvement Committee.

been also the Controller of Stores, Corporation of Calcutta, for a period. After retirement he joined the Jadavpur University as one of its staff in the Engineering Department.

The House adjourned its sitting for ten minutes as a mark of respect to the deceased.

VACCINATION DRIVE

Councillor Mihirlal Ganguly pointed out that the vaccination drive in the Bustee areas had not been fully intensified in the city. He desired that the campaign should be more vigorous so that the mass vaccination programme might be successful.

AMENDMENT OF P. F. RULES

The House, on the recommendation of the Standing Finance Committee, amended the Provident Fund Rules in the following way in response to the suggestion made by the Public Service Commission, West Bengal, regarding the amendment of Rule 6(1) of the P. F. Rules:—

"Compulsory—A sum equal to 8-1/8 per cent. on the amount of the salary of each subscriber (other than a member of the labour staff) shall be deducted monthly from such salary before payment of the same. It will not be calculated on any fraction of a rupee included in salary.

With effect from 1st August, 1948, the rate of subscription for a member of the

Labour Staff shall be 6½ per cent. on the amount of his salary."

TAKING OVER A PASSAGE

The House, on the recommendation of the Standing Town Planning & Improvement Committee, took over a private passage running southward by the eastern side of 2A/1, Hasra Bagan Lane, in Ward No. 48, under Section 875 of the Calcutta Municipal Act, 1951.

TRAIN STOPPAGES

Councillor Nripendra Nath Banerjee pointed out the difficulties faced by the Railway passengers in suburban stations while boarding or alighting from the train due to short span of time allowed for stoppage of trains at these stations. He said that the authorities did not pay heed to earlier representations made in this regard by a large number of passengers. Councillor Banerjee added that even so short a period as twenty seconds had been allowed for stoppage in a flag station close to this city where the passengers were growing largely in numbers.

Councillor Banerjee wanted that Corporation as a representative of the citizens, should make a further representation to the Railway Authorities for a longer period of stoppage in those places in order to avoid accidents.

—COMMISSIONER'S BUDGET ESTIMATE.

(Continued from page 216)

During the current year, two loans aggregating Rs. 40,58,800 fell due for repayment, one on 1st August, 1957, and the other on 1st October, 1957. These repayments were covered by Sinking Funds maintained for the purpose.

Before conclusion the Commissioner said:—

I must admit that our progress is not as rapid as we desire it to be, the only reason being our financial limitations. But taking an objective view one must admit that there has been an all-round improvement during the last few years in the amenities provided to the citizens of Calcutta, not only in terms of quantity of services provided to them but also in terms of quality.

With an optimistic picture before his eyes Shri Sen said that the receipt of 2.25 crores out of the Second Five Year National Plan for improvement of the drainage and Sanitation Schemes. And when we will be able to raise all the loans for which we have made provisions in this budget, we shall be able to improve really to a very large extent, the services that we provide to our rate-payers.

Lastly the Commissioner said:—

Just now I received a message from the State Government that the Central Government have sanctioned the allotment of Rs. 20.5 lakhs this year out of Rs. 2.25 crores offered by the Central Government from the Second Five Year National Plan for the water supply and sanitation schemes of our Corporation.

COMMISSIONER'S BUDGET ESTIMATES FOR 1958-59

NO PROPOSAL FOR FRESH TAXATION

THE BUDGET ESTIMATES FOR 1958-59, as compiled by the Commissioner, Shri B. K. Sen, was placed before the Standing Finance Committee on Saturday, the 14th December last under Section 127 of the Calcutta Municipal Act. The Chairman, Councillor K. L. Dhandhanian accepted the Estimates on behalf of the Committee. The Standing Committee will now examine the Estimates in detail and will put up before the Corporation towards the middle of March for final acceptance along with their other proposals.

The Budget shows an estimated income of Rs. 750.95 lakhs and an estimated expenditure of Rs. 766.00 lakhs resulting an expected deficit of Rs. 15.05 lakhs in the Revenue Fund during the year 1958-59. The total estimates including the Loan Fund comes up to Rs. 1,824.85 lakhs in the income side while the expenditures are Rs. 1,799.99 lakhs keeping an expected closing balance of Rs. 24.86 lakhs in the total Municipal Fund at the end of the said financial year. The expected deficit in the Revenue Fund will be covered up on the estimates on opening balance on the 1st April, 1958. The amount is Rs. 29.81 lakhs. Thus there is no proposal for fresh taxation.

The estimated expenditures for the year under review show a definite trend towards provision of larger civic amenities for the citizens. With the introduction of house to house refuse collection over a major portion of the city the conservancy services would be much improved. Mechanization of cart services would be completed with the purchase of additional lorries at an estimated cost of Rs. 14 lakhs. A new platform at Dhappa would come into operation within the coming year whereby quick conservancy services would be ensured. The quantity of water supply has been aimed at 150 million gallons per day. Adequate provision has been made for installation of a rapid gravity filter and other ancillary parts for the main plant at Pulta.

Elaborate and intensive methods would be adopted for the control of epidemic diseases during the coming year. The epidemic control scheme has already been on work since October last. Mass vaccination and inoculation work would be fully implemented. The expenditures on the four T. B. Clinics have been increased for improved services. A new block in Mansatalla Chest Clinic would also come into existence soon. A few more Ambulance Vans would be added. Five more milk kitchen centres would distribute larger quantities in addition to the four new ones started this year. A new Maternity Hospital is under construction in Tangra area.

There has also been marked improvements in city's parks and squares. Street lighting would improve and the citizens would safely walk over roads during dark hours. Drive against illiteracy and ignorance would remain unabated in the coming year. Welfare to the employees has also been looked into.

A large number of new projects and schemes would be undertaken in the budgetted year in order to "bring up the city to the modern standard." Loan funds thus have to be expanded largely. In the budget year the Commissioner has proposed to raise a total debenture loan of Rs. 4.44 crores. A sum of Rs. 90 lakhs had to be received from the Union Government out of its allotments under the Second Five-Year Plan.

Shri Sen said that Rs. 4 lakhs had been provided in the Revenue Budget and Rs. 20 lakhs in the Loans Budget for new work to be undertaken by the Borough Committees. Besides, Rs. 1 lakh had been provided for emergent new work and a little over Rs. 1 lakh for some urgent new projects like markets, slaughter houses and others.

In the income side, there have been appreciable increase of revenue particularly from the consolidated rate which is the 'sheet anchor of our revenue'.

Thus it appears that the Corporation's total income as well as expenditure have increased by about 50 per cent. since the year 1952-53. In that year the total income from all sources was Rs. 532.00 lakhs and the total expenditure was Rs. 530.00 lakhs.

BUDGET ESTIMATES IN SOME DETAILS

Introducing the estimates the Commissioner Shri B. K. Sen said:—

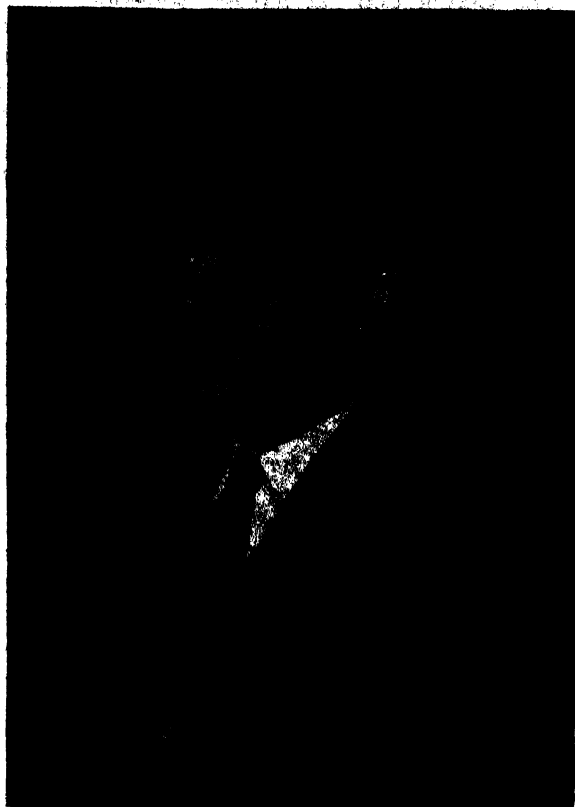

At the outset I would point out that there has been a progressive improvement in our finances during the last several years, particularly from the consolidated rate which is the sheet-anchor of our revenue. But the demand on our services is very heavy, and although we have to a certain extent not only increased the quantity of our services, but also at the same time given improved quality, still there are underdeveloped areas which could not be fully developed within the limited financial resources available to us. There are demands for increased expenditure for proper development of these areas and we are trying our level best to improve them as much as possible in a progressive way with the limited funds that are made available for the purpose.

Supply of pure potable water, the vital problem confronting the Corporation for a very long time has been attended to. On account of heavy influx of people in the city during recent years the increased supply of water has become absolutely necessary. The Corporation, therefore, included in its Five-Year Plan some projects for increased supply of water to its rate-payers, implementation of which, however, requires quite a heavy fund. The Central Government have already generously allotted a sum of Rs. 2.25 crores out of the Second Five Year National Plan for improvement of Corporation's water supply and sanitation schemes. Detailed schemes and plans submitted for the purpose, have already been scrutinised by their technical experts. According to the phasing of the expenditure programme submitted by the Corporation to the Central Government a sum of Rs. 90 to 100 lakhs would be made available in the next financial year to the Corporation for improvement of the city's water supply and sanitation schemes. In the meantime, short-term measures have been adopted. A few big dia. tubewells for augmenting water supply, especially in the scarcity areas, have already been sunk.

Improvement of drainage being a natural corollary to the augmentation of water supply, a sum of Rs. 80 lakhs has been ear-marked for the Corporation's sanitation schemes out of the said sum.

The Corporation have launched upon large number of capital projects for the improvement of the City. In order to cope with the situation and for carrying out such projects a separate Plan and Development Department has already been created.

In order to improve conservancy services, two major schemes have been undertaken by the Corporation, one is mechanization of the cart services and the other is the introduction of house to house collection. The old antiquated cart system has been abolished in all the areas excepting Tollygunge and a portion of District IV. These areas are also expected to be fully mechanized in course of the next year. With regard to house to house collection, more and more areas are gradually brought under the scheme with the desired result of abolition of street side dust-bins, thereby giving a substantial relief to the inhabitants of the locality concerned.

Last year two new Locomotives were received and during this year orders have been placed for another two Locomotives expected to be operated within the next year. There has been some improvement in transport and disposal of refuse and further improvements are ensured when the other two Locomotives will be put into commission. The construction of a new platform at Dhappa is already complete but it could not be put into operation as yet as the acquisition of road approach is incomplete.

ROADS AND STREETS

Roads and streets have been to a great extent repaired. Considerable disturbances are made to the roads by the Public Utility Companies and Automatic Telephone Organization and on account of acute scarcity of cement and other materials these damaged roads could not be repaired. But tangible improvement has been achieved during this year in this respect.

REPLACING OF GAS LAMPS

There has been a marked improvement in the arrangement of the street lights. Many dark lanes and alleys have been lighted under the narrow passage scheme. For better lighting of its roads, the Corporation has accepted the principle of replacing gas lamps by electric lamps.

NEW SCHOOL BUILDINGS

Most of the Corporation Schools are at present located in rented buildings, the conditions of which are far from satisfactory. The Corporation has adopted a policy to locate all its schools in its own buildings gradually. With that end in view, a programme of construction of school buildings have been taken up within the limited resources. Already construction of two such School buildings have been completed and three are under construction.

EPIDEMIC CONTROL & OTHERS

The Corporation has already launched an Epidemic Control Scheme. Various measures have been taken to vaccinate and inoculate the City population with a view to prevent small-pox, cholera and other infectious diseases. It is hoped that the incidence of epidemics will be minimised henceforth. A sum of Rs. 67,000 has also been provided in the next year's budget for contributing to the Anti-Plague measures undertaken by the Government.

Due to the munificence of an Ex-Councillor Pulin Behari Khatik, the Corporation has been able to construct an additional Maternity Home in Tangra area on a land freely gifted by him. This Maternity Home is expected to be opened in the coming year. This will remove a long-felt need of that locality. There is another proposal for opening of a Maternity Home in the Cossipore area for which a provision has been made in the Loans Budget.

Four new Milk Kitchen Centres for free distribution of milk to the poor have already been opened this year in the different parts of the City and five more centres will be opened in the next year for which provision has been made in the Budget. The total strength of milk distributing centres will be 32 by the end of the next financial year.

In order to cope with the ever-growing demand from the public, five more Ambulance Vans are proposed to be added to the existing fleet, for which a provision of Rs. one lakh has been made in the next year's Budget Estimates.

The three Mayor's T. B. Clinics have already been taken over and are now being run by the Corporation. These Clinics were constructed by the Mayor's T. B. Fund to which handsome contributions were made by Shri Khatik, Calcutta Rangers Club and Bengal Chamber of Commerce. These T. B. Clinics have, no doubt, served a very useful purpose for the residents of the localities concerned and of the city in large.

WELFARE TO EMPLOYEES

A large number of employees had been continuing in temporary capacity for a long time. In absence of regulations for making permanent appointment under Section 81(6) of the Act, they could not be made permanent. The matter was taken up with the Municipal Service Commission and a special regulation was framed in consultation with them for making the temporary employees permanent. The regulation ultimately framed authorized the Commissioner to make permanent all temporary employees in service on 1st July, 1956, without recruitment examination, in the same department and in the same cadre on the certificate of satisfactory work from the Heads of Departments. The Corporation also decided to give them a higher start on permanent appointment according to a sliding-scale, to compensate so to say, their temporary services for a large number of years.

An additional Dearness Allowance of Rs. 5 per month has been granted to the employees from 1st April, 1957, drawing a pay upto Rs. 250 per month as in the case of Government employees. Further, the question of revision of grades of the employees has now been engaging the attention of the Standing Finance Committee.

The Corporation is also not unmindful of giving relief to its low-paid employees by means of

providing them with free quarters. The Central Government have been approached for making available sufficient funds for constructing buildings for housing the Harijan employees. A scheme of Rs. 2 crores has already been formulated and forwarded to them for approval and provision of funds.

Continuing his speech the Commissioner said:—

There has thus been a marked improvement in every sphere of city's essential services, although I must admit that much remains to be done yet which we could not take up on account of inadequate funds. In order to reach the desired standard of our services we require much more income than what we have at present. The consolidated rate is practically the only source of income to fall back upon. But on account of economic condition through which the country is passing at present, I do not propose to increase the present rates of taxation. It is always our endeavour to render as much services as possible without imposing further burden on the rate-payers in the shape of increased taxation.

ASSESSMENT AND COLLECTION**CENTRAL GOVERNMENT PROPERTIES**

The Central Government have agreed to pay service charges with effect from 1st April, 1954, in lieu of the consolidated rate for their properties acquired or erected after 31st March, 1937. The rate for such charges has not yet been finally fixed. An early decision is expected. As regards the old properties that were in existence before 1st April, 1937, the Union Government have agreed to pay from 1st April, 1948, the consolidated rate on the increased valuations. Notices have been issued intimating the different departments on the increased valuations made by the Corporation. Efforts are being made to finally settle these valuations after hearing the objections that may be made by them. In the meantime they have made an on-account payment of Rs. 12 lakhs for the service charges and the consolidated rate payable on the increased valuations from 1948.

RAILWAY PROPERTIES

The Railway authorities have been paying consolidated rate in respect of their properties. But they refused to pay the rate in respect of the properties acquired or erected on and from 26th January, 1950, when the Indian Constitution came into force. They are, however, agreeable to pay service charges for those properties from 1st April, 1954, as in case of the other properties of the Government. Pending fixation of the rate for such service charges they are agreeable to pay for the present at 15 per cent. of the annual value.

PORT TRUST PROPERTIES

It has not yet been possible to finalise the assessment of Port Trust properties on the revised basis agreed upon. Negotiation is still going on with them. Pending final settlement on the issue they made an on-account payment of Rs. 30 lakhs last year. Another on-account payment of Rs. 10 lakhs is expected this year.

CONSOLIDATED RATE

The income from the Consolidated Rate has been steadily increasing during the last several years. It has increased by about a crore of Rupees in course of the last six years. There would have been further increase but for the mandamus of the High Court in respect of the amalgamated buildings and other buildings. The Maidan area has come within the limits of the Corporation under the present Municipal Act. But no rate bill has been realised in respect of these properties owing to a mandamus of the High Court. Besides, on account of standardization of rents under the Rent Control Act and the decline in building construction activities it is apprehended that the rate of growth of our demand for consolidated rate bill would not be maintained.

COLLECTION

The revised estimate of collection of the consolidated rate is Rs. 437.50 lakhs as against the original estimate of Rs. 435.50 lakhs. The system of postal presentation has been introduced all over the city except Tollygunge areas. A cash collection counter at Cossipore will be opened soon. It has been decided to open another counter at Manicktala.

BUILDING

The year under review found a marked decline in the submission of plans by intending house-builders. As against 5,304 plan cases in 1955-56, there were only 4,453 plans in 1956-57. Restriction of supply of basic materials like cement and steel to the private sectors has much to do with the reluctance to submit plans in advance when the possibility of construction is rather remote. General economic condition as indicated by rise in price-level of primary commodities and consequent rise in labour charges also had its share in dissuading the investing public from going for construction.

ESSENTIAL CIVIC SERVICES

FILTERED WATER

In order to augment filtered water supply by 20 m.g.d. from the Pulta source, a loan of Rs. 46 lakhs has just been raised this year. For further improvement of the supply to 150 m.g.d. from the same source, a sum of Rs. 1.45 crores has been allotted out of Rs. 2.25 crores offered by Central Government under the Second Five Year Plan for Water Supply and Sanitation Schemes of the Corporation.

The Scheme for laying 72 in. Pulta-Tallah Main at an estimated cost of Rs. 2.25 crores to carry the extra water has already been let out to Messrs. Structural Engineering Works, Ltd., Bombay. 4,500 tons Mild Steel Plates for this project have been received and are stacked at Pulta Yard. A further quota license for 750 tons of plates has also been obtained and orders for supply of the same has been sent to Iron and Steel Controller, Government of India. As regards the remaining quantity of 8,450 tons, further communication with the Government of India, Ministry of Steel, Mines and Fuel has been undertaken. The work will be started as soon as the contractor erects the factory for fabrication after getting the license for the same. A loan of Rs. 75 lakhs was raised last year for this purpose and a further loan of Rs. 83,37,000 has just been raised this year.

TUBEWELLS

Out of 49 Fire Fighting Tubewells to be sunk by the State Government, nine have already been sunk and handed over to the Corporation and three more are going to be sunk within this year. A list of a further lot of 12 fire fighting tubewells in different parts of the city approved by the Corporation has been forwarded to the Government with a request to sink them within this year. A similar lot of four big dia. tubewells in Manicktola area is going to be sunk by them.

During the period under review 205 small dia. tubewells have already been sunk out of 666 approved by the Corporation. The rest will be sunk before the year closes. Government have also sunk 250 small dia. tubewells and have handed them over to the Corporation. The present total number of small dia. tubewells so far sunk and put into commission is 2,400.

PULTA AND TALLAH

The total quantity of filtered water supplied during the year under review is 33,100 million gallons against 32,620 million gallons of the previous year. This includes the supply of about 11 million gallons of water per day from the tubewells.

Out of the 2 M.G.H. electrically operated pumps installed at Tallah, one has already been put into commission. This has resulted in an appreciable saving in the consumption of coal. The other one will be put into commission as soon as the building is completed. Of the two electric motors ordered for with Messrs. Mather and Platt Ltd. in replacement of two steam turbines at Pulta and Tallah one has already been supplied by the Company at Tallah and the other will be supplied very soon within this year.

UNFILTERED WATER SUPPLY

The total quantity of unfiltered water supplied during the year under review is 34,064 million galls. against 34,264 million gallons of the previous year. The extension of the intake jetty at Mullickghat Pumping Station is almost complete. The electrically driven pumping set at Watgunge Pumping Station has already been put into commission.

WATER SUPPLY TO SHIPPING

Messrs. Kilburn & Co. have supplied the Diesel Engine Water Boat. So, the strength of the self-propelled water boats has now increased from 3 to 4. This year the "Visti" has been thoroughly overhauled and will be in service from this month and we will be in a position to supply 1,000 tons of water per day from January, 1958.

WATER MAINS

Laying of Reserve mains as well as enlargement and extension of water mains has also been carried out. Reserve mains approximately 7,000 r.ft. and water mains of 4 in. dia. 10,000 r.ft. and 6 in. dia. 3,500 r.ft. have been laid in the city as per sanctioned scheme during the current year.

DRAINAGE

During the year 1957-58, in addition to the reconstruction of damaged sewers in a number of areas, extension of sewer at Ballygunge Place has been taken up and is in progress. Arrangement has also been made to take up the work of sewerage Garcha Second Lane.

For clearance of silt from Brick Sewers additional temporary staff has been engaged since the beginning of this year during the night. The day shift work of the permanent Sewer Cleansing Staff has been recently converted to night shift work for better facility and output. A sum of Rs. 2 lakhs have been provided for this.

Storm water sewer has been laid, this year, in Bosepara Lane, Harinath De Road and Rajendra Street to the appreciable relief of the localities concerned. As a measure of prevention of flooding in Cossipore area, the Pumping Station at Beerpara Lane started functioning during the year.

At Ballygunge Drainage Pumping Station, one new electric pump capacity 1.1 million gallons per hour has already been installed and will be put into commission very shortly. Another new Electric Pump at the said Station is under erection and is expected to be put into commission by the end of the current financial year.

At Palmer's Bridge Drainage Pumping Station, one electric motor to drive one of the existing pumps has already been installed and will be commissioned very shortly.

For equipment of Dhappa Lock Pumping Station serving Manicktola Cossipore areas erection of machinery is in progress. The construction of the R. C. Lined Delivery Channel for this station at a cost of Rs. 1,50,000 has been taken up this year. Another work for completing the unfinished item of work of the Pump House at a total cost of Rs. 35,000 has been taken up during the year and is in a good progress. Dhappa Lock Pumping Station is expected to start functioning by the end of the current financial year.

For the work of remodelling Town and Suburban Head-Cuts and Storm Water Reservoir a loan of Rs. 25 lakhs has just been raised against the estimated cost of Rs. 37 lakhs. Work is expected to be taken up early after acceptance of tenders.

Out of Rs. 2.25 crores offered by the Government of India to the Corporation for Water Supply and Sanitation Schemes out of the Second Five Year National Plan, a sum of Rs. 80 lakhs has been allotted by the Corporation for the Improvement of Drainage, *viz.*, Rs. 27 lakhs for Remodelling Drainage Pumping Stations and augmentation of pumping capacities, Rs. 32 lakhs for sewerage pockets within the frame work of sewerage and Rs. 21 lakhs for covering the Storm Water Channel from Palmer's Bridge Pumping Station passing through developed and congested areas. For the Schemes at an estimated cost of Rs. 48 lakhs details have already been worked out.

MOTOR VEHICLES

Out of 46 vehicles sanctioned last year, 38 vehicles were received during the year and the remaining 8 have been received this year. Besides, 114 vehicles have been purchased out of this year's provision of which 81 are meant for additional services under Mechanisation Scheme, House to House Collection Scheme, and others. The remaining 33 are meant for replacement. A proposal for replacement of 70 vehicles this year was made but funds were available for purpose of 33 vehicles only. A provision of Rs. 10 lakhs has been made in the next year's Budget for purchase of more vehicles for replacement.

REVENUE

In the field of Primary Education the present activity of the Corporation is confined to the running of 252 Primary Schools including 9 night schools for manual workers in which 53,000 children are now receiving education. There has been an ever increasing pressure on our schools for new admissions which can only be met by opening larger numbers. Due to shortage of funds as well as school buildings the Corporation is not in a position to expand the activities. The best is being done by improving the existing schools and by gradually equipping schools with furniture for sitting accommodation of the children, and introducing new features in the schools. Recently nine Music Instructors have been recruited to impart instruction in music to school children.

NEW WORKS

On account of the growing needs of the city as well as to bring up the city to the modern standard, a large number of new projects is required to be executed by the Corporation almost every year. The limit for expenditure on new work out

BUDGET AT A GLANCE

	Estimates for 1958-59.
	Rs.
Opening Balance	29,81,000
Receipts	7,50,95,000
	<hr/>
Total	7,80,76,000
Expenditures	7,66,00,000
	<hr/>
Closing Balance	14,76,000

of the revenue fund is limited to Rs. 4 lakhs under Boroughs and Rs. 1 lakh for unforeseen emergent new work, to be spent at the discretion of the Commissioner. Another sum of Rs. 1 lakh should also be provided for new work which do not generally come out of the funds placed at the disposal of the Borough Committees, such as, Markets, Dispensaries, Municipal buildings, Slaughter Houses, and others. In other words, Rs. 6 lakhs in all should be the limit for expenditure on new works out of revenue in any year. In accordance with this policy, provision has been made for 20 lakhs in the Loans Budget for new work at the disposal of the Borough Committees. It may be possible for the Borough Committees to make allotment for proposals out of Rs. 24 lakhs provided for new work at the disposal of the Borough Committees.

LOANS BUDGET

The next year's Loans Budget starts with an estimated opening balance of Rs. 3,32,32,000 including Rs. 1,67,32,000 which we are going to raise on 1st January, 1958, as per Loan Statement of 1956-57.

The next year's Budget includes provisions for a further debenture loan of Rs. 4,44,86,000 and Rs. 90 lakhs to be received from the Union Government out of their allotments for the Second National Five-Year Plan, for the Corporation's Water Supply and Sanitation Schemes.

CITY-NEWS-PARADE

OBITUARY: The death of Shri Bijan Kumar Sen, the seniormost solicitor of Calcutta High Court, occurred on Friday, the 13th December last. He was 72. He was the son of late Shri Anurita Lal Sen and a grand-nephew of late Shri Keshab Chandra Sen.

FOUNDATION STONE OF A BUILDING FOR MODERN HIGH SCHOOL FOR GIRLS was laid on the 9th December last by the State Chief Minister, Dr. B. C. Roy at Birla Park. Stressing the role of women in a progressive country, Dr. Roy said that the Plans might not be totally successful, but that should not cause much disappointment if future citizens were well educated. Educated women had an important part to play in moulding a nation's destiny.

In that connection Dr. Roy further said that his mother, "literally uneducated," established the first girls' school in Bihar in 1891. The school is still in existence in Patna as a Government-aided High School. Her thirst for knowledge was so great that she went to Lucknow to get herself properly trained so that she could organize a girls' school.

Shrimati B. M. Birla, president of the managing committee of the institution, said the school was started by women of the Birla family in January, 1952 with 50 children in a house in Camac Street.

TWO-DAY CONFERENCE OF INDIAN ASSOCIATION OF SPECIAL LIBRARIES AND INFORMATION CENTRES ended in the city on the 8th December last. The need for special libraries to organize an adequate system and equipment for classifying and correlating scientific information was emphasized at the conference.

Shri N. K. Sidhanta, Vice-Chancellor, Calcutta University, who inaugurated the conference, called upon the Association to train personnel to manage various special libraries.

Shri V. P. Sondhi, Director, Geological Survey, in his presidential address said that the success of the country's industrialization programme depended to a large extent on the systematic organization and dissemination of scientific and technical information.

Dr. N. Datta-Majumdar, Director, Department of Anthropology, said that a modern librarian equipped with the technique of documentation, contributed to the national wealth because he could help research workers on whose findings and observations industries flourished.

NEEPA MAITRA'S WORKS IN OILS AND PASTEL were in show at the Artistry House, Park Street for a few days recently. They were 65 in number and was limited to figure studies and some of the figures painted from the same model produced an effect of repetitiousness. There was compositional strength in some of the pieces, whether dramatically or delicately patterned. They also showed their young artist's sensitivity and accurate colour sense. Some of the good pieces displayed her interest in varied techniques to make up for some of the lapses. The striking common quality of most of her pictures was her pre-occupation with light, colour and tone values.

Shrimati Maitra's colour and general technical proficiency displayed in "Attitude", "Wistful", "Pink Blouse", "Realization", "Black Shawl", "Lemon Light", "Convalescence", "Reverie", "Old Age", "At Rest", "Red Tie" and

"Coquette". Skilful draughtsmanship and controlled colour scheme captured the mood of brooding tenderness in such canvases as "Innocence" and "Boy Student."

HUMAN RIGHTS DAY was observed in the city through different functions on the 10th December last. Calcutta Association for United Nations also observed the day befittingly at the Indian Association Hall. Dr. Kalidas Nag, D. Litt, presided. Shri Radhika Prasad Banerjee opened the meeting. The meeting was largely attended.

Moved by Dr. Pratap Chandra Chunder and duly seconded by Prof. Anath Bandhu Dutta a resolution was unanimously passed condemning the Apartheid Laws and Orders of the South African Government as they went counter to the provisions of the Declaration of Human Rights by the General Assembly of the United Nations.

Dr. Nag concluded that nations of Africa and Asia were united in the United Nations and the day was not far off when the voice of Asia and Africa would be raised with the same strength as the voice of Europe and America.

Speeches criticising the suppression of even simple human rights by powerful nations were also made by speakers including Dr. Sukumar Mitra.

The two African students at present residing in this city, regretted that the nation that once gave the slogan for equality, liberty and fraternity, was crushing the human rights in Algeria. They equally condemned the suppression of human rights of Hungarians by Soviet Russia and efforts of the minority White people to suppress the rights of majority Africans.

Documentary Films on Human Rights were shown which was much appreciated.

DAKSHINEE'S ANNUAL CONVOCATION came off on Sunday, the 15th December. Altogether twenty-six successful students received Diplomas and Degrees both in Music and Dance. These were awarded to them by Shri Santadev Ghosh of Viswabharati Kala Bhawan. The institution is situated in the southern part of the city and imparts training to a large number of students. The subjects taught are the songs of Rabindranath including the higher classical stage as well as instructions on dances. The examinations were held during June last. The students roll of the institution is over seven hundred and fifty at present.

In his address Shri Ghosh felt that Gurudev Rabindranath gave a blow to the then Bengali society of the nineteenth century with the introduction of holding musical soirees being participated in by the members of the Tagore family. And gradually that idea spread over to many of the families. And with the establishment of Santi-Niketan at Bolpur as a centre of art and literature the country's culture was much enhanced. But the desired goal has yet to be achieved, Shri Ghosh emphasized. The music composed by Rabindranath should be cultivated in such a way so that it might bring out the good senses of human mind discarding the evil ones.

Earlier, Shri Suvo Guha Thakurta, Secretary, spoke a few words.

The function came to a close with the presentation of a musical soiree both solos and chorus. Some of the songs rendered by Sm. Indrani Das Gupta, Shri Amal Nag and a few others deserved special mention.

CORPORATION NOTICES

To All Registered Petty Improvement Contractors

District I Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover, superscribed "Tender for....." on the 27th December, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the Cossipore Engineering Department (Engineering Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

54. Repairs to kerb and channel stones on Cossipore Road near Ramgopal Ghose Road, Rs. 877/-, dated 14th December, 1957, (1 month).

55. Supply of Building Rubbish at Indra Biswas Road, Rs. 910/-, dated 14th December, 1957, (1 month).

56. Remodelling of foot-path around Veritola Bazar, 110, Cossipore Road (W-1), Rs. 3,106/-, dated 14th December, 1957, (2 months).

57. Construction of footpath at Nawab Dilarjan Road (North), Rs. 4,277/-, dated 14th December, 1957, (2 months).

58. Construction of footpath at Nawab Dilarjan Road (South), Rs. 4,277/-, dated 14th December, 1957, (2 months).

59. Repairs to Tube-well Pump-room at Kali Charan Ghose Road, Rs. 461/-, dated 14th December, 1957, (1 month).

60. Repairs to Tube-well Pump-room at Woona Kanta Sen Lane, Rs. 4,755/-, dated 14th December, 1957, (2 months).

61. Repairs to Tube-well Pump-room at Ratan Babu Road, Rs. 466/-, dated 14th December, 1957, (1 month).

62. Repairs to Tube-well Pump-room at Cossipore Road, Rs. 475/-, dated 14th December, 1957, (1 month).

63. Providing Bamboo piling for protection of Roypara Nikashi drain, Rs. 3,601/-, dated 14th December, 1957, (2 months).

64. Earth work in flank at Woona Kanta Sen Lane by the side of Lala Babu Nikashi drain, Rs. 4,578/-, dated 14th December, 1957, (2 months).

65. Repairs to surface drain at D. Gupta Lane, Rs. 1,860/-, dated 14th December, 1957, (2 months).

66. Repairs to surface drain at Chandra Nath Simlai Lane, Rs. 1,836/-, dated 14th December, 1957, (1 month).

67. Repairs to surface drain at Satchasipara Road, Rs. 3,684/-, dated 14th December, 1957, (2 months).

68. Repairs to Labour Camps at Nawa-para Trenching Ground, Rs. 4,482/-, dated 14th December, 1957, (2 months).

69. Repairs to C. I. roofs of Palpara Labour Camp, Rs. 4,760/-, dated 14th December, 1957, (2 months).

70. Repairs and remodelling service privies at Palpara Labour Camp, Rs. 3,258/-, dated 14th December, 1957, (2 months).

71. Providing covered drain at Kalachand Patitundi Lane, Rs. 504/-, dated 14th December, 1957, (1 month).

72. Providing bench and umbrella shed at Nitya Gopal Chatterji Park, Rs. 500/-, dated 14th December, 1957, (1 month).

73. Remodelling night soil depot on Cossipore Road, Rs. 575/-, dated 14th December, 1957, (1 month).

Please note that words "two months" as printed in italics in Clause 6 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

Tender for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for.....", on

Tuesday, the 24th December, 1957, upto 2 p.m.

The Petty Improvement Contractors are requested to call at this office to note the items and descriptions of works for which tenders are to be submitted, from a copy kept in the District Engineer's Office for inspection.

41. Repairing of kerb and channel stones in Chamroo Singh Lane, Ward No. 35, Rs. 301/-, dated 22nd November, 1957, (15 days).

S. K. MUKHERJEE,
District Engineer II.

District II Eng'g. Office.
The 16th December, 1957.

Tenders Invited

Tenders are hereby invited from the contractors holding Tube-well Licence of the Calcutta Corporation for sinking 15 Nos. of 1½ in. Tube-wells with deep well pumps within Constituency Nos. 6, 17, 19.

Tenders are to be submitted in duplicate in prescribed forms to be had in the office of the Executive Engineer, Water Works. Tenders under sealed cover superscribed "Tender for sinking Tube-wells" must reach the office of the D. C. II, Corporation of Calcutta on or before 12 Noon of the 24th December, 1957.

Their tenders must remain valid upto 3 months from the date of opening of their tenders.

The time of completion of the work from the date of receipt of work order, must be stated in their tender. Materials of the tube-wells will be supplied by the Corporation.

The tenderer will have to deposit Rs. 500/- as earnest money at least one day before the date of opening of the tender. The successful tenderer will have to execute an agreement and deposit a sum amounting to 5 per cent. of the total value of the allotted work, as security.

S. C. MUKHERJEE,
Executive Engineer, Water Works.

CENTRAL MUNICIPAL OFFICE.

Disease Germs are likely to lurk.

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying basar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the coolie.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.

S. M. MURSHED,
Offg. Superintendent. S. S. Hogg Market.

All India Writers' Conference Corporation Accords Them A Reception

"WRITERS have moulded the nation by changing the culture and pattern of the society at different times through their contributions in the literature of human society", said Shri Keshub Chandra Basu, Deputy Mayor of Calcutta, at the Reception to the Delegates to the All India Writers' Conference, accorded by the Corporation on December 24. Shri Basu also said that the writers were the torch-bearers of the future generations and they were welding the society through their work. He appealed to them, in conclusion, to make the people inspired with civic senses which would build a better and brighter society.

Many prominent writers of repute attended the Reception held by the Corporation including Shrimati Mahadevi Varma, Shri Mulk Raj Anand, Shri Joshi, Shri B. V. (MAMA) Warerkar, Shri S. B. Rao who presided over the different seminars of the All India Writers' Conference held at Mahajati Sadan from December 23.

Shri B. V. (MAMA) Warerkar thanked the Deputy Mayor and the Corporation for the honour shown to the writers.

The function was a pleasant one and the Aldermen, Councillors and the prominent writers in Bengali and in other languages were entertained at tea.

Prof. Humayun Kabir, the Union Minister and Chairman of the Reception Committee of the Conference was also present.

The Mayor was detained at Jadavpur where the University was holding its Annual Convocation in the same evening. The Mayor, Dr. T. Sen is the Rector of the University.

FIRST CONFERENCE OF ALL INDIA LITTERATEURS

The first Conference of All India writers, novelists, poets, essayists, short story-writers and playwrights of different major languages in India was held at Mahajati Sadan from December 23 to 25 which was attended by more than 100 delegates from different parts of India. Fraternal delegates from U. S. A., Russia, Hungary, East Germany and Pakistan were also present. Some of these delegates spoke on the occasion. Almost all the prominent writers of Bengal assembled strong and a few of them also took part in the proceedings. Addresses and some of the speeches delivered extempore were of high literary value and subjects chosen for discussion were of much importance to the observers of present-day passing phase of Indian culture and political programme. 'Unity in diversity' was a much talked slogan in the conference though slogan uttering was condemned by some. The National language issue came to the forefront on the first day of the conference and also on the second day when the Prime Minister delivered his address.

The Conference, first of its kind in India, was mooted in Delhi last year when a convention of Asian writers was held. This paved the way for future exchange of thoughts and ideas.

Writers were entertained at Raj Bhavan by the Government of West Bengal. Cultural and entertainment programmes were also arranged by the Reception Committee.

OPENING OF THE CONFERENCE

The function commenced with Vedic hymns along band accompaniment. Prof. Humayun Kabir in his address as Chairman of the Reception Committee, said that it was the task of the writers to build up a sense of solidarity among men conquering the barriers of history, of different cultures, traditions and of geography. It was only then that literary creations became masterpieces and they marked man's conquest over man's unwisdom, said Prof. Kabir.

In India, he pointed out, there were varying cultures and traditions. The writers through their unique experiences had to reconcile all of them. They must help to build up a common Indian civilisation, because there was something inherently one in the culture of India, he added. "If we in India remember the richness of our tradition and seek to reconcile and maintain its diversity, we shall be able to make a great contribution to literature," Prof. Kabir said.

He also said that the business of the writers was to unite. And without prejudice, the writers must be frank and sincere and truthful in their approaches. "Everyone is unique; and at the same time everyone is universal," "Each writer is a freeman. In the world of letters, there is a Republic of free men and equal men." concluded Prof. Kabir.

CHAKRAVORTY RAJAGOPALACHARI

In a message to the Conference the elderly statesman of India, Shri Rajagopalachari

warned writers "to keep clear of Government patronage. The favours of Government in whatever form tend to damage the soul of the writer," he said adding: "Thinkers and writers should develop as an independent power in democracy, independent of the party machine and the ballot box."

He pleaded for the retention of English language in India and asked writers to benefit from the study of English literature, particularly its prose technique. It would be a "fatal error" if the Indian writers of today withdraw into the "shells of regional languages, be it Hindi or any other," he said. He advised writers to write in "their own languages in the actually spoken tongue of the people."

SHRIMATI MAHADEVI VARMA

Shrimati Mahadevi Varma, Chairman of the Conference in her address, said that the writers must recognise the richness of diversity of Indian culture and helped to develop the Indian unity on the basis of this diversified richness.

She added that the litterateurs were social creatures. A writer's individual cells must unite with larger universal cells, as it were, and in him there must be no room for narrowness.

Shrimati Mahadevi opined that in India, writers were physically close to each other, but "their hearts and minds were asunder." And it was the writers' job to work for the proximity of the "soul to the soul, of the heart to the heart and the intellect to the intellect", she said.

For the writers the dictum was "Thou Art" "Tat Twam Asi"—the philosophy of the Upanishad.

The discourse on the subject of writers and the language problem was presided over by the eminent English writer Dr. Mulk Raj Anand. He emphasised the need of writing in one's own mother tongue which would give the writer a chance to express himself in full.

STATE AND LITERATURE

Addressing the Delegates on the second day morning on State and Language, Shri Jawaharlal Nehru, Prime Minister of India, said that the language problem might be divided into three categories; the literary side, the educational side and the State side or the service side. He said that conferences like the All-India Writers' Conference should be much more concerned with the educational and literary sides rather than with the State side. So far as the Constitution went, he did not see any difficulty in the development of any language. All major languages of India, mentioned in the Constitution, were being encouraged not only by the respective States but also by organisations which were inter-State or national like the Sahitya Academy. They had only to see that conditions were created for the Indian languages to flourish. He also believed that that condition prevailed in India.

The Prime Minister emphasized that it was for a number of practical reasons that it was suggested that Hindi should be used for purposes of official correspondence in order to replace English. The question, therefore, was very limited and it did not apply to the literary or the educational side of the language problem. It might apply to the administrative field.

Shri Nehru said that there was a fear that in future all examinations for entering the service might rather be advantageous to the Hindi-knowing people. It was a legitimate fear, Shri Nehru commented and said that Congress had made it perfectly clear that nothing should be done and no rule should be framed which in the slightest degree made it more difficult for people speaking languages other than Hindi to pass examinations for entering the service. He should learn Hindi after entering the service.

The Prime Minister said that the worst possible approach towards language was to consider one language as enemy to other and to think that a language could progress by kicking out or by suppressing other languages. In fact, the growth of one language helped to grow another language. A language did not flourish by trying to kick or denounce other languages. It flourished by its capacity to flourish and gained through other languages. Indian languages could profit from close association with each other and intimate knowledge of each other.

The Prime Minister added that the vital problem was to maintain the unity of India, literature or no literature. They should discourage all fissiparous tendencies, the Prime Minister concluded.

THE SPIRIT OF TOLERATION

Shri Kalindicharan Panigrahi of Orissa who presided, said that State and Literature had been found at times to be very friendly while at other times too hostile. Writers and poets in many countries at different periods had suffered and were banished or imprisoned by the State. But in India the spirit of toleration had always remained between the rulers and the writers. It was the writers and the poets who intervened when the State and the people were in the wrong. He suggested that the Government should consider whether they should rationalise the means of production and distribution of books as had been done in respect of many commodities. The State should also extend its helping hand to the famished writers of the country.

Dr. Srikumar Banerjee of West Bengal said that whenever the State took up a high moral attitude, it found writers acting as a ready ally in furtherance of its high ideals. The present Government of India were making gigantic strides towards development. Their foreign policy would also be a source of rich inspiration and the Government could easily get the support of writers towards this.

Dr. L. Jha of Mithila (Bihar) regretted that an ancient language like Maithili had not been found a place in the Constitution and he hoped that the language cultivated by Vidyapati would be accorded its rightful place.

Sri Nityananda Mahapatra of Orissa said that when literature sought the patronage of the State, it made the State to grow powerful. But when the State sought the patronage of the writers it turned to be a Welfare State.

Shri Soumendra Nath Tagore said that there was hardly any meeting ground between the State and Literature. The moment the litterateur became a party man reality eluded it.

PROBLEMS OF INDIAN POETRY AND FICTION

Presiding over the fourth session of the Conference Shri K. L. George dwelt on the problems of Indian poetry and the of paint of realism in literature. The discussion was lively and many men of letters participated in it.

MODERNISM AND INDIAN LITERATURE

Shri Uma Sankar Joshi, the famous Gujrati poet and short story-writer who presided over the Thursday morning session said that Indian literature owed much to English and other European languages. He believed in the fusion of knowledge and emotions which enriched the literature.

NOTICE

The "Calcutta Municipal Gazette" will not be published on the 4th January next on account of Year Ending and New Year's Day holidays.

The Market Prices current will, however, be issued as usual on that date.

The next issue of the 'Gazette' will appear on the 11th January 1958.

THE EAST AND THE WEST

The three-day session of the All-India Writers' Conference concluded with an address by the Vice President of the Indian Union, Dr. S. Radhakrishnan on the 25th December afternoon.

"Today Indian literary artists have a great function to perform. They have to portray the pathos, failures, disruptions and the self-betrayal of our country" said Dr. Radhakrishnan.

"In India there was corruption in high places; we were experiencing great economic distress; there were national differences and dissensions which often divided us from one another. If the literary artists were able to capture the atmosphere of the country and direct it so as to remove the blemishes which made us ashamed of ourselves when we looked at the things happening in different parts of the country,—if they themselves did not participate in these disputes and dissension but were able to hold up the vision of India as unity and humanity as one,—they would have done a great deal" the well-known philosopher also said.

He said that the human race had stemmed from the same stock and branched off in different regions and was converging towards unity. A peculiar feature of this age was what might be called the physical contact of the East and the West but the spiritual encounter between the two. This

Jadavpur 'Varsity Convocation

"Life requires something more than clever Engineers"—says SHRI NEHRU.

DURING these days of conferences, conventions and assemblages came off the Annual Convocation of Jadavpur University on Tuesday, the 24th December. The University has its birth two years back only, but the National Council of Education, outlived more than half a century, has become one of the popular institutions in the country imparting a kind of education on its realistic approach through its College of Engineering and Technology.

Founded in a period of India's regeneration the college owes its existence to the great national leaders of India. The institution is associated with the names of not only the great leaders like Shri Aurobindo, Poet Rabindranath, Surendranath and others but also great philanthropists like Raja Subodh Mullick and others who had contributed much to build up the present institution. This was gratefully remembered by the authorities by placing marble busts of those great on the backdrop of the dais.

Since the inauguration of the University, Arts, Sciences and other branches of studies have been taken up. And this is the first year when fourteen students took Master's Degree in Science. As in previous years 180 students received Bachelor's Degree in various branches of Engineering.

The function started with a ceremonial procession led by the dignitaries followed by an Alumni procession. Earlier the Chief Guest, Dr. Zakir Hossain, the Governor of Bihar, and the Mayor, Dr. Triguna Sen, who is the Rector of the University, inspected the N. C. C. Unit of the institution. The Rector, who also addressed the students, distributed the Degrees to the successful candidates. The Convocation Address was delivered by Dr. Zakir Hossain, the eminent educationist of India. The dignitaries which included the Members of the Court and the Heads of different Departments and the graduates wore saffron coloured silk robes.

The Indian Prime Minister, Shri Jawharlal Nehru, who also addressed the gathering said that engineers and technologists were in a sense more vital for a nation than administrative personnel.

Held under a large decorated pandal on the grounds of the University the Convocation was attended by more than 15,000 people. Along with it an Exhibition on modern techniques of Science and Engineering was organized. A week-long function followed in the premises of the University.

SCIENCE & TECHNOLOGY CAN OVERCOME POVERTY

In his speech, Shri Nehru said that science had given man power of a neutral thing which was being used for a wrong purpose and the world periodically indulged in violence and slaughter. One of Gandhiji's most important teachings was to regard means as important as ends or even more important. If that was understood perhaps many of the world's problems would be simpler of solution. It was not enough to be good engineers. It was as important to be good citizens and to use knowledge for the right purpose.

Uttering a word of caution, Shri Nehru said that 'in the world to-day there was a vast number of highly trained scientists and technologists, but unfortunately many of them are at one another's throats most of the time'. 'It is no good being a skilled scientist, engineer or technologist if that skill results in the world being led in the wrong direction', he added.

Addressing the students, the Prime Minister of India also said: "You cannot be out of touch

with the spirit of the times. You should be in time with what may be called the "Yugadharma". If you retire from the world and go into solitude—that is a different matter but no social life is possible and you are a complete misfit if you are out of touch with the spirit of the times". He also said, "I do not know what was the state of affairs in what is called the golden age when all people were supposed to be prosperous or whether any such existed at all. Essentially speaking, poverty has been with us throughout the ages. And it is only with the development of science and technology that human beings possessed the power to overcome poverty."

HUMANISTIC APPROACH

A most befitting address was made by Dr. Zakir Hussain. "The engineer should not turn his mind into a machine incapable of appreciating what life had to offer. Is it not possible so to

❖

**ANNUAL CONVOCATION
OF
JADAVPUR UNIVERSITY**

The Rector, Dr. T. Sen, receives the Indian Prime Minister, Shri Jawaharlal Nehru, with a warm handshake on his arrival.

Before that the Mayor of Calcutta garlands Shri Nehru.

❖

Dr. Zakir Hussain, Governor of Bihar, who addressed the graduates, the Rector and others listening to the Prime Minister's speech with rapt attention.

IN REVERENCE THEY PAID THEIR TRIBUTES

CALCUTTA observed the Birth Centenary Week of DR. SUNDARI MOHAN DAS, a great national leader of Bengal, with an eventful career for the cause of the country. Besides, he founded many of the philanthropic and educational institutions in the city.

Having graduated in Medicine from the University of Calcutta, Dr. Das built up a vast and lucrative practice here in this city. Belonged to a sacred school of the Sadharan Brahmo Samaj, Dr. Sundari Mohan was one of the few noble souled persons who devoted a part of his daily income on charity and had never accumulated wealth.

During the partition days of Bengal, Sundari Mohan whole-heartedly joined the Swadeshi Movement under the influence of Surendranath Banerjee. He also responded to the clarion call of Mahatma Gandhi. In 1921 he founded the National Medical Institute in order to instill the spirit of service amongst the students. He was its Founder Principal for long 23 years.

Under Deshabandhu Chittaranjan's leadership Dr. Sundari Mohan entered the Corporation as its Councillor and was the Chairman of the Health Committee for several years. He then rendered conspicuous civic services to the citizens.

Dr. Das wrote a few popular books on medical science and nursing. 'The Calcutta Municipal Gazette' had also published a number of his illuminating and illustrated articles on public health.

Though born in Sylhet, now in the East Pakistan, he spent the major part of his life in this city and breathed his last here in 1950.

The Birth Centenary Celebration was inaugurated on the 16th December last, at the building of the National Medical College, Park Circus area, wherein a large number of Dr. Das's admirers, devotees and students attended. Shri Hemendra Prasad Ghosh, who presided, recalled his long association with Dr. Sundari Mohan. Dr. Kalidas Nag, who acted as Chief Guest, and others including the Mayor, Dr. Triguna Sen, spoke about him. Kavisekhar Kalidas Roy read out a poem from his own composition.

In the above picture the President of the College Council, Shri Satinath Roy, garlanding the bust of Sundari Mohan in the College premises, while the Mayor, Dr. Sen as Vice-President of the Srihatta-Sammilani, who garlanded the bust earlier, stood in reverence along with Shri Ghosh.

In another meeting to observe the week held on the 21st December last, at Rammohan Library Hall, Upper Circular Road, Shri Saumendra Nath Tagore, Shri Vivekananda Mukherjee, Dr. Devâprasad Mitra and others discussed many of the qualities of head and heart of Sundari Mohan. Shri Ghosh also presided on that occasion.

It was further resolved to associate the name of Sundari Mohan with the National Medical College.

fashion our first degree courses as to aim at giving some measure of the essential scientific, aesthetic and moral culture by having represented in it the broad fields of the humanities, the physical sciences and the social sciences? A system of literary, scientific and technical education on national lines and under national control could not be easily evolved without a live, humanistic approach," he emphasized.

Dr. Zakir Hussain also said that a close relationship between engineering and scientific study and research was clearly indicated. The engineer had to understand and appreciate the urges and aspirations and limitations of human beings.

"Students should be worthy worshippers at the shrine of life and work incessantly to develop to the fullest extent the capacities with which Nature had endowed you" he said to the students.

Continuing his speech, Dr. Hussain said:—

"Strengthen your will and train it to express itself not only spasmodically in torrential impetuosity, but in a steady flow of

sustained effort capable of realizing end which takes time to get realized.

Remember your values and see also the other man's point of view, to understand and appreciate it before accepting or rejecting it.

"Remember that youth is not an attainment. It is an opportunity—don't let that opportunity go by."

Before conclusion paying tributes to those who had helped to build the institution and to Bengal in general, Dr. Hussain said: "Bengal, the pioneer in other fields of national awakening—social, religious, political and economic—was also the leader in the field of national education. We owe a great debt of gratitude to you of the National Council of Education which showed the way and set the style. The work that has gone on at this centre and the names of many who in the face of great odds have helped to ensure its growth and development have been a great source of inspiration to the generation to which I belong."

ALL INDIA WRITERS' CONFERENCE (Contd.)

(Continued from page 287)

distinction was one of emphasis but not of kind. They had great scientists in India and China and also great mystics in the Western world. It was, therefore, just a matter of distribution of emphasis.

So far as literature was concerned, Dr. Radhakrishnan said, there had been one common ideal in both the East and the West. He recalled a statement of Cicero (made 2,000 years ago), who had said that the greatest danger to the human race was the inclination on the part of one to force others to behave in the way he did. This tendency was the greatest danger so far as humanity was concerned. They had learnt a lesson from it.

In India, the Vice-President said, they had always interpreted literature as something which gave expression to the freedom of the human spirit.

Dr. Radhakrishnan explained that there was nothing higher than the soul. For the sake of one's self one might some time have to give up the world. It did not mean an escapist philosophy. Pascal had once said man was a thinking reed and argued that unthinking forces might crush the world but they did not know what they were doing. Human individuals knew what they were doing and that marked the distinction between the human and non-human elements in the world. The unthinking elements might do great things; they might spread epidemic; they might devastate the world but they were unaware of the qualities of self-consciousness of self-knowledge which a human being had.

This self-consciousness and self-knowledge, Dr. Radhakrishnan said, gave dignity to the human soul. That was why Jesus had said a human individual should not barter away his soul. When he did that he became a mere item in the series of objective happenings and reduced himself to an object and ceased to be a subject. He forfeited the dignity of the human being.

When they were called upon to protect the dignity of the human being, they should take care of that attitude of self-consciousness and self-knowledge which gave them the power of choice and freedom. When a man lost that sense, his subjectivity was completely lost. The development of the human being to the highest level, the fulfilment of the human nature was their objective. Political arrangements, economic devices and social institutions were all intended to promote this freedom of the human individual, continued the Vice-President.

When Marx criticised the industrial revolution, he said that he did not want to reduce the human being to a mere cog in the social machine. He denied God but he believed in the potential divinity of man. He wanted man to grow to the stature of divinity.

Dr. Radhakrishnan believed the East and the West were now getting nearer to each other. It was a kind of spiritual encounter which they were having and it was possible for the literary artists to rise above the petty conflicts and also to bring about what might be called a cultural solidarity or fellowship in the world as the unity of the world could not rest on mere political arrangements, economic alliances or social factors. It could rest only if they were able to produce a sense of psychological coherence, a sense of world unity among the peoples.

Literature, the Vice-President said, had a great part to play in engendering this self-consciousness that "we all belong to human family". That was what the literature was expected to achieve, the speaker added.

Shri B. V. Warerkar, the famous Marathi writer who has translated all the novels of Bankim Chandra, Sarat Chandra and a few of Prabhat Kumar's into Marathi, presided on the last session of the Conference and many writers of different languages participated including Shri Annada Sankar Roy, the famous Bengali litterateur.

Calcutta Looks Ahead

A NEW STUDENTS' HOSTEL

Work on a new building mainly for a students' hostel to be named after Rashtrapati Rajendra Prasad has been started. Land has been purchased at a cost of nearly Rupees one lakh and the framework is in progress. The Bhawan when completed will be of five storied one consisting of a students hostel, a library, lecture hall and other youth welfare activity centres.

An association which is running about eight hostels with total accommodation for 800 students at present, has already received for the Bhawan Rs. 3 lakhs from the Government of Bihar out of the total sanctioned sum of Rs. 4 lakhs. Government of Bihar is said to have agreed to give Rs. 8 lakhs in all while the rest 2 lakhs required for completion of the Bhawan will be raised from private sources. A Trust formed for this purpose has collected more than a lakh of rupees till now.

LATE JANAB ABDUL RASUL'S PORTRAIT IN ASSEMBLY HOUSE

The State Government have decided to put up on the lobby walls of the Assembly House a portrait of the late Janab Abdul Rasul, Barrister-at-law, a well-known nationalist Muslim leader, who played a prominent part in annulling the Partition of Bengal during the years 1905-12. The late Janab Rasul who hailed from Tipperah not only distinguished himself as a Barrister of the Calcutta High Court but was also held in esteem for his Catholic views.

TALLA BRIDGE TO BE WIDENED

The road over-bridge on the Barrackpore Trunk Road, situated across the Chitpur Railway yard and known as "Talla Bridge," will be widened at a cost of over Rs. 48 lakhs.

The over-bridge is jointly maintained by the Railways and the West Bengal Government Road Authority equally shared by both. The Railways will pay a little less than one-third of the total estimated expenditure, so far gathered.

SIR JOHN ANDERSON HEALTH SCHOOL

West Bengal Government have agreed to take over from the Indian Red Cross Society the administration of Sir John Anderson Health School at Gokul Boral Street, a residential institution for training of health visitors. The institution, only one of its kind in Eastern India, has been training, free of charge, health visitors from Bihar, Orissa, Assam, Manipur and Tripura.

The Indian Red Cross Society, make a lump sum donation of Rs. 2 lakhs to the institution.

NEW STATE TRANSPORT AUTHORITY

The Governor has constituted a State Transport Authority with the Transport Commissioner, West Bengal, as the Chairman and the Assistant Secretary to the Home Transport Department, as the Secretary.

The State Transport Authority will co-ordinate and regulate the activities and policies of Regional Transport. The Regional Transport Authority, will perform those duties in respect of any route common to two or more regions, settle disputes and decide all matters on which differences of opinion arise between the Regional Transport Authorities and discharge such other functions as may be prescribed.

NEW COURSES ON ADVERTISING

In order to train up young men wishing to become advertising practitioners, efforts are being made to persuade Calcutta and Madras Universities to start Courses on Advertising by the Advertising Agency Association of India. This was announced at the annual meeting of the Association held in the city recently. The Association is also making similar efforts in Bombay.

In view of the necessity to sell more Indian goods abroad, the Government should give more importance to advertising for effective publicity of such goods. The task of advertising is to ensure absorption by the public of goods produced in the country. The Association also wants to set up a library in this connection.

POST GRADUATE DIPLOMA IN AGRICULTURE

The West Bengal Government has decided to introduce a Post Graduate Diploma Course in Agriculture at the State Agriculture College in Tollygunge.

The new course will be started from June, 1958. The course will be open to the graduates of the college and would be of one year's duration. Only 20 seats will be available for the purpose at present.

The University of Calcutta has approved the scheme. Total cost to be incurred by the State Government for this new course in the college would be Rs. 6,500 per year.

MARTYRS' MEMORIALS

The West Bengal Government has decided to erect suitable memorials for those who were either killed or suffered long terms of imprisonment during the freedom campaign.

This was announced in the West Bengal Assembly recently by the Speaker. The State Government has appointed a Committee to inquire and ascertain the names of such persons. Shri P. C. Sen, Food Minister, Shri K. P. Mukherjee, Home (Police) Minister, and Shri Siddhartha Sankar Ray, Judicial Minister, are the members of the Committee. The city itself will hold a number of such memorials, no doubt.

A NEW SCHOOL BUILDING

Arrangements are being made by the West Bengal Government to move the Sakawat Memorial Girls' High School on Lord Sinha Road, to a residential building near the area. The present three-storeyed school building was condemned by Corporation as insecure one about two years ago.

Notices have also been issued to acquire the land on which the building is situated so that a new building might be erected there.

Views & Reviews

CORPORATION CONDOLES RAILWAY VICTIMS

Corporation's weekly meeting on Friday, the 20th December, was adjourned for the day as a mark of respect to the memory of those who were victims of the Railway travel on the occasion of the inauguration of the electric traction in Howrah Section of the Eastern Railways. The 'unfortunate tragedy occurred' on the 14th December last.

Before adjourning, the House observed one minute's silence praying peace for those departed. The House also expressed its sympathy to the members of the bereaved families. It further prayed for the quick recovery of the injured.

The motion which was moved by Councillor Anil Maitra stated that a fuss had been made about the Inauguration Ceremony. The Prime Minister was dragged into the affair and a publicity campaign was organized to attract a large crowd. Considerable money had been wantonly spent but the minimum safety arrangements were not made by the Railway Authorities.

Describing the gravity of the folly, Councillor Maitra stated the circumstances which led to the disaster. He said that 'in the age of Sputnik, senseless fuss was made about the function. It was forgotten that electric trains had been in operation in Madras and in Bombay for years. The tragedy lurked from the very beginning in the self-glorification, which inspired the proceedings from start to finish, could not but end in grim tragedy.'

The motion demanded an immediate and thorough inquiry into the incidents and removal of the Eastern Railway's General Manager, 'who displayed utter irresponsibility before and after the incident.'

The motion was duly supported by Councillors Satyananda Bhattacharyya and Ranajit Coomar Mitter.

As the motion for adjournment for the day was raised several members showed their inclination in its favour but they wanted to have the proceedings adjourned for ten minutes only. But when the original motion was put to vote they declined to linger on the voting question and it was thus passed.

ASIAN MAYORS' CONFERENCE

The Tokyo Metropolitan Government planned earlier to hold the First Asian Mayors' Conference in that city during this year. But this could not be arranged due to various reasons. It has been suggested to hold the same during the session of the Asian Games in May, 1958, in Tokyo. Nearly fifty Mayors, Deputy Mayors and other representatives of twenty cities and towns in Asia are expected to attend that conference, so far it has been gathered. The programme of the conference includes discussion on various problems common to respective cities and towns as well as promoting the bond of friendship and amity among countries and cities concerned.

In that connection Mr. M. Kamijo, Speaker of the Tokyo Metropolitan Assembly and Mr. R. Yanda, Director of the Department of Foreign Affairs, Tokyo Metropolitan Government, met the Mayor of Calcutta, Dr. Triguna Sen, in his Office at Central Municipal Office Buildings, S. N. Banerjee Road, a few days back. They had a prolonged talk with the Mayor about the conference. The ex-Mayor, Shri Naresh Nath Mookerjee, the present Deputy Mayor, Shri Keshab Chandra Basu, the Commissioner, Shri B. K. Sen and others were present on the occasion. The party left for Bangkok immediately after on their tour of the South Eastern Asia.

It may be recalled here that the idea of holding the First Asian Mayors' Conference was mooted by Shri Naresh Nath Mookerjee, the then Mayor of this city in 1954. Some progress was also made in that connection but unfortunately the conference could not be held due to some reason or other.

However, it is an happy augury that Tokyo, a city of the Far East, holding the highest number of population among the cities of the world, is going to take the lead in this regard.

MUNICIPAL EMPLOYEES

It was reported a few days ago that about 20,000 employees of the 86 Municipalities within the State staged a day's token strike. The strike was called by the West Bengal Municipal Employees Federation. Their main demands included a claim to place the employees in equal status with the Government employees, stability of services of the conservancy staff and payment of equal emoluments as regards Dearness Allowances with the Government employees.

Employees under water works, ambulance, hospitals and essential services did not resort to strike. As a result of peaceful strike no unhappy incident was reported.

In West Bengal, we find that the minimum rate of wages allowed to municipal employees very often stand below their subsistence level. And whatever amounts of emoluments the employees have been able to squeeze out of their respective municipal funds is mainly due to their organizational efforts and strike threats. The root cause is, no doubt, paucity of funds and the problem has been keenly felt by almost all the municipalities in the State. Government aid in the shape of subventions and advances as loans has little benefitted them in comparison with their mounting problems.

The Minimum Wages Act, as envisaged by the Government of India, cannot be applicable to many of them as their strength does not reach the required level. But unless an uniform rate of wages to these employees is being introduced the efficiency of the municipal services is sure to suffer. And it is the Government of the State which should come forward and see that civic life within the State is ensured with efficient and timely services in all directions.

Personalia

LORD PETHICK-LAWRENCE IN THE CITY

Lord and Lady Pethick-Lawrence, a former Secretary of State for India, made a short visit in this city during last week. The party reached the city on Wednesday, the 18th December last, from Baranasi on the last lap of their tour of India.

During their stay in the city, they visited the Victoria Memorial Hall, the Indian Museum, Belur Math, the Zoo, the National Library and the West Bengal Government emporium. Lord and Lady Lawrence also paid a visit to the place of Shri K. C. Roy Chowdhury, at South Calcutta, an old friend of the family,—in one day. They had a long talk on the topics of these days pertaining to labour problems. It may be recalled here that Shri Roy Chowdhury is the grand-father of our Councillor Raj Satyendra Mitra.

Addressing a meeting at the Indian Association Hall, on Saturday, the 21st. December last, Lord Pethick-Lawrence said that India would have to go through an industrial revolution if it was to keep pace with the great nations of the world.

One of the things that had struck him most during his four-week tour of India was the magnitude of the problem of unemployment. In the U. K. there was full employment at present. The U. K. was a welfare State. The result had been that the standard of living was going up and most of the people were well-off. He said that this was the best guarantee of economic stability in the country. He said all these things when he was cordially received at the Association Hall.

Continuing his speech, Lord Lawrence said that India was taking steps to realize that ideal. In this context he referred to the educational schemes which were being implemented. Before the end of the Third Plan every child in town or village would have to be given primary education, he added.

MR. MALCOLM MACDONALD IN THE CITY

Mr. Malcolm Macdonald, High Commissioner in India for the United Kingdom, arrived in the city for a three-day visit from Delhi on Friday, the 18th December last. He was received at the airport by Maj.-Gen. W. H. A. Bishop, U. K., Deputy High Commissioner in Calcutta.

In the evening the High Commissioner attended a Reception given to the Commonwealth Parliamentary Conference delegates by Maj.-Gen. Bishop at his residence at Theatre Road. Before that he met the city's important journalists and discussed with them a few points on the role of U. K. in bringing about peace in the world.

On the 14th Mr. Macdonald attended the Annual Meeting of the Associated Chambers of Commerce of India.

On the third day, Mr. Macdonald left for Asansol and Durgapur.

MR. U. NU, PREMIER OF BURMA

Calcutta University's 'Kamala Lectures' for 1948, were delivered by the Prime Minister of Burma, Mr. U. Nu on the subject of Buddhism in South East Asia. The series spread over four lectures commencing towards the middle of this month.

The Burmese Premier said on the first day that the Buddha attained enlightenment only when he discarded extreme asceticism and sensual enjoyment and took the Middle Path.

Explaining why more and more people had been attracted to the Buddha's teachings Mr. Nu said that persons with great compassion resolved to attain Buddhahood to liberate themselves from old age, disease, death and rebirth, he said in one of the days.

The 2,500th death anniversary of Gotama Buddha had ushered in a new upsurge of Buddhism

MR. U. NU REPLYING TO THE ADDRESS.

in South East Asia, said Burmese Prime Minister in course of his concluding lecture.

In another day, replying to a Reception accorded to him by the Nikhil Bharat Bangabhasha Prasar Samity, Mr. U. Nu said, 'Bengali is the sweetest language that I have ever heard. Whenever I listen to it, it seems to me as a poetry with all its charms and rhymes'. An address was also presented to him by Shri Sailo Kumar Mookerjee, a Vice-President of the Samity. Earlier, the address was read by its Secretary, Shri Jyotish Chandra Ghosh. It expressed satisfaction for the part played by Mr. Nu in spreading the Bengali language in Burma by instituting an Essay competition and creating an endowment prize in the name of the late Dr. Syamaprasad Mookerjee in the Rangoon University. Twenty-four famous Bengali books written by Rabindranath, Bankim Chandra and others dealing mainly on religious matters were also presented to the Rangoon University on that occasion through him. The Premier also looked round the Ramesh Bhawan, the place of Bangiya Sahitya Parishad, Upper Circular Road, where the function was held.

A SHORT NOTE ON CALCUTTA OF 1850

[By SHRI JATINDRA MOHAN DATTA]

CALCUTTA is now a city of palaces. The New Secretariat Building on the Strand Road is thirteen stories high. But what was the position, say, a century earlier? Mr. F. W. Simms, C. E.: Consulting Engineer to the Government of India and Director of the Railway Department, surveyed Calcutta within the jurisdiction of the Supreme Court of Calcutta (now the ordinary original civil jurisdiction of the High Court) under orders of Sir T. Herbert Maddock, the then Deputy Governor of Bengal, and submitted a report in August, 1850. His report is full of detailed information.

He divided Calcutta into two parts: North and South. The dividing line was Bow Bazar Street, Lal Bazar Street, north side of Tank Square (now Dalhousie Square, popularly known "Lal Dighi"), Fairlie Place to the River. He found the area to be:—

	Bighas	Cottahs	Ch.	Ft.
(i) Within the limits of the Commissioners for the Improvement of Calcutta under Act XVI of 1847	10,958	0	8	44
(ii) The Maidan, its enclosures, viz., the Cathedral, the Jail Sec.,* and also the Cooly Bazar	3,564	11	6	29
(iii) Fort William	521	7	8	32
(iv) Tolly's Nullah, west of Alipore Bridge	76	0	7	12

Total Area of Calcutta ... 15,115 8 10 27

Or in square miles 7.80755848.

Or 7 sq. miles 516 acres 3 roods, 13 rods, 28 yards.

*The Presidency (Haringhary) Jail has now been removed to Alipore; and the site occupied by the Victoria Memorial. It was here that Kanai Lal Dutt and others were hanged; and we can point out the spot.

He found places of worship with their grounds to occupy 96 bighas 8 cottahs 5 chittaks and 15 square feet; burial grounds occupied 32 bighas 12 cottahs 2 chittacks 23 square feet; bazars or markets occupied 95 bighas 10 cottahs 6 chittacks 6 square feet. The space between the water's edge of the River Hooghly and the Strand Road measured 70 bighas 4 cottahs 10 chittaks 15 square feet.

The following percentages showing how Calcutta was then occupied and divided are interesting:—

	per cent.
(1) Area under Act XVI of 1847	72.47
Private ground built upon or vacant, including Tanks	57.59
Public Highways	9.57
Public Buildings with their grounds and Tanks	1.87
Public Areas enclosed or open with their Tanks	0.92
Places of Worship with their grounds	0.66
Burial Grounds	0.21

Bazars or Markets	0.68
Charitable Institutions, with their grounds and Tanks	0.59
Space between water's edge and Strand Road	0.46
(2) Maidan	28.58
(3) Fort William	8.45
(4) Tolly's Nullah west of Alipore Bridge	0.50
Total	100.00

The number of Tanks and their total areas were:—

	No.	Area
Public Tanks	18	79 B. 11 K. 6 Ch. 7 sq. ft.
Private Tanks	1010	469 B. 10 K. 2 Ch. 28 sq. ft.
Tanks in Maidan	20	99 B. 9 K. 8 Ch. 20 sq. ft.

Total 1048 648 B. 11 K. 1 Ch. 5sq. ft.

The average area of a private tank was about 9 cottahs 5 chittaks; which shows they were often used for drinking purpose.

The number of places of public worship was as follows:—

Church of England	8
Church of Scotland	1
Free Church of Scotland	1
Roman Catholic	5
Independent Chapels	2
Baptist	8
Chinese	1
Greek	1
Armenian	1
Jewish Synagogue	1
Mahomedan	74
Hindu Temples	167

What is more interesting is that 74 Mahomedan mosques occupy 9 bighas 14 cottahs 2 ch. 27 sq. ft. of land, whereas 167 Hindu temples occupy 10 bighas 12 cottahs 7 ch. 7 sq. ft. of land.

The average mosque occupy 1889 sq. ft., whereas an average Hindu temple occupy 896 sq. ft., a little less than half of the area occupied by a mosque.

There were pucca houses, some of them one storied, some two storied, some even five storied and huts. Their number in the respective divisions are given below:—

Accounts Form No. 109 (Chap. X, Art. 292).

Pucca Houses

Division	1 storied	2 storied	3 storied	4 storied	5 storied	Huts
North	4,072	5,103	499	3	1	35,546
South	1,846	1,425	222	7	0	12,769
Colly Bazar	32	0	0	0	0	1,131
Total	5,950	6,438	721	10	1	49,446

All of them have been described as residences. Putting them as percentages, we get

Huts	79.08 per cent.
1 storied	9.51 per cent.
2 storied	10.29 per cent.
3 storied	1.15 per cent.
4 storied	0.02 per cent.

The five-storied pucca residence was in North Block No. 17, through which the following streets and lanes passed, viz.

Jorasanko Street, Callykur Street, Juggo Mohan Mallik's Lane, Shama Bye's Lane, Narrain Prasad Baboo's Lane, Burtollah Street, Banstolla Lane and Street, Harropooker Lane, Shibtollah Street, Gobhardanga Street, Seekdarparah Street.

It was somewhere near north Burra Bazar area.

It would be interesting to know how over-crowded or under-crowded these huts and pucca houses were in about 1850. Sample enumerations were taken for huts and pucca houses separately. The figures are:—

No. of occupants in Native huts			
Sample	Huts	Occupants	Rate
I.	104	727	7
II.	152	1,145	7½
III.	739	2,992	4
IV.	41	250	6
Total	1,086	5,114	5 (nearly)

Two per cent. sample is a fairly representative one.

No. of occupants in Native houses			
Sample	Houses	Occupants	Rate
I	186	1,186	8.3
II	167	1,442	8.6
III	54	588	9.9
Total	857	8,111	8.7

This sample is also fairly representative. But the huts were not one or two-roomed affairs as now. In Fakeer Shaw's Garden and Singhee's Garden 104 huts were found to have 508 rooms and 727 occupants. Thus on an average each hut consisted of 5 rooms; and had 7 inmates. In an area bounded on the north by Champatollah 2nd Lane, on the south by the Bowbazar Street, on the east by Amherst Street, and on the west by the College Street, the number of inhabitants on the 26th June, 1850, was found to be:—

No. of Buildings	No of Huts	No of inhabitants in Buildings	Huts
186	152	1136	1145

or 8 persons in each building and 7 in each hut.

The following statement by Baboo Bhooban Mitter is very interesting:—

	No. of Buildings	Men residing in the Buildings	
Manicktolla Street	51	404	8
Cornwallis Street	21	178	8
Sukea's Street	18	268	15
Upper Circular Road	8	18	4
Nababdee Ostagur's Lane (now Amherst Row)	19	121	6
Jugol Kissore Das's Lane	18	144	8
Sooreeparah Lane	22	198	9
Amherst Street	15	121	8
Total	167	1,442	8.6

The huts in this area numbered 739 and the number of men therein were 2,992; i.e., 1 hut per every 4 men.

In the area which has Bowbazar Street on the North, Hidaram Banerjee's Lane on the South,

Mudden Dutt's Lane on the East, and Gour Charan Dey's Lane on the West, the figures are:—

No. of Houses	54.
No. of persons in Houses	538.
Average	10.
No. of Huts	41.
No. of persons in Huts	250.
Average	6.

The Huts in 1850 were not over-crowded; on an average 7 men had 5 rooms; there was privacy as well as decency. Further as the huts were not then as closely packed as now; air and sun light came to them; and as there was one tank in every 10 or 11 bighas drinking water could be easily fetched.

The highest level in North Calcutta was 82.14 ft. from Chitpore Bridge along Upper Chitpore Road to the south; and the lowest 18.09 ft. was 400 ft. east of the junction of Amherst Street with Machooah Bazar Road. The difference between the two is as much as 14 ft.

Mr. Simms writes:—

"The levels of the principal thoroughfares only were taken, because in a town where the surface is so uniformly and gently undulating as Calcutta, it is not necessary for general purpose to do more, because the levels of any intermediate points can be seen at once by inspection" (see p. 44).

"The highest part of Calcutta is in Clive Street, opposite Cotton Street".

He has given levels of about 650 stations. Calcutta Corporation can prepare contour maps of the old Town of Calcutta from these data for the use of its Councilors and for public, when they discuss perennial problem of water logging during rains. No doubt the street levels of Calcutta have changed since then; but it is not more than 2 or 3 feet. A general picture of the low lying areas may still be obtained from these data.

Twenty years earlier than Simms, Captain Steel made a similar enquiry about the population of Calcutta in 1831. It was then divided into 40 Thannahs. He divided Calcutta into divisions, corresponding to the then Thannahs, and gave figures for each Thana. His figures for Calcutta are:—

Pucca Houses	15,303
Tiled Huts	19,419
Straw Huts	35,354
Total	54,778

Residents	1,51,410
Ryots	90,267
Proprietors	82,777
Servants	28,866

Employed in the Division i.e., Thannah, residing in another:—

Ryots	22,651
Servants	18,020

Employed in the Division residing out of Town:—

His estimate of total population is 4,10,980. In the year 1800, according to the Report of the Police Committee furnished to Lord Mornington, (Lord Wellesley the Governor-General as he was then), the population was calculated at 5,00,000. And in 1814, according to the late Chief Justice

Sir E. Hyde East, Kt., it was calculated at 2,00,000.

In 1821, four Assessors were employed by whose calculation the population amounted to as follows:—

Christians	...	13,188
Mohamedans	...	48,162
Hindoos	...	1,18,208
Chinese	...	414
Total	...	1,79,917

The Magistrates in the same year calculated:

Upper-roomed Houses	5,480 × 16 = 86,880
Lower-roomed Houses	8,800 × 8 = 70,400
Tiled Huts	15,792 ÷ 4 × 5½ = 21,714
Straw Huts	85,497 ÷ 4 × 5½ = 51,558

Total 2,80,552

and the influx of population daily at one lakh (1,00,000) and the Resident population at 2,05,600.

In 1887, Capt. F. W. Birch estimated the population to be:—

Calcutta, 1st January 1887	Males		Females	
	above 20	below 20	above 20	below 20
English	1288	665	661	524
Eurasian	1904	1046	1150	646
Portuguese	1188	577	921	545
French	70	31	38	21
Chinamen	194	49	86	33
Armenian	291	174	91	80
Jews	109	76	51	71
Mahommedan	7082	2218	8160	1222
Mahomedan	22142	7497	10746	4682
Hindoos	11217	1972	2945	1199
Hindoos	58122	18834	35819	12543
Moguls	242	90	116	99
Parsees	29	8	6	2
Arabs	185	87	44	25
Mugs	400	50	205	28
Madrassees	19	11	17	8
Native Christians	19	11	10	9
Low Castes	9229	2850	5189	1871
Total	108675	86286	61205	23598
	144911		84808	

Total population

229714

Pucca Houses:—	...	14,628
Tiled Huts:—	...	20,804
Straw Huts:—	...	80,567
Total Houses:—	...	65,494
Police Force:—	...	1,858

Why the Hindoos and the Mahomedans have been divided into two categories each has not been explained; and we have not been able to find out the reason. The Arabs were mostly traders from the Malabar coast, who came periodically in their own locally built sailing vessels. The Native Christians numbered 55; which shows that inspite of

A FREE T. B. BED

For perpetuating the memory of Shri Bepin Ganguly a cheque of Rs. 5,000, to be spent to open a free bed in the Chittaranjan Hospital's T. B. Ward, was handed over to Dr. B. C. Roy on behalf of the Central Calcutta District Congress Committee recently. The bed will be named after the late Shri Bepin Behari Ganguly, a Congress leader and M.C.

much evangelical efforts, the progress was very slow.

Let us arrange the figures for houses and huts chronologically.

1821		Per cent.
Upper-roomed Houses:—	5,480	
Lower-roomed Houses:—	8,880	
i.e. Pucca Houses:—	14,810	21.8
Tiled huts:—	15,792	24.1
Straw huts:—	85,497	54.1

65,599

1881		Per cent.
Pucca Houses:—	15,808	22.5
Tiled Huts:—	19,414	27.1
Straw Huts:—	85,854	50.4

70,071

1887		Per cent.
Pucca Houses:—	14,628	22.4
Tiled Huts:—	20,804	31.0
Straw Huts:—	80,567	46.6

65,494

1851		Per cent.
Pucca Houses:—	18,120	20.97
Huts:—	49,445	79.08

62,565

However meagre and imperfect these data are one thing is clear the proportion of straw huts was rapidly decreasing. It was 54.1 per cent in 1821, sixteen years later it was 46.6 per cent. And that of tiled huts was increasing.

The proportion of pucca houses remained almost constant. In 1821 it was 21.8 per cent. thirty years later on it was 21.0. The progress of pucca houses was sky-wards. In 1821, the proportion lower-roomed houses i.e. those of one storey was 62.1 per cent., 80 years later it was 45.8.

The Magistrates in 1821 took each hut to consist of 4-rooms as unit of population. In 1851 by actual survey a hut was a 5-room affair.

MIDDLE CLASS FAMILIES IN CONVENIENCED

Re-action was witnessed following the Union Finance Minister's announcement on the imposition of additional excise duties to replace Sales Tax by the Government of India on certain manufactured goods. At present the State Government levy Sales Tax on mill-made textiles, sugar and tobacco. Confusion also prevailed for few days on the markets of those goods. The announcement caused temporary increase of price in almost all those goods. Cigarette retail prices rose higher than others. The temporary increase varied between 8 and 10 per cent. Going into the root it was found that the limited supply by the manufacturers had resulted in such rise.

The Union Government's decision to increase Rs. 5/- a month the Dearness allowances in the shape of interim relief did not satisfy the employees. They argued that this would not cover even the rise in the price of a few essential foodstuffs. The system of payment of arrears from July through National Savings Certificates placed them in a position not to derive any immediate benefit from this amount. Showing their concern over the situation the representatives of the Central Government's Employees in the city failed to understand the rate of the grant of the relief when the price-index had risen 61.440.

CITY-NEWS-PARADE

OBITUARY: The death of Dr. Sudhindra Mohan Majumdar, Assistant Director of Health Services, Government of West Bengal, occurred on Friday last, in Darjeeling. The late Dr. Majumdar was stated to have been unwell when he left Calcutta for Darjeeling on the 15th December last to inspect the arrangements for the opening of the new Tuberculosis Clinic there. His body was brought down to this city by road and cremated here.

The late Dr. Mazumdar was one of the ablest officers of the State Government. He was in charge of the State Health Services Department dealing with the control of T.B. within the State.

TWENTY-SECOND ANNUAL EXHIBITION OF THE ACADEMY OF FINE ARTS was opened at the Indian Museum on Friday, the 20th December last, by Shri Jamini Roy, celebrated artist. The Mayor, Dr. Triguna Sen, distributed prizes and medals to the best exhibitors. Shri Indu Rakshit and Shri Ganesh Pyne received the West Bengal Government prizes of Rs. 500 each for their tempera.

Speaking on the city's Art Gallery, to be inaugurated soon, Lady Ranu Mookerjee, President of the Academy, said that much thought and care had been taken to draw plans for the building of the same. Art objects for it were being acquired. There were in West Bengal many old and rare works of art. She appealed to people to contribute whatever they could to the gallery which would stand as a shrine of their cultural heritage. The National Art Gallery will be situated on Cathedral Road, adjacent to St Paul's Cathedral. The boundary walls, the caretaker's quarter and gates of the building for the gallery have been completed.

Shri Rathin Maitra, Joint Secretary of the Academy, said that the organization had opened from March a studio for sketching and chiselling from life. There was a great demand for such studios in India. About 50 artists worked there regularly. Most of them were professionals who found it difficult to have their own studios and models.

There were 329 exhibits which included works in water colour and oil.

The Annual Exhibition of works by students of the Government College of Art and Craft, has also been opened to the public at 28, Chowringhee Road, Calcutta, from Sunday, the 22nd December last. It has undoubtedly impressed visitors. It has over 800 exhibits, including some outstanding works, classified under drawings and paintings, modelling, sculpture, and commercial art.

WEST BENGAL COLLEGE & UNIVERSITY TEACHERS' CONFERENCE held its two-day sessions at Bangabasi College, commencing from the 21st December last. Inaugurating the conference, Dr. D. M. Bose said that more attention to the American experiment should be given in any plan for reform of school and collegiate education in India, specially in West Bengal.

Dr. Bose said that a lesson from a study of the American practice one would derive was to retain in Calcutta

University the present division of the graduate and post-graduate courses into four and two years.

In his presidential address, Prof. K. P. Chattopadhyay referred to three principles which, he thought, should govern education. These were: education should impart a bias in the mind and activities of youth towards co-operation for common welfare on a national and international level; it should meet present social requirements and plan to meet the requirements of the future; and there should be awareness of the aim of training by those who controlled or gave education and by those who received it.

On the second day the conference adopted several other resolutions relating to the Board of Secondary Education Bill, sponsored colleges, language problem and the service conditions of college teachers. It urged the Government to withdraw the Secondary Education Bill, then pending before the Legislative Council, because, in the opinion of the conference, officials and nominated members would dominate the new Board; representation of University, college and school teachers on it would be meagre and the Board would have only advisory powers.

A NEW BLOCK IN R. G. KAR MEDICAL COLLEGE was opened by Dr. A. B. Roy, West Bengal's Health Minister, on Thursday, the 19th December last. It has been named after General Sura Shum Shere Jung Bahadur Rana of Nepal, who gave more than Rs. 1 lakh for the building. The foundation-stone was laid by the late Sir Nilratan Sircar in December, 1941.

The block, built on the north side of the campus, houses the offices of the Principal and the Hospital Superintendent and provides temporary accommodation for the students' common room. Plans for the remaining part of the second storey and for the third, which will provide a lecture-cum-theatre hall to accommodate about 1,500 people, a bigger common room and library, have not yet been implemented. More than Rs. 1.3 lakhs have been spent so far and about Rs. 3.5 lakhs more is needed to complete the scheme.

The Rana, the principal donor, hoped that the institution would continue to do humanitarian work and live up to its tradition.

SOCIAL CRIMES: Calcutta Police have warned motorists about the sale of adulterated petrol. Owners and drivers should check the quality of petrol when taking supplies from pumps.

This warning has been given by the Enforcement Branch who, detected adulterated petrol in a supplier's tanker. The police received information some time ago from the Calcutta Corporation authorities that the supplier had been giving them "petrol adulterated with water" which, they alleged, had resulted in deterioration of the condition of municipal vehicles, including conservancy lorries.

Some time ago the Police visited the Corporation Motor Vehicles, District I Garage in Grey Street and took samples from the reservoir and from a tanker which had just arrived there. The samples, have been found to be adulterated on analysis by the West Bengal Government's Chemical Examiner.

ALL-INDIA PHOTOGRAPHIC EXHIBITION was inaugurated by Shri S. C. Roy, Sheriff of Calcutta, at Raja Nabakissen Street, on Sunday, the 22nd December. About 250 photographs were on view at the exhibition, organised by the Association of Photographers.

Shri Roy, who also distributed prizes and certificates of merit to successful competitors, said that photographic material was mostly imported. Efforts should be made to produce such material in India. Shri Bishwamath Roy, the Association's President, also spoke.

RADIOTRONA

7-1A, LOWER CIRCULAR ROAD

Repairers and Suppliers of—

RADIOS, RADIOGRAMS, ELECTROGRAMS, RECORD CHANGERS, TAPE RECORDERS, ELECTRIC GUITARS, AMPLIFIERS, AND OTHER ELECTRICAL APPLIANCES.

CORPORATION NOTICES

To Contractors

Tenders are invited in duplicate for the following and will be received by the 2nd Deputy Commissioner on the date noted for each, up to 12 noon. Each tender in duplicate must be enclosed in a sealed cover and superscribed "Tender for.....". For specifications and tender forms apply to the Keeper of Records. Price Rs. 4/- per set.

1. Supply and delivery of Indian Road Tars during the period of one year from 1st April, 1958 to 31st March, 1959. (Earnest money Rs. 4,000/-).

2. Supply and delivery of Bearing springs, Drawbar Hooks etc. required for the maintenance of Refuse Wagon of Corporation Railway during the year 1958-59. (Earnest money Rs. 750/-).

3. Supply and delivery of Kerb and Channel stones and boundary pillar stones during the year 1958-59. (Earnest money Rs. 750/-).

4. Supply and delivery of Dog-eared spikes, Fish-plates, steel rails and Points and Crossing for the maintenance of the Municipal Railway for the year 1958-59. (Earnest money Rs. 250/-).

5. Supply and delivery of stone chips $\frac{1}{2}$ in. and $\frac{1}{4}$ in. for road works for the period commencing from 1st April, 1958 and ending with 31st March, 1959. (Earnest money Rs. 1,500/-).

6. Sewering Old Ballygunge 2nd Lane (Estimate Rs. 53,600/-). (Earnest money Rs. 1,128/-).

Tenders for 1 and 2 will be opened on 7th, for 3 and 4 on 8th, for 5 on 9th and for 6 on 28th January, 1958. The rates quoted in tenders for 1 to 5 are to hold good for three months and those quoted in tenders for 6 for four months.

B. GHOSH,
Secretary.

Central Municipal Office;
The 23rd December, 1957.

To All Registered Petty Improvement Contractors

District I Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 3rd January, 1958 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer I's Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P.I. works may at the discretion of the Commissioner be forfeited.

121. Repairs to tube-well pump house in Ward Nos. 6 and 17—Rs. 1,902/-, dated 6th December, 1957 (1½ months).

122. Channelling Burtolla Street Ward No. 26—Rs. 4,121/-, dated 8th November, 1957 (1 month).

123. Channelling Burtolla Street from the junction of Kalar Street to Nalini

Set. Road, Ward No. 26—Rs. 2,485/-, dated 24th December, 1957 (1 month).

124. Maintenance and improvement of drainage and road surfaces of road off 170, Raja Dhanendra Street, Ward No. 10—Rs. 4,782/-, dated 3rd December, 1957 (1½ months).

125. Providing hanging racks in D.E.-I's office at 79, Cornwallis Street, Ward No. 15—Rs. 2,518/-, dated 3rd December, 1957 (1½ months).

126. Repairs to bathing platform at 54/4, Grey Street at the junction of Star Lane, Ward No. 13—Rs. 960/-, dated 2nd December, 1957 (1 month).

127. Repairs to footpath of B. K. Pal Avenue between Upper Chitpore Road and Grey Street, Ward No. 11—Rs. 1,745/-, dated 6th December, 1957 (1 month).

128. Repairs to Foreman's Office, Stores and quarters of North Garages at 72/1, Grey Street, Ward No. 13—Rs. 1,546/-, dated 25th November, 1957 (1 month).

129. Repairs to narrow lane at Shyam Seal Lane, Ward No. 25—Rs. 421/-, dated 18th November, 1957 (2 weeks).

130. Repairs to S/D at Baburam Ghose Lane etc. in Ward Nos. 6, 17 and 18—Rs. 1,019/-, dated 13th November, 1957 (1½ months).

131. Repairs to flat stone pavement at 8, Biswambar Mullik Lane, Ward No. 6—Rs. 453/-, dated 11th November, 1957 (3 weeks).

132. Repairs to S/D at 90, Nimu Goswami Lane, Ward No. 18—Rs. 686/-, dated 11th November, 1957 (1 month).

133. Repairs to S/D at 13/5, Nather Bagan Street and at 10, Nather Bagan Lane, Ward No. 17—Rs. 1,616/-, dated 11th November, 1957 (1½ months).

134. Repairs to S/D off 35 and 55, Sikdar Bagan Street, Ward No. 10—Rs. 781/-, dated 11th November, 1957 (1 month).

135. Repairs to S/D off 14, 16, Raja Raj Ballav Street, Ward No. 8—Rs. 1,056/-, dated 11th November 1957 (1 month).

136. Repairs to narrow lane at Sukhlal Johuri Lane, Ward No. 25—Rs. 1,188/-, dated 11th November, 1957 (1 month).

137. Repairs to narrow lane at Sett Bagan Gully and Umesh Dutta Lane, Ward No. 20—Rs. 1,607/-, dated 19th November, 1957 (1 month).

138. Supplying earth for dressing and levelling in Jorabagan Park except Tube-well site and area occupied by children's corner—Rs. 2,025/-, dated 6th December, 1957 (3 weeks).

139. Construction of a gully pit off 17, Sham Square Lane, Ward No. 8—Rs. 351/-, dated 10th December, 1957 (1 week).

140. Construction of lampholes in front of 20, Madan Mitra Lane, 21, Girish Vidhyaratna Lane, 45 and 1, Kailas Bose Street for maintenance of drainage adjuncts—Rs. 1,050/-, dated 10th December, 1957 (1 month).

141. Construction of a lamphole opp. premises No. 6, Ananda Chatterjee Lane, Ward No. 7—Rs. 245/-, dated 13th August, 1957 (1 month).

142. Construction of lamphole opp. prem. No. 7 and 11, Lakshmi Dutta Lane for maintenance of drainage adjuncts in Ward No. 8—Rs. 480/-, dated 13th August, 1957 (1 week).

143. Construction of a gully pit opp. 56A, Raja Naba Krishna Street, Ward No. 9—Rs. 355/-, dated 16th December, 1957 (1 week).

144. Construction of gully pit in front of premises No. 2, Balak Dutta Lane, Ward No. 22 for maintenance of drainage adjuncts—Rs. 330/-, dated 16th December, 1957 (2 weeks).

145. Construction of lamphole just opp. to prem. No. 3/2, Kailash Saha Lane and 7, Ramanath Sadhu Lane for maintenance of drainage adjuncts, Ward No. 22—Rs. 427/-, dated 16th December, 1957 (2 weeks).

146. Construction of Bench Shelter in the Children's Park at 9, Burtolla Street, Ward No. 24—Rs. 720/-, dated 16th December, 1957 (1 month).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled.

S. MITRA,
District Engineer I.

District I Eng'g. Office.
The 23rd December, 1957.

District No. II Engineering Department

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 2nd January, 1958 up to 2 p.m.

The abstract of the estimate can be seen at the District Engineer II's Office. (Estimating Section). The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of the tender.

The successful tenderer will have to deposit 5 per cent of the total value of the accepted tender, as security deposit within one week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the Authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

42. Repairs to Engine Room of Mullik Ghat Pumping Station—Rs. 4,311/-, dated 21st December, 1957 (2 months).

43. Improvement of Belaghatta Road by paving with stone sets in front of Sealdah Court, (near 35A Bus Stop.)—Rs. 4,008/-, dated 21st December, 1957 (1 month).

44. Repairs to k. and ch. stone of Kali Shome Street to Upper Circular Road—Rs. 3,033/-, dated 21st December, 1957 (1 month).

45. Repairs to footpath of Strand Road from Mahatma Gandhi Road to Brabourne Road—Rs. 3,120/-, dated 21st December, 1957 (1½ months).

46. Thorough repairs to Garage Foreman's Office at 92, Baitakkhana Road—Rs. 955/-, dated 21st December, 1957 (2 weeks).

Please note that the words "two months" as printed in italics in clause 8 of the tender form, is to be scored and noted in ink as "three months" and initialled in case of above Rs. 1,000 only.

S. K. MUKHERJEE,
District Engineer II.

District II Eng'g. Office;
The 23rd December, 1957.

Renaming of Street

It is proposed that Gas Street in Ward Nos. 32 and 34 be renamed as Jnananjan Neogi Street.

Any person having any objection to the proposed renaming should state the same in writing to the undersigned on or before Thursday, the 16th January, 1958.

A. BHATTACHARJEE,
Assistant.

Central Municipal Office;
The 14th December, 1957.

CORPORATION NOTICES—Contd.

To All Registered Petty Improvement Contractors*Tollygunge Engineering Department.*

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 30th December, 1957 up to 2 p.m.

The abstract of the estimate can be seen at the above Office. The Corporation Standard Specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. on the total value of the accepted tender, as security deposit within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S.D. for P. I. works may at the discretion of the Commissioner be forfeited.

86. Improvement of Minapara Road by rubbishing in Constituency No. 79, Tollygunge—Rs. 1,350.00 dated 12th October, 1957 (1½ months).

Please note that the words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of work valued above Rs. 1,000/-.

A. O. SINHA,
Actg. District Engineer IV,
District IV Eng'g. Office:
The 18th December, 1957.

Tollygunge Engineering Department.

Tenders for the following works are invited and will be received by the Chief Engineer in duplicate in a sealed cover superscribed "Tender for....." on 6th January, 1958 up to 2 p.m.

The abstract of the estimate can be seen at the above Office. The Corporation standard specification will apply on the work. Petty tender forms of the Corporation are to be used in submission of tenders.

The successful tenderer shall have to deposit 5 per cent. of the total value of the accepted tender, as security deposit, within a week from the date of intimation of the acceptance of tender and shall have to execute an agreement in the prescribed form within a fortnight from the date of intimation of the acceptance of tender. In the event of failing to deposit the security amount and/or to execute the agreement within the time aforesaid, the tenderer shall be liable to be debarred from allotment of any further work or contract for any period in future as may be determined by the authority and the S. D. for P. I. works may at the discretion of the Commissioner be forfeited.

87. Construction of surface drain at K. P. Roy Lane, U. K. Mondal Lane and Indrani Park in Constituency No. 75, Tollygunge—Rs. 2,848.00 dated 19th December, 1957 (6 weeks).

Please note that words "two months" as printed in italics in Clause 8 of the tender form, is to be read as "3 months" and may be scored and noted accordingly and initialled in case of work valued above Rs. 1,000.

A. O. SINHA,
Actg. District Engineer, IV,
District IV Eng'g. Office,
The 23rd December, 1957.

PHENEOL LAMP BRAND

BENGAL CHEMICAL & PHARMACEUTICAL WORKS, LTD.
CALCUTTA :: BOMBAY :: KANPUR

A POWERFUL DISINFECTING FLUID

—DISINFECTS—

Drains, Cess-pools, Hospitals, Sick-rooms,
Lavatories and every place where Dirt and
Disease Germs are likely to lurk.

MARKET NOTICES

1. It is recommended that coolies should be paid at the following rates:—15 minutes—Two annas. 1 Hour—four annas. 1 Hour—eight annas. Every succeeding hour or part of an hour—four annas.

2. Coolies for carrying bazar purchases are obtainable at the principal entrances and care should be taken that only coolies bearing number badges are engaged. For the current half-year, "A" class coolies have been allowed Black arm badges with White numbers from Nos. 1 to 350.

3. Any complaints about coolies should be made at the Superintendent's Office giving the number of the cooly.

4. All complaints relating to the conduct of vendors should be made to the Superintendent. No action can be taken where the articles in dispute have been removed from the shop premises or in regard to transaction which are not brought to the notice of the Superintendent at the time of occurrence.

5. To avoid conflicts of statements both as regards the goods purchased and the nature of the sales, customers are requested to insist on getting a voucher, as far as practicable.

6. If goods are taken "on approval" customers are recommended to obtain a voucher to that effect stating the price paid.

7. Any articles lost or found in the market should be reported at the Superintendent's Office.

8. No dogs, bicycles, tricycles, or perambulators are allowed inside the markets.

9. For the convenience of the public a stand is provided at the south-west corner where the visitors can keep their bicycles in charge of the lessee thereof on payment of a fee of 0-1-6 for a Bicycle and 0-3-0 for a Motor Cycle, between 6 A.M. to 7 P.M.; between 7 P.M. to 12 A.M. Bicycle 0-3-0, Motor Cycle 0-6-0 and after midnight Bicycle 0-12-0, Motor Cycle Re. 1-8-0. The Corporation does not take any liability in this connection.

10. Customers are requested that if they suspect any weight used by any vendor of that market to be short, they will bring the matter immediately to the notice of the Superintendent when the weight will be duly tested in the Office and the vendor punished if it is found short.

11. The public and the shop-keepers of the market are requested to assist in the mitigation of the beggar-nuisance by refraining from giving alms of any description within the market.

12. Customers are requested to examine the coins obtained in the course of transaction, before they leave the shop. Ordinarily no action can be taken against the shop-keeper if any spurious coin is alleged to have been detected after they leave the shop.
